CROSS PLAINS, TEXAS

**PAY NOW AND SAVE**

There are many lovely features of Autumn; its crisp, cool days are a welcome respite from Summer. Autumn with Hallowe'en, Thanksgiving, Armistice celebrations, harvests and Christmas anticipations is truly the most gladsome time of the year in West Texas.

But there's another feature of Autumn, to which we wish to call your par-

ticular attention. It's strictly Business-like and is possessed with only the splendor of thrift. Each Autumn the Review offers its ANNUAL BARGAIN DAY SUBSCRIPTION CAMPAIGN. In brief, this campaign is your opportunity to subscribe for your home town paper at 33 and one-third percent saving. The Review's BARGAIN DAYS are now on and you can get your home paper for

**\$1.00**

In the Cross Plains Trade Area.

And For \$1.50 Anywhere In The Good OF U. S. A.

An extensive effort is being made to collect all delinquent subscriptions before the current bargain offer closes, for, after its expiration we MUST resume the regular prices of \$1.50 and \$2.00. Postal regulations, increased cost of newsprint, and good business judgment prohibit our carrying delinquent subscribers. We, therefore, make this appeal in our most eloquent fashion that you take advantage of the current offer to place your subscription in good standing for another year.

On another page of today's Review will be seen the honor roll. It's just started and is yet quite small, however, within the next few weeks we're expecting it to exceed all former lists of its kind published in your home town paper. Get in the swim now, pay up; be a bona fide reader.

If you are in doubt as to when your subscription expires a phone call, visit to the office or card addressed to us, will bring you the exact date as to when your subscription runs out.

An earnest endeavor is being made to build the largest circulation of any newspaper in Texas, published in a town the size of Cross Plains. Your home town newspaper needs and covets your support.

Because we feel that a newspaper belong to the territory it represents and its success is enjoyed by all who read and claim it, we also ask that you assist us in securing your neighbors' subscriptions. In years past the Review has spoken—and truly so—many good words for you and yours. Will you now return the courtesy and say a good word for your home town paper? Recommend that your neighbor take the Review. It's the only accurate and complete history every written of the Cross Plains trade territory, of which you, your family, your school, your church and other worthwhile institutions are a vital part.

We're depending upon our readers to "come through" for us in this BARGAIN DAY DRIVE. Do your bit, renew today.

**McAdams Motor Co.**

## County Agent's Column

### Cows Give More Milk If Drinking Water Is Warm

One of the easiest ways of maintaining a high production record during the cold days of the winter is by warming the drinking water for the dairy cow. Milk is mostly made of water but if the cow is now induced to drink a large quantity of it her milk supply will fall in direct proportion.

The good Fall rains have produced a fine pasture for the winter. When cows are first turned on small grain pasture, they usually secure pretty badly, unless they are fed some hay, bundle feed, or cottonseed hulls. All dairymen will find it to their benefit to feed some dry feed as long as the cow runs on the green pasture. A good grain mixture of feed in connection with small grain pasture would be:

- 300 pound ear corn or grain sorghum heads.
- 100 pounds of cottonseed meal or 200 pounds of ground ear corn or grain sorghum heads.
- 100 pounds of ground oats.
- 100 pounds of cottonseed meal.
- 4 pounds of salt and 8 pounds of lime flour or bone meal.

Feed one pound of the grain mixture to each four pounds of milk the cow gives.

Dairy cows should be kept in a sheltered place during wet days and unusually cold weather. They need a good supply of succulent feed such as silage or abundant pasturage all the year through. God created the cow to use an abundance of cheap feed such as fodders and grasses and gave her a large stomach to take care of it. Feed her properly and there is no animal that will yield so much profit and enjoyment and nothing that will give such an abundant supply of health giving food.

### Faith On The Soil Conserving Acres

Mr. C. A. Cobb, Director of the Southern Region, in calling the attention of the farmers to the fact that those acres that have been planted to certain crops for soil improvement, stated that the crop to be left standing must do that very thing. It doesn't mean, he pointed out, that the crop is to be left standing only until the compliance supervisor has certified the compliance but that it shall not be cut, grazed, or headed anytime. It must be returned to the soil for which the subsidy has been set aside. Of course, there are those crops that were allowed to be grazed but they were not paid a soil building payment; they earned only the conservation payment. Don't be a violator.

Anderson Chevrolet Company  
Cross Plains, Texas

evaluate a sow are whether or not she is prolific, a good mother, a good rustler, will reach a desired weight in a short time, and produces the kind of meat that the market demands.

John Fred Alexander, of Baird, states his club sow meets many of the above qualifications. She farrowed eleven pigs and ten of them are living and are fine husky individuals. These Hampshire pigs will be ready for sale to the public in eight weeks and at that time he expects them to weigh about fifty pounds. John Fred plans to put these pigs on a self-feeder and expects them to gain, at least, two and one-half pounds a day from the day they are weaned until weight has been reached which is 185 to 225 pounds. Club boys who desire a registered Hampshire pig from which to grow a fine quality of pure bred hogs may purchase one of John Fred's pigs at weaning time. John Fred says he needs some feed and that he would be willing to take part feed in lieu of each. Registered pigs ordinarily are selling at \$10.00 each but John Fred is willing to sell to future Club boys his pigs with the registration papers furnished at \$7.50 a piece. The county agent hopes that many boys will make advantage of this offer and that others will get registered animals for their pig demonstrations the coming year.

Billie and Hick Barnes of Dallas visited their sister Mrs. Bill Robinson last week end. Mrs. G. G. Robinson surprised Mr.

Mr. and Mrs. Roy Carter and children of Goldthwaite visited her parents Mr. and Mrs. S. H. Thomas and family last week. Miss Burkett, Glendora Clark and Jimmie Stewart were Mullin visitors Sunday afternoon.

### Soil And Water Stealing Increasing

Farmers are becoming more alarmed day by day because of the constant thievery that is taking place on their farms. Their land has been stolen in the form of ditches and washes this past year to an unprecedented degree and the water that was their gift from nature has been stolen and the "thieves" in both instances have made a clean getaway.

Mr. J. H. Lindle, who lives about 4 miles west of Baird and one mile north of Highway 80 has found however, that there have been ways that will permanently stop the operations of these "thieves". Mr. Lindle bought a farm that had previously been owned by J. Frank Browning. Mr. Browning used the services of County Agent Culp in 1918 and terraced a very hilly and rolling farm. The county agent this year made an inspection of those terraces and found that after eighteen years not a single gully or ditch could be found on the entire sixty acres. For the past four years hardly any farming has been done on this farm, yet these terraces covered themselves over with weeds and grass and held the loose soil high on the slopes and prevented the soil from leaching away and running into the Gulf of Mexico. An inspection of these terraces will show that have held all the land that has washed from above them and they have almost filled level to the top. Mr. Lindle now plans to build these terraces higher and to run his rows in the same direction in which the terraces run. That is the correct procedure for use in handling all terrace lines.

### COTTONWOOD

Mr. and Mrs. Grady Respass and children of Sweetwater visited relatives here Sunday. Miss Leta Coppinger of Abilene visited homefolks Sunday.

Mr. and Mrs. Buford Tyson and children of Baird visited her uncle W. R. Thompson and family Sunday.
