This is Red Cross week throughout the United States. Did you donate, or are you a common slacker. Surely there are no slackers in the Cross over the top by Saturday night with her quota. The people of this community are all loyal to the man.

The proprietor of one firm informs and Sunday. this writer that his firm will sell close to a hundred million dollars worth of goods this year. Where is there a firm in a town the size of Cross Plains that will come any there so close to this mark.

Cross Plains is surrounded by the largest and best farming and stock raising country of any town in this part of the state. It's people are the to be found. If you want to live in little over what you will pay 60 best and most progressive any where a real good town, come to this city.

With just alittle more rain at the right time it is likely that great crops will be raised in this community this year. And then our people will walk hand in hand with "Old Man Prosperity". Donate to 'the Red Cross, and help the boys "Over smith tools for sale cheap. e" whip Autocratic Willhelm to his knees.

Mayor Anderson informs us that the new city water from the five, wells just completed will be turned the mains in a few days if not so before this is in print. And acres of sand land near town see seems now that this city will have L. P. Henslee. Much of water for all pur-h praise is due the Mayor other citizens who have so sisted in this new and much I water supply. Now watch Plains grow.

As we stated a few weeks ago this is fly time. The rains have come, The flies are here. Lets clean up and prevent the likly hood of the spread of disease. Why not the Mayor designate a certain day as "Cleanup Day" and let every man woman and child turn out and clean up the old town from border to circumfer- district. ence. Especially does this need to be done in the business section of the town, Every day men of note and means are coming to and through the city, and the cleaner and prettier we can make it look the better impression it will have with the stranger. And then, its a shame for any one's premises to be so filthy. Infact where a fellow is so careless and unconcerned about keeping his property clean, there is a law which can force him to clean up, and it should

# Our Service vs Mail Order Service

How would you like to wait a week or ten days every time you need a spool of thread-a yard of calico-a few bolts, nails, etc?

You wouldn't like it very much would you?

Yet that's axactly the unpleasant predicament you'd find yourself in it there were no retail stores in our town.

Right there is the big difference between store sevice (our service) and mail order service.

We keep a big, well assorted stock, on hand, ready for your instant equirements. We sell you in small quantities - a dimes worth - a nickels worth-or even a cents worth. You have to buy more than you want in order to make up a freight shipment.

You can see and examine and try on the article before you buy-You'll be sure of satisfaction before you take it.

Or, is anything should prove to be unsatisfactory with your purchase we are right here-"Johnny on the spot"-ready to make it right. You don't have a letter or go thraugh any red-tape-or stand another long wait before being fixed up.

Let us repeat. All this service—these convences—would be lost to ou if there were no retail stores in our town. So does'nt the home town merchant deserve your trade-all things being equal?

Let's work together. It's to our mutual interest. We'll do our part always, and make your dealings with us satisfactory and agreeable and ec onomical as it's humanly possible to do.

Will you give us the opportunity-soon? Try us on shoes, for instance In "Star Brand" (all leather) shoes you'll get better values for your money than in any other line. All grades, all styles, all prices, for men, women and children. No mail order house can sell them, besides, you can't be sure of a perfect fit without trying on the shoes. Try a pair

# Our Service vs Mail Order Service

How would you like to wait a week or ten days every time you need d a spool of thread—a yard of calico—a few bolts, nails, etc?

You wouldn't like it very much would you? Yet that's axactly the unpleasant predicament you'd find yourself in if

here were no retail stores in our town. Right there is the big difference between store sevice (our service)

We keep a big, well assorted stock, on hand, ready for your instant equirements. We sell you in small quantities - a dimes worth - a nickals worth-or even a cents worth. You have to buy more than you want in order to make up a freight shipment.

You can see and examine and try on the article before you buy. You'll be sure of satisfaction before you take it.

Or, is anything should prove to be unsatisfactory with your purchase we are right here-"Johnny on the spot"-ready to make it right. You don't have a letter or go thraugh any red-tape-or stand another long wait before being fixed up.

Let us repeat. All this service—these convences—would be lost to you if there were no retail stores in our town. So does'nt the home town merchant deserve your trade-all things being equal?

Let's work together. It's to our mutual interest. We'll do our part always, and make your dealings with us satisfactory and agreeable and ec onomical as it's humanly possible to do.

Will you give us the opportunity-soon? Try us on shoes, for instance In "Star Brand" (all leather) shoes you'll get better values for your money than in any other line. All grades, all styles, all prices, for men, women and children. No mail order house can sell them, besides, you can't be sure of a perfect fit without trying on the shoes. Try a pair

The following letter from Clint Childers at Camp Bowie written to his mother on Mothers Day, will be nteresting and newsy to our readers.

Camp Bowie, Texas, May 12, 1918

It is with the greatest of pleasure that I am writing to you on this Sabboth morning and which is designated as "Mothers Day." I am thinking of you today and of the happy hours I have spent with you, Dear Mother, at home. The President has set aside this day as "Mother's Day" and the Captain has ask each one to write her, and to remind her that we as soldiers, are thinking of her with the tenderest of hearts. However, I am not writing you dear mother, because of his speech, but because of the love for you, which forces me to

You can go up and down the lines f little tents and see so many of the boys with pencil and paper writing to mothers. Some with cheerful faces whose mothers are near by for they can see them every few days, while others wear a more forlorn and lonesome look, because mother is so far away. I feel that I have the sweetest mother on earth. You have raised me with all the love and tenderness of which any mother could possess and for all this love and care, I am indeed greatful, and happy and to whatever success I have attained in life or may expect to accomplish, I am glad to attribute it to your care and teaching mother. And nother I am sorry for all the grief I have ever brought to you, and still I know you do not hold it against me in the least, I can plainly see the er-

### THE BRITISH RETAKE VILLAGE

Events in Russia Indicate Germans Are Planning Military Occupation of Petrograd.

London.-For several weeks pas the enemy has been engaged assidu ously in bringing up guns and sup plies of all kinds and also new forces to reconstitute the units which the American, British and French gun cut to pieces as he tried at various points to break the allied line, and the feeling now is that the work is fairly well done and that any day may witness the commencement of another offensive on the western Allies Ready for Drive.

As ready as is the enemy for th battle stand the allied armies, so faas men and gun power are con age will be gained over them except as has been usual by the payment o an awful price in men fed to the guns. Large numbers of Americans daily are being brought to the front ready for immediate service or are

reinfercing the units under intensive training immediately behind the bat Meanwhile, the big guns continue to roar in mighty duels on various sectors. 6.000 feet high. This increased the difficulties of movement of the com paratively small Italian force which carried out the attack. It was preceded by a short artillery action The infantry advanced over rocky and precipitous heights. The enemy was taken by surprise and could make little effective resistance. The movement was carried out by daylight. All the enemy's defensive works were occupied. An Italian position was established on the crest of the mountain and the surrounding

The chief effect of the action is to dislodge the Austrians from the dominating height in the center of the main highway from the mountains and to give the Italians the advantage of that position with the command it has over the heights and approaches. The result gives great satinfaction, especially as the victory was won on the very spot where Dr. Cesare Battisti, a deputy from Trent, who went over to the Italians, and others of his heroic band, were cap tured during the first offensive. Dr. Battisti was put to death by the Austrians on the charge of treason.
