# THE SUPERLATIVE '60 CHEVY

This is the one that says '60 like no other car. From its clean-thrusting grille to its dapper rear deck, there's so much that is new and different about this superlative Chevrolet it stands out from the rest like a fresh-minted coin. And you'll be just as wide-eyed over what's inside-the relaxing roominess, asteful trim, hushed elegance, all comfortably cradled by Full Coil springs at all four wheels. Yet, sumptuous as this new Chevy is, you'll find new economy of operation, new dependability, new longer life. Here, then, we're confident both you and your budget will joyously agree, is the nearest to perfection a low-priced car ever came!

Here's the car that introduces a whole new decade of design —with so much that's new and different the other ones can only hope to come close. It's the superlative '60 Chev-rolet—with new space in-side, new spirit under the hood, new splendor in every clean-etched line,

Freshly shaped contours rake back from the unified new grille to the jaunty rear deck, fitted with craftsmanship you'd expect only on the most expensive makes. Inside, there's room to sprawl in, room to sit tall ingenerously provided by Chevy's sofa-wide seats and

extra margin of hat space. And there's even more leg room for the man in the middle—thanks to the way Chevrolet engineers have shaved down the transmission tunnel.

Out on the road, as Chevy's Full Coil ride will persuade you most gently, there's not a car near the price that comes close to the hushed comfort of this one. And, adding to your sense of silence and solidity are thicker, newly designed rubber body mounts that do an even more efficient job of filtering out road shock, tire hum and vibration.

Quiet, quick-responding power is provided by a choice of two standard engines—Chevy's famed Hi-Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 10% more miles out of a gallon of regular while delivering greater engine torque at normal speeds.

Chevy's accent on comfort and convenience even ex-tends back to its easier-to-load (and tremendous) luggage compartment. You'll also find a convenient new parking brake that auto-matically returns to normal height after application, a new clutch linkage that filters

out even the smallest engine impulses more effectively than ever and a trim new two-toning motif that's avail-able on all 16 fresh-minted models.

But, impressive as all this may look in print, there's really only one way to tell how near to perfection this superlative '60 Chevrolet actually comes... and that's to drop in on your dealer and drive one!

Reminiscences of an old-time sports writer.

Many years ago, I went to a
West Texas town to cover a high school football game for a big city daily and the man on the gate refused to honor my pass because it was signed by only one school. The cost of the ticket was 75 cents and so I paid 38 cents as the non-signing team's

was 75 cents and so I paid 38 cents as the non-signing team's share of the gate receipts, (That item was included in my expense account but it wasn't listed by itself.)

Then there was the time that LeRoy Menzing drove 125 miles for the annual Cisco-Abliene classic. He was sports writer for the Fort Worth Star-Telegram and I was editor of an Oil Belt paper. A band was seated in front of the press box and the brass horn was squarely in front of Menzing, completely blocking his view, so I "broadcast" the game to him, telling him who carried the ball, who made the tackle and how many yards were gained or lost, on each play.

They took their football serlough in the old Oil Belt A viscous the service of the meeting as being very profitable. This is one of the many services which Area of the many services which Area of the teaching of homemaking in high schools of Texas.

There is the recollection, too of a fan, indignant at something I wrote, who sent the word that he was going to give me a whipping when he came to Eastland for his team's game. Since he did not know me, several citizens persuaded the county highway officer to put on street clothes and pose as me. Not long before, this officer had arrested three deligerent, he subdued all three of them with his fists. So I felt that this was going to be one fight that "House" would win. The other fellow, however, failed to show up.

The Oll Belt in those days (1921-30) was probably the "hottest" district in the State. It abounded in historic rivalries.

The Oil Belt in those days (1921-30) was probably the "hottest" district in the State. If abounded in historic rivalries. When Ranger and Cisco met, or when Breckenridge and Ranger met, or when Eastland and Cisco met, or when Eastland and Cisco met, or when Abilene and anybody met, you could look for a ding-dong battle. The four citles were in a space of 50 miles, connected by excellent roads, and the attendance often was greater than the population of the town where the game was being town where the game was being

times where he was!
As a matter of fact, though, my last three seasons, I wrote up the Ranger-Eastland game for both papers — and it was the same writeup, too. (I've always felt that I would make a good trouble-shooter for the United Nations).

A sports writer wasn't looked upon as much of a success unless he had at least two feuds going with other sports writers. My favorite targets were Blondy Cross of San Angelo and Prexy Anderson of Abliene but occasionally I would go entirely out of my class and try to take on Jinx Tucker of Waco. Actually, we were all very fond of each other but these feuds added zest to living and also made it easter

Maybe, most of us scribes
didn't make a lot of money but
we enjoyed life — and we got
into the football games free.
(Except that time I had to
pay for half a ticket.)

he car craftsmen who developed Wide-Track Wheels, the innovation that brought a new standard of roadability to the American passenger car, present another fresh original for 1960!

With clean, crisp lines they've composed a delightful rightness of form with unity and rhythm.

Into the proved principle of Wide-Track (wheels farther apart for a steadier stance) they've engineered an ingeniously improved suspension system. This combination of a firm foundation and supple suspension gives you flawless control, more skill in the fine art of driving, smooth stability, bump-yielding softness.

The power plant is typically Pontiac. A wide range of restless, ground-gaining power packages to choose from. All are husky V-8's, ranging from the frugal 425E economy engine that prefers regular grade gasoline to the fiery Tempest 425.

Haven't you been an admiring spectator of Pontiacs long enough? Isn't this your year to become a participant in Pontiac pleasure, to move up to Pontiac ownership, where the enjoyment is the fullest, where the point of view is the freshest?

Wide-Track Wheels give you swayless stability, solid comfort. You maneuver with skillful sureness, accurate control. It's the sweetest, most precise most rewarding driving you've ever felt.
