**Lazy Dollars**

Dollars merely safe are not performing their natural function. They are not working. They are not doing the owner for the world any good.

Moreover, most hiding places thought to be safe are decidedly unsafe. Not only thieves, but fire or other unforeseen happenings may rob you of your wealth.

**Saving Is Using**

Dollars saved are safer! And they are constantly working to earn more for you. They are constantly working for the good of the whole community.

Consider this: (We pay you for saving. And while you are saving, your money is never out of reach. It is always ready for you and ready to get when you need it.)

## PREPARE FOR THE FLU

Last week I called your attention to the probability of a recurrence of influenza this fall and winter and stated that in the past the death rate grew larger with the recurrence. You were advised to get busy preparing yourselves and your town in anticipation of a recurrence. Since that time reports have reached this department of cases of influenza in three widely separated sections of the State.

While there are many things that have always acted as leading factors in promoting public health work, the dominating impulse should be desire to prevent sickness, suffering and death, a love for one's fellow man and the desire to do everything possible to add to his comfort and welfare. Civic and personal pride follows closely as a factor promoting public health, for a desire to have the cleanest house and the cleanest town should be the pride of every one.

I am now calling upon you to set aside one day this week as "Clean up and Organization Day." Do not stop until you have organized your forces and given your town a thorough cleaning. After a thorough clean up, let us have for motto "No more trash littered back yards, streets or alleys. No more vacant lots overgrown with weeds and grass. No more pools of stagnant water."

I am asking that all Health Boards call a meeting this week and invite the School Boards;—The Commercial Clubs;—The Civic Clubs;—The parent Teachers Association;—The Physician and nurses;—and all other organizations interested in problems of health, be invited to participate and at this meeting organize forces, perfect plans for a present clean up, and provide for follow up workers and emergency demands that may arise.

In an anticipation of an epidemic of influenza or one of any other nature, organize your forces, enroll your workers and have everything ready to meet an emergency at a moment's notice. If your numbers will permit I suggest that the following officers

and committees be appointed, and charged with looking after that particular phase of the work:

- (1) A president, or superintendent of Public Health, with a Secretary.
- (2) A committee to raise funds to meet the demands, present and future.
- (3) A committee of follow-up workers, or inspectors to see that everything is kept in proper shape after having been put in proper condition.
- (4) A committee on Law Enforcement, to see that all sanitary laws are enforced and all offenders prosecuted.
- (5) A committee on Public Health Education. This committee should be composed of Physicians and Nurses, who are willing to devote a short time at stated intervals to giving instruction in public health rules, work and problems.
- (6) A Relief Committee whose duty it shall be to see that all indigent cases are supplied with necessary medical attention, food and clothing during any epidemic.
- (7) A committee of Volunteer Workers. This committee should enroll the names of all physicians and nurses, trained and practical, who are willing to respond to request of the relief committee and give free medical attention to indigents who are not wards of the City or County.

Where your numbers will not permit of organizing so many different committees, you can combine duties and arrange so that all the above mentioned features will be taken care of by such a number of committees as you are able to organize.

That old cry of "the town is broke—we have no funds", can no longer be tolerated, especially since the work necessary entails no heavy expense, and promises so much in return.

Public Opinion is the one influence that knows no restraint, that puts into practice that old adage "Where there is a will, there is a way." It is now up to you to create that sentiment, and you can and in the name and interest of humanity, you should do it.

## THE NEW DE LAVAL

**BUTTER** made from De Laval-separated cream has won first prize at every convention of the National Creamery Buttermakers' Association for the last twenty-five years, as well as in every other important contest, and you must admit that this fact can mean but one thing—

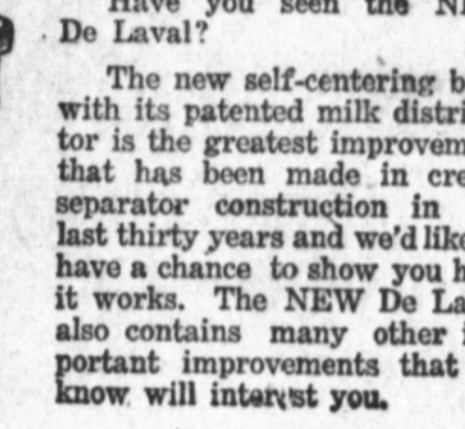

**The De Laval user gets not only more cream, but better cream**

De Laval-separated cream is better simply because the construction of the De Laval bowl makes close skimming possible at a speed so low that the butter-fat globules are delivered from the cream spout unbroken.

If you make butter yourself, or if you ship to a creamery and want the highest rating for your cream, you cannot afford to use any separator but the De Laval.

Have you seen the NEW De Laval?

The new self-centering bowl with its patented milk distributor is the greatest improvement that has been made in cream separator construction in the last thirty years and we'd like to have a chance to show you how it works. The NEW De Laval also contains many other important improvements that we know will interest you.

- All Highest Price Butter De Laval Made**
- The most important butter scoring contests take place at the Annual Convention of the National Buttermakers' Association. The first prize winners at every convention of the Association since its organization in 1892 have been as follows—all De Laval users.

## SALVATION ARMY IN STRICKEN DISTRICT

Relief Workers Rushed to Area Swept by Tide and Storm at Corpus Christi

Relief workers from Texas, Oklahoma and Louisiana Salvation Army posts under orders from Lieutenant Colonel George Wood, commander of the southwestern division of the Salvation Army are now working in devastated Corpus Christi, according to reports from the forty corps cities of the southwest.

Lieutenant Colonel Wood was in Enid, Oklahoma, when the storm struck Corpus Christi. As soon as he had learned the extent of the storm he ordered workers from all posts to the scene of the disaster. He immediately followed the workers, arriving Wednesday afternoon in Corpus Christi.

Supplies and money were sent with the workers. They were ordered to report to Roy Miller, chairman of the relief committee at Corpus Christi. All the finances and workers, with the maximum amount of supplies available, were placed at the disposal of the relief chairman in the stricken city.

Nothing new to report in oildom this week. Most of wells fishing or waiting for material or having other troubles.

## 800 BALES COTTON

On Wednesday 110 bales of cotton were weighed at the local yard, bringing the total up to 692 bales. By the time this is read the 800 mark will be passed. Something more than 200 bales were shipped out on Wednesday. As high as 33.75 was paid for cotton the same day.

Our community is very soon the center of world interest. We feel constrained to introduce "these parts" to the county through your columns. We live in the "sticks" we are industrious, and hope to be the best in our history. We work Messrs Brown and McCarty worked on the oil well and we are near bringing it in that they will bring it in, neither belong to the boosters club. We are all so excited here we fear they will be unable to buy.

Last Sunday, a party of five arrived at Gass Barnetts, from the west section of our State. They are Mr. John Cain and wife, and Sam Barnett and Roy Cain. They say the newspapers have not yet begun to describe the wreck. After talking to these refugees sit in silence and say "English language has no words to describe it." Another noticed them several times smiling at their face and when, and at first attributed it to some nervous disarrangement by the storm, but soon learned a habit from having had a fight "sketchers."

## SCRAPPERS INDUCE MEN TO TAKE WORK

Salvation Army Chairman Influenced by Attitude of Oversea Veterans

Soldiers and sailors who saw service overseas have been instrumental in many cases in drawing prominent citizens into the county and state organizations for the Salvation Army's \$600,000 home service campaign, according to W. P. "Billy" Walsh of Tyler, Texas, who attended the Dallas district session of county chairmen Monday.

"One of the most harrowing tales I have ever heard of," he said, "was told me by a young soldier in our town who tried to enlist a half dozen times. Each time he was rejected because of a bad heart. Then along came the draft."

"His heart was all right when the draft board physicians got to him. He went overseas. Within six weeks of the time he was drafted he took part in an action on the Toul sector. He went over the top and got two machine gun bullets through his shoulder."

"Well, the boy says he stumbled into a shell hole. With him were two more wounded men. One of them had been shot through the stomach. He was terribly thirsty but dared not drink for he had heard that water in the stomach was sure death when the stomach's walls had been pierced by a bullet. The other man had a mangled leg."

"These boys lay there from 3 o'clock one day until 10 o'clock the next day. The soldier with the mangled leg and the one shot through the stomach died. Then help came. The first person to that boy in the shell hole was a Salvation Army man with a pitcher of chocolate. That is why I am chairman in my country."

The time is here when perhaps several thousand dollars will be spent by our community on winter clothing, furniture, farming tools etc. A large amount of this will go to foreign parts unless we stop and consider what we owe our own town. Has it accommodated us in any way? If so let's spend our money. With best wishes for your paper. Contributor.

## CHECK SWINDLER OPERATING ANOTHER PIONEER PASSES AWAY

A smooth check artist worked here on Wednesday and departed with about \$200 of other people's money. He somehow got hold of checks of the Coleman Gin Co. He passed them with the forged signature of H. J. O'Hair, at all three of the local banks and at H. J. McDonald's, to the tune of about \$500. Sometime in the morning he left for greener fields and gathered in about \$130.00 in Santa Anna. On presenting a check at one of the banks there, he was requested to wait until they got into communication with Mr. O'Hair. The bank got in communication with Mr. O'Hair and found that the check was bogus, but the operator didn't wait—he left for Brownwood. He operated in Brownwood, too—but Brownwood being a poor town he didn't get much there—only about \$1,000. He did buy a suit of clothes, however, which enabled the clerk selling him the suit to give the detectives that are already on the job a good description of it.

Both the American Bankers Association and the Texas Bankers Association are after him—and they don't stop until they get their man. It will probably not be long before he is brought to justice as the detectives are close on his trail now. Among the aliases he used here was Lawson, Wilson, Wood, Johnson and Hill. In Santa Anna his name was Miller. We don't know what his name was in Brownwood but it will be "Dennis" when the detectives catch him.—Democrat Voice

## COAST TO COAST U. S. FOR LEAGUE WILSON INVADES HOUSE OF FOES

MILLIONS ACCLAIM WILSON AS HE SPEEDS ACROSS THE LAND.

### FEW ASK FOR CHANGES

Majority Feel That President's Guidance Should Be Held—He Regards Pact As Sure to Come Soon.

(By Mt. Clemens News Bureau) Aboard President Wilson's Special Train—From the Capital at Washington to the far Pacific coast the President of the United States has journeyed on the most unusual expedition ever undertaken by a chief executive of the nation.

To discuss national questions, many presidents have toured the land; but Mr. Wilson is laying before America a question which affects the whole world—the question of whether or not we are to join in the League of Nations; whether we are to forget our former isolation and share with the other peoples of the earth the responsibilities of maintaining civilization and preventing, as he says we can do, future warfare.

Between the capital and the coast the president made fifteen speeches and half a dozen brief talks. All of 100,000 fellow citizens listened to him. Several millions had the chance to see him, and apparently everyone wanted to see him, from those who thronged the streets of the cities and towns where he stopped, to those who came to the railroads or stood at little flag stations in remote places, knowing their only reward could be a fleeting glimpse and a wave of the hand.

He has met and talked to all types of citizens—to men big in the business, financial and professional worlds, to farmers and mechanical workers, to Indians and cowboys and foreign-born herdsmen and ranchers, to soldiers and to mothers who lost soldier-sons in the late war.

What do they all tell him? Unanimously they say they want peace definitely settled, they want no more wars, they want the League of Nations, and most of the American people, it may be fairly said, tell the President they want the League just as it is, without the reservations or amendments which certain senators have insisted upon. The majority of citizens say to those who interview them on this tour:

"Woodrow Wilson guided us rightly before and during the war with Germany. We entered that war, every one agrees, to end all wars. If the league can do that. We want to do that, so let us keep on trusting him and get the league into operation as soon as possible. Forget politics."

Most Americans encountered on the tour have forgotten politics. Republican Governors and Mayors have introduced the President to his audience; the Major part of the local committees which have met him have been Republicans. They tell him said: "We are nothing but Americans, Mr. President."

Mr. Wilson's arguments for the league, briefly summarized, are these: There can be no peace, either now or in the future, without it. There can only be a regrouping of nations and a new "Balance of Power," which is certain to lead to war. There can be no war in the future, with the league in existence, because no single nation would defy the united rest of mankind, and if it did, it could be brought to terms by an economic boycott, and without the use of arms.

There can be no reduction in the cost of living until the league is established, for nations will not go ahead with peace time production until they know that peace is definitely assured and that production of war material is no longer necessary.

These declarations of the president, logically and eloquently put, have left his hearers thinking and thinking deeply. And then Mr. Wilson has pointed out, the people themselves, as differentiated from senators and politicians, seem to want just what the president wants, which is America for leadership.

Quite as unusual as the purpose of the cross country tour is the manner in which it is being carried out and the completeness of the arrangements on the nine car train which is bearing the party.

At the rear is the private car Mayflower, occupied by the President and Mrs. Wilson. Next is a compartment car for the secretary Tumulty, Admiral Grayson, Mr. Wilson's Physician, four stenographers, the chief executive clerk and seven secret service men. Beyond are three compartment cars which house twenty-one correspondents, five movie men, and a telegraphic and a railroad expert. Then there is a dinner, a club car, and two baggage cars, one of them converted into a business office. The train was exactly on time at every step between Washington and the Coast.

CARRIES HIS BATTLE FOR LEAGUE OF NATIONS INTO HOME OF HIS ENEMIES.

### GIVES COST OF GREAT WAR

Informers Them of Lives and Treasure Poured Out To Save Civilization.

(By Mt. Clemens News Bureau) Aboard President Wilson's special train—Carrying his war against those who oppose the adoption by the United States of the peace treaty and the covenant of the League of Nations into their households, President Wilson last week invaded California.

And there, where the question on which league opponents have hammered the hardest, that of Shin Tung—is of most interest, the president found the same enthusiasm among the people for peace and for insurance against future wars. The people want the long controversy ended. They want this country to be able to again turn its undivided attention to social, economic and industrial development. Their leaders may not feel this way, but judging from the expressions which meet the president on every side. The leaders have overstepped the limits of the people's patience in their stubborn determination to force a change in the great document.

Must Take This League. "We must take this League of Nations," said the president, "for there is no way in which another can be obtained without compelling reconsideration by the powers. And it would sit very ill upon my stomach to take it back to Germany for consideration."

"All over the world people are looking to us with confidence our rivals along with the weaker nations. I pray God that the gentlemen who are delaying this thing may presently see it in a different light."

Germany, the president declared, is taking new courage from our delay in ratifying the treaty and his newspapers and public men very again becoming arrogantly outspoken. Deeply impressive were the figures of the cost of the late war, in lives and dollars. It was the first time that the official statistics have been made public and the tremendous totals shocked the president's audiences.

Shows Cost of World War. "The war," said President Wilson, cost Great Britain and her Dominions \$38,000,000,000; France \$26,000,000,000; the United States \$22,000,000,000; Russia \$18,000,000,000; Italy \$13,000,000,000 and a total, including the expenditures of Japan, Belgium and other small countries, of \$123,000,000,000.

"It cost the Central Powers as follows: Germany \$39,000,000,000; Austria-Hungary \$21,000,000,000; Turkey and Bulgaria \$2,000,000,000. "The United States," the president said, "spent one million dollars an hour night and day for two years in its struggle to save civilization. All this, however, fades into insignificance when the deaths by battle are considered," declared the president, "Russia gave 1,700,000 men; Germany 1,600,000; France 1,350,000; Great Britain 900,000; Italy 364,000; the United States 50,000. In all, almost 7,500,000 men perished in the great struggle, or 1,500,000 more men than died in all of the wars of the previous 100 years."

Should Remember Recent Horrors. "These are terrible facts, and we ought never to forget them. We went into this war to do a thing that was fundamental for the world and what I have come out on this journey for is to determine whether the country has forgotten or not. I have found out. The country has not forgotten and it will never permit any who stand in the way of the fulfillment of our great pledges, ever to forget the sorrowful day he made the attempt."

Arbitration and discussion, the president pointed out, must replace force of arms in the settlement of world controversies. Constantly he dwells upon the fact that all the nations in the League agree to do one of two things, first to submit their differences to arbitration, in which case they agree to abide by the decision rendered, or, if unwilling to arbitrate, to have their case discussed by the Council of the League, in which case, six months is granted for discussion. Three months must elapse following the result of this last step in arbitration before the nation concerned can declare war.

Holds Out Hope for Ireland. The president took advantage of questions propounded by the San Francisco Labor Council to give the inference that he believes Ireland can bring her case before the League of Nations for settlement when the League is actually in existence. Shan Tung, he declared, will be returned to China. Japan, he said, had given her solemn pledge to that effect. "With the League of Nations in," said the president, "we can, if Asian armies, stand forth and say, 'His shall be done.'"

# First Showing of Fashion's Favorites

You will find here an exposition of Fall and winter Styles of Ladies Coats Suits and Dresses.

A season when fashion has many favorites---little style features that distinguish the modes of the season as they have been distinguished no other season. A season where women are wanting to carry out their individual ideas in dress--when personality in dress takes on a stranger meaning than ever before.

A word about Dresses and Suits. This season finds us prepared to help women realize their fondest desires

because we anticipated this demand and bought accordingly. Our efforts have been crowned with success, and today we are glad to direct your attention to the fine assortment of

**COAT SUITS, COATS, AND DRESSES.**

Everything in Domestics, Cotton Flannel, Outing, Sheeting, Table Linens and Napkins.

### Your Dollar's Opportunity

Your dollar's opportunity is now, today! Set it to work for you. Give it the task of multiplying itself. In doing so it will perform its part in the world affairs.

Every man's money should be making use of this opportunity. Farmers, for instance, can not only feed the world; through businesslike handling of their farms and businesslike handling of their incomes they can help to develop the world.

### Thrift Is Patriotism

Saving is a form of serving. It is one of the biggest forms of national service--service to your country. Our first president said, "Economy makes happy homes and sound nations."

The way to start right is to start right now! Saving is as much a habit as reading or putting things off. Once formed, it is easy to continue. But unlike other habits, it is a good habit.

### COTTON MARKET

Market brought 36.775c in Wednesday. Too much rain Thursday for the market. About 1150 bales were weighed. If the rain will be a chance we will soon make a start in cotton shipping.

Can still get 3 lbs. first class for \$1.50 at Butler's Grocery Store.

### TWO DAYS' DROUTH

The country enjoyed about a two days drouth this week. The same was brought to a sudden end Thursday morning when a rain began falling that has showed no signs of letting up at this writing.

### ISOM PATTERSON HERE

Isom Patterson, and his father, D. N. Patterson, are here the guests of relatives and friends. Isom and his brother, Floyd, were among four boys to volunteer to fight the Huns, and they have both seen some real service and especially Floyd, in the Marines. Floyd was in the very thickest of all the fighting, according to Isom, and he received three flesh wounds. Isom was in a different regiment, and did not see so much fighting.

Rev. D. N. Patterson and family have moved from Red Bay, Ala., where they first moved to here, to Fort Gibson, Okla. He says he is in a good part of the world.

### HERE FROM CORPUS

W. Dennis and family arrived here last week from Corpus Christi, Texas. They were driven by the floods. While they were not immediately endangered, the floods were so close to their homes that they got all they wanted out of the country. However, Mr. Dennis states that he was willing to stay there, but his wife was not. He says that the newspapers have begun to tell the whole story of devastation and ruin done to people and country.

### Little To Move

We regret to report that J. M. Little and family are to move to Cisco. Mr. Little has already bought a nice home there. He says his home here to Mr. Ike Little.

### Moving This Week

The Nations and family of Burlington are moving this week to their newly bought home on south Main Street. Lake Westerman, who has been occupying this place, and Mrs. Roy Patterson's place on Main Street.

### Want Homes.

I have two or three parties who want small moderate-priced homes here. Also a demand for a small farm priced right. See L. P. HENSLEE

### Married.

Cards are out announcing the marriage of Miss Hettie Armstrong of Pioneer and Mr. J. H. Williams of Harlingen. They will make their home at the latter place. Here's wishing them much happiness.
