# Shabby Shoes and Fine Flooring

Did you ever see a person well dressed in ever respect except his shoes and they were shabby? No matter how stylish his clothes were and of what quality, the shabby shoes spoiled his whole appearance.

It's the same with your home, no matter how fine the rugs, furniture, draperies and finish, if the floor is unsightly, the attractiveness of the home is lost. Floors furnish the foundation for a successful interior both as to appearance and color scheme. A good floor is beautiful in itself and supplies the necessary back ground to set off the home furnishings.

There is no better wood for flooring than Southern Pine. The close, compact grade of that wood makes a smooth floor and one that is easily finished. Altho natural light in color the wood may be readily stained any desired color to harmonize with other-woodwork in your home.

We handle flooring of all kinds and will gladly advise you as to its proper use and care.

### Invests in Cross Plains

D. C. Stewart of Ranger. brother-in-law of G. W. Cunning. \$30 per month in addition to uni- want ads will produce place in Cross Plains, and will move his family here for the school. He thinks there is a good future made a good investment in this home, one of the best in town.

## Good Meeting at Pioneer

Pioneer closed on Monday night with great success. Rev. Jim Nicholos of New Mexico did the preaching, and judging from the fruits he must have unusual power as a minister. There were forty-seven additions to the church, twenty-five by baptism The conversions are reported at forty or more. Twenty or twen ty-five conversions were made or nday night.

# War Time Sweeteners

MERICA has several excellent war time sweet-eners that will be used largely during the shortage in the sugar supply. They are maple sugar, syrups, honey and molasses and may be used in preparing desserts and other dishes requiring sweetening.

When a cup of syrup or honey is used to replace a cup of sugar the liquid in the recipes should be decreased one-fourth One-third of a cupful of sugar is equivalent to one-third of a cup of honey, about onehalf cup of syrup and about one-half cup of corn sugar.

half cup of syrup and about one-half cup of corn sugar. One table ets here on Saturday, and Thursday for Camp Travis. Among spoon of sugar is equal to one tablespoon of honey, about one and one-half tablespoons of syrup and one and one and one of corn sugar.

Sugar may be saved by the use of raisins, dates, figs, dried pears and fruit pastes used on the breakfast cereals.

Fruit marmalades, butters and jellies should be used to take the place of the ordinary sweetening at a meal and not as accessories to it. Fruits may be preserved without sugar. It may be added when sugar is more plentiful. Preserving demands this year a thin syrup instead of a

If sugar is used one-half of the amount may be replaced another sweetener. Drying is a means of preserving (without sugar) ap-

ples, cherries, strawberries and black caps.

When ready to use they may have added the needed sugar in the form of a syrup. When sugar is more plentiful fruit juices may be made into jellies or may be used as fruit juices with or without sugar, as beverages, fruit gelatins and frozen desserts.

Fresh fruits supply the place of sugar in the diet. They should be used freely. Desserts where sugar is scarce may be made of gelatins, junkets, custards, puddings and
