## Awesome Adventures

### Reading Club Programs begin July 2

Where are the "Awesome Adventures" going to take place? What does music have to do with reading? Why are Jack and Jill, Humpty Dumpty, and Old King Cole important?

Be sure and read next week's Clarendon Press for the answers to these questions. You can be sure this has something to do with the Texas Reading Club programs that will begin at Burton Memorial Library on Tuesday, July 2, from

10:00-11:45 for ages Pre-School through Sixth Grade.

Some of you "awesome adventurers" have already been reading for a couple of weeks and have entered the bookmark contest. In order to be eligible to win, your bookmark forms MUST be given to Mrs. Annis Stavenhagen at the library by June 20-21. They cannot be accepted after June 21, so get yours in and find out if you are a winner at one of the Tuesday morning programs in July.

### Local residents to celebrate Emancipation Day

The Clarendon Negro community will gather Saturday, June 22 to celebrate Emancipation Day, which was June 19. They will have a barbecue and do a lot of visiting. They expect friends and relatives from surrounding towns to attend.

Although Lincoln's preliminary Emancipation Proclamation had been announced on September 22, 1862, a great many people in the north believed that the Southerners would refuse to obey the laws and continue to treat the Negroes as slaves. Federal forces arrived in Texas during the summer of 1865. On June 18, General Gordon Granger landed at Galveston, and the next day he issued a proclamation declaring the slaves free. It is for this reason that the Negroes of Texas celebrate June 19 as "Emancipation Day." Beginning in 1980, June 19 became a legal holiday in Texas.

THE PRINT SHOPPE, located at 116 Kearney.

### New printing and office supply business

On May 13, The Print Shoppe opened for business at 116 Kearney Street in Clarendon. Owned by Vonna Tunnell, Ricci Tunnell, and Helen Woody, The Print Shoppe is managed by Vonna Tunnell.

The Print Shoppe carries a full line of office supplies and will be happy to stock any supplies you need, so you will have them when you need them.

The Print Shoppe has a Ricoh Offset Printer, which is a simplified

approach to faster, easier and more cost efficient printing. The Print Shoppe also has a Minolta copier and can handle any of your printing needs, regardless of how large or small.

Write your own wedding or party invitations or make up your own special birth announcement, stationary, thank you notes, or whatever printing needs you might have. The Print Shoppe can also print

envelopes, letterheads, statements and business cards.

Vonna is planning to have an official grand opening later in the summer when the supplies which have been ordered are here, but don't wait until then to stop in. Vonna keeps the coffee pot hot all the time so stop in for a visit and have a cup of coffee with her. You might find something you need, if it's nothing more than a box of paper clips.

The City of Clarendon will lock the gate enclosing the roll-off container located north of the railroad tracks behind Gibson's. Any City resident wishing to dump tree limbs, large items, etc., must go to City Hall and obtain a key to unlock the gate. On weekends, the key can be picked up at the Sheriff's Office by asking the dispatcher for the key to the roll-off gate.

There will be no charge to City residents except in the following instances: contractors hauling to the City roll-off container such items as roofing materials, construction materials, concrete, brick, stone, dirt

or soil or other bulky materials in the normal course and scope of their employment or business operation shall not be allowed to dump more than one (1) pickup load of such materials in any given ten (10) day period without prior consent of the City office and paying the disposal

fee. The rates are \$5.00 for a pickup load and \$30.00 for a truck load. Boxes dumped at the roll-off will have to be broken down. The site of the old City dump is now closed and further dumping is prohibited except for dumping in the County roll-off at that site by rural residents only.

### Gov. Mark White signs new land program

Sen. Bill Sarpalius said Governor Mark White's signature on a farmers land program measure gives agriculture a chance at a brighter future in Texas. All that remains, he said, is for voters to approve the plan in

November. House Bill 196, known as the Patterson-Sarpalius Act because they were sponsored by Rep. L.P. "Pete" Patterson, D-Brookston, and Sarpalius, implements a \$500 million loan program that will help farmers purchase the land on which they farm. The idea is to relieve them of the financially wasteful practice of leasing all of their farmland.

Sarpalius said the money for the

loans would be generated through the state sale of \$500 million in bonds. The bond sale is proposed through House Joint Resolution 19, also sponsored by Sarpalius and Patterson, and must be approved this November by voters when presented in the form of a constitutional amendment.

Once approved, the program then would be administered by the General Land Office, which also administers the highly successful Veterans Land Program. Sarpalius said Land Commissioner Gary Mauro intends to operate the program in a similar manner.

Low-interest loans would be made available to all U.S. citizens whose primary business is farming and who have yet to accumulate a net worth of more than \$200,000. Though the program is for all Texans, Sarpalius said it is aimed primarily at younger farmers.

Sarpalius commended White for signing the Patterson-Sarpalius Act bill and also noted that the governor signed two other bills important to agriculture. Those measures -- Senate Bill 16 and Senate Bill 1114 -- deal with highway regulations and their relationship to farm equipment.

The 1985 graduates came to TCU from eight states and three foreign countries. Twenty-four were from Texas.

Ranch Management director, John L. Merrill, a rancher for much of his life, has been president of the International Society for Range Management and has worked with U.S. congressman in writing range bills and a bill for preservation of virgin land.

**DPS cautions**

**motorists on**

**summer driving**

Vacation time is just around the corner. Many Texas motorists will be on the road taking advantage of both the warm weather and the many vacation activities Texas has to offer. But, with more people driving more miles than ever before, there are a few precautions we need to take before and during our trips.

Before leaving on long trips, we need to take a little time to check over our vehicles. A long stretch of unfamiliar road is no place for a breakdown. So, checking simple items such as tires, cooling system, battery, belts, and hoses can prevent unwanted and unnecessary breakdowns. But nothing can spoil a vacation anymore than having an accident. Major Vernon Cawthon, Regional Commander of the Texas Department of Public Safety stated, "The number of vehicles on Texas Highways is increasing each year, and unfortunately, traffic accidents are keeping pace. Many people think they will never be involved in an accident, but no one is immune from having an accident."

The best defense against the many hazards involved in driving is to drive 55 MPH and use seat belts. Driving 55 is more important than ever before. Major Cawthon also said, "Besides giving you more precious time to react to danger, the lower speed reduces the risk of serious injury to you and your passengers if you are involved in an accident. It's just not worth the risk. Speeding up from 55 to 60 saves only 18 minutes for a 200 mile trip."

The troopers of the Department of Public Safety want the summer of '85 to be the safest yet for the Texas motorist. Please drive friendly and have a good vacation!

**Copelin - Davis vows exchanged**

## SPOTLIGHT On Teen's

By REV. TONY COLBURN

### DATING

We have been studying about the reasons for dating. Last week we saw that we date so that we might grow as individuals. This week we will look at two more reasons for dating.

When we date we should be contributing to the growth of another person. Each person we date has special needs that God desires to meet. Dating offers us an opportunity to let God work through us, fulfilling some of those needs. What are some ways that you can build up the person you date? Here are several good ways: be a good listener, encourage them to get along with their parents, help their self-confidence, help them think more about Christ, find new interests, encourage them with their weaknesses, encourage them to have other friends besides you, and strive together to meet other peoples needs.

Dating also enables one to get ready for the right marriage partner. Marriage is a great responsibility with a lifelong commitment. Dating gives an opportunity to learn how to develop patterns of living that will

help us in our future marriage. We also learn which dating characteristics in others are compatible to us. God will allow tests in dating which will prepare us for much larger tests in marriage. It is important to remember that our date-life can deeply affect our marriage.

If you are experiencing bad attitudes that have a negative effect on your dating relationship, you better realize that there is a chance they might affect your marriage. If it is hard for you to get along with people while you date, do you think it will be easier when you marry?

As we date God will reveal weaknesses that need to be surrendered to Him. He will also broaden our perspective as to the type of person we might like to live with the rest of our lives. It is God's desire that our dating will result in positive learning experiences for everyone you involve, and for yourself.

CLARENDON FIREBELLES (L-R): Connie McAnear, JoDee Mincey, Tammy Taylor, Edie Robertson and Wanda Smith

## Local Auxiliary attends convention in Waco

Tammy Taylor, Wanda Smith, Connie McAnear, JoDee Mincey, and Edie Robertson, members of the Clarendon Ladies Firemen's Auxiliary, the Clarendon Firebelles, attended the 109th Annual Convention and Conference of the State Firemen's and Fire Marshals' Association of Texas and Texas Firemen's Auxiliary held June 9 through 12 in Waco.

Speakers included Dr. Charles Patterson, Kileen; Bob Murphey, a Nacogdoches lawyer and a former Association president; and Hugh Keepers, of the Texas Railroad Commission's Liquefied Petroleum Gas Division, in Austin.

Each year the convention gives paid and volunteer firefighters from throughout Texas the opportunity to get together for business meetings, a memorial service and training sessions. A two-day trade show features the most modern firefighting and rescue equipment. About 1,500 firefighters, firemen's auxiliary members, families, and guests attended this year's convention.

During the convention, the Texas Firemen's Auxiliary meets for their annual business meetings, memorial and training sessions. This years

session included new auxiliaries, ways and means, parliamentary procedure, state officers, scrapbook, and pumper teams. Auxiliary members are encouraged to attend all convention activities for the firemen.

The State Firemen's Association serves both volunteer and paid firefighters by sponsoring the municipal firemen's training school each July at Texas A&M University, administers a certification program for volunteer firefighters and fire marshals in Texas; and represents some 40,000 firefighters before the Texas Legislature. The Association's monthly magazine, TEXAS FIREMEN, has more than 4,600 subscribers and includes technical articles and news about the state's fire service.

"The convention gives us the best opportunity of the year to stay in touch with the needs of our members," said Ed S. Kirkham, executive manager of the Association.

## Senior citizens activities report

We enjoyed dance practice on Monday, June 10th and the 2nd Tuesday dance on the 11th. We really enjoyed the special entertainment by Rita Jo, daughter of Lester and Ruby Graham of Memphis. Rita played the piano and sang several songs.

Board of Directors met in regular session on Wednesday, June 12th. Jean gave a report of the May activity, stating that participation is holding up really good, although there has been a drop in program income. (Program income is the donations made each day by the folks eating at the Center.) We do hope this will improve as these donations are a must to keep the nutrition program going.

Had a good crowd for game night on Thursday, June 13th. Twenty-six enjoyed the evening.

Friday's jam session was a dandy. Those playing were Hugh Neuhaus, Cecil and Alyce Munden, Clyde Hoggard, Jerry Chambliss, Rusty Hall, Carol Thompson, Jack Davidson, Truett Behrens and me. Twenty-nine came to listen to us practice and visit.

We had a lot of birthdays in June, so don't forget birthday/anniversary salad supper on Tuesday, June 25th at 6 p.m.

## A HENHOUSE PARABLE

Once upon a time there was a Papa Rooster and a Mama Hen, and they had a cute little baby chick. "This little chick is never going to scratch out his living like I did," declared the Papa Rooster. "We shall see that he has everything he needs to grow up and be a fine chick."

And they did. They worked their beaks off trying to provide things for their little chick. He wore the finest, shiniest feathers in the whole chicken yard. They taught him the finest manners and allowed him to associate with only the best chickens. "I want" is all the baby chick needed to say, and his want was provided. The other chickens were so envious that he had parents who took such pride in the meeting of his every wish!

In Chick school, he was always the leader. He led in reading, writing and arithmetic; played in chicken football and basketball and held down the first chair in the school crowing choir. He was valedictorian of his chicken class and was voted the chick most likely to make tracks! He went to Barnfowl University, and continued his education. He met a cute little chick co-ed and was wed in an elaborate barnyard affair that had the henhouse talking for weeks afterward!

His career seemed assured and the future bright, but one morning tragedy struck. He disappeared, and was never seen again. The last anybody saw of him, he was tucked under the arm of a very hungry-looking hobo, who was headed for a campfire down by the railroad tracks. Alas, for the little chick! His parents did everything for him except the one thing that was absolutely needful; they never taught him how to save his life!

**MORAL:** Unless your child is active in the program of the church, learning how to save his soul, he doesn't have a chance! The world is a very hungry hobo...

## Farewell occasion for Rev. W.H. and Wynona 'Boots' Watson

Sunday evening, June 9th, members of the United Methodist Church enjoyed fellowship and a covered dish supper of delicious food. It was also a time of saying farewell to Bill and Boots. They have served our church well and have made many friends in Clarendon. They have gone to their new appointment in Littlefield where they will be adding new friends to their list and more souls for Christ.

A love offering was presented to them by Elizabeth Ellerbrook, who so ably expressed the opinions and good wishes of the church members.

### THE MONEY TREE

[A tribute to Bill and Boots Watson]

I would like to explain to everyone tonight why you did not get exactly what you ask for.

I was asked to make a money tree-- I thought, and I thought and decided whatever I did, I wanted it to represent us, and I wanted it to represent Bill and Boots...So here is the story of this "money tree".

1. I started with a tumbleweed. I think that really represents this particular part of the Panhandle of Texas. And it represents Bill and Boots rolling into Clarendon 6 years ago with new ideas that had a way of finding us, really liking his methods a little more than our old traditional ones.

2. I sprayed a little gold paint on our tumbleweed to represent how much richer our lives have become - by God sharing Bill and Boots with us.

Thank you God for the gold you added to our lives.

3. The tumbleweed was then placed in a basket, which was made by someone - weaving smaller pieces together - to give the utmost strength - to carry the weight which one might put into it. You also have

woven our church - its people - into a stronger relationship -- with the strength to carry on.

Thank you God for the "Art of Weaving" and the "Weavers" we have found in Bill and Boots.

4. Rocks were added--so that the basket would not turn over -- and they represent the foundation Bill and Boots have added to our lives.

5. The moss was added at the base - so the rocks would be covered and would not show. Moss is a fungus - we used it here to represent how much we need the church and its people.

Thank you for pulling our congregation together.

6. The blossoms were added to let you know you comforted, and brightened many days - at hospitals - during grief and sorrow -- and then happy times such as Christenings and oh yes, the beautiful weddings.

Thank you for the "flowers" you have sprinkled into our occasions.

7. The "Baby's breath" represents the gentle touch you so often shared - during prayer time - in times of each individuals needs - and sorrow. But it also represents the Children of the Church - Our Little Angels.

Thank you God for that "Guiding Hand."

8A. Butterflies (made of money) were added to represent the fact now that you are leaving -- as butterflies will do.

Thank you God for these "Butterflies" - may they continue to leave "faith" within the hearts of those they come in contact with - wherever they made light -- as you guide their path.

8B. The denominations of money the butterflies are made of represent the many denominations of in-

dividuals which have come to Clarendon -- chose to work together here at the First United Methodist Church -- led here by Christ -- encouraged to serve Him, by Boots and Bill--

Thank you for "your example" - one may only need to sit back and observe in order to "see a sermon."

And this leads us to the Potpourri sprinkled at the base.

9. Potpourri was sprinkled to represent each area in our community, and in our congregation - you have touched. May its fragrance represent "our love" -- take this with you -- we have kept a little here with the memories you are leaving us.

And we feel we know what Littlefield has to look forward to.

May God lead you - as you spread your "Potpourri."

10. The bow represents the closeness of uniting the people together - your many projects, - family night, - vacation bible school, - Methodist Youth Fellowship, - the Choir - working together for the purpose to serve God - and you Boots are our best examples - beautiful - strong and full of God's spirit.

So you see - like the tree I was asked to do - Bill and Boots have not been exactly what you expected - 6 years ago...

We all know they are not just "ordinary preacher," or "preacher's wife," but they are "Special," and they have earned those special places in each of our hearts -- by the quiet - loving way they have touched each of our lives. That touch we know only as - "The Touch of the Master's Hands."

Thank you God for "Tumbleweeds," "A touch of Gold," "Weavers," "Rocks," "Butterflies," "Baby's Breath," "Potpourri...etc., but most of all, Dear God...Thank you for Boots and Bill.

### WE ALL BENEFIT

Millions of dollars have been spent on what has been termed the most far-reaching evaluation of the effectiveness of prescription drugs. The U.S. government-sponsored study began in 1966 and ended in September 1984. Although most consumers and many health professionals are unaware of the work of the Food and Drug Administration's "Drug Efficacy Study Implementation" program, we all benefit.

The purpose of the evaluation was to review 3,400 medicines available only on prescription and to determine if each was effective for the

health problems indicated by the distributors. As a result of this mammoth study:

\*1,099 drugs were found to be ineffective and were taken off the market.

\*2,302 were found effective, with any questionable claims removed from the label, and

\*about 7,000 drugs identical or similar to the drugs under review were relabeled or withdrawn from the market.

We can be assured that the prescription medicines we obtain today have been carefully evaluated by experts.
