FRED TUNNELL BUYS CUTBIRTH RESIDENCE

Fred Tunnell this week bought the Fred Cutbirth residence in the North part of town, one block East of the high school campus. Mr. and Mrs. Tunnell and family

will move into their new home possibly the latter part of this month or the first of next.

Officials And New Fire Truck

Standing beside Cross Plains fire department's new truck are Mayor C. S. Martin, Fire Chief Jack Graves, Nozzleman Lloyd McMillan and Fire Marshall Lindsey W. Tyson.

The new truck is said by authorities to be one of the best equipped units of its kind in the

state for a fown the size of Cross Plains. The vehicle was purchased at a saving of nearly \$1,-500.00 as a result of close cooperation between city dads, the local firm from which the truck was purchased and the many hours of volunteer work done by members of the fire department in assembling the truck.

15 Youths Answer Call To The Colors DESPITE THE FACT **ISSUES TO SETTLE**

2 State Wide Elections Are Being Talked; City And School Voting Certain

Only seven days remain during which Callahan county voters may pay their 1940 poll tax or to be disfranchised at all elections during

In an endeavor to impress the matter on the minds of the electortate, Mrs. T. W. Briscoe, Callahan county tax assessor and collector, has inserted a reminder in all newspapers of the county this week The advertisment appears on page six of today's issue of the Review.

Although no state or county officials are to be chosen this year, indications are that a number of warm contests will be settled at the ballot box. A referendum on statewide prohibition and the repeal of the horse racing laws are being talked. Local option elections on In Cross Plains two city councilmen are to be elected, as the terms of T. E. Baum and L. W. Placke expire in April Too, all school districts throughout the state name trustees in April, Tenures of Ben The wedding of William Floyd Atwood and Jack Lacy, members of Havens, son of Mr. and Mrs. Silas the Cross Plains board, expire at Havens, and Lula Katherine Blake- that time, and either they or their

> According to Mrs. Briscoe, there siding in this county who have be come 21 years of age since January 1, 1940, or who will become 21 before election time must obtate co. A ficates of exemption before February 1, 1941, if they desire to vote,

For the convenience of people in and near Cross Plains in paying their poll taxes, cards have been left at the Citizens State Bank which when filled in and inclosed in an envelope with check or order for \$1.75 constitutes payment.

JACK GRAVES HOSTESS TO CLUB

The Thursday 42 club met in the home of Mrs. Jack Graves last Thursday afternoon. High score went to Mrs. Raymond DeBusk. Low was won by Mrs. George B. Scott.

The hostess passed a refreshment plate of sandwiches, potato chips, planning to move this week end in pickles, Dr. Peppers and cake and jello with whipped cream to: Mesdames, E. E. Thate, W. T. Cox, Ray-

LEASE SEALE RANCH FOR 3 OIL TESTS IN CISCO SAND SERIES

John D. Kynaston independent perator of Abilene and Miami, Fla. has purchased leases totaling 1,446 acres on the Elmore (Curly) Seale ranch six miles south of Baird in Callahan county and secured option on a 1,296-acre tract of the Marguerite Seale Buchanan ranch, adjoining to the north.

Kynaston, for many years an operator in the mid-continent area, plans to drill as many as three wells to test the shallow Cisco series from the Moutray to the Hope sands, and may carry one of the three to 3,000 feet.

No test has been drilled on the Seale ranches, although the Moutray and Hatchett pools lie immediitely to the north and east of the block. Part of the acreage was held at one time by a major com-

THE POCKETBOOK of KNOWLEDGE TOPPS

LETTERS TO THE EDITOR

Hon, Sam Russell, M.C. Washington, D. C.

Not for any personal build-up of your acquaintance or favor for myself: but purely in the public interest, remembering the conversation had with you during the campaign of last summer, regarding inflation of the currency: I now take the privilege of calling your attention to the clipping from a recent newspaper which is as follows:

Early congressional reaction was favorable Thursday toward a broad program of monetary legblishment, we take particular pride in our slation recommended by federal reserve officials as a safeguard against possible inflation due to heavy defense expenditures.

The plan, which would require legislative action, proposes among other things to repeal "greenback" legislation, to take away from the President his present power to make further changes in valuation of the dollar, and to facilitate eventual balancing of the federal budget.

Although few Congressmen were available for comment, because of the new year holiday, Senator King of Utah called the suggestions "by and large very wise" and characterized the President's existing fiscal powers as a "sword of Damoeles hanging over" the country's financial system.

Senator Adams of Colorado said he was "thoroughly in accord" with the recommendation for removing the presidential power to make further changes in the dollar's gold content.

No White House Label Representative Crawford of Michigan, a member of the House Banking Committee, expressed hope that Congress would pass necessary legislation to enable the Federal Reserve Board "to command the control necessary to remove destructive inflation possibilities."

The proposal did not carry a White House label, although Lauchin Currie, the President's personal economic advisor, participated in conferences with federal reserve officials before the plan was made public.

Marriner S. Eccles said Wednesday that the proposal was recommended by the Federal Reserve Board of which he is chairman, also by the presidents of the 12 Federal Reserve Banks and by the Federal Advisory Council which represents the 7,000 individual banks in the federal reserve

Proposed Legislation Briefly, the proposed legislation

1. Hold down bank lending, by increasing the percentage of deposits that banks must lay aside for reserves.

2. Take away the President's power to make further changes in the gold content of the dollar. (Under existing law, he could

REMEMBER your mother, father, wife, brother, sister, daughter this year. Give to them they gave to you. Buy a monument or marker. See

W. J. Cross Special Price This Month

create nearly \$4,000,000,000 in new money by raising the Government price of gold from \$35 to \$41,34 an ounce). In the same category, it was proposed to repeal the Treasury's present authority to issue \$3,000,000.000 in "greenback" money, backed only by the Government credit, and also repeal an additional power -never used by the Treasuryto issue \$1.29 worth of currency for each ounce of foreign silver

> it purchases. 3. Neutralize the credit effects of imported gold. Details of how this could be accomplished were | would be required to raise between not disclosed.

4. Sell future issues of Government bonds to the general public rather than to the banks.

5. Eventually balance the federal budget, "whenever the country approaches a condition of full utilization of its economic capac-The legislation refered to in the

It is mostly some-

tinkers dam' whether the gold the Federal Reserve Bank reported six billion, refered to above. was in circulation January 2, 1941. I say measly, because it is measly ed for the new year and the new in comparison to the amount we job, I beg to remain your friend; really need to carry on the business of this country. If we had that much more money in circulation we would all be working and would need no relief. It is the only way to combat the subversive element, by eliminating idleness, it would destroy the Communist party, which is a growing menace. Feature a people having to pay five times as much taxes each year as there is money in circulation, that is what we are doing, state and national. By the time a dollar goes five times thru the tax till in one year it has

thing except Communist. Item No. 3. Imported gold has no affect on domestic credit when it is placed in permanent black-out upon arriving on our shores.

Item No. 4. Selling more bonds to more people can have only one significant affect; that is to increase the already dominant power of the bond holder in enslaveing the

RAYMOND YOUNG, Clerk of the District Court of Callahan County, Texas. 4t-1-24-'41)

Aubra Dodson Descrices The Opening Of 47th Legislature

BY AUBRA DODSON Ladies and gentlemen:

It is now eight minutes until noon, Tuesday, January 14. I am sitting in the gallery of the Texas house of Representatives awaiting opening of the 47th legis-

I can't watch the Senate and House both, and it is an acknowledged fact that the House puts on the better show. The clerk is hollering: "All who are not entitled to the privileges of the floor please retire." He ends this request with: "Let's Go." Secretary of State M. O. Flowers has just officially declared the session open and the minister is now praying. His prayer was long and he

CITATION BY PUBLICATION

is defendant, said petition alleging married on or about September 18th 1937; that they lived together as

Witnessed, Raymond Young, Clerk of the District Court of Callaha

in Callahan County, Texas, this 15th day of January, A.D., 1941.

RAYMOND YOUNG. Clerk of the District Court of Callahan County, Texas, Issued this 15th day of January,

A. D., 1941. RAYMOND YOUNG, Clerk of the District Court of Callahan County, Texas asked that "such wisdom as was given Solomon be given members of the Texas Legislature during this time of great world disorder."

The news cameras have been flashing over the House getting shot's of prominent members from all sections of Texas. The clerk is now calling the roll, so I will go over to the Senate gallery and see what's happening there.

The Senate has opened and is now in the midst of electing a President pro-tem. I see the Senator from your

district, John Lee Smith, taking in all the speeches but remaining silent himself Everything is quiet and "soc-

iety-like" in the Senate. Senators get the same pay as Representatives but they are the "silk stocking" crowd. When entertaining Senators the lobbyists engage the private dining rooms of the swankiest hotels. Oh! they have had an upset. Senator Clay Cotton, from Palestine, has been elected "pro-tem" and Coke Stevenson is now swearing him in. I see ex-Senator Wilbourne B. Collie, from your district, is a visitor in the gallery.

Back over the House I learn they have elected Homer Leonard to the speakership by a unanimous vote. This has been "cut and dried" for weeks.

Sitting in one of the top rows of the House gallery I see the old veteran, "Farmer" Jim Ferguson. He's listening very intently, with his left hand cupped against his ear. His hearing is not so good now and he wears a "hearing-aid." As I look at Jim Ferguson I can't help but wish that before he's shuffled off the political picture, he'd leave a book on state government. It is acknowledged by friend and foe alike, that Jim Ferguson knows more about Texas government that anyone in the big, ol' Lone Star State.

Well folks, it's about all over for the day. They'll go over the dull part-introduction of resolutions-and then pass an appropriation bill to pay salaries for the first week and then adjourn. And so opens your 47th Texas legislature.

STOCK OUTLOOK IS

New factories that are being built in every Southern state and re-employment by established industries are important factors in the improved '41 outlook for Southern farmers tion with the production of cotton.

"Reductions in unemployment, coupled with increased earnings of those who have not been classed as mand by consumers for farm products," a recent report on the 1941 outlook pointed out. "Most important among these products are meats, dairy and poultry products, vegetables and some fruits."

Interesting in connection with this increased employment is a recent estimate that one hour's wage received by the average American will buy 2.1 pounds of beef, whereas the same amount of labor will earn an Englishman only 1.4 pounds, a German 0.9 of a pound, and a Russian 0.3 of a pound-when meat is available at any price.

Re-employment benefits ern cotton-livestock farmers in two Jackson. ways, observers point out. Workers can consume more lint cotton and eat more of the livestock products produced through the feeding of cottonseed feed products in balanced rations. In this way, the of cotton, which supplies both lint and cottonseed feed products.

That any increases in consumer demand for meats, dairy and poultry products will be especially beneficial to Cotton Belt farmers is indicated by these facts:

1. Decentralization of industry and the trend of industry to lo cate in the South promise to result in relatively greater industrial de

2. Meat consumption has been rebe Friday, February 7, 1941, in the latively low in many Southern areas, home of Miss Eunice Hembree. At so that per capita consumption, as well as total consumption, may be expected to rise with increased buy-

3. Packing plants, cheese plants THEIR CHURCH BUILDING and other marketing facilities that have been expanded sharply in the Workmen began Tuesday re-roof- South encourage Southern farmers in the past, has had to be shipped

4. Relatively small livestock production in much of the Cotton Belt offers opportunity for expans ion. Climatic conditions, supplies ernoon for a few days in Dallas to concentrates, and many other fac tors enable Southern farmers to produce livestock efficiently and

RELIABLE AGENTS WANTED—LIBERAL COMMISSIONS

We're Ready to Serve Uncle Sam

-But We're Not Forgetting You!

It has been asked:

How soon can the electric industry prepare?

The question was answered by a noted editor who wrote:

When there is a big job to be done, it is logical and sensible to assign it to hands that are willing, ready, able and experienced.... This is directly applicable to the problem of electric power for defense. The willing hands in this case are your everyday friends and acquaintances...the men and women, working under a system of private initiative and enterprise, who operate your service company. Their experience and ability cannot be questioned.... They are ready NOW.

The United States today has more than 40,000,000 kilowatts of generating capacity-50 per cent above demand—of which 90 per cent is privately owned by people who invested their savings in sound business enterprise. By way of comparison, Germany, England and France each have less than 9,000,000 kilowatts.

Not only is power for defense assured by this capacity, but it is further guaranteed by interconnections and integration-started 30 years ago and bringing electric service in West Texas and the nation to

West Texas Utilities Company

a higher peak of EFFICIENCY and ECONOMY THAN ANYWHERE ELSE IN THE WORLD. Jobs are provided 275,000 men and women, every one of whom is fully trained in some special post necessary to producing and distributing power. The industry is paying \$400,000,000 a year in taxes supporting the various local, state and federal governments and school and highway systems.

Guiding Your Electric Servant are capable, willing hands-your assurance of plentiful, cheap electric service.

Electric Power .. and Man Power, too

We've prepared in advance to help Uncle Sam with electric power without peril to our service to you. And we are contributing manpower for defense as well. Twentythree of our men already are in uniform. Those left behind are "carrying on" without impairment of service

Summary of a recent survey among our thousand employees shows that as of January 1:

23 had entered service (8 as commissioned officers)

7 are reserve officers awaiting call

27 are eligible draftees awaiting immediate call

315 are within draft age

87 are veterans of first World War

JANUARY 31ST, DEADLINE FOR PAYMENT OF 1940 TAXES WITHOUT PENALTY

January 31, 1941, is the last day that the 1940 taxes can be paid without penalty and interest. After that date penalty and interest will increase rapidly each month on all unpaid taxes.

Motor vehicle license plates for 1941 may be purchased on and after February 1st, but may not be used prior to March 1st. All motor vehicles should have 1941 license plates attached before mid-night April 1,

There has been a late change relative to obtaining exemption certificates. All persons residing in this County who have become twenty-one years of age since January 1, 1940, or who will become twenty-one years age before elections to be held during the year 1941 must obtain certificates of exemption before February 1, 1941, if they desire to vote.
