## Hedley Youth's 4-H Angus Steer Is Reserve Champion At El Paso Show

Gene Floyd of Hedley, Texas, Donley County 4-H Club boy made a good showing at the El Paso Southwestern Livestock Exposition last week says County Agent H. M. Breedlove.

Only two steers were taken to this show and both steers belonged to Gene. His Angus steer was reserve champion Angus and sold for \$1.15 per pound and paid on 1,022 pounds. His Hereford steer placed third in his class and sold for 80 cents per pound and paid on 865 pounds. The two steers, including premium money won brought Gene \$1,911.30.

Gene and his sister Janice fed five steers this year and cleared \$2,000.00 on the five steers. Pete Land from the Martin Community made the trip to El Paso with Breedlove and Gene in the 4-H Club bus and the steers were hauled in the big trailer behind the bus. Pete made his first big show and had a big time as well as being a fine cook for the trip. 4-H Club members will try to talk Pete into making other trips with them.

The final show for the 4-H Club members will be at Houston. They will leave February 27 for Houston and return March 6. 4-H Club members are already putting steers on feed for next year and Breedlove says that by the last of March he plans to have better than 30 4-H Club steers on feed in Donley County for 1960.

## Arkansas Travelers To Play Lions March 10

How do the amazing Arkansas Travelers Basketball Team (all girls), who play more than 200 games during their season, stand such a gruelling, backbreaking pace? That seems to be the question every basketball fan asks after seeing this great team, which makes its first showing of the season here March 10, 1959 against the Clarendon Lions Club (all men's team) at the Clarendon Gym at 8:00 p.m.

Although they perform night after night and often in double-headers—Hazel Walker's talented girls never appear to be exhausted or weary. Every night they stage their dazzling whirlwind show with the same enthusiasm and skill from October through May in a different town each night.

How do they do it? During the past season, for instance, they played a total of 220 games and set an amazing record winning 201 and only losing 19. This record was accomplished against many of the strongest male teams in the nation.

Miss Walker has the answer to the questions and it's one of the reasons for the Travelers' tremendous success as the Nation's No. 1 Girls' Basketball Team. "Condition," says Miss Walker, who coaches and owns the Travelers. "The girls are in tip-top condition from the beginning of the season through the end over a six-month period."

Actually the girls are prime athletes who've had many seasons of basketball experience. They've learned the art of pacing themselves, going full steam during a drive and then slackening up while executing a particularly intricate pass pattern. They have also learned the art of relaxing under pressure, a test of true ability. Each girl, in her own right, is an outstanding athlete, not only possessed with a knack for basketball but with the ability to excel in other sports.

Team travels in a special built bus—reclining seats, overhead racks and is the best dressed team on the road, best looking team in the world, stay in the best hotels or motels, eat the best food and literally live and breathe basketball for six months each year.

## Bulldogs Cinch Tie With South Plains Win

The Clarendon Junior College Bulldogs cinched a tie for the West Zone Conference championship at Levelland last Saturday night by defeating the South Plains team 45 to 36. This made the Bulldog's conference record nine wins and no losses with three games to play. Frank Phillips College, who invades the Clarendon gym on Thursday night, is the only team with a chance to tie the Bulldogs for the crown. This can happen only if the Bulldogs lose their remaining three games and Frank Phillips wins their three remaining games.

The Bulldogs hit an unexpected cold streak at Levelland Saturday night and were hard pressed to beat the winless South Plains team. Coach Travis' cagers could hit only two field goals out of 17 tries during the last half, but cashed in at the free-throw line for their win. It was the Bulldog's great defense that saved the day for them in this game. The score at halftime was 26 to 20 in favor of Clarendon.

Lloyd Stephens topped the locals scoring attack with 12 points followed by Alva Carter with 10, Jack Buttram with seven, Bub Eldridge with five, Benny Lesley with four, Max Whittington with three and Felix Johnson and Gerald Garvin with two each. Valentine scored 16 for South Plains.

## National FFA Week February 21-28

Governor Price Daniel and Dr. J. W. Edgar, Commissioner of Education, complimented the 36,000 Texas Future Farmers today as the organization prepared to celebrate FFA Week in Texas February 21-28.

Bill McDowell, State FFA President, received the proclamation of the special week from Governor Daniel on behalf of the largest State FFA Association.

"The FFA is composed of boys who are studying vocational agriculture in the public schools in preparation for careers in farming, ranching, and related agricultural occupations. In studying the science of agriculture, these Future Farmers are striving to continually improve this great industry for the welfare of all citizens," the Governor said.

Governor Daniel pointed out the valuable service the FFA has performed for our State by developing leadership, encouraging cooperation, promoting good citizenship, teaching sound methods of farming, and inspiring patriotism among its members.

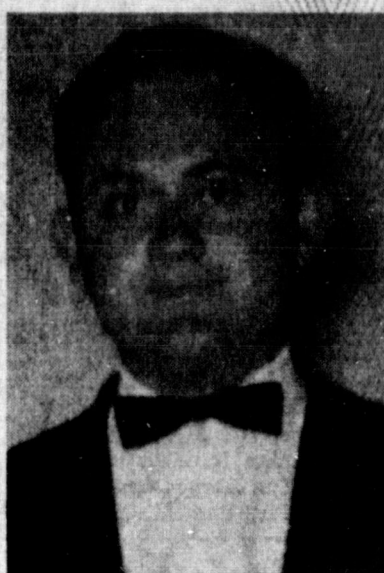

Dr. Edgar commended the vocational agriculture students in the 900 high schools in the state for their aggressive leadership training program. "Through the FFA, the boys who have the will, the energy, and the foresight are developing into outstanding farmers and ranchers, leaders in their community and well-rounded citizens of our country," Edgar added.

## Jr. High Teams Win At Lefors

The Jr. High boys and girls were both victorious in their basketball games at Lefors last Thursday night. The girls won 20-7 and the boys 42 to 28.

Both teams will enter the Quail tournament today. The girls will play Dodson at 6 o'clock and the boys will play Wellington at 9 p.m. This tournament will end the season for the Jr. High teams.

Visitors in the home of Mr. and Mrs. Charlie Dozier and Sayle last week were M-Sgt. Ferris A. Dozier and son Eddie of Denver, Mrs. Jess Sparks of Springer, New Mexico, and Mr. and Mrs. J. Boles and daughter of Happy.

## FORMER RESIDENT TO HAVE POEM PUBLISHED

Mrs. Faye Scoggins, a former Clarendon resident and a teacher in the Glendale High School at Glendale, Arizona for fourteen years, has been advised that her poem "Fantasy" has been selected to appear in the National Anthology of Poetry.

Mrs. Scoggins' manuscript is one of 450 chosen from over 8,000 manuscripts sent in by teachers, instructors, professors and librarians. Mrs. Scoggins teaches sophomore English, is a counselor, and sponsor of the sophomore class.

## TWO AREA STUDENTS ON WTSC HONOR ROLL

Two students from the Clarendon area were named on the fall semester honor roll at West Texas State College by Dean Walter H. Juniper. The roll is composed of the upper 5 per cent of the undergraduate student body.

Mrs. Self is the daughter of Mr. and Mrs. Leo Smith of Lelia Lake. She transferred to West Texas from Clarendon Junior College last fall. She is a junior home economics and education major.

Miss Talley, a senior economics major, is the daughter of Mr. and Mrs. Edgar Talley of Clarendon. She transferred to West Texas from Clarendon Junior College.

## Revival Begins Sunday At Methodist Church

A Revival Meeting will begin Sunday, February 22nd and continue through March 1st at the local Methodist Church with Dr. Marshall Rhow of Stamford as the Evangelist and Rev. Gene Moore of Hamlin will be the Music Director.

Dr. Rhow will be here for the morning service Sunday and Rev. Moore will arrive for the evening service.

Rev. C. M. Ryan, pastor, announced the early morning activity will begin with coffee, hot chocolate and do-nuts at 6:30 and the service will begin at 7:15. Dr. Rhow will bring a series of messages on Prayer in these meeting services. The evening service will begin at 7:30. This team will bring a program for the high school and college groups at 9 o'clock Monday morning and will have the program at the Lions Luncheon Tuesday, Rev. Ryan stated.

Another special feature for the week will be a message from the District Missionary pastor, Rev. Richard L. Deats. This message will be at 7 p.m. Tuesday evening. Richard and his wife were commissioned in January and will sail for the Philippines in March.

A Prayer Vigil is set to begin at 7 a.m. Saturday and will close with a prayer meeting for everyone beginning at 7 p.m. Saturday evening.

"We covet the prayers of all Christians for the revival activity, and we extend to everyone a special invitation to attend," Rev. Ryan concluded.

## Hedley Takes 12-B Crown Here Saturday

The Hedley Owls swept through the District 12-B basketball tournament here last week to take their first district championship in several years. The Hedley girls are still in the running, as they will meet the Samnorwood girls in a three-game play-off. The Hedley teams won their district round-robin schedule.

The Hedley boys, led by Bobby Lesley, encountered little competition in the tournament. They defeated Samnorwood 60 to 45 on Thursday night; blasted Lelia Lake 60 to 25 on Friday afternoon and defeated Claude 74 to 48 in the finals on Saturday night. In the girls' division, Samnorwood came out the winner of the tournament by defeating Dodson 61 to 30, Quail 52 to 46 and won a squeaker over Claude Saturday night, 59 to 56.

Other games in the girls' division saw Quail defeat Lelia Lake 67 to 50; Hedley defeated Groom 44 to 41; and Claude defeated Hedley 65 to 52. Other games in the boys' division were Lelia Lake 35, Dodson 32; Quail 30 and Groom 30; and Claude 61, Quail 48.

Mr. and Mrs. Tommy Phillips and son of Pampa spent last weekend with Rev. and Mrs. Ernest Phillips.

## Bulldogs Are Shooting For Crown With Frank Phillips Here Tonight

### High School Teams Lose To White Deer

The White Deer boys and girls basketball teams cinched the District 2-A championship with wins over the Clarendon teams at White Deer last Friday night. The boys' score was 78 to 47 and the girls lost a close one, 74 to 71.

The boys' game was a thriller from start to finish with White Deer winning in the last seconds of the game. The Bucks stayed ahead during most of the game with the Broncho's last lead being a 65 to 64 advantage with about three minutes left in the game. Clarendon scored first and the lead changed hands several times during the first quarter with White Deer coming out with an 18-16 first quarter lead. The two teams left the floor tied at 36-36 at the half. White Deer rallied during the third quarter to command a 57 to 49 lead at the end of the period.

The win cinched the district championship for White Deer as they are undefeated in district play with only two games left. W. N. Elam led the Broncho scoring with 23 points followed by Melvin Housden with 18, John Morrow with 12, Jimmy Johnson with 10 and Kenneth Housden with eight.

The Clarendon girls had little change against the taller and more experienced White Deer girls. White Deer took a commanding 21 to 12 first quarter lead and pulled farther away as the game progressed. They led 43 to 24 at the half and 58 to 32 at the third quarter. Joan Bennett scored 17 points to lead Clarendon with Paula Adams making 16, An Slavin 12 and Charlene White two. Mary Ann Freeman scored 43 for White Deer.

from the County ASC Committee

### Should I Follow Plan (A) Or Plan (B)?

This is a big question in the mind of many cotton farmers. Those who don't completely understand the plans or can't decide which to follow are advised to meet in Hedley School Auditorium February 24th at 7:30 p.m. or the Donley County Court House on the 24th of February at 3 p.m. Mr. Breedlove, County Agent with the assistance of the County Committee, County Office Manager, and a few clerks will conduct these meetings. We are not concerned with which choice you make, but that you understand the plans before you make a choice. To help clarify some points of the two plans, please attend one of these meetings.

Mr. and Mrs. Lloyd Hefner and Holly of Amarillo visited Sunday in the home of Mr. and Mrs. A. O. Hefner.

The first place Clarendon Junior College Bulldogs will be shooting for their first undisputed conference championship in history here tonight with second place Frank Phillips College of Borger furnishing the opposition. Game will get underway at 8:00 o'clock.

The Bulldogs have swept through nine conference games without defeat, including a 73 to 57 decision over the Frank Phillips team in Borger recently. The Frank Phillips team, with a 6-3 conference record, still has a chance to tie the Bulldogs for the championship. This could happen if the Bulldogs lose their three remaining games and the Plainsmen win their three remaining games. Any combination of a Bulldog win or a Frank Phillips defeat would give Clarendon its first conference title. The Bulldogs and Frank Phillips tied for the crown two years ago.

The game tonight will feature a devastating offense against a tight defense. Frank Phillips is averaging 84.2 points per game in conference play and Clarendon's opponents are averaging 50.5 points per game. The Plainsmen feature the run-and-shoot type of game while the Bulldogs concentrate on controlling the ball.

Although the Bulldogs will be trying for an undisputed championship, they have already cinched a berth in the State Junior College Tournament which will be held at Corsicana this year. The first two teams in each of the four zones go to the state meet. If Clarendon can win one more game, they will be in first place, but the race for second place could get complicated. Four teams, Frank Phillips, Amarillo, Howard County and Odessa are all still in the running for second place, although Frank Phillips, definitely has the inside track since they have lost only three games while the other teams have all lost four. If Clarendon should beat Frank Phillips tonight, it would throw the conference in a four-way tie for second place.

Coach Travis has indicated that he will go along with his usual starters of sophomores Loyd Stephens, Bub Eldridge, Benny Lesley and Jack Buttram with freshman Alva Carter. Freshman Felix Johnson may start in place of Lesley.

Following tonight's game, the Bulldogs will travel to Big Spring Saturday night to meet the Howard County Jayhawks.

## Temperature Drops 56 Degrees

It was a short summer for the middle of February. Temperatures soared over the weekend and reached a high of 82 degrees Monday. The mercury climbed to a high of 81 degrees Tuesday but a northeast wind Tuesday night did away with the warm weather in a quick manner as the low Tuesday night was a chilly 25 degrees. This was a net drop of 56 degrees in just a few hours. Warmer weather is expected again by Friday.

## P-TA TO SPONSOR SCIENCE FAIR

The P-TA is sponsoring the Science Fair again this year which will include exhibits from the first through the eighth grade. The fair will be held in the Jr. High gym on March 6th. Johnny Leathers who is in charge of the fair, reports that the Donley County State Bank will furnish first place trophies and the P-TA will furnish second and third place ribbons.

Students in the first thru eighth grades are working on their exhibits at present and prospects for a bigger and better fair than last year is anticipated at this time.

## TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

### HAWAIIAN STATEHOOD

Last week the Interior Committee approved a bill granting statehood to Hawaii. The vote was 25 to 4. I was one of the four. My opposition to statehood for Alaska and Hawaii has been known for a long time. Many attempts have been made to associate opposition to statehood for Hawaii with racial prejudice or some other type of emotional basis. This, of course, is not true. The opposition to both Alaska and Hawaii was based upon two primary reasons: (1) non-contiguity to the continental United States; and (2) economic factors. Both of these will be thoroughly discussed in Floor debate. They are too extensive to attempt proper discussion in a short newsletter.

One of the major reasons used by the proponents of statehood was the argument that Hawaii had been promised statehood when it joined up with the United States. This creates a rather odd situation which will be difficult for the people of Hawaii to reconcile. If such a promise was ever made, it would have been a promise to all of the territory of the Hawaiian Islands at the time it became associated with this country. However, the bill granting statehood to Hawaii does not include all of the Territory of Hawaii. It includes only the eight major islands. The smaller islands, which certainly would have been included in the promise of statehood, have been cast adrift insofar as statehood status is concerned. They will remain in the same territorial status that they have always occupied. It has also been argued that until statehood status is granted to Hawaii, the people of those is-

lands will be second-class citizens. Yet, these same people are willing to cut off several of the islands in the original Hawaiian archipelago and simply disregard them either as to the promise of statehood or as to the question of second-class citizenship. The truth is that this type of reasoning just does not make sense. The facts of the matter are that these islands are not included by the proponents of statehood because it is not economically feasible to include them, which is, of course, one of the reasons why statehood should not be granted to Hawaii.

### THE VETERANS HOUSING BILL

A great hue and cry arose in Washington last week, both at the White House and in the Halls of Congress. The President argued that the Congress was trying to unbalance his budget by the passage of the veterans housing bill. The President's stalwarts on Capitol Hill argued long and loud that the passage of this bill would upset the budget that has been so carefully balanced by the President. The bill to which they were referring was a bill providing for breaking the log jam in veterans housing starts.

The bill actually consisted of two parts. One part provided for increasing the interest rate from 4 1/2 per cent to 5 1/4 per cent. The other portion of the bill provided for the use of \$300 million to be used by the Veterans Administration for the purpose of making

direct loans to those veterans living in areas outside of the metropolitan areas who were unable to obtain home financing from private enterprise banking and lending institutions. The bill did not provide for loose spending, as would be indicated by some of the stories that went out. The fact is that the White House was strongly in support of increasing the interest rate from 4 1/2 per cent to 5 1/4 per cent, yet was opposed to that portion of the Veterans Housing Bill making it possible for veterans in the smaller town or cities to be able to get loans to build homes. The direct loan money is available only if the veteran in the smaller town or city cannot get home financing from private institutions.

Naturally, the large lending institutions are for the increased interest rate, and also like to have their outstanding loans as close to home as possible. This means that it is very difficult for veterans living in the lesser populated areas of our country to be able to build homes under the veterans program. This is the thing we are trying to correct. We hope that the private lending institutions will meet the needs of the veterans.

There was much opposition to the increase in the interest rate, but everyone realized that unless the interest rate was permitted, the private lending institutions simply would not loan money to the veterans to build homes, either in the metropolitan areas

or in the lesser populated areas.

### CIVIL RIGHTS

The President delivered to the Congress a message concerning his feelings about civil rights. It was a seven-point program in which the President, with all due respect, undoubtedly permitted some of his advisors to lead him into advocating several measures that would further centralize the government, place in the hands of executive powers that are now supposed to be exercised by our judicial branch of the government, and set up a new commission. The President would also extend the life of the Civil Rights Commission, give financial and technical aid to State and local agencies in carrying out desegregation decisions, and provide for children of armed forces personnel to be educated when schools have been closed because of desegregation troubles.

This message was in keeping with what the Congress expected the President to recommend.

### VISITORS

We appreciated seeing several people from the Panhandle in the office last week. They included Howard Saunders, Frank Storm, Mark Miles, Mr. and Mrs. Cecil Blakley, and Mayor John Armstrong—all from Amarillo; Mrs. Dyalhia Benson, Managing Di-

rector of the Hereford Federal Credit Union; and Rev. Woodrow Adcock, Pastor of the First Methodist Church at Pampa.

### GABIE BETTS BURTON LIBRARY NOTES

By May L. Prewitt

The Cattleman's Bookshelf for the month lists "Light & Hitch" and "Dakota Cowboy"—the first by Laura V. Manner and the other by Blasingame. We possess both of these.

The Amarillo News had a brief article from Tallahassee, Florida state librarian who classified "The Rover Boys," "Bobbsey Twins," "Tom Swift Series," "Tarzan Stories," "Uncle Wiggly," and "Wizard of Oz" all to the "Literary Dog House" or shoved aside as poorly written, untrue to life and foolishly sentimental.

Children do not read "The Land Mark Books" as suggested for them. I always display them and make suggestions, but results are disappointing. Personally I've always appreciated factual stories, and never enjoyed fairy stories

and unreasonable books.

The February issue 1259 of American Heritage is ready for issuing. The articles are all excellent, but I especially enjoyed "Our Greatest Presidents" by Clinton Rossiter. There is a beautiful drawing (small) by J. A. Arthur of Washington welcoming Lincoln into Heaven with a hero's crown of laurel. Their prayers and contemplation before every move and action was almost beyond human endurance. It is inspiring to read and know such bravery existed. These American Heritage volumes are elegant and informative, and given for Mr. Frank Phelan, Sr's memorial shelf by his sister at Bonham, Texas.

Harpers has an article by Mrs. Eleanor Roosevelt in the January 1959 issue. It is "Where I Get My Energy." She surely possesses a vast amount of energy.

After writing the first of these notes I read Life Magazine and the Florida State librarian's article in regard to books for than the one in the Amarillo children banned was more lengthy Daily News. It included the "Hardy Boys." However several of our most successful citizens came to the defense of those criticized for they have enjoyed reading them as the children of today do. This is partly due to

the programs on TV and picture shows. Our children today are not easily influenced as they do mostly as they desire. We have numerous copies of well written books on our shelves—popular fiction for adults is not above re-proof—the modern best sellers are "rough."

We are enrolling quite a few new reader members and most of them are prompt with book return and the fines are small. I have to personally pay for books not returned and only two have failed me so far this year, but one was or is a \$5.00 book. We have no reserve fund, so it pays to investigate these member's records.

A scientific apparatus maker has developed a "hardness testing" device which can check the durability of 1,000 pieces an hour.

# PLOWIN' Out the CORNERS

By Uncle Zeb

So many have commented on the events of our trip to the Rio Grande Valley and all points in that direction that we hate to end it. But we must finally do so. So many facts stand out in our mind as a result of this jaunt that we seem to never get to the end. One thing for sure Texas is a whopper of a hunk of ground.

We drove some 2,000 miles mostly down and back up the long center part of the state. We were never in deep East Texas or the west West Texas; not quite over to Lubbock or San Angelo. On top of all these miles we never did get a chance to visit any of the brother-in-laws. We mention this because so many have asked about them. Next time we will include them special. We haven't forgotten them. It would take another 2,000 miles to go and see them all at one time and besides that they have all sort of let me down anyway. Take the case of my bean brother-in-law. The last time we visited him out in Albuquerque, New Mexico he not only had quit

growing pintos but didn't even have any store bought ones to feed us. Then, take my in-law who is minus his appendix. When, we used to visit him after the operation he would stuff us good with steaks and what have you. Now he is overweight and sort of on a diet and we read some of the damages. He lives on the east side of Panhandle. Then, way down in deep East Texas lives my new car brother-in-law. Now, his car is over two years old. So, we may have to change their names. We did spend one night in Glen Rose, Texas with our youngest uncle. They went all out to make up for the brother-in-laws, and besides their local paper is

using this column so we are afraid to talk about them. As we came back through Austin we took a short look at politics and felt inclined to dive off neck deep into it. But we will save this for another time. One of our good friends told us that if the folks back home knew all about the rotten politics and back room lobbying that goes on there would be in favor of a lynching. We are going back sometime and see what he was talking about. We could not wind up our trip without some comment on many of our beautiful Texas highways. We think our Highway Department is due a lot of compliments. Many of the new 4 lane divided roads with local roads running alongside are a beautiful work in engineering to say nothing of their ease of travel. Take the case of Interstate 35 which comes on up from Georgetown and reaches out for Belton, Waco, and points north. One will gasp in amazement as you just look over strides in engineering that have been made in this road. Local folks say this was a regular death trap. Then, our roadside parks are the best of any state we have ever visited. Anyway, congratulations in a big way to our State Highway Department in all of its programs. One of the most joyous experiences of our trip was something we could have done at home, but just never had gotten around to it. Anyhow, our daughter-in-law loaned us a copy of Dale Evans book My Spiritual Diary. We read it as our daily devotional period on the trip. If you have not as yet read this wonderful book for the sake of your own spiritual growth don't put it off any longer. Dale will put into words things you have felt in your own heart so many times. Thanks to Dale, and to our sweet girl for helping us to enjoy this rich blessing. . . . Another thing that has happened because of our trip is that our mail has piled up. We have several good things sent in by our wonderful readers that we need to use. Like for instance the following poem sent to us by Mrs. Ed Stavenhagen of Am-arillo.

**TAKE TIME**  
Take time to laugh, it is the music of the soul.  
Take time to think, it is the source of power.  
Take time to play, it is the source of perpetual youth.  
Take time to read, it is the fountain of wisdom.  
Take time to pray, it is the greatest power on earth.  
Take time to love and be loved, it is a God given privilege.  
Take time to be friendly, it is the road to happiness.  
Take time to give, life is too short to be selfish.  
Take time to work, it is the price of success.

## Will Writes From Austin

### 400 New Laws Introduced

Over 400 bills providing for new or changed laws for Texas have already been introduced in the House of Representatives. This means that these are already approximately 2,000 pages of proposed statutes which we as members must try to read in order to keep abreast of the legislative matters. And probably there will be at least another 400 bills introduced before the session is over. This doesn't even count the Senate bills which have been introduced.

### Legislature Is Time Consuming

Thus, when you read in the newspapers that we were only in session for an hour one day, remember that this is only the open session. Many lawmakers spend 4 to 6 hours a day studying and reading these bills; another 2 to 4 hours a day studying and reading these bills; another 2 to 4 hours in the Committee hearings, and perhaps 2 hours per day

We do not know who wrote the above but we are glad that he or she did Take Time to do so and that our friend took time to send it to us.

Several have written in to comment on the so called Good Ole' Days and the thing most folks seem to ingo for was the fact that we did take time to visit and help each other. As to our living condition, our modern day conveniences most of our readers seemed to like the good old now-a-days pretty good. So, maybe we just need to find a happy medium and just slow down a bit. Just Take A Yittle More time to be a neighbor. To visit the sick and a hundred other things we have been putting off for so long. Let's all try real hard.

## CATTLE FEEDERS WILL SELL BIG SUPPLY IN FIRST QUARTER

Market observers at Fort Worth last week agreed that only wellspaced marketings of fed steers and yearlings could avert a price break in the January-February-March quarter of this year. This theory was based on an analysis of the report just out from the Crop Reporting Board of USDA.

The market men believe a serious price impairment can be averted by selling more cattle on Tuesday and Wednesday and avoiding big runs on Monday.

The USDA report estimated that there were 11 per cent more fat cattle on feed January 1 than a year earlier. Marketing intentions show 13 per cent more fat cattle will be sold in the first quarter of the year, than a year ago.

answering correspondence, etc.

### Many 10-Hour Days

Many times I have spent 10 full hours per day inside the Capitol building, and this is not an uncommon experience with other members also.

### Texas Government Big!

Texas government (like our size) is big, and it takes many, many man-hours to keep it running. So if I am a little slow in answering your letter, or perhaps have to say that I have not read the particular bill to which you refer, I will do my best, but realize the big job which we as lawmakers face during the session. Back to my reading!

WILL EHRLE,  
State Representative,  
District 88.

**JOE GOLDSTON**  
Optometrist

Feeders said they would sell 45 per cent of the cattle on feed now in the first three months of 1959. This means 15 per cent in January, 16 per cent in February and 14 per cent in March, according to announced intentions.

Selling livestock around mid-week will cushion the impact of this heavy supply on any one day, and in the past has proven a procedure which permits the trade to absorb heavy numbers without disturbance of prices.

Packers explain this by saying they do not have to carry live cattle for long periods, when the runs are better spaced. They save feed bills and save on shrinkage of the cattle. For this reason they are favorable to spreading supplies over three days instead of one day.

They point out also that the spreading of the supply makes their labor costs smaller by avoiding overtime in all departments.

## Starter Solutions Better Vegetable Yields

College Station — Use of starter solutions to stimulate freshly transplanted vegetables in cold soil is perhaps one of the cheapest and easiest methods of obtaining an extra 20 to 30 per cent increase in vegetable yields.

Starter solutions provide readily available nutrients to transplants in the root zone. Benefits from use of such a solution may be expected from field-transplanting crops such as sweet potatoes, peppers, tomatoes, cabbage and others. Some of the benefits derived are earlier maturity, higher quality and greater yields.

### FOOD SHORTAGE COULD BECOME SERIOUS THREAT

One of the most prominent members of the House of Representatives, who has also been a farmer most of his long life, expresses the fear that the country may run short of food in the next decade or so. He bases this on the heavy exodus of people from the farms to the cities. And this has taken place at a time when the population as a whole has been soaring.

If the grim prospect the congressman envisions is to be avoided, it will be necessary in the future to get maximum production from every acre of farm land—and, equally important, to conserve its productive capabilities from coming generations.

Happily, the farmer has available the tools and the knowledge to make this possible. The farm equipment manufacturers are producing better, more efficient and more economical machines than ever before. New fertilizers and pesticides are performing miracles. And advanced conservation practices—accomplished with mechanized equipment—protect the precious soil from such ancient enemies as wind and water, even as they produced increased income for the farmer.

We have long been plagued with heavy over-production of certain farm crops and this, no doubt, has led many people to think that super-abundance of foods is something to be taken for granted. But it isn't. In a comparatively brief span of years we could have serious shortages instead. The agricultural revolution must keep right on moving ahead.

shopped in Pampa Saturday.

## 1926 BOOK CLUB

The 1926 Book Club met Tuesday afternoon February 17, at Patching Club House with the president, Mrs. John Gillham, presiding. After the reading of Club Collect and the minutes, Mrs. Gillham read an article on Safety urging club women to help promote the Driver Education program in Texas. The treasurer's report was given and members voted to make a donation to the Nurse's Scholarship Fund, a Federated Club Project. Plans were discussed for the husbands' party to be March 3 at 7 p.m. at the Club House.

Hostesses for the afternoon were Mrs. Homer Bones and Mrs. E. S. Ballew. They served sandwiches and jello salad with tea. Following the social hour, Mrs. Frank White, Jr., gave a splendid review of the life of "John Philip Sousa" written by Ann M. Lingg. This book was published in 1954 on the 100th anniversary of his birthday. This review was a story of Sousa's life, his compositions, circumstances contributing to his compositions, his tours across this country and abroad, and his famous trip around the world.

Attending were three guests: R. S. Brumley of Miller, Mo., Frank Phelan, Sr., and Donald Ballew; also members: Mesdames C. E. Bairfield, E. S. Ballew, Homer Bones, J. R. Brandon, L. N. Cox, J. R. ## GAMMA KAPPA MEETS IN MEMPHIS

The Gamma Kappa Chapter of Delta Kappa Gamma Society for Women Teachers met in the Travis School Cafeteria, Memphis, Texas, February 14th at 12:00 noon for a luncheon.

The Valentine motif was carried out in table decorations. A large bowl of long-stemmed, red roses centered the head table; vases containing a single rose were scattered along the two side tables; lacy valentines, and napkins decorated with red hearts completed the decor. A delicious chicken menu was served by the Memphis members.

Mrs. Brunette Morris gave the invocation. After the luncheon a short business meeting was conducted by the president, Mrs. Velma Weaver, followed by the singing of songs and a program.

Miss Zady Walker cleverly gave the story of Scholarships. A large red heart signified Texas and smaller lace-edged hearts, representing the many types of scholarships were pinned on the large heart as Miss Walker gave the story of each. "The Professional Q's" were discussed by Lucile Naylor and Miss Mary Foreman.

Mrs. Naylor mentioned several factors that are essential to a well-minded personality such as first impressions, good grooming, good manners, tact, a happy attitude, interest and enthusiasm. Miss Foreman concluded the program with the cultural aspects of the teaching profession. She gave each member a self-check test so that they might see how well they were or how well they were keeping up with current affairs and persons.

The white elephant sale netted \$27 which will be donated to the Scholarship Fund. Members from Wellington, Childress, Turkey and Clarendon attended the luncheon.

Mesdames Velma Weaver, Claudine Todd, Hazel Brandon, Lucile Naylor and Misses Gladys Burnham, Edgar Mae Mongole and Ruth Richerson were the Clarendon members present.

**LELIA LAKE F.H.A. NEWS**

The Lelia Lake F.H.A. Chapter was sorry to say good-bye to one of their members. She was Nora Cockerham who came to us from Fort Worth during the summer of 1958. She has recently moved back to Fort Worth.

The F.H.A. met February 17 for a business meeting. They elected two members from each homemaking class to attend the Area F.H.A. meeting to be held in Amarillo March 7. Only 50 per cent of all F.H.A. memberships are allowed to attend. The reason they have for this new amount for attendance is the ever increasing amount of girls attending each year. They are unable to find seating space for all the F.H.A. groups in one building. The president, Carolyn Castner, and six members, Judy Castner, Clea Johnston, Jo Dishman, Lena Ivey, Sue Douglas, and Jean Fox were elected to represent our chapter.

**TO CELEBRATE GOLDEN WEDDING ANNIVERSARY**

Mr. and Mrs. A. O. Hefner will celebrate their fiftieth wedding anniversary with an open house at their home here in Clarendon, Sunday afternoon, February 22. Receiving hours will be from 2 p.m. to 5 p.m. Friends and neighbors are extended a cordial invitation to call at this time and visit with the Hefners and their family. All of their children and other relatives are expected to be here to help make the occasion a happy and memorable one.

**MR. AND MRS. A. D. HEAD OBSERVE ANNIVERSARY**

Mr. and Mrs. E. D. Head celebrated their 50th wedding anniversary February 8th with a luncheon at their home here. Four of their 12 children were present to help them enjoy the occasion. Mr. and Mrs. Head were united in marriage February 7, 1909 at Trenton, Texas. Mr. Head came to Texas from Tennessee in 1907 and Mrs. Head came to Texas in 1903 from Georgia. They moved to Donley County six years ago from Anna, Texas.

Those present for this happy occasion were Mr. and Mrs. Acie Putman and family, Mr. and Mrs. Bobby Head and daughter, all of Panhandle, Mr. and Mrs. Bob Moss and sons of Borger, Mr. and Mrs. Jim Barnett and sons of Lelia Lake.

Friends from out of town attending were Mr. and Mrs. Doc Ford, Mary Ella Haden of Panhandle, Mr. and Mrs. Adell Byron Parks and children of Lelia Lake.

**CARDS OF THANKS**

I would like to take this means of expressing my thanks for the many kindnesses shown me while I was a patient in the hospital. Your thoughtfulness was deeply appreciated.

Cordia Thompson

We are sincerely grateful to our many friends and neighbors for their many kind words of sympathy, beautiful flowers and cards which helped to lighten our sorrow in the loss of our dear one. May God bless each of you is our prayer.

Billie Wolford, Mr. and Mrs. B. F. Wolford and Lota, Mr. and Mrs. Monte Ray Wolford and sons, Mrs. A. L. Cobb and family.

Again I am thanking all the people of Clarendon for all the get well cards, flowers and many good deeds of kindness I received while in the hospital. I also want to thank Dr. Smith, Dr. Broome and all the good nurses for the care they gave me. Thanks a million for these and all other tokens of friendship has really been appreciated.

Mrs. Bob Baird

**LELIA LAKE SCHOOL NEWS**

The big news lately has been the high school lockers. Thanks go to the P-TA for its help on this project.

Date for the Junior-Senior Banquet has been set for Friday evening, April 17.

Literary meet for this district will be at Claude March 21. Other parts of the spring activities will be scattered over the district. Materials were distributed on Monday for the literary events.

The Fat Stock Show at San Antonio last week drew Mr. Frank Claborn, vocational agriculture teacher, and two boys, Bobby Reed and Buster Shields.

Now listen to this: To aid the juniors in raising money for the banquet, a basketball game has been scheduled for the Lelia Lake gym the evening of Friday, February 27. It will match the regular high school girls in usual gear with the men of the school and community, the latter to wear feminine garments and to pay girls' rules. It promises to be a howler, so put it on your calendar.

**More Indian Depradations**

After our paper was made up we received a letter from reliable gentlemen of Burnet County, saying that on the 7th inst., a party of Indians came down upon the San Fernando, and killed six horses and drove off a large number. The depradation occurred only two miles South of the county seat of Llano, and 25 miles West of Burnet County House. Thomas Right was the principal sufferer, having lost among other, three blooded colts, worth \$900.

Our correspondent indulges in some severe strictures upon the Governor, says he speaks the common sentiment when he complains of his inefficiency. Well, somebody has to be cursed, and as the Governor is nearer than the President, we suppose he must take his share of cursing. Certainly the frontiersmen have suffered enough to be justified in cursing generally.

**FISHERMEN ASKED TO AID SURVEY WORK ON CRAPPIE**

Austin — Aquatic biologists are asking fishermen at Lake Whitney to aid in a study of the lake's crappie, according to the assistant director of inland fisheries of the Game and Fish Commission. The study is an effort to improve crappie fishing during the summer months.

Success of the study depends upon fishermen cooperating with the Commission in sending in tags with time, date, and place of catch, the assistant director stressed. He reminds fishermen that it is not against the law to take a tagged fish.

To date, 1,123 crappie have been tagged at Lake Whitney, but only 39 tags have been returned, 34 of these being in 1957. This represents a 3.96 per cent recapture of fish taken both by sportsmen and by traps set up in the lake.

The purpose of the tagging study is to trace the movement of crappie in the lake at all times, the assistant director said. Information concerning fishermen's catches and data on the tags will indicate these movements during the period of releases and recapture.

Posters will be displayed around Lake Whitney with instructions for fishermen who catch tagged crappie. Persons

the Game and Fish Commission is using in the study. The traps are plainly marked as being property of the Commission. So far, the average period crappie have been free after tagging is 20 days, the assistant director said.

**SEASONS END, BUT WILDLIFE FACES TROUBLE**

Austin — It's completely over. The 1958-59 hunting season except for rabbits and squirrels in some counties, ended with the close of the quail season January 16. Duck and goose season ended January 14.

It was the heaviest season since controlled hunting, according to the Director of Law Enforcement of the Game and Fish Commission.

"More people killed more quail and deer than in years," the Director said. "Despite this heavy kill, our wardens also report an abundance of game still in the field. Our concern now is for the carry-over. Rats are responsible in many areas for a tremendously heavy loss of quail. In some areas they have destroyed the food and the quail are literally starving to death."

A heavy freeze or prolonged bad weather might also be damaging to the deer population, where there is a surplus, or where the fed crop is insufficient, the Director warned.

He also reminded hunters that wardens still will be busy in the field and that arrests will be made for out-of-season hunting.

There are 600,000 people working today in the more than 14,000 U. S. banks. This is 300,000 more than in 1940—an increase of 100 per cent during the last ten years.

**THE CARE AND FEEDING OF THE FAMILY CAR**

Care and feeding of the family car—these terms are synonymous. If you car is fed well it will remain in good shape. How well do you feed your car?

According to John Puth of the Puroatorf Automotive Research Bureau there are five regular feedings necessary to keep your automobile in top flight running condition.

It must be fed clean oil, or as close to the 1,000 mile mark as possible. If the oil is allowed to get dirty it can cause a sluggish, poor performing engine and can also harm vital engine parts. You rear radiator must also be fed water. Keep a regular check on the water level, and of course, in the winter, an ample amount of anti-freeze should be added. Also the battery water must be kept up to the mark. Don't overlook feeding your battery and incidentally, try to keep the cables from corroding. A little vasoline will slow up corrosive action.

Mr. Puth also feels that it is of great importance to the performance and protection of your car to feed it a clean oil and air filter at the suggested mileage. Sluggish performance and the passage of harmful matter will result from an unclean filter. And of course, don't forget to keep your gas tank full. It will help prevent damage to the tank from condensation, especially during

the winter months.  
**HANDLE TIRES WITH CARE**  
Tire pressure can vary with changes in temperature. It is wise, therefore, to check your tires when there is a sudden drop or increase in temperature.

According to John C. Dods, Jr., of the Puroatorf Automotive Research Bureau, it is best to check tire pressure while tires are cold, before a short trip. This is the way they will remain during your driving. The air in a cold tire is contracted but if it is used for a long period it heats up and the pressure increases. If the tires is checked while warm, it will be underinflated when cold.

Mr. Dods said that underinflated tires will not cause any real damage to the rubber. The only danger of overinflation is the threat of a sidewall breaking when something hits it.

When you are going on a long trip, it is better to check tires after they are warm. Many drivers neglect their tires feeling that lack of pressure will not cause excessive wear. If you follow the rules suggested by Mr. Dods it will help you prolong your tire life.

The trouble with a chronic borrower is that he always keeps everything but his word.

Highway accidents will diminish when brainpower matches horsepower.

**STATE CAPITAL**  
**Highlights**  
**AND Sidelights**  
*by Vern Sanford*  
 TEXAS PRESS ASSOCIATION

Austin Texas — The season of the "hard luck story" is in full swing.

Legislative committees having to do with taxing and spending are in almost constant sessions. On the one hand they hear from the state agencies that want more money—of their dire needs, of the gloomy future that awaits the state if their programs are under-financed.

Equally mournful are the stories of those who would be the night with Harold Lindley.

Ethel Reid of Goodnight spent Monday with Nova Barker.

Della Barker is spending this week with a sister-in-law, Betty Sanderson in Littlefield.

Mr. and Mrs. Sidney Harp and Scott of Amarillo spent the weekend with Mr. and Mrs. S. M. Harp.

Those to visit Mrs. Robert Davis Sunday were Mr. and Mrs. Rogers and son of Amarillo, Mr. and Mrs. Clyde Davis and family and Mary Neal.

Mr. and Mrs. C. L. Mixon spent Sunday night and Monday with Mr. and Mrs. F. T. Garrett at Twitty.

targets of new taxes. It would be like putting up a "Keep Out of Texas" sign for new businesses and accompanying prosperity, say many business and civic leaders of the sharp new tax bites. Texas communities trying to build up their areas by bringing in money-making enterprises would have the rug pulled out from under them, say the tax critics.

In this arena of clashing viewpoints, the legislators must serve as both judge and jury. Few lawmakers expect to collect any nosegays for their efforts—no matter how sincere or well-considered. Some expect they may have to displace both groups—by cutting spending requests and raising taxes—all in one woeful session.

**BANE TO BUSINESS** — As expected, businesses, large and small, take a dim view of Gov. Price Daniel's proposal to increase corporation franchise taxes.

Industry spokesmen told of probable increases of from 50 to 250 per cent in the amount they would have to pay. They complained, too, that they'd have to

pay a tax whether they were making money or not, since the tax would be on capital, rather than income.

Rep. J. E. Winfree of Houston, sponsor of the bill, told the business representatives, in effect, "It's this or something else." **UT PLEADS CASE** — University of Texas "will sink back into mediocrity," declared exes and officials, unless the school gets a better appropriation deal than that proposed by the Legislative Budget Board.

University officials asked for a two-year appropriation of about \$34,006,067. Budget Board recommended \$27,920,624.

Dr. Logan Wilson told the House Appropriations Committee that people seemed willing to pay broad-based taxes for highways. Why not for higher education?

Herman Jones, Austin attorney and spokesman for alumni, emphasized the importance of improved education to this country's position in international affairs. "I don't want to put in the history books that this generation kept the budget low and let the nation die," Jones said.

UT officials also said they would be opposed to establishing a third medical branch—at San Antonio, Austin or elsewhere—until they have gotten enough money to make "first class" the existing Dallas and Galveston branches.

**PRISON PROBLEMS** — Even more impassioned are the pleas of those concerned with appropriations for the Department of Corrections.

Texas Prison System is operating at about half the national average cost per inmate, says

Supt. O. B. Ellis. For some years Board members have been warning of dangerously overcrowded conditions, and the need for more buildings.

A slash in funds and personnel, as proposed by the Legislative Budget Board, would bring sheer ruin to the bulging prisons, in Ellis' view.

Prison System has an even more immediate pinch in that it hasn't money to finish out this fiscal year. It had a crop failure last year, when floods wiped out cotton on the prison farms.

Since the Prison System is heavily dependent on its own production, it, like any hard-hit farmer, needs some "cash money"—about \$500,000—to tide it over for this year.

**SOMETHING'S GOT TO GO** — We can't continue our present service and take a budget cut too, Texas A&M Extension Service officials told legislators.

Budget Board recommended a slightly lower Extension Service appropriation for 1960 than it had for 1959. Service had asked for sizeable increase to help offset extensive loss of county agents to better-salaried jobs in industry.

Spokesmen for the Farm Bureau and numerous other rural groups appeared before the House Appropriations Committee to plead the importance of Extension Service work.

**DEADLINE EXTENDED** — Senate General Investigating Committee, a creation of the last session, has until March 2 to complete its voluminous report.

After nearly 20 months of activity, the Committee had had 27 hearings, piled up 7,500 pages of testimony. All hearings were public, and some brought unsettling repercussions in the fields of insurance regulation and tax collecting.

Sen. Charles Herring of Austin, chairman, is recommending such work be continued by a Joint House-Senate Committee. There must be some sort of "watch dog," Herring believes, for the state's billion-dollar-a-year business.

**SLOW DOWN!**—Chronic speeders would soon find themselves getting around on shoe leather under a strict new measure proposed by Rep. Ben Lewis of Dallas.

**ABOUT YOUR HEALTH**  
Texas State Dept. of Health  
Henry A. Holle, M. D., Com.

You bought your family many more—and vastly more important—gifts this Christmas than those you wrapped in bright paper and ribbon.

You doled out hard-earned tax dollars to buy the gift of good health. Let's see precisely what you got for your money.

Your gift budget this year included more than \$10 million to buy and equip 29 medical care facilities, such as hospitals and diagnostic centers, in areas without them. Your shopping counselor was the Division of Hospital Services at the Texas State Department of Health.

You paid \$13 million to build 13 new sewage treatment plants to give your family the gift of clean, uncontaminated streams. Helping you make the right choice was the Department's Division of Water Pollution Control.

You bought seven Texas cities—all of them under 25,000 population—gifts of comprehensive city plans. By following the

Under the bill, the first speeding conviction would bring a 30-day license suspension; the second, a 60-day suspension; the third, six months; and all thereafter, one year. A record of each conviction would be carried on the driver's license.

Speeding, Lewis points out, is regarded as a leading cause of accidents.

**ANTI - HAIR - SPLITTING** — "Harmless errors" would no longer be grounds for reversal of a criminal court conviction under a measure being sponsored by Rep. Tom James of Dallas.

Only "substantive errors" would require the throwing out of a trial court decision.

There has been some criticism in recent years of Court of Criminal Appeals decisions which nullified convictions because of such things as misspellings and typographical errors. James' bill was recommended by the Texas Law Enforcement Commission.

plans, cities can grow and expand in a healthy, orderly manner without danger of slum formation.

The bill came to \$230,000. The State Health Department helped you shop for just the right plan for each city.

It cost you \$242,000 to buy a half-million children the gift of protection from polio this Christmas. If your own children, or you yourself, were among them you can consider yourself fortunate. Many disdained the gift, and now Christmas holds no meaning for them.

You bought almost \$15,000 worth of relief for many youngsters who would otherwise have to suffer the pangs of toothache. Your gift cancellor in this case was the Division of Dental Health which paid the bills in connection with 15 dental clinics operating over the State.

You and your neighbors gave the gift of hope to 15,000 actual or suspected victims of cancer and heart diseases. It cost you \$120,000 to support 20 different cancer and heart clinics in which despair and anxiety were eased or erased.

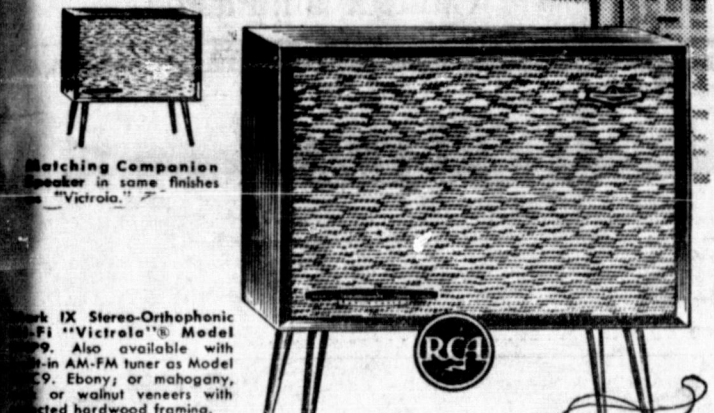

Your desire to give your family the gift of good health also took a negative turn. Health department inspectors hired by you condemned almost 700,000 pounds of food and drugs as being unfit for human use.

You spent 8.5 million this year to see that health services got right down to the community level where your family could get to them. The money paid for equipment and supplies and for salaries of physicians and nurses and sanitarians.

Back in 1900, a New York bank had an "eye-for-the-ladies." It provided a special row of teller's windows as well as desks and telephones for their conveniences. Today, many banks court the fair-sex with thoughtful touches—like upholstered chairs, colorful murals, flower boxes, piped-in music and soft lights.

Banks are among the oldest institutions in this country. Many have passed the century mark; some are more than 150 years old; and more than 3,000 are over 50 years of age.

### The Roar of the Lions THE LIONS DEN

By the Liontamer

An excellent attendance was recorded at the regular Tuesday Lion's Club noonday luncheon. Enthusiasm was running high, due to the forward look to the impending basketball conflict between the Lion's Club and the world travelling, Hazel Walker girls professionals. That is, with everyone except Rev. Berkley SoRelle, who had attended workouts on Monday night. His condition was not known at the Club meeting due to his absence, from unknown complications or causes. We hope he is back on the court for workouts tomorrow, Friday night. It would be disastrous to lose him this near game time. However, the thought of a possible loss of

a valued member of the team should be a challenge and an inspiration for more of the talented members of the Club to show up Friday night for practice, as well as to be doing road work every day from now until March 10, the date of the big game.

The Club hosted five guests which were accompanied by members of the Club and included two fine young men, Band Draper and Dwayne Dallas, both of whom are new residents of Clarendon and top men in the Soil Conservation Service offices here. They attended as guests of Lion Cap Morris. Bob Blackburn, a Red Cross field representative attended as the guest of Lion J. B. Melton. LeRoy M. Johnston, a salesman attended as the guest of Lion Bill Todd, and T. W. McAnear, whose son Don appeared on the program as a winning representative of the Clarendon FFA, was guest of Lion J. G. McAnear.

The program which followed the luncheon was one of our best programs, being produced by Lion Gillman of the Clarendon FFA Chapter, and four of his more than 80 FFA members, reporting on their outstanding successes at the Fort Worth Exposition, and Lion Flip Breedy reporting the successes of the County 4-H Clubs entries at El Paso.

Since Clarendon is primarily an agrarian district, as well as Donley County, it was music to the ears of the members present to hear the reports of winnings and sales amounting to several thousand dollars and see the display of about 80 ribbons and banners won by the youth of the county.

The huge, the gigantic, the colossal conflict. The superb, the supreme in entertainment is scheduled for March 10. Don't be left with a "standing room only" choice of tickets. See a member of the Lion's Club and get a block of tickets.

### Law To Crack Down On Inspection Violators

The Motor Vehicle Inspection Service of the Texas Department of Public Safety issued a reminder today that registered motor vehicles in Texas must be inspected prior to April 15. This announcement by Captain Alan Johnson stated that only 19 per cent of the vehicles in Region 5 have been inspected. Region 5 consists of 60 West and North west counties.

"Many vehicles are operating on the highways with defective equipment, including a large number with only one headlamp," said Johnson. "These defects make a vehicle hazardous, in addition to being in violation of the law." He further pointed out that vehicles should be inspected early in an effort to avoid a last minute rush.

A check revealed that there are some 428,000 registered vehicles in this region. Following the April 15 deadline, Johnson advised that drivers will be subject to a fine of \$1.00 to \$200.00 if they operate a motor vehicle without a valid inspection sticker attached.

Captain Johnson also advised that all licensed trailers having a gross weight exceeding 4,000 pounds, are required by law to be inspected.

### BAGBY MOTEL RECEIVES SELECTION RECOGNITION

The Bagby Motel has received national recognition in the new (1959) edition of "Duncan Hines Lodging for a Night" just off the press.

It is the only motel in Clarendon included among 4,500 selected lodging establishments "Recommended by Duncan Hines" out of nearly 100,000 lodging places in North America.

Roy H. Park, Vice President, Duncan Hines Institute, Ithaca, N. Y., said, "We are happy to give deserving recognition to this establishment by including it in a selected group. This establishment is one of four out of 100, for our listings of selected lodging places represent only 4 per cent of the total in America." This marks the beginning of the third decade of publishing

"Lodging for a Night" (384 pages). The other new Duncan Hines book just out is "Adventure in Good Eating," (384 pages) which lists 3,500 of the best places to eat.

Mr. and Mrs. J. B. Hillman of Pampa visited Friday in the home of Mr. and Mrs. A. O. Hefner.

Mr. and Mrs. B. M. Wood and Mrs. Sligar of Pampa were visitors Sunday afternoon in the A. O. Hefner home.

### THE IMPORTANCE OF NEWSPAPERS

Last December a deliverers' strike forced New York City's newspapers to suspend publication. Nothing has done more to point up the importance of the press to the community.

New York did not grind to a halt. But almost everyone in the city was affected by the communications failure.

Thousands of non-strikers were thrown out of work. Some 10,000

of the city's 16,000 newsstands closed. The city government went into low gear because of the difficulty of getting information to the public. Even education was hit—as a majority of the students in the city's schools use newspapers in their curricula.

Businesses of many kinds—stores, amusement houses, automobile and real estate dealers and son on—slumped so badly that the city's Board of Trade said the strike produced "ir-

retrievable" damage. The importance of newspapers in the daily life of a community is rarely known or appreciated until suddenly they fail to publish."

Mr. and Mrs. Roy Sample and children, Airman and Mrs. Johnny Farris and son, and Don Ellis, all of Amarillo visited their grandmother, Mrs. W. C. Jones Sunday afternoon.

# Revival Meeting

## FIRST METHODIST CHURCH

SUNDAY, FEB. 22

MARCH 1, 1959

Time of Services Will Be:

Early Morning—7:15 o'clock

Evening—7:30 o'clock

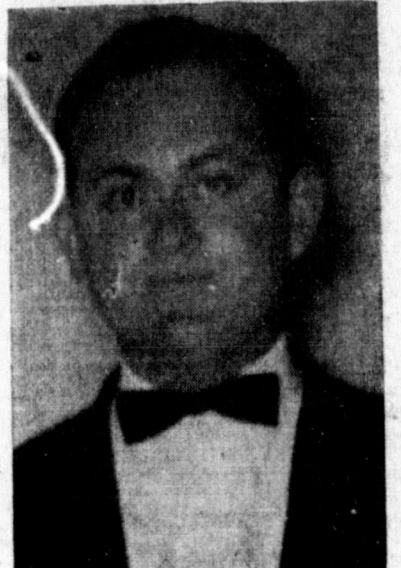

DR. MARSHALL RHEW

Evangelist

Dr. Rhow is the District Superintendent of the Stamford District and lives in Stamford, Texas. Immediately previous to his appointment as District Superintendent he was pastor of First Methodist Church of Vernon, Texas. He is a native of Dallas and received his education in that city. He is a graduate of S.M.U. and of Perkins School of Theology of S.M.U. He is a Christian minister with a very warm spirit and he is a very fine preacher. He has been engaged to help in revivals in Childress, Canyon and Clarendon this spring and the pastors of these churches are all former pastors of his district.

We extend a special invitation to every person in the community to attend this revival and we covet your prayers that God's will may be accomplished and that Souls may be born into His Kingdom.

REV. GENE MOORE

Music Director

Most of us in this community are acquainted with Gene. He helped in the Methodist Church and in the community before receiving an appointment in Dr. Rhow's district. He is now pastor of Faith Church in Hamlin, Texas and is doing a very fine job there. He has been engaged in 8 revivals this year, either leading the singing or doing the preaching. We are looking forward to working with him again in this revival.

C. M. Ryan, Pastor
