## FARM NEWS

from the County PMA Committee

### COUNTY COMMITTEE ELECTION:

On Friday, August 29th, 1953, eight delegates, one from each community in Donley County, met in the County Office to elect the members of the Donley County PMA Committee. In regular manner the following men were elected to serve during the 1954 ACP year: Mr. Ross Springer, Chairman, County PMA Committee; Mr. James B. Smith, Vice-Chairman; and Mr. J. Sam Dale, Regular Member.

### COTTON MEASURING NEARS END:

Approximately 535 farms have been measured in the field and also in the office. We are in hopes that by the time the paper goes to press that all the cotton farms will be measured by the cotton crop reporters and be in the office ready to be completed on the maps. Notices are being mailed when the office work has been completed on the maps. If you have not received a notice concerning your cotton acreage, you should in the very near future. If you feel that an error has been made in the measuring of your farm, feel free to come to this office and check with us.

Again we wish to take the time to thank each and every cotton farmer for cooperating with the Cotton Crop Reporters when they came to your farm to measure the cotton. Your cooperation has helped to make it possible for the Reporters to complete the field work as accurately as possible.

### 1953 ACP PROGRAM:

This is another reminder that if you have an approval fee or more practices that it is plain to see that you will not carry out, please come to the County Office and cancel these approvals in order that more money may be available for the Winter Cover Crop Practices and for the Rye Practice. If you are in doubt about carrying out practices that you have approvals for, remember that the approvals are good until December 31st, 1953.

## Brotherhood To Meet Thursday Night

The Brotherhood of the First Baptist Church meets this Thursday evening at 8:00 P. M. All men of the church, and other men of the community, are invited to attend so that we might show our new pastor that we are men he can count on to "fill the gap" wherever we are needed, stated J. C. Arthur, Educational Director of the church.

A good program has been planned and P. C. Messer, program chairman, says that all men will miss something if they fail to hear C. C. Kelly, District President, as he discusses "Stewardship of Time".

"We know of no one who should be better qualified to discuss this subject than Mr. Kelly," Mr. Arthur stated. "He has a full time job working for an oil company and he also farms and in between he goes all over District 10 to speak to Brotherhood meetings. He spends most of his time working for the Lord and we feel that he will bring us a wonderful message. Men, you should not miss this meeting!"

## Hedley Ball Club Wins First Game of Playoff Series

Hedley took the first game of the two-out-of-three Caprock League playoffs with a 20-6 win over Groom Sunday at Hedley. Ed Mathis, the winning pitcher, helped himself toward the win by hitting a three-run homer in the fourth inning. Bonnie Mooring was the leading Hedley batter with four hits in five times at bat.

Next Sunday the two teams meet in Groom for the second game. Should Groom win, a third game will be played to produce the Caprock League winner.

## Forty-Six Prospects Report For Football

Coach Ray Moore stated yesterday that forty-six boys reported for football training Tuesday but that it was a bit early to make much comment on team prospects. Only three of this number are first stringers but a number of others saw quite a bit of action last year, Moore added. We have the makings of a fairly heavy line barring any casualties but our reserve strength will be our main weak spot in both the line and backfield, he commented.

The Bronchos will be working out twice daily this week with sessions from two to four in the afternoon and beginning at 7 p. m. under the lights.

The Broncho schedule is as follows:

- Sept. 11—Groom, there
- Sept. 18—Claude, here
- Sept. 25—Pampa "B", here
- Oct. 2—Lakeview, here
- Oct. 9—Panhandle, here
- Oct. 16—White Deer, there
- Oct. 23—Open
- Oct. 30—Memphis, here
- Nov. 6—McLean, there
- Nov. 13—Canadian, here
- Nov. 20—Lefors, there

The last six games are conference games.

## Mayor Issues Speed Warning

Now that school has been resumed, we wish to call everyone's attention to the STOP and SLOW School signs that are in the vicinity of all schools. Our speed limit is 12 miles per hour in these school zones and 30 miles per hour is the speed limit in other areas within the city limits. These signs were erected for your safety and the safety of our school youngsters.

We have a patrol officer on duty and he has been instructed to give tickets to any violators. With the cooperation of all in observing these speed regulations it may mean the saving of someone's life. Let's all remember to be careful while driving.

Thanks,  
Major B. Hudson, Mayor.

## Boll Worms Now At Work In Donley

Boll worms are giving Donley County farmers trouble says county agent H. M. Breedlove. The infestations in some parts of the county are very serious and poisoning is already underway. Two airplane spraying companies are now at work and farmers are using both ground dusting and spraying equipment. Breedlove says that for the control of boll worms that we can expect two sprayings on cotton and possibly three before they are under control. The poison being used is DDT-Toxaphene mix in spray and for the dust 3-5-40 and DDT-Toxaphene. Breedlove urges all farmers to keep a close check on their cotton and if you find as many as six or seven boll worms or signs of the boll worms to one hundred stalks it is time to start control.

Anyone needing information is urged to call by the agent's office for more information.

## New Pastor Arrives This Week

Bro. J. E. Byers moved to Clarendon this week preparatory to taking over as pastor of the First Baptist Church of our city. Bro. Byers comes to this church after five years as pastor of the First Baptist Church of Chillicothe. He was pastor at Dawn three years before going to Chillicothe.

Bro. Byers received his college work from New Mexico University at Albuquerque, and for two years attended Southwestern Baptist Theological Seminary at Fort Worth. James Smith, chairman of the Board of Deacons, urges the entire membership to be in attendance next Sunday to welcome the new pastor, his wife and two daughters.

Sunday is "Homecoming Day" and should be the "High Attendance Day" for our Sunday School, said J. C. Arthur, Educational Director. "Not only are members from outside of our city being urged to 'come home' for this day, but all members, here and in adjacent communities, are being asked to attend." Bill Lowe, Sunday School Supt. stressed in making his plea.

"Let us make Sunday the 'Big Day of This Year,'" Mr. Arthur concluded.

## Six Hundred Seventy-Four Students Enroll In Local Public Schools

Supt. H. W. Truitt announced yesterday that 674 students had enrolled in the Clarendon Public Schools. This number does not include enrollment in the Junior College as new college students are enrolling every day. Of the above figure 438 enrolled in Jr. High and the Elizabeth Stevens Ward; 167 enrolled in the 9th thru the 12th grades and 69 students were enrolled at the North Ward colored school. This figure shows a slight decrease from the number at the end of school last spring, but is expected to equal the figure with enrollment of students still out on vacation and for other reasons.

Enrollment in the 1st thru the 12th grades was as follows: 1st 52; 2nd 42; 3rd 49; 4th 70; 5th 58; 6th 59; 7th 54; 8th 54; 9th 60; 10th 31; 11th 46; 12th 30. Mr. Truitt pointed out that students may still enroll in the Junior College and may take one or more subjects as they prefer. Everyone wishing to get off part of their college work is welcome; this includes those that are married or otherwise, he added. College Speech has been added to the list of subjects offered in Jr. College and Drivers Education is a new course in High School.

Those having books for subjects offered in Jr. College are asked to take them up to the college building so students may purchase them and not have to buy new books. First year College English books are especially in demand. Mr. Truitt reported that considerable interest had been aroused in regard to the College Lounge that was announced in the Leader last week with some furnishings being offered but more is needed. If you have anything in the way of furniture, lamps, etc., please call 194-M and let school officials know what you have that you would like to donate toward the furnishing of the College Lounge.

For most people in this area, Labor Day will be just another day to labor as this special day was not included in the four holidays voted to be observed by local business firms. There's a possibility that some business firms may be closed on their own accord, but it has been reported that in general Clarendon business firms will be open as usual.

## SQUARE DANCE CLUB MEETING CALLED FOR FRIDAY NIGHT

All old members of the club are urged to be present as future plans, policy, etc., will be discussed. New officers elected at a meeting of the group Friday night, August 28th are L. L. Wallace, president; Homer Thomas, vice-president and Mrs. George Thompson, secretary.

It's back to school for the nation's youngsters. Although many of them will be reflecting this boy's glumness, they can take comfort in the fact that today's school buildings are a far cry from the one-room schoolhouse of old, and a far more pleasant place in which to spend learning hours.

### THE JAYCEES SPEAK

Another school year is now officially on the way. The same old plea is in order again, "Safety." Let's all pledge to be more careful as we drive around the schools or any where students cross our streets. After all, they are our children and the future community leaders. Our driving habits are setting the example they will follow when their time comes to drive. LET'S MAKE THIS A SAFE SCHOOL YEAR.

Along with the opening of school the Jaycees are ready to launch a school program year. Details are being worked out with school officials. It promises to offer much for the students and the teachers as well.

New city limit welcome signs will be erected in the near future. These signs are directed toward

safety, friendship, and our college. Its everyones duty to extend a friendly hand to all "passer-throughs." They will remember Clarendon and its people for time to come.

Again the Jaycees urge everyone to "STOP AND THINK ARE YOU A SAFE DRIVER?" Let's all observe automobile courtesy!

See you next week with more details on our school plans.

### Calvary Baptist Church

Calvary Church enjoyed a very fine Revival which closed last Sunday. I think the fellowship was as fine as I ever witnessed and was most sincere. Our building was well filled each night and good crowds attended the day services; Bro. Tom Burns was at his best in preaching the old time Gospel in the old time way. The Church enjoyed receiving into her fellowship twelve new members; 5 by baptism and

7 by letter. We are praying that our Church will be a real Spiritual home for these fine folks who have come into our Fellowship.

Calvary Church is only eight months old and she has exactly doubled her membership; We organized in January with 23 members and now have 56. To our God belongs all the praise; He has literally made Jeremiah 33:3 come true, "Call unto Me and I will answer thee, and shew thee great and mighty things which

thou knowest not." Bless His Holy Name.

If you are without a Church home we invite you to our services.

Read this some place; "We have heads for the same reason that a pin has, to keep us from going too far."

Uncle Bob Robertson, the sage of Washburn, sends me a copy of the Scottish Farmer. A farm magazine published in Glasgow, Scotland. It is a very interesting paper to say the least. Especially is it different. For instance the first page is all ads, in fact the first ten pages are solid advertising. On the front page such

things as concrete pipe, sheep shearing equipment, and gasoline saving devices are shown. Just imagine our American Scotch blood boiling if we picked up our favorite farm paper and had to wade through ten pages of ads before we reached our favorite article. Anyway, it may be that the ads carry a real message and could be this as it should be, but we believe that we like our papers the best as they are.

As to the articles in the paper many were similar to those we would see in our own special farm magazine. For instance, one such item told about the dairy cows belonging to West of Scotland College. This college herd averaged 1101 gallons of 3.76 percent milk per year. Isn't that a pretty comparable figure with our own leading herds?

This particular edition dealt principally with the stock shows and the pictures showed that they have some plenty good cattle. One ad dealt with a four-wheel drive machine called the Land Rover that looks a lot like our famous Jeep in operation.

## GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

The vacation season is nearing the end. During May, June, July and August, there has been more than seven thousand books and magazines issued. The teen age girls' series are certainly worn, as the girls read much more than the boys. The children's supply is excellent from the second grade thru the sixth. It is very difficult to secure books that the first graders can read, although I have quite a collection of pre primers, primers, etc.

The only editions to the Library this week is magazines. A friend brought us several Saturday Evening Posts and Flower Grower, also a Cosmopolitan. Several have left us magazines recently.

James Hilton has written a new book, "Time and Time Again,"

and Pearl Buck offers us "Come, My Beloved." We have planned to order these in the early fall. We have had some good books as gifts recently. A very clever one is "The Ford Treasury of Favorite Recipes from Famous Eating Places." This is compiled by Nancy Kennedy with Arthur Longee as Art Director. All the eating places are pictured and the recipe under the foot note.

## TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

### FOURTH CLASS POST OFFICES:

Some time, back I was advised by the Post Office Department that a survey was being made of fourth class post offices with the thought in mind of closing outmoded and obsolete offices. I immediately wrote all of the fourth class offices in the 18th District that the Post Office Department intended to investigate, advising them of this survey and the intentions of the Post Office Department. The thing that concerned me was the construction of the term "outmoded". What might be "outmoded" in a city fellow's mind might not be so "outmoded" in the minds of some of us who have had some experience with the great service that these fourth class offices have rendered to the people in the rural communities. It isn't difficult for some city fellow to say that because a fourth class office isn't making its expenses, it should be closed. He is only thinking about it on a dollar and cents basis. Where he lives the postman brings the mail to his door or he can get it from a post office box just a few blocks away. If his car is out of whack, he can catch a bus or a taxi and not even get his hat wet. He doesn't stop to think of the great service the communication system afforded by fourth class post offices has rendered to the people who use them and to the country as a whole.

I am sure there are quite a few first class offices that fail to make their expenses. However, this is no reason to close the post office. It might be pointed out that the operation of the fourth class post offices is not the cause of the big

deficit in the operation of the Post Office Department. These offices have been in existence for many years, and although all of them don't show a profit, as a whole they pretty well pay their own way in dollars and cents, and many of them ten-fold pay their way in the service that is rendered. It looks like that some people would rather do away with these traditional landmarks of American rural life than to try to cut down on some of the hidden subsidies that have crept into the post office system through the scheming of some of the big city thinkers.

I have received a lot of mail on the subject and have talked to a lot of people since I have been back in the District, and they are all righteously indignant at this new attempt to take one more thing away from the folks who live out in the country and raise the food and fiber to feed and clothe all of us. Several of the letters have said, "They have taken away our churches, our schools, and most of our businesses. The post office is the only thing we have left. Please don't let them take that." My answer is that I will certainly do all in my power to prevent it. There has been entirely too much migration from the rural areas to the cities, and most of it has been caused by the denial to the rural people of many of the benefits and privileges that the city people take for granted. Closing these fourth class offices in this section of the country would be penny-wise and pound foolish. It would not be economical, but it would be a damaging blow to the economy of many communities in this section. The first thing we know they will be wanting to allow only one town for each county. Instead of continuing this regimentation theory, it is my view that we should try to unregiment for a while. In short, I am against closing these offices and any further encroachments

on the rights and privileges of the people in these small communities. The truth is that all of these offices could be operated for considerably less than one per cent of the amount now earmarked to be sent into foreign countries.

It is certainly good to be back in the heart of America. Mrs. Rogers and the children are having a wonderful time, and of course the children surely hate to think of school starting.

Summer will soon be over and that means millions of children throughout the land are returning to school. Many of these students have held jobs during the summer and may have earned as many as two quarters of coverage under social security.

What does that mean? A quarter of coverage is a calendar quarter, ending March 31, June 30th, September 30th or December 31st, in which a person has earned as much as \$50. So a student who was paid \$50 or more in June, in work covered by social security, will get social security credit for that quarter. If he continued to work in July and August he will get credit for another quarter. The amount earned during the summer will be added to any previous wages shown on his social security account. If he continues to work part time after school begins, he will continue to earn a quarter of coverage for each quarter in which he is paid \$50 or more.

Many students, who have earned as many as six such quarters, are already "insured" by social security. A modest insurance payment would be made in case of their untimely death.

Students are affected by the Social Security Act not only because they have their own account numbers and work under the provisions of the Social Security Act, but also because many of them are receiving benefits based on the wage records of their parents. About 5½ million people are now receiving old-age and survivors insurance payments, and of this number, in July 1953, just one million were children under 18.

Officials of the Salt Fork Dam-site project should feel very proud of the progress that has developed of late on the proposed Dam on Salt Fork. Something that started as a dream but is fast developing into what is hoped a reality.

While trying to write this article school children were swarming in to get their free show tickets. This show was sponsored by the Chamber of Commerce and Mulkey Theatre in honor of all Clarendon school children but special thanks should go to Mr. Lee Bell, manager of the Mulkey Theatre, who

made all the arrangements for the show. Also you should express your appreciation for the show to Mr. Truitt and the Clarendon school faculty who cooperated in every way to make the show possible. If you enjoyed the show there is no reason why it could not be made an annual school opening affair. Let Mr. Bell or the school teachers know how much it was enjoyed.

### Bargains In Beef

Steaks and other good beef cuts rate star billing on the family shopping list the rest of this month and through September. With beef of all types more plentiful now than during any comparable period in recent years, Texans now can really indulge in their traditional fondness for this home raised product. Prices should be favorable enough to warrant laying away a good supply of meat in the deep freeze, too.

Supplies of beef during August and September will be setting new records. The hot, dry weather that prevailed over much of the cattle-raising region during the early summer has stimulated unusually heavy marketings of range cattle. This movement, added to the large supplies of fed cattle, means that the consumers are finding meat counters well stocked with attractively-priced cuts.

Judging by the quantity of livestock marketed during the past six months, and estimates of what is expected to come to market the rest of this year, consumption of beef in 1953 may be as high as 73 to 74 pounds per person. This would be a big increase over the 61 pounds per person last year and would equal or top the 1909 record of 73.2 pounds per person.

Housewives will need very little prodding to choose beef and beef products for her family. They know that the protein in beef is needed by young and old alike, and that variety meats in particular are good sources of important vitamins and minerals. Lean beef is a valuable source of B-vitamins and of phosphorus and iron. Protein and minerals are found in beef liver, kidney and heart. And liver, with its iron and copper content, is an important blood builder.

But the best news is that after years of almost prohibitive prices, beef is now coming within the family budget. As a result, weekend chefs of both sexes who go for outdoor cookery on summer evenings will be even more active in the next few weeks.

The barbecue baron may rely on easy-to-fix hamburger sandwiches, topped with onion or tomato slices. Or he may choose the ever-popular frankfurter on toasted roll with a generous garnish of relish or sauerkraut. But grilled steaks and other cuts are expected to top the list.

Whatever his preference, beef will score a hit every time.

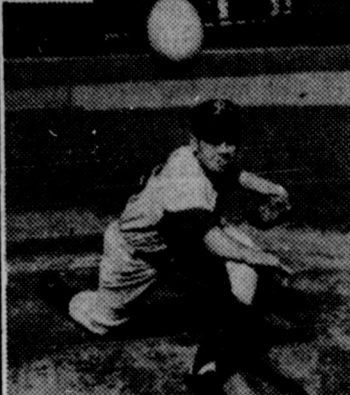

Mr. and Mrs. John B. King and children Mike and Vikki visited a week with their parents, Rev. and Mrs. J. Perry King in Amarillo and Mr. and Mrs. D. F. Wadsworth in Clarendon.

### Sackful of Diamonds

The thought of diamonds pouring down a drain is enough to give most people nightmares. If the thought of industrial diamond loss in waste didn't have exactly this effect on the people at G.E.'s Carbonyl Department, it gave them something to ponder. They pondered and came up with an answer—an old sugar sack. Formerly the diamonds used to

grind super-tough tungsten carbide tools wore off the grinding wheel and were carried into a sludge tank along with the cooling fluid used during grinding. Reclaiming diamonds from sludge was uneconomical.

By the simple process of tying a sack over the exhaust end of the pipe leading to the sludge tank, the diamonds—a critical list item—are now saved and the cooling fluid drains through the sack.

It must be a nice feeling to pick up a sack of diamonds at the end of the day.

We note that the Chinese used umbrellas 3,000 years ago, so borrowing must be an old, old custom.

### Americanism Week September 13-19th

WORTHAM—Plans for observance of Americanism Week, Sept. 13-19 by the Texas Federation of Women's Clubs, were launched today by Mrs. Van Hook Stubbs, president. September 17 is the 168th anniversary of the signing of the Constitution.

Raising funds for restoration of Independence Hall at Philadelphia is a special project which Texas clubwomen are being urged to support. The state's part toward the \$250,000 restoration has been set at \$7,000 by the General Federation.

Asking that every Texas club participate is Mrs. Florence John-

son Scott of Rio Grande City, state Americanism chairman for the Texas Federation and past president. She says "We cannot let the shrine where the Declaration of Independence was adopted, the Constitution drafted, and our first president installed fall into neglect."

The emphasis on Americanism was initiated by Mrs. Oscar Ahlgen, national president of the General Federation of Women's Clubs. Her announced objective is to focus attention on the benefits of American democracy with its opportunity for achievement built on respect for the rights of the individual.

Texas clubs are being asked to carry this fall's program emphasizing a return to basic American

AUSTIN—On one point, both sides were ready to agree: it was all politics.

District Judge C. Woodrow Laughlin of Alice was hauled into a special hearing to determine whether he should be ousted from his job.

Laughlin, the first witness in his own defense, admitted that he had received the support of Geo. Parr, Duval County political boss, in his election.

Opposed to Laughlin was Jacob S. Floyd, Alice attorney and longtime anti-Parr leader.

Floyd's son was killed last year from ambush—some say the killer made a mistake and was aiming for the father.

—tpa—

Eleven South Texas lawyers are asking Judge Laughlin's removal for office.

Testimony is being taken by District Judge D. B. Wood of Georgetown. The evidence will be turned over to the State Supreme Court, whose responsibility it will be to determine whether or not Laughlin shall be ousted.

—tpa—

Texas' drouth situation was fairly well mixed up.

Secretary of Agriculture Ezra T. Benson added 12 counties to the Texas disaster area.

At the same time, showers were falling over most of the state and in some areas flood conditions prevailed.

To sum up the situation, it seemed safe to say that the drouth was being beaten by two factors: emergency relief measures and rain.

Into the courts went the question of where the state is going to buy its tires.

Low bidder was Pennsylvania Tire Company. Jack Ritter, representing that company, got a temporary restraining order preventing the State Board of Control from buying tires from any other company.

Ritter said he had information that two members of the board

intended awarding the contract to General Tire & Rubber Company.

Two State Senators entered the controversy. They were Johnnie B. Rogers of Austin, sales manager for Ritter's oil company; and Jarrard Secrest of Temple.

General has a tire factory in Waco, which is in Secrest's district.

A number of bills passed by the last Legislature were to go into effect August 28.

Among these were two affecting the motor transportation industry.

One bill provided that any truck found to be carrying a load in excess of that for which it was registered must be re-registered so as to pay fees in accordance with the load actually hauled.

The other bill required that copies of leases be filed with the Department of Public Safety on equipment operated by persons other than the registered owner and that the name of the operator (the person having the truck under lease) must be shown on the side of the vehicle.

Both of these measures were sponsored by the trucking industry. James E. Taylor, executive director of the Texas Motor Transportation Association, said they were part of the industry's self-policing program.

Also effective was legislation amending the workmen's compensation law authorizing insurance companies to pay for the services of a chiropractor when insured persons suffer back or spinal injuries.

"Be your brother's keeper," Liquor Administrator Coke R. Stevenson Jr. advised Texas package store operators at their convention in Houston.

Most people who sell alcoholic beverages want to be respected members of the community, Stevenson said, but one lax operator brings discredit to all.

Sell the cheater, Stevenson admonished, on the fact that a clean, well-operated shop means more profit to him, "and that if he continues to violate the law his days as a package store operator will be numbered."

The administrator told his listeners that "I want to work with you toward the goal of a well-regulated, well-ordered industry."
