**ASHTOLA**

Mrs. Doyce Graham

We on the Ashtola Rural Route feel very keenly the loss of our beloved mail carrier, Johnnie Beard. We all loved him. He had a wide smile and cheery word for young and old. He did countless kind deeds that were not required in the line of duty. He did a superior job—spent his life putting his all in his work with no thought of reimbursement for all those little extras. We will not soon forget "our Johnnie."

Mrs. J. M. Graham is slightly improved but still in bed.

to raise this limitation to \$100.00 per month. It seems to me that it should be completely abolished. People who receive retirement benefits from other sources, both civil and military, are not subjected to these income limitations, and there is no reason for those receiving social security to be so penalized.

Miss Sandra Shelton, daughter of Mr. and Mrs. L. T. Shelton, 1102 W. 3rd, has registered and been accepted for admission to Colorado Woman's college, Denver, according to Mrs. Margaret Butler, director of admissions. Miss Shelton will study interior design under the direction of two outstanding Denver artists, Frances Hansen and Douglas Denniston.

**Notice Farmers**

The City of Clarendon will pay you \$1.00 each for the condemned barrels that might be lying about your place. The City needs barrels badly to be used for trash containers. Any citizen in need of a barrel can purchase one from the City at \$1.00 provided some are secured right away. The barrels must be in fair condition with bottoms. Bring your old barrels into the City Pump Station where J. C. Gibbs will arrange for payment. If you have several, just call the City office and a truck will be sent for them.

By Cong. Walter Rogers

**SOCIAL SECURITY:** I have received a number of letters lately concerning the Social Security program. Many people who are now reaching the age to receive benefits from this program find that there is an income limitation that prevents them from making money over and above their social security payments. Until September 1950 the income limitation was \$15.00 per month. That is, if you earned more than \$15.00 per month, you lost your social security payments. The people who were hit hardest by this limitation were widows with children to raise. I had several experiences with this situation, representing some of these widows and contesting this provision at all times. In September 1950, prior to my coming to Congress, this income limitation was raised to \$800.00 per year. Many people think that it is \$50.00 per month, but such is not the case. The method of computation used in the law is most involved and it would take about two pages to explain. But it means that you can earn approximately \$600.00 per year in addition to your social security. Many people are deeply concerned about this income limitation, and rightfully so. These social security benefits were paid for at least partially by the money of the one to receive the benefits, and it is not right to penalize a man by limiting him to a starvation income just because he has reached the age when he is entitled to receive the benefits that he has paid for. There are several bills proposing

**Praises BIG 12 For Relieving Her Nagging Aches and Pains**

Every day people from all over Texas write in telling how BIG 12 has helped them regain their old time feeling of well being. For instance, take Mrs. Blanche Styron of 402 West Henderson in Cleburne. Mrs. Styron is a nurse and it wasn't so long ago that she had a hard time carrying on her profession. Then she heard how BIG 12 was helping other people with a similar condition caused by deficiencies of Vitamin B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron and decided to try it. But let Mrs. Styron tell her experience with BIG 12 in her own words.

"For some time I had aches and pains all over my body. I suffered terribly all during that time. Then I heard about BIG 12 and out of sheer desperation I got a bottle. With that first bottle I felt a great change for the better and I have since taken thirty or forty bottles. I have now returned to my work which is practical nursing. At present I am walking two miles each day to take care of my patient. I am still taking BIG 12 and will continue to take it for it has helped me more than I can ever say."

There is nothing miraculous about BIG 12 but sometimes results like those secured by Mrs. Styron almost make it seem so. It is a proven fact that lack of Vitamin B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron can cause nagging aches and pains, stomach distress, lack of energy, sleeplessness, nervousness and poor appetite and BIG 12 contains these essential elements that give that glorious feeling of well being that makes life worth

Mrs. Blanche Styron

living. And remember, in addition to Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron, the daily dose of BIG 12 contains as much of the new Red Vitamin B<sub>12</sub> as a doctor usually gives in an intramuscular injection. These vitamins and the great iron content of BIG 12 (far more iron than any other tonic contains) when taken into the system, goes to work immediately so if you suffer from these deficiency caused ailments, be fair to yourself, don't go on through life suffering nagging aches and pains, stomach distress, sleeplessness, nervousness, poor appetite and a general run-down condition due to a deficiency of Vitamins B<sub>1</sub>, B<sub>2</sub>, Niacin and Iron but get a bottle of pleasant tasting BIG 12 from your drug store today.

**JUNIOR-SENIOR BANQUET**

When the juniors and seniors met in the Lions Club Hall last Friday evening for their annual banquet, they immediately got into the spirit of their theme, which was Western. Even before entering the banquet hall, strains of old range songs could be heard coming from the bows of these typical western musicians, the David brothers.

On entering the hall, the banqueters were greeted with a scene typifying the Old West. Just behind the tables a rude fence had been constructed upon which hung saddles, saddle blankets, chaps, and other cowboy paraphernalia. Cacti and beargrass grew at the base of the fence and extended in a semi-circle down the center of the room. In the circle was a campfire around which the musicians sat. At each window were curtains made of brown wrapping paper with designs of western scenes, hats, spurs, broncs, etc., drawn on them. The pictures, colored in pastel chalg, were drawn by two students, Lovell Myers and Florence Stephens. On the walls of the hall were arranged branding irons, horse shoes, pictures, and western plates in appropriate places.

Centering the speakers' table was a miniature corral scene, containing a fence, tiny saddles hanging on it, horses and cowboys. Even the old-style covered wagon was not forgotten. Extending down the center of the other tables were other similar western symbols. Wild flowers from the prairie were used with tiny cacti. The place mats had ranch scenes in the center, surrounded by famous brands. Coasters and napkins of similar design were also used. For favors small pottery cowboy boots were given.

The program carried out the same ranch life theme. The Guide of the Trail, who presided over the festivities was Joe Tom Naylor, president of the junior class. After each cowhand had found his place designated by little western-style place cards, the invocation was pronounced by Mr. Drennan. The toast to the Old Rangers (seniors) was given by Robert Olin Bain. Don Dorman, a senior, responded by toasting the Tenderfeet (juniors). Merriment was added to the program by a number of students engaged in a square dance. Those taking part in the square dance were Patsy Emmons, Shirley Wilson, Shirley Barker, Barbara Faye Estlack, Cotton Hall, El Ray Pyeatt, Donald Cherry and John Amason. Mr. Drennan called, and the David brothers furnished the music. Following the dance, Jo Anne Montgomery toasted the Trail Blazers (faculty), and Mary Lou Barker paid tribute to the Old Corral (school). The principal speaker of the evening was the versatile Rev. Jimmy Mitchell, who spoke on The Last Round-Up. His remarks were both interesting, entertaining, and timely.

The following menu was served:

- Indian Fire Water (Tomato Cocktail)
  - Roped Steer Stew on the Range (Swiss Steak) (Diced Vegetables)
  - Cactus Salad (Perfection Salad)
  - Red Rocks on the Mesa (Harvard Beets)
  - Fools' Gold (Sunshine Cake—Orange-nut Ice Cream)
  - Iced Tea Rolls Butter
- Following the banquet, the classes went to the Opera House and danced. The entire student body was invited to the dance.

**Getting The Facts About Texas Cotton**

AUSTIN—Texas cotton farmers now have more dollars in the bank and protection against unjustified rumors which might hurt the value of their crops, thanks to a University of Texas service.

The University's Cotton Merchandising Research Bureau is preparing for its fourth year of getting the facts about Texas cotton, facts which replace the general opinions — sometimes right, sometimes wrong — about its worth.

The Division is sponsored by the Texas Cotton Research Committee, composed of the heads of Texas A&M College, Texas Technological College and the University.

As soon as 1952 cotton is in the ground, University researchers will make a survey to find out how much of each variety is planted over the state. When the crop matures, they'll take samples from representative locations and determine fiber properties of each variety.

Seaman Jimmy Beard, son of Mrs. Johnie Beard, arrived in Clarendon Wednesday night of this week. He was unable to get here for his father's funeral services, being based on Guam. Jimmy had been overseas for some time.

Mr. and Mrs. O. D. Lowry of Hereford spent the week end with Mrs. M. C. Goodner.

Mr. and Mrs. L. D. Singleton and Mr. and Mrs. John Sullivan and Kathleen of Amarillo were week end guests in the home of Mr. and Mrs. Jimmy Mitchell and son.

Mr. and Mrs. L. M. Smith and boys visited in Childress Sunday.

Mr. and Mrs. Tom Murphy and Pat spent last week end in Albuquerque with their daughter and son-in-law, Mr. and Mrs. G. L. Hunsaker.

Mrs. John Peters and a daughter of California visited last week in the home of Mr. and Mrs. Will Beverly. The Peters lived at the Spring Creek Camp on the J. A. Ranch a number of years ago.

Curtis Audry Phillips of Borger spent last week in the home of his aunt and family, Mr. and Mrs. Lloyd McCord and children.

Mr. and Mrs. Homer Estlack and children spent the week end with her father and wife, Mr. and Mrs. J. C. Drennan at Verdon.

Mr. and Mrs. J. H. Helton, Francis and Mary Mann, and Bertha Fay Pointer spent Sunday in Amarillo with Mr. and Mrs. A. F. Hutcherson.

Mr. and Mrs. Wm. Greene and children visited friends and relatives at Memphis and Leslie Sunday.

Mr. and Mrs. Lloyd McCord and family visited Sunday with her parents, Mr. and Mrs. Pete Hearn and Cora Lee at Grodin.

## The Pink Bollworm - II

There was near-panic among cotton people and government agencies following the discovery of the first Pink Bollworm in Texas in 1917. "No-cotton zones" were proclaimed excitedly everywhere the insect was found.

The worm had been a serious pest in many parts of the world, including China, Egypt, Brazil, Argentina and Mexico. But still almost nothing was known about its habits and life history. And there was as much confusion among those trying to combat it in the early days in Texas as there was hardship among the growers, who suffered from the "no-cotton zone" proclamations.

Now we know that no cotton zones are futile in Texas as long as there is a plentiful supply of Pink Bollworm across the border in Mexico. We've also learned that since the worm bores its way deep into the cotton boll we can't get at it successfully with insecticides.

We are coping with it effectively, however, by following cultural practices based on the knowledge we've acquired of its life history. The cotton grower can change his procedure—the Pink Bollworm can't change its fixed habits.

We know it propagates in the growing season. So in the warmer areas, with a long growing season, we shorten the breeding time with planting and plow-up deadlines.

We know that in the fall it goes into hibernation. So we destroy its place for passing the winter by stalk destruction and field cleaning.

At gins and oil mills we have fumigation, sterilization and burning of "gin trash" to prevent spread by way of seed, lint, burrs, cotton products, etc.

Commercial damage from the Pink Bollworm in the past has been as high as 50%—now it is negligible. Our success is due to the almost 100% cooperation of growers, ginners and oil millers in the program for control and eradication under the Texas Pink Bollworm Law.

As long as the moth can make

long-distance flights, however, it can invade any part of Texas. And it is important to get at it quickly when it shows up in a new area.

Anyone finding a worm resembling the Pink Bollworm in cotton areas thought to be free of the insect should place it in a bottle of diluted alcohol and send it to the Entomologist for Pink Bollworm Control, Texas Department of Agriculture, Austin, with the full information as to date and place of collection.

## New Drug For Tuberculosis

### Lederle Announces

**PEARL RIVER, N. Y.**—A new chemical compound for the treatment of tuberculosis has been developed by Lederle Laboratories.

The drug is related to niacin, a vitamin commonly found in milk and egg yolks.

Dr. J. H. Williams, Director of Research, said that the compound, Aldinamide pyrazinamide, has shown effectiveness

not only against the usual strains which cause tuberculosis, but al-

so against tubercule bacillus strains which have become resistant to streptomycin, the antibiotic most widely used for treating the disease.

Aldinamide was tested in 43 patients at the Summit Park Sanatorium, Pomona, N. Y., with reported favorable results. Dr. R. L. Yeager, director, said that in nearly all patients treated who had more than one degree of fever, there was a rapid reduction in temperature, and that a diminished cough and a reduction in the amount of sputum were noted. In several cases acute laryngeal lesions cleared rapidly, and X-ray improvement in some cases was observed. He said that toxic reactions, on the whole, were mild.

Dr. William S. Schwartz, of the VA hospital at Oteen, N. C., recently reported on ten pulmonary tuberculosis patients who had completed treatment with this compound. Soon after start of treatment there was a reduction of cough and expectoration, and in six who were feverish, their temperatures were back to normal in three or four days. Appetites increased and in all but one, there was a weight gain which varied from four to fifteen pounds, and averaged nine pounds.

Dr. Schwartz said that with one possible exception, there was no evidence of toxicity or intolerance of Aldinamide.

Present indications are that this drug will have a place in the treatment of tuberculosis and will be particularly useful a-

gainst tuberculosis which has become resistant to streptomycin. However, Lederle officials point out that the disease organisms also build a resistance to Aldinamide after eight weeks and experiments to overcome this resistance are now underway.

This new drug is given orally, while streptomycin must be administered by injection.

Development of this new compound dates back over four years to the time when a Lederle team found that nicotinamide showed activity against tuberculosis organisms. From this lead, over 60 pyrazine compounds were developed and tested. One of these, Aldinamide, proved to be effective against tuberculosis. Extensive tests with mice and guinea pigs showed the new drug to be active against the disease germs. In several animal species including mice, rats, guinea pigs, and dogs, Aldinamide has shown a very low order of toxicity; in fact, in mice doses 500 times larger than the effective dose did not prove harmful. Similarly, in human beings, there has been very little evidence of toxicity.

In humans, Aldinamide is given in doses of three grams a day, although treatment may start with a lesser amount and increase after a few days.

Investigators are now trying to determine the true place of Aldinamide in tuberculosis therapy, although it is known to be more active than PAS (Para Amino Salicylic Acid), which is currently given by many doctors in conjunction with streptomycin.

MR. and MRS. J. R. BULLS

### Mr. and Mrs. J. R. Bulls To Celebrate 50th Wedding Anniversary Sunday

Mr. and Mrs. J. R. Bulls of Clarendon will celebrate their 50th Wedding Anniversary Sunday afternoon, May 11, with an open house in Fellowship Hall of the Methodist Church. They were married February 9th but due to the fact that several of their children were unable to be present at that time this year, the latter date was chosen.

James R. Bulls and Miss Grace Bransford were married February 9, 1902 in Newport, Clay County, Texas, in the home of her mother, Mrs. F. G. Bransford. They lived with his mother and brother until the following October, when they loaded up the covered wagon and left for Green County, Oklahoma. They rented land and farmed there for 5 years.

In 1906, March 6, Mr. Bulls homesteaded land in what was then "No Man's Land" in the

Panhandle of Oklahoma, afterward called Cimarron County. They lived in a dugout for 3 years, then built a 1 1/2 story adobe house. Those were happy days as they were young with life out before them. They were happy and had the will to work. No task was too hard for them and they underwent the usual hardships of pioneer life but lived to see the county blossom as a rose. They saw good schools, churches, and nice homes spring up around them.

In October 1919, the family came to Clarendon and bought a farm 1 mile north of town where they lived for 25 years. They came to Clarendon to give their children school and church advantages. They have lived to see all their children finish school and are now in homes of their own. They have many friends

here. In 1945 Mr. and Mrs. Bulls moved into town where they now reside.

To this union were born six children. They are: Mrs. Opal Adamson of Lubbock; Bransford F. Bulls of Monahans; Mrs. Hazel Hahn of Pampa; Woodrow Bulls of Terre Haute, Indiana; Roy Bulls of Amarillo and Ray Bulls lost in World War II in France. There are 7 grandchildren.

Everyone is invited to share in their celebration in Fellowship Hall of the Methodist Church Sunday afternoon, May 11, from 3 to 6 P. M.

### NOTICE TO VOTERS OF PRECINCT NO. 4

I, George Preston, due to an oversight, failed to register my name with the Democratic chairman in order to get my name on the official ballot, even though I had announced publicly through our local newspaper. I wish to state that I will be a candidate for the office and will pay my due share of the election expenses. I will appreciate your writing my name on the ballot when you go to the polls to vote in July. All votes and influence will be appreciated.

George Preston (14-p)

### CARD OF THANKS

We wish to thank our many friends for their thoughts and kindness in the death of our loved one. The sympathy, flowers and food helped us to bear the burden of our sorrow. May the blessings of the Lord be with you always, is our wish.

The family of Johnie Beard.

Mr. and Mrs. E. J. Chenault left Sunday for California to visit relatives and friends and will be gone about three weeks.

### FARM NEWS From the County PMA Committee

#### PMA PRACTICES COMPLETED:

Since the rains there have not been many producers in the county office. Most of those who have been in have reported some practice completed or received approval to carry out some practice. Some producers with approvals for the RYE cover crop have not reported. "15 Day" notices will be mailed this week to all who have not reported this practice. We would appreciate having all producers, who have approvals for this practice, let us know if they do not intend to earn assistance. If you have an approval and you mean to graze your rye or if you mean to harvest it, could you let this office know?

Under the 1952 Program, George Beasley has an earthen dam, D. F. Cook has some terraces, Clay Inmon has a diversion terrace, R. E. Mann and Heckle Stark also have new diversion terraces; Jack Molesworth, Hous-ton D. Bell, W. R. Kelly, Mark Allen, Bill Thornberry and Claude Stanton all have earthen dams either completed or almost so under this year's program. Charles Weaver, C. A. Crow, Ray Moreman, W. W. Farris, C. F. Hermesmeyer, J. D. Duggins, Leo Smith, Mrs. Laura Taylor, Geo. Bagby, Pete Land, Clifford Farmer, A. E. Ranson, J. N. Weaver, and Dudley Wilson all have large ridge terraces or diversion terraces completed or under construction now.

#### MOBILIZATION COMMITTEE NEEDS MEETING

The Mobilization Committee, made up of members of the PMA Committee, the County Agent, FHA Supervisor, SCS Work Unit Conservationist, NFLA Secretary-Treasurer and the Board of Supervisors of this Soil Conservation District, met this last month to prepare a report on the Conservation Needs for Donley County. The District Field Officers for both PMA and SCS were present to lend whatever assistance they could in this important work. Our County is in good shape, but there remains lots to be done to improve and

keep it producing what it should. The Mobilization Committee's report will be mailed to the State PMA Office soon.

#### GOOD FARMING PRACTICES

Mr. G. O. Simmons was in our office last week to report his rye practice. He says that he is doing what he can to keep his farm in good condition. Some of the practices he always carries out include strip cropping and farming on the contour. Beside that, he leaves the stalks of all feed crops on the land for protection from wind erosion and seeds a big acreage to rye each fall for a cover crop.

#### OUR THOUGHT FOR THE WEEK

"Opportunity only knocks at your door. You must open it."

#### Field Day Planned For Brush Control

One of the largest field days ever held in Donley County is being planned at this time on brush control on ranges. H. M. Breedlove, county agent for Donley County and in charge of the field day says it will deal with mesquite control, sage brush and other brush that is harmful to ranges. A good lecture will also be held on grasses for this area.

Mr. C. E. Fisher, superintendent of the Spur Experiment Station will be present to give some discussion on the brush control and he is recognized as one of the foremost authorities on this subject in the nation. Mr. Walker, range specialist for the Texas A&M College Extension Service will be present to discuss grasses and range management.

The field day will be held on the JA Ranch where in 1950 one section of mesquite was sprayed with different types of chemicals on a demonstration basis. 2-4-5-T

proved to be the best used and last year 6,000 acres was sprayed.

Ranchers, farmers, county agents, Supervisors of Soil Conservation District and SCS personnel and all PMA committees are invited; in fact, Breedlove states that every one is asked to attend this big field day and the dates will be set in the next week. It will be held the first part of June and the dates will be set so that you can also see planes at work on new areas to be sprayed. This work is taking place about eighteen miles from any cultivated area and all planes operate off the ranch air strip.

Watch for the dates of this big field day and the final plans will be made in a meeting this week with board of supervisors of the soil conservation district.

#### VISIT DOWN STATE

Mr. and Mrs. R. W. Moore and Mrs. Frank Barton have just returned from a visit to Mr. and Mrs. Bowen Snow and family at Denton, Texas. They also visited in Paris and Sherman, Texas. While in Denton they went fishing and boat riding in Lake Dallas. Afterward they enjoyed a most delicious picnic lunch under the shade of those beautiful trees there. Mrs. Snow is Mrs. Frank Barton's sister, and was at one time a neighbor of Mr. and Mrs. R. W. Moore.

A baby girl, Cherry Gwynn, was born to Mr. and Mrs. Lowell Heckman, in a Lubbock hospital April 30th. She weighed 8 1/2 lbs. Mother and baby are doing fine. The proud grandparents are Mr. and Mrs. Lee Muse and Mr. and Mrs. Geo. Heckman.

Mrs. Jack Brooks is visiting in the home of a niece at Hollis, Okla. this week.

#### FATHER OF FORMER RESIDENT KILLED IN CRASH

A. J. Peters, father of Mrs. Dale DuLaney, formerly of Clarendon and now living in Amarillo, was killed in a car accident Saturday night. The wreck occurred on the Amarillo-Dumas highway. Four people were killed and 8 injured.

Mr. Peters was superintendent of the Bivins Station. Mrs. Peters was critically injured in the accident and is a patient in the Dumas Hospital. Both have visited in Clarendon while the DuLanays were residents here.

Rosary for Mr. Peters was held Monday night at Griggs Pioneer Chapel in Amarillo with Requiem Mass at Sacred Heart Cathedral in Amarillo at 10:15 Tuesday morning.

Survivors include his wife, Mrs. Dale DuLaney and two other daughters, two sons and three sisters.

Mrs. Claude Gilmore and children of Amarillo are spending a couple of weeks with her parents, Mr. and Mrs. Geo. Heckman before moving to Dallas where Mr. Gilmore has transferred for gun smithing.

Mr. and Mrs. Floyd Benson of Quitaque visited Mr. and Mrs. Roy Beverly Sunday, and the entire group enjoyed dinner with Mr. and Mrs. Bill Beverly at Spring Creek Camp on the JA.

Mr. and Mrs. J. W. Garland attended the wedding of their niece, Wilma Haney, at Berger on May 1st. They stayed over night. Mr. and Mrs. Homer Haney, Mrs. Nora Middleton accompanied them home on Friday then they all visited with the ladies sister at Wichita Falls, returning Sunday.

New member to the ASRNS is Ernest McCullough. Ernest was recommended and introduced to us by Walter McLaren. Best Wishes Ernest and congratulations to you on being a distant relative of Walter's. Walter as most of you know worked for the Scotchman who lost the first dime in the Panhandle and tore out the great Palo Duro canyon looking for it. He did the actual work, so I hear. Distant can be applied two ways; I don't know if he lives a long way off, or is just a little kin.

I doubt if there is a person who reads this column who does not know Fred Patching. Anyway, it seems that he is; according to my informant, an ardent supporter of the rain making or rain increasing program. Last week it began to rain one evening, and as Fred read his paper he was rejoicing over the results of his investment in new venture. All of a sudden the air was rent with a loud burst of thunder, and this brought Fred to a sudden realization of something. "Why Maw", he says, "I thought this was the result of our organization, but I guess not. Anyway, we ain't got no thun-

derin' machine in our program." The above was reported to me by a friend and I repeat the same in all fairness to both sides, and I deny showing any partiality toward either side in this project.

If I was naming the Man of the Week I would name judge David Pine. I wish he could be nominated president. For one man to risk ridicule and political criticism to uphold our freedom these days is to say the least encouraging. I believe with all my heart that his decision will some day go down in our history as important; either as the last fight for personal freedom, or the turning point of our drift toward totalitarianism—Which will it be?

It makes each drop of gas say uncle

ACCORDING to combustion experts, there's as much energy locked in a drop of gasoline as there is in a drop of nitroglycerine.

But the problem is to put that energy to work.

So Buick engineers aren't content just to mix that drop with air and touch it off. They've designed an engine that brings it catapulting into a cylinder head where it strikes a turbo-top piston—gets whipped into a churning, swirling ball of tight-packed energy.

Then it's fired. And when that happens, a drop of gasoline certainly lets loose power.

This isn't something that happens in a "car of the future."

It happens in a Buick Fireball 8 Engine today. It's a high-compression engine. It's a valve-in-head engine. But it's also a Fireball in performance as well as name.

And it puts extra power under the hood—and extra miles in the fuel back in the gas tank.

Now, power is great, but what goes with it?

Mister, that's something you ought to find out—and soon.

What goes with it is an automobile as sweet-handling, eager and willing as anything that ever made your pulse leap to a faster beat.

It's a car that seems to know what you

want it to do—true and sure in its course on a straightaway—beautifully balanced on curves.

It's a car with Dynaflo Drive\* to feed power with infinite smoothness—and a road-hugging levelness of ride that took a million in cold cash to perfect.

And it is, with all this, a very tidy bargain. Why not price it, drive it, know it for yourself? We'll be glad to arrange a demonstration.

**YOU IN THE CHURCH**  
**THE CHURCH IN YOU**

Character is a by-product of the church. It is here that young and old alike are showered with benedictions that fortify and influence for a better citizenship and a stronger, more democratic character. In the church the ministerial and a stranger alone can furnish leadership to handle the affairs of state in these perilous times. Then we with our children should go to the church at our choice on Sunday. "You in the Church and the Church in you"—form a combination for good. Be a regular CHURCH-GOER and a daily BIBLE READER.

*Williams Newspaper Features,  
 P. O. Box 211, Ft. Worth, Tex.*

Every hour of every day...and night...consciously or subconsciously... we draw upon Mother's strength and love. It is a meager tribute that we should pause once a year and dedicate one day to Mother.

Mother is what makes the wheels go round. Home isn't home without Mother. The countless details, the careful planning, the constant loving care... that takes Mother every time. Children won't tick without Mother. For in the start, Mother is our warm meal when we are hungry, our extra blanket on a cold night, our light in a dark room. Little minds and hearts reach out for MOTHER. Baby-sitters aren't the same. Servants are insufficient. Even Daddy isn't quite enough. A well child runs on eager feet to tell MOTHER of his joys; a sick child calls constantly for MOTHER to soothe away his pains. There's something special, something extra, that comes only from Mother.

Who else can kiss a hurt and make it well? Who else can give us lovely memories of a happy childhood, rich with fun and friends? And who, but Mother, can lead us from our earliest days to find Him as our Refuge and Strength, a very present Help in time of trouble?

Life brings floods of uncertainties, disappointments, failures. Mother is the rock that stands fast. Her faith is sure, her spirit never wavering, her love never failing. Life, too, brings joy, achievement, success. Then we know one heart is happier even than our own. Mother is then the soaring cloud of radiant rapture, lifting us to new attempts.

As long as Mother lives, we shall not lack for care or love or prayers. When separation comes, as come it must, "death is swallowed up in victory." Life will not change Mother's love; death will not conquer it. Mother's spirit will walk ever beside us; her love will wrap us close. Her gentle hand will guide us; her sweet voice will echo in our ears. Again we'll feel that extra blanket slipped quietly over us, in the coldness of our night! Mother is and will be forever more our guardian angel. In this world or in the next, we know that we may draw eternally upon the strength and the love that is... MOTHER. Go to your church his Mother's Day.

tem in this state, but many do not understand the significance and implications of this fact.

Most of the property acquired by a husband and wife, or either of them, during their marriage belongs to them, jointly and is referred to as "community property." In fact, the law presumes that all property acquired during the marriage is community property unless the contrary is clearly proved.

Not included in this category is property owned by either husband and wife before marriage, and that which is acquired by either of them after marriage by gift or inheritance. Such items are regarded rather as the separate property of the individual spouse.

May the husband and wife divide their community property so that each will thereafter own one-half of it as his or her own separate property? Until the passage of a recent constitutional

amendment, such action was not permitted by our laws. Now, existing community property may be so divided under certain circumstances. However, an agreement by the husband and wife that future earnings or income will be separate property is invalid.

In contrast, it has always been possible to convert separate property into community property. This is usually done unintentionally when separate property is sold or exchanged, and the parties fail to indicate clearly that the purchase money or the new property is to be the separate property of the husband or wife.

Very often the money received from a sale of separate property is deposited in the joint bank account of the husband and wife, mixing or "co-mingling" such separate funds with the community funds. This ordinarily results in the entire amount becoming community property through the inability of husband or wife to trace the separate funds at a later date.

The distinction between separate and community property is important for many reasons, and married persons owning separate property should normally exercise care to prevent its being commingled with the community estate. Lawyers say that separate bank accounts and proper records will help keep matters straight. Failure to use proper safeguards can result in an alteration of the legal order of descent at

the death of a person leaving no will, since community property passes in one way and separate property in another. Or, one of the parties may lose his right to what was once separate property to whomsoever he chooses.

Other consequences include the possibility that the separate property of one spouse may become subject to the debts of the community or of the other spouse. Or, if a divorce should occur, one of the parties may lose part of his separate estate during division of the couple's various properties.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts, because the facts may change the application of the law.)

"Menaboni Bird Book" by Athos and Sara Menaboni is an elegant book, and one of the most beautiful and faithfully worked out bird portraits painted in America. Menaboni's publishers spent three years in the preparation of this volume. The selections consist of thirty-two plates in natural color, thirteen full pages in black and white, and numerous small illustrations. This book was presented to us by Mr. and Mrs. Frank Phelan in memory of Mrs. Fred Chamberlain.

Several books have been chosen to be given in her memory, but they have not been received from the publishers.

### Soil Conservation District News

The trip to Ft. Worth last week to The Ft. Worth Press "SAVE THE SOIL AND SAVE TEXAS" awards dinner was considered quite successful and enjoyable by the twenty-nine farmers, ranchers, business and professional men and women who attended from Donley and Gray County

Soil Conservation Districts. The special chartered bus was decorated with large colorful signs on each side which read—"Conservation Special", Honoring Thomas C. D'Spain, The Outstanding Conservation Farmer in the State of Texas, Donley County Soil Conservation District No. 127, Clarendon Chamber of Commerce.

A public address system

(thanks to L. L. Wallace) on the bus gave Jimmie Faulkner, Manager of Clarendon Chamber of Commerce, the opportunity to publicize the purpose of our trip and also to tell of the Virtues of Donley County and the Texas Panhandle to almost everybody between Clarendon and Ft. Worth.

A capacity crowd of about 900 soil conservationist enthusiasts from all over Texas filled the banquet hall of the Texas Hotel and saw D'Spain and the State Champions in other divisions of the awards program crowned and rewarded. A check for \$500.00 was the award presented to our champion.

Walter R. Humphrey, editor of The Ft. Worth Press was Toastmaster and Paul Walsler, State Conservationist, Soil Conservation Service, gave the principal address.

As soon as Jimmie Faulkner gets rested up over this trip, we will start making plans to attend a similar affair in Lubbock on May 26, for the Regional Winners.

The Donley County Soil Conservation District won first place as The Outstanding District in Region I, comprising 51 counties in the Panhandle and South

Plains and will receive an award of \$500.00 at the Lubbock presentation.

### Trying To Locate Air Reservists In Childress Area

HQ, 3d Air Reserve District, Austin, Texas, April 25—The Air Force is trying to locate 117 air reservists in 10 Texas counties in the Childress area.

The search is in no way connected with recall to active duty, but is part of 3d Air Reserve District's current mail-type reserve personnel survey in the area, according to Colonel W. B. Magness, Executive Officer for the district, headquartered in Austin.

Questionnaires were mailed to all reservists in the 10 counties early this month, and the 117 men are those who have not yet returned their completed forms to the district headquarters.

The entire survey program is intended to give the Air Force accurate and correct facts and figures on its reservists in cast of a national emergency. However, the program also is designed to enable reservists to determine where they stand in today's Air Force Reserve program.

Surveys underway in more densely populated regions of Texas and New Mexico feature personal interviews with reservists.

The Childress area mail survey is the second undertaken by the district. The Big Bend region of

Texas was surveyed earlier this year via the mail avenue. Counties included in the Childress survey are, in addition to Childress County, Wheeler, Donley, Collingsworth, Briscoe, Hall, Hardeman, Foard, King and Knox.

In an attempt to locate the "lost" reservists who may have moved from the area since their last contact with the Air Force, the district has forwarded lists of the reservists to newspapers and radio stations in the region.

Citizens are requested to advise their Air Reservist-friends listed in the group that the Air Force is endeavoring to contact them in order to correct their obsolete military records.

For additional information on the survey, reservists should write to 3d Air Reserve District Headquarters, 1414 Lavaca, Austin.

As of early last week, reserve headquarters had been unable to contact the following reservists in the area:

**DONLEY COUNTY**  
Clarendon—Raymond G. Johnson, William C. Cowan, Stanley R. Bain, Wesley Powell, William D. Scott, William E. Patman, Lelia Lake—Edward L. Stavenhage, Robert C. Leathers.

Mrs. Juliette Low organized the Girl Scouts in America in 1912.

Vellum originally was made from the skins of calves, lambs and kids.

Then there's the young bride who asked if she should buy the gravy from the grocer or the butcher.

From where I sit... by Joe Marsh

### As a Matter of Fact...

Out of all the newspaper and magazine columns I read, the ones I enjoy most are those that pack in a whole lot of facts—unrelated facts, but each one an interesting bit of information in itself.

These columns go something like this: "Did you know that humpback whales are addicted to snoring? That bees have been bred with red, brown, and buff-color eyes?"

"Did you know that lead can be converted to gold—at a cost of \$1,000,000 an ounce? That a 555-pound fat girl went on a diet and lost 401 pounds in 12 months? That

a chrysanthemum has been developed that smells like a violet?"

From where I sit, maybe I'm a kind of "Johnny-one-note." My own columns always seem to revolve around one idea—a plea for us to make sure we respect the other fellow's rights—like the right to vote for your own choice or the right to enjoy a glass of beer now and then. I may not be in style, but I believe my one fact is worth repeating—and remembering!
