CROSS PLAINS, TEXAS, FRIDAY, OCT. 1, 1920

No. 31

**TECHNIQUE** is just as important in clothes as in any other medium. If they are executed with a master stroke they stand as more than just clothing.

They are notably different from other garments. They stand in a class by themselves demanding attention and admiration of all who see them.

This must be the reason this store's garments for women always stand out above all others.

## COX WELL PUTS CROSS PLAINS BETWEEN PRODUCTION

The Texas well on the Marian Cox farm, Mahaley Duncan Survey, fourteen miles south of Cross Plains in Brown County, is the latest sensation in the oil circles of this part of the world. It last week struck the pay sand at 2378, and has been variously estimated as good for as high as 2000 barrels. Local oil men, some of them experienced men from Pennsylvania, state that it is good for 500 to 1000. It is about 1 1/2 miles southwest of Byrd's store, and a little south of the St. Clair and Bailey No. 2, both of which are small producers.

A line drawn from the Hilburn field to this new well would pass thru the Litzinger lease where the Gooch well is being drilled. Also the Pennant well between Burkett and Cross Cut would be a little to the west of this line. The fifteen miles intervening between the Brown County well and the Gooch or Hilburn field is a fine prospect and potentially holds much producing sands.

The Vestal two miles northeast of Cross Plains is drilling out packer. Reported to be getting ready for shooting.

C. E. Barr, two miles north of town, drilling at 3390.

H. L. Vestal, four miles northeast, shut down waiting on under-rearer.

Greenlea, Harris, near Vestal, riching at 1760.

Litzinger, J. N. Gooch, four miles east of town, underreaming at 2250, and setting 8-inch casing. As much as 2500 feet of 8 inch casing will be set before drilling is resumed on the well.

West Texas Oil and Gas Co., Odum, seven miles west of town, waiting on casing and drilling line, which are now on cars and rolling, and expected to arrive any day, when drilling will be resumed.

## Ross Wagner at A. & M.

Ross Wagner, son of Mr. and Mrs. W. R. Wagner, left on Monday for Bryan, where he will attend the A. & M. College, taking work in electrical engineering. Ross has been working for Higginbotham store. He is to be congratulated on having the ambition to quit work and take college work to prepare himself for a bigger career.

## McDonough-Powers

Joe S. McDonough of this place and Miss Myrtle Powers, daughter of C. E. Powers of Deer Plains, were married at Cisco on Monday, Sept. 27, the M. E. pastor of Cisco performing the ceremony. They came home in the afternoon and were received that night with a rousing old-fashioned shivaree and dance. They will make their home in Cross Plains. We join their many friends in wishing them happiness. This is the last of Mrs. J. B. McDonough's children to marry.

## Galveston, which was conveying troop ships, the Ticonderoga was lost. He was left at the Azores for eight months, landing there with a case of the flu. He was then stationed two months in Lisbon when the revolution was in full blast. In April, 1919, he was stationed at Constantinople, and has remained there since.

For some time he has had charge of the navy store at the Turkish capital.

## ASKED TO HARVEST PEANUTS IN GOOD CONDITION

The Peanut buyers of the country have sent a letter to the growers asking their co-operation in putting peanuts in marketable shape before selling in order to hold the price up. The buyers are banded together and positively refuse to buy peanuts except on a graded system where they will pay according to the quality of the nuts. They will not buy "damp peanuts, peanuts containing excessive sand and dirt, trashy peanuts, or peanuts badly broken by a thresher, except at their relative value when compared to dry cleaned peanuts that are reasonably free from broken kernels."

W. A. McGowen, manager of the B. L. Boydston store, has received a letter from the peanut buyers stating the above conditions. He and the other local buyers are interested in getting farmers to take better care than heretofore of their peanuts to the end that they will realize more out of them. This is a very important matter, and should be so regarded by peanut farmers.

## BUILDS MODERN COUNTRY HOME

Miss Ophelia Wesley and her father, J. W. Wesley, are living on the old Wesley homestead one mile northeast of Burkett. Miss Ophelia has bought out the heirs' interests in the place and has built a very nice five-room home on a commanding and beautiful site a few hundred feet northwest of the old home.

The house is modern, is a frame structure, with beaver board finish. It faces the south with three rooms, the dining room on the west being 14 by 12, next the living room which is 14 by 16 feet in dimensions, and a sleeping room on the east 14 by 14. Joining this last room to the north is a bath room, and to the north of it lies another sleeping room. The northwest corner is the 10 by 12 kitchen with the whole north wall a built-in cabinet, large enough to take care of the fruits and eatables for a big family for several years. The space between the kitchen and the north sleeping room is a screened-in porch.

A concrete flower pie joins the dining room on the south, and this is to be extended into a storm cellar under under the dining room, the two to be connected by a trap door. French doors and windows give a city touch to the place. The rooms have such an abundance of windows that they are practically glassed-in, providing the comfort of a porch with the protection of a room.

It would not be proper to finish this article without mentioning the fact that Miss Wesley has had the place fenced with wire, and is raising full-blooded chickens.

## Fighting the Grafters.

Congressman Blanton is spending the recess from congress investigating the leak in the Government in the matter of the number of clerks about the capital. He claims that there are about 30,000 more than are needed, and seems to have plenty of proof to substantiate his claims. Here is hoping he cleans up the worst. He is carrying the title of "Watch Dog of the Treasury."

Congressman Blanton has sent the Review a check covering his subscription to 1921.

## BACK TO FIRST LOVE DISCHARGED FROM THE NAVY

Tom Payne returned the first of week from Hale Center to this city to make their home here. Lee bought an 80-acre farm in the County for \$52.50 an acre, after putting a good house on it marketing a grain crop he sold for \$90.00 an acre, netting him a profit. They are glad to get home to live, though, and are glad to have them.

Thomas H. Carter, discharged as first-class storekeeper in the Navy on the 18th inst. at Boston, arrived in Cross Plains on Saturday afternoon the guest of his parents, Mr. and Mrs. R. D. Carter. Tom left Cross Plains, September 1916, for Lockneve, where he worked for his brother in a store for a few months. He and another Lockneve boy joined the Navy in August 1917, and Tom had never seen his folks from that day until he was discharged. After a few months in the naval training camp he sailed on the San De Ago, a first-class cruiser, on the 18th day of February, 1918, and made six trips across the waters conveying troop ships. On the 19th day of July, 1918, the San De Ago was torpedoed by a German submarine thirty miles off Sandy Hook, when eight or ten men were accounted for as lost. They remained in the water for five and one half hours when they were picked up by three tramp ships, and carried to Liverpool. They remained in a training camp for thirty days when he was put on the Galveston.

## Cotton Going Down.

Cotton has been going down badly the last few days. It seems the reduction in price on profits at the mills was a prime factor in this bearish movement. That anything should and will go down in price is no little circulation. However, there are many reasons believing that cotton should be higher than it is now. The pre-war price has never got back in force, and as it does, cotton should be higher. The State department has also that farmers, and all other agencies will help cotton for higher prices.

## HAS OIL LAND IN ARKANSAS BUY INTO THE MERCANTILE CO.

George McLain has returned from a visit to Bradley, Ark., the scene of his boyhood days, which is now in close proximity to the famous Homer, Louisiana, oil fields. George states that his father gave him a hundred acres of land in that country, and that many is the time he has had to advance money to pay the taxes, so poor was the land. While the boom was on recently he could have leased out for \$150 an acre, but wanted to sell in fee to dodge further worry.

Joe Baum and brother, R. D. Baum, have bought an interest in the Cross Plains Mercantile Co. business, and working in the store. R. D. is an experienced dry goods man and has charge of the dry goods. Joe has had considerable experience in groceries and he has charge of the grocery department. Cliff Horden, who has had charge of the dry goods, has secured a place at Abilene.

## First Visit in Years.

W. B. Moussey and two boys of Fletcher, Okla., are visiting his brother, Sam Moussey, and sister, Mrs. J. S. Raugh of Sabauco. Mr. Moussey lived here in the game-wilderness past, at the time when Cross Plains' oil boom was well under way. He was a partner in the business, Bill Coffman, and others on players. Mr. Moussey played on the team.

## T. F. Guinn, scout for the Atlantic Oil Co., was here the first of the week.

## For Sale.

Good horse, buggy, lap robe and harness for \$150.00; would sell same without the buggy at a bargain. Would also sell buggy with harness and other gear. Call on horse at his barn.

# FALL OPENING

We are justly proud of the completeness of our Dry Goods department. It's by far the biggest of all our thirty complete departments. We are proud of our splendid corps of expert salespeople and our buyers that seem to know just what the people want--when to buy and when they are securing lowest prices from wholesalers and manufacturers. The service of our entire organization is at your command, and we'll make it worth your while to give us your fall business.

**NO ONE QUESTIONS OUR ABILITY**--No one, not even our competitors, question our ability to sell for less. Buying for our ten big stores gives us volume purchases with corresponding discounts--these favors we gladly pass on to our customers.

We are most thoroughly in earnest when we tell you that it's our determination to greatly increase our business during the coming fall and winter season--and you know what that means. It simply means that you'll buy for less at the House of Higginbotham. It's up to you to get your share of these bargains.

## Featuring the New Fall Styles in Suits and Dresses, the Newest

As usual you'll be pleased with our most exclusive lines of stylish dresses. In buying from us you may feel doubly assured that no one will be more stylishly dressed than you will be, and last but not least, no one will buy dresses at more reasonable prices than you'll secure here--hence you'll gain nothing by shopping around.

The soft, luxurious fabrics of highest grade Tricotine, Satin, Serge and Taffetas are ideal materials to set off the simplicity of our beautiful Autumn dresses. See our line.

### New Suits of Fashion

As in dresses we pride ourselves in the stylish beauty and completeness of our showing of suits. You'll most certainly be pleased with our suits shown principally in Tricotine, Broadcloth, Serge and Poiret Twills, made up in the season's most acceptable styles and in shades of navy, new browns and taupe. We can most certainly please you in a suit.

**HIGGINBOTHAM BROS. & COMPANY**

## Iron Clads for Men, Women and Children.

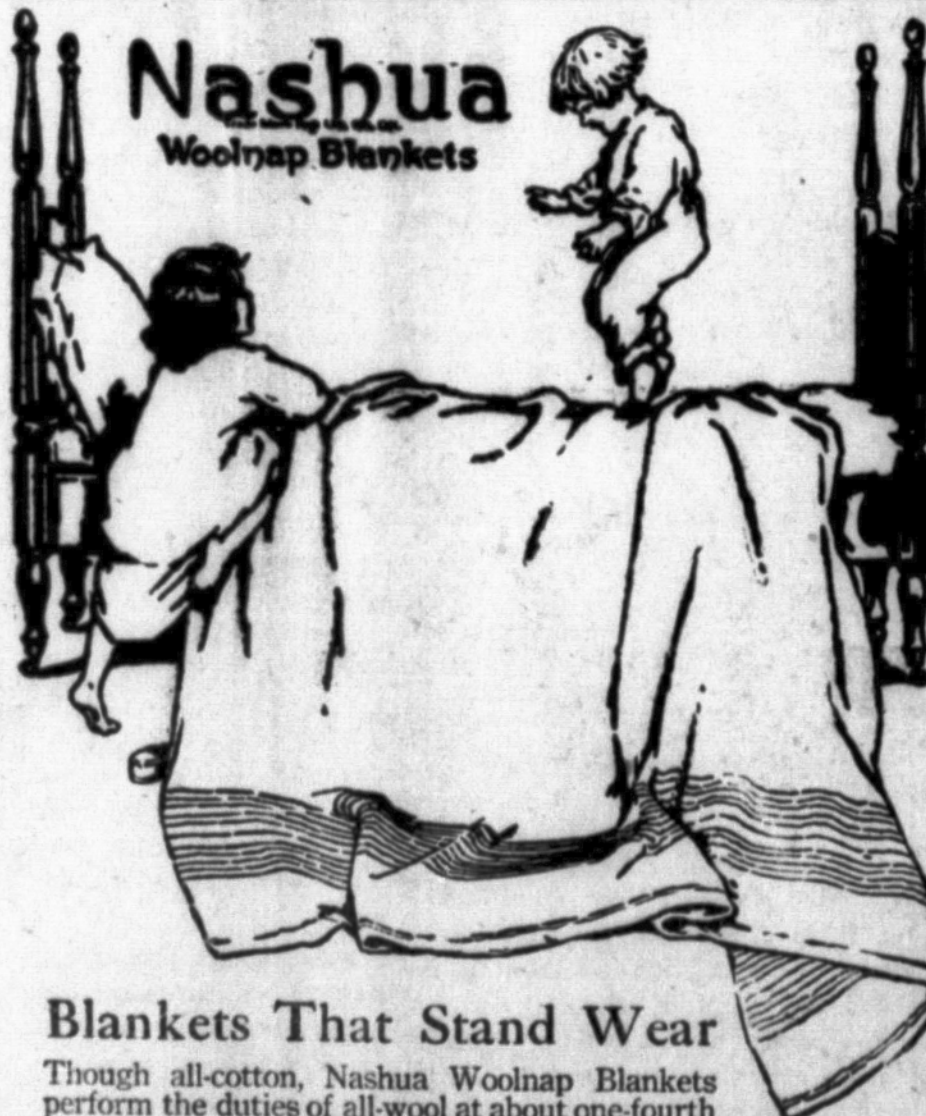

### For Women Who Care

Perfect fit and perfect texture are essential to the stylish appearance that discriminating women look for in hosiery. Made right, from honest materials, IRON CLADS have both, and besides, they have strength to withstand hard wear. Whether you buy silk, lisle or cotton, you get that IRON CLAD goodness that insures a snug and comfortable fit throughout the long life of every pair.

Try a pair of No. 99, a good wearing black ribbed hose for the school girl--or 18 heavy ribbed hose for the rough and rowdy boy. These hose wear like iron, and very reasonably priced.

Go where you will, search the world over and you won't find a better or more reliable line of hose for the entire family, than the great Iron Clad line. If they are branded "Iron Clad" you may safely lay in your winter's supply with utmost confidence that you are getting the best.

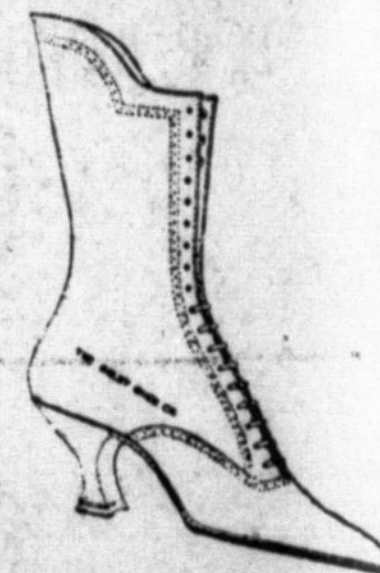

## Nashua Woolnap Blankets

### Blankets That Stand Wear

Though all-cotton, Nashua Woolnap Blankets perform the duties of all-wool at about one-fourth the cost. They are moth-proof, they wash perfectly, they do not shrink, they are so strong that they wear long and stand hard usage.

We recommend Nashua Woolnap Blankets especially for their warmth. They have an established reputation for warmth without weight, for splendid service and general satisfaction. Let us show you

## SHOES for the Entire FAMILY

No department in our big store receives more attention than our shoe section.

We pride ourselves on the fact that we can fit the entire family and that our prices are always right.

We call special attention to our high grade shoes for the ladies.

Chandler Garage

If you are the man that owns a little car; You go out for a ride and don't get very far Till the motor gets hot and the gears begin to moan. Then you start her up hoping she'll make it home; You turn the huss around, and start the journey back, When something starts a-buzzing and you hear an awful crack. You slip it into high and the darn thing starts to roar; You're sure she's burning up, for it's smoking more and more. You finally land her home, but she's in foul shape. You think of all your grief and decide life's a fake; You let CHANDLER Overhaul it; now she's working fine; You tell your friend in trouble, "See Chandler every time."

A WONDERFUL DISCOVERY! NEEDHAM'S TIRE FILLER

It solves tire problems. It can be used in all style tires. It is a perfect substitute for air. It doubles your tire mileage. It is made of best rubber. It is easily installed. It rides as easy as air. It stops tire repair bills. It cannot puncture or blow out. It makes your car dependable. It is neither solid nor pneumatic. ENDS ALL TIRE TROUBLE.

## Mayor of Dallas Invites All Texas Children and Teachers to State Fair

CITY OF DALLAS  
 FRANK W. WOZENCRAFT, Mayor  
 To the Children of Texas and Their Teachers: September 9, 1920

As a firm believer in, and friend of, education, I want every pupil and every teacher in Texas to visit the State Fair. I want them to learn the lessons it teaches and to have the fun a visit will afford. I have asked Honorable E. J. Kiest, President of the State Fair, to let me invite all the children of Texas and their teachers to visit the Fair as my guests and Mr. Kiest, with his ever-present desire to help accomplish worthy projects, has granted my request. I take it as a means of extending you an invitation and I am going to be disappointed unless all of you accept.

The day set aside is Friday, October 15. If you will write to Mr. W. H. Stratton, Secretary of the Fair, Dallas, Texas, and tell him how many tickets your school can use, he will send tickets admitting you to the grounds and to the afternoon performances at the Coliseum and the Grandstand. All you have to do is to write to Mr. Stratton for the tickets. Of course, the tickets will not be good any day except Friday, October 15, and I am going to look forward to meeting all of you personally at the Fair that day.

## THE AMERICAN RED CROSS IN PEACE TIME

Boys and girls who learn early to take proper care of their teeth, throats, eyes, ears and stomachs, have made a long step toward healthy manhood and womanhood. Through its public health and nursing services, the American Red Cross aims eventually to reach all school children with teachings regarding disease prevention and health promotion. Here's a school nurse treating a little girl for sore mouth, at the same time imparting a valuable lesson in teeth-brushing and proper diet.

## THE AMERICAN RED CROSS IN PEACE TIME

Every person mentally and physically able to do so should take the American Red Cross instruction in First Aid Treatment. It's a life-saver and a pain-saver on the farm, in the factory, on the street, at the office, in the home, wherever accidents may occur. Here's a young wife who inexpertly wielded a can-opener and received an ugly gash across her wrist from the jagged can lid. Mother was there, however, with the First Aid kit and Red Cross instruction, and probably prevented a case of blood poison by giving prompt and proper treatment before the doctor arrived.

## THE AMERICAN RED CROSS IN PEACE TIME

About 12,000,000 boys and girls, composing nearly half the school population of the United States, are members of the Junior Red Cross, which is helping the children of Europe, while at the same time it is doing an important work here at home. Kieran Chiswick, who wears the engaging smile shown in this picture, is the son of an Indian guide and trapper. He is the youngest Junior living in the neighborhood of Juneau, Alaska—and he sends greetings to fellow Juniors of the United States.

## THE AMERICAN RED CROSS IN PEACE TIME

There remain in army hospitals throughout the country more than 26,000 soldiers still being treated for wounds received overseas. Red Cross societies give them the same sort of friendly attention that you would give a soldier in the war. Here, the Red Cross is teaching these little boys and girls how to help their wounded soldiers. They are learning to make a living and to keep in touch with their home folks in order that no dependents may suffer for lack of funds.

## MAKING WAR ON DISEASE MENACE

American Red Cross Announces Budget of \$48,200,000 For Current Year.

### NEW DISASTER RELIEF PLAN

Continuance of Heavy Work Abroad Deemed Necessary to Protect United States—\$21,000,000 Less Than Last Year.

A program of relief and service toward which appropriations of \$48,200,000 have been made has been outlined for the American Red Cross for the fiscal year, July 1, 1920, to July 1, 1921, according to official announcement by national headquarters of the organization at Washington. The figures for 1920-21 are \$21,000,000 below those of 1919-20, in which \$69,400,000 was spent.

Important among the items of the budget for the present year is the appropriation of \$31,500,000 for relief in foreign lands, which includes \$11,000,000 in purchased supplies on hand and not distributed.

Must Protect United States. This will enable the American Red Cross to continue its humanitarian effort to aid stricken peoples to reestablish themselves, to fight the disease epidemics which threaten many countries and to efface largely the remaining traces of the blight left by the World War. It is regarded as social as well as physical sanitation on a large scale that will have a direct bearing on future conditions in America.

Central Europe, the chief sufferer from the conflict, today is facing another winter of famine, pestilence and ruin. Typhus decreased much during the summer months where last winter it had its greatest stronghold, but physicians who investigated the situation at the request of the League of Red Cross Societies have given their unqualified opinion that this coming winter will see a recurrence on an unprecedented scale. The Red Cross feels it must continue preventive measures abroad to keep this and other deadly maladies from the United States.

### Millions for Work at Home.

When the disease was sweeping Central Europe last winter the American Red Cross, with the aid of the governments of afflicted nations, undertook the fight against it. Hospitals were established wherever possible and food and clothing were distributed to the undernourished populations, who by reason of their undernourishment were easy prey to the epidemics. Where disorganization contributed last year to the great inroads made by the disease, by virtue of its knowledge of the disease and the presence of well established hospital centers, the American Red Cross this year will undertake the work with a new confidence.

Including the total of \$11,000,000 in supplies left from the last fiscal year, the \$31,500,000 is \$21,000,000 less than the expenditures for 1919-20.

Appropriations for domestic activities total \$16,700,000.

The largest item of this "home" budget is \$7,500,000 for civilian relief work. This includes service and assistance for families of soldiers, sailors and marines, and work incidental to disaster. Of the total appropriation for civilian relief, \$3,000,000 is held in reserve for the carrying out of actual disaster relief.

### Reduced Overhead Expenses.

The Red Cross invariably is the first thought of a community visited by calamity. With this in mind, it was determined by the Executive Committee preparing the budget of 1919-20 to have fixed reserve funds which to draw in case of disaster. For assistance to soldiers, sailors and marines in hospitals and in camps this year \$1,000,000 has been set aside. Four million two hundred thousand dollars has been appropriated for improvement of feet and prevention of disease throughout the United States during the current twelve months. The Red Cross is cooperating fully with the United States Health Service in this work and through its Junior Red Cross is doing much to spread among children the principles of sanitation. An appropriation of \$1,000,000 has been made for developing the year-around program of the Red Cross by service to its chapters in all sections.

The appropriation of \$18,200,000 is exclusive of the local expenditures of the 3,000 or more chapters.

Administration expenses this year will be \$1,800,000. Last year they were \$2,300,000.

### SCHOOL CHILDREN'S HEALTH

Are your children ready to start to school in good health and vigor this fall? If any of them have adenoids, now is the time to have them treated instead of waiting until school days are on us. And if any children have defective teeth, they should no longer postpone a visit to the dentist. Many a child is blamed for backwardness at school when the fault is with his parents. They allow him to be stunted by adenoids, handicapped by bad eyes, or enticed by hookworm. Things easily remedied, and the wonder why the child doesn't make a better showing in his studies.—The Progressive Farmer.

### THE AMERICAN RED CROSS IN PEACE TIME Disease Prevention

Through its Health Service the American Red Cross has begun a nationwide concentrated effort in co-operation with established organizations to reduce greatly the amount of preventable disease and physical defects found among the country's 100,000,000 population. Education is its most powerful tool. Special attention is devoted to children, and this picture shows a typical Red Cross welfare clinic where little ones are treated and mothers instructed in the proper care of them.

Health is at the foundation of home happiness. Through its Rural Service, Public Health Nursing Service and Health Center Service, the American Red Cross aims greatly to strengthen this foundation and to draw more closely together the neighborhood ties that bind the American people together. Here is shown a Red Cross Public Health nurse attending a young mother with a brand new baby, seeing that both receive adequate care.
