LICENSING LAWS GUARD PUBLIC

Texas and Maryland are the two latest states to join the group in which protection of the public in real estate transactions is sought through real estate license laws.

Michigan this year strengthened its license law through adoption of amendments, one of which sets up state control on sale in Michigan of lands located outside that state.

Thirty-three states, the District of Columbia and Hawaii now have real estate license laws to protect against fraud or dishonest or incompetent real estate salesmen, according to the National Association of Real Estate Boards.

The association points out 84,000-600 persons in the United States, or 73 per cent of the country's population, now live under the protection of these measures.

In half a dozen other states licensing measures are being sponsored as proposals for early adoption.

The Texas law stipulates 17 acts for which a license may be revoked or refused. Revocation may be enforced for substantial misrepresentation of any kind, including misrep-

resentation in advertising, acting for more than one party without the knowledge of all parties, failure within a reasonable time to remit monies which belong to another, dividing commissions or fees with any one not licensed under the act, soliciting or offering for sale real property through "free lots" or by conducting lotteries for the purpose of influencing a purchaser, and other reasons.

"I was seeing Nellie home," The hour was growing late, So I thought it best to say A good-night at the gate.

But she asked me to come in And stay a little while, Surely, I could not resist Her pretty little smile.

Her old man heard us enter, E'en now I hear him say: "Tell that guy who brought you home To make his get-away."

While we held each others hands We listened to his rants; And while going out the door He "kicked me in the pants."

VACATION TO COAST
 Among the Pacific coast vacationists the past week went Misses Hazel and Clynell Gilbert, Wilma De Smith, John Plaster went along to drive the car. Aside from visiting relatives, they will see the Frisco fair and scenic points of interest.

Miss Zona Adamson of near Hedley, spent the past week here in the home of her uncle, J. W. Adamson. Miss Adamson teaches in a public school near San Angelo.

New Provisions For Gas Refund

Farmers and gasoline dealers—as well as all others who under the law are entitled to a refund in gasoline taxes—were urged by Comptroller George Sheppard today to study the terms of a new state law making several very material changes effective September 1st.

Farmers are among largest users of gasoline upon which the tax is paid; and after September 1 Sheppard pointed out, the Comptroller can pay refunds only to those who purchased their fuel from licensed dealers. Hence it is important from the users' standpoint that they make certain the dealer is licensed.

The departmental analysis of the law showed that these changes were made:

1. Beginning September 1, 1939, the Comptroller is prohibited from issuing warrants or payment of a refund claim on any motor fuel not purchased from a licensed dealer.

2. All dealers in motor fuel for refund purposes must obtain license from the Comptroller authorizing such dealers to sell such motor fuel. Failure to obtain license subjects the dealer to criminal prosecution.

3. Licenses and invoices of exemption will be furnished the dealer, free of cost, by the Comptroller's Department when application is made therefor.

4. All invoices of exemption will be serially numbered and each supply furnished a dealer by the Comptroller's Department will be charged to such dealer, and an accurate account

of all such invoices of exemption must be kept by the dealer. No other form of invoice of exemption may be used than that furnished by the Comptroller.

5. The dealer is required to keep accurate record of all motor fuel sold, for a period of two years.

6. Blank invoices of exemption not transferrable or assignable unless authorized by the Comptroller. Dealer is not authorized to lend or give away invoices of exemption issued to him.

7. Invoices of exemption must be issued at the time of delivery of the motor fuel. Heretofore such invoices have been issued at the time of sale.

8. Unless the users of refund motor fuel and the dealers who sell refund motor fuel are advised of this change in the law a great deal of confusion will result, and a lot of refund claims will not be payable. It is, therefore, important that each user of refund motor fuel who expects to file claim for a refund of the tax acquaint himself with the new provisions of the law.

Mr. and Mrs. Frank Stitt of Amarillo were guests of Mr. and Mrs. Lucian Bones Tuesday.

Miss Simmons of Greenville, Ohio visited Mr. and Mrs. Ed Dishman last week.

Wife (reading from paper)—They've found an old hen with two hearts. Husband—I played bridge with her the other night.

TEMPLE OF TRUTH

By the Apostle

FRUGALITY.
It has gotten to the point to where a kid can save a batch of bottoms off a goober-hull breakfast food package and get a tin whistle. Ain't that gettin' us somewhere?

LOGIC.
It will be a great day when all the nations get right down to common sense and agree not to have any more wars until the last ones are paid for.

ECONOMY.
It is said that a Scot never becomes seasick when he has his hands tied behind him, and a quarter between his teeth.

ENIE, MEINE, MO.
A one time leading screen actress recently passed on after having been married to four men, 3 years to each. The first was a banker, an earl, a minister and an undertaker. In all she had hooked four husbands—one for the money, two for the show, three to make ready and the fourth to go.

SCIENTIFIC.
The efficiency expert is said to be a fellow who walks in his sleep that he may get his exercise and rest at the same time.

BUM IMMIGRANT.
"You brought me back to the world," is the title of the latest song hit as whanged over the radio by a gal with a voice like a panther. The guy who brought her back ought to be sent to the Japanese trenches. There's no greater punishment extant in the world today, I mean the song, of course.

CHANGED CONDITIONS.
There was a time when every community and hick town had a Moses to lead them out of the wilderness of ignorance. The same bird frequently gave advice and recited cute sayings. Among the cute advice was, "a rolling stone gathers no moss." Of course not. It rolls into a rock garden before it gets started. Then another advised folks to "keep your chin up," forgetting that the next community had a Moses who advised his people to "watch your step." Anyway you take it, it is great to be a Moses and strut around with a bar of soap and a toothbrush in one pocket, and a hamburger in another ready to delegate himself to a convention on short notice.

INVENTOR BILL MILLER.
Then there's that "Honest Bill" Miller, chief ramrod of the Spearman Reporter with a brand new line of heads on the front page—eight point caps in a line above 24 or larger. Bill can do anything except gather up Kansas and Oklahoma water and store it in a lake in his home county, no matter what name he gives to the lake.

BOVINE ONOMALY.
In his column of July 27th, Old Tack cites his readers to certain Karakule information in which he states that the Karakule had a calf. That's nothing. There was a time in the Panhandle when a fellow could head into winter with 200 steers and land in June with a 250 calf crop. The critters were simply wonderful at production in the good old Panhandle.

SHORT-POTTED.
And a friend of ours who usually shops out of town has cured herself of it. She bot a paper of pins labeled,

"Five Hundred Pins for Ten Cents" and she counted them and they were ten short.

"A man can pouch his cheeks with tobacco with the juice running down his chin, but a hair in the butter simply knocks him out."

In reading over some things to do in an emergency in a magazine recently I was so pleased to learn that if one should accidentally fall into deep water the first thing one must do is to keep afloat. I really had suspected that all along.

MIDWAY

Mrs. Meaders is taking treatment from doctors at Amarillo.

Mr. and Mrs. Edwin Eanes, Mr. and Mrs. Floyd Naylor and Mr. and Mrs. Glenn Wood of Amarillo returned Saturday from a vacation trip to Colorado. They report much rain, some fish and a good time.

Mr. W. M. Pickering and Clarence Davis have been measuring the cotton acreage in Midway this week.

Mr. and Mrs. Walter Grant of Snyder arrived here Monday for a visit in

the Longan home. Mr. and Mrs. Grant and family formerly lived at Midway.

HAPPINESS

"Happiness goes out from the heart before it comes in. It never by any chance stays at home. You can harvest it for the common good, but you cannot store it for your individual use. You can lend it, but you cannot borrow it; you can earn it, but you cannot buy it; you can spend it, but you cannot accumulate it. A man must contribute to the stock of hu-

man joys before he can participate in its profits. To seek happiness without giving it is a futile quest; and all our longings for it, if we have not learned to give it to others, are as empty bottles in the wine-cellar of the soul. Happiness never really was any good in this world but to give away."

Mrs. David Johnson and Mr. and Mrs. Ben Hucker and Mrs. Frank Whitlock visited Mr. and Mrs. Ralph Bourland near Quail, and Jim Bourland at Wellington the last of the week.

GARDEN GLANCES
"America beautiful lies in the hands of the gardeners."
"Mistress Mary, quite contrary, How does your garden grow?"
The dahlias wilt and the petals of the roses and fragile gladiolus are ruined by the sun before noon. If one can afford the water the trees and grass are not effected by the dry weather and intense heat.

Have you noticed the lovely lawn at the Wesley Knorrp home? It is lovelier than I have ever seen it. The lawn of the Charley McMurtry home is pretty, too. The John Molesworth home has green turf, and a border of flowers across the front. The Clarence Peabody lawn is well kept also.

There are attractively arranged baskets with growing plants, and other features on various lawns. Mrs. Jim McMurtry has a colorful basket of petunias. Mrs. Boston has an old kettle of verbenas. Don't neglect to notice the lovely pine near the pool in Allen Bryan's lawn, and the catalpa in the background. The lawn is being improved at the Latson apartment near the Baptist church. The tallman rose bush on the right by the window is seldom without a bloom. The blooming moss mornings is always so cheerful bordering Mrs.

Mrs. Thel Drennan and baby from near Electra are spending this week with her mother, Mrs. Mary Swinburne.

Mr. and Mrs. C. Phillips and daughters of Olton spent last week with Mrs. Phillip's parents, Mr. and Mrs. Pitt Holley. LaNell and Joy are spending this week with their grandparents.

Mr. and Mrs. Van Knox and daughters, Charline and Patricia Ann visited in the home of Mr. and Mrs. Mercer Crane in Goodnight Sunday afternoon.

The club ladies and their families enjoyed a chicken barbecue on the school grounds Monday night.

Miss Mary Graham has returned to Lubbock to resume her work after spending her vacation with her parents, Mr. and Mrs. Jim Graham.

Little Fay Cheatwood was seriously ill several days last week.

Miss Jackie Whisenant and Juanita Kuykendall spent the week end visiting relatives in Amarillo.

The Methodist meeting will begin Sunday. We are looking forward to having Rev. G. T. Palmer conduct the services.

Mr. and Mrs. John H. Watters visited relatives in Memphis Sunday.

Mrs. Alton Meredith and two daughters were visiting in Amarillo the first of the week.

Fat Reducing Diet Outlined

Milk Not a Fattening Food, Says Expert Dietician of A & M

COLLEGE STATION.—General belief that milk is a fattening food and detrimental to girlish figures is a lot of nonsense, according to W. V. Maddox, dairy manufacturing specialist for the A&M College Extension Service.

It is the excess of food, not milk itself, that fattens, yet many people particularly women, deprive themselves of dairy products because of this false idea, Maddox says.

In a reducing diet, he adds, it is necessary to cut the food intake of calories to the desired number; however, certain quantities of minerals, vitamins, and protein foods are essential in maintaining vigorous health. "The nutrition authorities tell us that foods necessary are milk, eggs, fruits, and vegetables," Maddox points out.

A safe reducing diet, the specialist adds, includes the following protective foods daily:

Three glasses of milk—one glass with each meal, or its equivalent in some form of dairy product which will yield 500 calories.

One egg which will give 75 calories.

One serving of fruit, which furnishes approximately 100 calories. Two servings of vegetables, furnishing from 200 to 300 calories. One vegetable should be of the leafy type. This diet gives a total of 925 calories, while most ordinary reducing diets permit from 1,400 to 1,600 calories daily. The remaining 475 to 675 calories may be selected from meats, fish, cereal foods, butter, ice cream, and sugars. After the desired weight has been attained by use of the reducing diet, multiply this weight by 15. The answer approximates the number of calories allowed per day in order to maintain normal weight, Maddox says.

Mexico To Supply Japanese With Oil

One of the strong cards in the hands of the American State Department, in its efforts to obtain protection of American lives and property in China from Japanese aggression, is its ability to shut off American oil and cotton from the Nipponese, who desperately need these commodities to conduct their war in China. Japan now moves its armies and planes with American oil from California, and gets most of its cotton from Texas. If she can arrange to obtain Mexican oil by bartering Japanese products for the needed fuel, efforts of the American State department to discipline Japan and force respect of American rights in the Orient through economic action, will be largely nullified, students of the situation point out.

Mexico has announced completion of a deal to trade \$1,500,000 worth of confiscated oil to Japan for a similar amount of rayon yarn, and prospects are this barter arrangement will be expanded if arrangements to move the oil can be made. Improvement of the Mexican railway lines from Tampico to Salina Cruz, on Mexico's west coast, to deliver oil to Japanese tankers, are said to be under way in Mexico, if financial arrangements can be made. Japan is expected to help finance the necessary railway and harbor improvements.

Johnnie Bates

One of the most outstanding rodeo entertainers in the Southwest is "Bunky" Farrar, midget clown of Azle, Texas who is shown above with his educated donkey. He will be head-lined during the Fourth Annual XII Reunion August 7-8 in Dalhart. Some of his stunts are extremely dangerous and one in particular always raises the crowd to its feet. He has a small barrel around which old auto tires are fitted tightly and painted red. "Bunky" rolls his barrel into the arena, gets a big Brahma bull to chase him. He ducks into the barrel and braces himself just as the bull rushes into the auto tires. Often times "Bunky" and the barrel hurtle half way across the arena.

HISTORY MAKING STOCK SHOW PROSPECTS FOR NEXT SPRING

With forty-five calves on feed in Donley County by twenty-four 4-H and F.F.A. members, the best calf show in the history of the county is in prospect. Forty calves is the largest exhibit ever held to the present time, and a number of these were calves that were placed on feed late in the fall. Each of the above forty-five calves were on feed before the first of June, and some of them tip the scales at 750 pounds at the present time. All of the calves are Herefords.

Three youths are feeding calves for the fourth year, three for the third time, five for the second year, and thirteen are feeding calves for the first time. The young feeders and the number of calves they have in the feed pen are: Johnny Leathers, Carl Morris, and Cleo Russell, five each; Doyle Martin and Billy Thornberry three each; Floyd, Jack, and Leland Lewis will feed four; Edwin Floyd, Joe Williams, and Earl Shannon, two each; Harley Longan, Herschel Brinson, Charles and Williams Sullivan, H. C. Shaw, Harice Green, Cecil Heckman, and Rex Shannon, one each.

Floyd Lane, nephew of Mrs. T. M. Shaver, was here the past few days returning to his home at Edinburg Wednesday.

Paul Slaton is greatly improved in health since going to Mineral Wells. He and Mrs. Slaton and the baby came back to Clarendon Friday.

W. T. Cornelius and children, Wanda Lou and Preston of Altus came Friday to visit his sisters, Mrs. T. Jones and Miss Cora Ferris. Mr. Cornelius went on to Colorado Saturday to move a brother back to Oklahoma.

Latest Burns Starrer Has Him Mule Fancier in "I'm From Missouri"

"I'm From Missouri," a hilarious story about a Missouri mule magnate on the loose in London, continues the trend started in the recent "The Arkansas Traveler," which marked Bob Burns' switch from musical comedy roles to the portrayal of down-to-earth American types. It was such a sensational success that Bob is now rated as the screen's A-1 player of native characters and has stellar rating for the second time in the picture which opens at the Saturday night Prevue.

Starred in a cast that includes Gladys George, Gene Lockhart, George P. Huntley, Judith Barrett, Patricia Morrison and William Henry, Burns plays a rough-hewn mule magnate from the Missouri farm country. The role, incidentally, marks Bob's third change of "allegiance" in three pictures: he was an Oklahoma Senator in "Tropic Holiday," an Arkansas editor in "The Arkansas Traveler," and now he can say with justification, "I'm From Missouri!"

The John C. Moffit-Duke Atteberry plot deals with the escapades of Bob and his wife, Miss George, when they make their first trip abroad, he to convince the British army not to stop buying mules, she to have a fling in British society. Although Burns' plain, Western view of society threatens to ruin Miss George's campaign at several points, his good Yankee hard-headedness not only wins them a real social triumph but cinches a neat deal with the mule-buyers as well.

In addition to the desperate mule-selling campaign, two romances arrive to plague Burns. In one of them a beautiful society matron tries out her considerable charms on him, much to Miss George's annoyance. She's played by Miss Morrison, whose recent performance in J. Edgar Hoover's "Persons in Hiding" established her as a full-fledged star. In the second romance Bob is forced to straighten out the love affair of his flighty sister-in-law, Miss Barrett, who can't make up her mind between

a handsome British diplomat, Huntley, and the "boy back home," William Henry.

THE MACHINE AGE EXONERATED

There are some who believe that our modern "machine age" has contributed largely to our economic ills; that making things better by machinery has caused unemployment.

An official Federal census of unemployment, however, sheds some interesting light to the contrary. Unemployment is highest in the least mechanized occupations, the census has revealed.

For instance, agriculture tops the field with more unemployed than any other occupation. Personal and domestic service is next and building occupations third. The census showed about 680,000 unemployed in agriculture.

In more highly mechanized occupations unemployment was found to be less. Unemployed textile workers numbered only about 187,000 and miscellaneous manufacturing workers without jobs totaled approximately 150,000.

This is added evidence that technological development under the incentive of the American Patent System both develops and protects jobs; that in the long run, machines make not only more jobs but also more and better goods for more people.

THERE'S A DIFFERENCE

Judge: "I cannot conceive of a meaner, more cowardly act than yours of deserting your wife. Do you realize you are a deserter?"

Prisoner: "Well, if you all knowed dat lady as I does, boss, you sho' wouldn't call me no deserter. As is a refugee, dat's what Ah is."

Some Mixture
The chemist read this message: "Please give enclosed child one anecdote, as baby has swallowed a stone date, and is now historical."

A Missourian's natural love for his mule—and his affection for his wife—sends Bob Burns on a heira from his native Missouri to London in his new comedy, "I'm From Missouri." He's shown with his favorite mule, "Samson," in a scene from the picture, which will open its local engagement next Saturday night at the Prevue.

THE WESTERNS

I love to go to the movies when a western's on the bill; no other celluloid photography gives me such a thrill as when the mortgage on the homestead's due and the cattle rustlers ride, and the villain clutches close the girl and claims her for his bride. The hero gets there on the dot, with broad shoulders and jangling spurs. He climbs down from his faithful steed and takes revenge for the villain's slurs. A two-fisted, two gun fighter's man, he knocks those bad hombres out in much less time than it takes Joe Louis to finish off a bout. The villain's sneers are silenced as he dies in agony; it's time for a happy ending, as you can plainly see as the hero clinches the girl friend, and the movie is almost done, as they mount their trusty cayuses and ride toward the setting sun.

Think!

YOUR home, furnishings, automobile and other possessions are valuable. They should be insured: not only against fire but every hazard that threatens. But think before you choose the type of insurance. There is a difference.

Consider this: 4 out of 5 property owners choose Capital Stock Company Fire Insurance because it provides definite protection at a known cost: because it is backed by financial surplus and capital stock as well as legal reserves: because it maintains local Agents for quick, courteous service when you're in trouble.

That's the kind of insurance YOU want! That's the kind of insurance WE supply.

Texas Highway Department

A warning that death rides the center stripe was given by state police today as a study of fatal head-on collisions in June revealed that a high proportion of the deadly crashes occurred on highways.

Of 39 fatal head-on collisions throughout the state last month, 26 took place on highways, as compared with but 13 such accidents in cities and towns.

Motorists were again advised that a center stripe along a highway is a definite regulator of traffic behavior. Drivers are warned not to pass other vehicles when the auxiliary broken stripe is on their side of the center stripe, state police pointed out.

Comparison of fatal highway accidents with the total for all the state—that is, with the total for cities and

towns as well as roads—showed that 24 persons were killed in non-collision crashes on the highways as compared with 37 for all traffic. Speed is the factor which explains the higher proportion of highway deaths in this type of accident, state authorities believe.

Of 24 pedestrians killed and 100 injured in June, nine died and five were injured on the highways. June traffic claimed 128 lives, with four more fatalities resulting from injuries received in previous months.

Brute Strength vs. Electric Service

ONE KILOWATT-HOUR

is equal to the muscle work of a man...

- PUMPING THREE DAYS
- LIFTING WEIGHTS FOUR DAYS
- HAMMERING SIX DAYS
- CARRYING BRICKS FIVE DAYS
- PUSHING WHEELBARROW TEN DAYS
- SHOVELING DIRT ELEVEN DAYS

SPEAKING OF Horse Power

Reddy Kilowatt is one-third stronger.

*Pumping all day— a man's work equals 45 watts, or enough to run small kitchen fan.

*Lifting 65 tons up 4 feet in a day— a man's work equals 33 watts, or enough for heating pad on "low."

*Hammering all day— a man's work equals 23 watts, or enough to run food mixer on low speed.

*Carrying 16.7 tons of brick up 12 feet in a day— a man's work equals 25 watts, or enough for small light bulb.

*Wheeling 51 tons up 3 feet in a day— a man's work equals 12 watts, or enough to run large electric clock.

*Shoveling 25 tons of dirt up 5 feet in a day— a man's work equals 11 watts, or enough to operate small radio.

*Based on average wattage generated.

ONE kilowatt-hour equals 1,000 watts of electric energy. This is one-third more than one horsepower. Therefore, we say: "Reddy Kilowatt is one-third stronger than a horse." And many times stronger than a man!

A man, for example, hammering eight hours does 480,000 foot-pounds of work. It takes 2,655,200 foot-pounds to make one kilowatt-hour. Thus we learn that the man with the hammer does 18 per cent of a kilowatt-hour's work in an average day. This is equal to 180 watts, or, in turn, 22.5 watts per hour. So it takes a man approximately six days to do the same amount of work that Electric Service does in one hour!

It therefore seems futile—and unnecessary—for Men or Women to do work that Reddy Kilowatt can—and should—do. Electric cranes, pumps, hammers, etc., do hard jobs more cheaply and efficiently than men.

Why do Women continue to perform the hard tasks in the home? No one has taken time to figure the foot-pounds of energy she expends in washing clothes and dishes, cooking over flame-type stoves, sweeping and other similar distasteful work. Whatever the amount, it's safe to suppose it might be reduced by two-thirds if the home was ALL-ELECTRIC.

The average residential electric rate is LESS than 5 cents per kilowatt-hour.

West Texas Utilities Company

Plenty of Tobacco and Snuff To Be Bought for State Wards This Year

AUSTIN, Aug. 4.—Bids will be opened Tuesday by the Board of Control for supplying the state's grocery needs for eleemosynary institutions and the prison system. The cost will be between \$300,000 and \$400,000.

Varied are the supplies needed. One of the large items is sugar, of which the board will use 886,200 pounds of cane, 2,944 pounds of brown, 4,800 pounds of cerealse and 6,784 pounds of powdered.

For the men, the state will provide 19,292 pounds of chewing and 209,232 packages of smoking tobacco. Snuff dippers will be provided with 46,048 cans and bottles.

To prepare the food cooked at the institutions, 51,620 pounds of baking powder will be used, and 11,160 pounds of soda.

Plenty of Candy
An estimated 123,800 pounds of blackeye peas will be purchased, with 43,000 pounds of lady peas, 185,400 pounds of lima beans, 215,200

pounds of navy beans, 21,300 pounds of pink beans and 261,000 pounds of pinto beans.

Candy also plays a substantial part in the list. Specifications call for 3,920 pounds of chocolate cream drops, 4,175 pounds of flint stick, 8,870 pounds of mixed and 6,975 pounds of sugar stick.

The state will use 109,000 pounds of green and 118,050 pounds of roasted coffee.

Will Make Cans in Prison
In addition to the purchases of canned goods from manufacturers, the state also uses a large quantity canned at the prison and eleemosynary farms.

A plant to manufacture the \$35,000 worth of cans purchased yearly will be installed at the Sugarland farm. Bids for the machinery will be opened August 10. Annually the state now buys 1,000,000 cans.

A contract was let to a Houston firm for 500 tons of steel for manu-

facturing the 1940 automobile license plates. The cost was approximately \$50,000. Tuesday the board will open bids on about \$25,000 worth of paint and enamel to be used on the plates.

Most Criminals Begin Under 25

Car Theft Leads List With 20.1 Percent in Texas

AUSTIN.—The greatest single age-group in the Texas crime world is made up of young people under 25 years of age, state police noted recently from a six-month survey based on finger print cards received by the division of identification and records.

Of 16,079 persons charged with various offenses ranging from murder to vagrancy, 38.6 per cent of the male offenders were under 25 years and 48.2 per cent of the female offenders were under that age.

Because it is the policy of some agencies not to fingerprint juveniles, the percentage of youthful offenders was probably understated, state police pointed out, but nevertheless more than 17 per cent of the boys and 18 per cent of the girls were under 20.

Colonel Homer Garrison, Jr., state police director, pointed to the fact that the percentage of young offenders is virtually "fixed"—that is, it does not vary impressively from one six-month period to another.

"It's illuminating, though scarcely reassuring, to follow the progress-in-crime of these age groups. The youngsters under 20 are most likely to steal automobiles. Those under 25 are still mostly engrossed with crimes against property, but by the time they are edging toward 30 they are

being arrested for such crimes against person as murder, rape, robbery and aggravated assault."

Car theft, the survey shows, claims its greatest number of offenders—40.1 per cent—in youths under 25. Slightly more than 25 per cent of car thieves are between the ages of 20 and 24, and thereafter the percentage drops as age increases until it dwindles off almost entirely past middle age.

Burglary shows the same trend, although not so decidedly. Percentages for this offense range from 39 per cent for boys under 20 to 24.2 per cent for young men between 20 and 24 and then downward as age increases.

Although more than 22 per cent of the offenders arrested for robbery are youngsters under 20, the percentage grows to more than 25 per cent for the next age-group of 20 to 24, is still at more than 20 per cent for young men between 25 and 29, and declines only to 14.3 per cent for men between 30 and 34. In other words, it becomes a sustained career, Col. Garrison observed.

Murder grows in percentage from slightly more than 5 per cent for the youngsters and 9.6 per cent for youths between 20 and 24 years to 23.5 per cent for men between 25 and 29 years of age, 20.6 per cent for those in their early 30's, and 14.7 for between 35 and 39.

Both drunkenness and driving while intoxicated are offenses with high percentages in age groups between 25 and 40.

Among female offenders, prostitution claims more than 18 per cent under 20 years, 43 per cent between 20 and 24 years, 17 per cent between 25 and 29 and 13 per cent between 30 and 34 years. The largest percentage of women forgers are those between 25 and 30 years old, and the largest percentage of petty thieves are women in the same age group.

Helen Keller Gets Barkless "Seeing Eye" Dog

HELEN KELLER, famous deaf, dumb and blind lecturer greets her new "seeing eye" dog, Kanzan Go, upon his arrival at New York after completing an 11,000-mile journey from Japan by steamship. Especially trained for Miss Keller's use by the Tokyo Police Department, Kanzan Go, a shaggy, barkless Akita, was presented by the Japanese Foreign Office, equivalent to the U. S. State Department, to replace a similar dog that died two years ago while Miss Keller was lecturing in Japan.

FARMER LOSES CASH SAVED TO PAY DEBTS

A dream bubble burst short of its realization for a Montague county farmer Monday afternoon.

Like most everyone else, M. B. Hopkins, farmer residing on rural route 1, near Sunset, had of necessity made financial obligations which some day must be paid.

To pay them meant consistent saving and although conditions had made it difficult to do so, Hopkins had saved a little through the years and concealed the cash in two glass jars in the cellar at his home.

He had been able to save approximately \$700 and his dream of paying his obligations was nearing realization. But sometimes fate steps in as

it did for Hopkins.

He called at police headquarters here Tuesday morning to report that a member of the family visited the basement Monday and discovered the jars and money were missing.

VISIT IN LOUISIANA

Mr. and Mrs. Clarence Whitlock and Mr. and Mrs. George McCleskey returned Monday from a vacation trip that took them to New Orleans, Shreveport, Weatherford and other places to see relatives.

John Sims of near Pampa was in town Monday.

Mrs. G. A. Goin and two children of near Goodnight were in Clarendon Saturday.

Meat When It's Short On Meat

Often Mixed With Grain Starch, Flour, Other Adulterants

AUSTIN, Aug. 3.—At a meeting held in Austin by the State Department of Health with the meat packers of Texas to discuss new rules and regulations governing the preparation of meat and meat products, the rules adopted met with the approval of those present. Briefly the new rules are:

Meat, meat by-products or prepared meats shall not contain cereal, vegetable starch or vegetable flour, individually or collectively in excess of 3½ per cent.

To facilitate grinding, chopping and mixing not more than 3 per cent of water or ice may be added to sausage. These meats or meat by-products shall not contain any artificial coloring nor any quantity of soy bean flour or any other product of the soy bean.

Milk, skimmed milk, dried milk, dried skimmed milk, malted milk, and analogous substances and products which may be approved for such purpose by the Federal Department of Agriculture, may be added to meat, meat by-products, prepared meats and meat food products, provided their use does not result in added water or moisture in excess of 3.5 per cent. Meat, meat by-products, prepared meats and meat food products shall not contain dried milk, dried skimmed milk, malted milk, or other dehydrated milk product, in excess of 3.5 per cent, and if cereal, vegetable starch or vegetable flour is also added, the combined amount of cereal, vegetable starch, vegetable flour, and dehydrated milk product shall not exceed 3.5 per cent. Meat, meat by-products, prepared meats and meat food products shall not contain any quantity of artificial color.

These regulations were prepared by the State Department of Health in order to protect the consuming public against adulteration and to assure them that they are getting a pure product when making purchases of ground meat.

Margaret Blackwell of Lubbock is vacationing here with her folks.

Mrs. Ruth Walling of Los Angeles, Calif. is here now.

PUBLIC WARNED THAT ANY COUGH MAY PROVE DANGEROUS

Effective Treatment For Cold Coughs Is Cited

If you or any member of your family is suffering from a lingering cough, and do not know its cause, call your doctor at once. You might have the start of a serious ailment and need immediate attention. Homemade remedies and mild cough preparations are seldom effective. Even coughs or bronchial irri-

tations due to colds or exposure need a real medicine.

Mentho-Mulsion, like a doctor's prescription, contains those different medical ingredients which bring cough relief, and is fortified with both Vitamins "A" and "D."

Buy a bottle of Mentho-Mulsion from your druggist. The very first dose must start you on the road to cough relief or your druggist will return your money.

Mentho-Mulsion, now only 75c is sold and guaranteed by good druggists everywhere.—adv.

Banking in Tomorrow's World

The trend of banking has been toward more complete financial services for the individual. In part this trend is due to the desire of banks to be of maximum helpfulness, and in part to the growing complexity of modern life, which accents the importance of individual financial management.

This trend will continue, we believe, into the world of tomorrow. This bank, for one, will continue to study the needs of the average individual and to provide new or improved banking services whenever necessary.

MEMPHIS REVIEWS 49 YEARS WITH GENUINE OLD-TIME FETE

Thursday and Friday will be long remembered by the fifteen thousand or more people who attended the two-day fete in Memphis Thursday and Friday. And they say the show next year in observance of their golden jubilee will be bigger and better.

The parade, some two miles in length, featured Indians, stage coaches and many other relics of pioneer days. Real cowboys were numerous. It was a great day for Memphis.

In the contest for out-of-town sponsors, Miss Elizabeth Miller, 17-year-old daughter of Mr. and Mrs. R. C. Miller of Snyder, won the \$125 saddle offered as first prize. This is four saddles she has won in sponsor contests, one at Stamford, one at Big Spring, one at the Double Heart Ranch, Sweetwater, and the one at Memphis. Miss Fern Sawyer of Brownfield and Miss Penelope Blocker of Clarendon tied for second place. Miss Glow Rhoades of Throckmorton was next and little Miss Saley Small of Shamrock was next.

Mayor J. C. Wells was master of

ceremonies. Editor Deskin Wells of Wellington was the principal speaker the first day, and Senator Clint C. Small the second day.

The pioneer barbecue was given complimentary to the old-timers Friday.

The Comanche Indians directed by Chief Baldwin Parker, put on a show. Baldwin is a son of Quannah Parker, late chief of the tribe who figured in the Adobe Walls battle in the '70s.

A rodeo at the Stadium both afternoon and night of the two days drew thousands from many sections outside Hall county.

RETURNS FROM CHICAGO

Miss Lorene Hayes, who has been attending the University of Chicago this summer, has returned home. She will again teach at the Spade school in Lamb county. She is a daughter of Mr. and Mrs. E. G. Hayes here.

Rollie Brumley of McCamey is here today to join his family who have been visiting here several days.

WENT TO CONVENTION

Elmer G. Hayes attended the postal clerks convention in Abilene last week. He was accompanied by Mrs. Hayes and daughter Leona. They visited relatives in Ft. Worth and Cooper before returning home.

Miss Berdine Wallace of Memphis is a guest of Mrs. A. C. Donnell.
