Church Notice.

The Census Department has announced the population of Callahan shows a less since 1910 of 1,129, the opening exercises M. E more particularly to the exodus to es from various ones present, and the near-by oil fields. Baird has a population of 1902, a gain of 192, while its precinct shows a gain of only 30, which means that the rural population has suffered a diminution of 162. Cross Plains population is given at 700, a tigure we are not pleased with, but very likely we are to blame for it rather than Mrs. J. L. Baum, left on Sunday the census department. The town for Denton, where he is to attend was incorporated in 1910, but its population is given at 300 plus, and according to the percentage increase hown our growth has been great. However, the coming in of the railroad has given us all the increase. Clyde has an increase of 115 and its precinct 23. Cross Plains pre cinct increased 55.

Below is given the report in

		bore .
detail.		
	1920	191
Baird Precinct 1,	2.185	2,15
Precinct 2	473	37

ANIMALS OF LONG PEDIGREE White Horses Once Used by British

Royalty Lineal Descendants of Early Famous Quadrupeds. White horses figure as the badge

of more than one German princely

family, and notably in that of the house of Hanover (as may be seen in St. George's chapel, at Windsor). But that is not all. The white horses which down to the present year drew the royal successors of George I are descended from the stud of white horses kept at Hanover in old days, and ever maintained there long after that kingdom had been annexed by Prussia As in the case of the Battak ponies true albinos with red eyes are said to have occurred not infrequently in this stock. There is: therefore, a high probability that the famous royal whote carriage horses now discarded are the lineal descendants, if

not by blood, at least by ritual, of the sacred white horses which on solemp occasions were conducted under the sacred car by kings and priests in old Teutonic pagan days. -London Times.

That's not the basis we

We give every man credit for knowing what he is spending his money on, whether he drives up here in his small car from ten miles out in the country or is passing through from the capital in his limousine.

That's one thing we like about U. S. Tires.

They make no distinction between the small car owner and the owner of the biggest car in the country.

It's all the same to them. So long as a man owns an automobile - large or small -he's entitled to the very best tire they can give him.

Quality has always been the outstanding feature of U. S. Tires. There's no limit on the U.S. guarantee. All U.S. Tires are guaranteed for the life of the tire.

We have given a lot of thought to this tire proposition. There is some advantage in being the representatives of the oldest and largest rubber concern in the world.

Drop in the next time you're down this way and let us tell you some interesting facts about tires.
