It Pays To Buy The Best

We are operating under the National Poul try Improvement Plan as a "Texas U. S. Approved, Pullorum-Tested Hatchery." All flocks from which we secure eggs are blood-tested, culled and banded; only the choicest birds from the standpoint of type, size, color and vitality are used in these flocks. Any birds not measuring up to these requirements are disqualified and culled out. All culling is done entirely by authorized, licensed poultry specialists. This method insures that you will get only the highest type of healthy, improved chicks from our hatchery.

Sexed Pullets

For the first time, we are able to offer our Cutomers Sexed Pullet Service. By this, we mean that a slight additional cost (as shown in price list) you can buy all pullets if you choose, or if you want cock erels, you can get them. This is a new scientific development and we are glad to be able to offer it to our customers.

Our Guarantee

All chicks are guaranteed to reach your postal address 100% alive and in good condition. If, upon delivery, you do not have the full amount or number of live chicks ordered, have your delivery agent sign a statement of loss and you mail it to us within 24 hours. We will not be held responsible for losses which result from neglect, chilling, improper feeding, accident, or other causes which are not the fault of the chicks.

Custom Hatching

We will continue to do custom hatching of both Hen Eggs and Turkey Eggs at so much per egg. See Manager for our prices.

All Popular Breeds

We are in a position to supply the following breeds: Rhode Island Reds, Buff Orphingtons, Black Minorcas, Ancoras, Barred Rocks, White Leghorns, Brown Leghorns, sexed pullets and cockrells. You'll a lways find our prices in line for best quali-

Worried About March 15th

MAKE PLANS NOW FOR 1945

LET'S GET DOWN TO BRASS TAX! The income tax you have to pay on March 15, is bigger than you probably ever paid before. Sure, you're glad to give your dollars to get the war Job done . . . but, if you haven't been sving for taxes all along, it'll be a little tough to juggle the budget. And it needn't be that way at all.

HERE'S WHAT TO DO! Start now saving a certain amount each week for your 1945 taxes! Sounds simple, doesn't it? Just set aside 52 reasonable weekly sums-that you'll hardly ever miss-instead of the budget killers you suffer this year. Then when March 15. 1945 rolls around . . . you'll have it to give . . . and gladly . . . to preserve the American way of life.

Welcome

these Soldiers of Victory!

THE "shock troops" of your Government's 4th War Loan Drive—a drive that must raise \$14 billion to put the punch behind the punch that may make 1944 the date of doom for the Naziswill soon call on you to buy your personal quota of Bonds. For, of the \$14 billion that must be raised in this Drive, \$5.5 billion worth must come from individuals.

Welcome these American men and wome: 5 million of them-who are not only buying their share of Bonds but are giving their time to call on you, personally.

Every office, every plant, every home, every individual in America has a quota to meet. Your personal quota is at least one extra \$100 Bond. That's above your regular Bond buying.

If possible, buy your extra Bonds during this drive at the plant or office where you work. A volunteer Bond worker will sell you there. Otherwise, welcome him to your home when he calls. Or find one in the thousands of retail stores all over the United States. They want to find youyou must help see that they do.

If you are unable to make your purchases from a soldier of victory be sure to go to one of these other special War Bond stations to buy your extra

NEWSPAPERS Remember your job in this Drive is to buy more than your share of Bonds. That's the only way you can be certain you are still backing the attack. So be ready to meet your War Bond representative with an open check book.
