part-by-part proof...

Plymouth

is your "best buy" in the lowest-price field!

Recently a 1954 Plymouth and current models of the other two best-known low-price cars were taken apart by Plymouth engineers and compared, part by part. Standard "stock" models were used. We've listed some typical findings below.

Plymouth is "best buy" in many ways. Here are just a few!

- Front Wheel Brakes**
Plymouth engineers provide two hydraulic brake cylinders in each front wheel to ensure smooth stops without "grabbing." The other two low-price cars have only one.
- Seat Springs**
Plymouth uses coil seat springs, for longer lasting support. The "other two" have a zigzag platform type. Also, Plymouth's "springs-on-springs" design adds more comfort.
- Piston Rings**
Plymouth has four rings on each piston; the "other two" have three. Result: decreased carbon deposit, more consistent power output. Increased oil economy, too!
- Micronic Oil Filter**
Standard on most Plymouth models. Keeps abrasive dirt out of the engine, reducing wear and achieving greater oil economy. Extra cost on the other two low-price cars.

And dozens of other part-by-part comparisons prove Plymouth is your "best buy"! See us today... and get the facts!

Ask us for the big illustrated booklet that shows how Plymouth leads in frame construction... engine design... performance... economy... comfort... safety.

Fun for the whole family! Enjoy "That's My Boy" each week on CBS-TV. See TV page for time and station.

Sutton and family from Vernon spent the week end in the H. A. Graham home. Jacqueline Fay was the name given to the daughter born May 6th to Mr. and Mrs. Buster Bain at Witt Clinic in Groom. She tipped the scales at 6 lbs. 12 oz. Mother and daughter are doing fine and are now in the W. H. Wilson home, parents of Mrs. Bain. Mr. Bain is serving with the Army in Europe. Mr. J. M. Graham received word of the death of a sister-in-law, Mrs. John Graham in Scotts

Hill, Tenn. M/Sgt. and Mrs. Charles Catoe arrived Monday from Columbia, S. C. and left Wednesday for New York where he will be stationed. Charles arrived in the states April 18. Visiting in the Poovey-home for Mother's Day were Mr. and Mrs. Evert Miller of Phillips, Mr. and Mrs. Willard Cook and Dean Mr. and Mrs. Ben Lovell and Joe Tom, Leslie Catoe, Mr. and Mrs. Leo Wallace and Mr. and Mrs. Earl Butler and boys. T. P. Lane left for Calif. Mon. Mr. and Mrs. T. A. Lane from Memphis visited in the J. B. Lane home Sunday. Mrs. Word now has her mother in her home. Mr. and Mrs. Ben Lovell, James Reed and Lynnita and Miss Jane Johnson met Lt. (j.g.) Joe Tom Lovell when he arrived in Amarillo Friday night at the Air Terminal. The Lovells then all went to Dumas to get acquainted with the new son of the James Reed Lovell who arrived May 5th. The new baby boy weighed 9 lbs. and 11 oz. and was named John Hunt. Mrs. Bill Marshall and Mrs. Guy Sibley visited Mrs. Walter Deiger in Ludie Thursday. Mr. and Mrs. C. B. Harp and Lucky, Mr. and Mrs. Kermit Evans and Carol and Mr. and Mrs. W. H. Wilson and Glenda were in Amarillo Sunday night where the children appeared on program for the Service Club. Mr. and Mrs. Vance Gray and children visited Mr. and Mrs. W. H. Gray Sunday. Mr. and Mrs. Leo Wallace visited Mr. and Mrs. Raymond Slater and Leslie Thursday eve. The reason the battle of the sexes will never be won is there's so much fraternizing with the enemy.

Armed Forces Day In Amarillo, May 15th

AMARILLO AFB—Eight visiting generals, including Air Force Chief of Staff Gen. Nathan F. Twining, a parade and 12 aircraft flyovers will highlight Armed Forces Day in Amarillo, Saturday, May 15. Besides General Twining, the distinguished visitors include Lt. Gen. Robt. W. Harper, Air Training Command commander; Maj. Gen. Eugene L. Eubank, Tech Training Air Force commander; Maj. Gen. Roger Ramey from Washington, D. C.; Maj. Gen. Lee Washbourne, also from Washington, D. C.; Maj. Gen. J. B. Montgomery, commander of Carswell Air Force Base of Fort Worth, Texas; Brig. Gen. William Rentz, Tech Training Air Force headquarters; and Brig. Gen. A. H. Leulman, Information officer for General Twining. The eight generals will occupy the reviewing stand at Seventh and Polk Streets during the Saturday morning parade along with Brig. Gen. Walter R. Agee, Amarillo Air Force Base commander, Congressman Walter Rogers of Pampa and several other dignitaries. The parade, which begins at 10:30 A. M., will form at fourth and Buchanan Streets, proceed west on Fourth and Polk, turn south on Polk, then disperse between 12th and 14th Avenues. The procession will be interrupted at 10:50 A. M. where General Twining will speak from the reviewing stand. In addition to nearly 3,000 Amarillo Air Force Base officers and airmen, the base band, drill team, drum and bugle corps, a number of Amarillo reserve units National Guardsmen, ROTC groups, and Civil Air Patrol units will take part in the parade. Also participating will be a host of civilian bands. The aircraft flyovers, scheduled between 9:30 A. M. and 3:30 P. M. will be all jets with the exception of a flight of B-29's. The aircraft will be piloted by USAF flyers from Clovis AFB, N. M., Kirtland AFB, N. M., and Randolph, Reese and Webb Air Force Bases, Texas. An open house is slated for Amarillo Air Force Base Saturday and Sunday afternoons, May 15 and 16 from 1 to 5 P. M. A

Your Tired Mail Boxes Should Be Replaced

Postmaster General Arthur E. Summerfield has announced the week beginning May 17th as "Mail Box Improvement Week."

Postmaster J. C. Estlack is requesting the rural patrons in this area to repair and beautify their mail box equipment and approaches to help lend brightness to the scenic beauty of the highways, roads and drives. Please don't forget, "your mail box is an indication of the type of folks who use it. It is the one facility that keeps you in contact with the world daily except Sunday. The rural delivery is a post office on wheels, and many times these services are taken as granted and not fully appreciated. Carriers are instructed to serve the patrons promptly with as few mistakes as possible.

For instance, your regular carrier is not on the mail route the entire year. Vacation, and some times illness, calls for a substitute carrier. If your name is not on the box in plain letters, how is the carrier to know where you live? Does your box have a tight lid or door? It really rains sometime even in this area. How about your flag on the box?

Boxes, where possible, should be grouped on a wheel. This is for the convenience of the carrier who wants to serve you best at all times. Can your carrier get to your box without a detour? The Postal Department specifies the type of boxes, how they are to be placed, and a lot of information to be had from your carrier. Ask him.

To further help YOU to get better service, you may find a leaflet in your box from your Postal Department requesting you to do certain things that are a part of the job—your part. Read them carefully.

Guests in the home of Mr. and Mrs. B. N. Adams thru the week end were Mr. and Mrs. W. G. Adams and family, Raymond Adams and Miss Carlene Miller, all of Lorenzo.

Mr. and Mrs. R. S. Brumley of Miller, Mo. and Mrs. Shirley Brumley Welch and Cynthia Ann of Tulsa, Okla. are visiting in Clarendon.

Guests in the home of Mr. and Mrs. Joe Terry Sunday were Mr. and Mrs. Earl Albright of Amarillo, Mr. and Mrs. Reeford Blackwell and daughter of McLean, and Mrs. W. N. Blackwell.

DANCE PUPILS TO APPEAR IN RECITAL

Neil Hess will present his dance pupils in a recital at the High School Auditorium Monday, May 17th at 8:00 P. M.

Pupils from Claude, Ashtola, Panhandle and Clarendon will be included in the program.

The public is cordially invited to attend. There will be no admission charge.

Mrs. H. H. Mann and Mrs. Gilbert Mann visited with Mrs. Harp one day last week.

Guests in the home of Mr. and Mrs. W. C. Scott Sunday were Mr. and Mrs. Chester Scott, Glenda and Connie, Mr. and Mrs. Ray Hefner and Patsy, Mrs. John F. Harlan and Latrice, all of Amarillo, and Miss Gaynell Scott and Charles Coney of Clarendon.

Mr. and Mrs. J. C. Longan of Pampa, and Mr. and Mrs. Nelce Robinson visited in the home of Mrs. Edith Longan Saturday night.

Mrs. Elbon Naylor visited Sunday with her parents, Mr. and Mrs. W. D. Kidd, in Amarillo.

Mr. and Mrs. U. Z. Patterson of Vernon, and Mr. and Mrs. Ber Buck visited in Memphis Sunday.

Mr. and Mrs. C. E. Beach of Plainview were guests in the J. C. Estlack home Saturday night.

Mother's Day guests of Mrs. Edith Longan Sunday were Mr. and Mrs. A. B. Stephens and daughters, and Mr. and Mrs. C. E. Beach of Plainview.

Mr. and Mrs. W. D. Hudgins of Amarillo visited in the home of Mr. and Mrs. Joe Terry Saturday.

Clarence Whitlock and Mr. and Mrs. L. T. Whitlock and Larry of Amarillo visited in the home of Mr. and Mrs. Frank Whitlock Sunday.

Mr. and Mrs. L. T. Whitlock and Larry of Amarillo visited a short time Sunday afternoon with her sister and family, Mr. and Mrs. G. W. Estlack and Jackie.

Mr. and Mrs. Joe Bownds left Sunday morning to spend the week in Louisiana fishing.

Mr. and Mrs. Roy Crutchfield and girls spent Sunday afternoon visiting relatives in Amarillo.

Jean Ballew of Lubbock spent the weekend with her parents, Mr. and Mrs. Elba Ballew.

POSTAL RECEIPTS SHOW STEADY INCREASE

Postal receipts for April would not indicate a drought, such as was in progress and had been for some three years, stated Postmaster J. C. Estlack Wednesday. Postal receipts for April of 1953 were \$1831.01. Receipts for the April period of this year just past are \$2144.10.

The fact that the population had increased during the year, and that a number of transients engaged in various lines of work including the highway construction, likely had something to do with the increase, the Postmaster stated.

Mrs. Truitt Behrens visited Sunday afternoon with her parents, Mr. and Mrs. Leland Pierce at Hedley.

Mrs. Dale Hill, Bill and Phyllis visited Saturday and Sunday with Mrs. M. H. Lemons and family and Mrs. Hubert Heatherly in Amarillo.

Tom Corder of Amarillo visited relatives and friends here the week end.

Atomic Heating

A number of buildings now under construction at the Hanford (Wash.) Atomic Works will have the distinction of being the first structures in this country to be heated by atomic energy. Waste heat, now poured into the Columbia River, will be used in the process.

This heat is a by-product of the nuclear reactions involved in converting uranium into fissionable plutonium. Instead of being dumped into the river, the water carrying away reactor heat will be used to warm air which will be blown into the new buildings.

In addition to being a milestone in the use of atomic energy, the new heat recovery process will pay for itself in about seven and a half years. After that it will mean an estimated saving of \$57,000 a year to the Atomic Energy Commission, for whom General Electric operates the Works.

Now all the Hanford people need is a thermostat that splits another atom when the heat goes down.

The San Francisco Port of Embarkation loaded more than 11,000,000 (M) tons of cargo and moved 500,000 members of the Armed Forces and civilians to the Far East during the war in Korea.

105 In Clarendon Graduating Classes

One hundred and five students have been listed to participate in School closing commencement exercises. These graduating classes number quite a few less than last year which was one of the largest graduating classes in recent years. The total last year was 144.

There are twenty-three Jr. College graduates, twenty-eight High School graduates and fifty-four Jr. High graduates. These students who will go into other walks of life are listed below:

Junior College Graduates
Fanchon N. Allred, Shirley Sherrene Aten, Shirley Barker, Jack Howard Brooks, Charles Coney, Melade DeGasha, Harold L. Dillehay, Donald R. Dorman, Wanda Marie Elliott, Garland Fielding, Daniel Ray Heckman, Harold Hooker, Bob Hutcherson, Jo Anne Montgomery, Earnestine E. Mooring, Wendall Morgan, Jack R. Neeley, Jerry B. Price, Gayle Pyeat, Bobby Don Smith, Joe C. Smith, Weldon Talley, Charles Walker.

Those to visit in the home of Mr. and Mrs. June Taylor Sunday were Mrs. Lloyd Bray of Dallas, Mr. and Mrs. Ernest Kelley and children, also Mr. and Mrs. Viron R. Eaton, all of Borger, Dr. and Mrs. Byron Range of Shamrock, Alfred Taylor of McKinney, Texas, and M/Sgt. and Mrs. Robert Taylor and children of Amarillo.

Visitors thru the week end in the home of Mr. and Mrs. J. W. Moffett were Mr. and Mrs. W. Adams of Lockney, Troy Moffett of Dumas, Claude Moffett of Amarillo and S/3c Travis Mulanax.

FARM NEWS

from the County ASC Committee

WHEAT BUYERS WARNED ON '54 PURCHASES

Each person who buys wheat from a producer during 1954-55 is liable for the amount of the marketing quota penalty due on "excess" wheat of the 1954 crop, Mr. Ross Springer, Chairman of the County Agricultural Stabilization and Conservation Committee, pointed out today. Since marketing quotas are in effect for the 1954 crop, farmers who do not comply with their farm wheat acreage allotments become subject to a lien on their crop until the marketing quota penalty is paid.

"When anyone purchases wheat from a producer, he should be certain that such producer is eligible to sell his wheat," Mr. Springer declared. "He should, therefore, request the producer to present a wheat marketing card or marketing certificate at the time the wheat is offered for sale."

"Failure to present a marketing card or certificate at the time of sale will be evidence that the wheat is not clear of lien for the penalty, and the buyer will be held responsible for the lien the same as he would be for purchasing wheat with any other lien attached."

Mr. Springer further explained that the first purchases—such as a warehouseman—buying from an "intermediate buyer" may deduct the amount of the penalty per bushel on all wheat purchased from the total purchase price, just as if he were buying from a producer, if such seller does not present evidence that the

penalty has been satisfied.

Such collection should then be forwarded to the County ASC Office for the county in which the wheat was produced. An "intermediate buyer", according to the Chairman, is any buyer or transferee who purchases or acquires any wheat prior to the time the wheat so purchased or acquired has been marketed to a warehouseman, elevator operator, feeder, or processor, or any other grain dealer who conducts his business in a manner substantially the same as these buyers.

Those buyers who purchase wheat from anyone other than a producer or intermediate buyer will not be held responsible since the first purchaser of the wheat is liable for the total amount of the penalty unless a marketing card, a marketing certificate, or an intermediate buyer's record and report showing satisfaction of the penalty is presented at the time of purchase.

Mrs. Monica Harvey was moved to the home of Mr. and Mrs. Bob Harvey in Amarillo Saturday. She has been in St. Anthony's Hospital where pins were placed in her broken hip. She is able to be about in a wheelchair now and friends are wishing her continued improvement.

Visitors in the home of Mr. and Mrs. Clyde Butler Sunday were Mr. and Mrs. Earl Butler and boys, Mr. and Mrs. J. W. Butler and children, and Mr. and Mrs. J. R. Cowan and children, all of Borger; Mr. and Mrs. Loren Rhoades and son of Amarillo, and Mr. and Mrs. Glenn Butler and son of Claude.

Mrs. O. L. Jacobs of Amarillo spent the week with Mrs. L. O. Christie and family and Mr. and Mrs. S. M. Harp.

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

There has been only a few books added to our shelves this week. "Dahlias for Every Garden" by Marian C. Walker was placed on the garden shelf as a Mother's Day memorial to Mrs. Letitia Lumpkin by me, and Jimmy Lumpkin of Fort Worth gave a book in her memory for Mother's Day as she was his grandmother. The mail is slow from a city store, and his book has not been received.

Our readers are the primary grades and teen agers most of the time. We have about ten or fifteen who are adult readers. I notice that quite a few of our mothers assort their material—a fiction copy, a biography and then one copy that requires

thinking. The magazines attract as many readers as the book section. Please read with us.

Heard of a sheriff the other day who didn't know the meaning of the word "fear". Fact is, there were lots of words he didn't know.

This farm home was correctly identified by three persons this last week as the W. T. Floyd place located 4 1/2 miles southwest of Hedley. Mr. Floyd came in Thursday to make positive identification and receive his free picture.

This 369 acre farm was purchased by Mr. Floyd thirteen years ago. He has made numerous improvements which include remodeling of his home, a new garage and concrete tank. He has 215 acres in cultivation and the remainder in pasture. His main crops are feed and cotton with feed being his favorite crop. Mr. Floyd has been a resident

of Donley County 29 years. He and Mrs. Floyd were married in 1906. They have eight children and 19 grandchildren. The children are: F. A. Floyd, Clarendon; Mrs. J. H. Mace, Eldorado; B. V. Floyd, Borger; J. T. Floyd, Bowie; Mrs. C. C. Hoggard, Tucumcari; Mrs. Bill Lowe, Alameed; Ed Floyd, Hedley and Mrs. John Wade, Borger.

TO A SUCCESSFUL MAN PAST FORTY YEARS OF AGE*

Do you know the people in your community and are you in a position to explain an intangible asset to them? Do you wish to engage in a dignified business, setting your own hours, being your own boss, and having a potential of unlimited earnings? Can you intelligently present a plan to which anyone can say "yes" for their own benefit. No investment necessary—unlimited earnings in a profession you can engage in right from your own home, office or store.

*If you are younger and have the ability of a 40-year-old man, you may be qualified.

Investigate today—only a few men will be selected in each community. Write: P.O. Box 365, Fort Worth 1, Tex.

IF YOU LIKE IT in the showroom

... if you spark to the low-slung silhouette of this stirring Super "88" ... those long and lovely lines of sweep-cut doors and fenders ... the dramatic panoramic windshield that makes others look old ... in short, if this car gives you a thrill just standing still ...

-You'll Love it on the Road!

Super "88" 4-Door Sedan, A General Motors Value.

Love it? You'll rave about it! It's like nothing you ever felt before—because it's like nothing ever built before. Never such picture-window vision! Never such a road-hugging, relaxing ride! Never such a breathtaking burst of power as from this record-breaking "Rocket" Engine! Never such effortless ease and security as with this new Safety Power Steering*! Yes, behind the wheel of this Oldsmobile you're really living! So why waste another day of May? Make your date with a Super "88" today—for the "Rocket" ride of tomorrow!

*Optional at extra cost.

GARDEN HINTS

By DR. GEORGE ELLE
Professor of Horticulture
Texas Tech

Nothing has intrigued the gardener more in recent years than the magic possibilities of the use of hormones on plants. Actually there is nothing magic about them.

Hormones have been in common use by home and commercial gardeners for years. They are cheap, are available at most seed stores and are easily applied, even by the rankest amateur.

One of the most common uses of hormones on vegetables is to induce fruit-set on tomatoes during hot weather, a major problem in West Texas.

Here tomato plants bloom profusely but the bloom dries up and drops off, leaving the plant bare. With the aid of a fruit-set hormone, the flower can be induced to remain on the plant and the fruit develop. Furthermore, the resulting fruit is either nearly or entirely seedless.

This is how you apply fruit-set hormone on tomatoes.

When the flower buds first open, spray the hormone solution directly into each of the flowers of the cluster. Do NOT spray the foliage (many of the commercial hormones are merely dilute solutions of 2, 4-D, the hormone weed killer, and will result in severe stunting or death of

the plant).

One application per blossom cluster is adequate. Since only a very small volume of spray is used, a common bathroom atomizer will make an adequate sprayer.

This time of year many syndicated dispatches in newspapers and garden columns in popular magazines are singing praises of staking tomato plants and describing methods of procedure. As desirable as this practice may be in some areas of the United States, write it off your books for West Texas.

Tying tomato plants up on stakes is the surest way to reduce yields in this area. When plants are staked, it is necessary to prune away side branches and encourage only the main stem. This exposes the fruit to direct sunlight. In our climate, exposed fruit will sunburn, making it unfit to eat.

Here, our job is to protect the fruit from sunburn. This is most successfully done by encouraging

a good, heavy vine growth which will provide the necessary shade. Too, staked tomatoes are more subject to blossom end rot, one of the physiological diseases of tomatoes which become a serious problem in our area.

If you want more and better tomatoes allow your plants to vine naturally on the ground.

CPL. RONALD C. LAMBERTH RECEIVES PROMOTION

FORT CAMPBELL, Ky. — Corporal Ronald C. Lambirth, son of Mr. and Mrs. G. A. Lambirth of Clarendon, was recently promoted to the rank he now holds.

He is now assigned to the personnel section of the 76th Tank Battalion. The battalion is a supporting unit of the 11th Airborne Division.

Prior to entering the Army, the young soldier worked in the personnel office of the Phillips Petroleum Company. He was graduated from Clarendon High School with the class of 1951.

Thy Rights and Sides State CAPITOL

By VERN SANFORD
Texas Press Association
AUSTIN — All the questions having been resolved concerning who is going to run for what, the big political season is now under way.

Ralph Yarborough of Austin, who announced that he would be a candidate against Allan Shivers for governor, declared himself against breaking the two-term tradition in the chief executive's office.

Yarborough contends that Shivers actually is seeking a fourth term; the incumbent has served two elective terms in office, plus he unexpired term of the late Beauford Jester.

Machine politics and one-man domination of the state government were also charged by Yarborough as he put his name on the ticket.

Shivers had previously announced for an unprecedented third term for governor. He had stated prior to the announcement that there remain some things that need to be done, such as putting through a water conservation program.

No. 1 Problem
Governors of five Southwestern states attended a White House conference to talk about the drought.

"Agriculture and livestock are our No. 1 problems," Shivers said at the conference, and "a permanent solution for them must be found. Past efforts over many years have not been more than temporary expedients."

Present to confer with Mr. Eisenhower, Agriculture Secretary Benson, and other federal officers were the governors of Texas, Colorado, Oklahoma, New Mexico and Kansas.

Asked by the governors was a \$15 million appropriation to deal with emergency dust and wind problems. Placed before the President was a long-range program designed to eliminate conditions causing droughts in the Southwest.

Among the recommendations, drawn up by the governors, were: reseeding grasses and other cover crops, coordination of all federal and state agriculture agencies, more incentive for soil conservation practices, parity procedures to guarantee farmers in drought areas adequate prices for their crops, and tax policies designed to promote proper land management.

Shivers said that suitable farm land should be kept in farms, but land better suited to pasture should remain in pasture or be converted to pasture.

Close to Home
Prior to the Washington conference, Shivers had said that water conservation should begin at home, with towns and districts

taking the lead in financing and supplementary money to come from the state.

In a session here, directors of the Texas Water Conservation Association echoed that opinion, calling for financing at the "lowest practical political subdivision level."

Urged by the directors was a constitutional amendment setting up a state fund to underwrite local communities in building dams.

Money so used by the state would be recovered from the sale of water and electricity.

J. E. Sturrock, general manager of the association, was doubtful that the state would ever solve the water problem.

Sturrock said he had opposed federal participation in the water conservation program. But he said the people who are suffering from drought don't care whether the water comes from a state tap or a federal tap.

"The governor's in Washington today asking for drought aid," Sturrock commented. "If we'd had water conservation in Texas, we wouldn't need drought aid."

Senator Lyndon Johnson spoke for action to combat drought and asked for a \$15 million increase

in soil conservation funds. "This money," said Johnson, "would be used to fight the wind erosion that could so quickly turn one of the most fertile sections of four nation into a barren wasteland."

LOCAL YOUTHS PRESENTED AT "PRESENTATION DANCE"

From where I sit... by Joe Marsh

The "Write" Prescription

Noticed three half-finished letters lying on the counter down at Jones' Drug Store last week. "Writing three at once, Doc?" I asked.

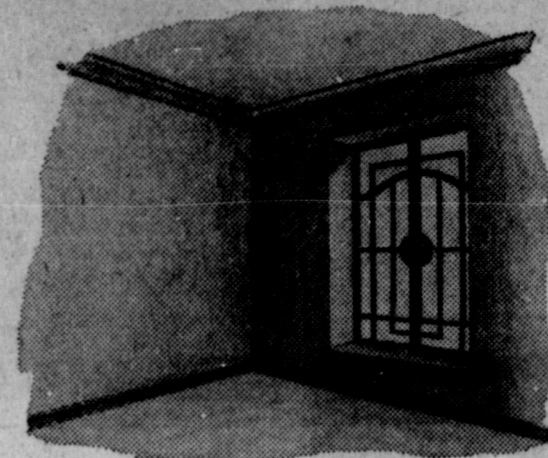

"No," Doc said, "you are—you and the rest of the town. Those are for the boys from our town who are at the National Guard encampment."

"Everyone who comes in adds a line or two, and when a couple of pages are filled, I mail them. That way the boys hear from folks who might not write otherwise. They sure do enjoy it."

From where I sit, little things can add up pretty big. A few short notes make a letter. Boys from our little town help build up a strong National Guard to protect our freedom. Even freedom is made up of a lot of things—living where we like, voting the way we think is right, choosing between coffee, tea, or beer at dinner. And anything that adds up to freedom gets my stamp of approval.

Joe Marsh

"Best Seller" for 3 good reasons

Buick now outsells all other cars in its price class and above

You've probably noticed it right in your own neighborhood.

Bright new Buicks appearing here, there, everywhere. And more and more of them in recent weeks.

Know what's happening?

Folks in growing numbers—(and maybe you'll be joining them soon!)—are finding Buick styling, performance and value far too wonderful to pass up.

So Buick is selling at a record pace—outselling all other cars in its price class and above.

Matter of fact, latest figures for the first quarter of 1954 show that, in total national volume, Buick is outselling every other car in America except two of the so-called "low-price three."

A look and a ride and a peek at the price tag will be all you'll need to know what's back of this best-selling success.

There's styling in Buick that's the greatest beauty advance in years—the very look of tomorrow—and with the spectacular panoramic windshield that's part and parcel of this dream-car look.

There's performance in Buick as never before—with record-high V8 power, with the sensationally smooth

whip of Twin-Turbine Dynaflo,* with the buoyant ride of all-coil-springing, with a new precision of control and handling.

And there's value in Buick that's hard to match—with prices starting near the "low-price three"—prices that buy more Buick beauty and power and thrill and sheer automobile than smart money ever bought before.

How about you?

Are you ready, willing and waiting to be shown that this best seller called Buick is the buy of the year for you, too? Drop in this week, or give us a call, and we'll arrange a demonstration.

Plowin' Out the Corners

By Uncle Zeb
Margaret Biglow expressed it this way;
Poverty asked, "Will it cost too much?"
Mammon asked, "Will it pay?"
And Scholarship, "Is the mea-

sure wise, and are you sure of the way?"
Statesmanship, "Can we find the time to finish before the night?"
But when the Seeker had heard them all, he only asked, "Is it right?"
Some time ago we started a collection of old time sayings. We thought it would be good to have one from just about all of the readers and keep them in our scrap book and pass them on to others. We had in mind the favorite expression of someone that you had known along the way, or for that matter a neighbor or just

anyone. We know one person that uses one in almost every statement. Someday we are going to list all that we can think of that we have heard this good friend use. I'll bet he would be surprised himself.
Anyway send them in. Such expressions and "Poor as Job's turkey", "Crooked as a dog's hind leg", "Honesty is the best policy" etc. Just any that you think about. If you will include your name and address and whether or not you take Southwestern Crop & Stock, a farm magazine which uses our column, we will send this magazine free for 3 years to the senders of the five best sayings. Mama and myself will be the final judges. I will read them to her and if she puts down her magazine for a moment then we will put that one in the finals. Hurry and help us fill our scrap book with your favorite sayings.

typewritten pages, so we just have to stall for space. Be sure and send in the sayings real soon so that we can use some of them now and then. Anyway, for this week we will ring off by including the following little poem as our suggestion for your scrap book this week. It is called
JUST BUILD A BETTER YOU
By Dorothy Jones
"Your task — to build a better world", God said.
I answered "How?"
The world is such a large vast place,
So complicated now.
And I, so small and useless am
There's nothing I can do."
But God in all His wisdom said,
"Just build a better YOU."

ing, we had retired about 9:00 P. M. I had left word at two places to be called, so that there would be no danger of oversleeping. We were to be awakened at 4:15. Everything taken care of, I went peacefully to sleep. Sometime later I awoke with a start, reached for my watch and saw that it was 4:30. Still groggy with sleep, I charged out of the bed and made a mad dash for the boy's room to awaken them. The route to their room led through the kitchen. We have one of these innocent looking trash cans with a trigger lid that someone had filled with trash and left sitting in the middle of the kitchen floor. This dangerous instrumentality was not only loaded with trash inside, but was loaded with No. 2 tin cans that had been left sitting on top of it. As I sailed through the kitchen, barefooted, by some queer quirk of fate, due no doubt to the darkness of the hour and the speed that I had generated, one of my feet landed exactly in the middle of the trigger and bedlam broke loose. The two cans took off in different directions like mortar shells and made contact several times during their flight with the kitchen sink, stove, and other objects incidental to the kitchen. Needless to say, this unusual incident together with the observations that I was making at the time, awakened the boys—and perhaps everyone else in the adjoining three blocks—whose first thought was that

the enemy had attacked. I started them dressing and limped back to my bedroom to do the same. My wife, in a very sweet and casual voice, asked, "Where in the world are you going?" In an equally sweet and casual voice (tinged with a little bit of sarcasm, according to her story), I replied, "My dear girl, this is the morning that we are going fishing. We are going to meet the man at five o'clock, and I always like to be very prompt." To which she very sweetly countered, "Well, you certainly ought to be on time, because it is now five minutes until eleven P. M." I went back to my watch, and sure enough, she was exactly right. What had happened was simply this. I have a watch that has dots on it instead of numbers, and I had looked at it upside down. Five minutes until eleven P. M. on an upside down watch reads just about four-thirty. She is still giggling about it, the boys haven't yet forgiven me, and the lid on the trash can hasn't worked since. To top it all off, when we did finally get up the next morning at five o'clock, it rained so hard that we couldn't go fishing, which was adding insult to injury.

for the reception given by the President and Mrs. Eisenhower, honoring the Congress. This reception was originally scheduled for March 2, but was postponed, as you will remember, because of the shooting by the Puerto Ricans of several House Members. It was an enjoyable affair, with the beautiful ladies all dressed up in their finest finery and the men in their white ties and swallow-tailed coats.
The first order of business was to pass before and shake hands with the President and Mrs. Eisenhower. I have never seen two people display more graciousness than did the President and Mrs. Eisenhower in this reception. The President looked fresher and Mrs. Eisenhower lovelier than I have seen them in some time. As soon as the guests had been received by the President and Mrs. Eisenhower—and the guests, incidentally, numbered some 1200—they moved on into the large dining room at the west end of the White House to be served a delicious punch and cake. As soon as the President and Mrs. Eisenhower had completed their duties in the receiving line, the orchestra in the East Ballroom played for dancing. It was a wonderful party and enjoyed by all.

Last week we accidentally ran into a Mr. Marshall who lives in the Ashtola community. In the course of our conversation we had to mention Plowin' Out The Corners as being our little pet project. Just imagine how good we felt when he told me that he and the Mrs. always turned to it the very first thing. If I should ask Mama what she had to say about this she would claim that in some way I waggled this compliment out of Mr. Marshall. Honest I didn't mean to. He just up and said it. Then, of course I came back with this "Tell the editor." Anyhow, sometimes we get to wondering if we are just cluttering up his paper each week. Especially, do we get to wondering if this is what he thinks. We say all this to ask another favor. If you do enjoy this little weekly visit be sure and express this to the editor and he will let us know about it real soon.
Probably by now we are caught up with. This is one of those weeks when we just don't seem to be able to fill up our two

Action is shaping up on the Number One Texas problem—water.

There is an increasing awareness of the vital need for a solution to this issue.

I have been working on this problem ever since I entered the Senate. My first major act as a Senator was a request for a comprehensive study of Texas Water reports by the Reclamation Bureau. That study remains today the only over-all attempt to solve our water difficulties! It has led to all of the other programs that have been put forward in the last two years.

At this time, I am seeking ac-

DR. H. R. BECK

DENTIST

Goldston Bldg.

Clarendon, Texas Phone 46

tion on my proposals to build small, upstream dams. These would tackle the problem at the source of most of our difficulties. Meanwhile, pending long range measures, action is proceeding on other fronts.

At the time this is written, there is a bill pending before the Senate to release 15 million dollars for wind erosion payments. Its chances for passage are excellent—it may be law by the time you read this letter!

This measure has been urged by the Governors of the "dust bowl" states. It would authorize payments for "deep plowing" (sometimes called "chiseling") of the soil. Payments would cover cost but could not exceed one dollar per acre.

The bill would be a healthy first step towards recovery from soil erosion. But other steps are needed! Farmers have exhausted their capital in months of battling drought. Some form of rehabilitation is in order! Neither must we forget the communities which have been set back by the long, dry hot weather.

But above all, we must realize that any break in the drought is only part of a cycle! What has happened before, can happen again. The drought can return and reap another harvest of misery—unless we are prepared. We must get down to some

basic fundamentals. The good Lord has entrusted to us a certain amount of natural resources. The most precious are soil and water. Without them, we cannot live. Without them, there can be no future for ourselves and our children.

We cannot increase those resources no matter what we do. We can only make intelligent use of the resources we have! If we exercise our God-given intelligence, they will last indefinitely for ourselves and our children. We can even increase their yield. But if we sit by idly while they blow away, there will be no future! At the present rate of population expansion, we will feel the pinch in less than a generation!

What can we do? We can build dams that will hold back the flood waters and leave our topsoil intact. We can build reservoirs that will store water as though it were more precious than rubies—which it is! We can step up our research into converting fresh water from sea water. We can investigate rain-making further—so we can dump the moisture in the air on dry—rather than sodden—land.

Above all, we can become water conscious! We have plenty of plans. We have plenty of skill. What we need is action! Action will come when we are determined and that can't be too soon!

A CROSSROADS:

Indo-China is still the crossroads of American foreign policy! After weeks of anxious debate, a clear-cut solution is still eluding our best-informed military and diplomatic leaders.

Only one thing is clear. Almost every American is hoping and praying that it will not end in another war to be fought by our young men. I share those prayers. I pray that all of us working together can find the course that will save our youth from their third armed conflict in a generation.

OLD-AGE ASSISTANCE:

Two years ago, I was co-author of legislation which increased Federal public assistance payments to States for aid to the aged, blind and disabled by \$5 a month and to dependent children by \$3 a month.

This increase was for two years. Unless action to extend it is taken during this session, it will expire September 30.

Legislation to extend the increase has been introduced in the Senate. The bills are in the Senate Finance Committee, but I am informed that no action will be taken until the House passes a

bill.

HOMESTEAD EXEMPTIONS

I am now making 1954 assessments of taxes for Donley County and the State of Texas.

The law provides that you must render your taxes in person if you wish to claim credit for Homestead Exemption.

Assessments must be made on or before May 15, 1954 in order to secure this exemption of state taxes on your Homestead.

Please call at our office in order to make sure that you have proper credit on your homestead for your taxes of this year.

Our office is located at the Court House in Clarendon.

ONLY PHILLIPS 66 BRINGS YOU

Flite-Fuel

PHILLIPS IS FIRST to bring you a gasoline with the added super aviation fuel component, Di-isopropyl (pronounced di-iso-pro-pull). A Phillips exclusive, developed originally for highest performance military aircraft.

Phillips was the first to make Di-isopropyl and HF Alkylate—so valuable to smooth motor performance that, until recently, their use was restricted by the U. S. Government to high performance aviation gasoline. Now authorities have removed these restrictions, and these powerful components can be blended into new

Phillips 66 FLITE-FUEL. New FLITE-FUEL provides increased power, higher anti-knock performance, greater fuel economy and freedom from cold stalling. You also benefit from Phillips 66 controlled volatility and remarkable clean burning qualities which eliminate the need for an additive to combat engine deposits.

Only Phillips 66 FLITE-FUEL contains added Di-isopropyl. Get it at stations where you see the orange and black Phillips 66 Shield.
