Pictured is the First Christian Church erected in 1895 and used until the present church building was completed in 1920. The church faced the east with Gothic windows along the north side. The congregation in the days when the first building was in use is pictured beside the building. Some of those in the picture include Mr. and Mrs. McMuttry, Mr. and Mrs. G. A. Anderson, Mr. and Mrs. Homer Mulkey, Mrs. Frank White, Sr. and perhaps there are others you can pick out. The picture was given to Paul Hancock, Minister, by G. A. Anderson, a long time member of the Christian Church and recently deceased.

## First Christian Church Celebrates 80th Anniversary Sunday, Nov. 19

Members of the First Christian Church will celebrate the 80th anniversary of the Church and hold their annual Thanksgiving dinner Sunday, November 19 marking the occasion with a special worship service at 10:50 a.m. to be followed by dinner in the Church basement. Special recognition will be paid Mrs. Frank White, Sr., holding the oldest and longest membership record. Also recognized will be Mrs. Homer Mulkey and Mr. Frank Lyle also holding long membership records. Mr. G. A. Anderson, recently deceased, would have received a similar recognition had he lived and been able to be present for this great occasion.

church building, gave the Christian group their first meeting place. With the growth of both groups it soon became necessary for the Christian group to build their own church and one day in 1895 the white wooden structure with Gothic windows facing into the Eastern morning sun became a reality at the corner of third and Gorst on the banks of Clarendon Creek where the present building stands.

Membership continued to grow as more settlers came into the area and in 1918 it was decided to build a new building. The present structure was completed in 1920. Today much of the furniture used in that first church is being used: the church pews, Communion Table, a roll top desk, and several chairs.

Women of the church rallied to help raise funds for the church and for many years they served the local Lions Club their weekly meal. Many faithful and consecrated pastors have served this church through the years and through the efforts of the church many worthwhile endeavors have been fulfilled. Boy Scout Troop 33 was organized and sponsored by the Christian Church and to this date continues to be so sponsored.

Rev. Paul Hancock, minister, will be in charge of services. The First Christian Church in Clarendon came about with the meeting on a Sunday morning in the autumn of the Thanksgiving season eight years before the turn of the century (1892) when a small group of Christian men, women, and children assembled together for the sole purpose of joining together for regular Christian worship. The Christian Church for New Clarendon was organized with 16 charter members under the direction of Rev. A. T. Nance.

The Bronchos will be playing for keeps when they host the Wheeler Mustangs in Broncho Stadium Friday night of this week. Should an upset occur and Wheeler defeat Clarendon, the Bronchos would then share District honors with Memphis though Clarendon defeated Memphis in an earlier game.

Coach Noonkester reported that injuries this week remain about the same as last week and the starting line up will be 7:30 p.m.

Play this Friday night may possibly determine coming games or could possibly result in a three way tie between Canadian, Fritch, and Stinnett. In the event of a tie involving those teams there would be a flip of the coin to see which team plays in Bi-District.

Let's all turn out and give the Bronchos and their coaches our full support. Let's go all the way this year.

URGE SAFER DRIVING

Over 50 per cent of all rural fatal accidents involve only one vehicle, says "Texans for Traffic Safety," and almost one-half of these are caused by a car running off the roadway. Whether the driver falls asleep, is drunk or loses control through carelessness, the end result may well be the same tragedy.

**Sale Of Carson City Silver Dollars Now**

The U. S. General Services Administration today launched the public sale of over two million valuable 19th century Carson City Silver Dollars.

Arthur F. Sampson, Head of GSA, said this initial sale will consist of coins minted in 1882, 1883, and 1884 at the Carson City, Nev., Mint which closed in 1893. They will have a minimum bid price of \$30.00 each. The public bid period will end next January 31.

"President Nixon wants every American to have an opportunity to own one of these historic silver dollars as a reminder of our National Heritage as we approach America's Bicentennial," Sampson said.

"Therefore, people should submit their bids before January 31. The higher the bid, of course, the better a person's chances of acquiring a coin. The next sale, incidentally, probably won't start until late next year."

The 90-percent silver coins, largely uncirculated, feature the head of Miss Liberty on one side and an eagle and a wreath with berries on the other. Under the wreath are the letters, "CC" for Carson City. That mint was the only one in U. S. history authorized to use a double mint mark.

GSA was authorized to sell the coins under the Bank Holding Company Act amendments signed by President Nixon in December 1970.

Sampson emphasized that any U. S. citizen can bid by mail or one coin from each of the three mint years at or above the minimum price. However, coins will be mailed only to ULSL or APO/FPO addresses.

The cost will include a handsome display case, a card explaining the coin's history and delivery by registered mail. Payment in advance will be required.

"The proceeds from the sale will go into the U. S. Treasury for the benefit of all citizens," Sampson said.

Order forms are now available at banks, savings and loans associations, credit unions, post offices, and Federal Information Centers across the country. Persons on the U. S. mint mailing list will automatically receive order forms.

Those not on the U. S. mint list can obtain an order form through the mail by sending a post card Carson City Silver Dollars General Services Administration Washington, D. C. 20405

"This is one of the most unusual sales ever conducted by the Federal Government and probably the most complex Consumer Marketing Program it has ever undertaken," Sampson said.

He explained that bids will be put in a GSA in San Francisco to ensure a fair sale and to list bidders in descending order so that top bidder will be assured of a coin. Only one coin from each of the three years may be bid upon.

"We want the coins to go to as many citizens as possible, and not fall into the hands of large dealers, speculators or Syndicates that might resell them at inflated prices," Sampson said.

"The Joint Commission on the coinage kept this in mind when it developed this plan. We believe the sale will enhance the value of coins already on the market and stimulate sales in the numismatic community by attracting new collectors."

After the winning bidders have been determined, each bidder will receive a summary explaining which coin or coins he won, the price and refund due, if any. Bidders will get their coins and/or refund checks between April and June 1, 1973.

If there are more orders than coins, the silver dollars will be sold first to the highest bidders, then to succeeding lower bidders until the \$30 base is reached. Remaining orders will be filled on a random basis, by computer, until the supply is exhausted.

The Veterans Administration says about 2.2 million veterans with service connected disabilities received 10 percent increases on their September compensation checks as a result of Public Law 92-328.

According to the Veterans Administration, nearly 10,000 wives and widows trained under its Dependents' Educational Assistance program in fiscal year 1972, an 8.7 percent increase over the previous year.

**Wheat Meetings Set For November 29-30**

Topics ranging from wheat production, grazing and marketing to farm programs and ecology will highlight two wheat meetings slated for Nov. 29-30 in Amarillo.

Each meeting will begin with registration at 9 a.m. at the Holiday Inn West, announces R. J. Hodges, agronomist for the Texas Agricultural Extension Service, which is sponsoring the meetings along with the Texas Wheat Producers Association (TWPA). Leo Witkowski of Hereford is president of the TWPA.

Three of the Extension Service's area income programs—Panhandle Economic Program, South Plains Development Program, Rolling Plains Economic Program — are also joint sponsors of the meetings.

A Wheat Symposium on the first day will feature discussions of the current wheat situation, ecology, insect, disease and weed control in wheat, wheat varieties, feed wheat, and grazing wheat and associated health problems of animals.

Among the keynote speakers will be Bill Nelson, executive vice president of the Texas Wheat Producers' Board, and Dr. L. S. (Bill) Pope, associate dean of agriculture at Texas A&M University. Also on hand will be Extension Service specialists and scientists with the Texas Agricultural Experiment Station. A consultant in feed wheat nutrition and a livestock and wheat producer will also be on the program.

The 22nd annual meeting of the TWPA on Nov. 30 will feature several outstanding speakers on the national scene, notes Hodges. Among these are Joe Halow, executive vice president of Great Plains Wheat, Inc., Washington, D. C. who will discuss the world wheat situation; Gene Moos, president of the National Association of Wheat Growers, will talk on farm programs and how they affect wheat farmers. Another speaker on wheat programs will be Victor A. Senecal with the Agricultural Stabilization Service, Washington, D. C.

A panel discussion that afternoon will feature the topic, "Transportation — The Key to Wheat Marketing."

All wheat producers, agribusinessmen and others interested in the wheat industry are invited to attend either or both of the programs, adds Hodges.

**The Informed Consumer**

by Attorney General Crawford Martin

Last week we discussed the principle of unit pricing. Open dating is a companion to unit pricing.

Open dating simply means that anyone going to the store can tell how long the product has been packaged. As with unit pricing, some Texas stores have voluntarily gone to the open dating system.

Many of you know perishable items such as milk, eggs and bread, as well as many other items, are dated as they are packaged. This date may be the date on which the product is to be picked up by the route man or it may be the actual date that the product is packaged.

For example, assume that milk has a shelf life of seven days. If milk is bottled on April 10th, it would be picked up from the store by the route man on April 17th. Either the date of the 10th or the 17th may be shown on the carton so long as the route man is familiar with the system and knows that the milk is to be picked up on April 17th. The markings are usually found at the top of the carton and are in code. Thus, in our example, if you purchase the milk on April 16th, you would get milk that had been in the grocery store for six days.

The same thing might be true of a loaf of bread. Bread of course has a shorter shelf life. Typically, dating of bread is done with different colored ties used to close the plastic bread containers. You might have a red tie for Monday, a green tie for Tuesday, a blue tie for Wednesday and so forth for each baking day of the week.

The route man knows that he is to pick up all blue tie loaves of bread on a certain day of the week. You as the consuming public, however, are not able to tell which loaf of bread is the freshest.

If you intend to use the product immediately, it would probably make no difference to you whether it had been on the shelf a short time or not. It would still be fresh when you used it. An example of this would be the purchase of a dozen eggs one morning to make an angel food cake that afternoon. Since the eggs would be used on the same day of their purchase you would not have the problem of spoilage. On the other hand, if you plan to keep the eggs a few days before using them you probably would want to get the freshest eggs available.

The next time you see your route man delivering some perishable item, you might ask him how his code works. By doing so you can assure yourself that you are an informed consumer. You will know that you are getting the freshest product available.

hunter making the kill. The note, or the regular tag if the hunter making the bag keeps all of the carcass, must accompany the meat until it reaches its final destination.

Texas Parks and Wildlife Department law enforcement officials interest "final destination" as the permanent residence of the hunter or a commercial processing plant.

The head must also remain with the carcass until it is finally processed. The law does not prevent a hunter from processing his deer in camp as long as the meat remains tagged until it reaches its final destination.

### Highlights and Sidelights FROM YOUR State Capitol

By BILL BOYKIN  
Texas Press Association

The State Legislature which convenes January 9 will be vastly different from the present one which has served through the 1971 regular and four special sessions.

There will be 77 new faces in the 150-member House and 15 new members of the 31-member Senate. (Five of the House newcomers have served before the 1971 session, and six present House members will be serving in the Senate.

Dolph Briscoe, of course, will succeed Preston Smith as governor, and Bill Hobby will pre-

side over the Senate, succeeding Lt. Ben Barnes. Rep. Price Daniel of Liberty will become Speaker of the House, replacing Rep. Rayford Price of Palestine.

Basically, the House is expected to be a more liberal body than the present one, and the new Senate considerably more conservative.

Republicans, women and blacks increased their strength in the House; and the GOP added one more senator, for a total of three. There will be 17 Republican state representatives — seven from Dallas, seven from Houston, two from San Antonio and one from Midland. GOP senators were elected in Dallas, Houston and Fort Worth.

The House, which now has a single woman member, will have five (including two blacks in January. Mrs. Betty Andujar of Fort Worth, wife of a physician, is the new woman senator. She is a Republican.

The Senate's only woman mem-

ber at present is Miss Barbara Jordan of Houston, a black liberal Democrat who was elected to Congress November 7. Black membership of the House will increase from two to eight.

**\$91.2 MILLION IN AID SOUGHT** — Governor Smith went to Washington last week in search of \$91.2 million in additional federal social service funding.

Texas has received \$34.8 million in federal matching funds for social services to eligible citizens during the fourth quarter of the 1972 fiscal year.

Smith argues people involved received the same services throughout the year, and the state is entitled to compensation for the first three quarters of fiscal 1972, as well as the last quarter.

The funding will be important in determining whether the next legislature will have to pass a substantial tax bill.

**TAX LINE CAN BE HELD** — Texas Research League predicts a major tax increase can be avoided next year if lawmakers can keep reasonable controls on spending.

Spending, says TRL, probably can be held within bounds of a \$750 million raise over the next two years — unless federal court rulings require sharp

increases in funds for public schools.

An increase in revenue from existing taxes is estimated at \$375 million. A \$40 million surplus is expected to be available at the end of the fiscal year, and federal revenue sharing may provide the state as much as \$315 million during the biennium, according to TRL. That is within \$20 million of the new spending projection.

Texas Highway Department is due to ask for a two-cents-a-gallon gasoline tax hike next year, which would add another \$70 million to key fund revenues in addition to earmarked road-building purposes.

**AG OPINIONS** — Atty. Gen. Crawford C. Martin declared unconstitutional a Johnson County system of compensating a justice of the peace \$4 only when he gets a conviction for a traffic violation.

In other recent opinions, Martin concluded:

Commissioners in counties less than 10,000 have authority to submit to an election the question of creating the office of tax assessor-collector and can appoint the official if approved.

Hiring of a private accounting firm of an Ector County commissioner by a 17-county Permian Basin Regional Planning Commission (of which Ector is a member) creates no conflict of interest.

Harris County Hospital District can employ chaplains in its hospitals as an "established

part of medical and hospital care."

Tyler State College may not purchase fire and extended coverage insurance on its buildings, but can pay for auto public liability coverage.

A four-wheel riding lawn mower used to mow grass on residential lots is not exempt from registration as an "implement of husbandry." Such a machine used to mow grass on highway right-of-ways does not have to be registered as a highway motor vehicle, however.

Where tax suits are dismissed for want of prosecution, without adjudication of costs, taxpayers are entitled to redemption certificates on payment of delinquent taxes, penalty and interest.

Motor carrier equipment operated entirely within the boundaries of a commercial zone established by the Railroad Commission is not operated under a certified carrier's certificate and need not be reported upon although employed in conjunction with regulated transportation.

Judges can be paid the difference between their salaries as district judges and the amount allowed a Court of Criminal Appeals Commissioner while serving in that capacity. Appointees as commissioner are also entitled to travel expenses to and from Austin and a \$25 per day expense allowance while serving.

**COURTS SPEAK** — A state law permitting landlords to seize property for non-payment of rent was declared unconstitutional by the Fifth U. S. Circuit Court of Appeals.

Texas Supreme Court held good will of a medical practice is not part of community property of a married couple.

The High Court held constitutional a statute under which a Nueces County woman seeks to recover as separate property damages for injuries sustained in a car-truck wreck.

Texas Court of Criminal Appeals ordered a new trial for a man convicted of murder who was not allowed to present testimony on the character of the shooting victim.

A Houston school teacher was awarded \$1.5 million in a suit against General Motors for a defective steering wheel that caused a wreck.

**APPOINTMENTS** — Jack R. Blackmon of Corpus Christi was named by Governor Smith as district judge of the 117th judicial district.

Smith designated Charles E. Simons of Dallas as chairman of the State Highway Commission. He succeeds Dewitt C. Greer, who will remain on the commission. Simons has been serving on the commission for more than a year.

The Governor also named Jim J. Hatcher of Gainesville as 235th judicial district attorney; Dr. A. J. Gill of Dallas to the advisory hospital council; and Mrs. LaVerne A. Dobbs of Houston, Judge Martin Dies Jr. of Beaumont and Richard Morehead of Austin to the Texas Civil Justice Council.

**USDA Reports From Cotton Classing Office**

The Memphis, Texas seasonal cotton classing office of the USDA, Agriculture Marketing Service, opened October 30, 1972, but rains held up harvest until this week according to W. E. Cain, in charge.

The Memphis office classed 2875 samples this week to bring the season total to 2900.

Grades improved late this week as cotton dried out and ginned better. The predominant grade was Strict low Middling Light Spot (42) with 44 percent. White grades accounted for 40 percent.

The predominant staple was 32 with 38 percent followed by staple 31 with 35 percent and staples 30 and 33, each with 11 percent.

Micronaire reading showed 79 percent miked in the 3.5 to 4.9 ranges and 10 percent miked 5.0 and above. The 3.3 to 3.4 range

accounted for 9 percent. The 3.0 to 3.2 range accounted for 5 percent.

Pressley tests showed 92 percent of the samples tested 75,000 psi or higher.

The cotton market is very slow due to limited innings to date. Demand is good for better grades, and staples, miking 3.5 to 4.9. Demand for lower grades and mikes is weak. Prices offered are about 300 points over loan for qualities in demand.

**RAIDERS FINAL GAME OF SEASON AT LUBBOCK**
