

RUBBER BALLOON carrying a small electronic device called a radiosonde is released at Redstone Arsenal, Alabama. Mission—to gather information on atmospheric pressure, temperature and humidity. Data will be used to help insure that static test firings of the giant NASA-SATURN space rocket can be conducted with complete assurance of safety of people and property. Preparing to release the balloon is Robert Turner, Chief of the Army Rocket and Guided Missile Agency's Meteorology Observation Station.

Local Business Firms To Close Memorial Day May 30th

Memorial Day, being one of the four closing dates agreed upon by local business firms, all local stores are scheduled to be closed next Monday, May 30th, in observance of this national holiday. Local stores previously observed Armistice Day but the change was made to scatter the holiday observances so two will come in the fall and winter and two in the spring and summer. The four closing days observed by local merchants are Thanksgiving, Christmas, Memorial Day and July 4th.

Gene Long Employed By Local Schools

Gene Long, former resident of Clarendon, has been employed by the local school board to teach vocational agriculture in the high school. The vacancy was created when Jerry Hawkins, vocational teacher here for the past two years, resigned to accept a similar position in the Groom school system. Herman Boone was promoted to the head position and Mr. Long will take over Mr. Boone's duties.

To Attend District 4-H Club Camp

Three 4-H Club members and County Agent H. M. Breedlove will attend District 4-H Club Camp on the 31st of May and the 1st and 2nd of June. The camp will be held at Camp Don Harrington, about fifteen miles out of Amarillo in the upper Palo Duro Canyon. Mr. W. W. Grisham, District Extension Agent, will be in charge of the camp.

Golf Tourney To Start Over Sunday

Since the majority of matches in the First Summer Golf Tournament were rained out last Sunday, all who had not finished their matches will begin over this coming Sunday. This ruling is in accordance with PGA rules. Any players who had finished their matches will not have to play again.

MOISTURE TOTAL ABOVE 1959 FIGURE

With our continued scattered showers on top of the big down-pour, we have totaled out 9.78 inches of moisture for the year so far with several days yet to go. The total through May, 1959, was 20 so we have already exceeded that figure. Our total for May so far this year is 5.14 as compared with 6.50 in 1959. The showery Sunday afternoon netted .20.

COMBAT TROOPS BOARD THE AC-1 "CARIBOU"—fixed wing transport for Modern Army's aerial mobility. Designed to operate from short, improvised airstrips in close support of troops in forward areas, the "Caribou" can take-off within a distance of approximately 150 yards. It has a range of up to 1,400 miles, is able to haul three tons of cargo or 32 fully-equipped combat troops or 14 stretchers. Brig. Gen. Clifton F. Von Kann, Director of Army Aviation, recently said, "We cannot double the manpower of the Army, but we can more than double the potential use of this manpower through air mobility."

FARM NEWS

from the County ASC Committee

1960 - ACP We are very pleased with the performance reported on ACP practices thus far and suggest that those of you who have the time and acreage available to consider our summer legume practice for acres that may otherwise be idle. Make your request for ACP assistance before beginning any practice and be sure and report the performance as soon as the practice is completed.

Important - Performance Card All producers will soon receive a card or cards requesting performance information as to the planting of an allotment crop - cotton - or soil bank base crops for 1960. It will save considerable time and expense if you will answer the questions as to whether or not an allotment crop or soil bank base crops will be planted on the farm.

Please fill out the card, tear off the reply and place it in the mail box. No postage is required. Your prompt reply is needed.

Crop Acreage Limited On Conservation Reserve Farms

Farmers who have placed part of their cropland in the Conservation Reserve have an important crop acreage limitation to consider before completing their planting this spring. That limitation is the acreage of Soil Bank base crops that may be planted on the farm. In general, all the Soil Bank base crops include the grains, row crops and oilseed crops.

When part of the cropland on a farm is placed under a Conservation Reserve contract there is a permitted Soil Bank base acreage established for the farm. The permitted acreage then becomes the maximum acreage for Soil Bank base crops that may be grown under the contract. On farms where all the cropland has been placed in the program, the permitted acreage of crops for harvest is zero. In addition to the limitation of acreage devoted to crop production, the contract also provides that the cropland retired into the Conservation Reserve MUST not be grazed nor a crop harvested from it, nor can noncropland be brought into crop use.

Services Pending For George Baker

Funeral services are pending for George Baker, 82, retired farmer and carpenter, who died Monday afternoon at his home in Hedley. He had been a resident of Hedley about one year. Survivors include his wife; two daughters, Mrs. J. O. Hefner of Hedley and Mrs. W. C. Vaughn of Amarillo; a son, Odis Baker of Tulsa; a sister, Mrs. R. N. Bateman of Texarkana, Ark.; and a brother, J. L. Baker of Hedley.

TRADE DAY WINNERS

Winners of the Trade Day event here Saturday were \$25 - R. R. King; \$10 - W. W. Dodson; \$5 - Carl Barker. The participating merchants listed on the tickets in order drawn were W. E. Clifford Grocery, Clarendon Food Store and Bob Moss Pharmacy.

RECITAL TO BE HELD FRIDAY NIGHT

Mrs. J. N. Weaver will present her piano students in a spring recital Friday evening at 8 p.m. in the First Baptist Church. The public is extended a cordial invitation to attend.

Mr. and Mrs. Benny Darnell and son of Amarillo spent the week end in the home of his parents, Mr. and Mrs. Pete Darnell. Mr. and Mrs. Eddie Orsak and daughter were Sunday visitors, also.

Five Students Receive Special Awards Thurs.

Five Clarendon High School students received special awards at the graduation exercises held in the gymnasium last Thursday night at which time 30 seniors received their diplomas.

Mr. Ernest Kent presented the American Legion awards to Sharon Smith and Dennis Bradshaw. The selections were made by a committee of members of the local American Legion Post and consideration was given for scholarship, citizenship, leadership and service to both the community and the school. The Fighting Heart and Best Girl Athlete awards were presented by Mr. Walter B. Knorpp, President of the School Board. The Fighting Heart award went to Neel Carter and the Best Girl Athlete award went to Pat Owens. Consideration for all-out effort in the field of athletics was the basis for these awards and selections were made by the coaching staff of the high school.

Te Knorpp Cup Award, also presented by Mr. Walter B. Knorpp, went to Sandra Pinkerton. This award is for the outstanding student in the high school and selection is made on the basis of scholarship, citizenship, leadership, service and participation in extra-curricular activities. This selection was made by a committee of faculty members.

Little League News

Annual Giles Picnic Next Monday May 30

Highlighting Memorial Day will be the Annual Giles Picnic on Monday, May 30. An all-day affair which lasts into the evening hours, dinner and supper will be served on the picnic grounds.

Flip Breedlove, Clarendon's own barbecue king, will be in charge of barbecuing the beef.

For entertainment, there will be music, singing and dancing. Bob Ayers of Memphis will serve as master of ceremonies. Hymn-singing and fiddle music will be headed by Richard Stotts aided and abetted by Mack Graham, Walter Johnson and J. B. Yates. Milton Beasley and his square dance club will be present to furnish added entertainment.

Cotton John Smith and Bill Rhue of KGNC have said they would be present for the occasion if at all possible.

Virginia Browder, who is serving as publicity chairman, said, "If you've never attended a Giles Picnic, you've missed the time of your life. Come once and you'll never miss again."

Honor Letters Awarded Junior High Students

Donley County Soil Conservation District News

W. P. Doherty T. C. D'Spain

C. B Morris Roy Jewell Frank Hommel

Tools for jamming the valves of some of Donley County's biggest water pumps are now available to ranchers in the Donley County Soil Conservation District.

Tests have shown that it takes 2 to 4 times as much water to produce a pound of brush than it does a pound of grass. A single mesquite tree pumps into the air about 25 gallons of water daily. This water pumped into the air through transpiration, and other water used by the brush plants, could be used very effectively to grow grass. Brush control often mean a 50% increase in beef production.

Shinnery oak, sand sagebrush, and mesquite are the biggest brush problems in the Donley County SCD. An effective treatment is available for each of these.

Mesquite can be controlled by treedozing, rootplowing, and aerial or basal application of 2,4,5-

exercise in Clarendon Friday evening. Their sister, Miss Nancy Young, was a member of the class. Miss Young accompanied her brothers home Saturday.

Jesse White received word Saturday that his nephew of San Antonio had passed away. Mr. White and his brother, M. B. Boge White of McKnight, will attend the funeral service Tuesday.

Mr. and Mrs. Wesley Webb and baby are to leave Monday for Fort Meade, Maryland.

TP. Sand sagebrush can be controlled by application of 2,4,5-TP or 2,4-D. Shin oak should be sprayed with 2,4,5-TP. Usually 2 or 3 applications is required to kill shin oak. If mesquite is sprayed, retreatment is usually needed on it after 7 or 8 years.

Among those who plan to apply brush control in the Donley County SCD this year are F. A. Finch, James Doneghy, L. R. Hagy, Miller Ranch, Johnson Ranch, and J. H. McMurtry.

This week, the week of May 22 through May 29, is Soil Stewardship Week. This week is observed throughout the nation by Soil Conservation Districts, churches, and other interested groups. The purpose of the observance is to help man better realize the relationship between himself, his God, and the land of which he is the steward. The earth is the Lord's, and its fullness thereof. Our duty as stewards of the land is to improve it and take care of it through our lifetimes, and to pass it on to future generations in as good or better condition as it was received.

GRASSROOTS OPINION

El Dorado, Kan., Times: "One of the biggest rows imaginable is about to come to a head.

"The subject concerns the closing of an 'escape hatch' by which the country's cooperatives have been relieved from payment of

federal income taxes. "Cooperatives . . . started out as small communal enterprises to help farmers in their purchasing and marketing. Mainly they were successful — so much so in fact that they began to branch out in such diverse pursuits as manufacturing, banking, insur-

ance, utilities, oil production and refining, mining and even radio stations.

"All of these pay little, or no, income taxes. Firms with which they are in competition are naturally disgruntled because the earnings of these are taxed up to 52 per cent."

Clarendon's Future Can Be Secure

Here in Clarendon we are the proud residents of a nice, quite peaceful little community. We are proud that Clarendon is one of the oldest towns in the Panhandle. Clarendon being an established town when Amarillo was

still rolling prairie. We are proud, too, that Clarendon has effected remarkably little change—since it was established. It's nice to live in a town that you know isn't going to grow out of proportion, progress, or develop in new ways. It's nice to know that some new development isn't going to arise to confuse us or change our set pattern of living.

Some of the younger people, at times, seem to advocate new industry and recreation centers, such as a swimming pool, a bowling alley, or even a place to go and dance. So far, with luck and wise counseling of some of the older set, we have been able to avoid these nuisances. I call them nuisances for a good reason. For example, if a factory should be started in Clarendon. A factory would probably mean scores of new people in Clarendon, and most of them would be total strangers. Could our present amount of stores ever be able to adequately serve them? Think of the trouble involved. It would mean hiring more employees, shipping in more merchandise, and even more time and trouble on bookwork and income tax. Also, another fact to be considered is that new people might mean new stores which might give some competition to some of our already well established citizens, who have a nice friendly monopoly on the trade.

What would happen if Clarendon should build a swimming pool? One must consider the dangers of such an idea. Why there is always the possibility of drownings or even sunstroke. Too, we can't weaken and let something like a swimming pool creep into our community. That might lead to a bowling alley, and even a place for young peo-

ple to go and dance. Such developments might occupy the time of our young people to such an extent that they would fail to study enough, and our present ratio of nationally known geniuses might suffer. In any case it would surely make spendthrifts out of the school age group.

As the situation stands in Clarendon now, our young people are perfectly satisfied as everyone well knows. There is plenty to occupy our time. We can always see a show, tour the main street, or even get together and go have a Coke. What more could a person ask? This is probably the main reason that Clarendon has such a quite, satisfied, studious group of young people. If the younger ones do want to go out on occasion, let them drive to another town to spend their money, it gives our few filling stations more business. Our young people are very fortunate in that they are never burdened or confused with decisions regarding how to spend their time, how to enjoy themselves, or where to get a job if they need to work. Clarendon is one of the very few

towns that can claim such a top pay scale, and there is never any conflict on how to spend leisure time because there is nothing to have a conflict about. As a result, the youngsters can grow up in a very stable setting—some people might call it a rut, but that is because they are oddballs I'm sure.

If all the people in Clarendon will stick together, I am sure we can maintain our present status indefinitely. Why, we haven't lost but around 400 of our population in the last ten years, and they probably consisted mostly of people with those new fangled ideas of progress. Surely if everyone will back any leaders who are resisting change and really support them, I feel sure that there is no question of the development of Clarendon's future as a town or our future as individuals. I sincerely hope that I am expressing the sentiments of the majority of the Clarendon residents.

INFORMATION AVAILABLE ON FARM LEASES

College Station — A written land lease is good insurance for both landlord and tenant. A simplified lease form for this purpose has been prepared by Cecil Parker and C. H. Bates, extension farm management specialists.

The objective of this form is to help landlords and tenants determine an equitable rental arrangement and to record terms of the agreement. Another major function of the form is to foster stability between landlord and tenant by providing a lease form covering major questions which arise, so that agreement may be reached when the lease is made.

Supplements to the leases are also included which cover crop and livestock share arrangements and conservation and other improved practices. This serves to provide for more definite atten-

tion to conservation and other sound agricultural practices.

The form may be obtained free from local county agents or the Agricultural Information Office, College Station, Texas. Ask for MP-300.

It's what you learn after you know it all that counts.

BLOWIN' Out the CORNERS In Uncle Zeb

Grandview, Texas

Perhaps we were the only person in the Panhandle who did not know where Grandview was located. We admit that we did not until Mrs. Raymond Maddox invited us to come over and visit and talk with the 7th grade graduation class. Before you write the address down we didn't see any post office but we did see many things which we appreciated.

In the first place there were six of the most wide awake boys graduating from this class that we have seen in some time. This

is the highest grade taught in the two teacher school and there were no girls among the graduates. It had been an all male class most of the way through the school.

This well equipped small school is located some twenty miles northeast of Groom and southeast of Pampa. We enjoyed every minute of our visit except for the main address. We were miserable for that time after hearing the good parts given on the program by the students.

Our compliments to these fine young men upon their graduation, and to this wide awake and friendly community. Thanks, Mrs. Maddox and Supt. Lee, for the invitation.

Try . . . Be not concerned, be not surprised. If what you do is criticised; Mistakes are made we can't deny. But they are only made by folks who try.

A young man had just graduated from college. He rushed out and said, "Here I am world, with my BA." The world replied, "Sit down and I'll teach you the rest of the alphabet."

The right kind of an education will help us to be like an open watch — open face, busy hands, pure gold, well regulated, full of good works.

Vacations are something which we all look forward to each year with about the same amount of enthusiasm, but to the various ones it may mean something entirely different.

To the executive it may be getting away from the telephone and from the never ending round of appointments. To the businessman it may be the absence of a crowd and the rush of closing time that holds a spell for him.

One lady talking this summer said that to her it meant getting up late, leaving the dishes in the sink, not making up the beds 'til almost noon.

To the fisherman it would mean tramping up and down mountain streams or about the lakes. We talked with one such person who remarked; "Into this two weeks we have to stuff enough memories to last us the rest of the year."

To the children, it would be mostly just to go, and to do new things.

Whatever our likes may be, the one hard thing that we all have in common is that getting back

into the groove of everyday living when we get home. It seems that we always get behind with our work. Then, in these two weeks we have gotten soft in the places with which we work, making it doubly hard to catch up. But be home ever so humble. Our work in an awful jumble. Even our trip rough and tumble. Next year, we're always ready.

If any of our Clarendon Readers wish to see a copy of our little book Along the Trails with Uncle Zeb in Red River we left a few copies at the Bob Moss Drug Store. Might get by with just looking at the pictures without buying a copy.

Some of the greatest experiences of our life has been to know either in person or through letters many wonderful people who even though they carried some handicap through the years their life radiated with inspiration and courage that sort of spilled over into our own heart. The following is a part of an expression from a blind lady which we in a way know. We do not know how to improve, so we will just quote, in part;

"Without physical sight one has a deeper sense of beauty. A group of children were entertaining and one young girl was so friendly and cooperative. The blind lady entertained remarked; 'She is the most beautiful of all.' Later, it was learned that the little girl's face was disfigured. The blind lady had seen the beautiful personality."

"The joy of living does not come from what one sees but from what one comprehends."

"People spend countless hours trying to decide which handicap they would choose. What a waste of time for God in his wisdom does not permit us to choose, but in His wonderful way makes us happy with His choice."

"Finally, it is not what we

GEORGE'S WIFE

By "Sarah"

A picture in last week's Amarillo Daily News expresses our feelings more adequately this morning than all words in the English language. This picture showed the children in a class

have but what we do with what we have that makes us happy.

"The eye is the window through which the brain receives impressions. When the eye fails and the brain receives impressions some other way, then one has mental sight." Our blind friend continues; "A man I know who is blind, once boarded a train. He heard a woman remark, 'I would rather be crazy, or just anything, than blind.' He turned to her and said, 'Lady, I am glad to get your ruthers.'"

Thanks to this kind lady for sharing her beautiful thoughts. She wish to remain anonymous. Bless her.

room after the teacher had just

announced "School is out." Hats, coats, papers and books were flying up in the air, such an expression of joy on each smiling face i the picture, only a camera could catch and record for posterity. This little school had given up their holidays in order to get out on an earlier date than most schools. All schools are near ing that magic time now, we are on the children's side this year. Our holidays will not last as long as the childrens, because in order to go to school again we left lots of things undone. Just as in countless other times, George didn't do them for me.

So Mothers be patient with the little rebels and rejoice with them, they have earned this brief holiday.

We remember one of our children saying, after graduating from college, that this foolishness had to stop, he had gone to school all his life and hadn't earned his salt. Now he is having to earn his salt and enough for his family also. Every opportunity that comes his way for a

course in something he missed school, he takes now. He learned that this business of education is a never ending process and like his mother, the more you think you know, the less you really know.

We have finished our first exams, but have not received our grades, who cares, it is finished and we did our very best. After all, what could George if I failed? He is tired of being a semi-bachelor and will be happy as we are that "School out."

NOW LOOK WHAT CORVAIR'S GONE AND DONE!

The same Corvair that tallied a thumping 27.03 miles per gallon* in the Mobilgas Economy Run . . . went right on to climb Pikes Peak earlier in the spring than any car has ever tried!

We wanted to show you what the fabulous traction of Corvair's rear-engine design and the sure-footedness of four-wheel independent suspension really mean. So the identical Economy Run car went right on to 14,110-foot Pikes Peak—and right up to the top of that savage mountain, on April 15, still deep in winter's snow and ice. No other car—even specially equipped—had ever been able to conquer that nightmare alpine road so early in the spring. But Corvair (with United States Auto Club officials aboard to certify that not one nut or bolt was changed) purred right to the summit without chains or even snow tires! That just underscores the fact that Corvair is totally unique. But you'll find that out the first five minutes you're at the wheel!

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Texas Highway Department soon will come out with a brochure aimed at attracting out-of-state tourists to Texas.

Publication of the booklet with State Highway funds has been okayed by Attorney General Will Wilson. State Comptroller questioned the legality of using road-use tax revenue for non-highway purposes and the Attorney General's opinion as to legality was requested.

Actually the brochure sticks pretty close to the road. It contains a map of the Texas highway system, tells about traffic laws and highway markers and make a strong appeal for safe driving.

Its publication was declared legal on grounds that to refuse authorization would, in effect, declare unconstitutional the amendment approved by the people to allow advertising of Texas with state funds.

Expense of the brochure, said Wilson's opinion, "will be refunded to the highway program many times due to the great increase in automobile travel and the resultant increase in gasoline taxes."

Tourist spending in Texas dropped by \$100,000,000 last year. This

has been attributed by many to the fact that other states have advertised vigorously while Texas has not.

TEACHER TRAINING STUDIED — State Board of Education is considering proposals for revising requirements for education of public school teachers. Decision is to be made next summer. Suggestions include:

1. Requiring all teachers to take 18 semester hours in education courses.

2. Requiring elementary school teachers to take 18 hours in subject matter and skills to be taught plus another 18 hours in related areas. An optional plan would be 24 hours in one subject and 18 in another.

3. Requiring future teachers to spend six semester hours of practice teaching. It was suggested that this requirement could be set aside for persons with a college degree and three years actual teaching experience.

DON'T TAKE IT EASY — Biggest problem in driving on the new long, straight, controlled-access highways is that it's too easy. Drivers get bored, inattentive, sleepy.

"Rhythmic hum of powerful engines mile after mile . . . soft rumble of tires can produce a decided hypnotic effect," says the State Health Department Bulletin.

It suggests these ways for a driver to keep awake and alert: (1) Watch for police cars. (2) Chew gum — a full pack at a time. (3) Sing loudly and talk to yourself out loud or to a passenger. (4) Drive in your stocking feet. (5) Sit on something hard. (6) Keep moving your eyes. (7) Don't overeat before a trip. (8) Make periodic stops.

Finally, says the Bulletin, if you get sleepy, the only real cure is to pull off the road, stop, and go to sleep.

It cautions against artificial stimulants and driving after taking tranquilizers and antihistamines.

WHAT'S A BOMB? — Anyone who buys a jar of gasoline for his lawn mower could be accused of violating the state's anti-bomb law, a Dallas labor lawyer argued before the Court of Criminal Appeals.

His client was convicted of having assembled materials for a "Molotov cocktail" — a homemade bomb consisting of a jar of gasoline with a rag stuffed in the top for a wick.

In the case at issue the bomb was exploded in the driveway of a non-striking employe during a Dallas labor dispute.

Dallas assistant district attorney disagreed with the charge that the law involved is unconstitutional. He said the statute makes it clear that possession of gasoline for use as a fuel is legal, but for use in bomb making it is illegal. He said the law had been upheld seven times by the Court of Criminal Appeals and twice by the U.S. Supreme Court.

TRAFFIC COURTS URGED — More and more attention in Texas is being given to plans for setting up courts of record to try traffic cases only.

Lawyers and law enforcement officials have been concerned for years.

Public interest was suddenly sharpened this year when the State Board of Insurance adopted automobile insurance rates tied to the driver's traffic violation record. People who had been paying fines rather casually began to wonder what kind of shake they could get if they went to court over a ticket.

Local Cancer Drive Exceeds Minimum Goal

The Cancer Crusade was described as "the best on record" by Mrs. W. J. Lawis, Jr., local chairman of the American Cancer Society's drive.

"Our Crusade to save lives 'with a checkup and a check' has been a tremendous success, and in more ways than one" said the chairman. "We have substantially exceeded our minimum goal in Donley County. Preliminary reports indicate this has happened in all parts of the country. And the turn-out of people who give their time and energy to fighting cancer reached an all time high, too."

More than 2,000,000 volunteers took part in the nation-wide

A State Bar Association committee has suggested a two-pronged plan — one for rural and one for metropolitan areas.

Under this plan, county seats with 50,000 or more population would set up a county-wide traffic court. City judges would be appointed, county judges elected.

In each case the new courts would be restricted to traffic cases, and usual corporation and justice of the peace courts would continue to function.

University of Texas Law School Dean Page Keeton has suggested that county traffic courts be set up so that appeals could go directly from them to the Court of Criminal Appeals.

SECOND GAS TAX UPHELD — State Supreme Court has ruled the state has a right to collect a tax on gas when it is taken from the ground a second time.

Francita Gas Company had been taking gas from the ground in Jackson County, running it through a cycling plant and then re-injecting it into the ground.

It paid a tax for the first extraction, but protested state demand that it pay again when it took the gas out again. Supreme Court held the company had to pay the "7 per cent of fair market price" production tax for the second extraction.

drive. The Donley County Crusade enlisted 28 local residents who distributed leaflets containing life saving information.

"The dollar response to the drive reaffirms public confidence in our fight against public enemy disease number two," Mrs. Lewis declared. "And so does the response of volunteers, the women who chose to help us. It's significant that they chose the Cancer Crusade out of the many causes of varying importance."

"But if you think about what cause you want to work for, cancer is a 'thinkable choice'. Because it's a disease we can do something about and it's the disease most likely to strike in the family after heart disease. We can save lives right now, lives that are being lost. One in every three cancer patients is now saved. One in two could be saved, if everybody knew the facts of the disease."

"Our educational program gives the Cancer Crusade the deeply rewarding role of a life-saver. When she knocks on doors, she knows that behind every eighth door there is a potential cancer cure. She hopes the information she brings may save a life that might otherwise be lost. And with the money she collects, she knows she is helping research which will one day bring incurable cancers under control."

"These are the motives that spark a great public effort like the Cancer Crusade — and every other communal approach to a problem, beginning with the first barn-raising. It's the way we've always liked to do things down here, a way to get things done."

Mrs. Lewis wishes to thank the following people who helped make this drive a success in Donley County: Mrs. H. S. Mahaffey, Ashtola; Mrs. Sue Weatherly, Hedley; and the following women in Clarendon: Mrs. June Palmer, Mrs. Jo Jinks, Mrs. Annie Mae Lumpkin, Mrs. Bea Antrobus, Mrs. Evelyn Moore, Mrs. Lee Verne Smith, Mrs. Avis Benson, Mrs. Kaki McMurtry, Mrs. Margaret Knorrp, Mrs. Genieview Caldwell, Mrs. Vernell Robertson, Mrs. Dorothy Breedlove, Mrs. Frances Deyhle, Mrs. Marj Frances McCully, Mrs. Wanda Phelan, Mrs. Charlotte Adams, Mrs. Eunice Butin, Mrs. Anna Simmons, Mrs. Ann Bagby, and Miss Mary Cooke.

ACCURATE SOCIAL SECURITY RECORDS KEY TO PAYMENTS

The social security benefits payable to a farm worker and his family in the future depend upon the amount of wages credited each year to the worker's personal social security account, according to Hal Geldon, Manager of the Amarillo Social Security Office.

It is the farm employer's responsibility to file a social security report of the wages of any worker who is paid \$150 or more cash in a year, or who worked for him on 20 days or more during the year on a time basis. But it is up to the farm worker to see that his wages are being reported properly.

One way a farm worker can be certain his social security account is growing year by year is by making sure his employer has his correct social security number. He should also get in touch with the nearest social security office once a year in order to check the amount of wages being credited to his social security record.

Geldon stated that if a worker has never had a social security number, or has lost it, he may get a new number or a duplicate of his old social security card by filling out an application at the nearest post office or social security office. If a woman worker has changed her name through marriage since she got her social security card, she should apply for a duplicate card showing her married name.

MEDICAL PROGRESS
During no decade in medical history has there been such progress in treating disease as in the past 10 years. Not too many years ago the death rate for babies was twice it is today. The death rate for mothers was one out of every 150 births, today there is only one death among mothers out of over 2200 births. There are 3 million Americans alive today who would have died if the old rate of death still prevailed.
Today's medicine reduces the cost of illness in many ways. They cut down costly medical bills, reducing time lost from unemployment, and giving you better health. When you feel below par see your doctor and bring us his prescriptions. They will be accurately filled and the price will be right.

HEDLEY NEWS

Mabel Bridges

Our community was saddened when word came that Uncle Frank Kendall had passed away Wednesday evening at Goodall's Hospital. Another pioneer has been called home.

Uncle Frank was Hedley's oldest businessman. He and his family came here in 1911. He owned and operated Kendall Harness Shop. In later years he operated a boot and shoe shop with a line of merchandise. He was a true pioneer and often related his early experiences in speeches at old settlers' gatherings. He was Justice of the Peace in Hedley for 34 years.

This good man will be missed by old and young. He was always cheerful and had a smile for everyone. He was a devout Christian, living his religion every day. He will be missed by everyone.

Some of the out of town people here for the funeral were Miss Jewell Everett, Abilene; Miss Ruth Richerson, Pete Land, Clarendon; Rev. and Mrs. Frank Storey, Matador; Glen Richerson, Shamrock; Jimmy Kelso, Mrs. John Nash, Wellington; Mrs. Sue McFall, Adell Myers, Jerald Sims, Pampa; J. Livestock Survey Cards To Be Distributed

Postmaster Ray Moore announced today that Rural Mail Carriers will begin distributing one 1, 1960, Livestock Survey cards to patrons on their routes about May 19.

This mid-year livestock survey is the first of three which your Post Office and U.S. Agriculture Departments cooperatively make each year. The June 1 survey provides basic information to the Texas Crop and Livestock Re-

porting Service in Austin for estimating the 1960 calf crop, what the spring pig crop actually numbered, and a preview of farrowing intentions for the fall season.

Also, poultrymen will get information on number of chickens raised during the spring. Those chickens will be the coming fall and winter's laying flock.

To be sure our community is well represented in this survey, Postmaster Ray Moore urges each patron receiving a card to fill it out and return to his mail box. Rural mail carriers working on

this project are: Lynn Payne, Route One; Bob Baird, Brice Rt.; Mrs. C. Huffman, Jericho Rt.; Glenn Adkins, Palo Duro Rt.; and Jr. Swinney, Naylor Rt.

Mr. and Mrs. W. J. Lewis, Jr., spent the week end at Raton, N.M.

Local Pharmacy Ranks High In State

Relative state standings of drug stores for the past year released last week placed Bob Moss Rexall Pharmacy in 13th

place. This ranking advanced Bob Moss Pharmacy two places upward from the 15th spot held for the year of 1958. Standings are based on overall purchases and sales among stores of all sizes and all cities including chain stores.

We believe this report reflects

proof that Clarendon and Donley County still make a good place in which to live and that the economy will support progressive enterprises.

About \$250 million worth of light bulbs are purchased in the United States annually.

Mr. and Mrs. George Thompson, III, and Renae of Lubbock spent the week end with the George Thompsons and the Burals at Groom. Renae remained to visit the two families this week.

Recklessness is a one-way ticket to doom.
