### Rattans & Risleys In Mexico City For Lions International

Mr. and Mrs. Dennis Rattan and Mr. and Mrs. Maurice Risley have recently returned from Mexico City where they attended the 55th International Lions Convention. There were approximately 35,000 fellow Lions and ladies in attendance representing 111 countries from over the world. After registering at the Hotel Maria Isabella, both couples spent several hours mingling with Lions from many states and foreign countries exchanging greetings and Lions Club Badges.

Among the highlights on the agenda were a 3 1/2 hour long International Parade where delegates from various states and countries marched down Reforma Blvd. The Flag Ceremony that evening held in the National Auditorium was very impressive. Flags were beautiful but local Lions could not help swelling with pride as the U. S. Flag was announced and recognized as being the Country that organized the Lions Club thus making Lions International possible. Our Flag received a standing ovation and the audience enthusiastically sang "our" National Anthem. The local Lions were especially privileged to be seated very near the President of Mexico who gave a warm "Welcome to Mexico" speech.

Some of the historical interests visited by the Clarendon Lions were the Tower of Latin America, University of Mexico, Floating Gardens, Pyramids of the Aztecs, National Museum of Anthropology, Maximilian's Chapultepec Castle, and the famous Zocalo where the National Cathedral and government offices are located. Also of interest were the Bullfights and the Ballet at the Beautiful Arts Auditorium.

New officers and directors for Lions International were elected the final day of the convention. Rattan is new boss Lion and Risley is Secretary of the Clarendon Lions Club.

### Community Meeting Planned For Thurs. Nite, 8:30, July 20

All citizens are urged to be present for a community meeting at the Community Action Center Thursday night, July 20, at 8:30 p.m. The purpose of the meeting is to discuss and clarify the Community Action Program. The Advisory Board made up of community citizens will be meeting at that time.

Mrs. Edna Osburn, local coordinator, will be present to answer any questions anyone may have in regard to the various programs with which she works, including the Immunization Clinic to be conducted. As you well know, all children must have their immunization before they can enter school.

Many in the community and this area do not understand the work done by this government program, or the benefits a community may receive through programs set up dependent upon the needs of the community. Through these programs our tax dollars have an opportunity to be returned to us and put to work in our community. We are asked to contribute only the building facility.

All citizens are invited to come by the Community Action Center located in the old Clarendon Food Store and see for yourself what goes on there.

In the immediate planning is the Immunization Clinic to be conducted by Helen Botsonis, Bi-County Nurse with the State Health Department; Planned Parenthood Clinic to be directed by Mrs. Karli Kaufman, from the Amarillo Planned Parenthood Clinic, and Vocational Training Classes. Applications are now being taken by Mrs. Osburn for these classes. She may be contacted by phoning 874-2573.

Make your plans to attend the Community Meeting and learn first hand the facts about the program. You will be given an opportunity to offer any criticism and problems will be discussed.

This is an area-wide campaign launched by the Kidney Foundation of the Texas Panhandle. It is hoped to establish a "Loan Closet" of machines to be available at no cost to area victims of kidney disease. Approximately 1,500 books are needed to purchase each machine. Please leave your stamps as soon as possible with Mrs. Harmon or at the Donley County Leader office.

Patches to be worn on blouses by Auxiliary workers are in and members may get their patch at the Tuesday meeting or by contacting Mrs. Harmon at the County Jail. The cost of the patch is \$1.

### Highlights and Sidelights

## State Capitol

By BILL BOYKIN  
Texas Press Association

Wide variance in election costs over the state have been pointed up by Secretary of State Bob Bullock in a recent report. Bullock said primary expenses ranged from 36 cents per voter (Democrats) in Travis County to \$4.83 (for Republicans) in El Paso County.

Some county chairmen managed a "thrifter" better-organized election, while others spent the maximum amount authorized, said the chief election officer.

"These figures have reaffirmed our belief that single polling places for both parties, with primaries financed through the county clerk's office, would be a positive step toward reducing our primary election costs," said Bullock.

Bullock noted this breakdown for major counties:

County	Cost per voter	GOP
Travis	36 Cents	\$2.50
Harris	61 cents	\$2.44
Tarrant	61 cents	\$1.83
Dallas	57 cents	\$1.94
Bexar	59 cents	\$2.65
El Paso	50 cents	\$4.83
Nueces	52 cents	\$4.48

Higher unit cost for Republicans is not surprising, due to the small size of the GOP primary, Bullock said.

In some counties, the Secretary of State complained, 400 voting machines were allowed where "half as many" probably would have done the job.

**COURTS SPEAK** — A U. S. Supreme Court decision holding the death penalty unconstitutional left uncertain the fate of

41 Texas prisoners on death row.

A federal court at Brownsville held five Texas laws used in labor disputes are unconstitutional and scored the role of Texas Rangers in a 1966-67 Starr County farm workers' strike.

The State Supreme Court next fall will hear arguments concerning the extent of a health insurance policyholder's rights in suits based on alleged misrepresentation in policy sales.

The High Court ruled Sun Oil Company has rights to use 100,000 gallons of water daily for injection of oil-bearing sands beneath a Hockley County tract to increase production.

Part of the value of medical and legal practices of divorced husbands can be held as community property for distribution to wives, the Supreme Court held.

The Court of Criminal Appeals ordered new trials for two men who had earlier received death sentences which had been overturned by the U. S. Supreme Court, and upheld Gov. Preston Smith's commutation of sentences for two others under similar circumstances. The Court affirmed a fifth death penalty.

The Third Court of Civil Appeals affirmed a trial court finding that a Travis County couple did not have sufficient mental capacity to understand the effects of deeding their homestead to a niece.

**NEW TRADE MISSION PLAN** — An August trade mission by 12 Texas industrialists to the South American cities of Sao Paulo and Rio de Janeiro is planned by the International Trade Division of Texas Industrial Commission for August 20-31.

The trip will emphasize these products as best export possibilities in South America: petrochemicals, chemicals, power equipment, construction and mining equipment, steel, graphics, industry equipment, machine textile machinery, transporta-

tion and communication and agriculture and food processing.

**FILIBUSTER MARK SET** — Sen. Mike McKool of Dallas cracked the world's filibuster record during the special legislative session, arguing 42 hours and 33 minutes for more funds to improve mental health-retardation services.

McKool's feat, which immobilized both houses of the legislature for nearly two days, may have thrown the session timetable out of kilter.

Indications are there is little hope of winding up work on the \$4.1 billion appropriations bill before Friday. Additional federal funds totalling nearly \$128 million apparently will be assured for welfare.

Senators scheduled a mid-week clash over adoption of new rules which include a controversial provision to authorize consideration of appointments by the governor in open session. Senators traditionally have done this work behind closed doors, and showed reluctance last week to depart from the old practice.

**HIGHWAY FUND IN JEOPARDY** — The entire Texas highway program is in jeopardy, Texas Highway Commission member Charles Simons told Texas Press Association at its summer meeting in Corpus Christi.

Simons warned the highway program is threatened by proposed environmental controls, raids on the federal highway trust fund, government reorganization, federal revenue sharing and bureaucratic red tape.

He said the federal government should finish the interstate system as pledged, then release to the states responsibility for collection of the special highway user taxes invoked in 1965 to establish the highway trust fund.

Simons expressed concern over schemes to divert trust fund revenues to build rail mass transit systems in the East and Midwest. He charged a proposal

for governmental reorganization is a move to "dominate the highway program and to divert highway user tax revenues to wild-eyed welfare and other socialistic schemes."

**BILLBOARD FORMS AVAILABLE** — Application blanks to erect billboards within 660 feet of highways are now available through Highway Department and city offices.

Sign permits are required under the new State Highway Beautification or billboard control act which went into effect last week.

Plans for enforcing sections of the billboard law dealing with illegal abandoned and non-conforming signs, junkyards and auto graveyards will be announced later.

**APPOINTMENTS** — Governor Smith appointed William A. Turner of Crockett, Dr. Warner A. Dunn of Nacogdoches and Charles Earl Nisbet of Lufkin to the Neches River Conservation District Board.

Dr. Louis H. Laesa, former Havana psychiatrist, has been named superintendent of Austin State Hospital.

### Market Tightened On "Restricted" Eggs

Shell eggs will come under the Egg Products Inspection Act as of July 1, 1972. This will bring a change in the marketing of "restricted" eggs, a move to protect the consumer. "Restricted" eggs consist of all checks, dirties, leakers, inedibles, incubator rejects and loss eggs, explains Dr. David B. Mellor, poultry marketing specialist with the Texas Agricultural Extension Service.

All checks and dirties must be shipped only to United States Department of Agriculture inspected egg processing plants for processing. All other restricted eggs must be destroyed or denatured so they cannot be used

Girl Scout summer camp started Sunday, July 9 for 2 weeks at Camp Cibola north of Clarendon with 70 girls and 20 leaders. Top left, checking in at waterfront, Mrs. Wayne Jones, director, in water, Barbara Whiteley and Jeri Bohlander, Pampa, Tim Saye (right) waterfront staff; 3 leaders in training, moving in, Karyn Keller, Fritch, Tracey McDaniel and Vickie Ronayne, Borger; At Trading Post, Loretta Willett, Debbie Thompson and Francita Hobbs, all from Borger; Top right—These covered wagon tents sleep four girls. for human consumption. The Texas A&M University specialist adds that restricted eggs will be monitored by the USDA at egg packing plants and hatcheries at least once every three months after July 1.

"All shell eggs used by businesses for meal preparation must be U. S. Grade B or better in quality. Texas Grade B or better would also meet this requirement. This does not mean that restaurants, bakeries and other institutions must use shell eggs," says Mellor. "However, if shell eggs are used, they must be Grade B or better." Not only are sellers prohibited from marketing restricted eggs, but users are prohibited from buying them. Thus, bakeries, restaurants and institutions will not be allowed to purchase checked or dirty eggs from any source, even a producer. The Food and Drug Administration will check the business users periodically to insure compliance with the law.

According to the specialist, there are four main exemptions to the federal law, providing these do not conflict with the Texas Egg Law. First, producers with 3,000 or fewer hens are exempted. However, even with this exemption, the market is limited because business users are prohibited from buying restricted eggs from any source. Those producers selling only their own production on premises or on an egg route directly to households are also exempt. So are egg packers selling directly to household consumers. The fourth exemption concerns producers who sell to a packer but do not sell eggs to consumers, retail stores, restaurants or institutions.

"The decision to bring shell eggs under the act was an action to protect the consumer," points out Mellor. "In the past, checks and dirties were available for sale to consumers at various businesses. Concern over sanitation and cleanliness resulted in this action."

## Palo Duro Canyon Quite Spectacular

When famed cattle baron Charles Goodnight brought his herd over a little rise in the Texas Panhandle in the 1870's he almost had a stampede on his hands.

The cattle were suddenly confronted by Palo Duro Canyon, and they panicked. In fact, the mules pulling the chuck wagon were so frightened that they nearly dumped the entire wagon, cook and all, into the 1,000 foot canyon.

Palo Duro Canyon, located 12 miles east of the City of Canyon, is indeed a spectacular site to behold after crossing mile after mile of the monotonous rolling plains of the Texas Panhandle.

The canyon is 120 miles long and is 40 miles wide at its mouth. Because of the canyon's breathtaking scenery and its colorful history, more than 15,000 acres of it have been made into a state park.

The canyon has been in the making for 90 million years through the action of wind and water on rock. At least four geological ages or eras are exposed by the canyon's eroded formations.

## Do You Understand Community Action Summer R-F Program

The Community Action Office reports that the attendance for the summer recreation and food program was down very low this past week. We know that the holiday, some working and vacation time explains part of the drop, but the program is being misrepresented around town and this is bad.

These programs are for the benefit of the citizens and our policy is not to force anything on anyone at any time. It is for everyone, no matter what color or creed he is.

Other programs through Community Action are ready for applicants, also another G.E.D. Class is being requested and we now have a qualified G.E.D. examiner in Donley County at Clarendon College.

## Social Security Benefits Increased

Social Security beneficiaries need not apply for the 20 percent benefit increase signed into law by President Nixon on July 1. Amarillo social security district manager Travis C. Briggs said today that all social security beneficiaries who are on the benefit rolls in September will receive the increase automatically.

The average monthly benefit for a retired worker goes up from \$134 to \$162; for a retired couple from \$224 to about \$271. A widowed mother with two children will receive an average social security benefit of about \$386, up from \$322. For a disabled worker with a wife and one or more children, the new average monthly payment will be about \$354, increased from \$295.

The special monthly payments that are made to certain individuals age 72 and over who are not insured for regular social security case benefits will also be increased by 20 percent, from \$48.30 to \$58.00 for an individual and from \$72.50 to \$87.00 for a couple.

The new law also includes a provision for automatic annual increases in social security benefits as the cost of living rises in the future — a recommendation made by President Nixon in his 1969 message on social security.

Under the new law the contribution and benefit base — the maximum amount of annual earnings that is counted for benefit and contribution purposes—will rise from the present \$9,000 a year to \$10,800 in 1973 and to \$12,000 in 1974.

Jim Risley spent the week end in Dumas where he visited a friend, David Harter. While there they enjoyed skiing at Lake Meredith Sunday.

Mr. and Mrs. Don Barker and children visited Sunday afternoon with her parents, Mr. and Mrs. E. V. Quattlebaum.

Mrs. Lillie Knox went to Amarillo Monday morning where she visited her sister-in-law, Mrs. Bessie Reynolds, returning home Tuesday afternoon. While there they also enjoyed shopping.

Tony and Jill Ann Wallace spent the week end with their grandmother, Mrs. Lillie Knox, while their parents celebrated their anniversary.

ness to the activities and recreational part of the program. A general discussion was conducted informally and it was agreed that all children should be taught and encouraged to respect others, be obedient, and cooperate in every way.

Monte Sowers, local Soil Conservationist, also was present to discuss the possibility of a park for that area of town. He suggested several programs that might be used and asked that information be assembled as to what would be available in the way of land etc to provide a matching fund for any government assistance for a park.

Tom Heatherley visited a few days with his parents, Mr. and Mrs. Tom Heatherley. He is moving from Torrance, California, to Kansas City, Mo.

Linda Smith of Guymon, Okla., spent the week end with her grandmother, Quata Phillips, and mother, Pa.

## Cost Was High To Hold Primary Polls

It costs anywhere from \$4.83 to 36c, depending on where you lived, to cast a vote in the two recent primary elections, Secretary of State Bob Bullock said Thursday.

"Some county chairmen simply managed a thrifter, better organized election," Bullock said, "while others spent the maximum amount authorized."

"In many of the latter instances, a county may have been allowed 400 voting machines, for example, but looking at the situation more realistically, half as many machines probably would have done the job."

Bullock said that the per voter cost was higher for Republicans than for Democrats. "That's only logical, though, since there are fewer Republicans."

Average costs per voter were figured on the basis of the largest vote-getting race. That was the gubernatorial race in both parties.

The \$4.83 total was what it cost Texans to pay for the Republican primary elections in El Paso County. El Paso County Democrats' per voter cost ran 50c.

In Travis County (Austin) on the other hand, it cost 36c per

## Democratic voter while the Republican individual vote tallied out at \$2.50.

"The wide variations indicate that some county chairmen were simply better organized. I compliment those county chairmen who reorganized the need for frugality in conducting our primaries."

"These figures have reaffirmed our belief that single polling places (for both parties), with the primaries financed through the county clerk's office, would be a positive step toward reducing our primary election costs," he said.

Mr. and Mrs. Tom Sullivan of Clarendon and Mrs. O. D. Mayo and Tammy of Berthoud, Colo., enjoyed a hamburger supper in the home of Mrs. Wes Sullivan.

Mrs. Edith Huff returned her grandchildren: Chantil, Bobby, Angela, and Kelli to their home and their mother, Mrs. Suzan Wiggins, in Vernon after a week-long visit.

Mr. and Mrs. B. L. Tolbert, Sr., had lunch with Mr. and Mrs. W. R. Wilkerson Sunday.

Robert Tolbert, Jr. and family visited Robert's grandmother from Amarillo, Texas Sunday.

### PRPC Grant To Aid In Law Enforcement

Panhandle Regional Planning Commission, Amarillo, was one of 26 regional and metropolitan area planning councils awarded criminal justice planning grants for fiscal year 1973 by Governor Preston Smith today. Amount was \$29,300.

The awards, totaling \$793,718, will come from the Criminal Justice Council, which oversees statewide law enforcement planning and administers funds from the U. S. Department of Justice for crime control projects in Texas.

The Panhandle grant will be

used in implementing action projects outlined in previous plans and in updating the comprehensive five-year criminal justice plan for the 25 counties of the Panhandle State Planning Region.

### Veteran News

Q—Are GI Bill educational assistance allowance benefits veterans receive from VA taxable?

A—No. The Internal Revenue Service does not consider these benefits income for tax purposes.

Q—I'm a 74 year old veteran on VA pension rolls. Is it true, as I have heard, that I will not receive an income questionnaire this November?

A—It's true. You will receive information with your November pension check explaining that pensioners 72 years old and older who have been on the rolls during two consecutive years are exempt from filing the questionnaires.

A—No. VA must pay the proceeds of GI insurance to the beneficiary named by the veteran.

Q—I am the widow of a veteran who died 14 months ago. Am I eligible for a VA allowance for his burial?

### Rural Development Commission Makes Plans... Acreage and Production Questionnaires To Be Mailed... Summer Time Is Turkey Time... Seed Meeting Planned...

### HOW TO IMPLEMENT

rural development was discussed at length by members of the Texas Rural Development Commission, holding only their second meeting since they were appointed by Governor Preston Smith. They met in the LBJ School of Public Affairs where they also heard Will Erwin, deputy undersecretary for rural development of the U.S. Department of Agriculture, discuss their jobs.

The 25-member State Commission is attacking rural development problems in eight areas: economic development, natural resources, human resources, general government, transportation, health, housing and education. Chairman Roy Davis of Lubbock has named committees to explore each category, and much of the Austin meeting was taken up in discussion of committee reports.

Raymond L. Prewett, formerly with the Texas A&M extension service, is director of the Texas Rural Development Commission, and Jim McAlister is planning officer. Their offices are in the John H. Reagan building in Austin adjoining Texas Department of Agriculture offices. The Texas Department of Agriculture is co-sponsor with the Governor's Office of the Texas Rural Development Commission.

### ABOUT 22,000 Texas farmers

will receive an acreage and production questionnaire during the early part of July from the Texas Crop and Livestock Reporting Service.

The information obtained will be the basis for determining harvested acreage production of early harvested crops for Texas and for each of the 254 counties in the state.

If you receive one of the questionnaires, please fill it out as accurately as possible and return as soon as possible. Farm programs are based on information supplied by the Crop and Livestock Reporting Service. Accurate information is essential so that an unbiased picture of Texas agriculture can be obtained. The information is also invaluable in planning production and marketing programs.

### SUMMER TIME

is Turkey Time, and the Texas Agricultural Products (TAP) program is promoting turkey for summertime good eating and good nutrition. A buyer's guide to Texas Turkey is available by writing to the Texas Department of Agriculture, Box 12847, Austin, Texas 78711.

Texas ranks fifth in total turkey production with 8,378,000 produced last year. Bell County is the number one turkey producing county in Texas with a total of 1,000,000 head grown out in 1971. Other leading counties are Gillespie, Hill, Blanco, DeWitt, McLennan, Eastland, Brown, Robertson, and Falls.

Per capita consumption of turkey is on a steady rise as producers continue to improve the quality of the product.

### A COMBINED

meeting of Southern Seed Certification officials and southern seed control officials as well as foundation seed personnel will be held July 11 to 14 at San Antonio. Fourteen states will be represented. Part of the meeting will be in the form of a tour of the Texas seed laboratory at Giddings.

A total of \$30,000,000 was appropriated for the nation under the Comprehensive Act for formula grants to the states.

### Tie-Downs Advocated For Mobile Homes

Mobile homes are like popcorn in a whirlwind when a major storm as a tornado, severe windstorm or hurricane strikes unless they are properly tied down. Owners of mobile homes dinnances pertaining to mobile home tie-downs. Ideally, the most effective way of ensuring proper safety measures would be to have some form of state law; however, until that time, all mobile home owners and trailer park managers are urged to install some sort of tie-downs for the safety of their residences." are advised to anchor their dwelling securely and take proper precautions prior to the storms.

All trailers should be securely anchored by means of high strength cable which can be attached at a nominal cost without detriment to the appearance of the mobile home. In addition to cables, mobile homes can be anchored by a clamp on the I-beam under the unit which can be sunk into trailer court foundations. This kind of protection could be ideally provided by the trailer court owners and builders. If it is done while the concrete is being poured the cost is negligible.

### Game, Park, Boat Questions Asked

Stockholders of corporations know that the time and place to ask questions of the board of directors is at scheduled meetings.

In between, they can get expert advice on company matters from sales managers, shop foremen and office heads.

It's the same with the Texas Parks and Wildlife Commission. The six members are all business and professional men who come together once every month in public meetings to serve without pay as the "board of directors" for the "corporation" which outdoor-minded Texans know as their Texas Parks and Wildlife Department. All who wish to be heard are free to speak to and question the Commission at these Austin meetings.

Routine matters, however, can almost always be handled at the local level.

Questions on boat registration, hunting and fishing licenses, park regulations, water safety laws and other department responsibilities should be made to field personnel.

District offices are located in 21 Texas cities, listed in most telephone directories under "Texas - State Of - Parks and Wildlife Dept." In most counties, local game management officers can be contacted through the County Courthouse or Sheriff's Office.

The whole purpose behind these phoney contests or "surveys" is to trick consumers into making purchases they usually regret later on. After all, the consumer didn't really even want the items in the first place . . . it was just that he "won" the chance for a good deal.

Often after a consumer claims the "free" prize or gift, he finds he must make some other purchase in order to be eligible. The resulting cost covers both items. In other cases, a "free prize" is sold with expensive companion items — such as yearbooks with "free encyclopedias," service policies or cabinets with "free sewing machines" or cost-of-postage only with "free" magazines.

Another scheme is to offer consumers a "free gift" or sample supply of a product. When the consumer accepts the gift offer, he is asked to sign a contract which, often without his knowledge, obligates him to purchase a certain amount of goods or services in the future.

Next time you win a free gift, remember — no one is in the business to give things away. If you have to buy something to get your gift, look at the offer with suspicion. Be a smart consumer.

Plans For Walleye Big With Department

Texas Parks and Wildlife Department biologists hope to stock as many as 10 million walleye in 1972 as a result of research since 1965.

Walleye are torpedo-shaped

perch imported from the northern states. Biologists stocked a half million of them in Lake Meredith in the Panhandle in 1965 and have been monitoring their progress.

Since the Lake Meredith stocking, other lakes have been added to the experiment, and last year one lake yielded some six-to-eight pound brood fish. There has been one confirmed report of a 12-pounder being caught.

Walleyes are now reproducing naturally, and anglers have had progressively better success each year.

Biologists report that the 1971 walleye catch by anglers was excellent and are optimistic about future stockings. Not only do the fish offer anglers sport, but they also seem to be cutting into the gizzard shad populations in the lakes.

### Rep. Tom Christian On Escort Committee

During Speaker's Day festivities in Austin Wednesday (July 5) State Rep. Tom Christian was honored to be among those on the Escort Committee for Former Speakers of the House of Representatives.

Speaker Rayford Price was honored by his colleagues in the traditional "Speaker's Day" ceremony. The House presented Price with a portrait of himself along with a plaque containing a gavel and the Seal of the State of Texas.

Speaking of Price's administration as Speaker, Rep. Christian stated, "It is gratifying to have been a part of the reform minded members of the House of Representatives who have changed the direction of the State government and taken it from a plane of power to a plateau of reason."

## Highlights and Sidelights

### FROM YOUR State Capitol

The Parks and Wildlife Commission handed one controversial issue back to the Attorney General and was handed another one by the Legislature.

PWC voted four-to-two to ask Atty. Gen. Crawford C. Martin to review and reconsider a May 26 ruling that a 1970 contract to purchase 3,965 acres of Mustang Island property for park development is a "binding obligation."

Martin's opinion, according to PWC Chairman Jack Stone of Wells, is expected in about a week.

The Mustang Island battle has raged from Austin to Washington and back through the federal courts and has figured in battles over Senate confirmation of PWC members.

Legislators, in special session, thwarted long-standing plans of the State Highway Department to build on a block near the capitol and governor's mansion.

Instead, the Legislature decreed, the Parks and Wildlife Department would purchase with \$1.5 million from its cigarette tax the barren, dusty block in downtown Austin and convert it into a park.

The highway department was directed to consider placing its plush new building elsewhere.

Neither agency, conceded legislative leaders, was deliriously happy with the arrangement.

Under the circumstances, however, neither seemed to have much choice.

GAME LAW FUSS CALMED—Texas game wardens will no longer enforce state game and fish laws near the mouth and jetties of the Sabine River, an area of disputed ownership with Louisiana.

Louisiana last month threatened to appeal to the U. S. Supreme Court Texas officers' attempts at enforcement in the area. Attorney General Martin informed Louisiana Atty. Gen. William J. Guste Jr. Texas will keep its commitments in the disputed areas of the Gulf south of the Sabine River Mouth.

The area was recently found by a Supreme Court-appointed master to belong to Texas, but Louisiana appealed the decision.

INFLATION STILL THREAT—Inflation is still a strong threat, though Texas is recovering from economic recession according to a University of Texas Bureau of Business Research study.

Unemployment remains high, says UT BBR, but estimated personal income rose nine per cent in the last year and bank deposits 10 per cent.

The unemployment level, frowned on by the Bureau, was 3.8 per cent in May, which is lower than the 4.1 per cent of a year ago and considerably below the national 5.9 per cent rate.

Consumer spending and residential construction were seen as strong. The rate of the consumer price index rose slowed somewhat after the presiden-

cial price freeze, BBR found. HIGHWAY DEPARTMENT WINS AWARD—Texas Highway Department received the National Safety Council Award of Honor for an outstanding occupational safety record during 1971.

"Less than five out of 1,000 of the nation's total number of work units meet the award of honor requirements," said Howard Pyle, National Safety Council president.

The Texas Highway Department got the award for a 52 per cent decrease in frequency and 42 per cent decrease in severity of accident rates of its employees last year.

TEXAS BEEF CATTLE LEADER — Texas is the nation's leader in all major categories of the beef cattle industry, Texas Agriculture Commissioner John C. White states.

The livestock industry in Texas is a \$2 billion industry, accounting for almost half the total agricultural income of the state. There were 12.8 million cattle and calves in Texas in January, more than five million head above second ranked Iowa.

Rankings by counties for livestock categories include the following (one through 10):

All cattle and calves: Deaf Smith, Parmer, Hansford, Castro, Swisher, Sherman, Randall, Ochiltree, Hale, and Hopkins.

Texas ranks second in the nation of slaughter plants, third in sheep and lamb slaughter, and 15th in hog slaughter.

DEMOCRATS AT MIAMI BEACH — One hundred and 30 Texas Democrats — most of them new to the party — were busy at Miami Beach this week, helping nominate a candidate for president.

Another 70 alternates were named to the convention.

The Texas delegates, headed by gubernatorial nominee Dolph Briscoe of Uvalde, are closely divided as to supporters of George McGovern and Hubert Humphrey.

TEXAS EXHIBIT PLANNED—A special Texas exhibit is planned at the fifth annual El Salvador International Trade Fair November 3-20.

The fair is one of the top trade exhibitions in Central America and attracts commercial firms from surrounding Central American states. Several Texas manufacturers have indicated an interest in sponsoring exhibits. The International Trade Division of the Texas Industrial Commission and the Texas Department of Agriculture are sponsoring the Texas exhibit.

FARMWORKER GRANT APPROVED — A \$2 million federal grant will provide classroom instruction and on-the-job training for migrant farmworkers.

Trainees from 19 counties will benefit under the one-year contracts with five project sponsors. Local agencies participating include Economic Opportunities Development Corporation of San Antonio (Atascosa, Bexar, Frio, Medina and Wilson counties); Community Action Agency of South Texas (Starr and Zapata counties); Coastal Bend Migrant Council (Duvall, Jim Wells, Kleberg, Nueces and San Patricio counties); Middle Rio Grande Development Council (Dimmit, LaSalle, Maverick, Uvalde, Val Verde and Zavala counties) and Laredo-Webb County Community Action Agency.

It's a good idea to divide home pools by depth lines. Swimmers who suddenly find themselves in over their heads may be in more than just deep water.

## Social Security

Q—I have several receipts from my doctor, but I have never completed a claim for Medicare reimbursement. Will the social security office help me do this?

A—Yes, we will be glad to help you. If you prefer that we help you in person, you should come to the social security office and bring your itemized bills and Medicare card along. Since many questions concerning Medicare can be answered by telephone, it may be that the help you need can be furnished if you simply call your social security office.

Q—I have completed my claim for Medicare reimbursement and I am ready to mail it in for payment. Does the social security office have to review it before I send it in?

A—No, the claim does not have to be reviewed by the social security office. However, if you are not sure whether it is correct and complete, you may take it to the social security office, where it will be reviewed and, if correct, it will be forwarded to the Medicare office.
