

SATURDAY IS JUNK DAY HERE

EVERY PERSON IN AREA EXPECTED TO GIVE SOME METAL

Uncle Sam Asking Nation To Respond Unselfishly In This Hour Of Real Need

A giant junk rally, the like of which has never been surpassed in a small rural community, is scheduled for Cross Plains Saturday.

In response to Uncle Sam's urgent request that every community in the nation yield as much scrap metal as humanly possible, the Cross Plains trade territory was preparing yesterday to do its job gloriously.

Despite the fact that hundreds of tons have already been shipped out here—probably more has gone from Cross Plains than any other town this size in Texas—leaders of the movement were hoping to collect enough scrap this week end to fill three or four rail road box-cars.

The committee heading the scrap metal collection in Cross Plains is composed of: L. G. Jennings, George R. Neel, G. M. Buster Richardson, Edwin Baum, Carl Autrey, C. R. Cook and Leo Varner.

To further stimulate interest, the Chamber of Commerce will give a prize of \$5.00 to the person bringing in the most scrap metal this week. Records will be kept by L. G. Jennings to determine who wins the money.

Persons who have only small amounts of junk and wish to donate it rather than take the money, may donate the junk to the Boy Scouts here. It is pointed out that this is possible by merely leaving the junk at the lot on South Main Street and directing the purchaser to see the proceeds go to the Scouts.

The War Production Board has stated that even the purchase of defense bonds and stamps does not approach in importance the collection of scrap metals right at this time. These metals are absolutely essential. The quicker they go to smelters and manufacturers the quicker they will play America to victory.

C Of C Will Help Find Markets For Local Farm Crops

C. R. Cook, secretary of the Chamber of Commerce here, asks that farmers who have apples, pears or any other such yields which they hope to sell to truckers, to advise him what they have and that he will endeavor to locate buyers.

"Most every day we have requests from truckers as to where they can buy apples, pears or some other farm crop. Often we are able to give them this information, but on the other hand we sometimes do not know ourselves," Mr. Cook stated.

In the near future sweet potatoes will begin moving to market and Mr. Cook explained that he would also be glad to render whatever service he could to the growers of this section by helping them to contact truckers.

V. C. Walker Is Named Chairman Local Red Cross

Announcement is made that V. C. Walker has been named to succeed Mrs. H. A. Young as chairman of the Cross Plains chapter of the American Red Cross. The change went into effect this week.

Mrs. Young relinquished the post after several years of very efficient and patriotic service. Never during her tenure did the local chapter fail to meet a quota, either war-time or during peace. Under her direction Cross Plains was often the first community in the county to meet expectations.

Mr. Walker explained yesterday that his duties as a county school board member, local fire chief and instructor in first aid courses, in addition to his profession, required most of his time but that if his services were needed he would endeavor to find time to serve in any way in which he is qualified.

Lindsey Tyson and S. C. Tegar attended a chicken barbecue at the Rising Star Thursday evening.

Mrs. Almeta Hill is visiting her son, Merrel Wolfe, in San Antonio this week.

Cottonwood Boy Is Reported Missing In Action

WAR DEPARTMENT ADVISES PARENTS FRIDAY LAST WEEK

Was Sergeant In Air Corps; Last Letter To Family Dated April 30, Midway

The grim reality of war touched the little Cottonwood community again Friday of last week as Mr. and Mrs. John R. Ramey were advised by the war department that their son, Sgt. Samuel Norris Ramey, was reported missing in action.

The friendly youth, who enjoyed the love and affection of a large circle of friends, heeded his country's call and joined the colors nearly three years ago, when the clouds of war first began to darken his country's horizon. He was assigned to the air corps and was a member of the 36th bomber squadron. His training was extensive and he had graduated from two army mechanical schools.

He sailed for the Philippines October 4, 1941 and was stationed at Clark Field when the war broke out. The last letter to his parents at Cottonwood was written from Midway Island, April 30, 1942.

The war department's announcement Friday said that he had been missing since May seventh in the Philippine vicinity.

The many friends of the popular young man and his well known family are still hopeful that he will be located unharmed in the near future.

Monahans Lady And Local Man Marry Recently

Mrs. Opal Wallace of Monahans was united in marriage to Mr. Finis Erwin of Nimrod, Texas, at the Presbyterian Church in Monahans, Saturday morning with the Rev. Homer Akers reading the single ring ceremony. It was announced this week.

The bride was given in marriage by her son-in-law, First Sergeant Bob Calder of Lubbock Army Flying School. She had no attendants.

The wedding march was played by Mrs. L. B. Fuller, and the bride's daughter, Mrs. Bob Calder, sang, "I Love You Truly" as a special number.

The Martha Circle of the Monahans Presbyterian Church, of which Mrs. Erwin was a member, attended the wedding in a body. Others in attendance were: Mr. and Mrs. D. A. McDonald, relatives of the groom. The working staff of the Duniap Store at Monahans where Mrs. Erwin had been employed for several years, also attended in a body.

The couple will spend a short honeymoon in the Davis Mountains before going to Nimrod where they will be at home.

PAT ALLEN PAYING CENT EACH FOR ALL WIRE COAT HANGERS

Pat Allen, local tailor, is paying a cent each for wire coat hangers. It is pointed out that this price is above that which new hangers sold for before manufacture of them was stopped as a war measure.

"We pay one-cent in cash or trade either, and would like to buy several thousand," Mr. Allen declared.

School Buses Must Not Haul Teams If They Expect Tires

School buses that carry football teams to games, or transport school bands, debating teams and other such groups on excursions will lose their eligibility for tires, the Callahan County War Price and Rationing Board was advised last week by the Office of Price Administration state headquarters.

The State OPA office has pointed out that under the tire rationing rules, school buses must be used exclusively to transport teachers and children from their homes to school and back again.

The rule further makes it plain that school buses used for purposes other than this lose their future eligibility for tires, even though the tires on them now were acquired before rationing was put into effect.

An Open Letter To Every Reader Of This Newspaper

Dear friend:

War conditions have so multiplied the problems of publishing a weekly newspaper that a change in our policy has become necessary. To cope with rising overhead we have no alternative but to raise the subscription prices to \$1.50 in Callahan and adjoining counties and \$2.00 elsewhere.

Many weekly newspapers advanced their rates last year, however, we chose to keep the old price as long as humanly possible. It is now definitely clear that a futherance of this policy is impossible if we are to remain in the business of sending you a home town newspaper each week.

We wish to assure you that this step is being taken only after long and deliberate consideration. Only by drastic reduction in the size and quality of the Review could this have been avoided. Rather than to lower the standard we have worked more than a dozen years to build up, we had rather cease operation entirely. You are entitled to a good newspaper and our paramount aim through the years has been to give you exactly that.

Even the \$1.50 and \$2.00 prices will not solve all our problems. But with your cooperation in prompt renewals we promise to continue to send you the type of "Newspaper Package" you have a right to expect.

We wish to thank you sincerely for the many kindnesses you have accorded us in the past. No newspaper could wish for a finer, nicer, more cooperative group of people than it has been our privilege and honor to serve.

Respectfully yours,
Jack Scott-Editor

New Tires Quotas Again Sliced For Callahan County

Ralph Ashlock, chairman of the Callahan County War Price and Rationing Board, made it plain Wednesday that all motorists are going to have to intensify tire conservation, and to be disappointed, because of the quota shortage.

"Both truck and passenger car tire allotments have been reduced sharply for September," Mr. Ashlock explained, "and we're obliged to make these reduced quotas serve only the most essential needs."

He pointed out that these reductions come at a time when all vehicles, especially trucks, are working overtime to meet the heavy demand for the fall movement of farm crops, and for wartime construction and industrial production.

"The result will be that our board will have to apply the eligibility preference yardstick with even more severity," he said. "The shoe will pinch in many cases, but we hope everyone will take these decisions with a wartime spirit of patriotism, and know that we are trying to do our duty honestly and impartially in a national emergency."

The State Office of Price Administration headquarters has advised the Callahan County War Price and Rationing Board, Mr. Ashlock added, that from now on, monthly quotas will reflect a sharp downward trend, in order to stay within the year's rubber quota.

"It is no longer possible to carry over unfulfilled applications from month to month," Mr. Ashlock explained. "There will not be sufficient quotas in future months to relieve such carryovers. We must now eliminate all applications that are not essential to the war effort and to the public health and safety."

LADY KNOWN HERE IS CITED FOR SERVICE TO THE RED CROSS

Mrs. Ward Eakin, of Tahoka, a sister-in-law of Mrs. Lester Hoover of Cross Plains, has been cited by Red Cross officials for exceptional service rendered.

Mrs. Eakin, who is known in Cross Plains by virtue of her visits in the Hoover home here, was made an invalid by an accident some time ago. Instead of becoming despondent over her condition she began knitting for the Red Cross, despite the fact that she was encased in a cast and required to lie flat of her back. Last reports were to the effect that she has turned out nine pairs of wristlets, three helmets, 12 shawls, 10 scarves and five sweaters.

Mrs. Eakin has been an invalid for more than two years. The cast covered her body from her feet to the chest, leaving only her arms and hands free for use. Red Cross officials declare that such willingness as Mrs. Eakin has shown to serve her country should, and will, inspire other Americans to even greater service. Such a spirit will ultimately lead the United Nations to victory over the powers of brutal aggression.

***** METHODIST CHURCH C. D. Wooten, pastor *****

I guess my readers have about decided that I am gone. But I am still here, and regret much that I have not been able to write regularly. I closed my revival campaign last Sunday at the morning hour. We intended to close at evening service, but the rain came about 11 o'clock and we decided to close with that service.

I have been in meetings for seven weeks and one has lapped over into the other, so have had to close one and run to the other, therefore, I have had no time to write, but I expect to be punctual now until the end of this conference year, which closes about middle of November.

Our meetings have all been good, not what they should have been. They had to be short. When we had to close, we were just ready to begin a revival. In all our meetings the attendance was made up of church people of several faiths. All who attended regularly were revived.

At each point we had some of our own member,—who did not attend. One excuse after another. When people take the revival meeting time to go fishing, visit, or entertain company they are dead spiritually. Of course, sick people and shut-ins are not included in my sayings here.

Cash Comes Up With Four Needed Teachers To Open Pioneer School On Scheduled Time Monday Morning

By securing four teachers in less than four days superintendent L. C. Cash was able to open Pioneer schools on schedule Monday morning. Four members of last year's faculty resigned only a few days before the scheduled opening and Mr. Cash was forced to find replacements in rapid fashion. He came forward with the desired results and Pioneer schools are reported to have moved off with a "swell start."

The new faculty members are: Mrs. Hulian Barr, of Cross Plains; Mrs. Ralph McNeal, Cross Plains, who resigned a position at Cross Cut to take the place at Pioneer; Homer Smith, of Rising Star, newly elected Eastland county school superintendent who will teach at Pioneer until January first when he is to assume duties of his office, and Miss Loua Gatlin, from near Paris, Texas.

Other members of the Pioneer faculty are: Mrs. Ada Alexander, Mrs. Charles Ballew, Miss Doris Jo Pyle, J. C. Yeary and superintendent Cash.

In the absence of a football coach Mr. Cash will have charge of the Pioneer Panther grid machine. Although he will be deprived of several stars from last year's team, Mr. Cash says that he expects to have a team of at least average strength.

Other school men say that if Mr. Cash proves as wily in football as he has been in basketball for a great many years, they will be glad what he is able to quit his coaching duties and go back to "strictly school superintending."

Mrs. J. A. Caton and son, Norman, left Tuesday for an extended visit in Dallas, Denton, Wichita Falls and Gainesville.

Mrs. Don Helberg and sons, Don L. and Raymond G., returned from Burkett this week, after a brief visit to the home of Mrs. Mamie Swafford.

A Parting Thanks

To the many friends and customers who have favored me with their automotive repair business during the past five years, I wish to extend my profound thanks. I have closed my business on East 8th street and my plans at the moment are not definitely established, however, I would feel ungrateful should I close my accounts here without extending my heartfelt appreciation to all those fine friends who have patronized me so generously.

When the war is all over and our nation is again blessed with peace I hope to pick up where I am leaving off in Cross Plains and again have the pleasure of casting my lot with the business enterprises in this splendid little community.

With best wishes to all, I shall ever remain,

Respectfully yours,

OWEN RENFRO

It is said the spring pig crop of about 62,000,000 head is 25 per cent more than the spring of 1941. It is estimated, according to the report, that the fall pig crop will be about 43,500,000 head, an increase of 22 per cent over the fall of 1941.

The first paper mill in the south, located at Lufkin, Texas, is now in its third year of production and making a wonderful success of the adventure. After the fifth year the plant will be out of debt and newspapers of the south will have realized a nice saving on freight rates for paper bought and shipped from Canada.

The Lufkin plant is one of the most modern and up-to-date plants in the world. In addition to providing work for hundreds and saving money for the newspapers, it is putting to profitable use the East Texas pine woods heretofore not considered of much value commercially.

The plant was built for expansion and the company expects to have three machines instead of one in operation within the next few years.

Jimmy giggled when the teacher read the story of the man who swam a river three times before breakfast. "You do not doubt that a trained swimmer could do that, do you Jimmy?"

"No, ma'am, but I am wondering why he didn't make it four times and get back to where he left his clothes."

During the first World War, a sergeant ordered an unbleached private to go into a dugout and clean out any of the enemy who happened to be there. The colored gentleman binched a bit, swallowed his Adam's apple, and then said huskily, "If you sees three or four men come a-runnin' out dat hole, don't shoot de fust one, please."

The strong man at the fair had squeezed the juice out of a lemon.

Holding it up before the crowd he shouted:—"I will give \$5—to anyone who can squeeze another drop of juice out of this lemon."

Up stepped a little man. He gripped the lemon and, to the surprise several drops "It's easy," he murmured, "I am a tax collector."

Down in the Gladewater vicinity a carload a day of tomatoes was shipped during July and early August. The growers according to J.O. Newberry, chamber of commerce manager, have received more than \$8,000 for their 1942 crop. The volume handled was more than double that of 1941.

A campaign conducted last spring by the chamber of commerce and public schools sharply increased the tomato acreage, according to the report. The prices to growers ranged between 3 cents and 8 cents per pound.

Peanut Oil Becomes U. S. Weapon

Almost five million acres of peanuts—twice as many as were produced in any single year before! That's one of the contributions U. S. farmers are making this year toward keeping this Nation at its maximum fighting power. Most of these peanuts will go into oil—oil from which thousands of necessary items for both civilian and military purposes can be made. This chemist and hundreds of others are busy finding and improving these new and potent uses for peanut oil.

NEWS BRIEFS OF BYGONE DAYS

Little Squibs Gleaned From Files Of Review

April 6, 1934: Rain fell in torrential sheets at intervals over the Cross Plains trade territory Wednesday night and Thursday. Creaks and tanks were showing effects of the precipitation early yesterday and indications were that farmers and ranchmen would be provided with ample stock water for the approaching summer months. No definite gauge of the moisture was available yesterday at noon, however, the Review learned that more than two inches had fallen.

Perhaps the greatest damage of the rain, which was accompanied by an electrical display, was done to the home of Mr. and Mrs. John Baum, which was struck by lightning early Thursday morning. The flash hit the roof of the house and ignited shingles on the West side. Firemen hurried to the scene and succeeded in extinguishing the blaze, however, before it had time to gain much headway.

April 8, 1934: Bill Calhoun purchased the blacksmith shop, just in rear of Garrett Motor Company, formerly known as Saunders Fix-It Shop, from Mrs. J. G. Saunders this week. Mr. Calhoun informs the Review that he will install several pieces of new equipment. He has engaged a blacksmith to take charge of the business.

April 29, 1934: Mrs. Fonia Worley comes to the assistance of the Review in proving an oddity printed in the Gossip Column two weeks ago, in which it was stated that a pigeon belonging to E. N. Schaffner, Jr., had hatched chicken eggs.

Mrs. Worley says that it would be no trouble at all for a pigeon to get the hen's egg into her nest in a tree. "In fact I have a hen that is so ambitious she even laid a setting of eggs in the forks of a tree and then began to set on them there," Mrs. Worley said. "The hen's efforts were in vain, however, for one by one the eggs rolled out on the ground and before time for them to hatch all the hen had left was the experience," she continued.

April 27, 1934: Mrs. Warren Spencer, who was until her recent marriage Miss Irene Clifton, was honored with a shower by Mrs. E. G. Pierce and Mildred Morgan at the home of the former Thursday night. Fifty guests were present.

Games of forty two were played until the honoree arrived, when the presents were delivered to Mr. and Mrs. Spencer in a beautifully decorated miniature wagon. Spring colors and seasonal flowers were used in decorations in keeping with the motif of Spring.

As little Jeanette and J. W. Williams, who were dressed as bride and groom, entered with the wagon, the Eager sisters sang, "I'm Following You."

Refreshments of fruit jello and cake were served.

May 11, 1934: National Music Week was observed in Cross Plains Wednesday afternoon with a specially arranged program by the Wednesday Study Club, presenting several of the most talented musicians of this section. The program, which was in the form of a social, was held at the home of Mr. and Mrs. T. S. Holden.

The rooms were profusely decorated with Spring flowers. Large American Beauty roses were plate favors.

Refreshments of orange sherbert and cream cheese sandwiches were served to 65 guests.

May 25, 1934: Miss Martha Archer and Melvin Hargrove, both of

Cottonwood, were united in marriage Saturday evening at Cottonwood, with Rev. S. R. Rossop, Baptist pastor of that place, officiating.

The bride is the daughter of Mrs. S. E. Wilkerson and the groom is the son of Mr. and Mrs. Dave C. Hargrove. Both are prominent young people in the Cottonwood community. They will make their home there.

May 25, 1934: Trades Day in Cross Plains Monday was marked by unusually good attendance and more than average trading. A feature of the day was a rodeo in the afternoon, which possessed spirited action and and ampiness of thrills.

Third Monday of each month will be regular Trades Day in Cross Plains. Plans are going forward to make the event one of anticipation to every person who has anything to swap.

May 23, 1934: Miss Dixie Davis, daughter of C. T. Davis of this place, and Norman Coffey, son of Mr. and Mrs. J. F. Coffey, of Cottonwood, were united in marriage at the Baptist parsonage here Saturday evening, with Dr. C. A. Voyles officiating in the ring ceremony.

The marriage vows were taken in the presence of only a few close friends of the couple. Miss Helen Bosworth was maid of honor and Elton Ray was attendant to the groom. Others present were: Miss Gretchen Bentley, Leo Varner and Ernest Davis, brother of the bride.

The couple is well known in Cross Plains, both having resided in this locality virtually all of their life. They will make their home at Cottonwood, where the groom is associated with his father and brother in a general mercantile and automotive business.

Don Helberg was a business visitor in Houston this week.

Alta Price, who has been employed in Marfa has returned to his home in Rowden.

Mrs. George B. Scott and C. R. Cook visited Mr. and Mrs. Charlie Stone in Brownwood Friday.

Mr. and Mrs. Ben Pierce have as their guests this week, Mrs. Chester Glover and son, of McCamey.

An ordinance plant which turns out 1,000,000 pounds of war goods a day must haul it and out 18,000,000 pounds of materials, or enough to fill 500 freight cars.

An average house contains 700 feet of electric wiring. A four-motored bomber need 13,000 feet, or about 3 miles, and a battleship requires 845,000 feet, or more than 160 miles, of copper wire.

Sixteen light bulbs will supply an average household for two years. A battleship plying the Pacific carries 7,000 bulbs in sockets and two spares for each one in use, or a total of 21,000.

I GIVE YOU TEXAS
by BOYCE HOUSE

"Uncle Buck" was (for he's passed away now) the gray-haired, mild mannered bullfinch of federal court. Friendly and even jolly in manner, nevertheless he could—if you gained his confidence—tell many an interesting story of bad men of the Southwest for, first and last, he was an officer for 40 years.

One day, while out in a little West Texas county seat town, he ran into one of the toughest hooligans in the State. However, Uncle Buck had no official business with the man; in fact, they were rather good personal friends, considering their different stations in life. So they had something to drink—probably an ice cream soda, strawberry flavor.

The bad man—let's call him Jack—was in a talkative mood and among other topics he discussed the fate of an officer who, not long before, had attempted to arrest a notorious outlaw and was shot to death.

"He didn't go about making the arrest in the right way," Jack said.

Some months later, Uncle Buck was handed an indictment against Jack. He called two deputies and the pair walked, unannounced into Jack's hangout, while one pointed a sawed-off shotgun at Jack's belt-buckle, the other roughly commanded the killer to turn around and flatten out against the wall and then he was relieved of his shooting iron.

When Jack was marched in, he was bitter. "I don't like the way your men treated me," he snarled at Uncle Buck. "I'll get even with you."

"Why," Uncle Buck said mildly, "I was just carrying out your suggestion."

"How was that?" "Don't you remember when we were talking out in West Texas a while back, you told me the safe way to arrest a dangerous man? Well, I had it done just the way you told me then."

Jack studied a moment, then his face lighted in a grin.

"I reckon that's one on me," he said.

Another of Uncle Buck's stories was of a different nature and dealt with a traveling evangelist. Now this revivalist was a powerful liquor horter but he did like his liquor. One afternoon, he sent his man-of-all-work, a darkey, over to Paul's Saloon, to get a pint of whiskey. The negro was gone so long that it came time for the evening service. The evangelist began his sermon and was discussing the Apostles, and reached Paul.

"And what does Paul say?" the speaker shouted.

The darkey had just entered the tent and was standing at the back. Thinking the question was meant for him, he said:

"Paul done say he won't sell you another pint till you pays fuh dat last one he let you have." And that broke up the preaching.

At least that was Uncle Buck's story.

More than 13,000,000 women, representing over one-fourth of total employment, are now working in this country, the U.S. Department of Labor announced.

An average automobile uses eight to nine quarts of anti-freeze mixture in a winter or enough to make 35 pounds of smokeless powder. To fire a 16-inch naval rifle would require the amount used by about 24 cars.

IRON - IRON
That's The Answer
Uncle Sam has informed Scrap Iron Dealers that complacency shown by holders of scrap iron in getting it moving to war production factories is no longer a matter to be taken lightly! The time has come when the matter of patriotism is connected with the matter of selling iron, because the one burning point is: We can never hope to match the Axis in needed war equipment until every available pound of waste material is rounded up and loaded into a car bound for a war material factory!

Warning Given To File Ceiling Prices By September 10th

Filling stations, laundries, shoe repair shops, dry cleaners, and all others who render services either to consumers, wholesalers or manufacturers were reminded yesterday by Jack Ashlock, chairman of Callahan War Price and Rationing Board, that they are required by O.P.A. regulations to file their ceiling price lists, with the local County Board before midnight of September 10.

"Anyone affected by this regulation," Mr. Ashlock said, "is invited to come by the office of the County Board and obtain a sample copy showing how these statements should be filed. Every consumer business, like every other business, has been mobilized on the front line of this war against inflation," Mr. Ashlock said.

"The government and our friends and neighbors need to cooperate to make price control effective. It will help all of us to maintain the security of our businesses and our homes. We are counting on every supplier of services to do his part." Mr. Ashlock pointed out four things which suppliers of services must do:

1. Find out the ceiling price for every service supplied, why this was the price charged to each class of customer during March 1942, and if the service was not actually supplied but was offered, the offering price now becomes the selling price.

2. Keep all existing records showing any of the prices charged during March 1942. If a supplier of services used a price list in March, he must save it as proof of his March price. Also he should be sure not to destroy or lose any receipts, books, duplicate sales slips, or other printed matter showing his March prices. His records should be kept where they can be examined by a representative of O.P.A.

3. Prepare a statement by September first, 1942 and file a copy of this with the local County War Price and Rationing Board by midnight of September 10.

These statements in general must contain an adequate description of the services a firm supplied, or offered in March 1942," Mr. Ashlock said, "and the highest March prices charged for these services."

4. The fourth requirement mentioned by Mr. Ashlock is that the service supplier should now make sales slips and records as required by the regulation.

"Such a sales slip might be a laundry list or a bill showing the price charged for each item. It might be the cash register ticket that is rendered when the service supplier makes a sale. It might be a receipt or a receipted bill for the money paid for the service. Regardless of the kind of sales slips or receipts, that might have been given in the past, the service supplier must now give any customer who asks for it, a sales slip showing the date, the name and business address of the firm, the service sold, and the price charged."

Baird Bears To Play Buffaloes Here Sept. 18th

The football game between Cross Plains high school Buffaloes and Baird Bears, originally scheduled November 11, will be played here the night of September 18, it was announced yesterday by Superintendent Leo Varner of the local school system.

Chief South, superintendent of Baird schools, who is pluck hitting as athletic coach and general handyman around the county seat school campus this season due to the shortage of teachers, confides that he hopes to overwhelm the Cross Plains team in his debut into the coaching field. Coach Socrates Walker, however, has other ideas and will be out to even a score with Baird for the trouncing his team received at the hands of the Bears last year, not to mention the slight friend South that coaching as well as school superintending has its satisfaction of demonstrating to head coaches a d d disappointments.
