### WILL GARRETT DEAD

BURNT BRANCH, Jan. 21, 1905. Died at Clairmont, Kent Co., Texas, January 15th 1905. William A. Garret, a former stockman and prominent citizen of Callahan County.

The subject above was a brother of R. B. Garrett Sr. and Mrs. Jno. W. Alken of this county and Mrs. S. A. Barton of Holland Bell County, and a son of the late Judge W. H. Garrett a former County Judge of Bastrop County, where W. H. Jr. was born Sept. 25th 1856.

In 1869 his father moved to Salado, Bell County where young Garrett was reared and educated, attending Salado College for a number of years.

In 1880 he was married to Miss Fannie Paden in Bell County, and about two years thereafter he with his small family cast their lot with the good people of this county, where he resided until about 99 when he removed to Oklahoma remaining about three years. Returning to Texas, he settled in Kent Co. engaging in the stock business. About a year ago he sold his stock and landed interests and went to Clairmont, Kent Co. engaging in the Hotel and Livery business. Where he died as stated above.

About one month ago Mr. Garrett's daughter, Dean, died. This bore heavily upon his mind, aggravated his disease, and doubtless hastened his death, he having been in poor health for several years, a great sufferer from rheumatism and heart trouble.

Will Garrett was a good man generous to a fault; a loving husband a kind and indulgent father, and a true friend, with many friends and few enemies, wherever he cast his lot.

I knew him as a child; a boy; a young man and in mature years; a lovable child; a good boy; a noble young man; and on the down grade of life still retaining that same nobility of soul that actuates all good and true men to deeds of kindness and love for family and friends.

He has left a grand heritage to his heart broken family, a good name.

He has crossed the great divide to meet his reward. Peace to his ashes.

JUAN.

### A GOOD NAME.

It is ever to be kept in mind that a good name is in all cases the fruit of personal exertion. It is not inherited from parents; it is not created by external advantages; it is no necessary appendage of birth or wealth or talents or station, but the result of one's own endeavors, the fruit and the reward of good principles, manifested in a course of virtuous and honorable action. The attainment of a good name, whatever be the external circumstances, is wholly within the young man's power. However humble his birth, or obscure his condition, he has only to fix his eye on the prize and press toward it, in a course of useful and virtuous conduct and it is his. How many of our worthiest and best citizens have risen to honor and usefulness by dint of their own persevering exertions!

In the formation of character personal exertion is the first, the second and the third virtue. A good name will not come without its being sought. All the virtues of which it is composed are the result of untiring application and industry. Nothing can be more fatal to the acquirement of a good character than a treacherous confidence in external advantages.

These, if not seconded by your own exertions, will drop you, midway; or perhaps you will not have started, while the diligent traveler will have won the race.

It is of the highest importance that you have a commanding object in view, and that your aim in life be elevated. It is an old proverb that "he who aims at the sun, to be sure, will not reach it, but his arrow will fly higher than if he aimed at an object on the level with himself." Just so in the formation of character. Set your standard high, and you cannot fail to rise higher than if you aimed at some inferior excellence. Young men are not, in general, conscious of what they are capable of doing. They do not take their facilities, nor improve their powers, nor attempt, as they ought, to rise to superior excellence. The consequence is that their efforts are few and feeble; they are not worked up

to anything great or distinguished, and therefore fail to acquire a character of decided worth.

You may be whatever you resolve to be! Resolution is omnipotent! Aim at excellence, and excellence will be attained. "I cannot do it" never accomplished anything; "I will try" has wrought wonders. A young man who sets out in life with a determination to excel can hardly fail of his purpose. There is, in his case, a steadiness of aim, a concentration of feeling and effort, which bear him onward to his object with irresistible energy, and render success in whatever he undertakes, certain.

Subscription Rates.

One year \$1.00 Six months .50 etc Terms: Cash in advance.

NOTICE: SUBSCRIBERS.

I am mailing out bills for past due subscriptions. I have delayed longer than I intended getting out notices, but simply have not had time. I have reached the point that I must collect at least a good part of what is due, some accounts run from one to ten years and it is impossible to carry these longer unless something is paid on these old accounts. People expect me to pay my bills, but I cannot do this unless I collect my own accounts. I have made every shift possible to get along without sending out accounts by mail because it is expensive to mail out accounts to five to six hundred people, in many instances, from one to ten dollars. I have never crowded a subscriber in the 19 years I have been in the newspaper business. I have lost enough money on subscriptions in this county alone to buy a new and larger printing plant than I have now. If due anything on subscription or otherwise, don't wait for the bill. The printed date on your paper, if in the county, shows when your subscription expires. W. E. GILLILAND, Jan. 26, 1905.

Gen. Grippenberg took a grip on the Japs and then lost his grip—as usual.

It may come to pass that it will be a felony in Texas to ask a friend to take a drink.

The bill creating the new county has been set for hearing by the committee for February 6th. The opponents of the bill hope to kill it in committee.

The legislature has begun killing bills. This, as a rule, is the most important part of the duty of the legislature. Not one bill in a hundred deserves anything but a speedy and cruel death.

Czar Nicholas did not lose his nerve when fired upon with a load of grape shot, either by accident or design, but he did not seem to have enough nerve left to face a delegation of his own subjects, who wanted some needed reforms.

Gov. Lanham thinks a tax raise is inevitable. Possibly so; but this should be the last resort. What, with special taxes; city taxes added to the state and county taxes the average tax payer is satisfied the rate is already too high. It is difficult to make any man who is supported by taxation believe that taxes are ever high. The men who have to foot the bills are not so hard to convince however, so you see it depends altogether whether you view the problem from the inside or outside.

Over zealous pros denounce the anti as opposed to good morals because they do not see the liquor question as the pros see it. The anti contended all along that prohibition in many instances was worse than the open saloon. Now listen to the tale of woe by the pros in the legislature. If they are not mistaken conditions in many local option counties have not improved under the benign influence of prohibition. Club houses, C. O. D. shipments and general state of moral depravity is said to exist in many of the larger towns. They want more laws and better laws. They will doubtless get what they want and the more severe the law the harder it will be to enforce; and the next legislature will be asked for still more stringent laws, perhaps a constitutional amendment.

The Star has for ten years advocated a four years term of office for all state and county officers where the term is now two years. Make the term four years and make the office holder ineligible to office for four years. Do this and you will hear little complaint about the salary of any office being too low. This cry of higher salaries comes from the office-holding class and not from the public. Make every office holder ineligible for four years and you will destroy office holding as a business. We know this plan has some objectionable features, but we believe the good will overbalance the bad. We would have the law apply only to state, district and county officers, not to Congressmen and U. S. Senators. What do you think of the plan? Of course this change will require an amendment to the constitution.

FOR LAND COMMISSIONER.

As our present Land Commissioner Hon J. J. Terrell, will not be a candidate to succeed himself two years hence, the people, even now, should know those who aspire to that office. Hon. C. E. Gilbert, who once lived among us here, is being most favorably spoken of for that office. He is identified and well acquainted with the interests of the west. He was with us during the wild and woolly times, and stood by his people in the time of need. He has the courage of his convictions, is a man of much experience, is well informed on matters pertaining to that office, is honest and courteous, knows the rights of his people and will dare maintain them. With the exception of Gov. Lanham, he is the only official who ever favored Callahan county with an appointment. With these qualities to commend him, he will be before the people as such candidate. C. E. GILBERT.

RAILROAD SURVEYING.

Amarillo and southern Construction Company are Selecting Route.

The engineering corps of the Amarillo and Southern Construction Company is in the city and until the weather clears is camped near the Santa Fe depot. The Amarillo and Southern is the Company promoted by C. L. Talmage of Chicago, James E. Caldwell, president of the South-western Telephone Company, Major Stillman, of the Nashville Banner, and others. The engineers are running two lines from Canyon City. They have been in the field since July working on the northern end of the lines. Two surveys have been made, one runs from Canyon City almost south to the north-west corner of Borden, Seury and Nolan to Roscoe on the Texas & Pacific. The eastern survey runs from Canyon through Swisher, Floyd, Dickens, Kent, Stonewall, Fisher and Jones counties to Abilene and through Taylor to a point in Callahan county about Dudley.

The engineering corps will now make a survey up the Pecos Valley and a survey will likely be made from Roscoe to Ballinger, Coleman or Brownwood before final reports are submitted.

When this work is completed, then this section may look for some railroad propositions for these people are in earnest about their work and evidently have the promise of sufficient backing to successfully carry forward their work. A glance at the map and a look at the rich territory to be developed by such a road creates surprise that it has not been built long ago. Brownwood will await developments with much interest and at the proper time will no doubt be found ready to its required part to aid the enterprise.—Brownwood Bulletin.

From the flood of local option bills in the present legislature the present local option law, once fondly supposed to be a complete solution of the liquor question, has proven a failure. 'Twas ever thus.

News now comes from Russia that the riots there were greatly exaggerated for political effect. In place of thousands being killed and tens of thousands wounded it is now claimed that only about one hundred were killed and four hundred wounded. That was bad enough, but it is some satisfaction to know that it is not as bad as first reported.

The press, or a certain portion of it, is ripping State Treasurer John Robbins up the back because he opposes the bill forbidding nepotism. There is a deal of hot air in this nepotism howl. The fight was made against Robbins because he employed some members of his family in the treasury department, and as he won out by the largest majority of state officers, save one, he naturally feels that the people are with him. Why not?

The Abilene Reporter seems to think it necessary to defend Senator Cockrell, because THE STAR said it was hard for even as good a man as the Senator to quit office after feeding at the public crib for thirty years. The Reporter says Senator Cockrell earned his salary just as the editor of THE STAR earns his, etc. Certainly, no one denies that, at least THE STAR does not, and, by the way, THE STAR does not yield to the Reporter or any one else in admiration for the Missouri senator, but we stated a well known fact when we said that it was almost impossible for an office holder to voluntarily retire after a long term in office. The fact that they earn their salary has nothing to do with the question of long terms in office. Had Senator Cockrell devoted as much energy and ability to some private occupation as he has as senator he would not now feel it necessary to accept an office from a political opponent.

DIED.

Died at his home in Abilene Texas, December 18th, 1904, W. R. Harral, aged 61 years.

Mr. Harral was the son of Doctor Edward Harral, who was surgeon on Gen'l. Gaines' staff, with the rank of Major, during the Indian wars in Florida, and was born and reared in New Orleans, moved to Fort Bend county, Texas, in 1863; from which place he volunteered at the age of 17 in Company H. 3rd Regiment Texas Infantry, and saw active service until honorably discharged in May 1865 at Houston, Texas, by Gen'l. Magruder.

In 1872 he married Miss Alene D. Anderson, daughter of Major T. G. Anderson, of Jefferson, Texas, who with four sons and one daughter, survives him.

Whereas, from the above it appears that Comrade Harral has filled out the full measure of the years assigned him by Providence, and that he has answered the "Last Roll," and has entered the "Silent Bivouac" of the dead:

Therefore be it resolved, That Camp Albert Sidney Johnston No. 654 U. C. V., at Baird, Texas, while bowing to the will of Providence deeply deplore in his death, the loss of a true, upright and courageous member.

Resolved, that this Camp tenders to his bereaved wife, and fatherless children, its sincerest sympathy in this their hour of great distress; assuring them, that he with his soldierly instinct, is but their advance guard to that home where time has no limit.

Resolved, that each member of this Camp shall wear his "Cross of Honor" draped in mourning, for the period of thirty days, as evidence of our grief.

Resolved, that a copy of these resolutions be spread upon the minutes of the Camp, and that the Adjutant be instructed to furnish a copy to the bereaved family, and that he also furnish a copy to the Confederate Veteran and the local press for publication.

Respectfully submitted,

- R. E. WATKIN, JOHN TRENT, W. I. CAPPS, W. C. POWELL, S. T. FRASER, Committee.

The Legislature being now in session the New Era hopes to be able to publish in the February issue some very decided improvements in the local option laws \* \* \*—New Era.

The laws as they stand now are all favorable to the pro side; what more do you want? If the pro get the laws just as they want them, and a Criminal Court of Appeals to construe these laws as they dictate the anti will have a regular Happy Hooligan time ever voting off prohibition when once established anywhere in Texas.

### When You Have a Cold.

The first action when you have a cold should be to relieve the lungs. This is best accomplished by the free use of Chamberlain's Cough Remedy. This Remedy liquefies the tough mucus and causes its expulsion from the air cells of the lungs, produces a free expectoration, and opens the sections. A complete cure soon follows. This remedy will cure a severe cold in less time than any other treatment and it leaves the system in a natural and healthy condition. It counteracts any tendency toward pneumonia. For sale by R. ### Perfect Confidence.

Where there is to be a feeling of uneasiness and worry in the household when a child showed symptoms of croup, there is now perfect confidence. This is owing to the uniform success of Chamberlain's Cough Remedy in the treatment of that disease. Mrs. M. I. Basford, of Poolesville, Md., in speaking of her experience in the use of that remedy says: "I have a world of confidence in Chamberlain's Cough Remedy for I have used it with perfect success. My child, Garland, is subject to severe attacks of croup and it always gives him prompt relief." For sale by R. Phillips, Baird, and Y. A. Orr, Putnam.
