## Fervent Music Marks Easter Holy Day Here

### LARGE NUMBER IS PRESENT TO HEAR COMMUNITY CHOIR PRESENT PROGRAM

Fervent and inspired singing of Fred B. Holton's "The Life Eternal" at the Methodist church Sunday night with a combined church choir of some forty voices marked one of the most impressive Easter presentations in years. In the success of the cantata, much credit is given the director, Mrs. H. R. Beck for her skill in directing, with Mrs. Rayburn Smith as organist. It fittingly carried on the laudable Easter institution of the Methodist church over a number of years. Chilling blasts failed to dampen the ardor of the faithful. The church was crowded with worshippers at the morning service with a number of additions to the church, pastor H. C. Gordon stated. The night service was augmented by a still larger attendance evidently not due to any desire to display Easter fashions because the flimsy Easter wear was left at home out of respect to the extremely cool weather.

## Haile Family Home Coming

### FATHER OF CLAN CELEBRATES SEVENTIETH BIRTHDAY HERE SUNDAY

All the Hailes gathered here Sunday and hailed the father of the family, W. B. Haile, pioneer of northwest Texas and outstanding citizen. All of his children were present, some coming from other states. It was Mr. Haile's 70th birthday. The gathering was in the home of Mr. and Mrs. Clyde Martin, a daughter, and eighteen sat down to a table laden with food at the noon hour. A candle was placed at each end of the table, and a large birthday cake bearing seventy candles was in the center of the table. Children present were Mrs. J. Monroe Herrington from Rogers, Ark.; Wm. C. Haile flew over from Venice, Calif.; Mrs. Buel Gray, Borger; J. B. Haile, Lubbock; Mrs. Paul Russ, Panhandle; Mrs. Clyde Holtzclaw, Amarillo; Meade Haile of Hereford; Mrs. Clyde Martin, Clarendon; Byron Haile, Elreno, Okla. Mr. Haile came to the Panhandle in the early 90's as a cowboy, working on ranches. For many years he maintained the family home in Hutchinson county. For the past 21 years the family home has been in Clarendon. He recently resigned from the City Commission because his extensive oil and other business interests required all of his time.

## NEGRO STAMPEDES AFTER AUTO COLLISION

While near the Holtzclaw corner on Highway 18 Friday, the auto of C. H. Holland of Lela Lake was struck by a car driven by two negro youths whose car turned over after the impact. Incensed at the "enemy," Mr. Holland came up protesting against what he thought was drunken driving. The negro driver made a bee line for the jail where he landed in short order and asked to be locked up. He was, according to Sheriff Pierce, and is to remain ten days for operating a motor car without a driver's license after a hearing before Judge R. C. Weatherly. Mr. Holland's car is said to have sustained only slight injuries, he escaping without personal mishap all of which is good luck for a mighty good citizen who stands strictly for law and order and sane driving.

## FLOWER EXCHANGE WILL BE HELD APRIL 6th

The ladies of Les Beaux Arts Club will hold their annual flower exchange at the Club Room Saturday, April 6th. Some of the ladies will be there at 10 a. m. Those interested in an exchange, are requested to bring flowers and shrubs to the Club Room any time after 10 o'clock. This plan has been in vogue for a number of years here, and has been of inestimable value to flower lovers. It affords an opportunity to learn what flowers are best suited to local conditions, and how to get them without paying out money.

## GOES TO HIGHER GROUND

Anticipating floods in this section is said to have caused S. A. Pierce to hike himself away Tuesday bound for Cortez, Colorado where lives his son "Bibs" and family in the southwest part of that state. Mr. Pierce had comfortable quarters aboard a truck in the form of a house with all modern conveniences which will form the basis for his domicile while in the city of Cortez.

## Lady Is Injured By Fall Friday

### UNABLE TO MOVE, CRIES ARE HEARD BY NEIGHBOR WHO SUMMONS AID

While inspecting her flower yard early Friday, Mrs. W. D. Van Eaton tripped over a small rock and fell. Unable to move and in great pain, her cries were finally heard by a neighbor, Mrs. Isabel Smith who came to her aid. Mrs. C. R. Skinner, a neighbor and registered nurse of many years experience, was sought by Mrs. Smith. Experience and a superficial examination convinced Mrs. Skinner that Mrs. Van Eaton was seriously injured. A call was made for a surgeon and an ambulance. Mrs. Van Eaton could not be moved until the ambulance arrived. Taken to Adair hospital, an examination disclosed a break in the right hip at the socket joint, and strained ligaments in the right shoulder and broken collar bone. The patient's lower limbs were placed in plaster casts. Despite all medical aid, she suffered great pain almost continually. At this time she is said to be showing some improvement. By a strange coincidence, Mrs. Van Eaton fell within a few feet of where her husband dropped dead some five years ago.

## MEMORY LANE

(From Donley County Leader, issue of March 25, 1939.) Judge A. S. Moss acted as district Judge here this week. Judge Fires was in Ft. Worth for medical treatment. Rev. W. E. Ferrell gave an illustrated lecture on "The Rise and Fall of Man" at the Christian church Wednesday night. Clarendon Baptists, 69 strong, went to the district B.Y.P.U. meeting at Memphis winning the banner for attendance the second time. If they win at Leslie in June, the banner becomes the permanent property of Clarendon Baptists. Miss Ruth Thompson is secretary-treasurer of the district body. Miss Sarah Thompson, teacher in the M. G. Ellis public school at Ft. Worth, saved several lives of her pupils when the building caught fire Thursday. She and another teacher were the last two to go down the fire escape after they were sure that all the pupils had escaped ahead of them by the same means. Contractor Joe Humphrey, Jr. has begun work on the new Phillips station on the corner in front of the old A. M. Beville home. Miss Joyce Link was awarded first prize in the Leader's letter writing contest relative to "Why We Need a Junior College." Miss Harvey Thompson, county H. D. agent, was given a shower at the Club Room Saturday. She has resigned to reenter school at Denton. The hit of the afternoon was presentation of the gifts when little Misses Sharlott Ann Tomb and Ruth Bailey came from "nowhere" pulling a wagon loaded with gifts. Miss Eunice Johnson is to represent Donley county in the national oratorical contest at Quannah April 18th. Sheriff Guy Pierce and deputy Bill Robinson captured five men and a car after they shot the tire in front of the City Hall Sunday. The men are said to have had a half barrel of intoxicating liquor aboard their car. Mrs. W. T. Lowe, poet laureate of old Donley county, contributed a poem in this issue of the Leader entitled "A Tribute to Our Teacher," in which she paid a personal tribute to Supt. H. T. Burton of the Clarendon schools.

## Studer Speaks To Lions Club

### PANHANDLE HISTORY SHOWN WITH LANTERN SLIDES

One of the first lectures of the kind ever before heard in Clarendon was that of Dr. Floyd V. Studer when he appeared before the Lions Club Tuesday noon by special invitation. Dr. Studer used a machine throwing pictures upon a screen illustrating Panhandle history over a period of approximately 250 million years. The speaker is well versed in geology, paleontology and archeology of our section and accompanied the pictures with an explanation that held his audience in rapt attention. Beginning the study of the basket weaver people, prehistoric dwellers along the Canadian river, more than thirty years ago, the speaker showed pictures of the numerous excavations unearthing "hidden cities" easily dating back around a thousand years. Scientists from many nations have visited the Panhandle to view the prehistoric ruins at first hand. It is through the efforts of Dr. Studer, more than that of any other man, that the Panhandle-Plains Museum today shelters more interesting artifacts of the Panhandle than any museum extant. He has given freely of his time and means through the years in collecting fossil remains, and the more modern artifacts of the first inhabitants of our section. His coming was a distinct compliment to the Lions Club and guests of the Club who heard a lecture upon topics about which the average citizen knows little.

## ATHLETIC GRANDSONS VISIT IN ALLEN HOME

Mr. Lovelace frequently visited relatives and friends here and at Hedley, and is well known in Donley county where he made his home for some time.

### City Jobs Have Few Takers

Clarendon folks seldom get wrought up over city elections. Aspirants are faced with a bunch of back debts. There is little that can be done, it is said. Some have suggested an economy by way of using one tax office for City, school and county. Next Tuesday is election day, April 2nd. Only two names have been submitted thus far for places on the ballot. They are J. T. Patman and F. L. Bourland, both of whom are serving by appointment as city commissioners. There will be no mayoralty election this time. The mayor serves two years. The commissioners elected Tuesday will serve two years, and the mayor will be elected next year.

### SCHOOL TRUSTEE ELECTION 1st SATURDAY IN APRIL

Eligible to vote in the election will be persons residing within the Clarendon independent school district who have paid a poll tax, or have an exemption receipt.

Sheriff Beverly arrested two tramps Monday for setting fire to a boxcar. A blue norther arrived last evening raising dust and freezing gardens and fruit last night. Mrs. Sallie Cain, resident since 1888, and well known for her charitable deeds, passed away at her home Sunday night. H. Mulkey invested some \$400 in new sound features for his Pastime theatre the past week making the acoustic effect much better. M. Starks with a bunch of carpenters, is completing his new home east of town and hopes to move in this week. Hilburn Gattis and Thelma Youngblood were married in Memphis Wednesday. CAME BY PLANE FOR EASTER Miss Anna Moores Swift, who is attending college in Denton, is here this week during the Easter holidays. She flew to Wichita Falls by plane, but due to weather conditions at the Amarillo landing field, came by train from Wichita.

Seven Clarendon F.F.A. youths formed a F.F.A. Jersey Cow Club last week which resulted in four four year old cows, four two year old cows, three springer heifers, six heifer calves, and four bull calves of one of the best registered Jersey blood lines in Texas being brought to Donley county to furnish the foundation stock for registered herds in this county. The cattle were secured from B. F. Craig of Springtown who bought the cows from the famous Walnut Creek Jersey Farm, near Azle, as springer heifers at \$150 each. The Walnut Creek Jersey Farm, owned by the Hodgkins Dairy, is one of the most highly bred Jersey Farms in the entire Southwest. J. L. Hodgkins, the owner, has imported a large number of cattle from Jersey Island in breeding up his foundation stock. Source's Coronation sire of the cows is an imported Jersey bull with both gold and silver medal records. The dams of each of the cows have been officially tested and each have both gold and silver medal records in production. The dam, Helen Jean, of one of the cows, and a sister of another of the cows bought by the Donley youths, have both stood at the head of their classes in the State Fair and Fort Worth Shows. Pete Morrow bought a four year old cow and heifer calf, Carl Morris a four year old cow, a bull calf, and a two year old heifer; H. A. Harrison bought four heifer calves and a two year old heifer; Lee Christie bought a springer heifer; Frank Cannon a springer heifer; William and Charles Sullivan bought two four year old cows, three bull and one heifer calves, two two year old heifers, and a springer heifer calf. The youths spent Saturday afternoon and all day Sunday inspecting registered dairy herds and locating the cattle, and Cap Morris, Walter Morrow, George Bullman, L. O. Christie, Richard Cannon, and H. A. Harrison made the trip to Springtown and Azle Monday to aid in the purchase of the cattle. The local F.F.A. chapter bought three registered Jersey bulls last fall and they feel that with the placing of twenty-one head of registered Jerseys this week they are well on the way to forming an excellent foundation for Jersey cattle of higher quality in Donley county. A number of F.F.A. youths and their fathers plan to attend the Hodgkins Auction of over two hundred head of registered Jerseys at Azle on April 18th.

HELL IN THE SPRING.

All the "smart" folks of the world are supinely waiting for HELL TO BREAK LOOSE IN THE SPRING along the tamtily stretched, heavily armed battle frontiers of "civilized" nations.

Meanwhile the ignorant, unfortunate savages of the world continue to live happily uninformed, unconcerned and hating nobody—except maybe the wife's relatives. They live self-sufficient, blame only themselves if they produce less than they need to eat and wear, and look to a Supreme Being for the little extra things that occasionally come in form of bountiful crops to provide the velvet of life.

FORGIVE THEM, OUR FATHER OF SCIENCE, they know not what they do—by thus contentedly living so ignorantly happy.—Columbus Girangi in the Holbrook (Ariz.) Tribune-News.

LOCAL DRUGGIST GIVES OUT TIMELY WARNING

Many Local Citizens Neglect Cold Coughs Which Later on Prove Dangerous.

A prominent druggist of our city when interviewed recently said: "The majority of the people do not realize the danger of a cough due to a cold or exposure. Such a cough is nature's warning that perhaps your resistance has been weakened by cold and your

system is susceptible to dangerous complications."

He advises, at the very first sign of a cough due to a cold, to start taking Mentho-Mulsion, for only in Mentho-Mulsion can be found genuine beechwood creosote, menthol, and other ingredients recommended by doctors, all combined in a base of pure California fig syrup.

Follow this good advice. Mentho-Mulsion is displayed, recommended, sold and guaranteed by good druggists everywhere.—adv.

the tax "erosion" somehow.

**THE ROBBERS.**

Robbing the soil put the farms on the bum. Robbing the business element through the present scale of ascending taxation will do the same thing for business.

**THE PULLERS.**

**OUR WEAKLY POME.**

It's easy to smile,  
When life's worth while,  
And nothing goes amiss.  
But the man worth while,  
Is the one who can smile  
When he reads a pome like this.

**PREPARATION.**

In getting ready to read "Grapes of Wrath," one should eat garlic and crawl into a sewer. Of all the rottenness that ever was hoisted upon the reading public, that book appears to be the limit to date. I'm objecting to the language used in the book as I sketched a portion of it. The theme is all too true.

**CHRISTIANITY-RELIGION.**

"Daniel pleads for Return to Religion," reads a headline in Monday's daily paper. We've been having too much religion already. The big trouble is that it has been practically void of christianity so far as politicians and Texas officeholders are concerned. Committing the Golden Rule to memory means little unless it is committed to life.

**ECONOMIC ANEMIA.**

This country is accumulating more and more idle cash, we are told, and no one seems to be able to know what to do about it. Reserve banks now report excess amounts of more than five and a half billion dollars, the highest record to date. The country's needs are crying for something that will summon into action idle

money and idle men. We will likely get over the grade some of these days, we always have. But we will have to arrive at the point when men are not afraid to venture far from financial shores.

PEGGY STEWART

The petite little lady pictured above is our industrious rural news reporter from the Goldston community. Peggy is the daughter of Mr. and Mrs. J. A. Stewart and is 13 years old. She is a native of Mississippi where she lived at French Camp. When she was one year old, her parents moved to 1 1/2 miles north of Albuquerque. After the depression closed the saw mills where Mr. Stewart was employed, the family moved to Donley county where they have resided for some 10 years.

Peggy, a school girl of the 8th grade, is very apt in her studies and takes a delight in reporting the news from her home section. A very deserving girl, and all her neighbors should help her put over a big job of keeping her community on the map.

**POLITICAL CLOVER.**

Some years ago the writer planted "bi-ennial" clover in his yard. Every two years the old canes died down and there was a new crop of small plants demanding more attention at that particular time because it needed more water and more fertilizer. I called that stuff "political clover." Along now we meet old "friends" whose names we cannot recall right off the bat, but we do remember the face behind that fervent handshake. Oh yes, we recall now! It was two years ago during the political campaign. Then we wish that these "friends" had kept in closer touch with us folks of the Panhandle. During the interim of just two short years we could, perhaps, suggested something of benefit to the political friend that would have helped him, and many things that would have helped the Panhandle without violating human ethics. We are interested in the Texas Panhandle and a bi-ennial interest, or a visit every two years, is not enough to suit our fancy. Quite a lot of "political clover" will be cut down, raked into piles and dumped into the gully-washes of despair this season. We have to stop

**PET PELICAN IS POPULAR**

A rarity in pets are pelicans, but Dolf Rogers, veteran Galveston oysterman, has one which is gaining considerable renown. The ungainly white bird was rescued by Rogers during the last hunting season after being wounded by shotgun pellets. Nursed back to health, the bird, while free to go whenever it chooses, stays rather close to Rogers' home on the Gulf near Galveston. The bird is probably one of the most unusual watchdogs in the United States. Whenever it gets aboard Rogers' boat at it in one but the owier can come on board.

The bird has been photographed by a newsreel company and even Hollywood is interested in the unusual pet. However, Rogers is worried concerning the well being of the pelican. Since he saved it last fall he has treated it again for gunshot wounds and has upon four occasions removed fish hooks from its body or legs. Fishermen have thrown the hooks at it in an attempt to catch the big-billed bird.

**Oil Shale Development After Wells Exhausted**

AUSTIN.—An oil shale in the Llano Mineral Region northwest of here that may solve the petroleum problem when Texas' vast crude oil wells run dry is described in a University of Texas geology circular issued last week.

Prepared by Frederick B. Plummer, geologist for the University Bureau of Economic Geology, the circular with large maps was prepared in answer to numerous requests received by the University on the status of its investigation.

Laboratory tests yields for 63 samples of the petroliferous shales have averaged 13.4 gallons per ton, Plummer reported.

**FATHER'S AMBITION: TO HAVE EIGHT SONS IN NAVY**

WASHINGTON.—The father of six members of the crew of the battleship Nevada told Secretary Edison recently that he had two younger sons who were prospective sailors.

Clarence F. Patten, of Odeholt, Iowa, replying to congratulations, extended by Mr. Edison, said he thought that six sailor sons established a navy record, and added: "I have two more boys to go as soon as they are old enough."

**BLOCKADE LEAKS**

Speaking of that chute down the Norwegian coast which Nazis were using to break the British blockade, an analysis of America's foreign trade indicates there may be several chutes to Germany through surrounding neutral nations.

The first four months of the war the United States sold \$208,489,000 in goods to the neutral European countries surrounding Germany. This compares with only \$140,906,000 sold to the same countries in the corresponding period of the previous year. The Allies have not increased purchases on this side.

**ONE DOVE NOT MIGRATORY**

Texas has one member of the dove family which is not migratory, remaining in the state the year around. It is the white-fronted dove, sometimes called wood pigeon, a game bird peculiar to the border section. Throughout the spring and summer months it is easily recognized by its drumming call, but during the winter it is extremely silent, not giving voice to a single note.

**WILD GUINEAS FARE WELL**

The wild Cuban guineas planted in South Texas last winter by the state Game Department apparently are doing well in their new habitat, according to reports received by the Department's executive secretary. The birds are expected to start nesting soon.

Wild guineas are considered excellent sport in Cuba. The Game Department is attempting to propagate them to provide another game bird for Texas sportsmen. A total of 200 birds were planted in South Texas. Should they do well, 1,000 more will be imported, the executive secretary said. While the birds apparently are adapting themselves and few are being lost to predators, it will not be known whether the experiment is a success until one or two nesting season activities have been studied by the Department's biologists.

I went to Rochester, Minn., and they did not do me any good. I tried doctors everywhere I could hear of, but did not get any relief. I finally heard of the Milling Sanatorium. horse, as this snap shot was taken, evidently to give that bobcat another whirl. He is the son of Mr. and Mrs. Guy Wright, and is a direct descendant, on his mother's side, of the Aldens of Mayflower fame. He prefers the Panhandle rather than the Plymouth Rock section.

Mr. and Mrs. Charley Belee and sons Geo. Charles and Sammy Parker, and Mr. and Mrs. Geo. Manning and son James Robert of Amarillo visited their aunt, Mrs. J. C. Estlack Sunday.

**ANTIQUÉ DOCUMENT**

When William E. Benjamin died in New York City last week at the age of eighty-one he closed a pleasant life. He was well-to-do and had a hobby, antiques. His ancestors came to New England in 1632. During his life Mr. Benjamin tracked down many early American documents. One of these was the paper signed by Charles II in 1674 which authorized William Andros to take possession of New York, then called New Netherland. This document, which put New York under English rule, was lost for 255 years. It was finally discovered in possession of the Andros family. Last year Mr. Benjamin gave it to the New York Historical Society.

Among the other curiosities Mr. Benjamin collected in his time was a copy of the New York Constellation of the issue of July 4, 1869. This is rated as the largest newspaper in page size ever printed in the United States. Mr. Benjamin presented it to Columbia University.

Mrs. A. G. Lane and son Maurice visited Mr. and Mrs. A. G. Lane Jr. at Borger Sunday.

Mrs. Cauthen, Mrs. U. Z. Patterson and son Sammy and Mrs. Elvis Burch and son Jesse were Amarillo visitors Friday.

Mr. and Mrs. Du Bose and daughter Arlene of Amarillo and Miss Carrie Davis of this city were dinner guests of Mrs. Addierene Pharr Sunday.

**LIQUID GARDENS**

When agricultural scientists first announced they had developed soil-less tank gardens—in which plant roots are nourished with chemicals—most people thought that was very nice but they weren't sure they wanted to plant corn in the bathtub. They didn't really see how chemical solu-

tions in tanks as substitutes for natural soil were ever going to be of much use to anybody.

Then trans-Pacific clipper planes began taking passengers to China and other points east, and the airline discovered that sandy, U. S. owned Wake Island was just the right distance between terminals to make an ideal stop-over spot. The chief difficulty was that the soil on the island couldn't even support a blade of grass—and station crews and overnight passengers had to have vegetables and greens.

The airline called in a University of California scientist who set up tank gardens. Now there are enough beans and carrots and lettuce to go around for a second helping.

You can never tell when even Uncle Horace's most fantastic inventions will be useful to a world that keeps hopping ahead.—Selma, Atlanta, Times-Journal.

## SIDELIGHTS ON STEPHEN C. FOSTER, THE GREAT AMERICAN TROUBADOR

Born on the Fourth of July, 1826, his famous "Swanee River" might have been "Pedee River" or even the "Yazoo." He wrote the song first about the "Pedee" but didn't like that name. Asked his brother to suggest one and got "Yazoo." Finally went to an atlas, found the "Swanee River" in Florida and shortened it for his song. He never saw the river. He sold the song to E. P. Christy, famous Minstrel King, for \$15.00 and Christy used his own name as composer. Christy's Minstrels introduced most of Foster's songs. For a while he was highly successful; his royalties amounted to over \$1,200 for "My Old Kentucky Home." "Old Black Joe" was written for an old colored servant employed by Foster's wife's family. Foster's emotional instability made his success short-lived. He died at the age of 38 in poverty. All he had in the world was 38 cents. Moun-

ments to his memory dot the United States.

Latest honor paid the man responsible for most of America's folk music is the 20th Century-Fox motion picture, "Swanee River," which will open at the Saturday night Prevue. Filmed in Technicolor, the picture reveals the romantic drama of Stephen Foster's colorful life. Don Ameche plays Foster; Andrea Leeds plays his sweetheart and wife; Al Jolson plays the Minstrel King.

Ray Palmer of Lubbock Tech was home for the Easter holidays.

the school board agreed to hire better coaches and the business men agreed to contribute so much per month for a number of months to put the field in condition and keep it that way, providing the school officials would agree to not let the school children ask the business men for advertisements on athletic programs and for other donations for similar purposes. The agreement was made.

The results are a winning football team, one of the best playing fields in the Panhandle and according to the business men at the annual meeting March 20th, it has been cheaper on the business men and at the same time they can see that their money is really getting results.

Last year the business men paid into this fund a little over \$500. This money was used to keep the field watered, the grass cut and in other ways for the betterment of the athletic program. A complete report of receipts and expenditures was furnished by the secretary C. J. Douglas to the officials of the Boosters Club.

At the meeting Wednesday night the officials voted to continue the program another year. They also decided to sponsor a WPA program to build a nine foot rock fence around the football field.

## Booster Club Boosts Football Status

Three years ago the football situation in Clarendon High School was at the lowest ebb. We had not been able to win a game and the football field was as hard as concrete and covered with sandbars. Some of the business men hit upon the idea of organizing a boosters club to see if something could be done about the situation. A meeting was held with these business men, the school board, and school officials. At this meeting

To this end, a competition is being offered this week through the Principals of 17,000 high schools throughout the United States to stu-

dents who are qualified by high scholastic standings. Ten preliminary winners will be selected on the basis of their ratings in this examination. All of them will be brought to New York next August at the expense of the company, and will spend a month in thorough inspections of RCA and NBC engineering facilities. **Gas Pipe Line Company Offers Inducements**

United Gas Pipe Line Company, which launched a national advertising program last year to encourage the location of industries in the territory it serves, this week announced plans for the continuation of this activity.

Industrial development in the Gulf South is of vital interest to every person residing in this area. It is a known fact that new wealth and prosperity for any area follows sound industrial development by the expansion of existing industries and establishment of new industries.

Working toward the development of a greater Gulf South the Company's Industrial Development Program includes advertising in national publications. The plan also covers direct mailings to selected industries and personal contacts with heads of industrial organizations. A parallel activity of the Company's Industrial Development Department is the compiling and use of data and information essential to industry in connection with plant location problems.

Because the Company's operations are conducted in portions of Texas, Louisiana, Mississippi, Alabama, and Florida, a region largely bordering on the Gulf of Mexico, the campaign has introduced the term "Gulf South" as descriptive of the territory served. Thus the industrial development activity has come to be known as the "Gulf South Program."

United Gas Pipe Line Company has a very definite place in this industrial development in which it has taken the lead in attempting to attract new industries to this area. In addition to its regular advertising in newspapers in the Gulf South, the Company is now advertising in national publications the industrial advantages of the Gulf South. These include an abundant and dependable supply of Natural Gas, varied raw materials and basic crops, swiftly growing markets, good transportation, native intelligent labor, good schools, plentiful land and a mild climate the year round are being stressed in this campaign.

It is doubtful if any other area in the nation offers more advantages to industry than the Gulf South and United Gas Pipe Line Company has taken the opportunity of serving the people of this area in an unusually constructive manner.
