MORE LOW DOWN STUFF.
Coming from what is believed to be a reliable source, information has it that Gov. O'Daniel is gathering a mass of evidence of questionable political activity on those who will oppose him for re-election. It is said that he will loose his guns on the 'enemies' at the proper time, and that there will be a mad scramble to get under cover. It will be interesting to watch and see just what becomes of this bit of information from the inside. If he really has the goods, and can deliver bona fide evidence of guilt, Texas will rise up and thank him for bringing it to light. That may be the basis for his re-election.
ECONOMY IN GOVERNMENT.
In speaking before the Young Democrat meeting in Amarillo, the redoubtable John L. McCarty gave expression to a lot of sensible ideas. He listed five ways to effect big government economies:
1. Consolidate county governments, probably making one county out of four of the present ones.
2. Eliminate overlapping public agencies, including taxing offices now in "silly" duplication.
3. Make all political subdivisions operate on "pay as you go basis."
4. Select judges for life.
5. Publish items of public expense.
About the first two—the consolidations and eliminating public expense, McCarty claimed government costs could be cut in half.
"If you'll select judges for life, court costs will drop remarkably," he added.
Publishing local government expenses every month, and state accounts every three months would result in saving of 25 per cent, he asserted, explaining that the people should know who's getting public money, how much they are getting, and what for. The keynote speaker had two blows to make at public officials.
THAT NINE POWER PACT.
One can get some idea of how the League of Nations would have served us had we taken that on back there at the close of the World War. We did get into practically the same form of mess in joining the "Nine

Power Pact." The only thing that saved us was that other nations joining in the Pact began to lay down on the job first. The larger and stronger nations agreed to "keep world peace by preventing a stronger nation jumping on a weaker one, etc." All the stronger nations, at least nine of them, joined in the Nine Power Pact. What has happened since then? Ethiopia, Czechoslovakia, Poland and Finland have offered plenty of inducement for aid. Did they get it? Not much!
Then coming right home, your good old Uncle was in on the deal but laid down on China when the Japs began "taking her over."
It all goes to show that our only course is to be as friendly as possible in our relations with other nations, but avoid by all means entangling alliances. They have been singing "God Save the King" in one nation for some time, and it begins to look like God will have to do the saving if any is done.

Ugliest White Man In Texas Campaigning For Rep. Max Boyer

"Honest" Bill Miller, country editor from Spearman, who declares that he is the ugliest white man in Texas, has persuaded Representative Max Boyer to allow him a place on his campaign staff. Miller has been in the country newspaper business in West Texas for the past 14 years. He has served as Editor-Manager of the Panhandle Herald, White Deer Review, Quitaque Post, and as manager of the Silverton Star and Dimmitt newspaper. He has been Editor-manager of the Spearman Reporter for the past 8 years.
Miller will continue his duties as

James Robert Mace

Mr. Mace was born in Tiper Co., Miss., December 22, 1851. Departed this life March 14, 1940. He joined the Methodist church when he was 18 years of age. On March 7, 1872 he was married to Miss Lucretia Shands. She passed away January 6, 1931. On Sept. 3, 1934 he was married to Mrs. Alto Tobin who survives him.
Twelve children were born to his first marriage, seven of whom survive. They are Mrs. Nettie Williams, Lella Lake; Will Mace, Lella Lake; James Mace, Tacoma, Washington; Lige Mace, Ft. Worth; Tine Mace, Plainview; Frank Mace, Amarillo; Mrs. Lida Warren, Clarendon. Two step daughters survive, Mrs. Ed Callahan, Lella Lake; and Mrs. Evelyn Murphy, Newlin. One half sister, Mrs. Sarah North of Sayer, Okla., survives.
He leaves 33 living grandchildren and 22 living great grandchildren.
Mr. Mace moved to Texas in 1877, locating in Ellis county where he lived three years. Afterward he lived 24 years in Erath county, and the last 36 years he has lived in Donley county.
He was a steward in the church for 67 years. During all the years of his

"HONEST" BILL MILLER

manager of the Spearman Reporter, devoting two days each week in working in behalf of the candidacy of Rep. Boyer for the office of Senator of the 31st senatorial district.
Interviewed by a City newspaper man in Amarillo regarding Mr. Boyer's campaign platform Miller stated in substance "I forgot to ask Max about it, but if we haven't got one of em, we will build 'er up with West Texas dirt, reinforced with wheat straw and cotton stalks, and soaked in good old West Texas oil. When the sunshine of popular approval gets in its work, we will have an Adobe platform that stretches from Oklahoma to South of the Border down Mexico way.
Until we get our platform builded, Max is running on a record of four years service, the encouragement of 12,000 voters in his district, and a 1937 model popular car. If the car gives down, he will have to hitchhike.
Mrs. Ernest Hunt and daughter Louva were in Amarillo Tuesday where Louva received medical attention.
Donley County Leader, \$1.50 a year.

To The People Of Donley County

Let's get behind this Historical Project which is now operating in the Panhandle, and help to collect the history of Donley County.
This is one of the few remaining localities which has the original sources of information. Let us not overlook this opportunity to get this information from these authentic sources.
We hope to secure an interview with every resident who came to the Panhandle prior to 1900, to get the history of our churches, schools, clubs, etc. And, in addition to this unwritten history, we hope to find relics and written documents that will help to tell the story of the early pioneers, their mode of living, and the development of civilization in the Panhandle.
We ask you as a favor to the coming generations to help in this work by contributing any relic or document that you may have in your possession which will throw light on the early days of this section. Any ranch records, old wills, letters, newspapers or newspaper clippings, diaries, account books of early stores, hotel registers, livery stable account books, or any records of this nature, they will be a valuable addition to our collection. If you have anything of this nature which you would like to place in the museum, get in touch with some member of the board of advisers of this project whose name appears below.
We ask your cooperation.
Signed:

Hieroglyphics May Move Man's Age Back 500,000 Years

MERCED, Cal.—Adrian Hatfield, Turlock amateur geologist, today said man may have lived in California 500,000 years ago, twice as long as modern humans previously were thought to have existed on earth.
The statement was based on studies of hieroglyphics on a rock taken from the Springfield Tunnel mine near Sonora by Miner Tony Cadematori, almost 20 years ago.
The rock was found below a lava table which is thought to be at least 500,000 years old. The hardness of the lava is credited with saving the stone from destruction, wind and water erosion. The lava started crumbling, a "comparatively few years ago," bringing the inscribed stone to view.
The stone bears 30 Y-shaped images. Prof. Phillip Knorr, Modesto Junior College authority on early Indian writing, said the inscriptions probably represent three warriors because one of the symbols is upside down, apparently representing a man killed in war or during a hunt.
It was theorized the rock once was part of a cliff upon which "these three men" wrote their adventures.
Hatfield said little interest was shown in the rock's inscriptions until recently when several prominent geologists studied the symbols.
Mrs. J. R. Ross of Stratford visited her parents, Mr. and Mrs. F. L. Bourland Monday.
Donley County Leader, \$1.50 a year.

What To Plant As Forage Crop

COLLEGE STATION.—This is the season of the year when the farmer starts figuring on what feed crop to plant for silage.
Some crops are high in per ton value; others in yield per acre.
The problem is further complicated by the fact that the value on a per ton basis differs for various kinds of livestock. R. E. Dickson of the Spur Experiment Station found that red top sorghum cane has the same value per ton as hegarri for fattening two-year-old steers. Most authorities agree that hegarri has a greater feed value than red top for dairy cattle and horses.
What the farmer wants is the crop that will return the most dollars per acre.
The following figures, compiled by E. R. Eudaly, dairyman of the Texas A&M Extension Service, may help farmers pick the most profitable crop for silage intended for dairy cows:
The crops are rated on a per ton basis as follows: corn, grain sorghums, sweet sorghums, sudan grass, johnson grass. The difference in per ton value is about 10 percent for each class. Thus, if corn silage is worth \$5 per ton, grain sorghum silage would be valued at \$4.50, sweet sorghum silage at \$4, sudan grass at \$3.50, and johnson grass at \$3.
Using the assigned per ton value and the average yield, corn would return \$20 an acre, grain sorghum \$27, sweet sorghums \$28, and so on. Since farmers have a pretty good idea of the yields of the different feed crops in their communities, the problem is one of multiplication.

TEMPLE OF TRUTH

By the Apostle

MIND AND MATTER, PERHAPS.
Dieting is the triumph of mind over platter.

HOLLYWOOD DOINS.
We get the impression, from reading the papers, that when Hollywood actors and actresses are not acting, they are acting up.

WEALTH THAT COUNTS.
Quit sighing for wealth. Go home and look at your wife and kiddies and realize that you are the richest man on earth. Many a man would give his millions for just such a picture in real life with himself as the principal actor.

PILLAR OF CIVILIZATION.
Respect for constituted authority is one of the essentials of good government. The courts ought to be the final arbiters in every case where the public good is at stake. When the courts fail, civilization crumbles.

YEH, WHY LIVE?
The old beaver who did a shag dance with his nurse at 105 attributed his longevity to the fact that he ate no meat, used no tobacco, coffee or liquor and steered clear of women. Who wants to live 105 years, anyhow?

SANDSTORMS AGAIN.
About this time every year, the Southwest has its high winds and consequently sandstorms. "What are sandstorms good for anyhow?" inquires a reader of this column. Well, lady, your nose becomes so inflamed that halitosis is unnoticed. In fact after a few sandstorms, you couldn't smell a garlic eating billygoat chas-

ing a skunk through a glue factory. There's some good in everything.

OUR WEAKLY POME.
It's great to say "Goodmornin'"; It's fine to say "hello," But better still to grasp a hand Of some loyal friend you know.

A look may be forgotten, A word misunderstood, But the touch of a human hand Is the pledge of brotherhood.

AIR GETTING SLOPPY.
There is such a similarity in all radio advertising that if you don't catch the name of the sponsor, it all sounds like cigars, toothpaste, headache powders and laxatives that are gentle.

GRABBED WRONG NAME.
Recently in this column the writer referred to a certain cowpuncher who collected hat linings from which he pieced quilts. The name given was Skilly Bill Johnson. Comes now none other than Judge J. A. Mead of Miami to set us straight. It was Clem Johnson, well known to both the Judge and the writer, and the error should have never occurred. Clem is an old man now, but husky. He resides at San Jon, N. M. Skilly Bill is said to have died up in the Perryton country some three years ago.

TWO LINES BEAT ONE.
We have been hearing a lot about the "Magenot Line," the "Seigfried Line," and the "Mannerheim Line," and while we do not envy either of those nations, still we do more on the Atlantic Line and the Pacific Line to protect us from cusses who can't get along with themselves or anybody else.

Hodge Adamson and Marshall Stone of the Hedley county were in town Monday.

Mr. and Mrs. Ray Robertson are the proud parents of a son, Dudley Ray, born March 18, weight 10 lbs.

Pershing Opposed 1918 Armistice, Wanted 'Complete Victory' As End

Gen. John J. Pershing opposed the 1918 Armistice with Germany and wanted the Allies to push on to "complete victory" and "unconditional surrender" of the Germans.

This was disclosed Feb. 25 when the State Department published the second volume of the papers of Robert Lansing, secretary of state during the World War. The volume also reveals that a year earlier Lansing had expressed to President Wilson a distrust of peace proposals by Pope Benedict, because he suspected the Pope had become the unwitting "agent of Germany."

Pershing's attitude toward the Armistice is set forth in a letter from Col. Edward M. House to President Wilson enclosing recommendations made by the American general to the Allied Supreme War Council on October 30, 1918, when overtures already were being received from the Central powers for an Armistice.

The commander-in-chief of the American forces contended that the Allies were gradually increasing in strength through American assistance and the Germans were weakening; morale was high on the Allied side, low on the other; the Germans might use an armistice to revivify their army, and the Allies might lose the chance to secure permanent world peace.

House's letter contains sarcastic comments on Pershing's initiative from David Lloyd George, Georges Clemenceau and himself.

The American General said that a cessation of hostilities short of capitulation would postpone, if not prevent, the imposition of satisfactory peace terms.

"I believe that complete victory can only be obtained by continuing the war until we force unconditional surrender from Germany; but of the

Allied governments decide to grant an armistice the terms should be so rigid that under no circumstances could Germany again take up arms."

House, in the accompanying letter to Wilson, quoted Lloyd George as commenting, after reading the recommendations: "Political not military; some one put him up to it."

Clemenceau commented, "Theatrical and not in accordance with what he has said to Marshall Foch."

MEMORY LANE

(Taken from The Donley County Leader 10 years ago.)

Rev. A. V. Neeley, 83, was fatally injured when struck by a car Sunday night on East First street while he was going home from church.

A modern home with all features was begun by D. W. Clappitt and son Roy this week next to the Baptist parsonage.

A number of local people are going to Amarillo where it is said a Rev. Wigglesworth has church attendants cured by prayer.

Ernest Lee and Sam Thomas captured here recently while they are said to have been trying to break into the Palmer motor company building, were taken back to California Monday where they are charged with stealing their car.

Miss Georgia Brown, colorful character who came to Clarendon before the railroad, died Sunday night. As a servant in the homes of many old timers at various periods, Georgia had many friends in her old days. She is said to have come here with the mother of Winks Adams in the early 80's.

Sunday Tuesday, due to the serious illness of her mother, Mrs. M. J. Emerson.

Mrs. W. L. Sasser of Lubbock is visiting her parents, Mr. and Mrs. John Bass.

Mesdames Barney Blair, Ermine Blair, Henry Melton, Myrl Lynn are shopping in Amarillo today.

Mrs. Lena Antrobus is visiting her daughter, Mrs. Stargel and family in Oklahoma City.

Mr. and Mrs. Karl Adams and daughter June were in Amarillo Monday.

Mr. and Mrs. Harvey Patchin and Mr. and Mrs. Morris Patchin of Borger spent Sunday with their mother here.

Mr. and Mrs. Edley Crabtree of Stratford were here on business Monday.

W. C. Stewart, former resident and now engaged in the plumbing business in Dallas, was in town Tuesday.

Mr. and Mrs. C. C. Gilbert returned Sunday after spending a month or more in Mineral Wells.

and Mrs. D. B. Perdue of Clarendon. Mr. and Mrs. Edgar Talley and children spent Sunday afternoon visiting in Clarendon.

Ann Marie Rainey visited with Freda Putman Sunday.

Mr. and Mrs. Tims and baby visited in Clarendon Tuesday afternoon.

Grandma Harrison returned home Sunday after some months visiting in Waco, Texas.

Mrs. Putman and Joan called on Mrs. Harp Friday afternoon.

Mr. McGlone is having his land terraced this week.

Mrs. Pat Cearley called on Mrs. John Fowlkes Thursday morning.

Mr. V. D. Roy and family visited in the D. B. Perdue home Tuesday afternoon.

Everyone remember we have singing every Sunday night, and we will be glad for everyone to come and help us out.

Willard Higdon ate supper with Lamar Stewart Sunday afternoon.

GOLDSTON
Peggy Stewart

Goldston had a good singing Sunday night with visitors from Groom attending.
Mr. and Mrs. W. C. Higdon spent Sunday with Mr. and Mrs. Richard Dingler and family at Martin.
Mr. and Mrs. Earl Porter and family and Mr. and Mrs. Roy Stewart and son visited Mr. and Mrs. J. A. Stewart and family Friday night.
Mr. and Mrs. Jim Pegram spent Sunday in Quail.
The young folks Sunday school class had an Easter party Saturday night.
Mr. and Mrs. Brock spent Sunday with Mr. and Mrs. Jordan and family at Martia.

Claude Bank Has \$2 Bills

When one is seen with a two dollar bill, its source may be easily traced to the Claude bank up on the plains. That bank has specialized in bills of this value for some time. They do so for the convenience of their customers. It cuts down the average bulk by half when one comes to think of the many times that a pocket or purse is full of one dollar bills. No other bank specializes in \$2 bills in this manner so far as known at this time.
Mr. and Mrs. Verna Lusk were in Amarillo Monday.
Mr. and Mrs. Irvin Alderson of MeLean were over Sunday to spend the day with his son, Mr. and Mrs. Earl Alderson and babe.

PLAY SAFE

SINCLAIR-ize
your car for
SUMMER
Is your car safe for summer driving? The answer is no, if you still have winter-grade lubricants in transmission, differential and crankcase. Sinclair Dealers have a special service which makes your car safer for summer driving. This service meets manufacturer recommendations. It is called Sinclair-ize for Summer Service and includes:
1. TRANSMISSION AND DIFFERENTIAL drained, flushed and refilled.
2. CRANKCASE drained, flushed and refilled.
3. FRONT WHEELS pulled and re-lubricated, as your car manufacturer recommends.
4. RADIATOR cleaned of anti-freeze, rust and sludge.
5. CHASSIS lubricated.
6. BATTERY tested and refilled to proper level.
7. SPARK PLUGS cleaned and adjusted.
BE SAFE! See your nearby Sinclair Dealer. Have him Sinclair-ize your car today.
F. J. Hommel

MIDWAY
Mrs. John Goldston

We wish to say "Thank you" to the readers of the Leader in different parts of the state and other states; also in Donley county, and last but not least our neighbors who have been so kind as to inquire about our Midway news items when they failed to appear a few weeks back.
From Los Angeles, Calif., Georgia, Arkansas and different parts of Texas, former residents have said that they look for the Midway news first, and are disappointed if there is none. Thanks, we will try not to disappoint you.
We are beginning to hear the hum of the tractors. Some have their land up, others beginning. Every one

seems eager to begin the farming year and with more enthusiasm than usual. Let's hope for a good crop year.
Mr. Davis has bought a new tractor, also Mr. Tankersley and Donald Harlen. Some are taking their tractors in for overhauling, while some have bought new teams or traded for better ones.
Letters were received Friday that work would begin at once on the rural electric line, and that the work would be finished in a short time. Most all the houses here have been wired, or wires rearranged to suit the demand.
At most every home you can hear the 'peep peep' of hundreds of little chickens, getting ready for the market or for the egg crates this fall. Gardens are being prepared ready for planting on Good Friday. Some

have already planted onions, potatoes and English peas, and their hot beds.
The women are all talking flowers, and planning on more and more beautiful flowers for this year.
A flower exchange has been arranged for the next meeting of the Naylor Birthday Club. Everyone that has a surplus of one kind of flower, flower seed or garden seed or plant, are to bring them and exchange for some they do not have.
Let's make Midway more beautiful as well as prosperous.
Some new government dams are being built here also.
Mr. and Mrs. Travis Reeves of Lelia Lake have moved to the old Pierce farm in the Naylor community. We are delighted to have this young couple and lovely daughter in our midst.
Mr. and Mrs. Quattlebaum went to Amarillo Thursday. Mr. Quattlebaum is under treatment of Dr. there.
Mrs. Hefner who has also been under treatment of Dr., accompanied them.
Mr. and Mrs. LaVern Goldston attended a party in the Jack Pegram home at Goldston Thursday evening.
Mr. and Mrs. Bob Williams have been at the bed side of their grandfather, Mr. Mace who passed away Thursday morning.
Betty John Goldston and Jaunita Bingham spent Wednesday night with Mr. and Mrs. Joe Goldston in Clarendon.
Mr. Ernest Davis of Silverton was

THE RECORD... Facts That Concern You
No. 16 of a Series
"THANKS FOR A LOVELY EVENING..."
A new kind of beer retailing is bringing wholesome recreation to millions of Americans!
America's new kind of beer retailer wants to sell good beer, of course... but he is also keenly aware of his social responsibility to the community. He makes sure that his place is clean and inviting—and scrupulously free of anti-social influences of any kind.
The Brewing Industry wants all of beer's retailers to be of this type. We do not want any other kind. And we are taking action to eliminate any abuses in beer retailing that may occur.
We have instituted a new plan... now in effect in a few states and being extended as rapidly as possible... to protect your right to drink good beer in decent surroundings. May we tell you about it... in an interesting free booklet? Write: United Brewers Industrial Foundation, 19 East 40th Street, New York, N. Y.
BEER... a beverage of moderation

Jane Withers Makes Real Debut As 'Frosh' Friday

In keeping with a plan to have Jane Withers' screen life keep pace with her real life, 20th Century-Fox is starring the popular 13-year old in "High School" in celebration of her actual entrance into the halls of higher learning.

The comedy, which opens Friday at the Pastime Theatre, shows Jane to be quite a "young lady," and deals with all the highlights, and heart-throbs of a "frosh" life when Jane starts stepping out and her mind turns to dates, party dresses, school spirit and campus shindigs.

And what's more the star of the football team develops a terrific crush on Jane! This lad is played by Joe Brown, Jr. (no relation to the star of that name), whose carrot-topped, freckled face first attracted studio executives when he saw it grinning from a billboard advertising a motor oil. Joe's an ace jittersbug and so is Jane, so of course there's jitterbuggery afoot in "High School."

An interesting sidelight on the picture is the fact that Jane Withers' fan mail was responsible for a new opening scene being substituted for the original one.

A checkup of letters received by the studio showed that eight out of every ten letters requested that Jane

do more singing and dancing on the screen.

As a result, Associate Producer John Stone ordered scenarists Jack Jungmeyer, Edith Skouras and Harold Tarshis to alter the opening scene so that, instead of riding a cow pony and "bull-dogging" a steer, she sings and dances with Cliff "Ukelele Ike" Edwards. The number, "The Old Chisholm Trail," was given new lyrics by Sidney Clare, studio tunesmith. Incidentally, Jane's very first stage performance, at the age of three, was an imitation of Ukelele Ike.

"High School" was filmed with the cooperation of the famous Thomas Jefferson High School in San Antonio, Texas. With Jane becoming a member of the renowned Girls' Lasso Club at the school, the film gives a real insight into the school life of typical American students.

TWO DOES KILLED IN COLLISION

Several hundred deer are killed on Texas highways each year, but the first report in recent years of two being slain at one time reached the state Game Department recently.

J. A. Lott of Carlsbad, N. M., a former Texas resident, was driving near Kerrville at dusk recently when two does loped into the path of his automobile. One deer was hit by a bumper while the other ran head-on into the side of the car.

Mrs. H. A. Hill and son, George Lynn, of Denver, Colo., do spend the week end here with her parents, Mr. and Mrs. Dick Allen.

Jane Withers may be stepping out and going to high school, but there's still plenty of mischief-making fun in the 20th Century-Fox star whose latest comedy, "High School," opens Friday at the Pastime Theatre.

New Farm Leaders

Two dirt farmers, with a combined experience of 51 years of farm operation and leadership, are now in the No. 2 and No. 3 posts of the Nation's Department of Agriculture.

Grover B. Hill, who was named Assistant Secretary of Agriculture in December, has been a Texas rancher and farmer since 1911. Claude R. Wickard, newly appointed Under Secretary of Agriculture, has farmed a general grain and livestock farm near Camden, Ind., for nearly a quarter of a century. Both men have been associated with administrative work of the AAA Farm Program in recent years.

Mr. Hill, 51, was named a field representative of the AAA in 1934, after serving on a committee which drafted the AAA Range Program. Since 1936 he has been in charge of

the range program for the Southern Region of the AAA. During the drought of 1934, he directed the regional cattle-buying program in New Mexico, Texas and Oklahoma. He studied at the University of Texas from 1909 to 1911, after which he went into ranching and farming near Amarillo.

The new Under Secretary first became connected with the Agricultural Adjustment Administration in 1933 and in 1936 he was made director of the North Central Division of the AAA. As director of the division, which includes the Corn Belt States, Mr. Wickard stressed farmer-administration of the AAA. Mr. Wickard, now 47, has operated the same Indiana farm which was farmed by his father and grandfather. He graduated from Purdue University in 1915 and in 1927 was named a Master farmer of Indiana in recognition of his work as a farm leader.

DO YOU KNOW TEXAS?

A reader of this newspaper can get the answer to any Question of Fact by writing to A. Garland Adair, Curator of Patriotic Exhibits, Texas Memorial Museum, Box 1770 University Station, Austin, Texas.

Q. Who is the only Texan ever to serve as vice-president of the U. S.?
A. John Nance Garner, the present vice-president, was born in Red River County, Texas, and his citizenship has always been and is now in Texas. He is the only native Texan to serve in that office.

Q. Who holds the record of having witnessed the largest number of football games played between the University of Texas and Texas A&M on Thanksgiving day? AMF.
A. I. V. Dunnean of the D-Cross Ranch near Eagle Lake, Texas, on Thanksgiving Day, 1939, witnessed his fortieth successive game between these two institutions. In three of the games he participated while a student at the University of Texas, being captain of the Longhorns in 1902.

Q. Did Sam Houston encourage the sending of Federal troops to Texas during the war between the states? C. S.
A. No. Just before Houston was deposed as Governor, Lincoln sent a special messenger to Austin disguised as a horse trader, proposing to send at once fifty thousand men to hold Texas in the Union. Houston replied, "Every drop of blood will I give for Texas, and not one drop against Texas."

Q. What is the largest land grant recorded in the State Land Department?
A. According to Bascom Giles, Commissioner of the General Land Office, the largest grant in Texas was that issued to Jose Narcisco Cavazos in 1792 and recorded as the San Juan de Carretillos grant. It begins at about the middle of Cameron County, takes a strip off Hidalgo County, runs north across Willacy County, and enters into about one third of Kennedy County. It contains 135 square leagues, or 601,657 acres. Captain Richard King acquired an interest in it, and it still forms a part of the King Ranch.

New Fossils Are Added To P.-P. Museum

HYENA, FISH AND INSECTS ARE LATEST PANHANDLE FIND

CANYON, Feb. 25.—A new find in the Palo Duro canyon excavations sponsored by West Texas State College and unearthed by WPA scientific project crews is a species of hyena never before discovered in this country.

Tentative identification made here has been confirmed by paleontologists of the University of California. Mrs. C. Stuart Johnston is supervisor of the project, on which about 25 men are working.

A continuation of the project, with increases in the number of workmen to 42 has been asked by the College. The new grant would make possible excavations in several Panhandle counties.

Cataloging of archaeological materials and cross-filing of paleontological collections are being directed by Wayne Christian, field and laboratory supervisor. Meanwhile, history and archaeological field projects are continuing with ample funds and enriching the museum each month.

Fossil fish collections have been sent to the University of Oklahoma

for study and insect fossils have been sent to the University of Chicago. These were taken from shale beds west of Channing. Some of these fossils are so faithful in detail that outlines of digestive systems of fish and antennae of mosquitoes can be noted.

Sheppard Boosts Garner Campaign

DALLAS, March 21.—In a nationwide radio address Saturday, March 23, Senator Morris Sheppard, senior Senator from Texas and long-time friend of his fellow-Texan, John Nance Garner, will present Vice President Garner's presidential qualifications to the American people.

The address will be delivered in Washington and will be broadcast over the coast-to-coast network of the National Broadcasting Company, Garner-for-President headquarters in Dallas announced today. The broadcast will be heard at 7:45 p. m., Texas time.

Texans will receive the broadcast via WFAA-WBAP in Dallas-Fort Worth, WOAI in San Antonio, and KPRC in Houston.

Senator Sheppard, distinguished statesman and ardent dry leader, will discuss Mr. Garner's long record of public service and his sterling character.

Donley County Leader, \$1.50 a year.

20 STATES REPORT WONDERFUL RESULTS FROM MENTHO-MULSION COUGH MEDICINE

From All Walks of Life Come Glowing Reports.

An Ohio minister says: "I recommend Mentho-Mulsion to my entire congregation for the treatment of coughs due to colds."

A Minnesota druggist thinks Mentho-Mulsion the finest cough medicine he ever had in his store.

A Georgia physician reports: "I write more prescriptions for

Mentho-Mulsion than for all other cough preparations combined."

If you are suffering from a common cough due to exposure or a minor bronchial irritation, get a bottle of Mentho-Mulsion today.

Mentho-Mulsion is guaranteed to give you complete satisfaction or your druggist will refund your money. Mentho-Mulsion is sold, recommended and guaranteed by good druggists everywhere.—adv.

Our work has just begun

YOU think electric service is a wonderful thing—and it is. It lights our homes. It makes our streets safe at night. Turns wheels in factories. Lifts the burden of housework. Helps make the good things of life cost less.

Really, there doesn't seem much left for electricity to do, does there?

Yet we employees of your electric company believe that every service and comfort electricity now gives you is but a beginning of what's to come.

Why, today we don't even know what electricity is. We simply know and enjoy some of the things it is capable of doing every moment of the day and night. But we also know that there are still a great many undiscovered tasks for electric service.

Who will perform these miracles-to-come?

The men who serve you note—the same great army of skilled technicians, capable managers and loyal employees whose tireless efforts in your behalf have already vastly improved the service your electric company gives you, already drastically reduced its cost.

No, it isn't an accident that electricity has reached its greatest present development in the United States: The reason is that these thousands of men and women in the electrical industry have the American spirit of initiative—the good old-fashioned kind.

Their work, and theirs alone, makes your electric service the best in the world. It's an amazing service: It gets better and better, costs less and less.

Your electric company doesn't often think about the work it has done because it is too busy planning the work that lies ahead.

MORE FOR YOUR MONEY
In the last 10 to 15 years, the engineering improvements and operating economies of your electric company have made it possible to cut the average price of household electricity just about in half. Many customers now using more household appliances, lots of lights, a radio, and refrigerator pay very little more to operate all of these than they used to pay for light alone.

Deferred Grazing Practices Announced

The State Agricultural Conservation Committee at their last meeting approved certain practices under deferred grazing for Donley County under the 1940 Range Program. Eradication of shin oak and beargrass was approved at 50¢ per acre for infestation of 5 to 20%; \$1.00 per acre for density of 21 to 40% and \$2.00 per acre for density of 41% or more. Eradication of cockle-burs using the above degrees of infestation was 50¢, 75¢ and \$1.00 per acre. Piling of brush, rock or beargrass in washes was approved. The rates of pay and specifications are yet to be set by the County Committee.

Also on the approved list was elimination of Kangaroo rats and prairie dogs at a rate of 75¢ per acre.

For any ranch operator to be paid for carrying out these practices he must be deferring range land under the program and have approval of the County Committee for the practices he wishes to carry out.
