## Broncs Downed By Mustangs 29-19

An underestimated, highly keyed, Claude Mustang team invaded Broncho Stadium last Friday night and outplayed the Broncs from start to finish and came up on the winning side of the ledger 29-19. There were numerous upsets in the various categories of football, pros, college and high school and the Clarendon Bronchos seemed to have their night off and committed too many errors and too many turn-overs and controlled the ball too short a time. The Mustangs scored twice in the first half to lead the Broncs 15-6 at half-time. The Broncs scored again in the third period but the Mustangs added two TD's. The Broncs added another 6 points in the final period but this was not enough and the Mustangs continued with their ball control although they didn't add any more points in the fourth quarter. Scoring for Clarendon was as follows: Kenneth King 15 yard run and run failed for extra; King ran 8 yards for the next score and kicked the extra point; Randy Croslin passed to Stan Shelton for 8 yards and the final score. Run for the extra point failed. Three leaves the Broncs in a three-way tie for district honors at the present time. Memphis defeated Claude, Clarendon defeated Clarendon, Claude still has Wellington to contend with yet and may get upended and the same could happen to the Broncs.

Well, the Bronchos had a tough break last Friday night as they suffered a defeat to Claude with a score of 29-19. It was one of those nights when nothing seemed to work like it should and we just couldn't seem to get going. However, I don't think it will happen again. The Mustangs had better enjoy this one because it is likely to be the last win they get from the Clarendon Bronchos for a long long time. We are all entitled to one mistake and so from here on out, it's all the way for the Bronchos. This Friday night we will travel to McLean. Let's all get behind our team and their coaches and let them know that we know they can do it. See you in McLean!!!

The theme for the Pep Rally and hall signs last week was Halloween and it all looked great. Everyone seemed to have a lot of fun with it. Debbie Campbell was kind enough to help the Cheerleaders out last Saturday and they really appreciated it. Thanks, Deb.

Don't forget the Pep Rally tomorrow. Let's keep that spirit up!! We hope Gary Shields is all better now. He was hurt in the game last Friday night.

Our B-Team played Claude there last Thursday night and they came home with a victory. The final score was 20-15 and it must have been quite a game from what I've heard. Great going, boys. We are proud of you.

Congratulations to Mr. and Mrs. Bill Bob Moss. They were married last Saturday night in the Chapel of the First Baptist Church. Mrs. Moss is the former Vicki Childs. We wish you both much happiness. You deserve it.

And speaking of weddings, I have heard a rumor that wedding bells may soon be ringing for some of our other C.H.S.'ers. Do any of you know anything about who it could be?

Dewey Bob Myers and Eddie Eads didn't seem to like the show the other night. I guess that was it, anyhow they left before it got started good. How come, boys?

Matt Plunkett has a funny habit of asking himself a question and then answering it. The strange thing about it is that sometimes he gets into an argument with himself before it's all over.

Pat Trout had a happy surprise Sunday morning when the phone rang very early and it was Mike Leeper calling her from New Jersey.

Jimmy Floyd has a new hobby, too. He likes to pinch people on the neck.

Connie Fisher, where did you disappear to the other day?

Debbie Robertson is happy that Danny Holland is well at last. Dan was sick for a couple of weeks but at least he got a lot of mail to help cheer him up. Right, Debbie?

Mona Robinson is a very happy gal these days, too and "one" of the reasons is because she got her driver's license.

Steve Stavenhagen has a new car. He has traded his Evil Knievel for a Mario Andretti button. Look out people!!! Here he comes again.

Laurie Stone has been staying pretty busy lately. Wonder what the reason for this is. Whatever it is, she is sure wearing a happy smile.

And speaking of smiles, have you noticed Jean Brandes and Jerry Holland lately. They seem extremely happy about something.

Some thoughtful person is still putting sack of goodies in the Cheerleaders lockers every Friday. This is an awfully sweet thing to do so, thanks, whoever you are.

Tommy Hill has had a run of bad luck lately but it seems last Saturday was the worst. Cheer up, Tom, things are bound to get better from here on.

Question of the Week — "What C.H.S.'er is having some second thoughts about a decision they have made lately?"

### Mrs. Roy L. Guthrie Autograph Party To Be Held Sun., Nov. 11

Mrs. Roy L. Guthrie (Elsie Bass Guthrie) will be in Clarendon Sunday, November 11, at the Hospitality Room of the Farmers State Bank and Trust Co. from 1:30 to 4:30 p.m. to autograph her book, "The Lucky Moores."

The autograph party will be sponsored by the Donley County Museum Committee headed by Mrs. W. J. Lewis, Jr. Part of the proceeds from the sale of the book will go to the Museum Committee.

Mrs. Guthrie who taught English in the Memphis school for a number of years, is now teaching in Special Education classes there. She is a sister of John Bass of Clarendon.

Although the book is fiction, the story is based on the lives of the author's ancestors and is an authentic portrayal of the life-style of early pioneers in the latter part of the 19th Century.

Melissa Moore is a fascinating girl, woven from rough cloth, combining her Mother's compassion with her Father's stubborn persistence. Never trifling or trite, Melissa's character is believable and true to life in "The Lucky Moores."

This is worthwhile reading for all ages, especially those interested in pioneer living.

The public is invited to come meet the author and buy her book! You will be helping the Museum, too.

### Planned Parenthood Goal Is - Every Child A Wanted Child

The goal of Planned Parenthood is to have every child a wanted child, reports Mrs. Eureda Mays, local coordinator. We hope to accomplish this through Educational Programs, Family Planning services and supplies, and Follow up and referrals. Services provided are physical examinations, screening for T.B., venereal disease and anemia, counseling, and education. Eligibility restrictions have only to do with age. Anyone under 18 years of age must have parental consent, have been pregnant or be married. Anyone over 18 years of age is eligible regardless of marital status. How are we doing in the 25 Panhandle counties? ... Planned Parenthood clinics in the Panhandle area have an average of over 1100 patient visits per month. ... The largest number of people seen in any one month was 1357. This includes medical revisits, supply visits, and new patients visits. ... The largest number of new patients seen any one month was 285, with an average number of new patients per month being 228. ... 1620 patients were referred to their own physician or other health facilities for abnormalities found upon examination or through the screening programs. ... Within the last year 47 venereal disease tests were positive. (The Bi-City County Health Department provides the materials and processing for venereal disease screening). ... Planned Parenthood has provided sterilization procedures for 143 persons in the 25 counties. (48 vasectomies and 95 tubal sterilizations). These people were in dire need from a financial standpoint and many from a medical standpoint. ... The educational program of the agency has reached 4,497 people in the last year with a total of 138 programs in schools, colleges, civic organizations, and health facilities. ... Our paid staff now num-

bers 36 women and one man. ... In addition to other professional services, 421 persons, were counseled within the last 14 months on various subjects ... problem pregnancies, parent-child difficulties, sterilization, and sexuality problems. How are we doing in Donley County? The clinic opened July 24, 1972. In the past fifteen months, we have enlarged our clinic to 68 patients (41 white, 24 Negro, 3 Latin American), screening for 23 T. B. and anemia patients and non-patients, 2 tubal sterilizations, counseling for 2 vasectomies, several problem pregnancies, several positive V. D. patients taken to Bi-City County Health Department for treatment, 10 pregnancy confirmations, average from 1 to 18 supply visits per month, and have received over \$950.80 In-Kind contribution from interested people.

Another way to fulfill the mission of Christ is to see ourselves as believers because we know the gifts of forgiveness and one another. In teaching the disciples how to pray, Jesus wisely showed them that being dependent upon their willingness to forgive their brothers here on earth, e.g., (Luke 1:41) "And forgive us our sins; for we also forgive everyone that is indebted to us." And according to Matthew 6:12, 14-15 we have no right to pray for forgiveness out of proportion to our willingness to forgive one another. Can you comprehend what might really happen inside the church and throughout the world if suddenly we who call ourselves Christians really began to forgive as God has forgiven? Then, Christian unity is important in any description of the nature of the church. I do not speak here of an organizational unity; I do not feel that such unity is possible. But, we know that together, we can do greater things than what we could accomplish alone. If we are primarily concerned with making Christ known in and to the world, His will will be done in every life. He will lead each person on the way that he is to go. The church temporal is called to this task and while it does this task it is the body of Christ; when it departs from its task and declares that which is other than Christ, it becomes a tool of the devil. Thus, the church is a fellowship of believers who are united to the living Lord who have a sense of purpose and who give themselves to a cause that is greater than they are. The church is a mission in the world, extending the boundaries of the Kingdom of God. No wonder, then, Christ loved the church and gave himself for her! May we also be as willing to give of ourselves for the life of the church in the world that we become more worthy of such love of God shown unto us in Christ Jesus. Grace and Peace in Christ Jesus. THINK ON THIS: Today I will help build the Kingdom of God.

### The Church Is - - -

Weldon Rives, Pastor  
First United Methodist Church

Ephesians 5:25b: "... Christ also loved the church, and gave himself for it; ..."

Have you ever begun to make a statement about the nature of the church but never quite finished? Before you read on, stop and ponder how you would finish the phrase "The Church Is - - -". Now, write your statement on the margin of this paper before you continue reading. I will share some brief statements with you about the church and what I understand the Scriptures to say about its nature. I believe that the church in 1973 is what the church was in the New Testament times. That is, it is a fellowship of believers united in the Living Lord, God who called the church in New Testament times is now calling persons to become a part of the body of Christ. The mission of Christ is to change persons and society from evil, corruptible living to that by which God's Kingdom will be among us today. One way the church fulfills the mission of Christ is through fellowship. This is one primary need in our society today. We have a mass society; a world full of people without roots, a community to tie to. Loneliness has become a common, modern sickness of the soul for both young and old alike. The community for which the world longs is a fellowship that provides meaning, purposes and direction in life. To this task the church is called as a fellowship of Jesus Christ. Paul reminds us of this by admonishing us to "take ... fellowship of the ministering to the saints" (II Corinthians 8:4).

... Mr. and Mrs. Grady Wilkinson and daughters of Stinnett visited his mother, Mrs. Mae Wilkinson, over the week end. ... Mr. and Mrs. G. H. Givens of Lubbock visited Tuesday and Wednesday with her sister, Mr. and Mrs. E. V. Quattlebaum.

### Clarendon Duo Tapes Music Arrangements For "Lost Horizon"

Clarendon College Drama Department will present "Lost Horizon" on November 6 at the Harned Sisters Fine Art Center.

The music arrangement has been accomplished for the production through the efforts of two Clarendon citizens that are attending Clarendon College. Mrs. Eddie (Joburta) Helms and Charles Clinton, son of Dean and Mrs. Beryl Clinton, have spent many long hours taking Burt Bacharach's recording of "Lost Horizon" and taping it for the Clarendon College production. The background music and sound effects have been arranged in chronological order by Mrs. Helms. Charles Clinton supplied the organ, electric piano, and drums while the piano arrangements were done by Mrs. Helms in creating the musical tapes. Many long hours of work went into creating the tapes. Timing in putting the music and sound effects at proper places and for the exact entrances of members of the cast in the play was very difficult and important to accomplish.

These two students have done an excellent job in arranging the music according to the script and in providing a musical arrangement for "Lost Horizon" that make a great play even more enjoyable for those watching. Curtain time is 7:30 p.m., November 6. The public is encouraged to attend this first production of 1973 by the Drama Department of Clarendon College.

How long has it been since you have sat down to a breakfast of homemade biscuits, home-cured ham, and real chicken eggs? as the man would say in the chili ad, "That's a way too long." The biscuits were not even from the can, and the ham was almost better than we used to make during the depression . . . All this topped off with home-made jelly and real bee honey . . . You have guessed it, my wife and myself have made another trip to see her Uncle that we fished with along the Washita River, for so many years.

We have a name for all her brother-in-laws, we should have a name for this uncle . . . We could call him our Fishing Uncle because for years we would go down on occasions and fish from his own banks along the Washita . . . We could call him our Fiddling Uncle because he likes to get his "Old Strad" down and whip out a few old time breakdowns just before putting us to bed. We could call him our Indian Uncle because he now lives in the Indian Capitol of the world, and on top of that was named after the famous Chief Quannah Parker. The trouble is he has sold the river banks to those wanting some place to go fishing and thrown in the farm. Also, he doesn't have any Indian blood in his veins but is mostly Irish.

Anyway, at least once each year we have the best time ever when we visit my wife's Uncle Quannah and Aunt Altha and out of the abundance to the many good things they have they always show us a grand time. At home we try to consider my

weight problem, at least my wife does. I know that I shouldn't go back for second helping, but once each year when we go to Uncle Quannah's all rules are off for a couple of days and we enjoy their kindness and old fashioned hospitality, not the least of which is lots of good food prepared by a wonderful cook Thank You and we may start coming more often. Uncle Quannah has a very interesting neighbor with the same first name as Uncle Zeb. As he fed high priced dog food to his bird dog he said: "We throw away dollars and save dog food coupons for pennies." Actually, we Americans do that.

### Pros & Cons-Proposed Amendments To The State Constitution

Texas voters will be going to the polls Tuesday, November 6, to cast their ballots For or Against 9 proposed Constitutional Amendments. A brief statement as to what each concerns and some of the pros and cons follow. Material has been taken for this article from a bulletin issued by the Texas Legislative Council.

#### AMENDMENT No. 1 — Subject: Annual Sessions of Legislature and Legislators Salaries.

For: Complexity of government now makes a legislator's duties more than a part-time job. Many qualified persons do not become candidates due to financial sacrifice involved in service at the present salary. A salary increase would provide a greater incentive for public service. Under present conditions legislators are forced to engage in outside employment. The cost of living has increased. A more realistic budget could be set up.

Against: The cost of government would be increased at a time when state finances are overburdened. Increasing the total session time from 140 to 240 days every two years still makes it a part-time job. The high cost of campaign for a legislative candidate without substantial financial resources would still be discouraging. The per diem (per day) allowance helps the legislator to maintain two homes during a session. Under a full-time job with full-time salary the necessity to supplement does not exist. The proposed amendment makes no provision for order of business. The last minute rush of business would still exist. Under the present constitution the legislature can not appropriate money for more than 2 years. There is no prohibition against yearly appro-

#### AMENDMENT NO. 2: Subject: Homestead Protection — Single Adult.

For: Single adults would be given the same protection and security from forced sale of their homes as is now given families. There are an increasing number and proportion of responsible single adults in our society. Consent of both spouses would still be required before a major decision concerning an existing family homestead is acted on.

Against: The Homestead Exemption was designed to protect the innocent family members of the debtor not the debtor himself. The need for protection has been decreased by increased urbanization. Abandonment of the home is a matter of intention as shown by state of mind, declarations, and acts. Adding another party's state of mind, declarations and acts may be confusing and contradictory.

#### AMENDMENT NO. 3: Subject: \$3,000 Ad Valorem Tax Exemption — Single Adult.

For: The present law discriminates against single persons who do not have the family relationship which married persons and persons with family have received. Tax assessors and collectors and collectors frequently are confused as to an individual's qualification for exemption. The exemption is now of greater consequence to persons 65 years and older in political subdivisions which partially exempt taxes on homesteads.

Against: Tax exemptions do not eliminate tax but shift the tax burden to other taxpayers and sources. The adoption of this amendment may result in reduced tax revenues. Modern social security, retirement systems and welfare programs have lessened the need for protection of residence homestead.

#### AMENDMENT NO. 4 — Conser-

#### vation and Reclamation Districts.

For: Conservation and reclamation districts in most cases issue bonds with their unlimited authority to incur debt. Later when a city annexes these districts it must assume the payment of these bonds and must tax residents of the city to make payment. These citizens should have a voice in authorization of these districts. The passage of this amendment would close the loophole whereby cities and counties are given the opportunity to comment on the need for the creation of the district.

Against: Cities and counties already have adequate control over districts within their jurisdictions through approval of plans, participation in state agency proceedings and the authority not to annex existing districts. Through the elected representatives and senators from their area, the cities and counties already have an opportunity to be heard and this amendment, if passed, would not increase the opportunity to be heard.

#### AMENDMENT NO. 5 — Subject: Authority to Cities — Bonds for Sea Walls, Reclamation Districts.

For: Peoples living in Texas coastal areas need protection for their lives and homes from the ravages of nature. It is difficult for these people to insure their property without adequate sea walls or breakwater protection. The amendment if passed would lower the requirement from two-thirds majority of persons actually voting to a simple majority.

Against: Artificial protection of people living along Texas coastlines will only hasten destruction of one of Texas' most beautiful natural resources. The Sea Walls and breakwaters are destructive by themselves, speeding up erosion of beaches and destroying recreational value of the shoreline. This protection would help only people living fairly close to the water. A majority should favor such a tax

before all residents should be taxed for the benefit of what may be a very small protection of the population.

#### AMENDMENT NO. 6—Subject: Probate Jurisdiction — District Court.

For: If passed this amendment would allow the legislature to equalize dockets for maximum efficiency. The public is dissatisfied with the present system of probate and desires a simplified and efficient system entailing less delay and expenses in handling estates. Many county courts are not presided over by lawyers. District judges are lawyers and their services are needed. Dual trials could be abolished and litigation coordinated by granting jurisdiction to the district court to probate wills.

Against: Statutory county probate courts and county courts at law with probate jurisdiction have already been created by the legislature to relieve the county court's probate responsibility. Many probate hearings are adequately handled by the county court which is set up to serve such a function. It is not desirable to crowd the dockets of district court with routine probate or to increase the work of the courts of civil appeals or cause the necessity to create additional district courts or additional courts of civil appeals with added expense to the taxpayer created by additional courts.

#### AMENDMENT NO. 7 — Subject: Bonds—Veterans' Land Fund.

For: The Amendment should be approved to include returning veterans of Viet Nam and to others who have served in the armed forces of the U. S. If the sale of bonds and obligations of the State of Texas which the Veterans' Land Board offers for sale are to be saleable, a maximum interest rate of 6 percent per annum should be allowed. The surviving spouse of a qualified veteran who had applied to purchase land thru Veterans' Land Board should

## SAMPLE BALLOT - Constitutional Amendment Election Donley County, November 6, 1973

### PROPOSED CONSTITUTIONAL AMENDMENTS

Instruction Note: Place an X in the square beside the statement indicating the way you wish to vote.

No.  FOR  AGAINST  
1 The constitutional amendment to provide for annual regular sessions of the legislature; and to provide an annual salary of \$15,000 and per diem for the members of the legislature, effective in January, 1975.

No.  FOR  AGAINST  
2 The constitutional amendment to include within the scope of homestead protection the real property of a single adult person which meets the other requirements of homestead property, and to provide that a family homestead may not be abandoned except with the consent of both spouses.

No.  FOR  AGAINST  
3 The constitutional amendment to extend the \$3,000 ad valorem tax exemption to the homesteads of unmarried adults.

No.  FOR  AGAINST  
4 The constitutional amendment establishing certain requirements relative to the enactment of laws creating certain conservation and reclamation districts.

No.  FOR  AGAINST  
5 The constitutional amendment authorizing counties and cities bordering on the Gulf of Mexico to issue bonds for the construction of sea walls and breakwaters upon a vote of the resident property taxpayers.

No.  FOR  AGAINST  
6 The constitutional amendment stating that the district court concurrently with the county court shall have the general jurisdiction of a probate court, and providing the jurisdiction thereof, and further providing that in any probate proceeding the district court shall also have jurisdiction otherwise conferred upon it by law, and further providing that the legislature may increase, diminish or eliminate the jurisdiction of the district court or county court in probate matters, and further providing that the legislature shall have power to adopt rules governing the filing, distribution and transfer of all such cases and proceedings as between district courts, county courts, and other courts having jurisdiction thereof, and further providing that the legislature may provide that all appeals in such matters shall be to the courts of (civil) appeals.

No.  FOR  AGAINST  
7 The constitutional amendment to provide for an additional \$100 million in bonds or obligations of the State of Texas for the Veterans' Land Fund.

No.  FOR  AGAINST  
8 The constitutional amendment to authorize cities, towns, and villages to levy such ad valorem taxes as are sufficient to pay the principal of and interest on their general obligations hereafter issued subject to the restrictions provided by law.

No.  FOR  AGAINST  
9 The constitutional amendment authorizing the legislature to exempt from property taxes certain property used by a nonprofit water supply corporation or a nonprofit water supply cooperative.

This Sample Ballot Published as a Public Service

be able to complete the transaction by the deceased spouse and obtain benefits entitled the deceased spouse.

Against: Compensation of veterans is a federal rather than a state responsibility. Generous benefits are already available and the extension of this program unnecessary. Increasing the constitutional limit on maximum interest rates on VLB bonds would result in a raise in interest rates payable by veterans who qualify under this program. The right to purchase land thru the VLB was extended to the veteran by virtue of his military service and should not be extended to his surviving spouse.

#### AMENDMENT NO. 8—Subject: Ad Valorem Tax Levies — Cities and Towns.

For: Cities and towns would be allowed to live up to their contractual obligations on bonds they issue after voter approval (subject to restrictions by the legislature) without depleting funds from other sources such as operating expenses or funds for future improvements. A more flexible tax rate would be allowed with respect to general obligations which would be subject to such restrictions as the legislature deems appropriate to the situation. Cities and towns would be enabled to become more desirable contracting partners for higher quality services for residents. New tax rates authorized by the legislature for cities and towns desiring or needing to provide additional service to their residents would be approved by voters of the city or town thus only those in need would utilize the new rates.

Against: Although an election would be required voters might not be given information as to how much their taxes will be raised under the new laws as a result of the passage of a general obligations proposal. Changing the limitation from a limit on total taxes to a limit on principal and interest and making that limit subject to the will of an individual session of the legislature could create confusion for the taxpayer and

is an unnecessary deviation from the system that has worked for many years. Rate limitation would be changed from constitutional limitation to a statutory one which is easily changed and is initially tied to limitations set on the principal amount of bonds issued by independent school districts. The interests and needs of school districts are different from those of cities and towns and a change in the law that is desirable for schools might be inappropriate for cities and towns which would be affected by such change.

#### AMENDMENT NO. 9—Subject: Non-Profit Water Supply Corporation — Tax Exemptions.

For: This amendment would encourage the formation of such corporations or cooperatives for the development of water resources in many ways nonprofit water supply corporations and cooperatives are similar to public water utilities which are tax exempt. Pipelines are required in many areas to supply customers and are laid at great expense. Collection of property taxes on these pipelines increases the cost of water to customers who are far from the source of water, and who often need it most.

Against: There are many privately owned water supply corporations operated for profit and in competition with nonprofit supply corporations and cooperatives. Passage of this amendment would give the nonprofit corporations and cooperatives a competitive advantage since they would be relieved from paying property taxes. Voters rejected a similar constitutional amendment four years ago and there has been no significant change affecting water supply corporations since that disapproval. Costs of government and dwindling sources of revenue require the maintenance of a complete tax base. Further special tax breaks are not in order at this time.

**Talk about winning 'em over!**

**You should see the new '74 Plymouth Satellite.**

I guess everyone knows that I enjoy being associated with winners. Well, the Plymouth Satellite has got to be one of the winningest cars around. Your Chrysler-Plymouth dealer tells me that, in just the past three years, over a quarter million people have switched over to Satellite from other makes of cars. And I know there's a good reason for it. Satellite has a great shape, easy mid-sized handling, and plenty of room inside. Why not stop in and let your Chrysler-Plymouth dealer show you the great new '74 Plymouth Satellite up close. He's out to win you over this year.

### First Immunization Clinic Held Oct. 29

The High School Gymnasium was buzzing with activity from 10 a.m. to 2:00 p.m. as participants in the first Immunization Clinic received their first free shots, Monday, October 29. There were 101 shots administered to 65 persons.

According to Mr. Jerry De Sha, State Health Investigator, this was an average number for the first clinic. He expressed his

appreciation to Dr. Gilkey for permission to hold the clinic in Donley County; to Jeff Walker, Superintendent of Schools and faculty. Mrs. Annie Smith LVN; Dale Martin, Medical Center Administrator; Mrs. Eureda Mays, Donley County Planned Parenthood representative, Mrs. Edna Osburn, Donley County Community Action coordinator, and Maurice Risley, County School Superintendent for their cooperation and volunteer services.

The next clinic will be held at the same location, Monday,

November 26. It will be for all ages. For persons who have not had a diphtheria and tetanus shot within five to eight years, this is an opportune time to take advantage of this free service and use your "taxes in Action."

The Adult Education classes are increasing in attendance and interest. Mrs. Osburn reports that classes in session now will continue but no more classes will start until January. Welding, Mechanics, and Roof Repair are the classes being postponed.

Mrs. Eureda Mays with Planned Parenthood is very pleased with the representation from Clarendon to view the film, "A Time to be Born." A very enjoyable day was had by all who attended the luncheon and film presentation.

An amarillo woman, Mrs. Lucille Watkins, 73, was killed Sunday 8 miles west of Clarendon when her car went out of control and overturned, throwing her from the vehicle.

Bearers were Loyd Johnson, Joe Lovell, Leroy Leathers, Joe Bownds, P. C. Messer, and Troy Guy.

### Jim Bain Places In Texas Photo Contests

Jim Bain of Austin, son of Mr. and Mrs. James Bain of Clarendon, took a second and a third place in the 1973 Texas Employee Photo Contests held recently and as an award received \$85.

There were 100 entries in the contest with 67 in the Color division and 33 in the Black and White.

Jim's black and white photo placed third for \$35 and was titled Small Boy and A Large Locomotive. Pictured was Bain's son, Mark, as he attempted to climb upon the front of a large locomotive. The photo was taken with a Nikkoemat Ftn Camera and a Saligor 22 mm lens.

The Color photo was of Signal Mountain in Howard County and placed second for \$50. A Kodachrome slide was used with the

same camera and lens. Jim, who visited Monday, Tuesday, and Wednesday nights of last week with his parents, is with the Water Quality Board in Austin.

We congratulate Jim. It is always a pleasure to learn of the accomplishments of our former residents.
