Traffic Interrupted On Highway 287

Motorist traveling along U.S. Highway 287 between the communities of Childress and Memphis will notice detours, barriers and safety measures in place during road rehabilitation. The traveling public is advised to use caution west of the community of Estelline and east of Memphis during the next seven to eight

months. All vehicles traveling north on highway 287 from Estelline should be alert before rounding a curve and descending into the Red River valley, when nearing the bridge and roadway. All south-bound traffic lanes will be closed to the motoring public for approximately six miles.

Caution is required in this area due to all traffic using two-way, single lanes on the north-side roadway only. Passing will not be possible in the areas where traffic is limited to one lane. In the event of snow, ice or other inclement weather during the construction phase, extreme caution is advised. Bad weather limits visibility, vehicle traction and creates additional burdens and hazards for per-

sonnel working in the area.

Be alert for workers and reduced speed limits in this area as construction continues. The rebuilding of this roadway is scheduled to be completed by late August or early September of this year by contractor Gilvin & Terrill of Amarillo. Questions or concerns may be directed to Childress Area Engineer, Tim Weight P.E. of the Texas Department of Transportation (817) 937-2571.

**Loans for Small Businesses**

The First Bank and Trust is committed to our community. That includes the small businesses that are the backbone of our local economy.

Businesses have come to the First Bank and Trust for years. And for years we have worked together to build sound enterprises.

Businessmen and businesswomen have taken out loans for new facilities. They have enlarged their inventory and branched out into more profitable areas. And the First Bank was there to help.

But the bank has provided other valuable help as well. Loan officers have offered informal counseling that sharpened merchants' competitive skills. Bank people have suggested additional markets and other possible opportunities.

The bank is still committed to helping businesses grow, for as such businesses grow, they create new jobs, they bring new money into our community and ultimately they benefit all of us.

Social Security News

by Jim Talbot

SSI Celebrates 20th Anniversary

"This month, the Supplemental Security Income program, better known as SSI, joins the '20-something' crowd," according to Jim Talbot, Social Security manager in Amarillo.

"Many original SSI recipients had been on state assistance rolls before the federal program was established," Talbot said.

Although the SSI program was designed for needy people of all ages, more than half the original SSI population was 65 or older.

ment of SSI beneficiaries," Talbot said, "representing nearly three-fourths of all recipients.

Reaching out to potential beneficiaries in the Amarillo area is one of Talbot's goals.

Individuals who think they might be eligible for SSI can call the Amarillo Social Security office to discuss the program or set up an appointment to file for benefits.

Social Security Reviewing Disability Process

"The Social Security Administration has begun 'reengineering' its disability program. The goal is to streamline the process -- to ensure that proper decisions are reached in a timely manner," according to Jim Talbot.

Talbot said reengineering begins with a fundamental rethinking of the process that starts when an individual applies for disability benefits and ends when that individual receives a benefit or is found ineligible after completing all levels of administrative appeal.

An 18-member reengineering project team will develop proposals that will ensure dramatic improvements in the way the entire process works and is managed.

"The steps in determining disability have not changed significantly since the disability program began in the 1950's," Talbot said.

About 3 million people are expected to apply for disability benefits under the Social Security and Supplemental Security Income (SSI) disability programs in 1994.

To get a better idea of what the people expect when they apply for disability benefits, "focus group" meetings with people who

have been through the disability process are being held in various parts of the country. In addition, the reengineering project team is consulting with advocacy groups, caseworkers, and many of the Social Security employees who interview disability applicants daily.

Talbot noted that the review will not change the definition of disability, which requires individuals to be unable to do substantial work for a year or more to qualify for benefits.

The reengineering task force, established in October 1993, includes Social Security employees from all aspects of the disability process. The team is seeking suggestions and comments from everyone involved with or interested in disability issues.

An Internal Revenue Services (IRS) worksheet - IRS Notice 703 - comes with the benefit statement. "The worksheet shows you how to determine if your Social Security benefits are subject to tax," Talbot explained.

Beneficiaries who file an individual tax return may owe taxes on some of their benefits if their combined income exceed \$25,000.

1994 Social Security Taxes Increase for Some Taxpayers

Beginning January 1, 1994, the only taxpayers who will see an increase in their Social Security taxes are those who earn more than \$57,600.

Also beginning January 1, 1994, individuals who make more than \$60,600 will continue to pay the Medicare portion of the Social Security tax - 1.45 percent for wage earners and 2.9 percent for self-employed - on the rest of their earnings.

The amount of wages needed to earn one Social Security "credit" will be \$620 in 1994, up from \$590 in 1993.

Short-Term Railroad Workers Collect Social Security Benefits

"If you worked for the railroad industry, but not long enough to be eligible for an annuity when you're ready to retire, don't worry.

Generally, wages from railroad employment are not counted for Social Security if you had less than 10 years of railroad service," according to Jim Talbot.

Generally, wages from railroad employment are not counted for Social Security because railroad employees have a separate retirement system that is administered by the Railroad Retirement Board.

Social Security recently added Railroad earnings to the statements it provides individuals who want to check their earnings record or get an estimate of their Social Security benefits.

### Pathfinder Club Meets

The Pathfinder Club began their meeting, January 14, at 3 pm at Patching Club House with the members reading the Club Collect. Secretary read the minutes, there were three corrections. Tena Powell gave a treasurer report. Ruth Robinson read a note of thanks from Leslie Schnauer from fine arts department. Naomi Green reported that Pearl Hermesmeier had efficiently shopped for a Christmas basket sent to the Johnson family.

The President asked for a report from the nomination committee. Frankie Henson submitted the following: President, Jeanice Weatherly, Vice-President, Jo Shaller, Secretary-Reporter, Naomi Green, Treasurer, Sue Dunigan. Ruth Robinson made motion that nominations be approved and accepted by acclamation. Dorothy White seconded the motion. Motion carried.

Dauna Wilkerson from HICAP, (Health Insurance Counseling Advocacy Program) gave our program. This is a Volunteer Program by the Texas Department on Aging in Cooperation with Area Agency on Aging(AAA), Texas Department of Insurance and Texas Legal Service Center. She explained our responsibility as patients to monitor and file claims submitted from Doctors and Hospitals. She told of a need for volunteers to help locally with those in our community who are unable to file their own papers. She told of a hot line where we could call for Living Wills and Living Trusts suggesting the need to obtain these before they were a necessity. We discussed when to raise question with doctors about accepting Medicare assignments. She brought to our attention qualifications for SSI, QMB and a Grant program that assists in home repair and housekeeping for low income and handicap persons. This was a very informative program and we appreciate Dauna taking time to bring it to us.

Hostess Murle Butts, Naomi Green and Lucy Saye (who was in Denver-but did her part in advance) served a refreshment plate, coffee and almond tea to the following: Guest, Dauna Wilkerson and members: Edna Dishman, Sue Dunigan, Nita Manning, Frankie Henson, Tena Powell, Ruth Robinson, Jo Shaller, Mary Jane Smith, and Dorothy White. Everyone enjoyed a card signing for Polly Sarich who is in the hospital with surgery.

### Host Families Needed

Foreign High School Students will be arriving soon into the Clarendon area for homestays, and the sponsoring organization urgently needs more local host families for their upcoming second semester programs.

According to Pacific Intercultural Exchange (P.I.E.), Executive Director, John Doty, the students are all between the ages of 15 and 18 years, have their own spending money, are fully insured and are anxious to share their cultural experiences with their new American families. P.I.E. currently has programs to match almost every family's needs, ranging in length from a semester to a full academic year, where the students attend local high schools.

P.I.E. representatives match students with host families by finding common interests and lifestyles through an informal in-home meeting. Prospective host families are able to review students applications and select the "perfect match". As there are no "typical" host families, P.I.E. can fit a student into just about any situation, whether it be a single parent, a childless couple, a retired couple

### NO,

I have not completely quit repairing and/or selling vacuum cleaners. However, I have had to stop making house calls, except on rare occasions because I must stay close to home to take care of my wife, who has Parkinson's disease.

I have slowed down quite a bit, but I can still restore your vacuum cleaner, especially Kirby's, to give you maximum service.

Myson does the carpet and upholstery cleaning to your satisfaction. Just call John D. McVicker, (806) 874-3403 or stop by 119 Walleye Street in Howardwick. You'll be glad you did.
