posed consolidation of the two dist. Plans Get Underway For 5th Annual Gathering August 9 **Honoring Callahan Pioneers**

> Clyde will be host to pioneers who blazed trails into this section, and hundreds who wish to pay them homage, in the fifth annual Callahan County Old Settlers Reunion, August 9, it was decided by the County Committee. The group, composed of B. L. Russell, James C. Asbury, Jack Scott, J. H. Hughes, R. P. Stephenson and M. H. Perkins, met in Baird June 9, and officially selected Clyde to be the scene of the reunion.

It will be the fifth session of the Old Settlers Reunion. Other gatherings in previous years were at the McCoy Ranch, Deep Creep picnic grounds, Denton and Cross Plains in order named.

John W. Robbins, mayor of Clyde, called a meeting of citizens of that place and the surrounding area and formed an organization to work with county committees in staging Miss Jane Ferguson, of Merkel, the reunion. Event Will Be Held Rain Or Shine; Grandstand Will Provide Ample Shelter

First livestock auction was held in Cross Plains Friday of last week at the barns located at the highway junction just West of town. Despite dripping skies hundreds were in attendance, including traders from no less than 30 neighboring

Livestock of all classes and kinds brought good prices-generally speaking-and both buyers and sellers were reported highly pleased with the first Cross Plains sale.

Second sale is to be held at the same location Friday afternoon of this week and Jim Miller, V. A. Montgomery and Johnny Trigg, sponsorers of the movement, are getting everything in readiness for an even larger crowd.

Highway officials have requested that persons attending the sale refrain from parking their automobiles along the highway in such manner as to impede traffic. It is pointed out that there is sufficient space available, if double and triple parking is not practiced.

Due to the fact that seats are sheltered at the local auction ring, Friday's sale will be held regardless of the weather. There is plenty of room inside the sheltered inclosure for buyers and sellers.

Plans call for the holding of the le here each Friday.

CURRY IN RACE FOR LEGISLATIVE PLACE

E. M. (Ed) Curry, of Pioneer, advised the Review yesterday that his name had been placed on the ballot as a candidate for State Representative from the 107th flotorial district, comprising Callahan and Eastland counties, but that financial handicaps prevented his making an extensive campaign.

"I will appreciate any and every vote cast in my behalf but I am financially unable to make an extensive campaign. Due to the fact that I have twice before plead my case with the electrotate I believe my qualifications and sincerity are well known. I, therefore, have permitted my name to be placed on the ticket and would, of course, appreciate the opportunity of serving as legislator of the district in which I have lived for more than a half century, but I want no one to feel offended if I fail to ask their vote, for I am financially unable to devote my time, much less funds, to the task of canvassing the district," Mr. Curry said.

HARRY HINES ASKS TO SPEAK AT PICNIC ON MORNING OF 19TH

Harry Hines, candidate for Governor of Texas, this week notified the entertainment committee for Cross Plains 59th annual picnic celebration that he wished to speak here the morning of July 19, in the interest of his candidacy.

Reply was immediately forwarded the Hon. Mr. Hines that this time was available and that he would be expected.

Palo Pinto Man May Have Snake Named For Him; Catches Reptiles For A Living

Phillip Harter, who resides on the Brazos River near Palo Pinto, catches so many snakes that people call him "Snakey." Among his captures is a previously unknown variety which Cornell University intends to name for him.

Harter makes his living catching akes, lizards, spiders and such reatures and selling them to zoos d private collectors. He will not apply show people, because, he iys, they are unkind to snakes, torture them for the entertainment of the public and do not feed them

21 copperheads and three rattle- called natrix erythogaster harteri snakes. He has a ready market for or natrix harteri. It would give us the former, but there is rarely any demand for the rattlers.

His best sellers are bullsnakes, worth from \$1 to \$3 each.

Last summer Harter found a redbellied watersnake. He had never seen one like it and he sent it to the department of zooloy at Cornell University. Since that time he has seen several more and sent another specimen to Cornell.

"We supposed," the department wrote him, "the first red-bellied watersnake you sent us was a freak. But this year you have sent us a second, and from what you say there is a regular population of them at Palo Pinto. If this is true, you have a new watersnake So far this year he had bagged for science, which may best be the greatest pleasure to name this fellow in your honor.

In many lands today, mothers are forced to give up their children -even the youngest. Dictators demand them-and dictators are all-powerful. In peace as in war, they control business and industry, capital and labor, life itself. Men and women are told what work they must do. There is no prize for ambition, no hope for the man who would like to choose his own career.

How different it is in the United States! Here, governed by men responsible to the people, we choose our life-work for ourselves. This system of free enterprise makes the United States the world's greatest nation. Because men are free to dream and work as they see fit, scores of industries have grown great in America: the automobile, radio, telephone and electrical industries are just a

As typical Americans, the employees of your electric company are devoted to the American principle of working together, producing more of the good things of life and making them avalaible to more people. Through their efforts electric service steadily improves; at the same time, its price steadily comes down.

What inspires the people of your electric company? The best answer is this: the employees of this company are proud of their part in keeping America great. They work as free men to bring better service and value to other free men. They are glad to create wealth instead of destroying it.

This company has been built by free Americans. It is built to serve other free Americans. It is free from political dictation. Like all industry, it will succeed as long as there are free Americans to work for it and free Americans for it to work for.
