Senior Play, "Gabriel Blow Your Horn" To Be Presented April 25-26

The Senior Class of 1957 is sure, after weeks of preparation that the patrons of the Clarendon Schools have a very great dramatic treat in store for them on the nights of April 25 and 26.

Miss Gladys Burnham, co-sponsor of the Senior Class is doing a masterful job of coaching the Comedy, in three acts, "Gabriel, Blow Your Horn."

Every person in Clarendon should see Gabriel on the stage, played by Roland Hill. Gabriel is perfectly satisfied that he is the wisest man alive.

Miss Thelma, a rich, cultured and socially prominent old maid who is possessive in regard to her favorite niece, will be the character portrayed by Joyce Eddings.

Chuck Cosper as Herbert and Owen Johnson as Harold both in love with Janet, the pretty niece of Miss Thelma find themselves in the same cabin at the same time with Janet.

It takes a nasty fall and a bashed head to reconcile Herbert Brown Sr., at the age of 45, played by Robert Mills, to repent and forgive Miss Thelma of the same age, and who has been bitter for more than 20 years, and work speedily and cunningly toward living happily ever after.

The play itself, is one of human interest, the every day lives of both young and old, check full to the brim of the cleanest comedy that could be written into it.

Mrs. Lena Antrobus Celebrates Birthday

Friends of Mrs. Lena Antrobus—the third generation of friends—called at her home Sunday afternoon, April 14, to honor the venerable First Lady of Clarendon who was, in her words, "One day past ninety years old."

Assisting with the hospitalities were the daughters and sons of Mrs. Antrobus, Mrs. O. C. Watson, Mrs. Tren Stargel, Mrs. Edith Meyer, Ed Antrobus and Barcus Antrobus. Another daughter, Mrs. C. E. Madegen was unable to attend.

The guests were received by Mrs. Meyer, registered by Mrs. Watson and Miss Sarah Ann Antrobus. Mrs. Stargel served the punch.

The serving table was laid with a white lace cloth and centered with an arrangement of pale pink carnations, flanked by white tapers in silver candelabra. The silver punch service completed the table appointments.

The entertaining rooms were decorated with arrangements of pink and white gladiolus, pink roses, blue and yellow tulips and yellow mums.

Out of town guests and members of the house party were Mr. and Mrs. Tren Stargel, Mr. and Mrs. Leroy Bolling from Oklahoma City; Mr. and Mrs. Cecil Stargel from Memphis; Mr. and Mrs. Roy Stargel, Mike and Nancy from Amarillo; Mrs. Edith Meyer from Fort Worth; Edd Antrobus from El Paso; Mr. and Mrs. O. C. Watson, Mr. and Mrs. Barcus Antrobus and Sarah Ann all of Clarendon. Ninety guests called during the afternoon.

Mrs. Antrobus composes poetry for every occasion. She wrote these lines in the guest book:

I have always told my children That when I was ninety years old, I would write the story of my life But it has already been told.

I have tried to be helpful and loving And will until my life ends, So I hope that my story is written In the hearts of my children and friends.

There will be a series of Gospel Meetings beginning at the local Church of Christ April 22nd thru April 28th. Nothing but the simple Gospel of Christ will be preached, stated Clarence Tilley, local minister. Everyone is invited to attend.

"Bring your pencils and paper, take the references and then check to see that the things being taught are true, and then render obedience to the truth. If you have Bible questions, we shall be glad to answer them, with a thus saith the Lord; come let us reason together," Tilley added.

Baten And Johnson Take Regional Tennis Crown

The Clarendon High School tennis doubles team, composed of Eddie Joe Baten and Owen Johnson, both seniors, swept through four matches at Lubbock last week-end to take the regional championship and earn the right to represent this region at the State Meet in Austin on May 2, 3, 4th.

The local boys breezed through all four of their matches without losing a single set. They defeated Max Reno and Maynard Britton of Groom, 6-1, 6-1, in their first match. In the quarter-finals they defeated Bucky Hand and Wesley Barrett of Friona, 6-3, 6-1. The semi-finals pitted them against Quitaque in which they defeated Bill Mayfield and Teddy Redwell, 6-4, 6-2. The finals were against Bill Tabor and Carroll Carter of Rule. The local boys lost little time in winning the crown by beating Rule 6-3, 6-0, 6-2.

Betsy Chamberlain will be the other local delegate to attend.

The Clarendon Chapter has been asked to serve as hostess in the Friday afternoon general session. In addition to attending the three general meetings, the girls hope to attend the Cinema, "Seven Wonders of the World."

Services Held Monday For Gun Victim

Funeral services were held Monday afternoon at the Church of Christ for Glenn Dale Morris with Clarence Tilley, minister of the local church, officiating.

Morris, 18, was fatally wounded at 2:30 p. m. Saturday afternoon on the Griffith ranch 15 miles north of town when a 30-30 calibre rifle accidentally discharged. He died in the Adair Hospital at 3:55 after being rushed to town in a Murphy ambulance.

According to County Agent H. M. Breedlove the Chamberlain Community has entered the Rural Neighborhood Progress Contest sponsored by the Farmers Stockman Magazine and the Extension Service. The entry was made last year and now with one year's work behind them the community is ready to be judged.

They have bought them a community center building and carried on improvement work in the community. The president of the community organization is Mrs. John Heathington.

The community will be judged on April 23rd at 10:00 A. M. Dinner will be served the judges at the community center by the people of the community. The judges will be Cotton John Smith, Mr. Knox Parr, Mrs. Edith Wilson and one other judge whose name is not available.

There are five prizes for district one composed of twenty two counties. First prize is one hundred dollars, second is seventy five dollars and three prizes of fifty dollars each.

The people of the Chamberlain community have planned a tour for the judges showing them improvements in the community and of course the community center building. They sent in an annual report which was a compiled report made by families in the community showing progress that each family had made during the year.

The hopes of the community are high that they will place good in the area one contest. The purpose of the contest is to encourage community improvement and to bring a closer relation between the people of the community. County Agent Breedlove has been working with the committees in preparing reports and helping to get ready for the judging.

Any community in Texas is eligible to enter the contest each year; all it takes is a lot of work and getting every one in the community interested in the program.

Jimmy Phillely Qualifies For State Track Meet

Jimmy Phillely, a member of the Clarendon High School track team, qualified for the state track meet last Saturday at the regional meet at Lubbock. Phillely participated in the pole vault and placed second in the meet with a leap of eleven feet. He actually cleared the eleven foot, six inch mark but knocked the cross-bar off with his elbow on his way down which disqualified him for the higher mark.

Coch Tom Jinks thinks that with a little more work Phillely can clear at least eleven and a half feet by the time the state track meet comes around on May 2, 3, 4th.

Four Teams In Caprock League

Wayland Newman, manager of the Clarendon Dusters, reported yesterday that the Caprock League had been organized again this year with the following four members, Amarillo, Panhandle, Groom and Clarendon. A schedule of games is expected to be completed this coming week.

The Dusters will have a practice game with Hedley in Duster Park Sunday, April 28th which will open the playing season here.

Newman stated that he had around 20 players out to date and that he had six pitchers in the roster which would help the Duster cause considerably.

Newman pointed out also that several parking spaces at the Park were still available and if you should want one of these to contact him within the near future.

Leader Crew Attends Press Meet

Among the leader crew attending the 48th annual Panhandle Press Association Convention in Amarillo last Friday and Saturday were Mr. and Mrs. G. W. Estlack, Herald and Cliff Stogner and Jimmy Bain. The Press was blamed for the Ice Storm but we know this is not true, for a number of Publishers were unable to attend due to the storm and besides, if it had been a heat wave we could have been more easily blamed.

Harold Hudson of Perryton was elected president of the Association; S. B. Whittenburg of Amarillo was elected vice-president and G. W. Estlack was re-elected secretary-treasurer, and will continue to publish the Association's quarterly magazine the "Panhandle Publisher" here in the Leader Printing Department.

Stock for the Rodeo has already been arranged with Morris Stephens of Silverton and this is said to be among the best anywhere.

The Association is asking for whole-hearted cooperation from local businessmen and individuals in planning and putting on the celebration. The next meeting of the group will be May 6th at the College building. Everyone interested is urged to be present.

Sidney Marshall, playing in the No. 3 slot, lost his match to David Wyatt, 6-8, 6-4, 7-5.

In the doubles matches, Duncan and White polished off Roth and Pulliam, 6-2, 6-4, and Lane and Marshall lost to Partido and Wyatt, 6-2, 4-6, 6-4.

Practically all fruit in the area was eliminated by the freeze and we understand that heavy damage to the wheat was reported in the area. We have our Spring weather back again for a few days but we don't know for how long.

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

Our memorials we ordered several days ago from the Abingdon Press came this week. We announced them and in whose memory they were purchased, but I'll give the titles again: "A Journey Into Faith" by Thomas S. Kepler, "Learning To Have Faith" by John Redhead, "The Prayer of Jesus" by Cushman, "Love Speaks from the Cross," by Leslie Bodham.

Our California friend sent us six books this week. They are "The Screen of Calvary", "Passport for Renegade", "The Moon Gate", "The Fourth Postman," and "Moonmilk & Murder." You adults will find them enjoyable mysteries. Then she also sent a copy of "Letters of William Allen White" by Gil Wilson. These letters are written to Wilson, and are considered quite worth one's reading time. We are very grateful for the shipment of books.

Two other memorials that are not only artistic but contain numerous illustrations that will enhance their value to the user; these are "The Art of Plant and Driftwood Arrangements" and "Holiday Flower Arrangements." They are both in memory of Mrs. Sella Gentry. The suggestions are unusual and beautiful. Securing drift wood will be our problem, but probably some of our vacationists will be near a stream this summer, and will plan their garden club arrangement, and will bring home some drift wood.

Our Library has some excellent reading material for you.

A \$50 gift to Red Cross will train 28 nurse's aides to assist professional nurses in hospitals and in the care of ill and injured disaster victims.

THANKS

I wish to thank my friends for the thoughtful cards and letters and beautiful flowers sent to me during my recent illness. May God bless you.

PRESCRIPTION PRICES
How are prescription prices determined? We have a policy in this matter, the only one we can follow. We do not offer bargains in prescriptions - there is no cut-rate way to health. Nor do we pretend to under-sell. Prescription prices simply are determined by the cost of the ingredients and operating expense. The prices we charge are as low as satisfactory service and effective drugs will allow.

Rep. Will Ehrle Answers Judge Gribble

The following letter was received this past week end from Rep. Will Ehrle which states his answer to the letter published last week from Judge Luther Gribble and also gives his stand on the entire matter:

Honorable Luther Gribble
District Judge
100th Judicial District
Wellington, Texas

Dear Judge Gribble:

Thank you so very much for your letter of April 6, 1957. I sincerely appreciate your letting me know how you feel about this particular matter, and may I assure you that this particular bill, by your request, has this date been for all practical purposes killed.

The bill passed the House with no opposition whatsoever, because we felt that we were doing the district judges of our area a favor through passage of this measure; but since you so violent-

ly oppose it, we took all necessary precautions this morning to make sure that the bill will be killed in the Senate.

I was approached approximately six weeks ago by Representative Ballman from Borger, who said that he was going to introduce a bill to permit the counties to contribute in a small way to a salary increase for the district judges. He informed me that the 31st, 69th, and 84th Judicial Districts had already been included in the bill, and he asked if I, along with Grainger McIlhany, would like to include the 190th Judicial District.

Since the bill was permissive only and subject to the complete discretion of the Commissioners Courts in the counties and was not mandatory in any way or in any manner, I asked that our district be included out of my respect for you and in deference to the outstanding job that you have done in our district for so many years. I hated for this bill to include judicial districts adjoining yours and not include your district. I must apologize for doing

this without your permission, but I did not realize that you would be so violently opposed to the counties' participating in the regulation of the amount of your salary. Thus the bill is now dead and will never pass the Senate.

I must disagree with you concerning your interpretation of the Constitution. According to your letter, you said that the Constitution provides that salaries of the district judges shall be paid by the State. I believe you also said and I quote, "If I become dissatisfied with what the State of Texas pays, I still have the right to resign." I believe that upon a closer inspection of the Constitution you will find in Article 5, Section 7, the following provision:

" - - - who shall reside in his district during his term of office, who shall hold his office for the period of four years, and shall receive for his services an annual salary to be fixed by the Legislature."

There is certainly no Constitutional requirement that the State pay your salary out of the State Treasury; the requirement is only that the amount to be paid shall be fixed by the Legislature. Consequently, there was no Constitutional question involved in House Bill 697.

I sincerely do appreciate your interest, however, and I am glad that you let us know in time to kill this particular measure. Please let me hear further from you as regards any legislation in which you might be interested.

In closing may I say that I think it behooves us all to remember that regardless of who pays the bill, the State of Texas or the Commissioners Court, it all comes out of the taxpayers' pockets and is probably of more value to the individual taxpayer if it is kept closer to home and

in the hands of the Commissioners Court, for whom I have the greatest respect in the world.

Since the proposal for raising your salary in this manner (by letting the local counties have a voice in a permissive measure) was not satisfactory, then I shall also oppose House Bill 198 which is a mandatory salary increase for district judges.

Very sincerely yours,
Will Ehrle

General Telephone Signs Labor Contract

General Telephone Company of the Southwest and the Communications Workers of America, Local 6180, have signed a 12-month contract after 31 days of negotiating, according to F. W. Hamper, Industrial Relations Director for the Company.

Highlights of the new contract include increased wages and benefits which amount to nearly one-half million dollars and a provision which will allow the company to schedule plant craft employees on other than a five consecutive work week.

Wage increases up to 12c an hour were granted depending upon the group and classification of the employee.

Some employees of the former Texas and Oklahoma Telephone Companies will receive additional wage increases in order to place them on the General Telephone Company wage schedules.

The new work schedule feature will give the company an opportunity to provide a more effective and efficient method of scheduling work forces.

Other provisions under the new contract will make changes in termination allowances, military leave, town reclassification, and double time on certain Sunday work schedules. A new agreement was also reached on a plan for employee disability benefits.

After the official signing of the contract on April 9, the Company and the Union spokesmen both stated that a fair and reasonable settlement had been reached.

LEADER CLASSIFIERS GET RESULTS

Harold Longan Jr. Receives Honor

Airman Harold K. Longan Jr., former Clarendon youth, has been nominated for the American Spirit-Honor medal, according to M/Sgt. Jack Box and T/Sgt. Auman Jobe, local air force recruiters.

The medal is bestowed upon the outstanding airman in each basic trainee class. Nominees are selected only after an intensive screening of hundreds of students has been accomplished. Such elements as leadership, initiative and conduct exemplifying to comrades true American spirit are judged before the candidates are named.

Prior to joining the air force, Airman Longan resided with his mother, Mrs. Mary Sue Longan, at 607 Seventeenth street, Greeley, Colo. He attended Colorado State College of Education and majored in industrial arts. Presently he is taking basic training at Lackland air force base, Texas.

FROM WARM SPRINGS FACT & FANCY

by W. H. Rector

(Wherein the director of public relations at the Gonzales Warm Springs Foundation tells of Texas' own physical rehab center and also throws in a little tongue-in-cheek palaver for which, incidentally, the management is not responsible.)

Well over a century ago, Reginald Heber referred to this as the time "when Spring unlocks the flowers to paint the laughing soil", and I must say he turned a right pretty phrase there.

As a matter of fact, I think it's a downright shame that this quotation has taken a back seat to Al Tennyson's observation about a young man's fancy in Spring lightly turning to thoughts of love. In my humble opinion that's the most over-worked quotation in the English language.

You know how it is. It bobs up a thousand times every Spring—as surefire as fresh leaves on a mesquite bush. I just don't think it's that good.

To get right down to it, I really don't mind the quotation itself so much. After all, Lord Alfred was a mean man with a meter and metaphor, and I certainly don't want to take anything away from him.

What chills me is that people won't let well enough alone. Why must they invariably, when the subject of Spring is mentioned, declaim proudly and cleverly. "In the Spring a young man's fancy lightly turns to what the girls have been thinking about all winter?"

Whatever the state of mind of young men and women in springtime, it is amazing what changes are wrought by marriage and a

few added years.

My own fancy turns toward thoughts of trot-ling and those incomparable smells of coffee cooking and bacon sizzling on an open camp fire. And in my noggin are occasional visions of golf-ball knocking.

My good wife's springtime fancy on the other hand, has to do with flower-bed spadings, grass soddings, hedge settings, and like that. So it comes to pass that each spring finds me spading, sodding, and setting.

But not, unfortunately, on the river bank.

If you came to visit the Gonzales Warm Springs Foundation these days, you'd want to visit the six-year-old Josefina Rodriguez, polio-stricken daughter of Trinidad Rodriguez, 2304 Santa Maria, Austin.

Josefina would see to it that you were soon acquainted with Brenda, for Brenda and Josefina are inseparable. Brenda is Josefina's doll.

Frequently in the ward you will find Josefina giving Brenda her physical therapy treatments, just like she, herself, receive each day.

Brenda, Josefina will tell you, is going to recover from her attack of polio, too.

New Yield Right of Way Traffic Sign Can Give Greater Freedom To Motorist

"The new Yield Right of Way traffic sign can give the motorist greater freedom and protection if he understands its use and abides by the rules," J. O. Musick, General Manager of the Texas Safety Association, said recently. Musick explained that TSA and the National Council are co-sponsoring a traffic safety campaign designed to increase recognition and observance of traffic signs and signals.

"The new 'Yield' sign requires a driver to slow down, then proceed if the way is clear. A Stop sign would require a complete stop," Musick said. "The Yield sign gives the traffic department an additional traffic control, instead of using Stop signs at intersections where a full stop may not be necessary."

"But drivers should remember that they must yield the right-of-way to approaching traffic on the cross streets in the case of either the Stop or Yield sign."

"The law requires that drivers approaching a Yield Right of Way sign slow down and be prepared to stop if necessary. If the way is not clear he must come to a full stop! However, if he will not obstruct the right-of-way of other vehicles, he may proceed without stopping."

"This freedom is balanced by the penalty of placing the responsibility for safe movement upon the driver who faces the 'Yield' sign."

"If drivers make proper use of the new Yield sign, it will help move more traffic safely, particularly on side streets crossing streets which are more heavily traveled at certain times. However, if drivers do not use the new sign properly, it could actually increase the number of intersection right-of-way crashes."

Visiting Mrs. C. W. Martin Tuesday were Mrs. Harold Graham, Mrs. W. C. Raegan and Mrs. Tom Scoggins.

Mr. and Mrs. Doyle Martin and Mr. and Mrs. W. O. Puett, all of Amarillo visited in the C. W. Martin home Sunday.

Mr. and Mrs. Benny Edens and children of Midland are here visiting her parents, Mr. and Mrs. A. D. Estlack and other relatives.

Mr. and Mrs. Bill Adams and Donald, also Butch Schollenbarger visited in Vernon Sunday.

Mrs. Earl Easterling and Mrs. Jack Gray were Pampa visitors Monday.

thinking of making money with chickens?...

Fall egg prospects look good

Chick hatch down 21% (Feb. 15 U.S. Government report)... fewer pullets on farms... probably 5-5% fewer chicks will be raised this spring—all point to strong egg prices this fall.

The egg price pendulum is due to swing up again this fall. The substantial drop in chick hatchings, pullets on farms, and flock replacement intentions, should result in better egg prices. This offers real opportunity to the poultry raiser who is ready with sturdy, rugged pullets when prices start up.

HOW TO CUT PULLET-GROWING COSTS

And one way to make more money is to cut costs by cutting feed used in growing pullets. A recent study showed that pullets raised at the Purina Research Farms require 250 pounds less feed per 100 birds than the average in nine leading poultry states. That makes a saving of \$8.50 to \$12.50 on each 100 pullets raised!

You can start right now to make money with Purina's low-cost pullet growing plan. And, right here at the Store with the red-and-white Checkerboard Sign... we can help you start right... and stay right... with the Purina Pullet Program best suited to your particular conditions.

Poultry Health Hint—We recommend that you protect your chicks and young pullets against common disease germs with Purina Disinfectant and Purina Check-R-Tab. They provide a lot of valuable protection at very little cost.

FARM NEWS

from the County ASC Committee

1957 CONSERVATION RESERVE

Monday, April 15th was the final day to sign a 1957 Conservation Reserve Contract. All producers who have a contract and have not made application for the practice you intend to carry out should come into the Donley County ASC Office immediately and make your application. There is a variety of approved grasses in our handbook. If the grass that you have decided to plant is one that requires a dead litter of sorghum or millet, you should make your application now, even though the litter will be seeded in the later part of the year.

FARMERS CAUTIONED ON SOIL BANK VIOLATIONS

Farmers should fully understand that a civil penalty may be imposed upon any producer who knowingly and willfully violates certain provisions of the Soil Bank's Acreage Reserve program. The following was released from the State ASC Committee:

"Authority for imposing a civil penalty for certain violations of an Acreage Reserve agreement is conferred under Section 123 of the Soil Bank Act. The violation drawing the penalty is for knowingly and willfully grazing or harvesting any crop from any acreage in violation of a Soil Bank agreement or contract. The amount of civil penalty is 50 percent of the compensation which would have been payable for compliance with the agreement, and the penalty is in addition to amounts required to be forfeited under the provisions of the agreement."

The committee also explained that a civil penalty violation could take place from willfully grazing or harvesting any crop from acreage in excess of the "acreage permitted for harvest". The "acreage permitted for harvest" would be the allotment for the crop covered by the agreement less the acreage designated for the Soil Bank Acreage Reserve. An Acreage Reserve Agreement is a legal contract between the farmer who signed it and the U. S. Government. Compliance with his Acreage Reserve agreement will determine whether or not a farmer will receive his full payment. Each farmer who signed an agreement agreed to comply with all acreage allotments established for his farm. And he also agreed not to graze or harvest a crop from the land designated for the Acreage Reserve.

MONEY EARNED ON 1956 ACP PRACTICES

The final totals for ACP practices carried out in 1956 and the payments have been arrived at. The listing and chiseling practices under Wind Emergency Control consisted of 573 farms with assistance amounting to \$44,812.50. Under all other practices during 1956 there were 350 producers assisted for a total of \$49,814.30.

PLOWIN' Out the CORNERS
Mrs. Carlisle Goodger sends me a couple of short poems that have been favorites of her thinking for a long time. Age has yellowed them and she needs a new clipping for her scrap book. So we thank her for sharing them with all of us. The first goes:
Don't give up hoping when the ship goes down,
Grab an oar or something—just refuse to drown.
Don't think you are dying just because you are hit,
Smile in face of danger and hold on to your grit.
Folks die too soon—they sort of fade away;
Make a little error and give up in dismay.
Kind of man that's needed is the man of ready wit,
To laugh at pain and trouble and keep up his grit.

But what you now am is."
"When you feel stupid just remember that the mighty oak was once a little flut."
"The man who si all wrapped up in himself usually makes a mighty small package."
The other day we thought of a real old-time in the old saying line We remember that some of the oldsters used to quote it. It went something like this:
"Every man for himself and the devil take the hind most."
Speaking of Mrs. Goodger she also liked our old favorite short poem:
"There is so much good in the worst of us,
And so much bad in the best of us,
That it ill behooves any of us,
To talk about the rest of us."
As we remember our school days one of our speakers at the school quoted the above in his talk and it has sort of changed like a bell in our mind all these years.
It was Elbert Hubbard who said:
If I can supply you with a thought you may remember it, and again you may not.
But if I can make you think a thought for yourself, then I have indeed added something to your stature.
"If a man doesn't know to which port he is steering, then no wind is a favorable wind to him."

Farmers are planning their crops for this coming season. It is hoped that serious consideration will be given to soil building crops, such as guar, (which can also be a feed and cash crop) as a part of this years farming operation. More information on soil building crops will be written soon. In the meantime contact some of your neighbors who have had experience with soil building crops or see one of the Soil Conservation Service technicians assisting the Donley Soil Conservation District.

THOUGHT AND MEDITATION
We all have friends at times you know
Sometimes they're friends who come and go,
There're those we find among the host
Who're gone when we need friends the most.
A great big part we hate to tell
Are friends just while we're doing well,
But friends we love to think about
Are friends although we're down and out.

Highlights and Sidelights FROM Your State CAPITOL

By VERN SANFORD
Texas Press Association

AUSTIN—Travis County grand jurors are going to be busy. Legislative investigating committees have dumped into their laps bales of testimony about the two biggest news developments of the

year. House ICT panel asked the jury to consider evidence suggesting that (1) Insurance Department employees received payments from ICT and (2) company officials may have violated state law prohibiting political campaign con-

tributions by corporations. Committee called acceptance of ICT money by former Insurance Commissioner J. Byron Saunders and Max Wayne Rychlik, son-in-law of former Chairman Garland Smith, evidence of "a gross breach of public trust." It also recommended the jury look into whether funds made available by ICT to the Texas Federation of Labor were used for political purposes. It pinpointed a legislative campaign contribution as having been charged to the corporation. All in all, committee report showed some \$50,000 in ICT funds went to persons who were in public office when they received the money. It said "property of some of these payments was highly questionable." Also sent to the grand jury

was a "new major development" by the House bribery investigating group. Nature of the development was a closely guarded secret. Only information disclosed was that "new evidence" had been obtained from a witness who had been under Department of Public Safety questioning. Witness was not a state official or employee, said the district attorney. **NEW LAWS, STUDIES** Besides providing grand jury evidence, House ICT Committee had three other recommendations. They were: (1) that a law be passed giving the Insurance Commission authority to regulate management contracts, such as one BenJack Cage had with ICT, (2) that the Texas Research League be requested to study Commission operation and (3) that further investigation be made into the tangled history of ICT's financial "deals."

NEW SENATOR Ralph Yarborough will take office as junior U. S. Senator from Texas on or sometime after April 19th. Yarborough was defeated in four previous races — three for governor, one for attorney general. His victory meant that for the first time in years a spokesman for the labor-liberal wing of the Democratic party will go into a major Texas office. **INSURANCE BILLS** A bill to allow "flexible rates" for casualty insurance is given little chance of passage. Senate Insurance Committee refused to vote out the measure which would abolish Texas' system of statewide uniform rates. The proposed bill would set a rate based on each individual's accident record. A House committee weighed the possibility of Insurance Commission reorganization from the viewpoint of present Chairman John Osorio. Governor Daniel had appeared earlier urging passage of the bill. Osorio said board reorganization already is under way. He said he felt it could be for more examiners. He recommended a 150-man staff, rather than the present 39, and higher pay.

Republican hopes for a two-party Texas plummeted. In the high-man wins race Yarborough got approximately 37 percent of the votes; Conservative Democrat Martin Dies, 30 per cent; Republican Thad Hutcheson, 23.8 per cent. **MONEY BILL PASSED** Legislative blueprint for state spending during the next two years has reached the conference committee stage. An economy-minded Senate passed the general appropriations bill at a figure some \$2,000,000 less than the House-approved version. Sponsors managed to scotch all efforts to tack on amendments for additional spending. Among items sought were raises for county agents and home demonstration agents and increases in judges' salaries. Total of the Senate appropriation bill is \$2,084,349,515. Both House and Senate recommendations are some twenty-five to twenty-seven million dollars less than the comptroller's estimate of income.

SECURITIES DEPARTMENT Creation of a new state agency to regulate both insurance securities and other types has Senate committee approval. Presently, insurance securities are handled by the Insurance Commission, general securities by the secretary of state's office. Sen. Jimmy Phillips introduced a bill putting insurance securities under the secretary of state. That's just in case the consolidation bill doesn't pass, he said.

dealers Welk said. "I am proud to have been chosen 'star' of this 30-day selling spree. It gives me a chance to show my appreciation for the many wonderful things that have happened to me because of my association with Dodge." Moore explained that the dealers had elected to honor Welk during the traditional Spring sales campaign in recognition of his contributions to them and to the television industry. "Welk's warmth and sincerity are drawing ever-growing numbers of viewers," Moore pointed out, "and contributing to the steadily-rising demand for Dodge automobiles. Dodge selling messages, and the car itself, are being seen by new millions every week." Moore added that many Dodge customers instruct salesmen to "be sure and tell Mr. Welk" about their purchase of a new car. Grandstands were first used at circuses. PRESIDENTIAL SPEED

Many columnists and commentators have been having a Roman holiday with the news that the President's car went 70 miles per hour between Washington and St. Louis. The news correspondents' car, which usually tries to keep the presidential vehicle in view, was halted by Maryland State Police and told to drive within the speed limit. These indignities brought immediate attention from several of the correspondents on the theory that

the law is the law and the President has no more right to violate it than they do. The truth is that neither had the right to violate the law. Two wrongs do not make a right. Under the law as written, anyone driving over the legal speed limit has violated the law. However, it would seem from all of the clamor that grew out of the presidential 70 mph that the President was driving the car, and was the only person who had ever driven over 70 mph. It appeared for awhile that this tremendous event of events would sweep everything else off the front pages, including the Middle East crisis and the Texas senatorial election. It would have been simpler to issue a traffic ticket to the President for a technical violation and thereby dispose of the entire matter. However, if everyone around Washington who drove a few miles over the speed limit received a ticket, the printing presses would be working 24 hours a day. I am afraid the President is being needed—a practice I hope

will not be continued. The best way for the President to stop it is to take these jibes in good grace and not become nettled by questions about helicopters, speed limits and plans to step aside for the Vice President. This will be difficult, because the office of the President of the United States is probably the toughest job in the world. It should not be made tougher.

SUMMERFIELD ULTIMATUM

His Honor, the Postmaster General of the United States of America, appointed by the President, has served notice on the duly elected Members of the Congress of the United States that he has spent all of the money given to him and needs a mere 47 million dollars with which to finish the fiscal year which ends on June 30. He has further indicated that he expects to get it, and that if he doesn't get it, there will be a measurable curtailment of postal activities forthwith and immediately. I must confess that this development in the Post Office Department came as quite a

surprise to me, because I had understood from the past advertisements of the Post Office Department that Mr. Summerfield had taken over a mismanaged and inefficient operation and had streamlined it into a modern-day dynamo of efficiency and sound business practices; that he had reduced the Post Office deficit by closing a great number of 4th class post offices and denying many of the rural people in this country the postal service to which they are entitled. He reorganized many activities of the Department so that information concerning certain postal operations cannot be obtained in Washington but must be obtained from Regional Offices. He repainted all of the trucks and mail boxes in a three-color scheme of red, white and blue. Now we are all most favorable to that color scheme and certainly would not criticize his selection of colors, but some people have been wondering about the additional cost of a three-color scheme over a one-color scheme. Some other questions are being asked about who sold the paint.

It might be pointed out that, although Mr. Summerfield was the guiding genius who cut off the farmers' mail service, put the post office equipment in patriotic colors, decentralized the information center, and made several other changes that now require an additional 47 million dollars to pay for, it is only fair to point out that he did have some help. The Post Office Department, in recent years, has paid some fabulous fees to efficiency expert firms to speed up the streamlining of the Department. In fact, one of these fees alone would have kept several 4th class post offices in my district open for a number of years.

Will Writes

FROM DONLEY COUNTY

by Will Ehler
STATE REPRESENTATIVE
88th District

The Texas House of Representatives accomplished some good and constructive work this past week in spite of wild charges and innuendoes concerning illegal voting and misconduct of some members. Many of the stories you read in the daily papers are the result of publicity-hungry members who are expecting stiff competition in their next election.

Surprisingly enough, the hard working members who sit up night after night working on the laws, and drafting legislation never seem to get a great deal of publicity.

Sparse Area School Bill

A Senate bill (No. 95) passed the House this week and now goes to the Governor to sign. This measure, called the "Sparse Area

School Bill," concerns the professional unit allocations under the Gilmer-Aiken Law relating to the school districts in sparsely settled areas. All of the counties in the 88th District should be benefited by this legislation. As of next year, it will be some help (though not enough) to our smaller schools in Texas. I was surprised that there was not a big fight over this measure by the big city representatives, but it passed rather easily.

Congressional Redistricting Gets Tentative Approval

The House has also tentatively approved a measure which would re-district the State of Texas into new Congressional Districts and would do away with the congressman-at-large post. Our district, the 18th, would not have been changed as the proposal was written. The majority of the opposition to this bill came because of the fact that Texas will probably get at least one additional Congressman in 1960 after the next Federal Census. This opposition contended that it would be better to wait until after the next census and then create two new districts at the same time. My guess is that this measure will probably die in the Senate.

Sub-Committee Working On Rural Electric Bill

A State Affairs Sub-Committee is still working on a bill to remedy the present desperate situation in which our REA Co-ops find themselves. The bill would absolve a recent Supreme Court decision which has severely threatened the continued operation and growth of the REA system. It is possible that this sub-committee will report on this bill next week.

Probation Bill Passes

A bill creating a more effective adult probation system in Texas

has also passed the House. This measure, I believe, is a step in the right direction to rehabilitate persons who are convicted of an offense and later paroled. If we can help them become good and useful citizens, the State will have performed a wonderful service to society. At the same time, it will save a great deal of money since it is very expensive to keep a man in prison, particularly when he keeps going back and back. This probation system can help prevent our youthful offenders from becoming habitual criminals.

Greenbelt Amendment

The Greenbelt Municipal and Industrial Water Authority Amendment has now passed the Senate and was sent to the Governor. By the time of this reading, I am sure that he will have signed it. (As a new member of the House, this will be my first law on the books, and I hope it will be of great benefit and value to the people of our area.)

A NOTE OF THANKS

I wish to thank all my friends for the lovely cards and flowers sent during my stay in Groom Hospital, and the many kindnesses shown me since my return home. May God bless you is our humble prayer.

SENATOR ANDY ROGERS

Greenbelt Water Bill Passes House of Representatives

AUSTIN — A bill by Senator Andy Rogers to clear the way for validation of the Greenbelt Municipal and Industrial Water Authority has passed the House of Representatives and goes now to the Governor to be signed.

The Childress Senator was joined in sponsorship of the bill by Rep. Will Ehler, also of Childress, in the House.

The bill amends a 1954 statute creating the water authority so as to remove a stumbling block to confirmation elections. The measure makes clear that a city election confirming the authority would not obligate the city to future participation. It would also allow additional towns to join

in the project which contemplates a two million dollar dam on the Salt Fork of the Red River and a pipeline supply to the member towns. Towns now included in the act are Wellington, Childress, Clarendon, Hedley, Memphis, Quanah and Paducah.

"The passage of this bill will allow our cities to go ahead with their confirmation elections so that the water rights will not be lost to some other area," Senator Rogers said today. "The Oklahoma people just across the line are thirsty for some of this water, and under inter-state agreements they might be able to get it if we forfeit our right."

Senator Rogers said that none of the seven cities now involved would be placed under any obligation by electing to confirm the Greenbelt Authority but could

back out of the authority at a time before a required second confirming election. "But we need this first election to insure that we'll be able to hold onto our rights to the water," he said.

"Dollar for dollar and man for man, the submarine is this country's most economical weapon. Comprising only 1.6 per cent of the Navy's World War II personnel, the submarine service accounted for 55 per cent of all enemy shipping destroyed."

Olds Owner: That's nothing, wait'll you take a ride.

Neighbor: Man-oh-man, where'd all that power come from? I've never felt anything like that before!

Olds Owner: That's Oldsmobile's new J-2 Rocket Engine!

Neighbor: What's that? Tell me how it works.

Olds Owner: When you're driving under ordinary conditions, it uses only one carburetor. That means economy with a capital E. But when you need a sudden burst of power, for safety's sake, you just press the accelerator three-quarters of the way down—and two additional carburetors cut in!
