

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin — Whichever way the ball bounces, Texans can look forward to a hefty increase in state taxes for 1961.

House of Representatives passed a general appropriations bill calling for spending of \$332,000,000 from general revenue. Senators took a more economical approach, began their work with

a bill calling for \$30,000,000 less than the House measure.

Even so, the Senate proposal would put spending some \$21,000,000 above the present level and require an estimated \$117,000,000 in new tax money.

House bill includes longevity pay raises for long-time state employees and increases in welfare checks to the aged, blind and dependent, all added during floor debate. House also accepted committee recommendations for higher education, state hospitals

and special schools and the prison system.

**GASOLINE TAX VIEWED** — Gov. Price Daniel says he's ready to support a 1-cent hike in the state gasoline tax if it will be used to improve public schools, raise teacher salaries.

Neither the House nor Senate appropriations bill included public school teacher raises. Lawmakers seemed to think this, if it were to be done, should be handled in a separate bill.

Texas still would have a lower gasoline tax than other states, said Daniel, even after the 1-cent raise. He said he felt sure service station operators would "go along" with it if it were for the purpose of better schools.

Opponents say that, with practically everyone having to use a car these days, the gasoline levy is about as "general as a sales tax can get."

**HEALTH CHIEF RESIGNS** — Recent target of lawmakers is the State Health Department, where Commissioner Henry A. Holle stepped out of his \$16,000-a-year post under the glare of legislative disapproval.

Dr. Holle said he felt the department would be better off with another commissioner who could get more support in the way of legislative appropriations.

Meanwhile, both House and Senate launched inquiries into Health Department spending practices.

**FLEXIBLE RATING OFF**—State regulation of Texas auto insurance rates apparently will continue for at least another two years.

Senate Insurance Committee refused to approve a flexible rating plan, sent it to the sub-committee "graveyard."

Backers of the bill, mostly large out-of-state companies, claimed it would save Texas auto owners millions. Careful drivers would be rewarded with lower insurance, they said.

Opponents, including most Texas companies, fought the bill, said it would "take the lid off" rates. They said a merit rating plan, being considered by the State Board of Insurance, would take care of rewarding safe drivers.

over how to improve loan shark regulations brought on the first filibuster of the session.

Sen. Abraham Kazen of Laredo sponsored the House-passed measure which would, if approved by a vote of the people, amend the constitution. It would allow the Legislature to license lenders and set maximum interest rates. Present 10 per cent ceiling, widely ignored, would be abolished.

Sen. Frank Owen III of El Paso led a long-winded assault on the measure. He and other senators insisted such regulation should be limited to loans under \$500 to \$600.

Senate gave Kuzen's measure preliminary approval, despite all the opposition.

**PARTY IN-FIGHTING BEGINS** — Fifteen months ahead of convention time is not too soon for Texas Democrats to start haggling over who'll receive their presidential nominating votes.

U. S. Sen. Lyndon B. Johnson is the focal point of controversy. Recent developments:

Young Democrats of Texas, currently controlled by leftwingers, declared the senator should pay more attention to the party platform. J. Ed Connally, chairman of the state executive committee, quickly announced the Young Demos did not speak for the party. He called them "immature extremists."

Democrats of Texas, unofficial liberal organization, announced it would have a convention in Austin in May. DOT, also, has "fallen out" with Sen. Johnson.

In the Legislature, the House elections committee approved a bill that would allow Senator Johnson to run for president and re-election as senator in the same general election.

**INVESTMENT BOARD URGED** — A bill by Sen. Hubert Hudson of Brownsville would create a new board to handle investments of three large state trust funds.

Making up the nine-member board would be the governor, attorney general, comptroller, chairman of the two retirement systems, chairman of the State Board of Education and three bank presidents.

Investment in corporate stocks and bonds would be permitted by Hudson's measure. Altogether, the three funds total \$820,000,000.

**NO AGGIE WOMEN** — U. S. Supreme Court has upheld state court rulings that women are not entitled by law to enter Texas A&M College.

A&M officials were pleased, but Bryan-Brazos County citizens, for the most part, took a dim view of the enrollment restriction.

Their feelings were reflected in Bryan Sen. William T. Moore's prediction that "if the A&M Board continues its present policies, the time will come when A&M will have a classroom for each student enrolled there."

There is fear that when Arlington College, an A&M branch which admits women, advances to senior college status, it may eclipse the parent institution.

People don't get weak eyes from looking at the bright side of life.

**HIGH PROTEIN FOODS ON MARCH PLENTIFUL LIST**

Foods high in protein content dominate the USDA's March plentiful foods list for this area.

Eggs are the food to feature since supplies are expected to run two to four per cent larger than a year ago.

Trkeys, broilers and fryers, pork and California canned sardines make p the plentiful meats.

Vegetables in good supply include cabbage, potatoes, celery and canned peas.

Dairy products, peanuts and peanut products, walnuts, honey and apples complete USDA's March plentiful list.

Southwest food distribution division of the Agricultural Marketing Service checks supplies nationally and locally to determine the monthly plentiful foods list. Only foods in heavier supply than average make the list.

## Why Gamble?

Yes, why gamble . . . when there's no chance of winning? That's the kind of gambling you're involved in when you drive your car beyond the recommended period without having the oil changed.

Although you may use the very best motor oil, such as Phillips 66 Trop-Artic\*, there comes a time when the accumulation of impurities in the oil reduces its efficiency.

That's why lubrication experts say: the best motor protection is to use the best motor oil, and change it every 1,000 miles under average around-town driving conditions.

Be sure to let your Phillips 66 Dealer change oil for you on schedule.

Postscript on Rural Neighborhood Program from District winner. We had the pleasure of attending the review of the work done in the last year by the Fairview Rural Neighbors. We wish we could have heard the reports from Jumbo in Castro County and Perico in Dallam and also the Chamberlain Community in Donley County. They would each

have been an inspiration we feel sure. The following are just a few quotes from some of the reports:

Mrs. Lee Goddin—"In my opinion the best thing about the program is the developing of leadership. Honestly, I had lived with my husband 25 years and didn't know he had leadership until they elected him the first president of our community organization."

Joe Brown, chairman disease prevention committee—"After typing up a card for everyone in our blood bank program I sometimes forget people's names, but I always remember if they are positive or negative."

Margie Stephenson, chairman Home Ex. Committee—"Don't

worry about how long I'll talk but if I will be able."

Cloyd Burton, Chairman Soil and Water Committee—"Take care of the soil and it will take care of you." He added, "Now sometimes the government wants to take care of you."

Louis Schmidt, chairman of committee on religious life—"The program this year has taught us that we do not own the land but are only stewards on it, and therefore responsible for its care."

Cuba Nell Stephenson, chairman publicity committee—"I'm scared stiff now, but everyone of us have a dial telephone and when we want something done we get on the telephone and call the neighbors."

More than 800,000 Americans have been cured of cancer and are still living, an officer of the American Cancer Society reports. Another 900,000 who have undergone treatment are in a five-year observation period at the end of which they will be judged as cured if their symptoms do not recur. When the cure rate was one in 10 cases in 1913, it is now one in three. Early diagnosis is vital.

Usually it is easy to get plenty of free advice on how to bring up children from folks who have never reared any. Too, the fellows who have dodged matrimony always seem to know a lot more about the ways of women.

Guess we fellows with experience are afraid to stick our necks out.

Death and taxes are supposed to be two of the most certain things in the world. One can make the first happen a lot sooner by always worrying about the latter.

Do you remember this old saying? "If you could buy Mr. So and So for what he is worth and sell him for what he thinks he is worth then one could make a fortune."

Some folks who have grown up in the Panhandle probably have been used to a windmill most all of their life. To me there is just nothing more satisfying than a cool fresh drink right from the bottom of a 200 foot well.

Some of us who began life back in say East or Central Texas were likely along in years before we saw a windmill. Never will we forget the old cisterns with the rope and pulley. Sometimes at certain seasons we would find wiggletails in the water. We remember a neighbor that kept a catfish in the cistern to eat up the wiggletails. I never could decide which would be the most sanitary. Then, keeping the butter and milk swinging half way down for refrigeration. We were healthy as pigs in spite of everything.

## TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

### Shades Of Coxe's Army

Last week the Nation's Capital was visited by approximately 6,000 representatives of the unemployed. These jobless came from some 15 cities and gathered at the National Guard Armory to voice their complaints and to insist upon government action. The assembly was under the supervision of the AFL-CIO, as a Conference on Unemployed.

The meeting was addressed by a number of speakers, including George Meany, President, AFL-CIO; Walter Reuther, President of the United Auto Workers, and named as the author of the demonstration; Senator Paul F. Douglas (D-Illinois), and our own Senator Lyndon B. Johnson, Majority Leader of the Senate.

The group was also addressed by Secretary of Labor Mitchell, and they had requested a speech by President Eisenhower; however, the President was in Augusta, Georgia, and not only missed a visit with the unemployed, but also missed throwing out the traditional first pitch at the opening Washington-Baltimore baseball game. Some of the delegates at the Unemployment Conference appeared to be very bitter because the President had gone to Augusta, Georgia, at this particular time. Some of the speakers took advantage of this and made remarks about the President's absence that brought forth cat calls, boos and whistling. One of the group fell victim of food poisoning as a result of partaking of a turkey and dressing dinner, but everyone recovered. One man was arrested and taken off the train for brandishing a pistol. There seemed to be some difficulty in identifying the delegation he represented. He stated that when he went to get his unemployment check some two weeks ago, he was asked to sign another register. Subsequently, he received a notice that he was a delegate to go to Washington on the Unemployment Conference. He is alleged to have stated further that he didn't know anything about it, but "a trip was a trip and he wasn't doing anything anyway."

The meeting was most orderly and the complaints, the protests and the feelings of the delegates were aired without incident and in keeping with good conduct.

### The Supreme Court

The mail has been bringing in many letters highly critical of the Supreme Court and some of its recent decisions. The "double jeopardy" case about which I wrote last week has brought in quite a few comments. These letters also go back and discuss other decisions with which the writers are in disagreement with the Court. The recent decision of the Court refusing to interfere with the ban on women being allowed to attend Texas A&M Col-

lege has brought forth quite a bit of comment from a number of sources, both within our district and without. The matter has been discussed editorially and in the syndicated columns in many of the Eastern newspapers. One of the letters I received, concerning the state of the nation, treated the Supreme Court problem by stating, "The Supreme Court should be confined to interrupting the law, rather than making it." The American Bar Association seemed to think that the Court was probably doing both, which probably explains why some of the lawyers in government service have decided to withdraw from the American Bar Association. No doubt, the Supreme Court should, like Caesar's wife, be above suspicion, but in a democratic government it will never be above criticism.

### British Troubles

The British seem to be having some difficulties trying to prevent Field Marshal Viscount Montgomery from paying a visit to Nikita Krushchev in Moscow. They seem to think, from dispatches, that Montgomery is totally void of tact and would probably turn out to be a trouble maker. Some think that he is prompted more by his desire for publicity than by his hope of making a contribution to the solution of some of the problems. As for me, I think he should be allowed to go. It seems that every time Great Britain sends a peace-maker to visit a foreign power, we end up in a world war. Perhaps if they would send a trouble maker over, it might contribute to peace. I might say further that, as far as I am concerned, Montgomery can stay in Moscow, and the same goes for some military prima donnas residing in some other countries.

### Visitors

Last week was Cherry Blossom Week in Washington, and there were many thousands of visitors in town for the occasion. Some of them were from the Panhandle, and we enjoyed seeing them, as always.

Mary Whittenburg from Amarillo was in Washington with a group of her fellow students from Principia Upper School in St. Louis. They were seeing many of the sights in the Nation's Capital, and it was certainly nice of Mary to come by to see us.

From Borger, we had Reverend O. A. McBrayer, who is pastor of the Wesley Methodist Church there in Borger. Reverend McBrayer is in Washington attending a seminar and came by the office for a few minutes last week. We enjoyed seeing him.

It was good to have our good friends, Mr. Alvin Hill and Mr. Morris Cobb from Amarillo. They were here on business, and we had a nice visit with them here in the office.

According to the Oregon Voter, installment plan buying in the U. S. is expected to reach an all-time high of \$42 billion during the current year.

## Will Writes

From Austin

### INCREASED SPENDING

The House of Representatives has approved the largest spending bill in Texas history. The giant appropriations bill received overwhelming support on final passage after beating down amendment upon amendment.

I voted against this measure because many of you have expressed your desire not to have further taxes placed on you by the State of Texas.

When we pass the largest spending measure in the history of the State, then, of course, we will be forced to pass the largest tax bill in the history of Texas.

### PLUS & MINUS

I voted for several increases on this measure which should have been adopted. These increases included more pay for state employees and increased assistance for Texas' older citizens. However, I also voted for several amendments which would have substantially reduced what I termed "excessive expenditures." This bill increased spending in many places where it should have been cut. Thus, I cast my votes for the needed increases and against the unneeded, excessive fat in this bill.

### GAS TAX INCREASE

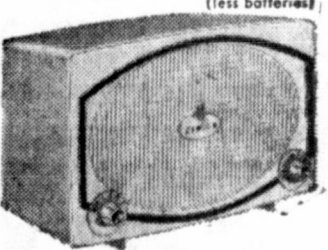

It seems to me that Gov. Daniel is talking both ways at once on his tax proposals. He says he is against a general sales tax, and he criticizes proponents of broad based specialized sales taxes. Yet in spite of all of this he says he will recommend a one cent increase in the sales tax on gasoline. This is a sales tax placed directly on the people of Texas and is certainly inconsistent with Gov. Daniel's earlier statements.

It would be much easier on the legislature if we had a Governor who would take a definite stand and then say put on these tax matters. It is unfortunate in these days of crisis for Texas that we do not have a strong, forceful leader in our Governor's office.

ently made the best seller list  
 since the 1920's. The three have  
 written 54 books and these have  
 sold over 17 million in the hard  
 back editions besides over 8 mil-  
 lion in the paper backs. That is  
 a lot of books.  
 When anyone of them have a  
 new book published it is an al-  
 most forgone conclusion that it  
 will become a best seller.  
 Of course we do not have all 54  
 of these books but we do have  
 a number of them.  
 If you watch television, listen  
 to the radio, read newspapers or  
 magazines you know April 12-19  
 was National Library Week.  
 In the Amarillo Globe-Times  
 Author Taylor Caldwell describes  
 life as void without the world of  
 books.  
 From April 28th Look maga-  
 zine "What is a Librarian?" in  
 America she is no longer a glum  
 guardian of dusty volumes but a  
 tireless guide in people's quest  
 for knowledge, self-improvement

 spreading it on thick but nicely.

**THE JOKES ON YOU**  
 Dictator's have established  
 absolute power over people and  
 nations by sticking close to the  
 proposition that a lie told loudly  
 and often enough will eventually  
 be accepted as the truth. A wa-  
 tered down version of this idea  
 has been used, often inadvert-  
 ently, with the effect of establish-  
 ing a widespread false impression  
 of one of the country's most ef-  
 fective and essential basic indus-  
 tries—oil. Too many people be-  
 lieve that oil companies and any-  
 one associated with them are  
 rolling in money.  
 The depletion allowance, so es-  
 sential to the adequate develop-  
 ment of future oil supply, and so  
 largely misunderstood by the  
 public, will come up against a  
 showdown battle in this Congress.  
 Anyone who uses oil, or prod-  
 ucts made from oil, or who has  
 a stake in national strength and  
 security—and that's everybody—  
 also has a stake in helping to  
 straighten out false ideas about  
 the industry wherever they exist.  
 For every fabulous success in  
 the oil business, there have been  
 countless other equally fabulous  
 failures. After all, nine out of ten  
 wildcat wells produce no oil at  
 all and are a total loss, except  
 for such geological information  
 as they may yield. Established oil

companies earn a return on their  
 stockholder's investments the  
 same as companies in any other  
 line of business. And the oil de-  
 pletion allowance is no tax  
 evasion. It allies only to produc-  
 ing companies which pump oil  
 from the ground to sell it. They  
 are allowed to deduct 27 1-2 per  
 cent of their gross income for tax  
 purposes. This is essential to oil  
 production because, in the first  
 place, finding oil or gas in com-  
 mercial quantities is a highly  
 risky business. Secondly, and this  
 applies to any extractive indus-  
 try, everytime an oil man sells a  
 barrel of oil, he is selling part  
 of his capital assets, most of  
 which are in the ground, since  
 the drilling rigs, pumps and  
 storage tanks he uses, are a  
 relatively small part of his  
 capital assets. These capital as-  
 sets have to be replaced and  
 added to if adequate future oil  
 supplies are to be available.  
 And so the story goes. In all  
 aspects of the oil business, fact is  
 a lot different from fantasy.  
 Jokes about Texas oil tycoon's  
 30-story bungalow and gold-  
 plated Cadillac may be good for  
 a laugh, but they could add up  
 to a national tragedy if public  
 confidence in a hard-working, es-  
 sential industry is undermined as  
 a result of it.  
 Make it a habit to keep your  
 feet on the ground and you'll  
 never have far to fall.

**COLLEGE STUDENTS HOME FOR WEEKEND**

A number of college students were at home to visit with their respective parents and other relatives the past weekend.

Keith Hudson, who is attending the University of Houston arrived Saturday morning to visit until Wednesday morning.

Walter Knorpp, a student at TCU, Fort Worth, spent the weekend with his parents.

Among those attending Texas Tech, Lubbock, to be in Clarendon for the weekend were Miss Glenda Borden, Don Pitts and Allen Homer Estlack.

Several who attend West Texas State at Canyon were also visitors: Jerry Behrens, John Payne, Miss Deanna Cooper, Miss Gloria Pope, and Mr. and Mrs. David Patterson.

This may not be a complete account of students visiting here but at present time no more names had been turned in. It was good to see all of these young people back with us again.

**Mrs. W. J. Lewis, Jr. To Lead Cancer Drive In Donley County**

Mrs. W. J. Lewis, Jr., will lead the 1959 Cancer Crusade in Donley County again this year.

The life-saving and fund-raising drive began all over the United States on April 1 and has been termed "the greatest attack ever mounted against a disease."

The whole month has been designated Cancer Control Month by Presidential proclamation.

"Because cancer eventually strikes two out of every three families," Mrs. Lewis said, "there is an urgent need for everyone to join in the counterattack, either as volunteers or donors, or both."

"Americans have always worked together to solve important problems. Cancer is one of the most important, for it makes no distinctions between rich and poor, farmer or city-dweller, old or young. It is the No. 2 disease killer in the United States."

Mrs. Lewis pointed out that Crusade volunteers will not only collect funds, but will distribute life-saving information about cancer. The literature stresses the value of periodic health checkups to "guard your family," she said. The ultimate goal is complete victory in the war against cancer, which claims about 255,000 lives each year.

The American Cancer Society underwrites a national research program which employs some 1,000 top-flight scientists in laboratories throughout the country.

So please remember when you are called upon in Donley County as a volunteer or donor, or both, to do your part. The crusade will be the last of the month in Clarendon, but you may give your donation now to one of the local banks.

Visitors in the home of Mr. and Mrs. Walter Green Sunday were Mr. and Mrs. Bob Bagwell and Sharon of Denver, Colo., Mr. and Mrs. Harold Green and girls of Borger, and Mr. and Mrs. Gene Green and James of Amarillo. Visiting in the afternoon were Mr. and Mrs. G. W. Reeves, and Mr. and Mrs. Winifred Reeves and children of Amarillo.

**Clarendon Honored In TV Program**

"Cotton John" Smith's farm program from 12:30 to 1 p.m., Sunday, April 19th, featured Clarendon High School and Bobby Longan. The program was filmed by Burl McClellan and Bill Rhew at Clarendon Thursday, April 16th, and featured scenes from the Clarendon High School Campus, classrooms, and an assembly program honoring Longan in connection with his selection as the winner of the \$6,000 five-year College scholarship given by the Marshall Foundation of Houston. The program was considered to be one of the best seen over the Amarillo station in connection with a similar activity.

McClellan and Rhew were high in their thanks to Superintendent W. W. Pinkerton and Principal K. D. Vaughn for their cooperation in filming the show. They stated that the cooperation on the part of the local school officials was the best they had ever received from any of the area school officials was the best they had ever received from any area schools in filming an event of this kind.

**Bronchos Enter Regional Meet**

Coach Tom Jinks will take six of his track and field boys to the Regional Track Meet at Lubbock this weekend. The Bronchos will enter the mile relay, 440-yard dash, 880-yard run, 120-yard high hurdles, mile run, pole vault and high jump. Also entering will be Kenneth Housden, who won the district championship in tennis singles.

Making the trip to Lubbock with the track team will be John Morrow, George Mayes, Ted Weatherly, Milton Mann, James Allen and Eddie Tipton. Morrow will enter the 120-yard high hurdles, the 440-yard dash, the pole vault and the high jump. Mayes will enter the mile run and the mile relay team will be composed of Mann, Allen, Tipton and Weatherly. Weatherly will also enter the 880-yard run. Coach Jinks feels that Morrow has a good chance in both the pole vault and high jump and that Mayes will be a strong contender in the mile run.

**Clarendon F.F.A. Youths Lead In District Meet**
