### BRIDE COMPLIMENTED AT SHOWER TUESDAY

A miscellaneous shower was given Tuesday afternoon at the home of Mrs. Gerrie Oliver with Mrs. Marvin Rich as hostess honoring Mrs. Melvin Jones, who before her recent marriage was Miss Louise Burkett. The program for entertainment consisted of a solo, "I Love You Truly," by Mrs. Richard Lawrence, readings, by Mrs. Roger Watson, a medley of three songs, Miss Aileen Williams, "How to Cook a Husband," by Miss Alice Cross; and "Wedding Belts," Aileen Williams. The gifts were presented to the bride by her sister, Miss Maxine Burkett, as she sang an appropriate presentation song, Little Max Venison and Marcel Rich pulled a loaded wagon of gifts in also. A refreshment plate of ice cream and cake with ice water and "wedding bell" favors was passed to the following guests, who registered in the hand-made bride's book in the form of a huge wedding bell.

### Local Girl Bride Of Coleman Youth Saturday Evening

Miss Dorothy Johnson daughter of Mr. and Mrs. Flen Johnson, who live four miles west of town, and Carl Edgington son of Mr. and Mrs. Jody Edgington, of Coleman, were united in marriage at the Methodist parsonage in Cross Plains Saturday night at 10 o'clock with Rev. Floyd W. Thrash, pastor, reading the single ring ceremony. The nuptial came as a surprise to the many friends of the couple throughout this section.

### Exhaust Loan Fund But Requests Still Come For F.S.A. Aid

The Farm Security Administration made loans of \$898,344 during April to 2,455 low-income farmers of Texas and has virtually exhausted the seven million dollar loan fund allotted the state for the fiscal year ending June 30, according to Mr. J. S. McKnight, county supervisor.

## New Producer Assured For Pioneer Field

### TEST ON A. A. TYLER TRACT RESPONDS TO TREATMENT OF ACID

Assured of a commercial producer on the A. A. Tyler tract, two miles Northeast of Pioneer, owners were getting ready yesterday to place the well on pump. A dose of acid given the test last week ended reacted favorably, increasing the gas from 100,000 cubic feet to more than a million and the oil by three or four times, say those familiar with the project.

### Dodson Says Legislature Looks Worn And Tired But Big Job Is Yet Undone

Did you ever go to the Dallas Fair or the Cotton Palace, during its existence, along during the last days when all those connected with these shows were worn out? Well if you did you know what the legislature looks like now. They are a befuddled looking bunch of people just waiting for it to close. Ask a member what they are going to do... and he will get a long breath and say "I don't know."

75 Hidden Taxes Boost Total Cost Of Cotton Dress

Cotton grown by the Texas planters picks up parts of 72 local, state and federal taxes on its way through business channels to the retailer's shelves...

Leader of the commission's non-partisan crusade to "arouse tax consciousness among women and to expose hidden taxes," Mrs. Frazier declared...

"Hidden taxes now produce a major share of all local, state and national tax revenues, raise retail prices, thereby reducing buying power and leading to retard sales..."

These unseen levies, paid by consumers on all necessities as well as luxuries, on a cotton dress, are originally taxes against planter, gin, cotton buyer, coastwise shipper, cloth mill, dress manufacturer and retailer...

Study groups in the tax education campaign already are active in 4,200 communities. Mrs. Frazier said, with more than 500 of them in Texas, Mrs. Volney W. Taylor of Brownsville, is NCTC's national committee member for the Lone Star State...

Billie Ruth Loving, daughter of Mr. and Mrs. E. B. Loving of this place has been named as one of the five students lettering in a capella work at Abilene Christian College in Abilene...

To be awarded a letter from the school in this field right requirements of attendance, ability and cooperation must be met. Out of the regular chorus of 45-voices only five received the honor this year...

A.C.C. capella chorus has just returned from a week's tour of West Texas and New Mexico presenting programs in high schools, churches and on radio broadcasts...

A COMEDY OF ERRORS By GEORGE WATSON

WITH OUR WILDLIFE

By JOHN R. WOOD, State Game Warden

Game Distribution Completed The Game, Fish and Oyster Commission at its regular quarterly meeting April 10, announced the spring program of game distribution was virtually completed.

A total of 33 antelope, 194 deer, 20,000 bobwhites and 533 turkeys have been distributed to date, and more deer and turkey will be distributed within the next few days it was announced.

The antelope distribution program was the first ever attempted in Texas, and one of the most successful ever completed in the country. The wily animals are extremely difficult to trap. The program will be resumed in September. All game distribution this year was in charge of Clyde R. Rudasill.

Texas' nine fish hatcheries located at Cisco, Dundee, Tyler, Huntsville, Ingram, Olmito, Jasper, San Angelo, Dallas placed in the public waters of Texas more than 3,000,000 fish of fingerling size last fall to improve fishing conditions this season. A tenth fish hatchery located near Naffalin in Medina County is under construction and this hatchery will be able to produce a large number of fish.

Texas ranks fourth in the United States in warm water fish production. According to available records, production costs at Texas hatcheries 11 years ago was 47 cents per fish; production costs last year totalled seven-tenths of a cent per fish. The fishermen of Texas who purchase the artificial lure licenses virtually foot the entire bill for the operations of Texas fish hatcheries. Are you doing your part in the production of the millions of fish by purchasing your license? If you are a fisherman

you should help replace the fish that you take.

Agencies Working to Increase Hunting and Fishing in Texas

The United States Department of Agriculture is probably the one that is doing the most along this line. This is done through the Soil Conservation Service, Bureau of Biological Survey (mainly research), Bureau of Fisheries, United States Forest Service, Extension Service, experiment stations, Bureau of Agricultural Engineering, Bureau of Chemistry and Soils, the American Wildlife Institute, State Game Commissions, National Wildlife Federation, and nearly every other national and state agency that can carry on wildlife programs along with the main work of these departments are spending time and money to make America's greatest of all sports, hunting and fishing, better for us all.

vault; and a room in which the the Savior and the Apostles (represented by life-size figures) are at the Last Supper, the walls on each side hung with paintings done on velvet by an Indian, the pictures taking on the soft shades of evening when the lights are dimmed—truly, an unforgettable experience.

One remembers El Rosario chapel—altar, walls and ceiling of ornately carved wood covered with gold, creating a cavern of splendor, business buildings of many colored tile with wrought-iron balconies that make one think of Moors and amours; the easy-flowing traffic, a policeman standing on a box just off the sidewalk—you can't figure out his signals but just observe the direction the others are moving; luncheon in the tiled patio of the 300-year old Hotel Arnone, with course after course, watching the slow elevator which is in a cage separate from the building itself, and listening to the tinkling music of a marimba band.

Here is one that ought to finish near the top in the "oldest rock" competition: A white man, seeing a baseball game in progress between two teams of little negroes, asked an outfielder the score. "It's 21 to 6," he answered. "They're beating you pretty bad," the man commented. "Naw, suh," the darkey replied, "We ain't been to bat yet."

I Saved \$100 and Still Got Best Refrigerator!

"I bought a new washing machine with the money I saved by choosing Coolerator, but that is not the main reason I chose it. Coolerator gives me truly modern refrigeration, as I proved for myself on 10 days' free trial. It is a great satisfaction to know that I continue to save money every day. Things keep far better in my Coolerator and are taste-free without the inconvenience of covered dishes. Ask your self this, "Can you really make ice as cheaply as you can buy it?" Mechanicists say you can. Is it true or but another loose statement calculated to mislead the unthinking. (Remember millions were spent to tell the public "dry ice" was needed in a refrigerator; then millions were devoted to selling "hydrators to combat "dry cold."

First, compare the ice. No ice company could stay in business if its ice were not pure, hard frozen, clear, taste-free. Does homemade "ice" measure up to these standards? Important as pure ice is, it is only one of the things that a good refrigerator should provide. It is only one small part of the many sided problem of choosing a Modern refrigerator. So let's look at all the costs of ownership of a Coolerator as compared with the mechanical.

ARRANGE TODAY FOR A 10 DAY FREE TRIAL

Table comparing COOLERATOR and MECHANICAL costs. COOLERATOR: FIRST COST \$81.60, REPAIRS \$10.00, ICE (\$30.50 per year, 5 years) \$152.50, INTEREST ON \$81.60 at 6% \$24.45, TOTAL COST—FIVE YEARS \$268.55. MECHANICAL: FIRST COST (approximate) \$180.50, REPAIRS \$50.00, CURRENT (\$24.76 per yr. 5 yrs.) 123.80, INTEREST ON \$180.50 AT 6% \$54.15, TOTAL COST—FIVE YEARS \$408.45. Savings In Favor Of COOLERATOR At The End Of Five Years \$140 Replacement—NOT YET! Replacement—\$165.00

Coolerator has no parts to wear out—with ordinary care it will last indefinitely. BUT, one prominent maker says a mechanical's average life is 37 months. We'll give it five years—and then it's time to buy a new one. You are allowed \$15.00 for your old mechanical, which makes the net price \$165.00.

J. S. Hart, Oldest Callahan Citizen, Tells Reminiscences of Ranching in Early Days

By J. S. HART AS TOLD TO BUDDY HART

On May 30, 1930 there was a meeting called to which were invited the pioneer citizens who were interested in organizing an association to meet at the court house. The pioneers responded to this meeting and the following officers were elected: J. S. Hart, president; B. L. Russell, Sr., vice-president; Mrs. L. L. Blackburn, second vice-president and historian; Eliza Gilliland, secretary-treasurer.

PENSIONERS: A bill liberalizing the Pensions of World War veterans and dependents at an estimated additional annual cost of \$18,751,000 was passed by the House and sent to the Senate. The bill will increase benefits to veterans suffering from service-connected wounds or amputations, and to widows and orphans, and extends the benefits to dependent parents. It was estimated by its sponsors that 27,800 widows would be added to the pension rolls. The vote on the bill was 359 to 2.

RAILROADS: Although the railroads are pessimistic about prospects of legislation that will help them solve their problems, the Senate Committee on Interstate Commerce is finishing several proposals, and some action in the Senate is expected soon.

PAY-ROLL TAXES: A move is to be undertaken to reduce pay-roll taxes that support unemployment insurance. It is believed that 60 million dollars will be saved in a plan to limit the 3 per cent pay roll tax to the first \$2,000 of each individual's wage rather than to the entire employer's gross payroll. Another change is advocated through payment of old age insurance in 1940 instead of 1942.

SECURITIES: The House received from the Senate a bill providing trust indentures under the security and regulation of the Securities and Exchange Commission and establishing standards which must be met. Indentures are statements of the security behind the bond issue and of the terms upon which the issue is made.

WANTED: Horses to break and train, will keep them 30 days for \$10. guarantee to satisfy. Norman Benson, Rising Star, Texas, Rt. 2. (2tp)

FOR SALE: Four used Allis-Chalmers all crop harvesters thoroughly reconditioned. GIBSON IMPLEMENT CO., Abilene, Texas, Phone 6351 (1tp)

FOR SALE OR TRADE: 2 row equipment for model B John Deere tractor, one hay press, single row cultivator, iron wheel wagon, 300 egg incubator, one saddle, 8 foot windmill, 100 barrel cypress tank. Water well drilling wanted. W. B. Varner, Cottonwood, (pd-38)

It was decided at this meeting to have an annual meeting. More than 3,000 attended the first reunion, held at the McCoy ranch on the Pecan Bayou August 14, 1929. The ground had been put in good condition under the supervision of Hugh McDermott. After everyone gathered for the reunion Fred Heysler of Putnam was master of ceremonies for the occasion.

PROGRAM The day's program started with a concert by the Third band, under the direction of T. T. Hancoy of Clyde. Following this Fred Heysler introduced me, as the president of the newly organized association. Mrs. L. L. Blackburn, historian, was introduced and gave a sketch of the early history of Callahan county. Then Judge B. L. Russell gave an address. Miss Eliza Gilliland registered all citizens who came to this county before and including the year of 1890. Chairman of the program committee was Mrs. Carroll McGowan.

At noon barbecue, meat, coffee, onions, pickles and bread was served free to the pioneers and visitors.

In the afternoon there was an old fiddlers contest with Jack Scott, editor of the Cross Plains Review, as master of ceremonies. Tributes were paid to Jasper McCoy, who established the ranch where the reunion was held and to S. E. Settle, county clerk, a man who was vitally interested in Callahan county, who had been killed in an automobile accident. Settlers had written a history of Callahan county.

Short talks were made by many of the pioneers, which was of much interest to all. The day's program was concluded with a square dance.

The second reunion of the pioneers of Callahan county was held at Hughes Camp on Deep Creek August 6, 1927. The crowd at this meeting was about the same as the first, and consisted mostly of adults due to infantile paralysis in Stanton.

Mr. Echols, C. W. Fowler, and Lee Pool opened the program with a sing song. The songs and folk songs were sung. Jack Scott of Cross Plains made such a good master of ceremonies at the first reunion that he was selected to lead the group this time. At noon barbecue, and other things, were given to the pioneers and other visitors brought along their basket lunches and spread them under the shades of the trees. After lunch there was an old fiddlers contest with one woman entering against several men. This woman was Mrs. Jim White of Baird. The program closed with a square dance.

The third reunion was held at Kendrick Park at Denton. The meeting was opened with songs and music by old fiddlers. Pioneers were introduced, and short talks were made by a number of them. There were more pioneers at this meeting than at preceding ones. The principal speech of the day was made by Buddy Hart, son of Mrs. John Heysler of Putnam. Another talk was made by Lee McGee, who came from California to attend the meeting. Lunch was served in picnic style. In the afternoon the songs and music were presented and the annual square dance followed in the night.

Every year the meetings seem to be more of a neighborly flavor. Friends and neighbors come such long distances just to be present at these meetings. The same officers were reelected as the starting of the reunion.

A final word by Buddy Hart: Some day, what our forefathers did will be crystallized into history and we must know something about what they did. I am very thankful for what he has told me concerning his life. Of course there were other things in the pioneers' lives that happened besides hardships. But we know they have suffered hardships for us by risking their lives when there was little law. Someone had to go through with all these things, and today we should think more about the pioneers than we do.

I want to thank my grandfather for this story and also the Reporter-News.

Mr. and Mrs. J. C. Watson had as their guests over the week end Mr. and Mrs. J. R. Caryle and family and Mrs. Rosy Hibbard and family of Cisco.

THE BOOK SHELF

Lexie Dean Robertson "On this book shelf always look for anything except a book."

Doesn't it make you feel happy to discover that often the world's busiest and most important people devote a great deal of their time and resources to philanthropic undertakings?

Such a person is Dr. J. W. Torbett of Marlin, who in spite of the demands of his large hotel and splendid clinic and hospital, gives the major portion of his heart and energies to the welfare of the Methodist Home for orphaned Children at Waco. Dr. Torbett even finds time to write an occasional bit of verse and his ebullient philosophy is frequently found in the Sunshine Magazine, official organ of the Home. The rhyme quoted below is typical:

Good Morning! A glad good morning from a friend That starts your dawning day, Is like a kiss from skies that bend Down low to light your way, And start your heart a cheery song To smile on those you meet, That echoes on the whole day long In those whom thus you greet. -J. W. Torbett

In response to an imposing invitation officially done up with the gold seal of Texas, your LDR went down to Austin May 3rd to read before the House of Representatives. In answer to many inquiries I will explain that such an invitation is presented as a Resolution before the House and goes through the same routine by which our laws are made. Mr. W. R. Chambers, Representative of Brown County, who is fast becoming recognized as one of the most important members together with our own Eastland County Representatives; Messrs. Omar Burkett and P. L. Crossley and the House took charge of our party which numbered fifteen persons and each of us accompanied by a Representative, marched formally up the long aisle to the rostrum where seats had been arranged for us. My escort was Mrs. Margaret H. Gordon, Representative from Waco, who introduced me in a most flattering manner. There is a very special and peculiar pleasure that comes to me when I read Texas poems under the roof of our Capitol so this shall remain a golden day in my calendar of pleasant memories.

Two facetious friends of mine, whose wives were in our party, Marlon Harvey and Elliott Bryant of Cross Plains sent me the following wire from Artesia, New Mexico, just so I wouldn't be too puffed up over the honors bestowed upon me by our state: "Keep your nose clean and your socks pulled up!" It was timely advice.

Later we were granted an audience with Governor W. Lee O'Daniel whom I had never seen before. He was a little dismayed to have me find him in his shirt sleeves and hastily donned his coat before the remainder of the party were admitted. He explained to me that his job required shirt-sleeved attention, and I agreed that I quite understood because writing a column is hard work too! But we both like our jobs!

FRIDAY, MAY 19, 1930

In our party were J. F. Tyler, president First Square and Mrs. Tyler, his mother-in-law, C. C. Tyler, Mrs. Bevil Tyler, H. C. Gracey, Mrs. J. A. Star, Mrs. Marion Harvey and Elliott Bryant of Cross Plains, E. A. Uhren of Abilene and W. C. Hogue of Cisco. In our party were J. F. The formal dining room table was laid for the tea service with a beautiful center decoration of flowers from the Mansion greenhouse. Molly served the acoustically hillbilly biscuit spread with marmalade from a huge silver platter while one of her girl friends poured. Molly isn't the vivacious brunette that I had pictured; she is a tall brown-eyed girl whose hair is only a little darker than golden brown. She presided with quiet

SCRANTON

The farmers are rejoicing over the rain that fell here Monday night, which seemed to be the best for some time. The fields were too wet for planting from rain the Friday night before this.

Since the sun is shining and bids fair to be a beautiful day Tuesday. Members of the Baptist church are busy preparing to entertain the workers conference and hoping to have a large crowd to attend this meeting.

O. H. Ross, Mrs. J. H. Shepherd and others who sponsored the mothers day program with those who took a part are to be congratulated on the way the program was rendered at the Baptist church Sunday night. It was enjoyed by a large crowd.

A. L. Warren is getting ready to begin drilling on the Clinton land just north of the 60 barrel oil well that was brought in a few weeks ago on the Conart place.

WTU TO ASSIST

(Continued from page 1) said. He cited a Fort Worth Star-Telegram newspaper editorial as saying:

"By irrigating West Texas farmers have impounded 554,000 acre-feet of water, the same amount as that held in the \$25,000,000 Marshall Ford dam. In the former case, rainfall has been stored in the soil to provide moisture for crops, at the same time contributing to flood control. A lesson is thereby afforded that the only effective curb on devastating floods must begin at the point where the rains fall."

Among those commending Mr. Campbell and his organization for its cooperation in the soil and water program was CHIEFED B. Jones, chairman of the West Texas Chamber of Commerce agriculture committee.

"We are grateful beyond expression," Jones said, "but even surpassing our appreciation of your extreme generosity is the gratification we have that the conservation program is deemed worthy by you of such outstanding support. It is but another evidence of the constructive attitude of the West Tex. as the Phillips Company toward all that affects the public welfare of this territory."

Mr. Kirov, manager of the local WTU office said he had been advised that the company's engineering staff and statistical department "gladly will cooperate in solving technical problems and in gathering data concerning soil and water conservation."

200 METHODISTS AT MEETING

(Continued from page 1)

Business reports and resolutions were heard. At 5:30 the closing address was delivered by Rev. P. W. Walker, which was followed by the district superintendent. The group adjourned with the doxology at 5:30.
