SALVATION IN CHRIST

"Salvation in Christ" was the subject discussed by Dr. Ligon Wednesday night at the Church of Christ. The evangelist used several scripture texts to show that we are saved in Christ, and to be in His body, the church of God.

MOVED TO BAIRD

G. D. Adams came up last week and moved his family to Baird, their future home. Mr. and Mrs. Adams lived in Colorado for twenty-one years. All of their children were reared here and all graduated from high school. James, the youngest, was a member of the graduating class this year. All the family have an unusual record for attendance in the Baird Sunday School, and the family will be missed.—Colo-

GOOD RAINS IN CALLAHAN

A good rain fell Thursday night of last week after we had gone to press.
 Rain again Monday, Tuesday and last night.

FARM BUREAU ORGANIZERS HERE

A team of field workers, consisting of G. A. Lackey, J. V. Hart, Herbert Hampton, and Hanna, Jr., spent the week here, organizing a new national farm bureau. The organization is a new member bank of the National Bank of Commerce and Trust company, Wharton National bank, First National bank of Quinlan.

IMPORTANT CASES TRIED

The most important cases tried in the Callahan court last week were the case of the mass meeting of the Callahan school district last week. Quantities of machine guns have been received by the Turkish nationalists from Russia. Gold and silver bullion is also being sent into Asia Minor by Russia to be minted.

Memorial services were held near the spot where the Titanic went down. A wreath of flowers rose and fell on the bosom of the ocean grave of the victims of the great sea disaster. Dropped from the side of the steamer Lorraine by Captain Coaturon, the tribute rested for a while on the moving mound then became water soaked and sank to a place beside the heroes it was sent to honor.

The Borah resolution recently passed by the United States senate, suggesting the calling of an international disarmament conference, was under discussion in the house of commons last week.

A hope that the nation would never be called upon to fire a gun in war again was expressed by President Harding in presenting diplomas to the graduating class at the Naval academy last week.

The British government considers the test case in which the owner of Russian gold is to be determined, and upon which the consummation of the Anglo-Russian trade agreement rests as virtually settled.

A rapid increase in the number of licensed cotton, grain and wool warehouses under the federal warehouse act in the southwest is expected as a result of the establishment of administrative headquarters at Dallas, Texas.

Germany last week completed payment of the 1,000,000,000 gold marks due as the first payment on reparations under the peace treaty, when 20 German treasury notes, equivalent to 850,000,000 gold marks, were handed to the reparations commission.

Colonel Miller, who lost his life recently in an airplane accident in Maryland along with six others, was well known in Texas, having been commanding officer at Kelly Field, San Antonio.

President Obregon of Mexico, in a circular directed to the governors of all the states, described bolsheviks as persons acting wholly outside the law and requested that all means and measures be utilized to prevent demonstrations of a serious nature by them.

All property in Philadelphia owned by Grover Cleveland Bergdoll, convicted draft evader and army deserter now in Germany, and valued at about \$350,000, has been seized by Col. Thomas W. Miller, alien property custodian of the United States.

The trial of former Lieutenant Karl Neumann, who was charged with sinking the hospital ship Dover Castle while in command of a German submarine during the war, has been stayed as a preliminary examination of the case resulted in his complete innocence being established.

Several hundred persons narrowly escaped death from drowning at Ashland, Wis., last week during memorial exercises, when the commercial pier, on which the exercises were held gave way, toppling them into the bay.

TEXAS LEGISLATION SCORED BY WESTERNERS

Mass Meeting at Barnhart Urges Sale of School Lands

San Angelo, Texas.—Acts of commission and omission by national and state legislatures were scored Friday in a mass meeting at Barnhart of representatives from a half dozen west Texas towns.

Resolutions prepared by Howard B. Cox of Ozona, Dr. A. Helbing of Barnhart and W. O. Alexander of Eldorado favored a law authorizing the sale of university and school lands from which counties now get no tax revenues, the repeal of the truck bill, the redistricting of Texas, the passage by the legislature and signature by the governor of another west Texas agricultural and mechanical measure and the passage by congress of the French-Copper pure fabrics bill, compelling cloth manufacturers to label their goods to show the per cent of shoddy used, thus protecting the public from clothes made of all wool rags instead of virgin fabrics.

Enforcement of the truck bill providing a graduated tax from 1c to 5c per mile traveled by every truck would cost Sonora and Ozona each \$10,000 annually and Eldorado \$7,000 a year in increased transportation charges, which would be added to the costs of merchandises, the west Texans were told by representatives of the West Texas Chamber of Commerce who were present.

SHIPPING BOARD IS CHARGED WITH GRAFT

IOWA SENATOR FAVORS INQUIRY —\$75,000,000 DEFICIENCY APPROPRIATION APPROVED.

Washington.—“Can not get down until Tuesday a. m. Hotel Fairfax Eight-thirty.”

This, according to Senator Kenyon of Iowa, was a telegram sent by an employe of the shipping board to a young lady, at government expense. He read it from the floor of the senate Friday, during the course of a sharp attack on the shipping board, to support his contention that shipping board affairs “reek of graft” and that the board is badly administered.

Here are some other telegrams Mr Kenyon read:

“Please mail three blank checks to Shoreham Hotel, Missed Norfolk boat Friday night.”

“Leave door open. Be home about midnight tonight.”

Another telegram had to do with the purchase of tickets for the Yale football game.

Kenyon explained that the cost of these telegrams to the government was small, but, he argued, their transmission at the expense of the government illustrated the general condition of laxity.

Kenyon spoke in support of the resolution of Senator King of Utah, a democrat, seeking a thorough inquiry into all shipping board affairs. A number of senators of both parties likewise indicated their belief the resolution should be adopted.

The senate was considering a \$75,000,000 deficiency appropriation for the board, contained in the deficiency bill now under consideration. Despite condemnation of the board, the item was approved.

Kenyon read into the record the salaries paid many shipping board officials. He said there were too many officials and that their salaries are too high. He read from an investigation previously made by a house committee to substantiate his charges of graft.

“No private business could be run as the shipping board has been operated,” Kenyon declared.

Kenyon cited a printing bill of \$50,000 for a single day as an example of unwarranted expenditure.

Senator Smoot of Utah, a republican, pointed out that the shipping board auditor drew \$15,000 annually, while other auditors in government departments drew but \$4,000.

TWO NEGRO CHILDREN HORRIBLY BUTCHERED

Apparently Crazy Father is Taken Into Custody By Police.

Dallas.—Neighbors entering the home of Charles Hayes, negro, 5112 Terry avenue, about 3 p. m. Friday, discovered a gruesome butchery of two babies, Dorothy and Minnie Edna, 3 years old, respectively, Hayes.

One of Dorothy, the 2-year-old, had been bleeding from a wound on her head.

The police, after a search, found the bodies of the children in a room.

At Tyler, Texas, all business houses close on Sunday. Let's see, Baird has the same law that they have at Tyler, but the tendency here seems to be toward a wide open Sunday, while Tyler is for a closed Sunday. Regardless of what secular laws may say, the Divine Law, enunciated on Mount Sinai, nearly four thousand years ago says:

Remember the Sabbath Day to keep it holy. Six days shalt thou labor and do all thy work; but the seventh day is the Sabbath of the Lord thy God; in it thou shalt not do any work, thou nor thy son, nor thy daughter, thy manservant, nor thy maidservant, nor the stranger that is within thy gates. For in six day the Lord made heaven and earth, the sea, and all that in them is, and rested the seventh day; wherefore the Lord blessed the seventh day and hallowed it.”

ADDS TO LEGION'S STRENGTH

Commander of Minnesota Department Has Way of Doing Things That Gets Results.

Under the direction of A. H. Vernon, commander of the Minnesota department of the American Legion, that state has become one of the strongest Legion departments in the country.

Commander Vernon's theory is that success comes to the Legion in proportion to the service it gives to its members and to the state. In carrying out this policy he has built up a Legion Service bureau which handles one thousand ex-service claims a month and a department branch of the American Legion News Service.

Early in 1921, when the Federal board for vocational education prepared to send representatives to sixteen centers in the state to examine disabled veterans, the authorities were handicapped by a lack of publicity. Commander Vernon prepared twenty thousand large posters and placed them on every billboard in the state. This was supplemented with every newspaper in the state.

all ages and all lands are prone to harp on one string, but the tramp of the Legion is in time and tune with all the chords of throbbing life. It is not merely handsome clay in uniform; but shined in manhood from its toes to its brains. It has that delightful mixture of sense and spirit, of power and chivalry, of shop and farm, which tickles the popular taste. It neither bleats over its woes nor boasts of its prowess.

“When the mighty military machine dissolved in our citizenship the fragments coalesced through the sympathetic attraction of a high purpose—for in defending the institutions of America the Legion learned how to value them. Thus it possesses a moral prerogative to tread down lurking disloyalty. We are proud to be the fathers and mothers, cousins and aunts of the Legion. We shall sleep sound at nights. And when the historian winds up the task of glory-painting its battles we trust that he will use a golden drop of ink in stating that congress dealt a belated, but a glad and generous, bonus.”

The bird was placed in a show window on the main street in the Kansas town. Five hours he scratched and scratched, which was worth \$328.

The Intermediate Classes had their inning Wednesday night, May 25, when they presented to a crowded house, in the school auditorium, a most unique and interesting program, beginning with an opening song by Fifth and Sixth Grade girls, followed by Mildred Holmes, in a piano solo, the junior play, “Cooperation,” produced by Fifth and Sixth Grade pupils and then the finale, a screaming three-act farce comedy, “The Hoodooed Coon,” the action of which took place in a railroad station in “Slabtown, Missouri.”

The characters were well portrayed and the actors got generous applause, as did the well-trained vocalists in their “Indian Song,” between the first and second acts, and “We've Got the Mumps,” be-

POST GETS ARTISTIC

Chicago Organization Acquires Use of Famous World's Fair Field Museum Building.

The American Legion will soon have the use of a building known to millions in America as the embodiment of beauty in art and architecture, the old Fine Arts building of the 1893 World's Fair. The crack of army rifles will be heard in the famous structure, for it has been turned over to the Hyde Park post, No. 34, of the Legion in Chicago, as an indoor rifle range.

The large edifice, known as the old Field museum after the World's fair, was evacuated with the completion of the new Field museum. Various organizations of Chicago immediately besieged the park commissioners for permission to use the building, but the Legion post's request alone was granted.

Legionnaires now have a rifle range de luxe, one that will tend to erase the veteran's memories of sweltering days, shivering days and cold, moist days spent in trying to locate the bullseye on the army's outdoor firing points. The building is so large that a 200-yard range was established without difficulty, along with the shorter distances.

Visitors to the Texas state fair of 1921 will enjoy the most pretentious program of amusements ever brought to the southwest or ever attempted at any exposition, excepting the great world fairs, according to W. H. Stratton, secretary of the fair.

RELIEF IS NOW BEING RUSHED TO PUEBLO

WESTERN STEEL CITY IS SWEEPED BY A RAGING TORRENT; HEAVY LOSS OF LIFE

MILLIONS PROPERTY DAMAGE

Several Hundred Are Dead and Thousands are Made Homeless by Flood

Pueblo, Colo.—Lives of 500 men, women and children were snuffed out here when floods swept down from the mountains in this city Friday night.

One hundred and ninety nine bodies have been received and are in the improvised morgues. Hundreds of survivors viewed the corpses in an effort to identify the dead. Search for the dead continues under the direction of military and civil authorities.

Damage from the flood and fires which followed was estimated at least \$10,000,000.

Refugees all being cared for in municipal buildings. Many are without adequate clothing. Food is being doled out in small quantities to women and children. Military guards were ordered to shoot looters on sight.

Rescue work is carried on under greatest difficulties. The light plant was put out of commission with the first flood of waters and relief workers were forced to work in darkness.

Denver, Colo.—The death list in the Pueblo flood will exceed 200, according to reports reaching here from the stricken steel city of the west.

Appeals for help were brought by C. R. Rallsback, a railroad agent, who was named to carry the news to the outside world.

The city is in dire need of food and clothing.

There were two separate cloudbursts. The first, although it swelled the little Arkansas river to a stream miles wide, did not do such great damage. It broke at 7 p. m.

The people were warned and were able to flee to safety.

They were starting to venture back to their homes at 10 p. m., when a second flood was let loose from the skies.

This came without warning and with a suddenness that caught many unprepared.

Buildings Washed Away

Buildings were washed away before the tide, which was said to have been at least six feet high.

Large buildings, where many had taken refuge, were carried away.

Fires broke out as the water started to go down. Flames lighted up the skies.

As the refugees gathered in the buildings still standing they suffered greatly from the intense cold which followed the deluge.

Survivors were able to save only little clothing. The city was without lights, gas or water.

Water stood ten feet high in the business section. The torrent of water carried bodies of the dead down Main street, while the crowds of refugees gathered in buildings, looked on helplessly.

Many campers who at this time of the year gather in the mountains from all parts of the country were believed drowned. Camps usually made in valleys near streams undoubtedly proved death traps for many.

Admiral Simms is shooting off his mouth in England again, and may have to explain his remarks about the Irish-Americans that he says are not Americans, but Sinn Feiners.

Certain women, who think they are leaders as equal suffragists, announce that they will ask Congress to submit a constitutional amendment allowing women to retain their maiden name after marriage.

Why certainly! The people would just fall over each other to vote for such a fool amendment—in a horn! Why not amend the constitution allowing the women to wear the breeches, also; some do this without any law.

As a rule, we are for Americans against the world, but if the American happens to be a slacker, like Dempsey is charged with being during the war, then we are for the other fellow. We sincerely hope that Frenchman will maul the stuffin' out of Dempsey, in the bout to come off in New Jersey July second, but we fear he will not be able to do it.

Carpentier is a representative Frenchman and fought for his country during the war. Dempsey is not a representative American, because he sought a soft snap in a shipyard during the war, to keep from entering the army. If this is true, it has never been proven formal... it deserves the scorn... rioting and... blooded day night and... which resulted in the... white men and twenty-one... and property loss estimated at \$500,000, will begin June 8, and that Tulsa business men will rebuild the square mile of negro residence district devastated came almost simultaneously late Thursday.

Earlier in the day before his departure from Tulsa for Oklahoma City, Gov. J. B. A. Robertson, who came here to take personal charge when he declared martial law Wednesday morning, argued upon Val Jean Biddison, district judge of Tulsa county, the importance and necessity of a state investigation. At the same time, however, the governor expressed doubt that any good would result from the inquiry, pointing to a previous failure in Tulsa county in the case of a lynching.

An executive committee of seven appointed at a meeting of prominent Tulsans after pleas and promises of immediate relief for the thousands of destitute refugees had been made, announced that the committee would undertake first to alleviate the miseries of the negroes rendered homeless, and then would rebuild the destroyed district.

A subscription of \$500,000 will be asked, it was announced, and the homes actually owned by the negroes will be reconstructed. No attempt will be made by the committee to rebuild the business buildings in the district, many of which were owned by white people, or homes which were rented, members said.

The committee of seven also voted to employ immediately as extra policemen, fifty members of the American Legion. A sum for their pay for 30 days was appropriated, after which efforts will be made to continue them with city funds.

Speakers, talking in plain terms, laid the cause for the rioting and torching at the failure of the city and county peace officers to function, with an apathetic attitude toward lawlessness and law law enforcement by

Representative district.

At Baird Barker had two to one over Burkett, 72 to 36. We felt sure Burkett would carry his own county, and see no reason why Callahan should have voted against him. He was reared in this county and we never heard anything against his character. Barker was unknown and we never heard of him until he announced for the Senate. Few knew how he stood on any question.

We preferred Burkett to a man we did not know anything about, but evidently most of those who voted against Burkett in this county preferred a man they did not know to one they did know. That is their privilege, of course. Not more than one fifth of the vote was polled in this county and not much better over the district.

TWENTY-EIGHT ADVANCE INTO HIGH SCHOOL SESSION 1921-22

The Baird High School will, according to present prospects, have a membership of twenty-eight bright and ambitious new students, to take the place of the eleven seniors who will leave this year. These boys Rowland... night riot.

Tulsa, Ok.—Tulsa is again under control of its regular constituted officers and county authorities, the reins of government having been turned back by Adjutant General Charles F. Barrett, in command since Wednesday morning under a proclamation of martial law, who issued a recall order and out-of-town troops here entrained for their home stations.

The 325 National Guardsmen resident in Tulsa were maintained on active duty, however, and for the time being Tulsa will remain under semi-military control to prevent a recurrence of the rioting of last Tuesday night and Wednesday morning, which cost thirty lives, approximately 400 wounded and property damage estimated at \$1,500,000.

Withdrawal of the troops was over the protest of the chamber of commerce of Tulsa, but was in accordance with advice of the special board of public welfare of seven civic leaders, which assumed control of relief and rehabilitation and steps preliminary to the grand jury investigation which has been ordered for June 8.

Advices from Washington state that a federal inquiry has been ordered.

Big Guns Run Man Crazy

Canton, Ill.—Because he was close to big guns in the army, James Hamilton Irvin of Chicago was saved from conviction for murder. A jury found that he had killed Daniel Young at Clinton on Nov. 26, 1920, but that he was insane at the time. Two weeks' continual firing of 150-centimetre guns caused Irvin's insanity, it was testified at the trial. His company was stationed just in front of the guns.

1920-21 school year:

The following twenty pupils made 100 in department during the school year:

- Everett Alphin, Bonnie Bell James, Hilda Bains, Earle M. Farmer, Winnie Bibb, Christine Glover, Marjorie Boren, Samaria Grifiths, Dale Brown, Beulah Jones, Gladys Brown, J. B. Morrisset, Pearl Cleveland, Cathrine Mulligan, Mae Carlile, Birdie M. Pointe, Marie Dawkins, Anness Reynolds, Kirby Dawkins, Golda J. Wristen, Mable Redding

In accordance with the meritorious custom which has prevailed for several years in Baird at the close of the school term, that pupil in each of the eleven grades and in the overflow room, who had the highest general average, was, on commencement night, presented with a gold medal by President of the Board of School Trustees L. L. Blackburn, the medals being contributed by patriotic friends of the school. The following were the medalists, their grade and the contributor of the medal:

- 11th Grade, Marie Dawkins, 98; medal contributed by C. B. Holmes.
10th Grade, Ross Dawkins, 97; medal contributed by Dr. R. G. Powell.
9th Grade, Henry McGowen, 95; medal contributed by Home National Bank.
8th Grade, Elouise Haley, 98; medal contributed by E. M. Wristen.
7th Grade, Mary Darby, 97; medal contributed by B. C. Chrisman.
6th Grade, Ruth Strain, 97; medal contributed by W. D. Boydston.
5th Grade, Jacqueline Stephens; medal contributed by First National Bank.
4th Grade, Madge Holmes, 96; medal contributed by T. E. Powell.
3d Grade, Vernon Johnson, 98; medal contributed by A. D. Williams.
2d Grade, Jesse Cummings, 96; medal contributed by L. L. Blackburn.
1st Grade, Anness Reynolds, 96; medal contributed by Mayfield & Hall.
"Overflow" Room, Frances Vestal (low fifth grade), 98; medal contributed by Will Dawkins.

The graduates of the 1920-21 Senior Class (11th grade), were Jessie Lidia, Pearle Cleveland, Edith Marie Bowlus, Anna Marie Dawkins, Aliene Ivey, Catherine Mae Pointer, Eva Cutbirth, J. B. Morrisset, R. F. Jones, Beulah Frances Jones. The class motto was: "Tonight we Launch; where shall we Anchor?" The class colors were pink and white, the class flower pink and white carnation.

Fourteen Texas Colleges and Universities presented scholarships to the following graduates:

- Anna Marie Dawkins — Abilene Christian College, Denton College of Industrial Arts, Georgetown Southern University, Howard Payne College, North Texas State Normal at Denton, Simmons College, John Tarleton College, Texas Woman's College, Trinity University, Texas Christian University at Fort Worth, Baylor College.

Catherine Mulligan — Texas Christian University at Fort Worth.

University of Missouri at Columbia — University of Missouri at Columbia.

DAIRY PRODUCTS—Butter, A. & S. steady during the week under the active storing demand, but prices practically unchanged. Closing prices, 92 score: New York 25c; Chicago 28 3-4c; Philadelphia and Boston 30c.

HAY—Demand very quiet, Eastern markets dull. Some accumulation in central western markets during holiday causing declines of 50c to \$1. Country loading very light. Arrivals most of low grades which are hard to sell. Quoted June 1: No. 1 alfalfa Memphis \$26, Atlanta \$32, Omaha \$20. No. 1 prairie Kansas City \$14, Omaha \$12.

FEED—Bran and middlings weak and quoted lower. Corn feeds strong on higher corn prices. Alfalfa meal unchanged. Cottonseed meal steady. Demand for all feeds falling off. Export sales high protein feeds falling off. Steaks of nearly all feeds in dealers hands and in storage ample; of alfalfa meal, light. Good pasturage conditions in principal feeding sections causing hand to mouth buying and poor inquiry for deferred shipment. tween the second and third acts, by pupils of the Fifth and Sixth Grades.

Thursday night, May 26, the Senior Class Play, "The Kingdom of Heart's Content," in three acts, was presented by a cast most excellently selected, the receipts from which was \$91.50. As entr' acts there was music, Carlton Powell on the saxophone, Mrs. C. B. Holmes in a vocal selection and the talented Harold Wristen at the piano.

The graduating exercises were held Friday night, Prof. J. C. Hardy, President of Baylor Female College, at Belton, delivering the commencement address. His theme was "Democracy," and the sort he preached was of rather a puzzling brand. Boasting "I was born in Mississippi, state of Davis, Lamar and George," and that "my father, who was a Confederate soldier and a slave owner, did not see me until I was six months old," the speaker proceeded to excoriate these dead and gone heroes, and scornfully arraigned "this old slave holding class" as "oligarchs and far removed from true democracy," which sort of preachment caused the recent fatal negro uprising in Tulsa,

Oklahoma, and must have caused the dead and gone upholders of this "oligarchy" to turn over in their grave, and did cause any ex-Confederate soldier who fought under the Bonnie Blue Flag, sacred emblem of this "spurious democracy," who heard him, to grit their teeth.

The scholastic enrollment for the session just closed was 680, the average attendance was 525, and it was the most successful session in the history of the school.

NEW TELEPHONE SUBSCRIBERS

In the month of May we installed in Baird ten telephones, or, in other words, ten new subscribers. I feel that good service is responsible for additional patronage, and I wish to state that we appreciate the opportunity of being able to give good service to our subscribers. If your service is not good, please tell us and we will be on the job to correct the same.

TULSA'S OFFICERS BLAMED FOR RIOT

GRAND JURY WILL INVESTIGATE RIOT—COMMITTEE OF SEVEN TO DIRECT RELIEF WORK.

Tulsa, Okla.—Announcements that a grand jury would investigate the rioting and the committee of seven to direct relief work were made here Tuesday morning.

Earlier in the day before his departure from Tulsa for Oklahoma City, Gov. J. B. A. Robertson, who came here to take personal charge when he declared martial law Wednesday morning, urged upon Val Jean Biddison, district judge of Tulsa county, the importance and necessity of a state investigation. At the same time, however, the governor expressed doubt that any good would result from the inquiry, pointing to a previous failure in Tulsa county in the case of a lynching.

An executive committee of seven appointed at a meeting of prominent Tulsans after pleas and promises of immediate relief for the thousands of destitute refugees had been made, announced that the committee would undertake first to alleviate the miseries of the negroes rendered homeless, and then would rebuild the destroyed district.

A subscription of \$500,000 will be asked, it was announced, and the homes actually owned by the negroes will be reconstructed. No attempt will be made by the committee to rebuild the business buildings in the district, many of which were owned by white people, or homes which were rented, members said.

The committee of seven also voted to employ immediately as extra policemen, fifty members of the American Legion. A sum for their pay for 30 days was appropriated, after which efforts will be made to continue them with city funds.

Speakers talking in plain terms held the cause for the rioting and torching at the failure of the city and county peace officers to function, with a sympathetic attitude toward law-abiding and law enforcement by

the citizens themselves as contributing factors.

General Barrett said that he came to Tulsa with 100 uniformed men from Oklahoma City and in a short time pacified 25,000 armed, milling men, and said the sheriff could have done it with equal facility if he had used his power to displace assistants. The general said the presence of six uniformed policemen or a half-dozen deputy sheriffs at the county building Tuesday when whites, bent on attacking a white girl, clashed with negroes, had prevented the riot.

Tulsa, Ok.—Tulsa is again under control of its regular constituted city and county authorities, the reins of government having been turned back by Adjutant General Charles F. Barrett, in command since Wednesday morning under a proclamation of martial law, who issued a recall order and out-of-town troops here entrained for their home stations.

The 325 National Guardsmen resident in Tulsa were maintained on active duty, however, and for the time being Tulsa will remain under semi-military control to prevent a recurrence of the rioting of last Tuesday night and Wednesday morning, which cost thirty lives, approximately 400 wounded and property damage estimated at \$1,500,000.

Withdrawal of the troops was over the protest of the chamber of commerce of Tulsa, but was in accordance with advice of the special board of public welfare of seven civic leaders, which assumed control of relief and rehabilitation and steps preliminary to the grand jury investigation which has been ordered for June 8.

Advices from Washington state that a federal inquiry has been ordered.

Big Guns Run Man Crazy

Canton, Ill.—Because he was close to big guns in the army, James Hamilton Irvin of Chicago was saved from conviction for murder. A jury found that he had killed Daniel Young at Clinton on Nov. 26, 1920, but that he was insane at the time. Two weeks' confinement in a 150-cell mental hospital caused Irvin's insanity, it was testified at the trial. His company was stationed just in front of the guns.

THE MARKETS

Supplied by the Bureau of Markets, Department of Agriculture, Washington, D. C.

Washington, D. C., June 2, 1921. LIVESTOCK AND MEATS—Chicago livestock prices declined 5c to 10c per 100 lbs. the past week. Beef steers advanced 25c; butter cows and heifers averaged about steady, veal calves gained 50c to 75c to \$1; fat swine practically unchanged; yearlings up 25c to 50c. June 2 Chicago prices: hogs, bulk of sales, \$7.70 to \$8.10; medium and good beef steers \$7.50 to \$8.45; butcher cows and heifers \$4.50 to \$5.75; feeder steers \$6.75 to \$8.25; light and medium weight veal calves \$7.25 to \$9.75; fat lambs \$8.75 to \$12.50; yearlings \$8.75 to \$10.50; fat ewes \$2.25 to \$4.75. Blocker and feeder shipments from 11 important markets during the week ending May 27 were: cattle and calves 22,237; hogs 8,674; sheep 18,414. With the exception of mutton eastern wholesale fresh meat prices, tied firm to higher. Beef advanced 7c to 10c, \$1 to \$2 per 100 lbs. and mutton 5c to 10c.

Waxahatche, Texas.—After deliberating about two hours Wednesday afternoon, a jury in criminal district court assessed the penalty of J. V. Campbell, about 25 years old, Mid-Missouri farmer, charged in a grand indictment with an offense against the 14-year-old daughter, at 20 years in the state penitentiary. After the jury had heard the evidence, it received the charge of the court and found the defendant guilty as charged in the first two counts.

Washington.—The bill to establish the federal government's liability in the light of exterminate the pink bollworm will be an independent measure and introduced by Senator Shippard following a conference with Chairman Norris of the senate agriculture committee. Mr. Harding left for Des Moines, Grayham, Denver, Albuquerque, El Paso, San Angelo, San Antonio and Dallas.

FRUITS AND VEGETABLES—Bakersfield round white potatoes down 15c to 15c per 100 lbs. at Minnesota shipping points, closing around 60c. Chicago car lot market nearly steady at 60 to 70c. Texas and Louisiana sacked Blue Tri-umbles \$2.25 to \$3.50 per 100 lbs. in midwestern cities. Texas yellow Bell mounds onions down 5c to 25c in consumption markets at 90c to \$1.75 per standard crate; \$1.40 to \$1.75 in eastern centers; 90c to \$1.50 in midwestern.

CHICAGO—Chicago July wheat advanced 15c during the week closing at \$1.40 3-4 July open 1-1/4 of 47c. Balance in southwest resulted in earlier market first of week with trading in July restricted by nervous fluctuation in futures which closed at \$1.37 on the 21st—the highest point for the season. With uncertainty in May removed, bullish crop reports and good export demand July wheat trended upward the latter part of the week. Highest crop report indicates yield of 253,000,000 bushels in six states. Highest estimates that while farm reserves liberal small holding at terminals and mills will make total carry over much below average. Practically all of Kansas now relieved from drought. Harvest now under way at far north in Oklahoma and about to commence in Kansas. Corn somewhat firmer with wheat, but undertone not strong. Offerings light. In Chicago cash market No. 2 red winter wheat \$1.62; No. 2 hard \$1.65; No. 2 mixed corn 62c; No. 2 yellow corn 64c; No. 2 white oats 41c. For the week Minneapolis July wheat up 1-1/4 to \$1.38-1/4; Kansas City July 15c at \$1.32 1/4; Winnipeg July 14 5-16 at \$1.78.

RAILROAD PAYROLLS SLICED 400,000,000

CUT OF TWELVE PER CENT MADE —THIRTY-ONE UNIONS ARE AFFECTED.

Chicago, Ill.—Four hundred million dollars a year will be slashed from the nation's railway wage bill when an order handed down Wednesday by the United States railroad labor board takes full effect. The decrease is effective June 1 on 104 lines. Granting the petitions of the companies, the board will direct an average cut of 12 per cent, which eventually will apply to all the railroad employes of the country. Members of thirty-one unions are affected immediately.

The cuts range from 5c to 15c an hour, or from \$10.20 a month for apprentice boys to \$24.52 for the better paid skilled labor, figuring on an eight-hour day basis.

The decision granted reductions varying from 5 to 15 per cent and in the case of section laborers completely wiped out the increase granted that class of employes by the \$500,000,000 wage award of July 20, 1920. Section men who had been receiving \$1.70 for an eight-hour day were cut to the same figure in effect under federal control. The reduction was approximately 15 per cent.

Switchmen and shop crafts were given a 9 per cent reduction, while the train service men were cut approximately 7 per cent. Car repairers were cut about 10 per cent.

This new schedule still gives section men an average daily wage of \$2.92 for an eight-hour day.

Dog Saves Boy From Drowning. Oelwein, Iowa.—Roger, 6 years old, son of Mr. and Mrs. F. F. Berland, near West Gate, owes his life to Buster a dog. The dog followed Roger Friday when he wandered out to the creek to observe the effect of recent heavy rains. The bank gave way and the boy was thrown into the swollen stream. The dog jumping to the rescue immediately. The strangling boy managed to cling to the dog's shaggy coat and was pulled to shore. Buster is not for sale.

FIRE TOPIC NO. TWO—CONCLUDED

There follows the conclusion of Topic No. 2, "How can fire departments which are handicapped financially procure up-to-date equipment," prepared by Hillsboro Fire Department, and read and discussed at the Forty-fifth Annual Convention of the State Firemen's Association, held at Weatherford, May 10-12.

Departments which are financially handicapped and the town or city is not able to provide the necessary equipment, then, must rely on other sources for their relief. There seems to be two ways to provide these necessities: soliciting funds and holding fairs, carnivals and entertainments. Soliciting funds are at best onerous undertakings and, regardless of the purposes for which they are intended, become more or less burdensome. The holding of fairs, carnivals and entertainments is perhaps a better way than soliciting funds, because this method very often depends upon the contract but the success of the town.

Losses instead of profits are known to occur, under such circumstances, present better opportunities. One department was much in need of some modern equipment and the funds were not available. They heard of a fire truck that had been ordered built for another department and circumstances required the cancellation of the order before the machine was finished. They had some old equipment which they found could be sold for \$1215, so a deal was made for the new machine in its unfinished condition for \$3500, and this left \$2285 to be financed, but they were determined to have this up-to-date equipment. The machine was driven home under its own power and, on arriving, a reception was held, during which time the fire boys pledged themselves to do the work themselves of finishing the job.

It was then decided to begin active work to pay for it—suppers, festivals and dances and other various forms of entertainment were given and within the year the machine was paid for.

In 1916 Orange City Council voted to give the department a combination motor, hose and chemical to replace the horse-drawn equipment. During the first twelve months a saving of \$399.15 was effected. The auto has paid for itself many times over by being able to reach the fire in time to save the building with chemical instead of using water, thereby saving water damage.

After proving this they disposed of the horse drawn hose wagon and bought a six-cylinder Reo hose wagon that had been run only a few hundred miles for \$900. The horses

were sold for \$300 and the remaining \$600 was contributed by the business men, who recognized the value of this up-to-date equipment. Orange is now equipped with the very best machines and it is conceded that after the installment of an 800-gallon piston pumper, in April, 1918, paid for itself many times in the shipyard fire on July 4, 1918.

Perhaps a still better way to provide adequate equipment is to get the fire fighting organization up to such a degree of efficiency that the citizens will recognize the need and just naturally get up and get it for the psychology of service rendered and cooperation with the town in its general programs of progressiveness will bring the need of such equipment to view to such an extent that the people will see that it is provided.

I have in mind a town that had a noble bunch of boys who loved the fire fighting game for the good they could do and the desire and determination to render a real service to their community. They gave no thought to the danger they were in or to the cost of good clothes, and while fighting a fire one day demonstrated the need of good equipment. There were plenty of boys to fight the fire, but, alas, their equipment was inadequate; it was old and run down and the fire was the victor.

A group of business men were watching the work and commenting on the difficulty with which the boys fought and battled with the flames, and one of the men remarked:

"If those boys had some decent equipment they would do something," and another said:

"I'll give \$100 on whatever they need!"

And from that, before the ashes of the fire were cold, enough money was subscribed to furnish the boys with some mighty good apparatus. The truth of the matter was that the fire boys were the town's best asset and the citizens realized it. And thus it ever is that for service rendered there is always a reward, and no department should do without modern and up-to-date equipment, when they have the determination to work with and for the town's best interests.

Next week The Star will print Topic No. 3, submitted by the San Antonio Fire Department, entitled: "Better methods of creating the interest necessary to assure better cooperation and attendance of firemen at local meetings."

UPLIFTING YOUNG CHRISTIANS

There has been a great deal said lately in the press, both secular and religious, about Christian unity, and that this meritorious idea is taking

firm root. Baird, was exemplified Sunday night, when the young people of the Baptist, Methodist and Presbyterian churches united in the place of worship of the former denomination in a service honoring with song and prayer the Father, Son and Holy Ghost, the triune deity of the Christian.

Those who participated in the exercises were the members of the Baptist Young People's Union, the Epworth League and the Christian Endeavor, these three societies being affiliated with the Baptist, Methodist and Presbyterian churches respectively, and the church was crowded with members of all three of these denominations.

The program was a long one and most admirably rendered, particularly the musical part. Ross Dawkins read the sixth chapter of Daniel, Howard Farmer delivered an address on "Young people's organizations and their relation to church work," Rev. Gerald Fitzgerald, pastor of the Presbyterian church, talked interestingly of "Social work in young people's church life" and C. B. Holmes read an extremely interesting paper along the same line.

A large and tuneful choir sang the hymnal portion of the service, Howard Farmer, Dudley Foy, Harold Wristen and C. B. Holmes sang a four part song, Miss Bernice Haley contributed an artistic solo on the piano, Harold Wristen on the piano and Carlton Powell on the saxophone played entertainingly, and Mrs. C. B. Holmes, accompanied by Frances Harris on the piano and her brother, Murray, on the violin, sang as only Mrs. Holmes can sing.

Altogether it was a most delightful exposition of that "social service in the church," to which these young Christians are pledged, and the announcement by Howard Farmer, who presided at the joint service, that similar programs would be rendered, at intervals of two weeks, at each of the churches associating in rotation, was most propitious for the advancement and firm welding of Christian unity in Baird.

PATSIÉ GOSSIPS ABOUT OLD TIMERS

Eula, 6.5.21.

W. L. Harris made a business trip to Clyde this week.

Ernest Crawford, of Dudley, was trading in Eula one day this week.

Medames Jno. McGowen and A. R. Kelton are spending a few days at Eula.

Uncle Terry Pool was hailed out; but Mr. Pool is all right. He has a large barn and it is full of corn and hay. Brother Pool says he has plenty of hogs for his meat.

Uncle Bob is the other day. He is the same as he was 32 years ago, when I first met him. Uncle Bob is one man that looks the bright side of life and he is doing well. He has plenty to keep the wolf from the door.

It looks like rain, but we'll take all we can get, for we know we can raise corn and hogs. You know, Uncle Billie, when you and I were boys, corn and hogs were nait the living. Corn bread and molasses raised a many fine boys and girls thirty years ago. I am glad we have learned to live on something beside corn bread and molasses. It is beans now.

Well, Uncle Billie, how are you and The Star force? Eula is just about the same. We have had some rain and wheat and oats are being cut, but I don't think the yield will be very much and some was hailed out. Row stuff is fine. Some are having a hard time getting cotton up. We might be better off if it did not come up, but after all we ought to be proud we are among the living today.

You know I like meeting the old timers, who are too numerous to mention. They are the men that made Callahan county what she is today. I can look over to Cottonwood and see Uncle Bill Melton;
