THE JAYCEES SPEAK

Our first try at the Voice of Democracy is now over and we are quite happy to report it was a big success. There were four contestants who participated, Bill Dale Hill, Lucy Robinson, Ronnie Pool, and James Hancock. All four spoke on "I Speak for Democracy" and all four were speeches to be proud of in any contest. James Hancock won by

a very small margin as there was only four points between the first and fourth place contestants. As this indicates, the judges, Mrs. W. J. Lewis, Jr., Mrs. Bob Moss, and Rev. J. E. Byers had a big job in selecting the winner. James received his winners certificate and a new Parker "21" fountain pen as his reward as well as a chance to participate in the state contest. A transcription of his talk will be made and sent in to the state contest to be held in December.

There was only one fault with the contest, that being the absence of any public. There was no

one other than school students attending the contest. It is a shame none of us have any more interest in our students than was indicated the other morning. As has been said, all were speeches worthy of any audience.

The Jaycees wish to thank the judges, Mr. Short, speech teacher, and all the school officials who helped make this contest possible.

Many of you noticed a plane with a siren blaring circling over town last Saturday. This was a plane dropping leaflets urging church attendance. Again we feel the Jaycees have scored another success, for we feel our efforts in promoting this religious program have already begun to pay off in increased church attendance. Did you go to church last Sunday? LET'S ALL GO AGAIN THIS SUNDAY!!

In last weeks paper you probably noticed an Order of Election to be held Saturday, December 12th, in the Clarendon School Tax Office. The election is to determine whether or not we in the Clarendon School District wish to have Goodnight consolidate with us and whether or not the voters in the Goodnight District wish to consolidate with us. There are a few things regarding this consolidation that should be pointed out. For those of us who are concerned with its effect upon the school taxes of the Clarendon School District, I would like to quote a statement by Mr. Truitt, "This measure has no bearing upon the tax rate in the Clarendon School District", in other words school taxes will not be effected or raised by the consolidation of the Goodnight School District with the Clarendon District. This alone is good news but also the Clarendon School District will be enriched by approximately one-sixth by the consolidation. I might point out also that Goodnight is wanting to send its children to the Clarendon schools. It goes without saying that with children from Goodnight in our schools the citizens of Goodnight will have greater interest in Clarendon which in turn will enrich our City as well as our School. Remember this issue is coming to a vote on Saturday, December 12th. In order to show Goodnight we want them, VOTE for consolidation and lets have a big turn out of voters.

DATES TO REMEMBER: Enjoy Thanksgiving, November 26; VOTE Saturday, December 12th; attend the Big Legion Christmas Party, December 15th, Santa will be there taking orders.

Death Favors Aged Pedestrians In Most Traffic Fatalities

"With pedestrians, death seems to play favorites," Col. E. B. Tilley of Houston, President of the Texas Safety Association and Services Adviser for the Gulf Oil Corporation made this observation today as he pointed out that safe walking odds apparently decrease with age.

"More than one-third of all pedestrians killed in 1952 were aged 65 or older," Col. Tilley said. "Of a total of 8,600 pedestrian fatalities in traffic accidents last year, 3,000 were in this age group," he explained.

He said, "that several factors may be involved in the high traffic fatality rate among older pedestrians. "Often older people have dimmed eyesight and hearing," he said. "Sometimes they can't see or hear approaching cars as readily as younger people.

"Reflexes are slower and the oldsters can't move as fast to get out of danger," Col. Tilley pointed out.

He observed that injuries to older people more often prove fatal. Broken bones mend more slowly and resistance to disease is slower in those of advanced age.

Col. Tilley urged older people to be especially careful to obey all safety rules when walking out-of-doors.

"Cross streets at intersections only," he cautioned. "Obey traffic lights, and be sure to look both ways and for turning traffic before stepping off the curb."

He urged elderly pedestrians to avoid, as much as possible, walking at night or venturing out in bad weather.

Courtney R. Cooper was the only newspaper reporter to have access to the files of the Federal Bureau of Investigation.

THAT AIN'T THE WAY I HEARD IT!

The Pumpkin
 Ah! on Thanksgiving Day, when from East and from West, From North and South, come the pilgrim and guest, When the gray-haired New-Englander sees round his board The old broken links of affection restored, When the care-wearied man seeks his mother once more, And the worn matron smiles where the girl smiled before: What moistens the lips and what brightens the eye? What calls back the past, like the rich pumpkin pie?
 —Whittier.

Mr. Turkey doesn't quite agree with Mr. Whittier, and he probably isn't the only one. But whether it's turkey or pumpkin pie that ranks highest on this Thanksgiving Day isn't, after all, too important. The main thing is that we pause for a moment of thanks... for our abundance... the end of Korean hostilities. And let us hope that no more of our young men shall die on the battlefield.

Motor Vehicle Inspection Data Shows Many Cars Need Adjustments

Motor Vehicle Inspector, Hollis Bryan, who is in charge of the Vehicle Inspection stations in Donley County, said today that although inspection is progressing extremely well in Donley

County and throughout the State, it would be well to keep the following information in mind:

With ten months of 1953 already behind us, the State of Texas is 106 highway deaths behind the 1952 total for a comparable period. This decreasing rate may be held and even improved upon although the "deadly" holiday season is fast approaching. With winter and holiday travel only a weather change away, it

would be wise for all those who have not had their vehicles inspected to do so now.

The very essentials of winter driving — proper brakes, light, horn and windshield wiper operation — are the backbone of the new Motor Vehicle Inspection program. We can, therefore, do our winter driving safely and with fewer operational worries as well as avoid the last minute Spring Inspection rush if we will

have our vehicles inspected between now and Christmas.

Bryan said that of all the cars inspected so far, records show that 58% need some adjustment or repair, 7% along needed brake adjustments while 34% needed headlight corrections. At the same time, total cost of inspection has averaged only \$1.77 per car which includes the price of the inspection. Bryan said that this was probably the most reasonable life insurance being sold in Texas today. He urges each owner to go today to the inspection station of his choice. Tomorrow may be too late.

The following is a list of inspection stations in Donley County:

- Palmer Motor Company
- Clarendon Motor Company
- Carpenter's Garage.

"Remember the Alamo" was the battle cry of the Texas Revolution of 1836.

PLOWIN' Out the CORNERS

Was it Mark Twain who said: "Always do right. This will gratify some people and astonish the rest."

Speaking of doing right, it

seems that with the passing years folks are sort of inclined to wink at many things that we once held high in our minds. Are we just imagining, or is this the actual truth? It seems that years ago before we would sign anything especially from the government we would read and study it fine print and all. Now sometimes we wonder if sometimes we think too much about "Where do we sign and how much do we get", than we do about all the responsibilities that is involved. Maybe it's like someone has said though; "That for years the world has been going to the dogs and it ain't there yet". Perhaps we are

just careless about the minor things but when real issues are involved we straighten up and fly right just as we should. Anyway, we just wonder sometimes.

Someone has said; "Everyone is foolish except thee and me, and sometimes thee seems foolish to me."

One of our readers sends us the following little poem that just sort of fits our feeling about neighbors. It is called:

COUNT ME AS ONE

By Hannah Kahn

I like a neighbor who comes to borrow
A cup of sugar to return tomorrow.

I like a neighbor who stops to talk
When I'm taking the baby out for a walk.

I like a neighbor to visit with me
Over cinnamon toast and a cup of tea.

A recipe shared has added flavor,
Count me as one who likes a neighbor.

"If you want to be miserable, think much about yourself; about what you want; about what you like; what respect people ought to pay you, and what people think of you." — Charles Kingsley.

And you know, the above is so awfully true. We can never be more miserable than when we get into the dangerous rut of thinking always about ourselves. We have known many people rich in all the earthly possessions of the world but miserable and lonely in their lives because of their thinking of self. We have known people poor in possession but rich in their love and understanding for the rest of the world. We have known folks with a strong body go to pieces mentally because of a brooding about their future. We have known others without health to be oh so rich in that they had found a real joy in living through unselfishness. It seems such a shame that I, the very shortest word in all the English language could be so dangerous. Around this word just about all the problems of the human race can be found. Just about all the trouble between nations could be solved if we could solve this problem of I. With all our advancement in this line and that we have never gotten away from the habit of looking for the mote in our brother's eye and trying with all our wise words to hide the beam protruding from our own selfish eye.

A Precious Heritage

Thanksgiving Day is truly an American Day—a happy day of friendly gatherings and feasting, of church-going and football, of enjoying the bounties of our land and thanking God that we can enjoy them . . . What a lucky people we are! . . .

GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

This week has been uneventful. We have no new books and only a few magazines to attract our readers. Most of the books that are written by our best writers, this fall are not recommended by the book reviewers. My catalogues and circulars from the publishing houses advertise science and biographies more than fiction. However, cold disagreeable weather results in our readers taking most any reading material to maintain their interest when it is necessary to stay in doors.

"The Black Rose" by Costain, will likely be classed as a "Classic" as my recent copy of "The Book Guide" states there is a November printing of a Deluxe, illustrated gift edition, with 5 double page illustrations by Herbert Ryman that retails for \$5.00.

Most of you likely read in the Sunday papers that Quentin Reynolds who wrote "The Man Who Wouldn't Talk" as a non-fiction publication has acknowledged it was the "workings of his imagination." This was the "Book Section" story of the November Digest. We are all happy to know that all those horrible experiences were not factual.

We received 15 western "paper backs" from a Goodnight friend this week. Quite a few of the boys and several men will enjoy these. Most of our "contributing" friends have moved away, so these are very gratefully received.

We have some very good material for your winter reading.

Brown - Bryan Wedding Solemnized In Chapel

DALLAS, Nov. 14—Miss Betty Claire Brown, daughter of Mr. and Mrs. Ross Willard Brown, became the bride of Lt. Harry Eugene Bryan, son of Mr. and Mrs. Allen J. Bryan, 3216 Parker, Amarillo, last evening.

The ceremony was read in Perkins Chapel of Southern Methodist University by Rev. W. A. Welch and Rev. Robert Pitzer.

Given in marriage by her father, the bride wore a gown of white slipper satin, designed with a cathedral train. The bodice, accented with seed pearl motifs, was fitted to a full skirt by scalloped points. The round neckline scallops were embroidered with seed pearls and iridescent paillettes, and the short sleeves were complemented with satin mitts which formed petal points at the wrists. Her cathedral veil of French illusion fell in tiers from a Juliet cap fashioned of criss-cross satin folds outlined with seed pearls. She carried a bouquet of calla lilies held with a cluster of velvet grapes, and an embroidered silk heirloom handkerchief carried in the wedding of her paternal grandmother.

The bridesmaids were Miss Patricia Bryan of Colorado Springs, a cousin of the bridegroom, and Misses Mary Jacquelin Turner, Isabel Wilson and Martha Ann Halsell. Mrs. James Johnson of Dallas was matron-of-honor. The attendants wore gowns of red velvet with matching cloche bonnets edged with seed pearls. They carried white gladioli on magnolia leaves.

Allen J. Bryan was his son's best man and the groomsmen were J. Manley Bryan of Galves-

ton, brother of the bridegroom; Fred Stientenroth of Natchez, Miss.; Robert Irby, Dallas; Chauncey Hommel, Clarendon; and John Witcher, California.

Social Security News

While the Pilgrims still faced many insecurities when they sat down to their first Thanksgiving dinner, they justly felt that they had much to be thankful for. Today, as people throughout the land gather at family tables for the holiday festival, they, too, have much to be thankful for. Insecurity has not vanished, however; it has merely changed. We of today, no less than the Pilgrims of long ago, must guard against insecurities that constantly threaten us. Not the least of these is financial insecurity—a menace to the preservation of the family and the home.

Just as the Pilgrims built stockades for protection against predatory Indians and wild beasts of the forests, we must build bulwarks against economic adversity that so often overwhelms the family because of old age or death of its breadwinner. It was to assist us to build in our working days financial protection for the days when earnings stop, that old-age and survivors insurance was made a part of the social security law. It enables us through our work to provide a measure of our own financial security. Social security, together with private insurance, savings and other investments are the timbers out of which we build a stockade to protect ourselves and our families against the dangers of economic uncertainty. both tickets.
 A strong critic of Secretary Benson, White has particularly opposed Benson's stand against livestock price supports.
 Victor over the late J. E. McDonald for the state agricultural office three years ago, White won easy re-election last year.

Coming to the fore among prospective gubernatorial candidates is Reuben Senterfitt of San Saba, speaker of the Texas House of Representatives.

Senterfitt announced that he was considering the chief executive's office.
 Thereupon, he received a considerable number of encouraging letters. And the people in his home county started organizing Senterfitt-for-Governor clubs.

Ralph Yarborough of Austin appears to be a candidate. Others who might get into the race were still waiting to see what Governor Shivers would do.

On this waiting list are Lieutenant Governor Ben Ramsey of San Augustine, Attorney General John Ben Shepperd, Congressman Lloyd M. Bentsen Jr. of McAllen, Land Commissioner Bascom Giles, Senator A. M. Aikin Jr. of Paris, and Mayor Roy Hofheinz of Houston.

In the U. S. Senate race, incumbent Lyndon B. Johnson is running as hard as he can, although he has so far no announced opposition.

Johnson received the endorsement of former vice-president John Nance Garner of Uvalde.

Texas Republicans have announced that they will put up a strong candidate against Johnson. Former congressman Ben Guill of Pampa, now an assistant to the U. S. postmaster general, seemed a likely G.O.P. choice.

Anti-Johnson Democrats also are moving behind the scenes to select a candidate.

Governor Shivers was not considered by most observers here as a probable starter in the senatorial race. Nor was former governor Coke Stevenson, who lost to Johnson by that historic 87-vote margin the last time out.

Top newspaper and radio correspondents from Washington and the various states attending the National Governor's Conference in Seattle, rated Shivers fourth among governors who are prospects for President of the United States, and fourth among the list of best governors. Ahead of Shivers were Governor Earl Warren of California, now Chief Justice; Governor Thomas E. Dewey of New York; and Governor Alfred Driscoll of New Jersey.

Colonel Homer Garrison Jr., director of the Texas Department of Public Safety, says it is hard for him to understand public apathy to deaths and injuries on the highways.

In all wars in which this nation has participated since 1777 more than a million men were killed.

Since the first traffic fatality in 1899, more than a million persons have died in traffic accidents, Garrison said in a speech here.

By putting into effect a relatively simple program of engineering, education, and enforcement, and with real public support of that program, the traffic death rate could be cut in half, Garrison declared.

Delegates to the Texas Farm Bureau Federation, convening at Mineral Wells, voted against giving their advocacy to price support on cattle.

The convention asked instead that the Secretary of Agriculture expand his government beef-purchasing program.

Fitting into the pattern of economic recovery for livestock producers is the U. S. Department of Agriculture school lunch program, which includes beef and gravy.

An Austin chili firm for example, shipped out seven carloads of this product to points in Texas and Louisiana in a single day.

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

Nov. 12, 1953.
BEHIND THE SCENES:
 Furrowed brows and whispered appraisals of doubt have not been unusual in official circles since the November 9th news conference at which Secretary of State Dulles was quoted as saying that the Eisenhower administration has never said it would be forever opposed to recognizing a Communist government in China. Some of the news services immediately construed this statement to mean that consideration was being given by the administration to the recognition of the Communist regime in China, some stories indicating that the Communist regime may be recognized. Some, apparently assuming that Secretary Dulles meant that recognition of Red China was being considered, are prophesying a definite split in the administration over this particular issue. In other words, they anticipate that the real repercussions are yet to come. It seems that the construction placed on the language of the Secretary is the cause for the furrowed brows, rather than the words that were actually spoken. In all fairness to Mr. Dulles, I think it should be pointed out that the Secretary certainly did not intend to convey the idea or thought that the administration was considering the recognition of the Communist regime in Red China. His remarks very clearly reflected that the present anti-Western and aggressive policies and attitude of that regime would preclude consideration of recognition of such regime as the government of China. Mr. Dulles fully appreciates the many facets of this problem and in speaking on the matter would, no doubt, have in mind three major items. First, he fully understands and properly evaluates the bloc in the Congress that is completely pro-Nationalist China. Several of the outstanding leaders of this bloc are members

of the House and Senate from the West Coast areas. Secondly, the Secretary knows full well that a Communist regime would have no inhibitions against loudly but falsely proclaiming pro-western and anti-aggression policies in order to secure recognition by Western powers as well as admittance to the United Nations. He also knows that, once such result was accomplished, that same regime would not hesitate to return to their godless, dictatorial, anti-Western, aggressive and enslavement policies. Thirdly, the Secretary also knows that the House of Representatives has, by vote on a resolution, openly condemned and opposed the admittance of Red China to the UN.

We all know that one of the basic principles of Communism seems to be the theory that the end sought justifies the means employed. Certainly, the Secretary of State knows this and he is not getting soft toward Red China. I think the proper construction of his remarks would have been that the administration had never taken the position that the Nationalist government of China was the only government that would ever be recognized.

CUTTING EXPENDITURES:
 One of the local columnists has pointed out that one of the biggest departments of government has hired a private firm to make a survey of the department and to recommend changes that will bring about more efficient management and effect economies. I do not yet know the terms of the agreement between the department referred to and the private firm, but certainly intend to find out. These surveys are very costly to the taxpayers and, so far as I can determine, have produced very little in the way of results. One such survey cost the taxpayers approximately \$600,000.00, yet the over-all cost of the department involved has not been measurably decreased. It's good business if you can get it. I don't recall any of the reports containing a recommendation that the departments stop spending the taxpayers' money to hire these survey firms.

The game ping-pong received its name from the sounds made when the bat hits the celluloid ball.

Parent - Teacher Talk

The puppet show which the seventh graders presented as their program at the PTA meeting last Thursday was most entertaining. The children had fashioned the puppets in their art classes and the results were quite clever.

There were elves, clowns, policemen, farmers and one snake. Every child in Mrs. Hoggatt's room (twenty-seven of them) had a part on the program, but only five mothers from that room were present for the room count. If a child on the program won't bring mama to PTA, what will?

Mr. Richardson's room made a better showing. He had five mothers present for the room count, too, but then there were only six of his seventh graders who appeared in the skits. No reflection on the rest of his seventh graders, it was merely a question of having free time during the practice periods.

"What am I doing FOR my child and what am I doing TO my child?" was discussed by Mrs. Millard Word. In a chatty, informal manner she pointed out the vast difference the small proposition makes in the two questions—very thought-provoking.

Mrs. Rhode's fourth grade won the dollar for having the most mothers present—eleven. Mrs. Brown's first grade was second with nine.

While on the subject of Mrs. Browns first grade—her mothers sent so much food that their Treat Day had to be stretched through Wednesday in order to sell everything. That's the first time this has happened. It's also the first time that Treat Day brought in more than twenty dollars (that's a lot of nickels.) Mrs. Jones—Theresa's mother—sent some pink and green striped taffy that had the small fry talking for several days.

Mrs. Hoggatt's room has Treat Day next Tuesday.

Ideas for spending the Carnival money keep rolling in. Several of the Jr. Hi teachers called attention to the fact that on a dark, cloudy day the lighting in the study hall is eye-strainingly in-

adequate.
 Band parents requested a wee bit of help on uniforms. Someone suggested a small-contribution be made to the North Ward Drum and Bugle Corps.

An electrical engineer from Childress diagnosed the lighting problem and estimates on the cost of the cure have been requested from local firms but have not been received yet. The other suggestions are receiving consideration.

The big problem seems to be—spend all the money on one big project or dole it out piecemeal helping a little in several spots? At the meeting Mrs. Phelan requested PTA members to express themselves by dropping their opinions, ideas, suggestions or criticisms in the Question Box. This should be a good way of hearing from those who get tongue-tied in front of a crowd.

The sixth graders in Mrs. Kennedy's history class have been studying about colonial times. As part of their homework they have dressed dolls in the attire of that day, have made canopied beds—some complete even to the trundle bed, have fashioned candles from tallow, and have even tried their hands at making churns. The interesting results were on display in Mrs. Kennedy's room after the PTA meeting adjourned.

Carl Akeley, the American explorer, was buried on Mount Mikeno in Belgian Cong. Africa.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint in my body and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set.

Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

NOTICE TO PRODUCERS HAVING ORDERS FOR COTTONSEED MEAL AND PELLETS:

The Cottonseed Pellets have been delayed to the Drought Emergency Counties until the contract for 1953 Cottonseed has been approved for the Drought Emergency Program.

This explains the reason that no cottonseed pellets have been received in Donley County for several weeks. We do not know as of yet when producers who have in orders for Cottonseed Pellets may expect to receive the feed.

Out of the above listed cover crops, there were 99 approvals issued. We are in hopes that everyone with an approval for Winter Cover Crops will carry out the practices.

1954 AGRICULTURAL CONSERVATION PROGRAM:

The 1954 ACP practices to be used in Donley County, upon which the federal government will share a portion of the costs, have been selected. At the present time the important data concerning all the new practices is

being worked out and as soon as all the important data is completed, the County Handbooks will be made. Future announcements will be made of county and community meetings which will be held to explain the 1954 County Handbook, and to give each and every producer a chance to apply for the practices he thinks best suited for his farm.

Donley Farm Bureau Directors Meet To Discuss Resolutions

The directors of the Donley County Farm Bureau met at the Lelia Lake school house on Thursday night at seven P. M. with president Henry Moore presiding. Sixteen directors were present and Mr. O. K. Hoyle, representative of the Farm Bureau in the field. Resolutions were read and discussed that were passed at the state convention at Mineral Wells, Texas. Mr. Moore and Mr. Slayton Mahaffey gave a good report on the state convention and Mr. Hoyle discussed the passed resolutions.

The Farm Bureau went on record as favoring an increase in 1954 cotton allotments and voted to back this movement on both the county and state and national level.

Mr. Lee Shaller was elected secretary and treasurer for 1954 due to the fact that the present secretary had resigned due to illness.

Mr. Moore says that the Donley County Farm Bureau will have a drive to increase its membership and make it one of the strongest in this section. The directors

voted to meet once a month to discuss business.

Those to enjoy a Thanksgiving dinner in the home of Mrs. Lena Antrobus Sunday were Mrs. Tren Stargel and Suzanne Williams of Oklahoma City, Mrs. Ernest Maedgen and Lucille Hvass of Lubbock, Mr. and Mrs. O. C. Watson, George Watson, Mrs. Gale Ledbetter and Gary, and Mr. and Mrs. Barcus Antrobus and Sarah.

Dinner guests in the W. H. Strawn home last Sunday were Mr. and Mrs. A. S. Hamblen, Mr. and Mrs. Rodger Scrieb, three children Gerry, Dalece and Linda, Beryl and Guy Hamblen, all of Canyon, Mr. and Mrs. Steve Eden and Susie of Clarendon.

Mrs. Gale Ledbetter and son, Gary, arrived Saturday to visit in the home of her parents, Mr. and Mrs. O. C. Watson. Mrs. Ledbetter and son have been living in Morganfield, Kentucky where Lt. Ledbetter has been stationed. They will remain here while he is being processed for discharge.

From where I sit ... by Joe Marsh
The Missus Keeps Posted
 Ever since our electricity was cut off last year on account of me forgetting to mail in the payment, the Missus has been sort of leery about giving me letters to mail.
 At first she'd ask if I mailed them, then double-check my coat pocket at night. She stopped that, and I figured she was convinced I'd learned my lesson.
 Then yesterday, I got a postcard at the office in a familiar handwriting. I turned it over and golly it was from the Missus self! It read: "Thanks, Joe, for mailing my letters." Well!
 Looks like she figured I still needed some checking-up and slipped that postcard in the last batch of letters.
 From where I sit, an occasional check-up is a good thing. Check-ups on just how tolerant we are of other people's preferences and tastes, for example. I like a glass of beer with supper, you may prefer cider—but if I ever try to switch you to my choice, simply "address" me with a reminder of your rights.

Here's why thousands of TEXAS motorists are switching to

New Conoco Super Gasoline

with TCP*

The Greatest Gasoline Development in 31 Years

Restores "new car" power!
Increases spark-plug life up to 150%!
Gives you extra gas mileage, too!

All over Conocoland the story is the same. Every day, thousands upon thousands of motorists are switching to new Conoco Super Gasoline with TCP.

What's the reason for this big switch? Why are motorists leaving brands they've been loyal to for years? The reason is simple: *New Conoco Super Gasoline with TCP is the greatest improvement in gasoline since the introduction of tetraethyl lead in 1922!*

Motorists tell us they can actually feel the difference in car performance after just two tankfuls. For new Conoco Super with TCP dramatically overcomes the greatest single cause of power and fuel waste affecting most of the cars on the road today.

Combustion deposits reduce power

When you drive your car, deposits constantly build up on spark plugs and in the combustion chambers. These deposits can "cheat" you of power in two ways. First they short-circuit spark plugs—causing them to mis-fire. Second, deposits in the combustion chambers cause fuel to ignite before it should. This is called pre-ignition or "wild ping."

*Trademark owned and patent applied for by Shell Oil Company

The combined effect of mis-firing and pre-ignition is loss of power, lack of "pep" and wasted gas.

How Conoco Super Gasoline with TCP works

Now Conoco Super with TCP—a cresyl compound—dramatically overcomes the loss of power and fuel caused by combustion deposits. TCP actually neutralizes harmful deposits on spark plugs and in combustion chambers. With new Conoco Super Gasoline, your plugs spark as they should. Your fuel ignites as it should. You get and keep "new car" performance.

ICP helps your car—whether new or old

Whether your car is new or old, you can enjoy the benefits of TCP. If you have a new car, with a high-compression engine, it will keep on delivering its built-in power as long as you use Conoco Super Gasoline. If your car is an older one, Conoco Super will restore much of the power you have lost.

See what Conoco Super with TCP can do for your car—

Start the "TWO-TANK TEST" today!

1. When your gasoline tank is one-quarter full or less, fill it with Conoco Super Gasoline with TCP. Now, there will still be some ordinary gasoline mixed in with your Conoco Super, so...
2. Make sure your next tankful is Conoco Super, too. So rapidly does Conoco Super work that with this second tankful, chances are you'll feel as if your engine has had a tune-up. You'll feel a boost in power. Try it today. We're sure you'll stay with Conoco Super.
