Longan Shows Grand Champion At Donley County Calf Show

Gary Longan, son of Mr. and Mrs. P. C. Longan, exhibited the grand champion of the annual Donley County Fat Steer Show which was held at the Fair Barns Friday, January 2nd. Longan is a sophomore in Clarendon High School, a second year vocational agriculture student and a member of the Clarendon Future Farmer Chapter. His heavyweight Hereford was selected by Judge Dale Hoover of Perryton as the top animal among the sixty-one steers on exhibit by members of the Clarendon, Lelia Lake, Hedley F. F. A. members and the Donley County 4-H Club. Members of the Clarendon F. F. A. exhibited thirty-one, Lelia Lake F. F. A. one, Hedley F. F. A. two, and the Donley County 4-H Club twenty-seven steers.

Grand Champion Of Donley Show

Gary Longan and His Champion Hereford Steer

David Mooring, son of Mr. and Mrs. Bill Mooring of Lelia Lake, exhibited the first lightweight Angus steer which was also selected as reserve grand champion. David is a member of the Donley County 4-H Club. Sammy Wells, Clarendon Future Farmer, exhibited the champion Shorthorn steer. This was the first year that there was a regular division for the Shorthorns. James McAnear topped the outstanding heavyweight Angus division of the show. The heavyweight Angus division probably included more top steers than any other class ever exhibited at the local show. Don McAnear topped the middleweight Angus division and his steer was selected as reserve champion in the Angus division.

Wells topped the medium weight Hereford class and the heavyweight Shorthorn division. James McAnear also exhibited the first place lightweight Shorthorn. Don Hudgins exhibited the second place heavyweight Shorthorn that was selected as reserve champion Shorthorn. Both of the McAnears, Wells, and Hudgins are members of the Clarendon F. F. A.

In addition to Mooring's first lightweight Angus, the Donley County 4-H Club topped the lightweight Hereford class when Wayne Leathers fine entry was selected as top animal in this division and was also declared reserve champion Hereford steer.

The annual event was generally conceded by all viewing it to be the top show in the history of the annual exhibition. It was the largest and everyone expects to hear from the steers in the major shows throughout Texas this spring.

The detailed placings are as follows:

Bronchos Take Claude Tourney

The Clarendon High School Bronchos ran their season's record to eleven wins against two defeats last weekend when they won three games to take first place trophy at the North Plains Tournament at Claude. This was the second tournament the Bronchos have won this year, the other being the Panhandle tournament. The girls lost both games played in the tournament at Claude.

The Bronchos defeated Claude 68 to 38, Bovina 52 to 41 and defeated Silverton in the finals, 51 to 41. The girls lost to Claude 49 to 42 in the first round and were defeated by Stinnett 56 to 50 in the consolation round.

The Bronchos had no trouble at all against Claude. They jumped into a quick lead and were ahead 18 to 9 at the first quarter and built their lead to 35 to 14 at the half. The second half was played with the Broncho reserves and they increased the lead to 54 to 22 at the three-quarter rest period. Almost all the Bronchos dented the score column with W. N. Elam leading with 12 points followed by Jimmy Johnson with 11, Melvin Housden nine, John Morrow and Wayne Mann eight each, Keith Schollenbarger and Jerry Allen six each, Kenneth Housden four, Philip Abel three and Sandy Skelton one. James Allen played but failed to score.

In the Bovina game, Elam and Johnson shared scoring honors with 12 each with Schollenbarger making 11, Morrow nine, Melvin Housden six and Kenneth Housden two. In this game the Bronchos led 14 to 10 at the first quarter, 21 to 13 at the half and 37 to 22 at the third quarter intermission.

In the final game Saturday night, the Bronchos again took a quick lead and were never in any apparent danger. They scored nine points before Silverton scored and were leading 11 to 2 at the first quarter and 26 to 16 at the half. Schollenbarger paced the scorers with 16 points followed by Morrow with 15, Elam with 10, Melvin Housden and Johnson with five each.

The girls fought hard and almost upset Claude, the eventual champions, but fell short in the final period. Claude took the lead and it looked like it might be a run-away with the host team building up a 11 to 7 first quarter lead and increasing it to 33 to 21 at the half. The Clarendon girls outscored their opponents 21 to 16 the last half. Joan Bennett led the scoring with 23 points with Paula Adams making eight, Ann Slavin six and Charlene White five.

In the consolation game with Stinnett, the Clarendon girls were behind 12 to 11 at the first quarter but had forged into a 28 to 23 lead at the half. Stinnett came back and led 41 to 35 at the three quarter period and held their six point lead throughout the final period. Miss Bennett was again high scorer for Clarendon with 26 points with Miss Adams making 21 and Miss Slavin three. Beth Lamberth, Pat Spurgeon and Pat Owens played well on defense in both games.

FARM NEWS

from the County ASC Committee

ACP PROGRAM—1959

At this time Practice E-3b, Chiseling or Listing will be approved limited to the acreage covered by cotton stalks on land that was summer fallowed or idle and does not now have a cover of any kind on it. Land now in feed stubble or small grain will not qualify. The listing or chiseling must be completed by January 31, 1959 and reported to the county office not later than February 15th.

The County Committee Policy with reference to 1959 ACP Cost-Share assistance is as follows:
Each Donley County producer will be limited to \$1,250 cost-share assistance for 1959 unless, in order to complete a good soil and water conservation practice, it would take more cost-share assistance to have the practice complete, then the State and National limit of \$1,500 will apply.

County Officials Take Oath Of Office Jan. 1

County officials who were elected this past year to serve residents of this area, were on hand to take oath of office January 1st.

Judge R. E. Drennan, who began his first elective term, was sworn in by County and District Clerk P. C. Messer. Judge Drennan, in turn, administered the oath of office to Mr. Messer and then Mr. Messer administered the oath of office to two newly elected officials, H. L. Riley, commissioner of Precinct No. 2 and J. H. Headrick, Justice of the Peace, Precinct No. 2, and two re-elected officials, Mrs. A. G. Lane, County Treasurer and Jess Finley, Commissioner, Precinct No. 4.

No other official business was transacted at this time. The regular Commissioners Court session will be Monday, January 12th.

BROTHER OF LOCAL RESIDENT DIES

Gene Dishman received word of the death of his brother, R. B. (Bob) Dishman in Kansas City, Kansas Monday of this week. Mr. Dishman died at 3 p.m. January 5. Funeral services were held in Kansas City Wednesday, January 7 and burial was there.

Survivors besides the brother here include his wife, a son, a daughter, several grandchildren, and one sister who lives in Silver Springs, Maryland, Mrs. H. C. Reast.

High School Teams Meet Hedley Here Tuesday Night

The Clarendon High School boys and girls will meet Hedley here next Tuesday night beginning at seven o'clock in their first home appearance since December 12. The two teams played earlier in Hedley with the Bronchos winning 39 to 26 and the Hedley girls winning over the Bronchoettes 54 to 34. The Hedley boys played without the services of two of their best performers in the early game, and Hedley supporters are looking over Clarendon in this meeting. The Bronchos are currently sporting a record of 11 wins against only two defeats which does not include last Tuesday night's game with McLean. The girls' record is seven wins and five defeats.

Pfc. Sherman Cosper arrived in Clarendon December 29 to visit his wife, Barbara, and other relatives and friends. He is based at Ft. Carson, Colorado Springs, Colorado where he works at the Reception Station. He will report back for duty there on January 13.

County Banks Set New Record With Total Deposits Near 8 Million

According to all available records we could check, the three banks of Donley County, have set a new all-time record for total deposits. The total at the close of business December 31, 1958 was \$7,822,500.27. The nearest figure to this amount was in 1954 when the total went just a little above 7 million.

The three county banks publishing condensed financial statements in this issue of the Leader are The Donley County State Bank and The Farmers State Bank of Clarendon and the Security State Bank of Hedley.

The total deposits December 31, 1958 show an increase of \$906,557.72 over the 1957 total which was \$6,915,942.55. All three banks show an increase in loans also. The total loans December 31, 1958 was \$3,307,172.57. This is an increase of \$465,203.35 over the 1957 total which was \$2,841,969.22. This shows an increase of near half a million dollars in the deposits over the increase in loans.

Coach Travis has hopes that his boys will find their winning ways again in the game with Howard County here Saturday night. He plans to start Alva Carter, Bub Eldridge, Loyd Stephens, Jack Buttram and Benny Leslie.

HEDLEY NEWS

Mabel Bridges

Cold, bitter cold winter weather has covered the entire state. Our community was not left out. News is scarce since it is cold to gather news items. In fact it is cold to make news.

How good is your memory? Did you remember last Sunday when it was simply to hot to go to church last summer?

Another pioneer has been called home. Mrs. J. C. Coffey passed away in a Wichita Falls hospital. Funeral services were held in Amarillo Monday. Burial was in Claude Cemetery beside her late husband, Dr. J. C. Coffey. The Coffeys were formerly Hedley residents where Dr. Coffey practiced medicine. Mrs. Coffey was of the old school, very cultured and refined, always ready to be of service to her fellow man. She was a devout Christian, was a member of the First Christian Church in Hedley. She is survived by one daughter and several grandchildren and a host of friends.

Miss Ethel Smith of Amarillo and Clyde Grimsley of Hedley were united in marriage in Clovis, New Mexico during the holidays. They are at home in Hedley where Clyde operates large farming interests. Best wishes are extended by Hedley friends for most happiness.

Mrs. J. D. Masten was injured in a fall at her home last week. She is in the Adair Hospital in Clarendon. We wish her a speedy

Needle Club meets this afternoon (January 8) in the home of Mrs. C. B. Harp in Clarendon.

A farewell party was planned for Mr. and Mrs. Dane Perdue and girls Saturday night, but due to the bitter cold weather not many ventured out. We hate to see them move to Levelland, but hope they will be happy in their new home. This young couple has done outstanding service in our community and will be missed. Dane was a trustee in our school, and served faithfully many years, and in any other capacity in which there was a need. They regularly attended church, and are the "salt of the earth type" folks.

Mr. and Mrs. Frank Mahaffey and Hugh moved to the Dane Perdue place.

I wish to thank everyone for their cooperation in turning in their news items to me this past year, and ask you to continue to help me get this column ready. Please call me at 908K1-2 or give your items to either one of my boys who drive school buses. I will appreciate it so much. Wishing each of you the best of everything this year.

American Red Cross To Help Philippine National POW's

The American Red Cross has agreed to offer its services to Philippine nationals who were prisoners of war of Japan. Compensation is available to those eligible under Article 16 of the Treaty of Peace with Japan. They may register on forms which are available from Florence Neece, Donley County Chapter, field directors serving with the armed forces, or American Red Cross, Washington 6, D.C.

The registration in the United States is being carried out in accordance with the request from the International Committee of the Red Cross, Geneva, Switzerland, which has responsibility for distributing compensation under Article 16 of the Peace Treaty with Japan. A person who was a Philippine national serving with U. S. armed forces at time of capture is eligible to register for compensation. The next of kin may apply if the former prisoner is dead. The source of this money is assets of the Japanese government and Japanese nationals on deposit in neutral countries which have been transferred to the International Committee by Japan.

The Red Cross said all registrations must be in its hands by March 15, 1959. There is no need to register again if registration already has been made in the Philippines or the U.S. The American Red Cross is acting for the Philippine National Red Cross.

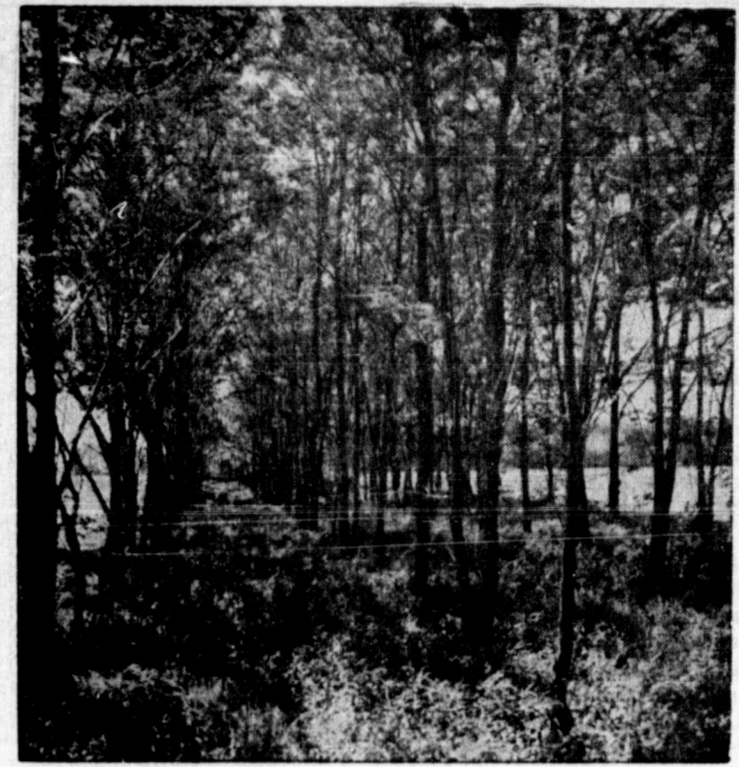

Applicants should give name, rank, service or serial number, date and place taken prisoner, and place detained as prisoner of war. If possible, proof of identity should be presented.

All applicants must give a permanent address and the claimant's signature should appear on the form.

Completion of action on the registration will take several months.

MORE TURKEYS THIS YEAR

The 1959 crop of turkeys will exceed the number produced in 1958 and prices will be lower if intentions expressed by U. S. turkey producers in October are carried out, reports John McHaney, extension economist. But, he adds, these intentions are only indications and are usually the basis for readjustments in later production plans.

"Farmstead windbreaks should be from 125 to 200 feet from the area to be protected," so says your Donley County Soil Conservation District.

The past week's cold wind and snow brings home the value of windbreaks for farmstead homes and to shelter cattle. As usual the snow pretty well moved across bare areas catching in farmsteads and weeds and taller stubble.

Deep piles of snow are quite a nuisance around the house and lots. And those winds blowing through the door cracks and around windows are surely un-

comfortable. Without other protection fuel bills run rather high during such storms.

It takes a while to remedy this situation in that trees need a few growing years to be effective. Therefore, there is no better time to start than now.

Trees may be ordered from the Texas Forest Service, College Station, Texas. Order forms for trees and plans for establishing proven engineered designs may be had at the Soil Conservation Service office. The price of these trees is very reasonable. Contact your local Soil Conservation Service Office for additional information.

Riley and children, and Jim Hill, all of Amarillo; also Mr. and Mrs. Jim Amberson and children of Pantex; Mr. and Mrs. Jiggs Riley and Mr. and Mrs. R. C. Hill of Clarendon.

LELIA LAKE SCHOOL NEWS

The next-to-last week of the first semester brought a quickening of the pulse to some students, as they thought of what they might be asked on semester examinations. The high school boys were rejoicing over a close win in basketball with the dreaded Samnorwood aggregation. The Laker, school publication, was being prepared, with news of various types and poetry by Eugene Smith, talented sophomore transfer from Georgia.

Seniors are giving reviews of magazine articles. Cars, Motels, and the changing status of Japanese women were among the subjects chosen, from the Reader's Digest, Newsweek, and the Saturday Evening Post.

Sometime or other, everyone shivered, and amid winter's icy blasts, it seemed that surely spring must not be far behind.

School Examinations Set For Jan. 14-16

Mr. Pinkerton and Mr. Vaughn, in line with the modern trend in education, of giving final examinations to all students in the courses they have pursued during a semester have prepared an examining schedule for both High School and College classes for January 14, 15 and 16. The preparation of the schedule was made necessary in order to allow extra length periods of one hour and thirty minutes for the student to complete the testing program without being unduly rushed.

They announce also, that the students of both High School and college will only be required to attend school for the completion of each of the course examinations and will be free to be at home when examinations are not being completed by the student.

This arrangement will release teachers from study hall duty for preparation of examinations and grading, recording, and reporting of results.

However the library will remain open for the benefit of those students who are working on research or studying for their examinations from day to day.

A list of the examination schedule is too lengthy for publication but is available to all students.

Mrs. and Mrs. Ernest Tipton spent New Years with Mr. and Mrs. F. A. Fitzgerald at Littlefield.

'59 OUTLOOK FOR EGG PRODUCTION AND PRICES

College Station—Egg production in 1959 is expected to exceed that of 1958 due to an increased rate of lay and a larger number of layers and potential layers now on the nation's farms.

F. Z. Beanblossom, extension poultry marketing specialist, reports the number of pullets on farms January 1, 1959, is likely to exceed the number of a year ago by about 10 per cent. In the south central states, which includes Texas, on November 1 pullets not of laying age exceeded by 35 per cent the number of a year ago. A larger monthly production is expected, Beanblossom says, through the late summer of 1959. By that time, the number of layers will begin to reflect the chick replacement hatch in the spring of 1959 which is unknown at this time.

As for egg prices, the specialist says indications point to a downward trend during the next six months. Prices early in 1959 are likely to be lower than those for a year ago. The small holdings of storage shell eggs, however, is likely to soften this price drop and by late summer or early fall, Beanblossom sees a chance for prices to improve depending upon the flock replacement situation. Prices for the last three months of 1959 should about equal those for the same period in 1958.

Beanblossom points out that improved breeding, management, feeds and commercial flocks have not only increased the number of eggs per layer, but have also resulted in a much more uniform year-round level of production. Eggs for the family table utilize about 74 per cent of the total national production. Farm families and keepers of backyard flocks use about 15 per cent of the total production and these eggs never enter commercial trade. About 5 per cent of the eggs produced are used for hatching purposes and 6 per cent are broken commercially for use as liquid, dried or frozen eggs.

Fiesta de San Jacinto, held annually in San Antonio, commemorates the Texas victory at the battle of San Jacinto, fought April 21, 1836. The Fiesta is a week-long affair.

Criminal Activities Of Persons Under 21 Years Of Age Show Increase

An increase in the criminal activities of persons under 21 years of age was indicated today in a report released by the Texas Department of Public Safety.

The DPS said its count of fingerprint records of persons 20 years of age, or younger, for the year 1957 was 14 per cent greater than for 1956. A total of 16,416 fingerprint cards of youthful criminals were received by the department in 1956, while 18,768 were received in 1957.

The greatest increase involved 17-year-olds, followed by the 18, 19 and 20-year groups. A considerable jump was noted in the number of fingerprint cards received from the 16 and 17-year groups. A total of 1,083 cards involved 16 year olds, while 4,493 persons of 17 years of age were fingerprinted in investigations.

The DPS said the card count was not a conclusive means of totaling the number of criminals of these age groups since many minors are not fingerprinted. However, a general increase in crimes for these age groups is reflected in the information.

General criminal offenses in Texas during 1957 for persons of all age groups occurred at the rate of 424 offenses per day, according to a department crime report recently submitted to the newly organized State Law Enforcement Study Commission. In that report Col. Homer Garrison, Jr., director of the Texas DPS, said major crime in Texas for 1957 was up 9.2 per cent over the year 1956.

Most of the increases, he said, came in urban areas, while rural areas experienced a decrease. Urban was up in all categories but one, while rural was down in all classifications but one.

Murder led all categories in the 1957 increase with a total of 1,084 such crimes—a 25.2 increase over the previous year. Rape showed a 3.4 per cent decrease, robbery 10.4 per cent increase, burglary 6.8 per cent increase, aggravated assault 4.1 per cent decrease, theft 10.3 per cent increase and auto theft 17.8 per cent

increase. In comparing rural crimes with urban crimes, Garrison said murder was up in both instances—rural up 13.4 per cent and urban 35.4 per cent. Auto theft in urban areas was up 21.2 per cent, robbery up 15.9 per cent, theft up 13.6 per cent and burglary increased 10.3 per cent in urban areas.

Among the leading decreases in rural crime for the year 1957 came aggravated assault with -10.6 per cent. Next line was a 7.8 per cent decrease in rural thefts.

Hunting Season Nearing End, Fishing Is Good

Austin—The hunting season in Texas is drawing to a close but winter fishing on the Texas coast is just now getting hot, according to the executive secretary of the Game and Fish Commission.

"We get reports every day of tremendous catches of trout, red fish, flounder, drum and sheep-head all along the coast," the secretary said. "Party boat operators at Port Arthur, Galveston, Freeport, and Port Isabel are all reporting heavy catches of snapper. Some very large snapper have been taken recently at the bank offshore. A few of the fishermen also are reporting ling around the offshore drilling rigs."

Night fishing along the coast is good at the present time, according to reports reaching Austin. Practically every fishing camp along the coast now has a lighted pier. In many places fishermen themselves have rigged up generating units. They erect these units on the front of their boats, or in boats which they tow to favored trout fishing spots.

"Persons who have never fished along the coast will find a real thrill in the catches they can make with ordinary fresh water equipment," the executive secretary said. "In some places the fishing has been fantastic."

The secretary also warned that a fishing license now is required for coastal fishing as well as fresh water fishing, when any kind of winding device is used.

Christmas has come and gone; this is a fact, and not news. With some it was a season for sober moral reflection, and with others a season for merry-making. Of course old Santa Claus paid the Juveniles a visit, for which they are no doubt thankful. He is a merry old chap, and never neglects the small fry specimens of humanity. Every one, both old and young, seemed to enjoy themselves highly, notwithstanding it ruined the whole day.

The Matagorda Gazette thinks that nine bales of cotton to the hand is a fair average crop in all the counties of the 9th Judicial District.

Rev. Rufus W. Bailey has been elected President of Austin College, and the exercises of that institution will be resumed on the first Monday in February next.

The San Antonio Ledger says news has just been received at the department of the killing of Major Emery, U.S.A., and eight men, at the Cotton Wood Springs, in Kansas Territory, supposed to be by Indians.

We have just learned that A. M. Gentry has purchased 10,000 tons of iron and made a contract with John Bradley to put the New Orleans road from Houston to the Sabine through in eighteen months.

The Houston Telegraph Southern Intelligencer, Austin. Like all other individuals who ever had the good or ill fortune to have been known outside of Texas, the Editor, through the past year has had thousands of inquiries as to the earth, water, timber, land, game, fish, minerals, roads, railroads, schools, colleges, religion, piety, law, physics, manufactures, newspapers, girls.

boys, bachelors, grass hoppers, and all else which for good or ill affects the country. We have generally answered by sending a single number of the Intelligencer, knowing that one would give more information than a letter which few could decipher and to write which, would not pay.

Education has made remarkable progress for a new country. The colleges and high schools at all the principal towns are making rapid progress. Many superior men are engaged in instructing; and many of the overcrowded professional men are preparing to engage in the business. The blind and the mutes are instructed at the public expense, as are the children of the poor.

The San Antonio Ledger mentions the arrival in that city of a large quantity of silver bullion from the mines of Santa Rosa, in Chihuahua. The silver is worth here about \$120 per ounce, and was purchased by Messrs. Vance & Brother.

The several million blue-prints used in the construction of Navy's newest aircraft carrier USS Independence, would form a pathway 30 inches wide extending for 2,100 miles.

New Method Of Hauling Milk In Bag

A giant rubber-fabric container resembling an over-sized toothpaste tube offers big promise of cost saving for dairymen. Called "Sealdtank," it has been developed by joint effort of the rubber, trucking and dairy industries, and measures 56 inches in diameter, 35 feet long and holds 3,800 gallons of milk. When empty, the container lies flat and can be rolled into a compact package.

Sealdtank means that for the first time a dry-liquid two-way haul can be accomplished transporting dry cargo in one direction and liquid cargo on a return trip—in the same standard trailer or truck. The upshot is that it converts thousands of trucks, railroad box cars and gondola cars into a potential liquid carriers of milk.

"Bagged milk" may mean a saving in cost of getting milk to market. Since the milk can be hauled on the regularly scheduled run of a common motor carrier, rates need only cover the actual cost of the milk haul, an estimated saving of 20 per cent or more.

When a fellow begins bragging on his church I always listen; in the first place I might learn something worthwhile that could help me to enjoy my church more. Even if I don't get any good and helpful ideas I can at least enjoy his enthusiasm for his own church. On the other hand, when a fellow begins by

running my church down then I lose interest pretty fast. In the first place I can know this; that in his opinion the bad points of my church stand out more in his mind than the good points of his own and that wouldn't be so good. Then, in the second place I couldn't get any enjoyment out of this enthusiasm in belittling something that was near and dear to me . . .

A bore is a fellow that won't stop talking about his troubles long enough to let you get all wound up on your own. . . . Sometimes we all forget and keep on and on talking about the things that are uppermost in our minds and won't give the other person a chance. Rabbit Hunts Back In Style In Panhandle

Austin—Rabbit hunts are back in style in the Panhandle, according to an article appearing in the December issue of Texas Game and Fish.

Public hunts have been held on the Gene Howe Wildlife Management Area near Canadian for two years. This was the idea biologists had in trying to cope with high rabbit populations on the area.

Being a modern refinement of the "drives" of 25 years ago, the hunts are controlled and strictly supervised by Commission personnel. During the first hunt in 1957, 68 hunters bagged 846 cottontails in three days of hunting. Although cottontails were not so abundant in 1958 the hunt went ahead, but the 38 hunters that showed up got only 71 rab-

bits due to high weed cover. The upcoming hunt in January and February should be very good, the article states, since the rabbit population is high again. Gene Howe Area personnel recommend that participants bring beagles to flush rabbits from the high weed growth.

It is believed that 90 permits will be available for the 1959 hunt.

We would like to hear from anyone who has some information along this line. We understand that the Texas Highway Department is in process of doing some work along this line on lakes that get over the highways. This sounds like a good place to try out this thing and this is a good department to take hold of it. In our opinion the State Highway Department is top notch in most all of its operations. ABOUT YOUR HEALTH

Texas State Dept. of Health
Henry A. Holle, M. D., Com.

Looking for a resolution to keep during 1959? Here's one that could save you or your family a lot of strife.

"I resolve to have myself and my entire family vaccinated against paralytic polio as soon as possible and to tell all my friends and relatives to do the same."

We understand about vaccinating ourselves and our families, but what about having everybody else vaccinated?

The fact of the matter is as much of the population as possible should also receive the series of three anti-polio shots.

Although it isn't a guarantee, the Salk vaccine puts the odds overwhelmingly in your favor that you won't get paralytic polio.

The need is especially important for small children—those under five years of age. Attack rates were highest in one-year-olds, with more than 50 per cent of all paralytic cases occurring in children under five.

Thousands of little toddlers received tricycles for Christmas, but how many may never learn to ride before they are stricken

AIRBORNE CHAPLAIN—Captain James V. Coleman of Memphis, Tenn., and Bowling Green, Ky., gives communion to men of the Army's 187th Airborne Regiment in Lebanon. Now a senior parachutist, he served as an infantryman in World War II, then attended Union Theological Seminary.

with polio.

There is nothing so useless as a tricycle to a polio-stricken toddler.

Poliomyelitis records in Texas indicated a slight rise in the number of cases in 1958 over 1957—half of these pre-school children.

The vaccine continues to show a high rate of effectiveness. Only 12.7 per cent of the total paralytic cases in 1958 had received three shots of the vaccine throughout the United States. This is an effectiveness rate of about 87 per cent.

But the Salk vaccine's ultimate success rests with the entire community receiving the prescribed series of three shots.

And don't think your chances are better because you happen to live in a particular neighborhood or social order. Polio acknowledges no such restrictions.

Parents of young children who have not been vaccinated, particularly those under five, should start children on the course of three vaccinations immediately.

While you're in the doctor's office, have him vaccinate you too. Then on your way home tell your friends and neighbors.

That's a new year's resolution really worth keeping.

Sam Rayburn To Lead House Again

When the 86th Congress convenes on January 7th, Sam Rayburn will take up the gavel he has wielded for a record-breaking 15 years as speaker of the House of Representatives.

The Texas Democrat has held the post almost twice as long as any other speaker. But two Republicans gave the speakership the power that has caused some experts to rank it as the second most important office in the nation.

Henry Clay was the first to turn the office to political advantage. The speaker was simply an impartial moderator before Clay's election in 1811. But, according to the World Book Encyclopedia, the "Great Compromiser" used the office to argue so forcefully for the War of 1812 that it was called "Mr. Clay's War."

However, the speakership was

transformed into a political tool almost as powerful as the presidency by Thomas Reed and "Uncle Joe" Cannon.

In 1890, Reed cracked down on the delaying tactics of minority groups by counting all members present as a quorum—a number sufficient to conduct business—even if they did not vote.

The move earned Reed the nickname "Czar," but the Supreme Court later upheld the rule.

Reed's methods were only the starting point for Joseph Cannon, who ruled the House like a dictator in the early 1900's.

Once, after putting a question

for a voice vote, "Uncle Joe" declared, "The ayes make the most noise but the nays have it."

Even some members of Cannon's party rebelled. In 1910, on St. Patrick's Day, a coalition of Democrats and about 30 Republicans set out to strip Cannon of much of his power.

Because of the "St. Patrick's Day Revolution," Sam Rayburn has little of the formal authority which Reed and Cannon delegated to themselves.

He still has the important "speaker's eye," or the power of recognizing members who wish to speak on the floor.

ROCKET TRAFFIC SIGNALS

It is likely that nothing in our lifetime has caught the imagination of all the people of the world as has the world's entry into the space age. This imagination has manifested itself in many ways in every age group of our society and, inevitably, in the building, testing and firing of rockets by amateur and professional scientists. This is a wonderful thing, I believe, and is a demonstration of the old adage, "we learn to do by doing." Like everything else, however, there are certain hazards in these practices, and it is recognized that precautions must be taken to protect life and limb.

For this reason the Civil Aeronautics Board is considering proposed regulations for the operation of rockets and missiles. It is pointed out that these proposals stem from the increasing number of instances of potential hazards to aircraft in flight rather than any determination to destroy or unduly suppress any scientific endeavor, since the educational benefits to be derived from an organized experimental rocketry program are of great importance to all the nation. CAB points out that launchings of missiles have been conducted within the confines of airport traffic patterns, civil airways, and in such manner that they have penetrated the controlled air space areas. They have occurred at times when weather conditions prevented observation of aircraft in flight, thus creating a hazard to

planes operating under instrument flight conditions. Certainly, the continued and ever increasing use of air space will dictate extremely efficient and precise use of this space. The Board's concern with these potential dangers has been shared by state and municipal authorities who have, in many instances, enacted ordinances providing that no rocket, other than for military or industrial purposes, shall be fired within the areas of their authority without prior approval and issuance of a permit. This concern has been enlarged by recent large scale production of rockets which are available to the general public through hobby shops and department stores.

I point out that these regulations are not final and that they may be amended or altered after consideration of views and opinions of citizens all over the country. The initial proposals are, however, these:

That, no rocket or missile shall be fired so as to be at any time at an altitude of more than 500 feet above the surface, unless the approved by the administrator of the Civil Aeronautics Board.

That, no rocket or missile shall be fired from within or into any control zone, or so as to be at any time within five miles of any airport.

It is also pointed out that, in these proposed regulations are adopted, holders of or applicants for a permit issued by the Administrator of CAB are not relieved of their responsibility to comply with any state or local (police, fire, aviation) ordinance, law or regulation.

The hearing to consider the adoption of these regulations will be conducted by the CAB here in Washington, probably sometime in February. As in all such proposals, interested persons may submit their views so as to reach the CAB Bureau of Safety by January 27, 1959.

Dear Season Comes To Close

Austin—Final shot has been fired in the 1958 deer season, with one of the best years in the history of legal hunting, according to the director of law enforcement of the Game and Fish Commission.

Hunters can still take quail, until January 16, and ducks and geese until January 14, according to the director.

The director also asked that persons killing banded birds deliver the bands to their game wardens for checking purposes.

Commission.

The season on white-tailed deer closed at sundown Wednesday, December 31.

Hunters can still take quail, until January 16, and ducks and geese until January 14, according to the director.

The director also asked that persons killing banded birds deliver the bands to their game wardens for checking purposes.

Medicine Mound, Texas, takes its name from four elevations in the vicinity. These were called medicine mounds and were camp and ceremonial sites of the Comanche Indians. Medicinal herbs not available elsewhere were found there.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

Austin, Texas—As a news-making year, 1958 lacked the lid-blowing scandals and sensational headlines that erupted from the Capitol in '56 and '57.

But it was a momentous year in many ways. Elections. Recession. State treasury bankrupt. Much talk of new taxes.

Many research reports were made—by the State Tax Study Commission, the Texas Research League, the Hale-Aikin Committee. Required reports came from the Board of Water Engineers, Higher Education Commission and Legislative Council.

All in all, 1958 was a year of surveys, a time of critical self-examination. All the research reports made lengthy stories, little headlines. Few are complete stories. Most will be continued into the turbulent Legislative year of 1959.

A month by month review of 1958, including top news events, both good and bad, depending on your viewpoint, follows:

JANUARY—Gov. Price Daniel refused to be gloomy about state finances. He said he wasn't convinced the State Treasury would be in the red by 1959, as some said, nor of the need for new taxes.

New State Water Planning Board set up shop with the aim of doubling Texas' water storage capacity. . . . Land Commissioner Earl Rudder resigned to become A&M Vice President. Bill Allcorn of Brownwood succeeded Rudder. . . . Rival groups of optometrists squared off in a court battle to decide legality of price advertising.

Early-day satellites swirled overhead and a lot of people were worrying whether our schools were as good as Russia's. . . . Hale-Aikin Committee asked

for grass-roots suggestions for school improvement.

FEBRUARY — Gov. Daniel proposed that precinct convention be abolished and that delegates to the county convention be named by direct primary vote. It was a surprise counter-move to the "code of ethics" campaign being conducted by the DOT as part of its drive to wrest party control from the governor.

State Comptroller Robert S. Calvert predicted a \$12,000,000 state revenue deficit and need for \$100,000,000 in new taxes by 1959. . . . Economists announced bluntly that there was recession.

MARCH — Texas oil allowances dwindled to nine producing days. Oil Imports Study Commission blamed excess stocks on over-production during Suez crisis, competition since from foreign oil.

Unemployment payments hit a figure double that of a year ago. . . . And many Texas farmers reported it was "too wet to plow."

APRIL—Oil allowable tumbled to an all-time low, eight producing days. . . . But TEC, for the first time in 1958, announced a significant drop in joblessness.

Former Sen. Bill Blakley, Dallas financier, announced he'd run for senate post held by Ralph Yarborough. It was starting gun for politicking.

MAY — Eight-day oil production pattern continued. . . . Governor Daniel kicked off a campaign to save 254 lives in '58 by reducing the 1957 highway death toll 10 per cent.

Bureau of Business Research reported the recession "it still very much with us."

JUNE — Election campaigns got into high gear. Bus as much, if not more, attention focused on

the "after-hours" election, the precinct conventions. Prize in the struggle would be control of the state convention in September and selection of party officials for the next two years. Leading rival factions were Governor Daniel for the moderate-conservatives and National Committeewoman Mrs. R. D. Randolph for the liberal DOT.

JULY — Primaries returned almost all incumbents to major offices, including Ralph Yarborough to the U. S. Senate and Price Daniel to another term as governor.

Oil was up to nine producing days. . . . Economic analysts pointed to lessening unemployment, hefty bank deposits, said it might be "a good year after all."

AUGUST—Legislative Budget Board wrestled with money requests from state agencies far in excess of expected revenue for 1960-61. . . . Second primary settled who would sit in 56th Legislature, but not who would preside over the House. Both Joe Burckett of Kerrville and Waggoner Carr of Lubbock claimed enough pledges to be elected speaker.

Leaders of all types of Democrats called for "harmony" at September convention. Oil allowable rose to 11 days.

SEPTEMBER — Hale-Aikin Committee made its first report on proposals to update, enrich public schools. . . . Fiscal leaders in Legislature upped their gloomy predictions on new revenue needs to \$140,000,000.

Texas Democrats turned their eyes toward 1960 after a convention controlled by the Governor despite DOT outrage over the exclusion of its members from the Executive Committee.

OCTOBER — Texas General Revenue Fund ran dry and began going in the hole. . . . Hale-Aikin Committee reconsidered and reversed its previous stand against federal aid for school lunch programs and vocational training.

Commission on Higher Education proposed a more unified study program for state colleges and universities, concentrating graduate work at UT and A&M. . . . Texans debated merits of nine

proposed amendments to the state Constitution.

NOVEMBER — State fiscal officials upped their estimates of needed new revenue to nearly \$200,000,000. . . . Industry leaders called the oil industry "sick." Railroad Commissioner Ernest O. Thompson called for mandatory import controls.

Many public officials were disappointed over amendment voting. Salary raises for legislators and pension plans for county officials got thumbs down.

DECEMBER — Waning weeks of '58 saw a flood of legislative proposals flow into Austin. . . . Hale-Aikin Committee, joined by Texas State Teachers Association, asked more pay for teachers, more courses, longer school year. Others wanted safety legislation, fiscal help for cities, flexible auto insurance rates, small loan company regulation, etc.

State Tax Study Commission made no recommendation beyond its reporting of the fiscal facts of life in Texas. Governor Daniel estimated the state would need \$65,000,000 a year more for future spending plus \$55,000,000 to wipe out the deficit. He said he thought it could be done without general sales or income taxes.

And the safety crusade moved toward an unknown outcome as officials, joined by newsmen and hundreds of billboards, sought to cut the usual holiday highway death toll.

Whatever happens to the piles of data and recommendations in '59, their accumulation made '58 a significant year. It was a year in which many thoughtful people sought to take a grasp on the problem and promise of Texas' future.

It is much easier to keep up than to catch up.
