## College Comets Will Host Nashville Business College Here Next Week

The strong Nashville Business College girls' basketball team will invade Clarendon next week where they will meet the Clarendon Junior College Comets for a two game series. The first game will be on Wednesday night, January 16, and the second game will be on Friday night, January 18th. Each game will begin at 8:00 o'clock.

Local fans will remember the Nashville girls from last season when they engaged the Comets in a two-night stand here. Last year the Comets took both games from the visiting Nashville team, the first by a score of 36 to 33, and the second, 38 to 37. The classy Tennesseans, however, went to the finals of the National AAU Tournament at St. Joseph, Missouri, where they lost to Wayland's Flying Queens, 39 to 33.

The NBC girls at present are rated second in the National Standing for women's basketball teams. Wayland's three time National Champions are rated first. The Nashville team to date has won eight while losing only one this season. The single loss came at the hands of the strong Iowa Wesleyan team by two points and NBC evened the series in the next game with a winning margin of seven points.

The Nashville Business College claims the distinction of having sponsored a women's AAU basketball team longer than any other team in the nation, beginning in 1924. They won the National Championship in 1950.

NBC will have three former All-American players on their team this year. Miss Katherine Washington, who is in her fourth year of AAU competition, is regarded by many experts as perhaps the best woman basketball player in the United States. Miss Nera White, who stands an even six feet tall, is a great all around player and is playing her third year with the team as is another veteran, Miss Doris Scoggins.

The local Comets have not played since Dec. 8 when they lost a 54 to 48 decision to the Flying Queens of Wayland College. However, Coach Buddy Travis has been holding daily workouts and hopes to have the girls ready. Local fans who want to see Women's basketball at its very best should not miss these two games next week.

## Red Cross Hungarian Relief Drive Extended

Donley County still has a chance to help Hungary fight Communism where it counts most.

The Red Cross has asked this county for \$131 as its share in the mercy effort to ease the suffering of Hungarians in their own country, George Benson, chairman said.

Less than \$40 has been raised. Money is being received by Emmett O. Simmons, sec-treas. of the local Red Cross. The January 1st deadline has been extended in hopes Clarendon will not fail to meet its obligation.

The quota is small cost Benson said, compared to the price of property, life and hope being paid by the Hungarian people to fight our common enemy. There, Freedom Fighters, against Russian domination, gave everything they had to the effort. Women walked into firing Soviet tanks, young boys and girls attacked military posts barehanded. Hundreds of thousands have been killed or deported to Siberia. The fight goes on.

Funds raised locally will go through International Red Cross to provide food, clothing and medicines in the battle-torn country. World diplomats call the Hungarian Revolt the greatest blow against Communism so far. Clarendon can do its part by raising its share for Red Cross, Benson added. He urged people wanting to help not to delay.

## Services Held Friday For Dr. J. W. Evans

Funeral services were held Friday morning at the family home for Dr. James W. Evans with Rev. W. F. Vanderburg and Rev. C. N. Ryan officiating.

Dr. Evans, 88, passed away at Adair hospital here Thursday afternoon following a lengthy illness. He practiced dentistry here for over forty years, retiring about two years ago.

Dr. Evans was born June 8, 1868, in New Canton, Ill. He was married to Miss Ella Marie Ross in 1926. He was a member of the First Baptist Church and was a Mason and a Shriner.

Survivors include his wife, Mrs. Ella Evans, three nieces and one nephew.

Pallbearers were Vadie Carpenter, Van Kennedy, H. T. Burton, J. D. Swift, G. W. Estlack and Odos Caraway.

Graveside services were held Saturday morning at Gainesville, Texas and burial was in Fairview Cemetery there. The Murphy Funeral Home was in charge of funeral arrangements.

## Meeting To Organize GOC Here Jan. 24th

Ground Observer Corps comes to Clarendon. As in so many other communities throughout Texas, the GOC is being organized in this City.

Used as a back up for Radar detection of enemy planes, the GOC is a must in these days of World upheaval. At any moment, day or night the Communist leaders could decide to attack this Country, and unless we are prepared, this Nation will fall as so many others have fallen. This Nation is the one remaining block between the free World and Communism, and if it should fall, Communism will become world wide.

In the event of an attack, it is most probable that the enemy planes will come in at very low altitudes to escape radar detection, because due to the curvature of the earth, and the terrain features, radar is only reliable above 5,000 feet. That is why the GOC is so important to the Defense of this Country.

A meeting to organize this group will be held at the City Hall on January 24th at 7:30 P. M. All of those interested in joining are asked to contact Mike McCully at his office in the Gold-Street Building.

T/Sgt. William E. Swope, Mobile Training Unit of the US Air Force will be present to show a film and explain the GOC, and the duties to all of those interested.

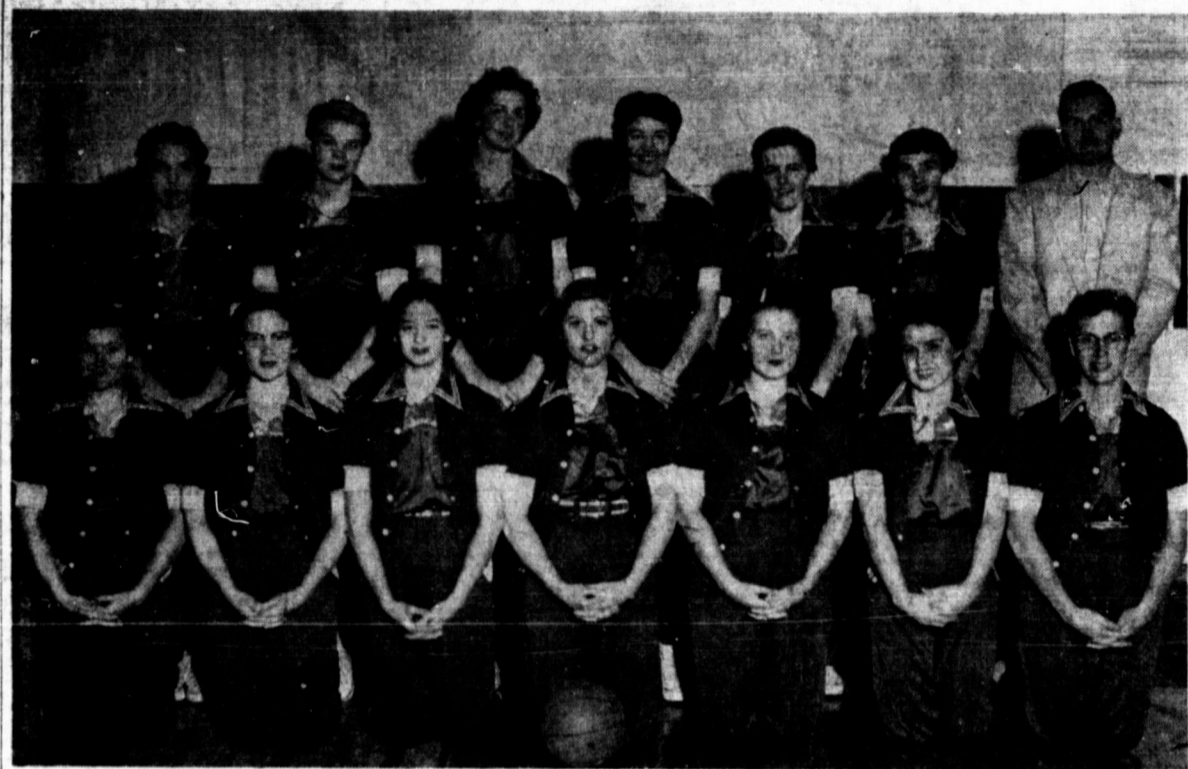

All persons from age 14 up are urged to attend.

## Fifty-Two County Court Cases Dismissed

According to official County records, fifty-two cases filed from Sept. 1948 thru July 1956 in county court were dismissed prior to January 1st which leaves the slate fairly clean for the administration taking over January 1, 1957. Those interested in knowing whether their particular case was dismissed or other interested parties can find this information in the county records.

County Attorney R. Y. King asked the court to dismiss the causes of action due to the fact that for the most part they were old cases which have been on the docket for a long time and the State's evidence is not on hand for trial and never will be on hand again, being out of the county, and the cases being misdemeanors. The motion was granted by County Judge Jack E. Gray.

## JUNIOR COLLEGE COMETS—1956-57 BASKETBALL TEAM

Left to right, Standing: Nancy Stephens, Joan Crawford, Claudette Green, Marjorie Irlbeck, Myrna Carney, Kathryn Edwards, and Coach Buddy Travis. Kneeling: Patsy Vincent, Susie Jones, Mary Mann, Lola Duhon, Betty Hickey, Genell King, and Harlene Smith.

## Plans Progressing For Agriculture Clinic To Be Held February 14

County Agent H. M. Breedlove says that plans are progressing in good shape for the Agriculture Clinic to be held in Clarendon on February 14th. The meeting will start at ten A. M. at the Mulkey Theatre and last until four in the afternoon. All speakers are specialists in their respective fields and Breedlove urges every one to attend for some first hand information on subjects that are important to farmers and ranchers in this section of the state. The program will be as follows:

10:00 A. M. to 10:30 A. M.—Mr. Emmett Dignan, banker from Denver, Colorado, who will discuss finances in regard to cattle and farming.

10:30 A. M. to 11:00 A. M.—Mr. Bob Cherry, Farm Management Specialist, Texas A&M College, discussing farming under the Soil Bank.

11:00 to 12:00—Mr. Jack King, Agronomist, Texas A&M College, discussing Hybrid Grain sorghums and new crops.

1:00 to 2:00 P. M.—Mr. Tom Prater, Specialist, Texas A&M College, discussing the economics of Irrigation.

2:00 to 3:00 P. M.—Mr. Paul Marion, Animal Husbandman, Texas A&M College from Spur Experiment Station, discussing livestock feeding practices.

3:00 to 4:00 P. M.—Mr. John McHaney, Economist, Texas A&M College, Farming and ranching outlook for 1957.

Breedlove is urging every one to make plans now to attend this big meeting and if you cannot attend the entire conference, then pick out the subjects that are most important to you and attend for that hour.

## James Mahaffey Shows Champion At Childress Junior Breeding Show

James Mahaffey exhibited the champion Aberdeen Angus female at the Childress Junior Breeding Show last Saturday. The show attracted breeding stock from a wide territory from Perryton to Aspermont. Only 4-H Club members and members of the F.F.A. are eligible to show in the Childress event.

Mahaffey's heifer was 1st place junior heifer calf and went on to win the grand champion Aberdeen Angus Female award. The heifer was bred by David Hudgins of Brice. James received the heifer as an award in the Houston Calf Scramble and will exhibit the heifer at Amarillo, Ft. Worth, and Houston. She was 1st place heifer at the recent Donley County Show.

## Bulldogs Drop Two Close Games Over Week-End

The Clarendon Junior College Bulldogs were defeated in two close basketball games over the past week-end. They lost to Cameron State College of Lawton, Oklahoma, on Friday night by a score of 97 to 84, and journeyed to Lamar, Colorado, on Saturday night and came out on the short end of a 77 to 73 score. The Cameron team, paced by Frank Yeagho, a six foot, four inch Indian, proved too much for the Bulldogs. The classy Indian controlled both backboards and scored 25 points. The Bulldogs were in the ball game until shortly before halftime. With four and one half minutes left in the first half the score was tied at 37-all, but the speedy Cameron team put on the steam and pulled away for a 56 to 42 halftime lead. The Bulldogs never got closer than ten points to the visitors from there on.

Jay Wilson, sophomore center and co-captain for the Bulldogs, led the scoring attack with 26 points in addition to playing a good defensive game. Boyd White, the other co-captain, who is the leading scorer for the Bulldogs throughout the season, poured in 22 points, and Steve Jarnigan, making his first appearance since the opening game in November, accounted for 13 points. Jarnigan has been sidelined with a broken hand since Nov. 30.

In the game at Lamar, Colorado, on Saturday night, Jarnigan was high for the Bulldogs with 24 points followed by Buzz Bailey with 14 and White with 10. The Bulldogs' inability to hit from the free-throw line cost them the game to Lamar. They outscored Lamar from the field with 31 baskets to Lamar's 29, but could score only 11 charity tosses as compared to 19 for Lamar.

## New Car Tags Arrive; Go On Sale Feb. 1st

The Highway Department unloaded a valuable cargo of metal at the county tax office Monday of this week. This cargo was the new 1957 license plates which will go on sale Friday, Feb. 1st.

A big change was made in the tags this year as the old color of black and orange combination was discarded and the present tags are white with black numerals. The passenger car tags are numbered AR6100 to AR8299.

Another item of importance noted at the tax office also was the small number of Poll Tax receipts issued to date. Through Tuesday of this week only 377 Poll Tax receipts had been issued which is really pitiful. Even though this is an off-election year, everyone should pay their poll tax, for many important issues could come up during the year affecting every citizen of this county. Be sure and pay your poll tax right away; don't wait until the deadline January 31st.

The newly-formed Public Affairs Discussion Group is sponsor for the meeting, its first public presentation. Formed of a cross-section of occupational groups in the community, it has had 4 round-table discussion sessions.

## College Bulldogs Edge Midwestern Freshmen 81 to 80 In Local Gym

In what is probably the best played game of the season, the Clarendon Junior College Bulldogs scored a close 81 to 80 victory over the Midwestern University Freshmen at the local gym Monday night. The sharpshooting of Buz Bailey and Layne Cushmanberry in the last ten minutes of play enabled Coach Buddy Travis' young team to gain the well-earned victory. Bailey scored 17 points and Cushmanberry 16.

The game was close all the way with the Bulldogs holding on to a 43 to 42 lead at the half. Boyd White, sophomore forward who has been leading the Bulldogs in the scoring parade all season, went out on fouls with three and one half minutes left to play in the first half and Steve Jarnigan, who played a great game while it lasted, went out on fouls early in the second half. From there on the Bulldogs with Bailey, Cushmanberry, Norman Killough, Jimmy Adams, Billy Schneider and Don Johnson, all freshmen, doing the greater part of the playing, fought the taller Midwestern crew right down to the wire.

Killough iced the game away for the Bulldogs with a free shot with nine seconds to play. During the last ten minutes of the game the tall Midwestern team refused to let the Bulldogs get closer than 25 feet to the goal, but during that time Bailey and Cushmanberry hit four field goals each and Adams contributed one. Don Shearnire, six feet, four inch Midwestern forward, was high point man for the game with 28 points.

## Panel Discussion At Hedley, January 17

Rev. J. A. MacDonald of Lelia Lake will be resource person for a panel discussion on "Delinquency Affecting Juveniles" at the Hedley High School auditorium the evening of Thursday, January 17. Another panel discussion is slated on "Judicial Procedure", chief resource person being District Judge Luther Gribble of Wellington. For 20 years Rev. MacDonald served as the juvenile officer of Wichita Falls.

The newly-formed Public Affairs Discussion Group is sponsor for the meeting, its first public presentation. Formed of a cross-section of occupational groups in the community, it has had 4 round-table discussion sessions.

## COUNTY LAMB AND PIG SHOW SET FOR JANUARY 18th

### Carl Naylor Escapes Injury In Collision Near Goodnight

Carl Naylor, local trucker and farmer, escaped injury about 7 p. m. Tuesday evening when his truck was sideswiped just east of Goodnight and a Dallas man, Tillman F. Martin, died in the accident.

According to investigating officers at Claude, Martin's car sideswiped Naylor's truck, turning it over and spilling his load of cattle cubes. The top of the car was sheared off at window level on one side and at door-top level on the other side. It was reported that Martin had just passed another truck and apparently lost control of the car.

Mr. Martin's body was sent to Jackson, Miss., by the Murphy Funeral Home for funeral services and burial.

### Bulldogs To Meet West Texas Freshmen Here Saturday Night

The tall West Texas Freshmen basketball team will invade the local gym for a game with the Bulldogs here Saturday night. The young Buffaloes defeated the Bulldogs at Canyon early in December by a score of 84 to 77.

Coach Gus Miller of West Texas has boasted to the fact that this year's crop of freshmen is the best array of talent he has ever assembled at Canyon. They include Junior Fitts of Tahoka, 6-5 forward who was unanimous All-State last year and played in the all-star game at Lubbock last summer at the Texas High School Coaches Association meeting. Also they have Larry Corbin, 6-6 center from Levelland and Max Miller, the All-State boy from Borger, and many other outstanding players. Their starting team will average 6 feet, four inches in height.

Probable starters for the Bulldogs will be Boyd White and Steve Jarnigan at forwards, Norman Killough at center and Layne Cushmanberry or either Buzz Bailey, Billy Schneider or Jimmy Adams at guards. Game time will be 8:00 o'clock and admission prices are 75¢ for adults and 50¢ for students.

## Roughage Program For Texas Extended

The Roughage Program for Texas has been extended in all 238 counties previously designated. Walter T. McKay announced today. County Committees in all designated counties are being advised that they may now accept applications for a supply of roughage feed to carry basic livestock through March 15, 1957.

McKay was also advised that it is the policy of the Department of Agriculture to continue the emergency feed grain and roughage programs in the drought areas as long as there is a need for these programs.

## School Cafeteria Receives \$102.90 Check This Week

Basil Smith, Manager of the West Texas Gin, delivered a check in the amount of \$102.90 to the School Cafeteria this week which was the amount received for the cotton ginned from green bales saved throughout the season by the gin. The check was less this year than usual as fewer green bales were caught due to the dry weather.

This gift to the Cafeteria is actually a gift from all the farmers ginning with the West Texas Gin and the gin itself.

The Donley County Club Boys' Lamb and Pig Show will be held at the county show barns on the morning of January 18th, according to J. R. Gillham, local Voc. Ag. Instructor. Approximately 100 youths from Clarendon, Lelia Lake, and Hedley will participate in the show and over 150 pigs and 30 lambs are expected to be on exhibit at the annual event.

Tom Duffey, Plainview Vocational Agriculture Instructor, will place the animals. Classes for light and heavyweights in Yorkshires and crossbreeds, Poland Chinas, Spotted Poland Chinas, Hampshires, Berkshires, Durocs, and Chester Whites hogs will be provided. The light and heavy-weight first place pigs will compete for breed champions, and the breed champions will compete for grand and reserve championships of the show.

There will be classes for fine wool and mutton lambs, with the first place lambs from each division competing for the grand championship award in the lamb show. All of the lambs and approximately 50 of the top barrows in the show will compete in the Amarillo Fat Stock Show and the remainder of the animals will be exhibited at the Fort Worth and Houston Shows.

## 4-H Club Boys Ready For Amarillo Show

Donley County 4-H Club Boys showing calves at the Odessa Hereford Show placed their steers in the top of the heavy and middle weight classes says County Agent H. M. Breedlove. The boys did not top either class but they were in there fighting.

Only one steer was sold at Odessa from the four steers being showed and he belonged to Troy Harrison of Hedley and weighed eleven hundred and six pounds and brought fifty one cents per pound for a total of \$564.06. The other top placing steers were taken from the sale to go on to the Amarillo show, Fort Worth and Houston.

Breedlove says that a total of seventeen 4-H Club steers will be shown at Amarillo. The Donley County grand champion steer shown by 4-H Club Girl Jean Harrison of Hedley will be shown at Amarillo and the two steers of Gene Floyd and Troy Harrison, along with Janice Floyd, Ike Noble, Chuck Cosper, Gary Longan, John Longan, Rod Stone, William Chamberlain and Ronnie Longan.

Seven made the trip to Odessa for eight days; this included some fathers with Troy Harrison and Gene Floyd. The total expenses of eating per person for that time was \$9.70 per person and there was no hotel bill as the big 4-H Club bus accommodated all on the trip. Breedlove did most of the cooking but Ed Floyd and Ellis Harrison put a mixture of food in the skillet now and then. The bus is a real money saver for show trips and sure gives the boys more profit on their feeding projects.

## Six Year Olds Must Be Signed In January For School Next Year

Parents in the Clarendon School District who have children that will be six years of age on or before Sept. 1, 1957, should register such children with Principal K. D. Vaughan at the High School before Feb. 1st. This is necessary so that their names will appear on the census roll for next school year. This is a very important step and parents are urged to comply with this regulation.

Also, parents of children who transfer out of the Clarendon School District must enumerate the children in this district, otherwise they cannot be transferred.

Clarence Hill of Sunray was in Hedley Saturday.

Ross Brown and family have moved to Hedley for another year.

See you next week.

HEALTH NOTES

Texas State Dept. of Health

AUSTIN — A new record of public service was established between September 1954 and August 1955 when 715,192 Texans passed before the mobile chest x-ray units operated by the State Department of Health.

Of that number 18,192 showed evidence of chest "abnormalities", the Department reported.

The tax-supported mass chest x-ray surveys, limited to persons 15 years of age and over, worked in 152 counties during the period

covered by the report.

Among the abnormal findings were 9,887 cases of "suspicious, minimal, moderately advanced, or far advanced tuberculosis", 7,276 cases of heart involvement, 1,029 cases of other "nontuberculous" cases such as tumor shadows, diaphragmatic hernias, etc.

Past experience has shown that findings of chest abnormalities in children under 15 are so few that it is not economically feasible to include youngsters in the mass surveys. Also, health authorities hold that since the source of tuberculosis is in the adult population, finding a case in an adult presents sufficient opportunity to closely examine the children in that adult's family.

Although no age breakdown was available for the abnormal conditions discovered in last year's surveys, indications were

that most of them occurred in persons over 55. Said Health Commissioner Henry A. Holle: "We are concentrating on this age bracket."

Both tuberculosis and lung cancer are most easily curable in their early stages," the health official stressed. "But since both are almost symptomless in their early stages, early detection is virtually impossible without a chest x-ray."

The health agency adopted the mass x-ray surveys as part of its program of public service in 1946. Five units are in operation, each one staffed by two technicians. Units are assigned to individual counties only on request of the county medical society.

Tuberculosis, heart disease, and lung tumors are the conditions most frequently found. Cases of abnormality are reported to the private physician named by the

individual involved.

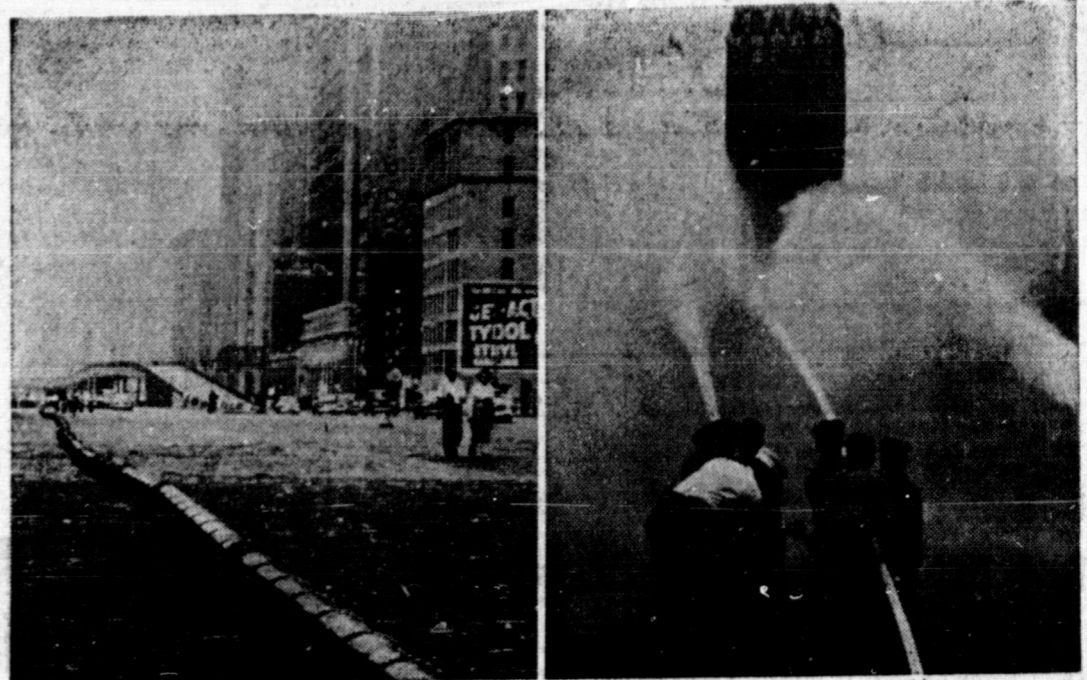

Specific diagnosis is left to the private physician. It usually requires 4 weeks from the time the x-ray is taken until the report is forwarded to the individual or the physician of his choice.

The usual procedure in cases of chest defects is for the person to visit his family physician for further study.

The number of people receiving chest x-rays in mobile units last year was the greatest in the 9-year history of the program.

GLASSES NO CURE-ALL

Many persons assume that wearing eye glasses will cure them of the ailment for which they were prescribed. But this is not the case. Instead, they serve merely as a badly needed corrective for vision for those who are nearsighted, farsighted or have an astigmatism.

DEMONSTRATION OF PIPE in New York City which can be laid quickly over rough terrain to carry water for fire fighting, city water supply or to pump out flooded areas. This flexible coupled pipe is stored by the Federal Civil Defense Administration in warehouses throughout the nation for use in emergencies. New couplings allow pipe to be laid without leveling it.

## LES BEAUX ARTS

Members of Les Beaux Arts met at the Dixie Cafe January 4 for a luncheon and the annual election of officers. Room and table decorations were ranch style. Nineteen members were present.

Following the meal, Mrs. Wm. J. Lewis, Jr. showed films taken by the Telephone Company for a TV short over the Ft. Worth station. These films were especially interesting to the group as they were taken on the Shoe Bar Ranch owned by the Lewis family and located near Turkey.

Club members were reminded of the film, "Serenade," to be shown by Lee Bell at the Mulkey Theatre January 25 for members of Les Beaux Arts, Pathfinder, and their guests.

During the business session the following officers were elected for the coming year:

President, Mrs. Tommy Saye; Vice-President, Mrs. Lee Bell; Secretary-Reporter, Mrs. Frank White, Jr.; Treasurer, Mrs. M. R. Allensworth; Historian, Mrs. E. O. Simmons.

Hostesses were Mmes. Frank White, Jr., W. C. Thornberry, W. H. Patrick, and Miss Anna Moores. —Reporter.

## ENGAGEMENT ANNOUNCED

Mr. and Mrs. Jesse Vick wish to announce the engagement and approaching marriage of their daughter, Shirley Sue, to Harold Holland, son of Mrs. Chester Martin. The wedding date has been set for January 25th.

## ASHTOLA NEEDLE CLUB

The Ashtola Needle Club held its first meeting of the new year Jan. 3rd in the home of Jo Harp. The meeting was called to order by the President, Mrs. Gray and opened with prayer by Modena Hill.

Minutes read and approved as read. Committee reported on the Christmas trip to the Rest Home. Modena Hill gave an outline of the years program which sounded like we will have a busy year.

Since Mrs. Harp has recently moved into her new home she received, as a surprise, several nice gifts. She was assisted by Mildred McClellan and Cula Jo Trout in serving delicious refreshments to one new member, three visitors and sixteen members and several children.

The next meeting will be in the Club Room January 17th. —Reporter.

## CHAMBERLAIN H. D. CLUB

The Chamberlain H. D. Club met January 3rd for an all day meeting at the community center, with Jean Harrison as hostess. Two quilts were quilted. Those present were Mary Myers, Florie Webb, Velma Heathington, Laura Ivey, Nelda Jones, Loretta Harrison, Mary Mann, Vivian Allen and Willie Hott.

The next meeting will be Feb. 7th with an all day meeting at the community center with Velma Heathington as hostess. Quilting will be the theme of the day. A new secretary will be voted on at this meeting as Mrs. H. A. Harrison Jr. is moving soon. —Reporter.

Mr. and Mrs. C. A. Wright and family enjoyed Christmas dinner in the home of Mr. and Mrs. Guy Wright and family at Memphis.

## SODALITAS CLUB

The Sodalitas Club met in the home of Mrs. Doyle Messer, Thursday, January 3rd for a pot luck supper and business meeting. Election of officers was held and the following members were elected to office to be effective in September.

President, Evelyn Messer; Vice President, Mahdeene DeBord; Secretary, Mary Haskins; Treasurer, Joy Stewart; Reporter, Dorothy Brinson; Parliamentarian, Mary Ruth White; Federation Counselor, Sue Weatherly; Corresponding Secretary, Ailene Thompson.

## HUDGINS CLUB

On a new day in a new year the Club enjoyed an afternoon of quilting and visiting.

On Thursday afternoon we met in the home of Martiel Webb to quilt one quilt. Refreshments were served to the following members, children and two guests Mrs. Veta Goad and Wanda Elliott; members: Cora Elliott, Ruth Lindley and Tommye, Flore Webb, Agnes Allee, Virginia Smith and Cheryl, Mamie Mills, Roxie Cosper, Mary Lee Noble and Jamie Sue and Martiel's grandsons, the Lemons boys.

Cori Elliott will be hostess to the club on Thursday afternoon, January 7th. —Reporter.

Cori Elliott will be hostess to the club on Thursday afternoon, January 7th. —Reporter.

Cori Elliott will be hostess to the club on Thursday afternoon, January 7th. —Reporter.

## MIDWAY CLUB

This Club met for the first meeting of the year January 8th with a good attendance. The only member absent was Pearl Terry who is ill with a cold and hope for her to be back with us next meeting.

A delicious noon meal was served by the hostess Eddie Williams to eighteen members and one guest, Mrs. McInroe who we enjoyed very much.

Next meeting will be January 22nd with Eva Allgren. Let's try to keep our good attendance up the entire year. —Reporter.

Mr. and Mrs. Arlie Wood of Lelia Lake announce the arrival of a son, January 3, at the Odum Hospital in Memphis. The young man weighed 7 lbs. 8 oz. and has been named Randy Jay. He is the grandson of Mr. and Mrs. L. L. Wood and J. T. Pearson of Clarendon.

## CHAMBERLAIN COMMUNITY CENTER

The Chamberlain Community Center had their regular meeting January 5th. Jean Harrison and Florie Webb acted as hostesses. A very enjoyable time was reported by all those present.

The well has been fixed and there is plenty of water now. An all day work-day has been planned for January 15th and everyone is urged to come as there is quite a bit of work to be done yet. —Reporter.

Fish sticks, French style spinach, creamed potatoes, pickles, bread, butter, milk.

FRIDAY  
Fish sticks, French style spinach, creamed potatoes, pickles, bread, butter, milk.

## Boyd White Leads Bulldog Scorers

Boyd White, stellar Bulldog forward, is currently pacing the Clarendon Junior College team in scoring this season. White is a sophomore co-captain and is one of two sophomores on the Bulldog team this year who is seeing much service. Jay Wilson is the other sophomore and is also co-captain. Other sophomores on the squad include James Lanier and Kenneth Newman but they have seen limited service this year.

In scoring 215 points in eleven games, White has shown deadly accuracy both from the floor and from the foul line. Standing only 6-1, the speedy forward has an uncanny knack of knowing when to drive for the basket and often dribbles through the entire defensive team for lay-ups. He is also probably the best defensive man on the entire Bulldog squad.

Another Bulldog who is fast rounding into shape is Steve Jarnigan. Steve suffered a broken hand on Nov. 30 after playing in only one game and only returned to action in the Jan. 4 game against Cameron State College. He has shown great form his last two games and gives promise of improving further. Other members of the team who are showing gradual improvement are Layne Cushingberry, Norman Killough, Buzz Bailey and Don Johnson.

Mr. and Mrs. W. C. W. Morris, Mr. and Mrs. Chester Morris and girls, Mrs. Dillard Thompson and son Kenneth of Post, Mr. and Mrs. Arthur Morris of Olton, and Mr. Frank Morris of Captain, N. M. visited with Mrs. Wilson Gray Sunday evening. Mrs. L. E. Yankee of Amarillo visited her over the week end.

## Sorghum Hybrids Available For Planting In 1957

According to County Agent H. M. Breedlove, seven grain sorghum hybrids, developed cooperatively by the Texas Agricultural Experiment Station and the U. S. Department of Agriculture, will be available to farmers for planting in 1957. These hybrids are the result of research work which began in 1921 and are the first practical hybrids to be released from these studies.

The seven hybrids, RS 590, Texas 601, RS 610, Texas 611, Texas 620, RS 650 and Texas 660, are the best of several hundred produced and tested during the past 20 years at the Lubbock and Chillicothe stations. Tests were conducted last year throughout Texas and all have thus been grown under limited field demonstrations. The plant breeders at the Texas Station say still better hybrids with improved adaptations to various growing conditions can be expected in the near future.

Farmers are advised to plant one or more of the hybrids adapted to their areas and to make comparisons with standard varieties. Be sure to plant certified seed.

Planting seed of these seven hybrids are white, but the grain produced will be red. In general, the higher the hybrid number, the later is its maturity, but none is as late as Plainsman. Yields 20 to 40 percent greater than varieties of the same maturity under most conditions can be expected. The plants show superior seedling vigor, rapid growth and uniform height and maturity. Since the hybrids have larger heads and are often slightly taller than the varieties, occasionally more lodging may occur in the hybrids. Cultural practices for the sorghum hybrids are the same as recommended for sorghum varieties.

## Jr. High Teams Win At Alanreed

The two junior high teams left Alanreed victoriously last week with the girls team winning 43 to 7 and the boys 15 to 10.

The high point player for the girls was Barbara McBrayer with 12. Alice Johnston and Beth Johnston tied for second place with 8 points. The starting lineup was Alice Johnston, Barbara McBrayer, Sharon Moore, Jackie McClellan, Martha Jo Risley and Janie Smith.

High point for the boys was Ronnie Hall with 5 and Howard Talley was second with 4. Starters were Howard Talley, Ronnie Hall, Jerry Hicks, Neel Carter and James Kay.

Their next games will be played tonight, January 10th at Lelia Lake.

Mr. and Mrs. B. F. Wolford of Dublin, Texas spent New Year's in the home of Mr. and Mrs. Monte Wolford. Mr. and Mrs. Wolford enjoyed seeing and visiting with their old friends.

Mr. and Mrs. Monte Ray Wolford and two sons Monte Neal and Mark of Colorado Springs spent New Year's in the home of Mr. and Mrs. Monte Wolford. Monte enjoyed his grandsons very much.

## FARM NEWS

from the County ASC Committee

### PRESERVATION OF HISTORY ACREAGE

All producers who have 1957 allotments for wheat or cotton should come into the Donley County ASC Office and sign a Form MQ-31. This Form will preserve the acreage history if the allotted crop is not planted, and also if less than 90% of the crop is planted.

It is very important that every producer who has a 1957 cotton or wheat allotment come into the office and sign this form, regardless whether he plans to plant his full allotment, none of his allotment, or part of his allotment.

### ACP PROGRAM FOR 1957

The 1957 ACP Program started January 1. There are numerous practices to be carried out on farms, and we are taking applications for listing and chiseling now under the 1957 program.

Producers who have completed practices under the 1956 program should report the practice immediately. If the practice is not reported before January 15, 1957, the payment will be cancelled.

### 1957 CONSERVATION RESERVE

Applications for 1957 Conservation Reserve contracts are still being taken at the office, but we want to remind the producers that this program is on a first-come, first-served basis, and we cannot guarantee that our budget will cover all of the contracts. This is also true about some of the later ones who have already signed applications for 1957 Conservation Reserve contracts. Producers who are planning to put land into the Conservation Reserve for 1957 should not graze the land after January 1, 1957.

## Chester Mann Receives Honorable Mention

Last week we had the privilege of reporting that Chester Mann, son of Mr. and Mrs. Doc Mann, had been named on the Regional Class A team, which was two years in a row to receive this honor. This week we note that he has received honorable mention as a tackle in the Class A All-State teams which is an even greater honor. A football player has to be a good player over a period of time in order to be named in this bracket. The state champions, Stinnett, placed only one man on the first team and that was Larry Dawson, and Dale Keedale was the only Stinnett player to be named on the second team. The state selections were made by the Texas Sports Writers Association.

### CARD OF THANKS

We wish to thank our friends for the flowers, cards and many other kindnesses extended us in the death of our loved one, Mrs. J. B. Stepp. May God's richest blessings be with each of you.

Mr. and Mrs. J. C. Stepp and family.

Mrs. C. D. Cribbs of Walnut Springs, Texas spent part of last week in the home of her sister, Mr. and Mrs. E. J. Chenault. Other visitors during the week were Mr. and Mrs. B. B. Cribbs and Mr. and Mrs. Dennis Shir of Odessa.

## Local F.F.A. Youths To Attend Fort Worth Fat Stock Show

Approximately thirty members of the Clarendon F.F.A. Chapter will attend State F.F.A. Day at the Fort Worth Fat Stock Show on January 26th. The youths will make the trip by bus and will leave Clarendon on the afternoon of January 25th and return on the afternoon of January 27th.

Almost all of the youths making the trip will have pigs or calves on exhibit at Fort Worth. The boys will exhibit their pigs on Saturday, January 26th, will attend a special Sunday School Breakfast at the show grounds on Sunday morning as guests of the First National Bank of Fort Worth; will exhibit their registered Angus heifers in the junior breeding show on the morning of the 27th, and then return to Clarendon. The group will take their bed rolls and stay in the Arlington Heights High School Gymnasium on the nights of January 25th and 26th.

**DOGS IN WAR**

by Bob Bartos  
Manager, Friskies Research Kennel

One of the most interesting chapters in the long history of dogs is their use in war. The ancient Romans, Greeks and other nations used dogs as fighters. In modern times, they

**Dog of the Week: SALUKI**

Average weight, 60 lbs.; stand, 25 inches; coat, smooth, soft, silky; fringes on ears and tail; light feather on legs; color, white, fawn, cream, golden, red, grizzle tan, bicolor (white, black and tan) and black and tan.

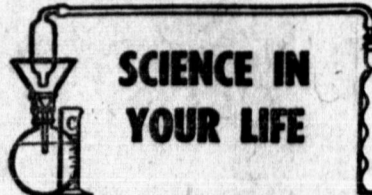

have done notable war service in other ways. They were used to locate the wounded in the Russo Japanese War, and in World War I they gave excellent service as messengers and as guards for ammunition dumps and prison camps. Large breed dogs were also used to haul supplies. The use of dogs in war reached its peak in World War II, when Germany alone is reported to have trained 200,000 canines for war use.

In the United States, the civilian organization known as Dogs for Defense supplied thousands of dogs to the Army's famous K-9 Corps, which trained them as sentries, scouts, messengers and as sledge and pack dogs. Some were even schooled to bring in prisoners by themselves on command of their master. The breeds most commonly used for war service were the German Shepherd, Belgian Sheepdog, Doberman Pinscher, the farm type Collie and Giant Schnauzer. Many tales of canine heroism during World War II have been recorded and citations have been awarded to the donors of the dogs in recognition of this service.

**Feeding Tip:** Raw or under-cooked pork can cause trichinosis and should never be fed to a dog. It is usually safer to cook all meat or fish since cooking destroys the organisms responsible for trichinosis, salmon poisoning, tapeworms and bacterial diseases which may be present in some fish or meat.

The average Navy man retiring after 20 years of service at the age of 40 can look forward to spending about 31 years in retirement. If he decides to complete 30 years of service and retire around the age of 50, he has about 23 years to enjoy retirement benefits.

The Washington Monument is 555 feet high.

**Most Common Cold**  
Nothing, it seems, is quite so demeaning as the common cold. Even the name of the disease suggests that uncommon people never get it, which of course is nonsense. As for the wheezing, dripping, bone-aching sufferer, the unfeeling spectator dismisses his ailment as of no real importance, and cartoonists make up jokes about it.

While it is true that nobody ever died of the common cold, a really heavy siege of this ancient affliction can make the victim feel sicker than many more serious diseases do. The fact is the degree of malaise that a sick man feels is often quite unrelated to the seriousness of his illness—and the virus of the common cold can produce more malaise per cubic inch in the human body than do many killers. Luckily, in these days of new, effective drugs, the sufferer from the common cold is not entirely helpless. He can, for instance, clear out his stuffed nose most effectively with Tyzine, a clear solution which can be applied either by dropper or with an atomizer. In one recent test which lasted more than a year, over a thousand patients were treated in this way by a California physician, Dr. Jay G. Roberts. The results, Dr. Roberts reported, were "prompt and prolonged". A single application of the drug gave relief lasting from four to six hours, and produced no unwanted side-effects whatsoever. Until an effective anti-cold vaccine is developed, sufferers will have to rely on relief of individual symptoms. Fortunately, these are becoming more and more effective as science learns more about cough, sneezing and pain.

# PLOWIN' Out the CORNERS

By Uncle Zeb

Year's Resolutions please send us your list, and tell us how you are getting along with them.

In a little bulletin from a local church we read the following short poem by a writer from over a century past but it is as true now as it was then, or as it was even true in the beginning of time. The reason that it is and will always be true is that the thought comes from the teachings of the Master of Teaching and of Truth and is recorded forever in the New Testament record of the Life of Jesus. This little poem by Goethe is called:

**AS A MAN SOWETH**  
We must not hope to be mowers,  
And to gather the ripe gold ears,  
Unless we have first been sowers  
And watered the furrows with tears.

It is not just as we take it,  
This mystical world of ours,  
Life's field will yield as we  
make it  
A harvest of thorns or of flowers.

Just for thoughts sake:  
Someone said recently: "If 10% of all that has been spent for war could have been spent on education in the backward countries we could have changed the world." This is probably true. If we would spend 10% of what we Americans spend for liquor on polio vaccine we could almost end the disease in one year. We believe this statement just as certainly true. Sometimes I wonder just who is the most backward.

### BID NOTICE

Order of Commissioner's Court in Session Jan. 1, 1957.  
Motion by Edd Mooring and seconded by F. M. Murray, that the Court advertise & receive bids on following equipment:  
"The Honorable Commissioner's Court of Donley County, Texas will receive sealed bids at 10:00 o'clock A. M. January 14, 1957 for one (1) two (2) ton truck, equipped as follows: Flat dump steel bed with 12 ton hoist; Heater; 8:25 Tires & two speed transmissions." Motion carried.  
Commissioner's Court  
Donley County, Texas.  
(48-2c)

We resolved to be more friendly; to be more interested in the problems of others and less wrapped up in our own thought. How long did this one last, you might ask? Well, right now we are having trouble keeping from feeling a bit sorry for our own little self.

We intended to try in 1957 to find more things that we could do for those that are not as well off physically as we are, and to try so very hard to bring a little more sunlight into the lives of our shut-in friends. So far this year we have done so little on this one.

We resolved anew to try and grow in our faith in God throughout this year. To take more and more of our problems to Him rather than keep them buried in the confusion of our own feeble and frantic thinking.

Lastly we wanted to make more friends in 1957, and more than that to make our present friendships more and more lasting. If you remember your New

**MARCH OF DIMES PROCLAMATION** — Governor Allan Shivers is shown center, above, signing the official proclamation designating January as March of Dimes Month in Texas. Looking on is Major General K. L. Berry, Adjutant General of Texas and 1956-57 State March of Dimes Campaign Chairman, and Kaye LaGrone, 10-year old daughter of Mr. and Mrs. Gregory LaGrone, 1507 Preston Avenue, Austin. Kaye has been a polio victim since September, 1955.

## Governor Allan Shivers Proclaims January As March of Dimes Month

Governor Allan Shivers this week issued an official proclamation designating January as March of Dimes Month in Texas. The signing ceremony was held in the Capitol in Austin with Governor Shivers and Adjutant General K. L. Berry, 1956-57 March of Dimes Campaign Chairman, participating.

Governor Shivers' proclamation was "The National Foundation for Infantile Paralysis has made tremendous strides in the past few years in developing the Salk Polio Vaccine which will prevent polio, and in the further development of equipment, medicines and technicians which can care for those who unfortunately

have been stricken with this dread disease. Yet, our people still need more services. We must educate everyone to assure that all those susceptible to this disease take advantage of the Salk Vaccine. We must assure the continued treatment for those already stricken.

"Let's Finish the Job is the slogan for the 1957 March of Dimes Campaign and no other slogan could be more appropriate for Texans.

"Now, Therefore, I as Governor of Texas, do hereby designate the month of January, 1957, as March of Dimes Month in Texas, and urge every Texan, to contribute generously to the March of Dimes."

Parrots have no wishbones.  
Fly's wings vibrate 330 times a second.

## TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

### THE ADMINISTRATIVE vs. THE LEGISLATIVE

Two branches of the Federal Government are eyeing each other like strange dogs. Although on the surface everything is very friendly and cordial, both branches are sleeping with one eye open so to speak, the big question being: will the Administration be first to announce its program for the coming two years, or will the Congress act first and announce a program of its own? It must be remembered that the three branches of this Government—The Administrative, the Legislative and the Judicial—constitute the tripod upon which this Government must rest. The branches are separate, distinct and independent of each other. To subject one branch to the control of another would be like breaking one leg of a three-legged stool. Therefore, it is much healthier for the Government that the Legislative and the Administrative Branches keep a watchful eye on each other and provide the safeguard intended

by the Constitution. Otherwise, these two branches could become so interwoven that the very strength and purpose of the three branches of Government, so indispensable in maintaining a democratic form of government, could be lost.

Actually it makes little difference who first advocates or pronounces a program for the next two years. Unless there is a definite change from the happenings of the past, which is not expected, the 85th Congress will have plenty of issues, plenty of proposals and plenty of needed legislation to work on. Whether it is proposed by the President as a part of his program or by the opposition party in the Congress should be of little consequence. The deciding factor should be whether or not the legislation is needed by the country as a whole. It should not be determined on a strictly party political basis either by the President or by the Congress. It should not be decided simply because it might appeal to some minority group. It should not be decided because it might furnish a needed vehicle to control a large bloc of votes.

Many Members of Congress, both Democrats and Republicans, are wondering today what the President will ask for on certain subjects, but seem to be especially anxious concerning the highly explosive Taft-Hartley Act. It will be remembered that there are those who have demanded the outright repeal of this Act. There are others who staunchly support the Act in its present form. The third group, and the one led by the present Administration, advocates amending the Act. The mystery lies in the fact that the Administration has not yet said what amendments it has in mind, and in what manner it wishes to change the Act. Several Members of the Congress have indicated to me that the Administration's recommendations on the subject will be in the nature of advocating an expansion of the federal laws to include many additional people under the maximum hour work-week and the minimum pay requirements. If this is done, it will be an amendment to the Fair Labor Standards Act rather than an amendment to the Taft-Hart-

ley Act. Such action would also require the Federal Government to extend its power and control directly and indirectly into transactions that are now wholly within the jurisdiction of the several states.

Another item causing concern has to do with another natural gas bill. The talk here is that the President doesn't want to recommend a gas bill, but will not veto it again if it passes the Congress; that the Members of Congress do not want to initiate a new gas bill unless the President requests it, the reason being that the entire gas situation was misrepresented. The people in the big cities were led to believe that the owners of the gas in Texas and elsewhere would get large, fat profits at the expense of the poor consumers. Although this was not the case at all, the argument was used in many political campaigns in the East and Middle West. The truth is that the consumer is paying a high price for gas, but it is not going to the producer. The producer gets approximately 8 cents per unit from the pipeline. The pipeline carries the gas to the large cities and sells it to the utility companies for approximately 35 cents per unit. The utility companies then sell it to the consumer for various prices ranging up to \$2.89 per unit. It is unfortunate that the whole truth is not told in legislation of this kind. The misrepresentation results in the natural resources in one section of our country being removed, under federal rules and regulations, to other sections of the country at a disproportionate low price to the owners of the natural resources. Yet the same natural resources are sold to the consumers at a disproportionate high price. The one who has to pay the disproportionate high price blames his plight on the one who receives the disproportionate low price. Let us hope that we get this dilemma cleared up during this session.

# Midnight and Side State CAPITOL

By VERN SANFORD

Texas Press Association

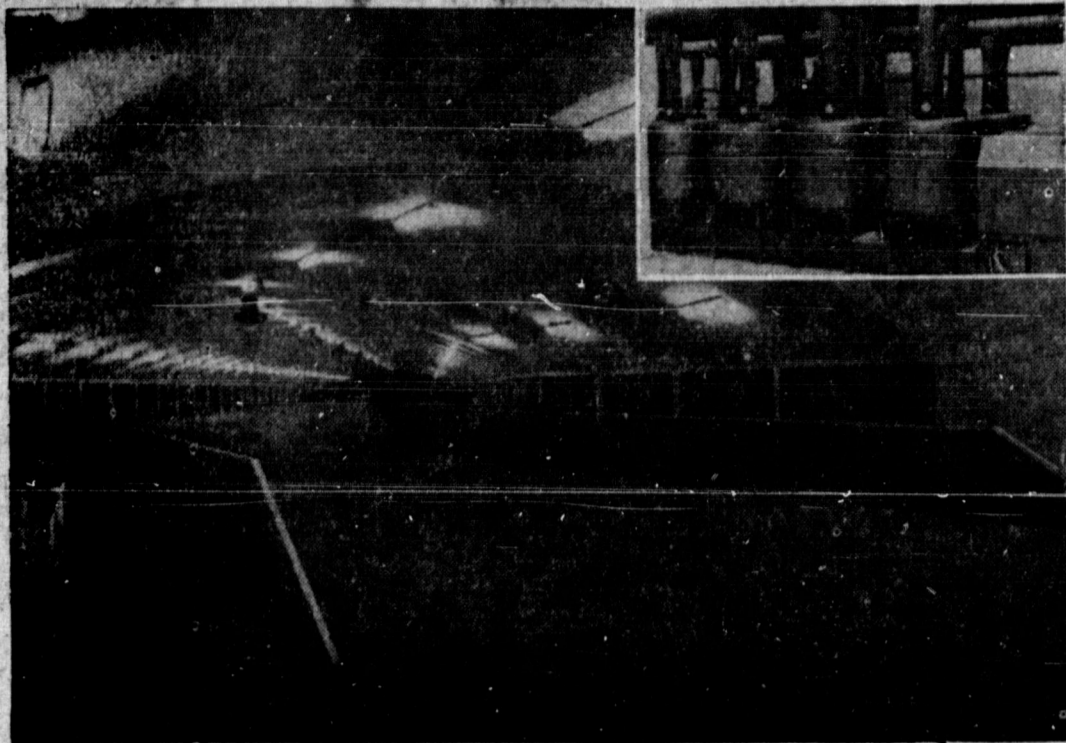

AUSTIN—Conflict, complications and suspense made 1956 one of Texas' newsmost years. Many of the biggest stories didn't run out with the calendar. They're marked "to be continued in 1957."

These were some of the headline-makers:

**POLITICS**, wore everyone to a frazzle. Gov. Allan Shivers took his first political tumble when Sen. Lyndon Johnson won con-

trol of the May Democratic convention. Price Daniel won over Ralph Yarborough for the Democratic gubernatorial nomination in a narrowest-ever margin of a little more than 3,000 votes. Daniel gained shaky party control by getting a mostly-friendly executive committee at the September Democratic convention. But he held on to the Senate seat too long. Governor Shivers wouldn't buy the election-now, resign-later plan. And Shivers came to the end of his historic seven-year tenure as leader of the again-triumphant Democrats for Eisenhower.

**DROUGHT**, in its seventh year, grew steadily worse. Crops burned up. Streams stopped flowing. Reservoirs dwindled. State Water Board had its hands full trying to referee squabbles over water rights. Agricultural groups banded together in the Texas Drought Emergency Committee finally gained expanded federal relief. All but five of Texas' 254 counties were designated disaster areas. Texas Water Resources Committee, a legislative study group, put in a lot of overtime readying a statewide water program for the next legislature. Suggestions: a

UNDERGROUND PARKING garage in Stockholm, Sweden, showing two levels in this vast dual-purpose civil defense shelter which can accommodate 10,000 persons. The garage, a key unit in the largest underground shelter program in the world today, is equipped with triple electric doors at the entrance ramp to wall out blast pressures, electric generators, and a special air filter system, (inset) to eliminate poison gas, germs and radioactive dust. (Swedish Civil Defense Photo)

When people know that we admire

And laud the traits that they acquire, A fills a place within the heart

That never, never will depart;

That's something we should ever do

For any one no matter who

A few kind words for folks each day,

Will really help them on their way.

MURPHY FUNERAL HOME

For Good Insurance

KELLY CHAMBERLAIN

All Types—All Kinds PROMPT ADJUSTMENTS

Clarendon, Texas Phone 79

\$100,000,000 bond program to help finance local projects, fishing and boat taxes to buy water storage space in federal reservoirs, "rain-making" research at Texas colleges.

FEDERAL LEGISLATION had Texas repercussions. Eisenhower supporters groaned when he vetoed the natural gas bill. But the federal highway building bill passed. It means \$57,000,000 a year more for Texas road building. Texas Highway Department started using it at once, predicted an era of unparalleled progress. To move things faster, it reversed its long-time policy, is now buying right-of-way for interstate roads. This brought a new headache—a hue and cry from county officials for help in buying land for state highways.

INTEGRATION VS. SEGREGATION made news on many fronts. Voters overwhelmingly approved three pro-segregation interposition referendums in the

July primary. But no one was sure what would come of them.

At Mansfield and Texarkana citizens blocked efforts at federal court-ordered school integration, and Governor Shivers sent Texas Rangers to maintain order. Atty. Gen. John Ben Shepperd took on the NAACP in a Tyler district

court and won a temporary order banning the organization in Texas.

INVESTIGATION by legislative committees into US Trust and Guaranty Co.'s \$7,000,000 downfall brought demands for new lobby laws, controls on legislators' dealings with state agen-

## The Donley County Abstract Company

Since 1907

C. E. Killough, Owner Phone 44 Jane Bownds, Mgr.

cies. US Trust's many creditors are still unpaid. It's all tied up in their numerous lawsuits for priorities.

INSURANCE INDUSTRY underwent a statewide solvency check. Seven per cent, out of more than 1,300, failed to qualify for new licenses.

POLIO VACCINE restrictions were completely removed in late summer. But with plenty for everyone, an indifferent public let vaccine supplies stack up. Some 80 per cent went unvaccinated. Unless interest increases, Texas will have to return nearly half of the state's \$3,000,000 federal vaccine allocation when the fiscal year runs out next June.

CROP VALUE DOWN—Value of Texas' 1956 crops is estimated at \$1,100,000,000—nine per cent below last year and the 10-year average.

U. S. Dept. of Agriculture said reduced production is due to drought, acreage restrictions and the soil bank plan.

Increased irrigation accounted for some bright spots. Per-acre yield of cotton was the highest on record—278 pounds. But dryland farming reached new lows. Corn crop of 27.4 million bushels was the shortest since 1873. Sorghum with half the total acreage irrigated produced 124 million bushels, fourth largest crop in history.

Other report: rice, smallest crop since 1949; wheat, double last year's crop, but half the 10-year average; peanuts, smallest crop since 1934; oats, 19 per cent under last year; barley, about average; hay and forage, about two-thirds of average; commercial vegetables, up 16 per cent from last year.

over hill, over dale—and the trail is never dusty

Best thing about portable irrigation is that you get water where and when you want it. Hilly terrain is no problem. Sandy soil that soaks water out of ordinary irrigation ditches is no problem.

Portable irrigation is as precise as watering each plant by hand.

What does this freedom from dry spells and troublesome weeding cost? A lot less than you think. We know farmers, right in this county, who have paid for their systems in two years—three years. They did it with better crops. By getting to market first. By being independent of drought.

Call us or stop in today and let us show you how to engineer a portable irrigation system to your farm. We carry complete systems, parts and the very finest Allis-Chalmers Pumps.

# Whistle Bait with a Wondrous Gait

(Just try today's Instant Dynaflo!)

NO MATTER what make of car you're "going with" right now—here's one that will spark a new love light in your eyes.

This Buick's a fresh new beauty in looks, in lines, in sweeping contours. And a beauty in other ways as well.

Even for a Buick, this one's a joy and a treasure in the road-wise way it handles. In the way it levels with you on the turns. In the way it holds up its head whenever you give it the brakes.

But your longest whistle of sheer delight comes when you head this honey out of town and put it through its paces on the expressways and byways.

That's when you discover the exhilaration of power-pitch performance. When you fully appreciate the immediate response of the latest, greatest version of Variable Pitch Dynaflo—Instant Dynaflo.

Yet this performance is more than a matter of transmission advances.

There's a whopping new 364-cubic-inch V8 engine to give it life. An engine completely brand new, all new. With 300 horsepower, 400 foot-pounds of torque, and a mileage-stretching 10 to 1 compression.

There's even more to keep you smiling—150 other brand-new features.

Including fresh decorative touches, new colors and interior trim combinations—and, of course, the extra safety and security of Buick brawn and ruggedness and solidity of construction.

So come in and go stepping with a new 1957 Buick. Today.

\*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

**SAFETY REMINDER**  
In freezing weather, remember that anything on the road that looks like water can be ice. Drive as if it were. PASS IT ALONG

**SAFETY NEWS**  
Only Buick has the SAFETY-MINDER — a simple device that's a great boon to your safety. You merely preset the miles-per-hour you want. When you reach that pace, a warning buzzer sounds. Drop below that pace and the buzzer stops.

Buick CENTURY 2-Door Riviera

## Big Thrill's Buick

SPECIAL • CENTURY • SUPER • ROADMASTER

SMOOTH and INSTANT! Only car in the world with Variable Pitch Dynaflo!

— WHEN BETTER AUTOMOBILES ARE BUILT BUICK WILL BUILD THEM —

Standard on ROADMASTER, optional at extra cost on other Series.

**FROM WARM SPRINGS**  
**FACT & FANCY**

by W. H. Richter

(Wherein the director of public relations at the Gonzales Warm Springs Foundation tells of Texas' own physical rehab center and also throws in a little tongue-in-cheek palaver for which, incidentally, the management is not responsible.)

Well, it's time for New Year's resolutions again, and you may or may not be interested in knowing that I have given the matter some serious consideration. I have evolved an entirely new approach to the whole thing.

You see, I got to thinking that there are a lot of negative aspects to New Year's resolutions. For example, you'll have to admit that many resolutions are motivated by physical discomfort—or, if you want it straight, hangovers.

The lower a man's state of

body, the higher his resolve to improve. But a seltzer or two can make the headache go away and this type of resolution dissolves just about as fast as the seltzer.

Another negative point is our insincerity in making most resolutions. We know we're stinkers and, down deep, we wish we had what it takes to deodorize, so it's easy to go along with the crowd at the turn of a year and make resolutions.

But we know mighty well that pretty soon it will again be so much easier to be dissolute than resolute.

Well, I've decided that my resolutions for 1957 are going to be a thing of joy throughout the year. As I make them, I am feeling reasonably strong of limb, clear of eye, and free of remorse. I am saturated with self-assurance.

You see, I am making only resolutions which I am quite positive I can keep. For instance:

1. I resolve not to speculate foolishly in the stock market.

2. I will not (in 1957) try to get Darrell Royal fired if he doesn't produce a winning football team at the University of Texas.

**What Is Fallout?**

**FACTORS AFFECTING FALLOUT** distribution over countryside downwind from a nuclear blast are the size of the earth particles carrying the radioactivity, their altitude and the speed and direction of the wind. Generally, in the United States, the winds which would dominate the direction of fallout would be the strong, usually west-to-east winds at about 40,000 feet. For this reason, the Federal Civil Defense Administration warns that only weather experts, with their methods of tracking high-altitude winds, can predict with reasonable accuracy the area to be affected by fallout. Men with radiation monitoring instruments are also required to determine whether an area is "safe" from radio active fallout after a nuclear attack. (FCDA Photos)

3. I resolve not to squander a single penny on cigarettes (being a confirmed cigar smoker).  
4. I will not beat my wife nor strike anyone else smarter or stronger than I.  
5. I resolve not to boo the players or referees at any ice hockey games.

I have many others, but these will give you the general idea.

Since January is March of

Dimes month, I feel that it is in order again to clarify the relationship of the Gonzales Warm Springs Foundation with the National Foundation for Infantile Paralysis.

The NFIP sponsors most of the polio cases treated at Warm Springs, and this sponsorship provides about half of the revenues required. Monies received through GWSF's own fund-raising efforts therefore can be used

to bring needed treatment to victims of many other types of crippling diseases and conditions.

This is a cooperative effort, and all of us here at the Foundation urge you to support the March of Dimes to the limit. The battle is far from won.

**Use of Cotton Burs On The Soil**

John C. White, Commissioner Texas Department of Agriculture

New research by the cotton industry indicates farmers should think twice before allowing that by-product of the harvest—cotton burs—go to waste.

Some areas of Texas cannot return burs to the soil without special treatment to kill pink bollworms. But once protective procedures are observed, the burs can be a real boon in stretching benefits of rain and maintaining fertilization.

Preliminary studies show that on bur-treated soil, wind erosion is lessened because of the better condition of the soil. It is also known that burs mellow the soil and make it spongy and easier to work. Water penetration from rainfall is greater and evaporation is minimized.

Crop yields and their relationship to burs is being studied. On one test farm, five tons of composted burs increased the yield of cotton lint by 65 pounds per acre; 10 tons of composted burs increased the yield of lint per

acre by 275 pounds. Cost of bur usage varies, but the general figure is about \$2.50 per ton. The burs themselves usually are free, with the farmer paying only for the spreading. When this spreading is done by the individual, the cost figure is less.

Effects of burs on the land remain for an extended period. Definite increased yields from one application of burs has been noted for a three or four-year period.

Increased yields made by farmers using burs in an area usually spurs others to action. The increased water holding capacity is most attractive to irrigation farmers who are confronted with annual underground water level declines.

For information on laws regarding the use of cotton burs, write to John White, Commissioner of Agriculture, Austin, Texas.

John Randolph, the Virginia statesman, was a descendant of Pocahontas.

Badminton originally was called Poona, probably after the Indian city.

**The Case For The Small Farmer**

John C. White, Commissioner  
Texas Department of Agriculture

An alarming note has been

struck in the hearts of farmers to whom living directly from the land they own has become a way of life. The word comes from the fogged thinking of armchair economists who say "The day of the small farmer is over".

Such a statement is a direct slap to the principles of Democracy. If the day of the small farmer is over, so is the day of competitive free enterprise, the basis of our economy. If the small farmer is being sucked under by forces of "the times", then times are bad.

These armchair strategists have said that big, corporate farms are the modern, efficient way to keep agricultural economy running right. They say that whether we like it or not, that's what farming should come to.

Such thinking is preposterous, and for a number of reasons.

In the first place, most people who own and operate farms and ranches are there because, however tough and confining the work, that's what they would rather do than anything in the world. They're not there primarily to get rich, although their investment certainly warrants them a decent living. They're there to live and raise their families next to the soil.

They are proud, too, these small farmers. Proud of their independence and proud of the land they hold. That's why the price of land is dear even in the face of farm depression and drought as it exists today. Their land is more than a piece of property and a title; it is a symbol of their freedom to live and work as they choose.

Should this freedom ever be infringed on through monopolistic greed, the food and fibre resources of this nation would be in grave danger. More than that, the millions of small businessmen who owe their survival directly to circulating farm economy would be dashed to ruin.

And when it gets right down to doing the chores and planting and harvesting the crops, there must be a farmer on the spot to do it. Would these high-minded revolutionists reinstate tenant farming to solve a labor problem on large, corporation controlled farms?

The independent farmer who grew up from the nightmare of tenancy through his own honest effort and the processes of a democratic government does not desire to release what he has gained. Nor does he want to become a "hired hand" in a "large farm" system.

Whatever the times are, the small farmer has a vital place in them. So long as America is free, it will be that way.

might well prepare their applications now to allow ample time for processing as to habitat requirements and other qualifications. He estimated that ten per cent of the sixteen thousand young quail distributed this year went to sportsmen's groups.

The Assistant Executive Secretary said field reports indicate a good survival rate and urged hunters to help complete the studies by sending in bands which were placed around a leg on each of the released quail.

The quail farm was created by the Commission as a key part of its quail habitat restoration program. The Commission acted on information that the drought had so badly depleted food and cover facilities that the available native population would require implementation from artificial sources.
