PROBLEM HOUSE?

... with low foundation

... with concrete floors

... or with other construction features which prevent installation of usual flue-vented heating appliances?

... ask for House Heating Survey

House Heating specialists, ready now to help, survey construction details and layout of your home and recommend the correct flue-vented heating appliances.

After a scientific house heating survey, you can enjoy winter comfort, different as day from night, with what you may have experienced with unvented heaters.

Modern flue-vented heating appliances eliminate wall sweating and stuffy air. They bring healthful, low cost warmth to all your home. Moreover, modern flue-vented heating appliances complement fine home furnishings and decoration.

However, service of heating specialists is in great demand by early fall. So, if you want to free your home of wall sweating and stuffy air to enjoy the most comfortable winter you have ever known, ask for house heating survey today.

No cost or obligation.

Call your gas appliance dealer or Lone Star Gas Company today.

GASTEAM RADIATOR and CIR-CULATOR-two modern fluevented heating appliances. They can be installed where construction features prevent installation of other types of flue-vented

To The Tax Payers Of Callahan County:

POLL TAX INFORMATION FOR 1948

Since there is no poll tax assessed for the year 1948 it wil not show on the roll for that year, but it will be necessary for any one wishing to vote to pay poll tax when other taxes are paid.

Exemptions must be secured for a person becoming twenty-one after January 1, 1948.

A person becoming twenty-one years of age after January 1, of the year for which the poll tax was levied, may vote without a poll tax.

All persons who become sixty years of age after January 1, 1948, can vote without a poll tax and does not need to have an exemption.

We ask that you call attention to the poll tax when paying other tax.
