Parents and their children's education
Primarily, God holds parents, not the churches nor the government responsible for the education of

their children. This the Bible teaches, is true both spiritually and academically. Joshua said, "As for me and my house, we will serve the Lord." (Joshua 24:15). The apostle Paul said, "And, ye fathers, provoke not your children to wrath; but bring them up in the nurture and admonition of the Lord" (Ephesians 6:4). (Also see Deuteronomy 6:1-9; Psalms 78:1-8; Psalms 127:1-5; Isaiah 28:9-13).

J. Edgar Hoover said, "There is but one way to eliminate juvenile delinquency—that is by providing each child in America with competent parents." God-fearing and Bible-trained parents are desperately needed by the children in America.

According to the Research Analyst newsletter, Longview, Texas, the nineteen million high school students in America are in trouble. "Already 15% of the 65 million people under 18 have

serious mental or emotional problems. Last year, one of every ten teenage girls got pregnant. The federal government estimates that there are now 3.3 million problem drinkers between the ages of 14 and 17. Suicide is the second greatest killer among high school students. Violence is steadily on the rise. Trends say that this will not only continue, but will increase."

The answers still must be found in the Word of God and the application of its principles. Parents, "Wake up!"

Funds available for job training in County

Governor Mark White announced today that \$1,115,070 will be used for job training programs for economically disadvantaged, unemployed, and underemployed Texans in the Panhandle area. The Governor has approved the expenditure of these funds for job training programs in Armstrong, Briscoe, Carson, Castro, Collingsworth, Dallam, Deaf Smith, Donley, Gray, Hall, Hansford, Hartley, Hemphill, Hutchinson, Lipscomb, Moore, Ochiltree, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, and Wheeler Counties. The Texas Department of Community Affairs has executed a contract effective July 1 for the provision of a job training program under the Job Training Partnership Act (JTPA).

"The Job Training Partnership Act is a catalyst for integrating the private and public sector in developing skills needed by Texans for productive employment and economic self-sufficiency," Governor White said.

Under the Job Training Partnership Act, local elected officials in partnership with private industry councils, composed of business and community representatives, plan and provide programs best suited for residents of their area. Program services include basic education skills training and job placement.

Wedding music was played by Valerie Ashcraft and vocalist was Jim Shadle.

The ceremony was performed at three o'clock in the afternoon on

Saturday, August 4th against a background of white candelabras with white tapers arrayed with rose carnations and white cushion poms entwined with babys breath and greenery. Aisle candelabras lined the center pews.

The bride, given in marriage by her father, wore a full length gown of shimmering white taffeta with off the shoulder puffed sleeves. On each shoulder were dainty taffeta roses that trimmed the sash to cross over the bodice. The semi circular skirt was gathered and softly cinched at the waist cascading into

a full chapel swept train. Her full length chapel veil of illusion accented with seed pearls fell from a halo of stephanotes and babys breath. The bride's bouquet was a cascading arrangement of white roses.

The groom wore a white tuxedo jacket with black pants and white shirt with a mauve rose bow tie and cummerbund, and a red rose boutonniere.

The bridesmaids wore identical tea length dresses of moire taffeta with puffed sleeves and a fitted bodice with a heartshaped neckline. Each girl wore a halo of pink and mauve flowers with babys breath and carried a long stemmed red rose. The best man and groomsmen were attired in silver tuxedos and red rose boutonnieres.

Attending the bride as matron of honor was Tammy Kuhn of Clarendon. Bridesmaids were Briggett Spier, sister of the bride, Dondra Holland, Stefani Graham and Stacy Graham all of Clarendon.

Serving as best man was Bobby McLaughlin of Houston. Groomsmen were Billy Bently, Miguel Villarreal, Brad Brelsford and Kent Taylor, all of Houston.

Guests were seated by Scott Collier of Colorado Springs, Barry Osborne of Pampa, cousins of the groom and Mark Simmons of Canyon.

Serving as candlelighters were Nichole and NeAnne Spier, cousins of the bride, of Artesia, New Mexico. Flower girl was Meredith Shields and ring bearer was Brandon Shields, cousins of the bride, of Dallas, Texas.

The couple was honored with a reception at the Patching Club House immediately following the ceremony.

Kim Formway of Clarendon, registered guests for the wedding and served at the groom's table for the reception. Also serving at the groom's table was Dalyn Croslin of Clarendon. Serving at the bride's table were Kristen Walker, Linda Weatheron of Clarendon and Mykie Patterson of Amarillo, TX.

Following a wedding trip to Hawaii, the couple will reside in Lubbock, Texas, where the groom will be a senior mechanized agriculture major at Texas Tech and the bride will be a freshman at Tech this fall.

NOSEBLEEDS

The nose is the entrance to the lungs and, therefore, an important part of the body. Cold air is warmed as it passes through the nose and over its delicate membranes. The fine hairs within the nose prevent dust and pollution from reaching the lungs.

Nosebleeds are not an uncommon health problem and are especially plentiful during the hot, dry days of summer. Outdoor air causes the linings of the nostrils to crack, thus exposing open blood vessels. And in a similar manner the hot, dry indoor air and winter contribute to nosebleeds.

Petroleum jelly (petrolatum) is helpful in

prevention of night-time nosebleeds if a thin layer is applied in and around each nostril at bedtime. Use of a vaporizer in the bedroom is also beneficial.

Continuous pressure to the nose by pinching for 8 to 10 minutes usually stops nosebleeds. If bleeding continues, application of ice cubes wrapped in a cloth to the outside of the nose may be helpful in stopping of bleeding. When bleeding continues in spite of these simple procedures, medical attention should be sought. It is sometimes necessary for physicians to pack the nose with gauze and petrolatum to stop severe bleeding.

It is well-known that the United States has by far the most efficient and reliable transportation system in the world. Although Texas ranks only second among the states in geographic size, it boasts the largest road network in the nation: over a quarter of a million miles of roads, streets, and highways in 1982. Texas accounts for about 7% of the total roads nationwide, and Texas drivers do 8% of the nation's driving annually - 125 billion miles in 1982 and that total is increasing at a rate of 3 billion miles per year.

Folks, I need your help. To be eligible for the government grant that covers about half of our operation cost, we must keep records of various information. On July 25, 1984, a representative from the State Agency of Aging office did an evaluation performance on our center. We got a few black marks, now that we know what they are, we want to get these black marks erased by correcting the problems. Come by and get one of the forms to fill out. I will be glad to help you fill

it out. This information is for us to be able to help you in case of accident or emergency. The more information we have the better job we can do should someone get hurt or ill. Thank you all for your assistance.

We got it and we got it put up -- WHAT? -- Our tray slide. Thanks to Barney Baten and Fred Hamilton for going to Amarillo to pick it up. Thanks to Woody Argo, Charlie Norton and Fred Fortenberry for installing it. And everyone else that may have helped, we had several folks here. YOU are a great bunch of people. NOW -- we like \$40.00 getting it paid for. I'm sure when you see how helpful it is going to be, we will get that much real soon.

Forty-one "Fun After Fifty's" really enjoyed the day, Saturday, August 4, 1984. Saw two good films and had lots of good food.

Riders for peace bike through Clarendon

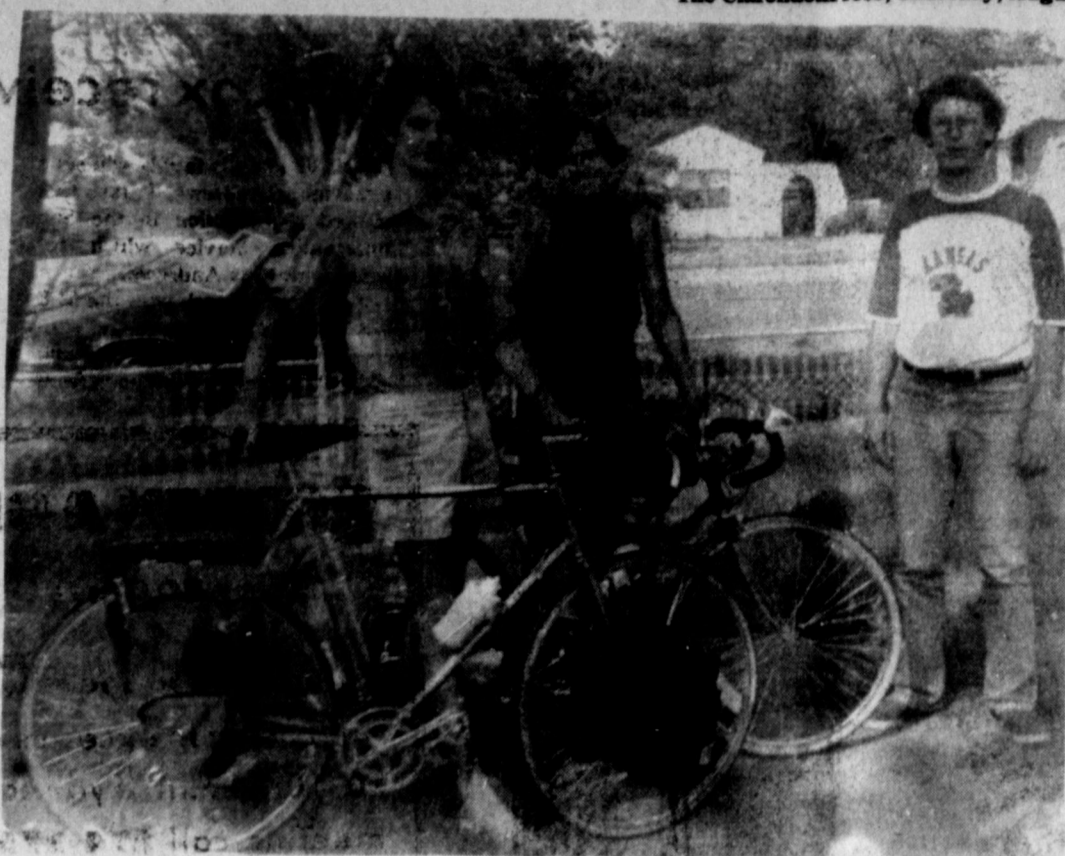

Three bicycle riders arrived in Clarendon, Thursday, August 2 on their way to a peace rally to be held at Pantex, August 6 to protest nuclear weapons. This date was chosen because it is the anniversary of the A-bomb being dropped on Hiroshima and Nagasaki, and is to remind the people of the destruction of those cities.

John Stesz, director of the Dallas Peace Center, which is a non-profit religious organization, is currently working on his PhD in Christian Education at Southern Methodist University.

Darryl Pendleton, a printer and part-time student at the University of Texas, Arlington, is the chairman of the Interreligious Task Force on Central America.

Robert Cecil is chairman of the Red River Alliance for Peace. His home town is Grandbury and he attends Austin College, Sherman.

They plan to meet other bike riders from Austin, Houston, San Antonio, Oklahoma City and Tulsa, OK, Santa Fe and Albuquerque, N.M. They will set up a peace camp outside the main gate of Pantex. Approximately 200-300 people are expected to attend the Pantex Pilgrimage rally.

They stated the general purpose of this peace witness is to draw attention that our nation does not need bombs, our nation needs progress in medicine, housing, jobs, agriculture, transportation,

education and environmental protection and to exchange ideas and pray together for peace.

Vehicle registration fees increased Aug. 1

Beginning August 1 vehicle license registration fees were increased, some even tripled the 1983 cost. And that is not the end of it - on January 1, 1985 another fee hike will be implemented, and another on January 1, 1986. However, vehicles six years old or older will not feel the increase so drastically. They may even pay less.

The hike in the license fees stems from July 13th action by Governor Mark White who signed House Bill 122 to increase fees on all vehicles and most trailers. The major change in fee structure is that passengers will only be classified according to age instead of weight, but weights must continue to be shown in titling.

The new license fees for passenger cars over six years old will be \$28.30 for those three to six years old, \$38.30, three years and under \$46.30. License fees for commercial pickups will increase \$12.50, farm pickups \$6.25, com-

binations trucks will go up \$25, and application for personalized plates will increase from \$10 to \$25, plus registration fee.

Registration fees for motorcycles and mopeds will be \$18.55, prorated monthly. Fees for token and farm trailers will remain the same - no increase.

August notification cards will be mailed starting the 6th.

The average American uses about 28 pounds of soap and detergents a year.

The Pledge of Allegiance first appeared in a magazine for boys, the Youth's Companion, in 1892.

Howardwick News By ALICE HOOD

Troy Moore was taken back to High Plains Baptist Hospital last Wednesday. Paralyzing and very weak, but mentally alert Saturday when Lawrence and Lela Whitehead went to sit with him. His sister, Myrtle Johnson was to be in on Sunday. After fighting a long battle with cancer Troy died Monday morning, August 6, 1984. His eyes were donated to the eye bank. At the time of this news report the only arrangement made was the funeral to be at 2 p.m. Wednesday, August 8 in Clarendon. Troys brother, Ivan, also has cancer.

Deepest and heartfelt sympathy and prayers are extended to Willie and other members of the family in their time of sorrow.

Allen and Lola Bartel were in Perryton to be with Allen's nephew, Jerry Presmall, who was returned home from High Plains Baptist Hospital where he had been taking chemotherapy treatments.

Charles and Lucille Boren went on a two week vacation up into Canada. On returning they came through Perryton and brought their grandson, Chucky, home with them. His parents, the Don Borens, came in over the weekend and brought Shane (another grandson). The two boys are spending a week with their grandparents. They went fishing. Chucky caught a big catfish which made him very happy.

Alta Reynolds and her sister, Faye Davis (not Faye Taylor, as was listed in the last news) have been traveling around in Texas and Oklahoma visiting relatives. Since they came home they have been canning food for winter. Faye left for home in Hobbs, N.M., Friday with an abundance of goodies and memories of a wonderful time with family and friends.

Darrell Hood spent the weekend in Edmond, OK visiting with his brother, Leonard Ahlstrom and family and helping Leonard do some electrical work, wiring a house.

Bullock warns Texas bingo operators

State Comptroller Bob Bullock is warning Texas bingo operators they can say good-bye to their state licenses and hello to local police if they ignore state laws governing the game.

"When bingo people stray outside the Texas Bingo Enabling Act, they risk charges under the state's criminal laws against gambling," Bullock said. "All the Comptroller's Office can do is take away their license, but local police and prosecutors can treat them just like they'd been caught in a back alley crap game—just like any other two-bit gambler."

Comptroller agents have recently visited 500 bingo games and found nearly a third are violating some section of the bingo law.

"Most of these violations were minor mistakes made by honest charity groups running their own games," Bullock said, "but that doesn't mean we can sit still for them. We have warned these groups and sent copies of the warnings to local police."

"A more serious problem is with commercial promoters who dupe charitable groups into letting the promoters run the game, count the money and give the charity what's left—if anything. The Texas bingo

law just won't allow this. Where we find it, we're jerking licenses faster than you can say B-10. We suspended two licenses for this violation this week and we've got a hearing on a third set for next week.

"We'll be continuing to visit bingo games and our auditors will be looking closely at the books of everybody involved in bingo—the promoters, bingo organizations, supply distributors and manufacturers. These people can expect to hear from us and they can also expect us to share evidence of whatever violations we find with their local district attorney," Bullock said.

Farm News

1985 WHEAT PROGRAM
 Sign-up period for the 1985 wheat program is October 15, 1984 through March 1, 1985. Target price has been set at \$4.38 per bushel. National loan rate is \$3.30 per bushel. PIK (payment in kind) is not authorized for 1985.
 To be eligible for loans, purchases, and payments for the 1985 wheat crop, producers must reduce their wheat acreage by 30 percent. The 1985 acreage base is the average of the acreage planted and considered planted to wheat in 1983 and 1984. This includes 20 percent acreage reduction and 10 percent paid land diversion. The diversion rate is \$2.70 per bushel, with 50 percent available at sign-up.
 The amount of acreage devoted to Acreage Conservation Reserve (ACR) must be equal to at least 28.57 percent of the farm's 1985 planted wheat acreage plus 10 percent of the wheat base.
 Land designated for an Acreage Conservation Reserve (ACR) must have been devoted to small grain or row crops in two of the last three years.
 ACR acreage may be grazed except during the six principal

growing months. While haying will not be permitted on ACR land, emergency haying and grazing privileges may be authorized as needed on a county-by-county basis, in the event of a natural disaster.
 USDA intends to review the size of the farmer-owned reserve before the regular price support loans for the 1985 crops reach maturity. At that time it will be determined whether entry into the reserve will be permitted.
 Offsetting and cross compliance will not apply to the 1985 program. Program contracts signed by participants will be binding and will provide for liquidated damages for failure to comply with program requirements.
ACREAGE CONSERVATION RESERVE (ACR)
 REMEMBER that proper maintenance of ACR is required. Failure to do so will result in a penalty. Wind and water erosion must be controlled. WEEDS MUST BE SPRAYED, PLOWED, OR SHREDED. Periodic spotchecks for proper maintenance will be made by both county and state personnel.
USDA ANNOUNCES SUPPORT LEVEL FOR 1984 PEANUTS
 The USDA has announced the price support levels - by type, quality and location - for the 1984 peanut crop. These are available at the county office if they are needed.
WARNING: ABSENTEE LANDOWNERS
 U.S. Department of Agriculture studies indicate that erosion, grassland deterioration, or a lack of woodland management is often greater on leased or rented land than on owner-operated land. Studies also indicate that less than

one landowner in six is willing to pay for conservation measures on land they rent or lease to others.
 That is not to say, however, that erosion or grassland deterioration is worse on all rented or leased land. But conservation measures such as terraces, waterways, drop structures, grassland restoration cost money. Conservation tillage saves soil, water, fuel, time and wear on equipment; but it may reduce yields the first year the practice is used. Conservation crop rotations or deferred grazing are practical conservation measures but they may not fit short-term rental agreements.
 You may need to help your renter or lessee pay part of the cost of needed conservation practices or offer a longer rental agreement if he carries out needed measures. In some cases, cost-share assistance is available through the Agricultural Stabilization and Conservation Service. Technical assistance in planning and installing the measures are available from the Soil Conservation Service through the local soil and water conservation district. Other assistance can be obtained from the County Extension Agent.
 If you lease or rent land to others, we suggest that you and your operator contact some of us to discuss conservation measures that might be practical on your land. You might be surprised how little it will cost and by how much it will improve your land's value and productivity.
AGRICULTURAL CONSERVATION PROGRAM SIGN-UP
 The Donley County ASC Committee is announcing its last sign-up for the 1984 year. Applications will be accepted in the county office beginning Monday, August 20 through Friday, August 31st. This sign-up will not include practices SL-1 & 2 as grass seeding deadlines have passed.
FOREIGN-OWNED LAND
 All foreign individuals, governments, or legal entities are required by law to report their agriculture land holdings, purchase and/or sales to the county ASCS office in the county where the land is located. Failure to report within 90 days of any action could result in a fine of up to 25% of the property's fair market value.
