

A number of Honolulu families will be moved out of the congested district of the city to Punchbowl, an extinct volcanic crater.

More than half the value of farm crop in the United States comes from plants originally developed by the American Indians.

BABY BOY IS BORN TO MR. AND MRS. W. CLOYD

A nine-pound baby boy was born to Mr. and Mrs. Worley Cloyd, of Cottonwood, Saturday. The baby has been named Lloyd Wayne. Both mother and child are doing nicely.

Mrs. Chille Hart of Big Spring, visited in the home of Mr. and Mrs. Lon Haley this week.

Germany's new whaling fleet is under construction.

Mr. and Mrs. Billie Grag, of Hamlin, were week-end visitors here.

BROWSING AROUND WASHINGTON

By Myrtle Bryant

Visitors to Washington will be pleased to know that the White House is again open for inspection. It has been closed all Summer while new wiring has been installed throughout, with the exception of the basement, and that was rewired last Summer when the kitchens were remodeled. Workmen not only have been busy on the inside of the White House, but on the outside as well. It is the custom to give the structure a fresh coat of white paint every two years. The scaffolding has just been removed and it now looks spic and span again.

The national capital runs New York a close race when it comes to drawing crowds. Early this week the newspapers announced that at ten in the morning of a certain day the new roadable autogiro would land in the space between Pennsylvania Avenue and the new Commerce building. Long before the appointed hour the landing space was surrounded by a mass of people. Treasury employees crowded the front steps of the building and the roof of the Commerce building was a mosaic of color from the dresses of the employees gathered there. About ten-thirty a red plane with the spinning blades on top, could be seen in the distance flying from the South. After circling the field twice, it landed easily on a spot about as big as the ordinary front lawn. By this time all of you have seen pictures of the machine in your news reels or newspapers and are familiar with the manner in which it lands, folds its blades like a grasshopper and then taxis off down the street in the approved automobile style. This model had been made especially for the Department of Commerce, which is furthering the development of cheaper forms of air transportation, but very shortly now it is possible you will be seeing the roadable autogiro landing on a front lawn and then motoring to its destination.

Three thousand Japanese cherry trees are being planted around the Tidal Basin in Potomac Park, displacing those that were killed last Winter by floods and cold weather. The original cherry trees were sent to the United States as a gift from the government of Japan. However, the new ones will be bought for the most part in the open market, as American horticultural firms now stock the famous trees. While some of the double variety are to be replaced, the majority will be of the single pink and white variety. In the Spring when the trees are in blossom throngs of visitors from all parts of the country come to view their beauty. Even the railroads run week-end excursions from the nearby states.

In this column last week I described a woman's co-operative market. I believe you will be interested in another large market, which is really a store and not co-operative, and which attracts residents as well as visitors. The fittings are white tile and chromium. They are uniform throughout the building, counters, show-cases and ice-boxes being identical. Long cases are filled with dressed chickens, one section being devoted to livers, another to breasts, another to legs, and other sections to the other parts of the chicken. Long cases are filled with different kinds of meat. The fish section probably would interest you greatly as there you will find many varieties of fresh and salt water fish, both small and large. Frog legs can be bought also, and should you desire you may make your selection from a large glass aquarium where five frogs are on display.

October first was moving day in Washington, and the moving vans and real estate offices report there was more change of homes than at any previous time in 20 years. Whether it means better or worse conditions cannot be definitely stated. At any rate, there has been more building of small houses in nearby Virginia and Maryland than ever before. Many families who have always lived in what is usually considered the popular northwest section, moved to other sections of the city on account of rising rents.

In almost every government building will be found walls decorated with murals, paintings, etchings and other work resulting from the PWA Treasury art projects. An especially interesting mural is one in the Department of Justice building, entitled "Triumph of Justice" and depicting Justice Stone of the Supreme Court in the character of Justice. Justice Stone served as Attorney General during the Hoover administration.

Taylor Bond and B. E. Bond were Abilene visitors Sunday.

SOCIETY CLUBS PERSONALS

Chief Of Child Welfare Division Speaks Here

JUNIOR STUDY CLUB IS HOSTESS TO INSTITUTE

Seventy ladies representing federated clubs of Callahan county were in attendance at the semi-annual meeting of the county club institute held in the auditorium of the Cross Plains Methodist Church, Saturday afternoon. Mrs. Violet S. Greenhill, head of the child welfare division of the board of control, from Austin, delivered the principal address of the afternoon. The Junior Study Club of Cross Plains was hostess.

Mrs. Wiley Clinton, of Putnam, president of the Callahan county club institute, called the meeting to order at two-thirty. The Lord's Prayer was led by Mrs. Ace Hickman, of Baird. A piano solo was rendered by Mrs. Robert S. Gaines, of Cross Plains. Mrs. Fred Cook and Mrs. R. D. Williams, both of Putnam, read.

Mrs. Greenhill, who was introduced by Mrs. Clinton, explained the facilities offered by the Child Welfare Division of the Board of Control, explaining that adequate hospitalization is available to those who are mentally and physically ill. She gave in detail the requisites for entrance and told how local clubs interested in helping afflicted children should proceed.

At a business session following Mrs. Greenhill's address, a motion was introduced and unanimously passed, to include Cross Plains and Cottonwood home demonstration clubs in the federated unit. During the social period a refreshment plate of chicken salad and cheese sandwiches, stuffed dates and coffee, was passed by members of the Junior Study Club.

STUDY CLUB MEMBERS MEET AT BOOTH HOME

Junior Study Club members met at the home of Mrs. Orba Booth Tuesday afternoon in their regular meeting.

In a business session Mrs. R. Elliott Bryant and Miss Sara Chapman were elected as delegates to attend the convention of Federated Clubs, which will be held in San Antonio in November. Miss Mary Beth Langston was taken into the club as a new member.

Mrs. Booth acted as leader for the program. It was as follows: The life of Robert Louis Stevenson and Fannie Osburn was given by Miss Margaret Wagner; The Life of Josiah and Sarah Wedgwood was discussed by Mrs. R. Elliott Bryant, and Miss Novalyn Price, and Mrs. Booth read.

The next club meeting will be at the home of Miss Sara Chapman.

STUDY CLUB MEETS AT MRS. J. A. CATON'S HOME

Wednesday Study Club members met at the home of Mrs. J. A. Caton Wednesday afternoon in their regular semi-monthly meeting.

The meeting was called to order by the president, Mrs. W. R. Wagner, Jr. Two new members were taken into the club. They were Mrs. W. S. Ramsey and Mrs. C. C. Neel.

It was decided in a business meeting that the club would provide a news stand for the public at the city office. Magazines of different kinds will be given free to anyone wishing to read them.

The program for the afternoon was as follows: Mrs. Caton acted as leader. "Catherine the Great" was given by Mrs. J. P. Smith; "Elizabeth" was discussed by Mrs. J. E. Pittman, and "Victoria" was given by Miss Ethel Manning.

DEQUE PHANZ CLUB IS ENTERTAINED MONDAY

Members of the "Deque Phanz" club were entertained at the home of Miss Betsy McAdams Monday night with two table of bridge.

Miss Cheryl Lutgens won high score for the evening. A refreshment plate of pimiento cheese sandwiches, congealed salad, potato chips, olives, angel food cake and coffee was passed to Misses Rosa Van Lane, Bobbie Lee Westerman, Lois McCord, Cheryl Lutgens, Ava Walker, Margaret Wagner, Helen Grace Gray, Geneva Atchinson, and the hostess.

OGLALA GIRLS OFFER 'NEGRO SHOW' TUESDAY

The Oglala Girls Club will present a negro minstrel in Cross Plains high school auditorium Tuesday night, October 20. The curtain will rise at eight o'clock. Mrs. Orba Booth is directing the presentation. An admission charge of five cents per person will be made, the proceeds from which will be placed in a fund to convey the girls to camp in the Palo Duro Canyon next Summer.

MRS. V. A. UNDERWOOD IS HOSTESS TO CLUB

Mrs. V. A. Underwood was hostess when she entertained the "Delta Karda" club at her home Monday afternoon with two tables of bridge.

Mrs. W. E. Meredith, of New York, won the high score award for the afternoon.

The hallowe'en motif was carried out in bridge accessories and table covers.

The hostess passed a refreshment plate of tuna fish salad, toasts, olives, date tarts, topped with whipped cream and ice tea to the following: Mrs. R. Elliott Bryant, Mrs. W. E. Meredith, Mrs. Stanley Clark, Mrs. Edwin Baum, Mrs. W. J. Sipes, Mrs. Fred Cutbirth, Mrs. J. H. McGowen, and Mrs. Jack Scott.

The club will meet at the home of Mrs. Volley Joe Williams next Monday afternoon.

CLUB IS ENTERTAINED AT MRS. F. CUTBIRTH'S

Mrs. Fred Cutbirth entertained the Thursday Night club with two tables of bridge at her home Thursday night.

Mrs. Arthur Mitchell won high score for the evening.

The hostess passed a refreshment plate of tuna fish salad, toasts, pumpkin pie topped with whipped cream, and coffee to the following: Mr. and Mrs. Arthur Mitchell, Mr. and Mrs. V. A. Underwood, Mr. and Mrs. S. R. Jackson, and the host and hostess.

BAIRD CLUB SPONSORS 'BOOK TEA' SATURDAY

On Saturday afternoon, October 17, the Wednesday Study Club of Baird will sponsor a "Book Tea" from two o'clock until six in a room in the basement of the court house, which has been set aside for a county library. Everyone in Callahan county is cordially invited to attend and bring a book to be donated to the new library.

CONTRACT CLUB MEETS AT WILLIAMS HOME

The contract club met at the home of Mr. and Mrs. Volley Joe Williams Thursday night, where they were entertained with two tables of bridge.

Mrs. Stanley Clark won high score for the evening.

At refreshment time a plate of pumpkin pie topped with whipped cream and coffee was passed to the following: Mr. and Mrs. Stanley Clark, Mr. and Mrs. Edwin Baum, Mr. and Mrs. R. Elliott Bryant, Mr. and Mrs. Jack Scott, and the host and hostess.

EARLINE SILLIX IS HONORED AT DINNER

Miss Earline Sillix was complimented with a birthday dinner at the home of Miss Marie Bryson, East of Cross Plains on the Pioneer highway, Friday evening, October second.

The house was beautifully decorated with lantadas, lavender and other Autumn flowers.

The hostess, Mrs. S. E. Sillix, was assisted in serving and receiving the guests by Mrs. Lon D. Anderson, Mrs. Della Browning, Miss Alice Bryson.

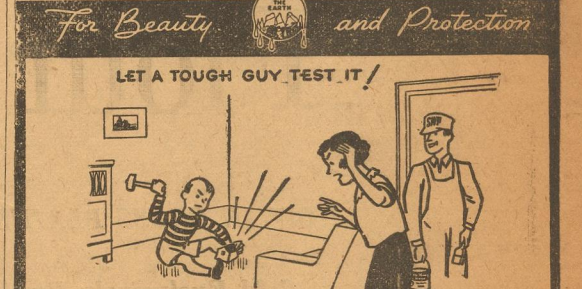

The table was set for 16 and a four-course dinner was served to: Ebb Huckaby, Lee Doyle Lancaster, Gracie Lou Helms, Opal Maddux, Brownie Lou Lancaster, Betty Jo Davidson, Betty Jean Browning, Edwin Neeb, Jr., Patsy Ann McNeel, Joe Kendrick, Wilmer Ross Sipes, Ray Baum, Kathryn Young, Mildred Browning and the honoree. After dinner, Earline was escorted to a table, heavily laden with lovely and useful gifts.

Fortunes were drawn and prizes won by Wilmer Ross Sipes, Edwin Neeb, Jr., Betty Jo Davidson, Patsy Ann McNeel and the honoree. Mildred Browning had charge of the remainder of entertainment for the evening.

Miss Ethel Manning spent the week-end visiting her parents in Cisco.

SHERWIN-WILLIAMS

PAINT

SHERWIN-WILLIAMS MAR-NOT VARNISH can take care of little imps, water, alcohol, alkali, and the like. This fast drying varnish gives a lovely high gloss finish on floors, woodwork or furniture—brings beauty and protection to wood surfaces. One quart covers a 10 x 14 foot floor, one coat.

Now Ease Neuritis Pains Fast

For Amazingly Quick Relief Get Genuine Bayer Aspirin. If you suffer from pains of neuritis what you want is quick relief. Genuine Bayer Aspirin tablets give quick relief, for one reason, because they dissolve or disintegrate almost instantly they touch moisture. (Note illustration above.) Hence—when you take a real Bayer Aspirin tablet it starts to dissolve almost as quickly as you swallow it. And thus is ready to start working almost instantly. Headaches, neuralgia and neuritis pains start easing almost at once. That's why millions never ask for aspirin by the name aspirin alone when they buy, but always say "BAYER ASPIRIN" and see that they get it. Try it. You'll say it's marvelous.

## Home Economics And What It Means To High School Girls

By Miss Opal Baker

**Instructor in Cross Plains Schools.** Home economics teaches girls not only sewing and cooking, but a much broader subject, that of homemaking. A girl will not always be a good homemaker just because she can sew and cook. Therefore instead of being a frill or fact, homemaking is really the backbone of education as it is concerned with the most vital factor in the growth and well being of our nation, the American home.

Let me enumerate the various phases of home economics to be studied this year. The units to study in homemaking are: Being a Satisfactory Member of a Group, Providing Food for Health and Enjoyment, Being a Friend to Children, Managing My Clothing, and Personal Appearance. Setting up Housekeeping, The Unites to Study in General Housemaking: Living Satisfactorily With Others: Setting Up Housekeeping: Purchasing and Using Food Effectively, Grooming and Clothing Ourselves and Cooperating in the Management Problems of the Home.

First, Being a Satisfactory Member of a Group—The Girl, Her Home, Family and Friend. What is personality? What makes a girl popular? What makes a good friend? Home economics is an excellent character builder. It teaches us such personality traits as fairness, cheerfulness, friendliness, sincerity, tact, and other things. It teaches how to live socially, how to be charming and have poise. One learns good social manners. So you see home economics teaches us every phase of living—living within the home as well as in relation to community life and interests.

This unit also teaches the basis for a happy family life; it gives us a better understanding of each member in the family, and teaches us how to make ourselves more agreeable so that there will be less friction and more harmony in our home life.

A very important part of this unit is learning the use of leisure time. Since the depression we all have more free time than we ever had before, and in the home making classes one learns the satisfying and useful ways to spend this at home which will make the home better. One learns to plan recreation life more harmonious as well as

save expenses. One learns the different things high school girls can do for recreation which do not cost money. We discuss hobbies each member of a family should have an interesting hobby which will take up part of his leisure time. The girls may become interested in some kind of handiwork, and the children in making collections of different kinds.

In the unit Being a Friend to Children, the girls study and observe children and where possible they practice the actual care of children. Where this is possible, this is much more effective than merely learning facts. This unit teaches the different stages in the development of children, the adequate diet for children, and the importance of this diet. It teaches what toys are suitable for children of all ages. One learns to make toys using spools, boxes, wrapping paper. This gives girls an understanding of the needs and wants of girls' own younger brothers and sisters.

There are units on Providing Food for Health and Enjoyment. One learns how to purchase food so as to obtain the most food value for the lowest prices; to plan meals in such a manner that we may get all the essentials of a well balanced diet at a very reasonable price; the names of different foodstuffs, the value of each in the body and in what foods they may be found. By applying the knowledge it is possible for us to have healthy, normal bodies. One learns also to prepare food and to serve it attractively.

Unit on the Co-operation in the Management Problem of a Home.

In this unit one learns to make and keep to a budget, or in other words we study purposeful planning and systematic spending of our income. The keeping of a budget is especially helpful during the depression because it is the most economical way of living.

In the study of Clothing, one learns how you can buy material and often make their own clothing, at a lower cost than the clothes can be bought readymade. Clothing Construction, however, is not the most important unit on clothing. In the study of clothing selection, one learns just what type of clothing should be worn by persons of different complexions and personalities. Care and repair of clothing is very important. This unit teaches all kinds of mending and repairing. One learns how to clean their clothes by laundry and use of solvents and stain removers, saving laundry and cleaning bills. Home economics teaches us room decoration and arrangement. Many people can not afford to buy new furniture or even spend much money in remodeling their old furniture. One learns to refinish the furniture they have at very little cost, how to make braided rugs from old material instead of buying new ones. How to re-dye curtains and use orange crates for dressing tables and benches.

When we understand the many things which Home Making teaches, it is easy to see how important it is to education.

Whatever profession a girl may choose, most of them will eventually become homemakers. And here is where the knowledge of every phase of the course becomes the most valuable.

Summing up: Exactly what a girl should gain by her home economics course: First, they have a broader culture and sound scientific background. Second, they have had training for leadership and responsibility. Third, they have had training for the profession of their choice, and last, but not least, they have learned things necessary for not only successful but good homemakers.

### ATWELL

Singing Sunday night was well attended. Singers were here from Putnam, Union, Nimrod and Seranton. Mr. Burleson, Mr. Webb and Mr. Bond were present and sang numbers.

Rev. J. C. Foster filled his regular appointment Saturday and Sunday at the Primitive Baptist Church.

Mr. and Mrs. Pete Brashear are announcing the arrival of a baby boy born October 7, 1936. The baby has been named Tommy Wayne.

Ernest Jones and Miss Maggie Jones, from Coleman, visited friends and relatives here Sunday afternoon.

Mr. and Mrs. J. M. Jones and daughter, Gussie, visited Mr. Jones brother, Bob Jones, near Cottonwood, Sunday.

Misses Roselea Cutbirth, and Jenna Laura Jackso, who are attending McMurry College at Abilene, spent the week-end here visiting their parents.

### COTTONWOOD

Mr. T. A. Moore, of Victoria, Texas, is visiting his brothers, J. A., J. B., and S. A. Moore.

Mrs. O. L. Hall, of Aransas Pass, is visiting her sister, Mrs. Mage Arvin.

Mr. and Mrs. Irb Davis, of Cisco, visited Mr. and Mrs. R. N. Whitehorn Saturday and Sunday.

Mayme Coppinger, who for the past month has been visiting in Tyler and Greenville, returned home last week.

Mr. and Mrs. E. K. Coppinger and children and Mrs. T. A. Coppinger spent the week-end at Abilene.

Miss Burkett had as her guest last week Miss Jimmie Mae Jayroe, of Brownwood.

Mr. and Mrs. W. H. Coppinger and son, Billy Mae, visited at Abilene Sunday.

Mr. and Mrs. Travis Renfro and family, of Cross Plains, visited her parents, Mr. and Mrs. J. H. McElroy, Sunday.

Mr. and Mrs. W. W. Everett and son, W. P., of Putnam, visited in the home of Mr. and Mrs. B. W. Everett Sunday.

Mrs. Ola Coffee and Miss Blanche Burkett were Rising Star and Cisco visitors Sunday afternoon.

Prof. and Mrs. Sudduth visited relatives at May Saturday and Sunday.

Mrs. Missouri Ramsey, Misses Benlah and Hazel Respress visited in Abilene Sunday afternoon and attended the Gipsy Smith revival.

Mr. Will Freeland, of San Antonio, is visiting his nephew, B. H. Freeland and family.

Rev. McCord preached at the Methodist Church Sunday night.

Mrs. W. B. Shirley had as her guests this week-end Mr. and Mrs. G. B. Ingram and children, of Crane, Mr. and Mrs. Emil Shirley,

of Fort Stockton, and Mrs. Lawton Cox and family, of Eastland.

Junior Ivy spent the week-end at Baird.

Rev. and Mrs. S. R. Respress and Patsy went to Admiral Sunday, where he filled his regular appointment at the Baptist Church.

The H. D. Club met with Mrs. S. R. Peevy Friday afternoon. There were 11 members present and four visitors. We planned for our achievement day, October 23. We will meet with Mrs. C. W. Worthy in the morning and then go to Mrs. B. H. Freeland's, who is wardrobe demonstrator, and Mrs. J. H. McElroy's, who is pantry demonstrator, in the afternoon.

The Cottonwood P.T.A. will sponsor an amateur program at the gym Friday night. If you wish

to enter the contest for cash awards, please turn your number in to the program committee or Mrs. McClintock by Friday noon if it is possible to do so. Admission five cents to adults.

A large crowd attended the pie supper which was given at the gym last Friday night. The \$11.20 which the pies brought will go in he senior class treasury.

Mr. Dee Peevy, Mr. Luther Johnson and son, Leo, of Oplin visited in the home of Mr. and Mrs. W. O. Peevy Sunday night.

Mr. and Mrs. T. S. Holden spent the week-end in Oklahoma visiting their son, Tommie, who is attending the university there.

Five talking picture studios have been opened in Australia.

## Are YOU HAPPY After Meals

Or Do Gas on Stomach and Sour Stomach make you Miserable?

For COLDS HEADACHE NEURALGIA FATIGUE RHEUMATISM SCIATICA NEURITIS PERIODIC PAINS

Too much food, or the wrong kind of food, too much smoking, too much beer, make your body over-acid. Then you have distress after eating, gas on stomach, heartburn, sour stomach. ALKA-SELTZER relieves these troubles promptly, effectively. Use Alka-Seltzer for Headache, Colds, Fatigue, "Morning After Feeling," Muscular, Sciatic and Rheumatic Pains. Alka-Seltzer makes a sparkling alkaline drink. As it contains an analgesic (Acetyl-Salicylate) it first relieves the pain of everyday ailments and then by restoring the alkaline balance corrects the cause when due to excess acid. Alka-Seltzer tastes like carbonated mineral spring water—works like magic. Contains no dangerous drugs...does not depress the heart...is not laxative.

Get a drink at your Drug Store Soda Fountain. Keep a package in your home medicine cabinet.

## HIGGINBOTHAM BROS. & Co.

## County Agent's Column

### Sodded Terrace Outlets Prevent Washing

Persons who have had terraces constructed on their farms whose outlet channels empty into land not sodded find that the outlets soon soddens and eat back into the fields. Various ways have been used to prevent this washing of which it might be stated that certain agencies for a while advocated concrete dams or rock dams made with mortar, but this method of terrace outlet management proved far too costly. Some of these dams cost as much as \$84.00.

Farmers who have drained their terraces into their pastures have found that no wash is made because the water flows out evenly over the sodded area. This gives us an object lesson that if we sod the terrace outlets it will prevent washing. It is suggested, therefore, that all persons who terrace or who have already terraced their farms take a spade and go out to the pasture on rainy days and cut good sod into squares of about a foot dimension, then haul these to the terrace outlets and lay them so that they will take root and prevent further washing. This sod will soon spread over the entire end of the terrace and make a far better protection than any mechanical dam. If this sod is from mesquite, Buffalo grass, or wire grass it will become a heavier sod by having been protected and by having water flowing occasionally from the fields thus depositing some sediment (plant food) and giving additional moisture. Every farmer can do this and save his terraces, stop any channels from cutting back into the field and yet spend only some time probably not needed at that time in the fields.

### Fall Trench Silos

Now is one of the best times that we have had this year to preserve the last of our forage crops. Many farmers report that their grain sorghums that were cut earlier have suckered out and have made a wonderful growth. The County Agent in visiting over the county the past week noticed many fields with sorghum that will make a most excellent ensilage.

Remember that trench silos will more nearly fill the needs now than any other process the farmer may use to cure his feed because this green stuff will necessarily be late in maturing and if another rainy spell should set in before it has fully matured many thousands of tons will be lost by spoilage. Any good green row crop now will make excellent ensilage if put in and watered well. A complete method of building the trench and of watering the feeds and covering same is contained in bulletins that may be had for the asking in the County Agent's office or the County Agent would be glad to help any farmer calculate the size of the trench that he will need to preserve the amount of feed available.

### Fattening Turkeys

Every turkey grower is interested at this time in knowing how to put on the most pounds on his turkeys before the Thanksgiving market. The County Agent would advise that to those turkeys that are not

### DO YOU KNOW?

Mysterious lights often observed on the slopes of Mauna Loa volcano, on the island of Hawaii, are attributed to minor outbreaks of molten lava.

A new molding material for telephone handles and machine parts is said to be almost twice as strong against impact as ordinary materials in use.

The seeds and skins of grapes yield an oil that is finding a number of uses in German industry.

Texas' highest mountain has three names—Signal Peak, Guadalupe Mountain, and El Capitan. It is 9,500 feet high and is in Culberson county.

**SORE THROAT—TONSILITIS**—Instantly relieved with Anesthesia-Mop, the wonderfully new sore-throat remedy. A real mop that relieves pain and checks infection. Prompt relief guaranteed or money refunded by City Drug Store. 10-16-6mo

doing as well as they should that they, especially, be treated for worms by giving them one capsule of tetrachlorethylene then follow in about two days with a dose of Epsom salts mixed in a wet crumbly mash at the rate of 1 1/4 pounds for each 100 birds. Then there is no feed that will put on fat on a turkey better than yellow corn. Of course, substitutes are used such as barley, maize, and the other headed grain sorghums, but they are not as good as yellow corn. Keep the quarters sanitary, keep out clean cool water, provide some salt and oyster shell in order that the birds may properly develop bone structure along with corn and some green grazing and turkeys will be of profit to the grower.

### List Farms for Terracing Now

Many farmers are calling at the office asking that terracing be done on their farms now or later in the winter. It is desired that every farmer who wishes terrace lines to be run drop a letter or card to the office and state how many acres to be terraced, when it is desired that the lines be run, and who is the nearest neighbor.

The National Youth Administration is going to supply a man and let the boys assist in running the lines for terracing during the next few months. Therefore, it is desired at this time that all farmers wishing lines to be run file their requests so that these boys may work in a community until that part is about finished, thus saving the time of going from one widely situated farm to another. The County Agent will appreciate it if every farmer who desires terracing will get a written request to him at once.

### Special Drought Freight Rates

All farmers who expect to take advantage of the drought freight rates must have the shipment of feed consigned to the Callahan County Drought Committee. This will save one-third the normal freight rate on such feeds, but that is the procedure outlined by the railroad commission. No such rate will be obtained unless it is handled in this manner.

### Strawberries and Cream For April and May

If you expect to have strawberries for shortcake next spring, you must start now. Set plants in rich, well drained soil in rows three feet apart and one foot apart in the row. In West Texas where irrigation can be done, we suggest Masterdon Everbearing. Five hundred plants will be enough to start with. For best production, set them in October.

### ROWDEN

Miss Juanita Swafford Weldon Baggett had dinner with Leon and Leonard Swafford Sunday.

Mr. and Mrs. Eddie Henderson, of Dressy, attended church at Rowden Sunday, and also visited her home folk.

Howard Young, of Baird, was at Rowden Sunday.

Mr. and Mrs. Odie Smedly and children and R. G. Milburn and Billy Rose had dinner with Mr. and Mrs. Herbert Glaze Sunday.

Anna May Tabor and Louise Boggett and Pauline Elliott had dinner in the H. C. Bower home Sunday.

Mr. and Mrs. Bill Tabor are the proud parents of a little baby girl, born October 6, who has been named Billy Ann.

Calvin Miller and Hazel Rose were married Monday, October 5.

Calvin Miller is the son of Mr. and Mrs. G. W. Miller, of Rowden, and Hazel Rose is the adopted daughter of Mr. and Mrs. W. W. Rose of Rowden. They will make their home with his parents, we have been told.

Mr. and Mrs. Walter Jones and family were in Coleman county Sunday.

Mr. and Mrs. James Burk, of Baird, visited his mother, Grandma Burk Sunday and his sister, Miss

Lizzie Burk returned home with them and spent a few days.

Faidle Fowler and Margaret Miller had dinner in the W. W. Rose home Sunday.

Mr. and Mrs. Bob Bradley entertained the young people Friday night with a party. There were 21 present and all had a nice time.

Grandma Burk spent Thursday with Mrs. John Swafford.

Mr. Julia Mauldin attended Sunday School at Rowden Sunday, and is also visiting relatives at Rowden.

Mayo Fowler spent Saturday night with Gavin Miller.

Pete Swafford was at Rowden Sunday.

Mr. and Mrs. Sterling Odum spent Sunday with her parents, Mr. and Mrs. Burt Tabor.

Nett Tabor spent the week-end at home.

Bro. Bennett, of Abilene, filled his regular appointment at the Rowden church Sunday.

Garvin Miller took dinner with Mayo Fowler Sunday.

Gustine Thompson, of Cottonwood, was at Rowden pulling bolts the past week.

The Rowden Baptist Church has organized a B.Y.P.U. for the young and old.

Mrs. Mamie Swafford and son, Norman, of Cross Plains, and Mr. and Mrs. Don Helburg, of Echo, and Mr. and Mrs. Nelin Swafford and children, of Tree, were in the Earl Smith home Thursday night.

Mrs. B. C. Chrisman and children, of Oaklawn, attended church at Rowden Sunday night.

# The astonishing story of GULFPRIDE

THE WORLD'S FINEST MOTOR OIL

THE results you get from GULFPRIDE OIL can be obtained from no other motor oil in the world!

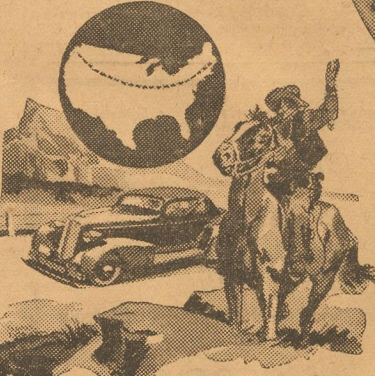

For only GULFPRIDE is made from choice Pennsylvania crude . . . refined to equal the best motor oils on the market . . . and then further refined by Gulf's exclusive Alchlor process.

This process was developed by Gulf after 15 years of scientific research—the kind of painstaking research that is behind every Gulf product.

Read the facts below. Then replace your summer-worn oil with GULFPRIDE now. At all Gulf dealers.

(Left) **BEATING THE BEST.** No other process refines oil so thoroughly as Gulf's Alchlor process. When a blend of 6 of the finest Pennsylvania motor oils—already highly refined—was put through this process, 20% waste came out. Proof that the Alchlor process makes GULFPRIDE finer than the finest other Pennsylvania oils.

A GULFPRIDE USER drove from Bennington, Vt. to Portland, Ore., averaging 400 miles a day. He did not add a single drop of oil. An unusual record, yes. But expect GULFPRIDE to take you farther before you need a quart than any other oil you ever used.

EASTERN AIR LINES' Great Silver Fleet uses GULFPRIDE only in every one of its 21 mighty planes. No other oil will do, because no other oil can match GULFPRIDE—the world's finest motor oil—for safety, stamina, and low cost per mile!
