SPAG Will Hold Revenue Sharing Shop

Elbert Harp, executive director of Grain Sorghum Producers Association, appealed to Secretary of Agriculture Earl Butz on behalf of the grain producers who signed up under Plan B of the 1973 Feed Grain Program.

On March 30, Harp sent a telegram to Secretary Butz stating that the producers who signed for Plan B were unjustly misled in having the program changed after they signed up. Harp asked that these farmers be given an opportunity to change to Plan A if they so desire.

GSPA was notified of the change in the 1973 Feed Grain Program by USDA officials on March 26. The change affected Plan A by reducing the previously announced set-aside of 25 percent to only 10 percent, with all payments remaining the same. Plan B restricted producers to their 1972 level of planting with no required diversion. The farmers who chose Plan B were given no opportunity to change to Plan A.

Harp says the farmers feel they signed up without having all the facts presented to them. The farmers think the change in the program--with no option for producers to switch from

KAKAWATE ROAD DEDICATED. . . A dedication ceremony formally christened the new Kakawate Road, which means "peanut" in Spanish, that will shorten the distance to Portales, New Mexico, by approximately 17 miles. The road has been under construction for quite a time due to various interferences. The road

now has a hard surface and will be blacktopped in the near future. Several Bailey County representatives were in attendance at the ribbon cutting ceremonies Wednesday afternoon at the Texas-New Mexico state line.

ASCS Announces Final Loan Dates

The following is a newsletter from the Bailey County Agricultural Stabilization and Conservation Service:

Wheat and Barley Certification: All producers with wheat allotments or barley bases that are participating in the feed grain program must certify the measured acreage by not later than May 1, 1973. If no acreage

is planted, operators need to certify to zero acreage. Producers who do not have a wheat allotment but have planted for substitution as feed grain must

also certify this acreage by May 1. If you have a small grain cover on set-aside acres and attend to leave it after May 1, you must request permission of

The Message of Easter is a source of inspiration and courage for the world! There's something about Easter that lifts it far above all the other days of the year . . . a never-failing source of inspiration and courage. You see it in the happiness of whole families as they join the Easter parade to Church. You hear it in their voices, joyously lifted in triumphant Easter hymns. Most of all, you feel it in your own heart, as surrounded by your loved ones, you take your place in church on Easter Sunday. There you experience anew, fully and richly, the great inspiring sense of spiritual re-awakening that is the age-old wonder and shining glory of Easter. May we rejoice once more in the supreme blessing of the Resurrection . . . and give us a renewal of hope, a fulfillment of faith to fortify our courage and sustain our spirits through all the days ahead.

FCIC Observes 35th Anniversary

Crop Insurance Week, April 22-28, has been proclaimed by Texas Governor Dolph Briscoe. The occasion is the 35th anniversary of the Federal Crop Insurance Corporation, an agency of the United States Department of Agriculture. The Corporation was organized in 1938 by an Act of Congress to provide all-risk protection on such major crops as wheat and cotton against weather conditions beyond control of farmers. Over the years, many additional crops have been brought under the program, giving producers needed protection against adverse weather in al-

most every major producing area of the United States. Protection is now available on apples, barley, beans, citrus, corn, cotton, flax, grain sorghum, grapes, oats, peaches, peanuts, dried peas, green peas, potatoes, raisins, rice, soybeans, sugar beets, sugar cane, tobacco, tomatoes, tung nuts, and wheat.

In recognition of the 35th anniversary of the Corporation and its service to farmers in Texas, Governor Dolph Briscoe has issued a proclamation designating April 22-28, 1973, as

Memorial Fund Started For Joe Albro

Bill Russell announces that a memorial fund in memory of Joe F. Albro has been started at the Muleshoe State Bank for the purpose of helping his wife, Rita, and two daughters, Melissa, 6, and Brandy, 3. Albro was killed Sunday night near Sweetwater in a traffic accident. Had he been killed in the line of duty, his family would have received compensation from the government for education and living expenses.

Police Report

Arrests logged in the Bailey County Law Enforcement Center this week included three Muleshoe juveniles arrested for possession of marijuana. The three were later released on \$2,000 bonds each.

Other arrests included the sheriff's office arresting five aliens, one mental, one for burglary and one sleeper. The Police Department arrested one sleeper, one for DWI, three for minor possession, one for violation of the leash law and two for being drunk.

The Texas Highway Patrol arrested three for possession of marijuana.

Contributions can be given at the Muleshoe State Bank, to any local law enforcement official or to any member of the Muleshoe Support Your Local Police Committee.

A great many Texas farmers who raise a limited peanut crop will use the route to take peanuts to Portales for processing and the road will be of benefit to them and to others who haul grain and livestock over this route.

The road should shorten the distance to Portales by approximately 17 miles.

The road was projected several years ago, but due to shortages of building funds, environmental and beautification controls, it has developed slowly.

There are still several miles of black topping to do on the New Mexico side and on all of the Texas side, but the right of way is prepared, the caliche base is in place and the surfacing should begin promptly.

The road has been described as another sign of the cooperation in the past 25 years between the Portales and Muleshoe communities.

1872. During its first meeting an association of railroad superintendents formed a permanent organization which became successively the Time-Table Convention, the General Time Convention, the American Railway Association and, finally, the Association of American Railroads. Years later, on Oct. 11, 1883, the General Time Convention at Chicago overwhelmingly voted adoption of Standard Time. A notice was issued immediately directing that all railway clocks governing train operation be set to the new standard at exactly 12 noon, Sunday, Nov. 18, 1883. Dubbed "the day of the two noons," it was a significant milestone in American history.

The plan provided for four time zones, Eastern, Central, Mountain and Pacific, based upon mean sun-time on the 75th, 90th, 105th and 120th meridians west of Greenwich. These four meridians are approximately on the longitudes of Philadelphia, Memphis, Denver and Fresno, Calif. In the eastern part of each time zone there was a noon based upon sun-time; then timepieces were set back from one to 30 minutes to the new Standard Time so that there was another noon when Standard Time in the

community reached 12 o'clock.

Detailed instructions and recommendations were issued for adjustment of railroad timepieces to the new standard. Similar information was furnished public officials of cities and towns throughout the country since the plan's success was largely dependent upon the cooperation of all communities in adopting the new time locally. The American people soon accepted Standard Time without question and the standardization movement gradually spread to other lands until today it is almost universal use.

Surprisingly, the new reckoning of time instituted by the railroads in 1883 was effected without federal legislation. Although adopted and used by the federal government and the states, cities and towns throughout the nation, it wasn't until 35 years later on March 19, 1918, that Congress passed the Standard Time Act.

The Standard Time Act gave federal sanction to the four zone system adopted by the railroads and provided for "daylight saving" time to conserve fuel (especially important today as the nation faces an energy crisis) and to increase national efficiency.

Crop Insurance Week. Also, the Texas Senate has passed a resolution of tribute and congratulations to farmers participating in this sound method of business protection on their crop dollars, through the 35 years of service by FCIC.

After passage of the Crop Insurance Act by Congress in 1938, insurance was first offered nationally and in Texas on wheat for harvest in the 1939 crop year. Since wheat was the only crop being insured for the first few years, the Texas State Office was located in Amarillo near the center of the major wheat producing area of the state. In 1941, insurance on cotton was included for the 1942 crop year and the state office was then moved to Col-

lege Station which is about centrally located to serve the entire state of Texas. Insurance on wheat and cotton was available in all counties where these crops were of major importance. Participation was wide-spread with some 40,000 farmers in Texas being insured. Losses were heavy in the early years of crop insurance, and in 1947, legislation was enacted which limited operations nationally in 1948 to only 375 counties as compared with 2,400 counties in 1947. This new legislation authorized that insurance be made available on new crops in addition to wheat and cotton, and, further provided for a gradual expansion to new counties at not more than 100 per year. Insurance on one or more crops is now available in more than 1,400 counties in the Nation for 1973. Texas was allocated 81 counties for 1973 covering wheat, cotton,

grain sorghum, citrus, corn, and peanuts. According to figures recently released by Ben A. Jordan, Jr., Director of the Contract Service Center, more than 10,000 crops are insured in Texas for the 1973 crop year. Nationally, FCIC's growth exceeded \$700 million over the last 12 years.

as Veterinary Medical Association and the Texas Cattle Feeders Association.

Dr. Cope is married to the former Betty Holman of La Porte, Texas and they have three children, Stuart, Matt and Crystal.

One of the biggest problems facing beef cattle producers in grazing alfalfa is the control of bloat, but several recent developments have changed the alfalfa grazing outlook.

New bloat preventatives show much promise and economically feasible to feed to the cattle.

The purpose of the Agriculture Committee of the Muleshoe Chamber of Commerce is to bring information and programs into this area that will be helpful to agricultural interests in this area.

Members of the committee and the agricultural interest they represent are:

Myron Pool II, alfalfa; Max King, beef production by grazing; James Wheeler, cattle and sheep feeding; A.R. McGuire, cotton; Leslie Harris, Dairy; Kenneth Nesbitt, hogs; Weldon Timms, milo; Jimmy Pitcock, peanuts; Bernard Phelps, ranching; Carl Bamert, seed growing; James Ensor, vegetables; Conrad Williams, wheat; Doug Bales, Triticale; County Agent, Spencer Tanksley; Production Credit Association; Clinton Kennedy, FHA; and banking, M.D. Gunstream, B.E. Loyd and Harmon Elliott.

All interested persons are urged to attend the meeting that is being sponsored in Muleshoe. For further information contact the Extension office at 272-3913.

Seniors Look Back Over Past Years

DE RECEIVE CASH REGISTER. This is a part of a display made possible for DE students by White's Cashway Grocery.

White's Donate Cash Register

Last week the friendly folks at Cashway signed over a cash register worth approximately \$800, thus enabling the Muleshoe High Distributive Education program to begin student training in cashiering. This course teaches a prospective checker - cashier the PAC method (position amount control) of recording amounts on a sales register keyboard. Through years of experience and careful research, NCR has designed a method of recording prices on a register keyboard that not only increases checker speed but reduces fatigue and maintains accuracy. This method has been taught and used successfully across the nation. It's presentation in the D.E. program will be in form of programmed instruction. Programed instruction is based on principles of learning theory discovered in psychological laboratories and successfully applied in school

industry, and government everywhere. The student learns quickly and easily because he is lead through a gradual, step-by-step progression from the simple to the complex. He is required to participate actively in the course -- putting into practice each new point of information as he learns it. Learning is easy; information is presented in small, logical steps. Remembering is easy; the student constantly applies his new skills to actually operating the register. Upon completion of this course, the student will be able to record prices on the register keyboard with accuracy, speed, and confidence using the PAC method of key depression. Thanks to Cashway.

KENNEY TAYLOR

Kenny Taylor Wins Regional

Kenny Taylor won the regional golf meet held at Andrews last week. Kenny was the medalist with a score of 143. The next low score was 148. Class OF 1973 Plans Graduation

The Senior Class of 1973 has been fast approaching the moment when it will join the ranks of "graduates." This past week the Senior Class voted on ministers for Baccalaureate and Graduation, voted on class songs, received invitations to the Junior - Senior Banquet, and received their Commencement invitations. The Senior Class looks back upon their years in High School and the memories with nostalgia. During their freshman year the Seniors remember the thrill and excitement of finally being in High School. They also remember the thrill of winning and of being the youngest and Number One class in School! During their Sophomore year they remember still remaining number one in all the school activities. Then came their Junior year.

This was a year that was filled with lots of hard work and lots of satisfaction that comes from a job well done. 1971-72 was the year that the class of '73 served as host for the Junior-Senior Banquet, and what a banquet that was! As we are fond of stating, "The Junior Class lived up to the promise that they would give a banquet which would be talked about for the next 100 years." Yes, their Junior year proved to the whole town that the Class of '73 was still number one! Now in their last year, the Seniors stop and realize that they have always been, still are, and always will be the number one class in school. Yes, the class of '73 picked an appropriate slogan when they picked "The good, the better, the best are we. We're the Class of '73," as their class yell!

Greetings at Eastertime

ATTENDING CHANCEL DRAMA. . .Entering the Lariat Lutheran Church to attend the chancel drama, "At the Foot of the Cross", on Good Friday evening is the Ernest Ramm family. Pictured on left are Ramm, Alta, Mrs. Ramm, Ruth, Clayton and Nancy.

Just outside the walls of the old city of Jerusalem is an eroded hill that bears a resemblance to a skull, and is called Golgotha. It is said that upon this hill stood three crosses the day that Jesus was crucified. That agonizing day that Christ died is referred to today as "Good Friday".

READY FOR A JOYOUS EASTER...Mr. and Mrs. David Hamblen and their children, Cindy, 11, and Kelly, 7, are all dressed and ready to attend Easter services at the First United Methodist Church.

The Easter Story

Matthew 28:1-9 & Mark 16:14-20 from The LIVING BIBLE

Early on Sunday morning, as the new day was dawning, Mary Magdalene and the other Mary went out to Jesus' tomb.

Suddenly there was a great earthquake; for an angel of the Lord came down from heaven and rolled aside the stone and sat on it. His face shone like lightning and his clothing was a brilliant white. The guards shook with fear when they saw him, and fell into a dead faint.

Then the angel spoke to the women. "Don't be frightened!" he said, "I know you are looking for Jesus, who was crucified, but he isn't here! For he has come back to life again, just as he said he would. Come in and see where his body was lying And now go quickly and tell his disciples that he has risen from the dead, and that he is going to Galilee to meet them there. That is my message to them."

The women ran from the tomb, badly frightened, but also filled with joy, and rushed to find the disciples to give them the angel's message. And as they were running, suddenly Jesus was there in front of them!

"Good morning!" he said. And they fell to the ground before him, holding his feet and worshipping him.

Still later he appeared to the eleven disciples as they were eating together. He rebuked them for their unbelief—their stubborn refusal to believe those who had seen him alive from the dead.

And then he told them, "You are to go into all the world and preach the Good News to everyone, everywhere. Those who believe and are baptized will be saved. But those who refuse to believe will be condemned."

When the Lord Jesus had finished talking with them, he was taken up into heaven and sat down at God's right hand.

And the disciples went everywhere preaching, and the Lord was with them and confirmed what they said by the miracles that followed their messages.

Just as spring heralds the rebirth of nature, so does Easter herald the rebirth of mankind in the Resurrection of Jesus Christ, the Lord.

On Easter Sunday, Christ emerged triumphant from the tomb . . . let us rejoice in the victory He has won for us!

ATTENDING EASTER SERVICES. . .Mr. and Mrs. Darrell Mason and their sons, Shane, 4, Sean, 6, and Sheldon, 2, are ready to leave home for Easter services at the Lazbuddie Church of Christ. The Masons live on a farm north of Muleshoe.

LEAVING FOR EASTER CHURCH SERVICES. . .Mr. and Mrs. Lester Baker are pictured leaving their home on the way to Easter church services at the Trinity Baptist Church.

31 is the final date to obtain a loan on 1972 produced cotton. A cotton loan matures 10 months after loan was obtained excluding the month in which the loan was disbursed.
 Payment Limitation: Each producer is limited to \$55,000 per crop in program payments. A written detailed explanation of the producers operation is required of each person who earned \$55,000 or more for any crop in 1970; earned payments for any crop of \$50,000 to \$55,000 in 1971 or 1972; expected payments for 1973 for any crop might exceed \$50,000. Payments will not be released until such information has been furnished the County Committee.
 Haying Or Grazing Set-Aside Acres: Free grazing of set-aside acres ends at midnight May 14. It is permissible to hay or graze beyond this date, but in order to do so, you must file an application with the County Committee to hay or graze you set-aside during the period May 15 through October 14. There will be a charge for this permission computed from the feed grain yield for your farm. (Example-100 bu. grain yield 30 cents bushel-100 bu. X 30 cents equals \$30.00 X 60 percent equals \$18.00 cost per acre to hay or graze or both.)
 Measurement Service: Again this year, if you wish the ASCS office will measure all or part of your crops and set-aside acres, and inspect the set-aside for equal productive land. Both the measurement of crops and inspection of set-aside acres will be guaranteed. If you have any doubt as to how many acres of what you have planted, or the quality of your set-aside acres, contact the ASCS office. The charge for this will be \$15.00 per farm visit plus 10 cents per acre for the acres you want measured.
