MEMBER OF
PANHANDLE PRESS ASSOCIATION

JOE J. TAYLOR IN STATE PRESS COMMENT.

The following appeared Wednesday in the Dallas News in the "State Press" section:

Donley County Leader (Clarendon): We hear a lot about "foreignisms" these days. Admittedly, all are a menace to what little liberty Americans have left. But did you know that taxes have been increased by our lawmakers of Texas to the point that all the taxes collected in this state the last year are greater than the value of the field, nonfield crops, wool and mohair and cash income from cattle for the same year? We have something sapping our liberties right here at home that, for the moment, is greater than the damnable ideas being imported from other nations where living is practically intolerable.

"The theory is that our country is rich and can stand any sort of expense or extravagance. It is an unsound theory. No country is in fact richer than its citizens. There may be gold in the hills, rich grasses on the plains, big trees in the forests and great crops in the fields. But if the people en masse are poor the country is poor. The surest way to make the masses poor is to tax them into poverty. Heavy taxation discourages enterprise, stunts employment, reduces individual and collective strength. There are many who think the collection of taxes and their expenditure tends to offset the damage

done to taxpayers. But not so. Good works are performed through tax uses, and the distribution of tax money helps continue what is called business. But it remains true that the mill never grinds with water gone over the dam. It has to depend on the water to come downstream. When people can earn and obtain money to be used as they see fit they are prosperous. When they can earn and obtain only in order that the tax collector may collect and spend the people are poor."

EX-SERVICE MEN ARE GIVEN WORK PREFERENCE

AUSTIN, Texas, Nov. 10.—The 46th Regular Session of the Texas Legislature passed Senate Bill 190, which requires all State Departments to give preference to ex-service men to the extent that not less than ten percent of the total number of employees in each department shall be selected from those given preference in the Act.

The State Highway Department has made a complete check of its employees and finds that 10.3 percent are ex-service men, or a little more than the number set out in Senate Bill 190.

Among the Amarillo visitors Monday were John Heathington, Mr. and Mrs. H. L. Warner and daughter, Mrs. J. K. Morton and Mrs. Claude Morton and J. C. McCauley.

1098 Murdered In Traffic War

Many More Are Injured In First Nine Months Of This Year

AUSTIN, Nov. 12.—The State Highway Engineer reports that: "A summary of motor vehicle fatalities for the first nine months of this year shows 1,098 deaths as compared to 1,148 during the same period of 1938, a reduction of 50, or 4.4 per cent.

"Two Hundred Forty Seven of these fatalities occurred in cities of over 2,500 population; Sixty Six in cities of less than 2,500; One Hundred Thirty Six on county roads not a part of the Highway System, and Six Hundred Forty Nine on highways."

This reduction is attributed to the fine cooperation being evidenced by motor vehicle operators in the observance of traffic control regulations, such as center and restricting stripes, signs and signals, dimming headlights at night, and other regulatory measures.

The Highway Engineer further comments, "It is my firm conviction that a greater percentage of our highway users want and are demanding safety upon our highways and they are anxious to do their part to that end. We must prosecute an unceasing campaign of education to teach operators how to utilize the safety features we are building into our highways."

IMPROVED CONDITIONS SHOW LARGER TRUCK-CAR SALES

INDIANAPOLIS, Nov. 12.—Prospects for substantial gains in the sale of commercial cars and trucks are better than for several years, 200 members of Chevrolet's wholesale truck organization were told today by members of the Central Office staff who addressed the company's two-day truck convention, just concluded here. Regional and zone truck managers and their assistants, from all over the United States, attended the meetings.

T. H. Keating, assistant general sales manager, W. E. Fish, truck sales manager, A. R. Cosgrove, F. L. McClure, F. W. Fleischmann, J. W. Burke, and G. J. Metzger of Mr. Fish's staff, and E. F. Hayes, Chevrolet retail sales promotion manager, were among those who discussed the various phases of truck activity for the

coming year. Chevrolet's truck sales of 165,000 units in 1939 will be exceeded in 1940, in the opinion of Mr. Fish, who marshalled an array of favorable business factors to support that view: Business in general is in need of vehicles, not only for replacement but for extension of existing facilities, he said, and Chevrolet's record in the hands of users is such as to assure a large share of this volume.

Mr. Fish also cited the agricultural outlook as basis for his conviction that the coming months will see steady gains in the sales of commercial units. To meet the requirements which it anticipates, he said, Chevrolet is providing the most comprehensive and diversified line of trucks in its history.

CAR OWNERS ADVISED TO REGISTER RIGHT CAR NUMBERS

AUSTIN, No. 14.—Because car owners, in many instances, neglect to register their vehicles with proper motor numbers there may be questions raised as to ownership, state police officials warned today.

The problem rose after several applications for certificates of title contained identical motor numbers which were discovered to be parts and frame numbers. Ralph L. Buell, Chief of the Certificate of Title Section, which administers the newest motor vehicle act, said he learned from registration receipts that, in one instance, 21 automobiles of the same make have been registered under the same motor number. Investigations revealed that the owners have registered their cars with wrong numbers.

"In another case," Buell said, "an automobile had been registered three times under that many different motor numbers. Because of the fact

that the motor number of a vehicle is its principal identifying mark, there may be confusion in the event of a test of ownership."

Motor numbers are the major clues in searches for stolen cars as thieves often remove license plates in an effort to escape detection, state police said. Under the certificate of title law definite proof of ownership is established before state police issue titles.

PROMOTION.

Then there is the professional baseball player who recommends sawdust and goober hulls as a breakfast food—for a price.

ORNAMENTATION.

Bachelor Bill, just back from Dallas where he went to interview a widow whose acquaintance he had learned through correspondence, bore a disgusted look as he got off here. "How did she look," quipped up old Hasoon Yazzie who thinks it no disgrace to be ignorant provided you do not say that way. "Well sir," drawled old Bill, "Looked like tar on her eyelashes, over ripe tomatoes slushed on her cheeks, pokeberry juice on her lips, and she had claws like a lobster!"

STUDENT FLYING FIELD AT WEST TEXAS COLLEGE

CANYON, Nov. 9.—Dr. J. A. Hill has announced leasing by West Texas State College of a half section of land 2 miles north of Canyon as the laboratory flying field for the Civilian Pilot Training program now under way here.

The lease is for 1½ years, subject to renewal, and is an arrangement with Wilson Campbell of Canyon, the

holder of the lease on the Jacobsen property. A hangar will be built on the property by Amarillo Air Service, which is headed by Thornton Oxnard. Mr. Oxnard and associates will begin flying instruction immediately in connection with their federal contract. Twenty students are taking the course. Ground training is being given by Supt. J. W. Reid of Dumas, who comes here twice a week. He is a former Army pilot.

Mr. and Mrs. Noah Meade and children of Vernon were here for the Homecoming.

CLAMPITTS SELLING FINE LOT OF SHADE TREES

There is an art in growing good trees, judging from the appearance of those being offered for sale by D. W. Clampitt & Son at this time. The trees were grown to the rear of the elder Clampitt's home. Beginning early to prune, the trees have taken on fine shape with no ugly scars, and are straight, just right for yard planting. Those in need of native grown stock, will do well to see them.

We welcome the opportunity to publish this statement of interest to his friends in Clarendon and Donley County about Mr. Bagby.

We Salute
GEO. B. BAGBY
Our
Leading Producer
Who Had

A Gain of \$100,000.00 in 1939

We salute George B. Bagby because again he was our leading producer in 1939; and because, during the fiscal year which ended October 30, he wrote \$100,000.00 more life insurance than during the previous year.

Despite unsettled business conditions due to the war and dry weather, his 1939 production totaled \$435,955.00 of delivered and paid-for business. He sent in 332 applications during the year, an average of more than one application for every working day in the year.

Not only was he our leading producer for the year, competing with more than 500 Agents, he won first honors in every competitive contest in which the Agents engaged. He has been the leader in the Master's Club since it was organized. As Chairman of the Agents' Advisory Board, early in 1938 he was elected a Director of the Company and was re-elected a Director at the annual meeting in 1939.

Throughout our eleven years of association with Mr. Bagby, we have been impressed with the fact that he is a good citizen and a good business man. He has caught the vision of Life Insurance as a great social and humanitarian force; and his sustained leadership is attributable to the fact that he serves his clients as conscientiously as he would members of his own family, counseling them and assisting them in working out their Life Insurance programs in a manner to best fit their needs.

George Bagby, we salute you. Your human qualities and your business acumen are a constant source of inspiration to all of us.

Sincerely,

Vice-Pres. and General Mgr.

TEXAS OUT-O-DOORS

AUSTIN, Nov. 16.—A primitive battle for existence is taking place in the wooded sections of Texas, biologists of the Texas Game, Fish and Oyster Commission discovered during a survey of squirrels. It is a fight, apparently to the finish, between the red or fox squirrels and the cat or gray squirrels. The reds are winning.

The fight is for possession of the range remaining. Sportsmen probably will be pulling for the cat squirrel to stage a comeback, but they apparently are backing the loser at this stage of the battle for the fox squirrel is moving into much of the country over which the cat squirrels formerly ranged. The gray nut-eaters are considered by the majority of hunters the best game animal of the two. Thinning of the woods makes the range more suitable for red squirrels. Game Department technicians have found, and therein lies the story of the advantage the reds have over the grays. The ratio is believed to be one gray squirrel for every ten reds except in some sections where there has been little cutting of timber. There the cat squirrels still outnumber the reds about ten to two.

LAWYERS PAY FINES WHEN SHOOTING FROM HIGHWAY

An argument as to which was the best shot proved costly recently for a couple of prominent young Beaumont attorneys. To settle the argument as to who was the best shot, they drove their car to a side road near Beaumont to shoot it out. They had driven only a short distance before they saw a couple of doves sitting in a tree. Two shots were fired by the driver of the car and he missed. Then the other attorney stuck his gun out the car window, but when he looked down the barrel of it he was face to face with a state game warden. In court the lawyers paid off \$72. Moral—don't choose public roads and shoot from a car to settle a bet as to who is the best shot—or for any other reason.

Finest Stars In Filmdom Appear With "Mr. Smith" at Pastime Wed.

Recently, nine major Hollywood companies virtually halted all production, or re-arranged their schedules so as to "shoot around" some of Hollywood's most important stars.

Ordinarily, an "all-star" cast means a cast which includes one, two or sometimes three stars; the other players are well-known "bit" or character actors. But when Frank Capra makes a picture, his "all-star" cast is just that. And Frank Capra's production of Columbia's stirring "Mr. Smith Goes to Washington" required the services of a Hollywood Who's Who, somewhat to the embarrassment of Hollywood's studio managers.

"Mr. Smith Goes to Washington," co-starring Jean Arthur and James Stewart at the Pastime Theatre, is a tour de force in the field of comedy drama, telling the story of a typical small-town youth who is suddenly, surprisingly appointed to the United States Senate. Miss Arthur is expertly cast as the senatorial secretary who first laughs at Stewart—"Mr. Smith"—then, learning to love him, helps him meet the dramatic consequences of his going to the capital.

Miss Arthur and Stewart alone would be an "all-star cast" as well as

a guarantee of exciting romantic entertainment to those who remember their 1st picture together, "You Can't Take It With You," also created by Capra. Yet, in other important roles Hollywood's master director cast the following gallery of stars:

Edward Arnold, as a political boss; Thomas Mitchell, Washington correspondent; Claude Rains, U. S. Senator; Guy Kibbee, a state governor; Ruth Donnelly, Kibbee's wife; Eugene Pallette, a political hireling; Beulah Bondi, Stewart's mother; Astrid Allwyn, Rains' daughter; H. B. Warner, Grant Mitchell, Porter Hall and Pierre Watkins, U. S. Senators; and Harry Carey, a Vice President of the United States; and thousands of extra players being utilized in a fast-moving, laugh-laden, dramatic story.

VISIT IN DALLAS

Dr. and Mrs. C. G. Stricklin and daughter, Beverly Gray, spent the week end in Dallas. The ladies spent the time with relatives and the doctor saw the Texas-Baylor football game at Waco Saturday. They returned home Sunday.

"Mr. Smith Goes to Washington," and promptly discovers Jean Arthur is one of the more delightful views in the nation's capital! "Mr. Smith" is James Stewart, and the two are co-starred at the Pastime Theatre in Frank Capra's stirring new romantic comedy of an earnest boy who suddenly is appointed to the United States Senate.

Rathjen Store Has Good Run

Since the announcement of closing out sale last week, the Rathjen shoe store has had a steady stream of buyers taking advantage of the reduced prices on shoes, Fred W. Rathjen stated today.

The sale will continue, he said, until the entire stock is sold. First buyers getting the best choice of values since all shoes are being sold at a ridiculously low price to move them.

A number of buyers are from a distance. Those who come buy because of the exceptional values offered. Mr. Rathjen has another advertisement in the Leader this week. There is no "ballooning" about the sale. No misleading statements. Mr. Rathjen makes his people a simple statement that they have learned to believe through his dealings of more than thirty years.

Miss Ruby Lee Landers of Amarillo spent the week end with her parents.

Bagby Leads In Insurance Field

Wins Over Five Hundred Agents in Four States

George B. Bagby, of Clarendon, not only was the leading producer of the United Fidelity Life Insurance Company for 1939, but increased his production \$100,000.00 over the previous year.

This announcement has just been released in Dallas by D. Easley Waggoner, vice-president and general manager of the Company, following final tabulations of the production records of the Company's more than 500 agents in Texas, Oklahoma, Arkansas and California. Mr. Bagby's record production was for the fiscal year closing October 30.

"During the year, Mr. Bagby had a production of \$435,955.00 of delivered and paid for business," Mr. Waggoner said. "He sent in a total of 332 applications, an average of more than one application for every working day in the year. He won first honors in every competitive contest in which the Agents engaged, and has been the leader in the Master's Club since it was organized. As Chairman of the Agents' Advisory Board, early in 1938 he was elected a Director of the Company and was re-elected a Director at the annual meeting in 1939. Throughout his eleven years as an agent, Mr. Bagby has been the leader, testimony of the fact that he is a good business man and a good citizen; and that he has caught the vision of life insurance as a great and humanitarian force."

The United Fidelity Life Insurance Company is an old line, legal reserve Texas home company with assets of approximately \$6,500,000.00. The Company has more than \$47,000,000.00 of insurance in force. The Company has paid to policyholders and beneficiaries, since organization in 1920, \$5,064,193.37.

JUDGE KING SPEAKS TO F. F. A. MEMBERS

Judge R. Y. King was the principal speaker at the regular meeting of the local chapter on the night of November 8th. Judge King told the forty five members present that he believed that F.F.A. work was one of the most important movements ever made to aid in the "Back to the Farm Move" advocated by many. He complimented the members on their ability in parliamentary procedure stating that this work would help them in later life in holding various farm meetings. He urged the youths to continue their organization after they have finished school in order to perfect a better organization among farmers.

BILLIE RUTH BULMAN ELECTED F. F. A. SWEETHEART
