## IRON - IRON That's The Answer

Uncle Sam has informed Scrap Iron Dealers that complacency shown by holders of scrap iron in getting it moving to war production factories is no longer a matter to be taken lightly! The time has come when the matter of patriotism is connected with the matter of selling iron, because the one burning point it: We can never hope to match the Axis in needed war equipment until every available pound of waste material is rounded up and loaded into a car bound for a war material factory!

AND LOADING IS GOING ON CONTINUOUSLY IN CROSS PLAINS! SELL YOUR IRON TODAY!

.. G. JENNINGS

them. The government is asking all who raise and kill hogs to clip the long bristles growing on the backs and necks of most porkers. 5 inches-the longer the higher the

### THEY'VE PASSED THEIR 'PHYSICAL'-TOO

America's feathered and four-legged armies are very much on their toes these days. Yeast vitamins used in fortifying animal feeds have done wonders in recent years to better the quality and propagation of livestock and poultry. Did you know that the Home of Budweiser is America's biggest single source of these vitamins?

Year after year, we have striven with research and resources to better the methods and facilities for brewing Budweiser. To do this, a laboratory specializing in fermentology and nutrition was necessary. Discoveries made in the laboratory and in the plant have led to the development of products contributing to human necessity and progress. Some of these products would appear to have only a remote relationship to brewing, yet, they are the result of scientific research into many allied fields.

### Endless research in making the world's leading beer has led to other products

VITAMINS, B COMPLEX-for manufacturers of pharmaceutical and food products. Our plant is one of the world's largest sources.

VITAMIN D-Anheuser-Busch produces enough of the basic material for Vitamin D to supply the entire American market.

BAKER'S YEAST-We are one of America's biggest suppliers of standard and enriched yeasts and malt syrup used to make bread. CORN SYRUP-many millions of pounds

annually for America's candy industry. SYRUPS-for food, table and confectionery uses and special syrups for medicinal purposes.

STARCH-for food, textile, paper and other industries-millions of pounds annually.

REFRIGERATING EQUIPMENT—for retailers of frozen foods and ice cream the country over. This division is now working all-out on glider wing and fuselage assemblies for our Armed

DIESEL ENGINES-Adolphus Busch, founder of Anheuser-Busch, acquired the first rights to manufacture this revolutionary engine in America and thus started our great Diesel industry on its way.
