1964 To Be Interesting Political Year In History Of Clarendon

1964 will be one of the most interesting political years in the history of Clarendon. Numerous are the various offices that will be open on the local level as well as governor and president.

District offices that will be open include that of District Judge, District Attorney and State Representative.

According to the political column now being carried in the Donley County Leader, the following candidates have signed up for the various offices:

District Judge, Luther Gribble of Wellington had announced for re-election, but his death Wednesday morning leaves the office vacant. Childress County Attorney Charles Reynolds will seek the office of District Attorney as the present Dist. Attorney John T. Forbis, has stated that he would not seek re-election. Offices on the local level are: Sheriff, Tax Assessor-Collector with two seeking the office so far. They are Lonnie (Bill) Cornell and Vergil T. McPherson; County Attorney, John R. Gillham; County Supt. of Schools, Ruth Richerson; County Commissioner, Precinct No. 1, Clarence Reynolds; County Commissioner, Precinct No. 3, Frank M. Murray. These are all of the listing so far in the Leader Political Column but more candidates are expected in the very near future as the deadline for filing for office is February 3. The first primary election will be held Saturday, May 2.

Yes, it will be an interesting political year and you will need a poll tax receipt to participate. The deadline for paying your poll tax is January 31st.

1964 License Plates Go On Sale February 3

Sheriff Truett Behrens, County Tax Collector of Donley Co., said today his office would begin Monday, February 3, issuing 1964 automobile registration plates.

He said his office also had on hand a supply of pamphlets issued by the Texas Department of Public Safety that explain in brief recent changes in the Safety Responsibility Law that went into effect the first of the year.

Each motorist will be given one of the pamphlets when he purchases his car plates, he said.

Numerous changes have been made in the law, and to help the motoring public become familiar with the new provisions, the tax office is making the pamphlet available to the drivers of the county.

Visiting in the Richard Finch home the past week were Mr. and Mrs. Richard Finch, Jr., and sons, Rocky and Dean, of Santa Maria, Calif.

4-H Club Members Sell Steers At Show

Donley County 4-H Club members sold some high price steers at the Sandhills Hereford Show last week says County Agent Flip Breedlove. There were 247 steers in the show and only 40 steers will sell in the sale. Donley County had six steers eligible in the sale. One steer was taken from the sale list because it was thought that he might bring more money in a later show.

The placings of the boys at the show was light heavyweight steers, Sandy Thornberry, 7th place; David Mooring, 9th place; and Tracy Sanders, 11th place; medium weight steers, Gene Floyd of Hedley, 6th; lightweight steers, Henry Hermesmeier, 7th place and Don Mooring, 12 place. There were 62 steers in each of the four classes of Hereford steers.

In the sale Donley County sold five steers after taking one steer out of the show. Gene Floyd received 50 cents per pound for his 824 pound steer, for a total of \$412.00; Sandy Thornberry received 50 cents per pound for his 907 pound steer for a total of \$453.00; David Mooring received 47 cents per pound for his 892 pound steer for a total of \$419.24; Tracy Sanders received 47 cents per pound for his 894 pound steer for a total of \$399.3; and Don Mooring received 47 cents per pound for his 757 pound steer for a total of \$355.79. The five steers sold for a total of \$2,039.56.

Where And When To File For Political Office

County Democratic Chairman Mary Cooke has announced the party's election headquarters will be open Tuesday morning at her office in the rear of the W. H. Cooke home, 1001 W. 3rd Street, Phone 874-3549.

Requests by candidates to have name placed on ballot (First Primary) shall be filed not later than February 3, 1964.

First Primary election date is Saturday, May 2, 1964.

Chairmen will be furnished with 1964 political calendars, so that persons interested may obtain information on political dates and deadlines at any time.

from County ASCS Committee

Request For Additional Cotton
We are now taking applications for the release and reapportionment of cotton. If you have any extra cotton which you are not planning to plant in 1964, please come to the office and release it to be reapportioned to other producers. You will not only be helping other producers but you will also be protecting your allotment.

Also, if you wish an increase in your cotton allotment from any released acreage we may have to reapportion, be sure and come to the county office and make your request on the proper form.

Dates To Remember
January 24, 1964 — Final day for filing applications for new growers cotton allotment.
January 31, 1964 — Final day for filing application for payment on shorn wool and unshorn lamb.

January 31, 1964 — Final day to make application for commodity loans.

February 17, 1964 — Final day to disburse loans.

March 31, 1964 — Final day to redeem commodity loans.

February 10, 1964 — Feed grain sign-up begins.

Address Changes
It is approaching the time of year when there are numerous producers who will be moving and changing their farming operations. We would appreciate very much your notifying the county office of any changes which you make.

The Most Significant Educational Occurrence Of The Century

Texas helped to pioneer the junior college movement. The rise of these institutions has been called the most significant educational occurrence of the century.

But Texas is now being surpassed by other states. A nationwide junior college boom is under way. California and Florida lead the pack. Last year, 40 public junior colleges were launched over the United States, bringing the total to more than 425. Ten Texas localities are seriously considering the junior college idea, according to Mr. B. W. Musgraves of the Texas Education Agency.

The Texas Commission on Higher Education, in its report last March, pointed to the need for more of these institutions over the state. "The existence of a state college or university with a particular locality does not insure full educational opportunity to the youth of that locality," it pointed out.

One problem cited by the Governor's Committee on Education Beyond the High School is the horde of youths knocking on doors of over-crowded senior colleges and universities. Many cannot be admitted. Studies show that fewer than one-third of those admitted will go beyond the sophomore year. This, authorities point out, is wasteful of monies needed to supply excellence in education for junior and senior students as well as the graduate program.

HOSPITAL NOTES

Patients as of Wed., Jan. 8: Mrs. George McKee, Ruth Hudson, Eva Lipps, Mrs. Leck Goldston, Mrs. Jane Bownds, Mrs. C. E. Killough, Mrs. Edd Mooring, and L. E. Yankee.
Dismissals: Sandra Byars, Rosie Harper, Edyth Jackson, Pete Martinez, and Dick Shelton.

School Census To Be Taken This Month

The annual scholastic census as required by state school law will be taken during the month of January, according to an announcement by Supt. K. D. Vaughan.

All children who will be six on or before September 1, 1964, and who will not have reached age 18 before September 1, 1964, are to be enumerated. Children who were born before September 1, 1946, or after September 1, 1958, must not be included on the census.

Parents who have a child whose sixth birthday will come before September 1, 1964, are particularly requested to be sure their child is enumerated.

If such parents do not have an older child in school to bring one of the census forms home, they may obtain census forms at the principal's office of any local school or at the School Administration office.

The amount of State per capita funds Clarendon Independent School District will receive in 1964-65 will depend upon the number of scholastics enumerated on the census form.

School officials also use the census statistics in planning the number of classrooms and teachers that will be needed during the next school year.

JAPANESE MINISTER TO SPEAK AT CALVARY BAPTIST CHURCH WED.

Next Wednesday night, Jan. 15th, the Calvary Baptist Church will be host to Rev. and Mrs. Oison Hodges, missionaries to Japan of the Baptist Bible Fellowship.

Accompanying the Hodges will be a Japanese Baptist preacher direct from Japan. His name is not available at this time.

This will be a special missionary meeting and will be educational as well as inspirational. The Baptist Bible Fellowship, which is composed of Independent Baptist Churches, support missionaries all over the world. Independent Baptists take the Great Commission of the Lord Jesus Christ very seriously in spreading the Gospel.

If you would like to learn of the work of Independent Baptists in Japan you are invited to attend this special meeting at the Calvary Baptist Church. The meeting will begin at 7:30.

"Bro. Hodges is a dedicated man of God and is doing a great work in Japan. He is the son of Rev. George Hodges who was shot to death in Jacksonville, Fla., last year," Rev. Hill, local pastor, stated. Calvary Baptist Church will be the first church the Japanese minister will preach in since arriving in the United States.

Water Project Moves Closer To Reality

Dr. S. H. Townsend, President of the Greenbelt Municipal and Industrial Water Authority, conferred with members of the Texas Water Commission and the Texas Water Development Board the first part of last week in Austin.

Dr. Townsend was taken to Austin by Si Freese and Jim Nichols of the engineering firm of Freese, Nichols and Endress of Fort Worth. Freese told members of the two boards that the Greenbelt project is shaping up better than any project he could remember.

Survey of the line from the damsite to Crowell is underway now.

Latest estimates on the cost of the project, which includes the line to Crowell, has been set at \$10,300,000.

There will be at least two trips necessary to Austin this month, Dr. Townsend said. "One for another meeting with the Commission and another with the Water Board. These could be the final meetings before the project starts."

Engineers have reported that a temporary water supply would be made available to Childress and Quanah by the middle of 1964. Both cities are in urgent need of water.

Dist. Judge Luther Gribble Dies Wed.

Word was received here Wednesday morning prior to our last press run that District Judge Luther Gribble had died about 6 a.m. Wednesday morning at Panhandle where District Court was in session.

Judge Gribble had been serving Donley County as District Judge for around 20 years and it has been said many times by those practicing law and attending court in his court room that he was one of the fairest and impartial judges to ever serve this area.

BLOWIN' Out the CORNERS

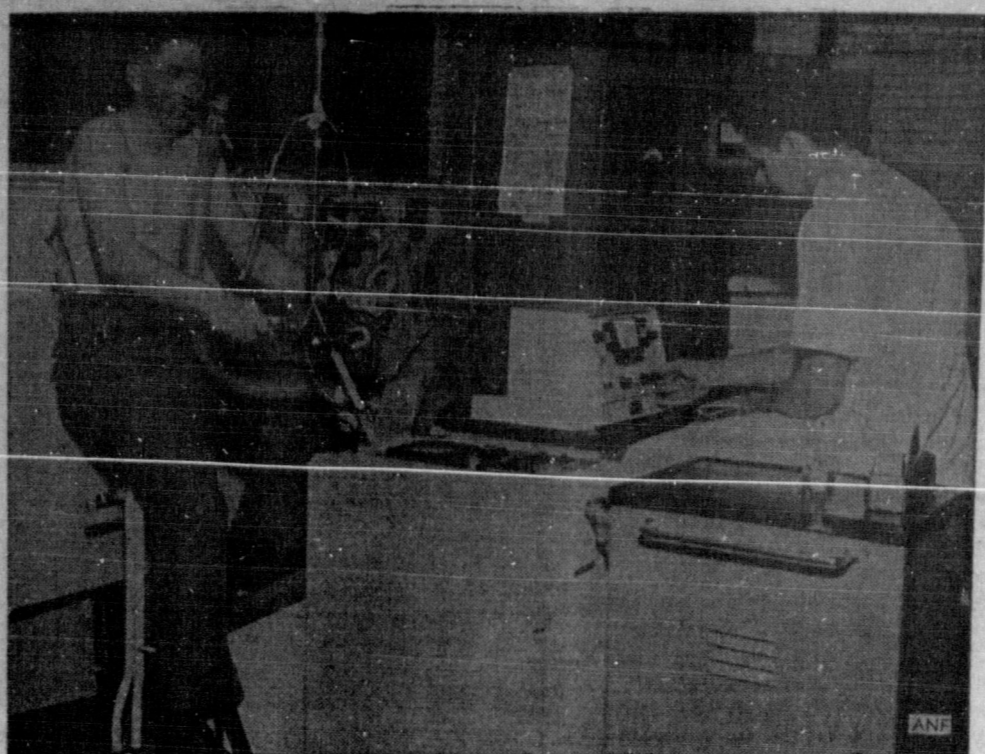

Often before we get all the Christmas Cards addressed and in the mail the job becomes a real chore. Then, before no time at all we begin receiving them from our friends and the whole experience turns into a special thrill... Many with little messages written in, and others from so very far away. Then, often we get one from someone we have known a long time and for a moment unknown to us they send a good wish our way. It all makes Christmas and the New Year a great blessing.

There's the one this year from G. B. Cochrum of Box 68, Enid, Okla. Coming from the Indian

State he writes on the back this comment from one Indian to another. "Someday, My Son, all this land will belong to the Indians again... White man all go to the moon." And, "The experts say we are wasting too much water... In other words, we're spending it like money."

Another card comes from Mrs. Bertha G. Hayes, our friend who set off the buying spree about a year ago on our book. She is the mother of Bill Hayes who ran for Lt. Governor on the Republican ticket last time. Mrs. Hayes is now visiting with friends on Star Route, Rochester, New Hampshire. Last year she sent us a subscription to The Sunshine Magazine which led to the book sales. This year she is sending us a subscription to The Shaker News. I can't imagine what it will be like...

Then from Mrs. Lillian Punst of Box 1703, Juneau, Alaska. Her husband, about sixty-five, is a

We heard again from Mrs. Olja Long who now lives at Box 72, Porter, Texas. She would like to hear from folks, especially those she has known through the years.

And Miss Carmelita R. Coloma, c/o Philippine Union College, Box 1772, Manila, Philippines. She will soon graduate as secretary, and would like pen-pals galore, especially from Texas...

Kathy Morales, the little lady who rides the big brown horse out to meet the train at Silverton, Colorado. Her box number is 597 and she would like letters and souvenir cards...

Miss Diana Balogh, the young lady who had such a time with the broken back. Her address is 2713 Winston Road, Oklahoma City. So many of you wrote to her after we mentioned her name that she has scrapbooks all over the place, not to mention a half dozen well autographed plaster casts... You were wonderful to do this.

This is just a sample, but I see we can't begin to mention them all, even from out of state...

The following came from someone; "The best way to get your wife to return from a trip is to send the hometown paper to her with a part of the personal news clipped out."

who's doing the dishes tonight?

That's a silly question. I take it for granted you are, mom. Do you know that it's been proven the average woman puts in over sixty 8-hour working days per year in hand-washing dishes?... time that you can put to far better use.

An automatic dishwasher is the answer to your dishwashing chore. It will save you more than half of your after-meal cleanup time, and keep the kitchen neat and clean after between meal snacks. As sure as I'm Reddy Kilowatt, you'll have to admit that continuing to do the dishes by hand is about as pointless as laundering the clothes by hand.

\$2674.80** loaded

The car on top is a 1964 Dodge 330 two-door sedan. It has a unitized, rust-protected body, front seat belts, an alternator electrical system, self-adjusting brakes and a 225 cubic inch, six-cylinder engine. It will go 32,000 miles between major grease jobs, 4,000 miles between oil changes.

The car on the bottom is the same model,

a 1964 Dodge 330 two-door sedan. And we can say the same good things about it.

There's one difference. It's equipped the way many people buy cars these days.

For a fact, Dodge offers a full line of cars in the low-price field. Sedans, hardtops, convertibles, wagons, the works. They call 'em "The Dependables," because they are.

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

The Burdens Confronting The President

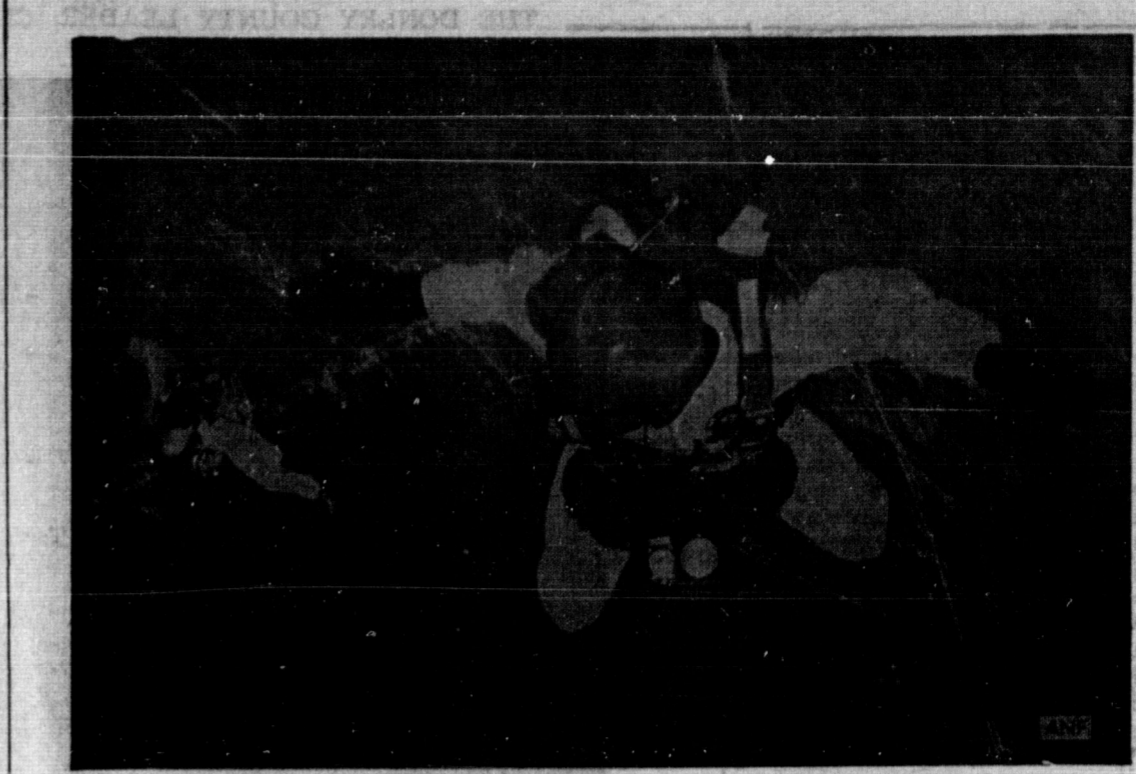

As we turn the corner into the new year, each of us looks down the long road marked "1964" to take a reading on what lies ahead in our personal and professional futures and in the future of our Nation. No man in the United States can look forward to a more imposing array of problems, a greater mental and physical burden, than those which face the President. Having been thrust suddenly into the world's most critical leadership position by

the assassination of President Kennedy, President Johnson faces challenges of a magnitude and delicacy never before faced by a U.S. President.

I have every confidence that President Johnson will meet these challenges with courage, intelligence, and imagination. In meeting his responsibilities, the President will be as aware as any other American that this is an election year and that political considerations require that he establish a record in his own name before November. But the obligation for a President of the United States to perform well goes far beyond purely political considerations; in these times, the very survival of the Nation and the Free World can hinge on how well a President meets the challenges that are his alone to meet.

President Johnson, looking down the 1964 road, can find his resources tested in an endless parade of problems involving our relations with the world: Cuba continues under armed Commun-

ist domination, a Red thorn in the side of the Western Hemisphere; the costly and near stalemated war continues in South Viet Nam—a war bringing a rising toll of American casualties; South American countries are under the eroding subversive pressures of Cuban, Russian, and Red Chinese brands of communism; France, under DeGaulle's "France comes first" leadership, poses problems for the solidity of the Atlantic Alliance; Italy's new government contains the threat of growing neutralism in that country and more problems for NATO; the political storm is rising in Britain, with an election showdown between Conservative and Labor parties likely to come this spring; Berlin remains a Cold War tinderbox, as does the continued division of Germany; the European Common Market creates new trade challenges for the United States, our balance-of-payments deficit, created primarily because of our commitment to stand off Communist thrusts beyond our shores, defies easy solution; the threat exists that France and Red China will soon become members of the "nuclear club;" Russian subversion is again posing threats to the new states of Africa; tensions are rising in the Mid-East; the so-called "non-aligned" nations are resist-

LOOK MA, NO HANDS—Two high-flying members of the U.S. Army's Parachute Team, the Golden Knights, get in some mid-air antics in preparation for their appearance on CBS-TV's "Sunday Sports Spectacular" on December 29. S/Sgt Richard T. Fortenberry (foreground) has a 16mm movie camera attached to his helmet to capture the free fall action for the television screen. Sergeant Fortenberry, the current Parachute Champion, is from Litchfield, Ill.

to acknowledge the love he shares with us for our country; to acknowledge his boundless desire to see our country prosper in continued safety and full sovereignty; to support those programs we can support, to reject those we can not support—but to support or reject in a spirit of good will and with a willingness to examine the opposing point of view; and, of course, to pray to Divine Providence that our President will continue to have His guidance and be strengthened thereby.

NEEDED: MORE RISK-TAKERS
This country needs more risk-takers, large and small. And they, in turn, need more incentives and fewer restrictions from the government.

That is the point—and a vital point it is—made in an article by Henry Hazlitt that appeared in Newsweek some little time back.

Mr. Hazlitt's piece was aptly entitled "Where Jobs Come From." And he exploded the persistent myth that American business is dominated by a few great corporations. Small businesses—small-risk-takers of every conceivable kind—make major contributions to employment. And it is the small operator, with limited resources, who has the most to fear from governmental laws, policies and actions which discourage profits and growth.

As Mr. Hazlitt plainly puts it, "Employees can have well-paying jobs and maximum employment only if employers and risk-takers have adequate incentives." This is something that the powers-that-be in Washington, for all of their words, don't seem to have yet learned.

A spring in Marlin, Texas, turns ordinary glass, when dipped into it, to a clear and permanent amber.

Ginger Rogers won a Charleston contest in Fort Worth, Texas, and thereby entered upon the career that led to movie stardom.

ing firm ties to either the Free or Communist worlds while seeking the favors each can bestow, and thereby are creating new problems in the delicate power balance. There are other problems no less vexing than these—and each requires that the President of the United States give close and judicious attention.

Domestic problems, all permeated with controversy, include tax reduction and reform; civil rights; the level of defense spending and the assignment of defense

expenditures; farm problems (including wheat); medical care legislation; aid to education; unemployment; and many others. The foreign aid program, under constant fire for a number of years and sure to remain mired in dispute, could be termed a program half domestic and half foreign in nature. The importance of proposals regarded as purely domestic is heightened by the absolute necessity of the United States to maintain its economic stability so as to be able to work in the world from a position of strength.

But foreign affairs policies, programs, and strategies are

paramount considerations for a President who, by the Constitution, is charged to function as the chief architect of American foreign policy. With the other Presidents who have held that lonely post in the years since World War II, President Lyndon Johnson is well aware that a serious mistake in foreign policy could mean the incineration of the Northern Hemisphere. Despite a phalanx of advisers and staff assistants and experts of every kind, the final decisions in the foreign policy area remain the President's to make. It is hard, hard, hard—and very lonely work.

And so, I would urge all Americans regardless of political party or political convictions to respect the President and his office and the enormity of his duties; to recognize the Constitutional obligation that is his to formulate a program of legislation and to lead the Nation's foreign policy;

'64 Jet-smooth Luxury Chevrolet

What does it take to make a car a great highway performer? If the car happens to be a '64 Chevrolet, one thing only. A highway.

You'll find everything else already neatly packaged for you—the car exactly as you pick it off the showroom floor.

There's a choice of seven engines—all the way up to a twin-carb high-compression 425-hp V8—and four transmissions, including a finely honed 4-speed stick shift.

And underlying it all—a bump-skimming Jet-smooth ride that helps keep the performance great even when the highways aren't so great.

What about special performance equipment? Professional driving skills? Forget them.

Nobody has to doctor or coax or soup up these Chevrolets to get the best out of them. And that's really the test of a great highway performer: Just about anyone can get a kick out of driving one, just about anywhere, just as it comes out of the showroom.

Next time you're out your dealer's way, allow a few extra minutes to sample one of these highway performers on your own. A few are really all you'll need. That's enough time to do a lot of driving in a Chevrolet. *Optional at extra cost

MEMBERS ENTERTAINED IN CHAMBERLAIN HOME

Several members of the Lelia Lake Methodist Church were entertained in the home of Mr. and Mrs. Will Chamberlain New Year's Eve honoring Miss Evelyn Chamberlain who was home for the holidays from New Foundland. Evelyn has been a teacher there since September. She arrived in Amarillo by plane Sunday, Dec. 22, and returned to New Foundland Jan. 4.

The guest enjoyed seeing film slides of New Foundland narrated by Evelyn. A short program was directed by Mrs. J. B. McDaniel. Lacy Noble led in prayer and Mrs. Will Mace gave a devotional. Mrs. Chamberlain gave a reading. Group singing was enjoyed by all.

Refreshments of coffee, fruit cake and candy were served to Mr. and Mrs. Earl Myers, Mr. and Mrs. Will Mace, Mr. and Mrs. Lacy Noble, Mr. and Mrs. J. B. McDaniel, Mrs. J. R. Chamberlain of Turkey, Michael Chamberlain and Robert Moss of Memphis, Mr. and Mrs. Will Chamberlain, Betty and Evelyn.

ASHTOLA NEEDLE CLUB MEETING

Ashtola Needle Club met Jan. 2 in the home of Mrs. Harp. Ten members and two visitors enjoyed afternoon.

The afternoon was spent working on the yearbook and the program for 1964.

Next meeting will be an all day quilting and covered dish dinner at the center. Veda Mahaffey will be hostess.

The Needle Club voted to sponsor a "42" party Jan. 10 at the Community Center. Bring pie for your group. Hostess will furnish the drinks. Don't forget to bring your dominoes. —Rep.

LES BEAUX ARTS CLUB ENJOYS LUNCHEON

Mrs. Homer Glascoe and Mrs. Gene Alderson were hostesses for a delicious luncheon held at the lovely new home of the Gene Aldersons. Mrs. Glascoe greeted the club members and guests as they arrived.

The table was laid with a white damask cloth and beautiful bunches of glass grapes formed the centerpiece.

Election of officers was held for the '64 and '65 term with Mrs. W. J. Lewis elected President; Mrs. M. R. Allensworth, Vice President; Miss Mable Mongol, Reporter; Mrs. Guy Stricklin, Historian; Mrs. C. T. McMurry, Parliamentarian.

A white elephant sale was held afterwards with Mrs. Carman being the auctioneer. The proceeds will be given to the Patching Club House. —Rep.

MIDWAY CLUB ENJOYS QUILTING

Midway Club met with Mrs. George Hillis. One quilt was finished.

Present for a very enjoyable day were Mary Lee Longan, Beulah Sanders, Leona Scott, Joesie Simmons, Ellen Moreland, Eddie Williams, Pearl Terry, Jewel Myers, Loyd Hillis, Lillie May Carmichael, and Louise Aten.

Mrs. Frank Hardin was a welcome visitor.

Next meeting will be with Lillie May Carmichael Jan. 16, 1964. A covered dish luncheon will be served. —Rep.

CHAMBERLAIN CLUB TO HOLD MEETING

The Chamberlain Club will meet at the Community Center Thursday, January 9, with Corne Harrison as hostess. Each member bring your needlework.

GOLDSTON CLUB HOLDS MEETING

The Goldston Club met with Johnny Bryson Thursday, Jan. 2.

Those present were Nora Helm, Minnie Roberson, Ola McBrayer, Irene Pritchard, Eloise Ashcraft, Blanche Gray, and Mrs. Self.

One quilt was quilted. Refreshments of candy, cake and coffee were served by the hostess.

Nora Helm, Irene Pritchard and Eloise Ashcraft received Pollyanna gifts.

Next meeting will be held Jan. 23 at the center with Irene Pritchard and Nora Helm in an all day meeting. —Rep.

VISIT IN HALL HOME

Those to enjoy New Year's dinner Sunday in the home of Mr. and Mrs. Luther Hall were Mrs. H. E. Parper, Mr. and Mrs. Robert Mills and children, Opal Jones of Groom, Mr. and Mrs. Ronnie Hall, Mr. and Mrs. K. S. Irwin, Curtis Jones, Mrs. W. C. Jones, all of Amarillo, Mr. and Mrs. O. D. Jones, Mr. and Mrs. E. R. Jones, Mr. and Mrs. Dale Jones and children, Donnie Parker of Borger, Mr. and Mrs. C. P. Jones and Linda, Lavone Brown of Phillips, Mary Lee Irwin of Brownsville, Mr. and Mrs. Anthony Jones and David, Mr. and Mrs. Marvie Vanlandingham and Terry of Plainview, and Mr. and Mrs. Larry Hopkins and daughter of Levelland.

An important point to consider if you are shopping for a household appliance is whether service is available, says Mrs. Wanda Meyer, home management specialist with the Texas Agricultural Extension Service. Manufacturers of appliances are working to improve their products, eliminate weaknesses and simplify service. Electronic devices now guide service men to the source of trouble; easier access to mechanisms makes shorter work of repairs, and warranties provide more coverage for longer periods.

Butter not intended for immediate use should be kept in the freezer compartment of the refrigerator.

EXCELLENT VARIETY OFFERED IN PLENTIFULS

COLLEGE STATION — Plenty of variety should be the keynote to meal planning for Texas homemakers during the first month of 1964.

Meat, vegetables, fruit and nuts are included in the U.S. Department of Agriculture's January plentiful foods list, says the Texas Agricultural Extension Service.

Featured among plentifuls this cold-weather month are two versatile vegetables, canned corn and potatoes. For the meat dish, beef and pork supplies are expected to be very large. Apples remain abundant, and pecans and peanuts once again are on the list.

Continued large marketings of cattle and hogs during December are expected to keep prices noticeably lower than last year. Live beef prices in late November were running about \$5 per hundredweight below prices of a year ago and hog prices were about \$2 lower.

A record 283 million-pound pecan crop is holding market prices 10 to 15c per pound below those of last fall. Last year's crop was only one-fourth as large as the 1963 production.

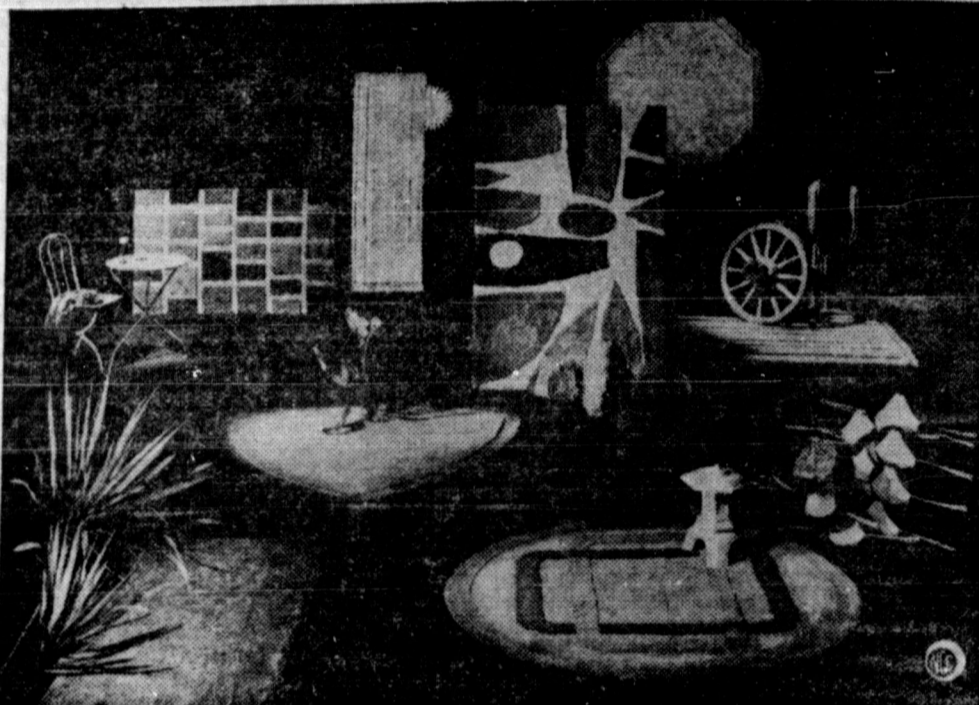

Although apple supplies are slightly less than a year ago, peanuts crops exceed last year's output and the 1963 crop is 15 percent above average. These abundant foods listed by USDA's Agricultural Marketing Service usually are more economical and offer better selection for quality, reminds the Extension Service.

Exact food standards have a long and interesting history. In the Middle Ages, Henry VII of England beheaded any baker whose bread did not conform to the fixed weights for bread loaves. Bakers, to avoid this hazard, added an extra loaf to deliveries of 12, making the number 13 the well-known "baker's dozen."

Before buying a pesticide, read the label to make sure it is the best answer to your pest problem. And, for your protection, read the label again each time before using, the U.S. Department of Agriculture urges.

FABRICANA—The magic of fabric and Early American furniture and accessories can turn an ordinary basement room into the favorite family room. Star of the setting is a blue and gold print on a white background featuring a variety of old-time trains. The 100 per cent cotton fabric by Waverly is used for the couch and window shades, and is complemented by matching wallpaper.

PURPOSEFUL RUGS—Cotton area rugs are "rugs with a purpose," as illustrated here in this American Designers Collection by Wunda Weye. Designed to complement any decorating period or motif, the new cotton area rugs are carefully color correlated so there is always a rug for every color scheme.

Cub Scout News

Cub Master Cecil McAfee has announced that there will be a special meeting for all the den mothers Friday night, January 10, at 7:30 in the Hospitality Room of the Farmers State Bank. Plans must get underway for the February Blue and Gold Banquet. This is a very important meeting. Anyone that can help with this banquet is asked to attend, whether you plan to be a den mother or not.

There is a tremendous need for den mothers to help organize new dens. There are a number of boys waiting for someone to answer this need. Our duty as parents of these boys is to do so. If you are willing to take a den, please be at this meeting. Two mothers are needed for each new den.

Those who haven't paid their registration fees, which is 50c, are asked to contact your den mother and turn it in. If you would like to subscribe to "Boy's Life" magazine that is \$1.50, which can also be turned in to the den mother.

Please plan to be present Friday night at 7:30. Thank you.

Patsy Robertson
Cub Scout Reporter

Mr. and Mrs. Ronnie Martin and baby left Friday for their home near Washington, D.C., after spending the holidays here with her parents, Mr. and Mrs. Lloyd Benson, and other relatives.

AUSTIN — Pres. Lyndon Johnson's holidays would exhaust most ordinary mortals. The President arrived in Austin on Christmas Eve, his homecoming delayed by a congressional crisis over the \$3,000,000 foreign aid bill. Abandoning his announced schedule, he went to the Governor's Mansion for a 30-minute visit with Gov. John Connally.

Stopping his party's helicopter at the ranch of another close friend, A. W. Moursund, the President joined Moursund in an hour of deer hunting, before he finally got home to hang up his Christmas stockings. There he spent a happy time with his family and relatives and numerous close friends.

Christmas Day at the LBJ Ranch also found the President confronted with problems. He expressed concern over the fighting in Cyprus, penned messages to Greek and Turkish Cypriot leaders and General Cemal Gurcel, President of the Republic of Turkey.

Then he took newsmen on a tour of his ranch, handed them ashtrays, as presents, and explained a cut he had just ordered in federal employment. All this he did before settling down to his Christmas dinner and the opening of presents under the tree.

Before dawn the next day, he and former Gov. Buford Ellington of Tennessee left "The Little White House" on a deer hunt. Both bagged bucks.

The President was back at the ranch house, working in his office.

face, before noon and conferred with Secretary of State Dean Rusk by telephone, repeatedly, on the Cyprus crisis.

Later, he named a nine-member committee of experts to evaluate foreign economic and military aid programs and recommended how to strengthen them.

In doing his homework for the important Erhard visit, Johnson conferred in person with these distinguished government officials at the ranch: Secretary Rusk, Under Secretary of State George W. Ball, Special Ambassador Christian Herter, Agriculture Secretary Douglas Freeman and McGeorge Bundy, special assistant for national security affairs.

Theodore Sorenson, special White House counsel, was summoned to assist in preparation of the new President's first state of the union message. It was delivered before the Congress on January 8.

Thomas C. Mann, assistant secretary of state for inter-American affairs, and John A. McCone, Central Intelligence Agency director, were among others called to confer with the President, in addition to regular staff members.

Press members from Washington and foreign countries, as well as the native Texans of the State capital best, were invited back to talk and eat with the President on Friday.

In addition to official talks, there was a program of fun for Chancellor Erhard, a portly ex-professor. He toured Fredericksburg, home of many German-speaking Texans, and attended church at Bethany Lutheran Church there Sunday. More than 200 turned out for a barbecue luncheon honoring the Chancellor at the Stonewall High School gymnasium three miles from the ranch.

When Erhard departed, Johnson turned immediately back to the national budget and went in-

to a huddle Monday with Defense Secretary Robert S. McNamara and the joint chiefs of staff. So it went as the President wound up his "holiday" and prepared to return to the regular schedule in Washington.

PRESS COVERAGE — For many years, Austin's stately Driskill Hotel has been President Johnson's home away from home. Now it is the home away from home for some 75 to 200 news reporters. They "cover" the White House, whether it is on the Potomac or the Pedernales.

The Crystal Ballroom usually the setting for brilliant Christmas and New Year's balls, has been a working pressroom during the 1963 holiday season. The "Press Center" covers the hotel's mezzanine and extends to quarters occupied by White House Press Secretary Pierre Salinger and his staff.

In the Driskill, the press corps waits for word of cuts in federal employment, the President's luck at hunting, statements on Cyprus and on repercussions from his meeting with Chancellor Ludwig Erhard of West Germany.

At times, the news from Johnson's LBJ Ranch near Stonewall is delivered via a "press pool," in which four reporters are assigned to represent all their colleagues. Other times, the whole corps is bundled into buses for the trip to the ranch over U.S. 290 and the newly-designated Ranch Road No. 1.

Some of the press-center set-up will remain intact in the Driskill Hotel for presidential visits in the future. This may be for the next year, or the next five years, or, perhaps, the next nine years, according to voters' reactions to the news that this army of reporters turn out.

ANIMAL HEALTH APPOINTMENTS — During his convalescent period in the Mansion, Governor Connally picked two new members for the Texas Animal Health Commission to succeed Dr. Robert Hartman of Victoria and George Apple of McKinney. New commissioners are Dr. J. Ray Martin of Coleman and C. E. (Ed) Knolle of Sandia. Dr. Martin, a graduate of the Veterinarian School at Texas A&M, has practiced veterinary medicine in

Coleman since 1946. Knolle is co-owner and manager of Knolle Jersey Farms in Jim Wells and Nueces Counties. A University of Texas ex-student, he is past president of the Texas Jersey Cattle Club.

OPINIONS — The attorney general ruled that an agreement of passage of title made by joint owners of a motor vehicle would not be sufficient to authorize the State Highway Department to issue a new certificate of title to the motor vehicle in the name of the surviving joint owner.

He also made a ruling on fee collections in criminal convictions, other than homicides, and ruled out Texas A&M University's claim to a \$3,000 educational bequest which has been held in the Governor's Suspense Fund nearly 30 years. The bequest will remain in the fund until the benefactor's requirements are met.

IN MEMORY OF LESTER WELCH

According to Webster's dictionary, "void" means "containing nothing; empty; unoccupied; vacant." But Webster must be in error, for if this definition were correct, a "void" could not be felt or seen or heard.

When we returned to school Thursday morning, January 2, 1964, we all very definitely felt, saw, heard the void. Lester was not there, and we knew he would not be coming back any more. How can a void and silence be so obvious — so evident! It could be seen in the face of every student, every teacher; it could be heard and felt in every classroom, every corridor.

Lester's going defied Webster's definition. His going defied the definition because in a very quiet, innocent, unassuming, and unpretentious manner, he had endeavored himself to the heart of every student and every teacher in high school. Lester didn't plan it that way; it just happened. Perhaps it was his sincere modesty more than anything else, for every honor, every compliment, every congratulation Lester won flabbergasted him. In spite of the effort he exerted, he was always surprised at winning or excelling; he always thought that someone else had done better; he always felt that someone else deserved the honors and congratulations more than he. In this same spirit, if it had been possible for Lester to have observed the student body and faculty at Clarendon High School Thursday morning, he would have been flabbergasted at the void and silence.

We did a lot of talking Thursday, and we all understand each other, but an outsider couldn't have comprehended it because we didn't talk in our ordinary English language, instead we used the language of "silence." And in reference to "audible" language, we asked the great American poet Edgar Lee Masters in his touching poem "Silence" — "For the depths, Of what use in language? We are voiceless in the presence of realities— We cannot speak."

Cotton Harvesting Nears Completion

According to K. E. Voelkel of the U.S. Department of Agriculture's cotton classing office in Memphis, Texas, the cotton harvesting and ginning season is fast drawing to a close. In spite of inclement weather conditions the early part of the week, the Memphis office classed nearly 14,000 samples, bringing the seasonal total to 181,230 through Friday, January 3. Last season as of the same date 165,227 samples had been classed. It is estimated that about 10 percent of the predicted crop in this office territory of 17 counties remains to be classed.

Based on the Agricultural Marketing Service's statistical estimates, only 10 percent of the cotton classed during the past week was in the White grades. Sixty-two (62) percent was Light Spotted; twenty-five (25) percent was Spotted; and three (3) percent fell in the tinged and gray categories. The predominating quality for the week was Strict Low Middling Light Spotted, 15/16 with 34 percent.

The amount of cotton reduced in grade because of Bark, Grass and below normal Preparation again increased over that of the week earlier. This week 8 percent of the samples classed were reduced in grade.

As has been the case all season, 15/16 inch staple length again predominated in this week with 83 percent in this length. Other lengths were: 29/32 inch, 8 percent and 31/32 inch, 9 percent. Nearly 3 percent of the cotton classed during the week was classified as Wasty. Cotton so designated means a discount or penalty of 200 to 400 points per pound or \$10.00 to \$20.00 a bale.

Micronaire tests, which reflect the fineness and maturity of cotton, showed 31 percent of the cotton reading 2.6 and below to 3.4. This was the largest percent-

age in this range compared with any previous week this season. Other readings were: 3.5-3.9, 26 percent; 4.0-4.4, 26 percent; 4.5-4.9, 15 percent; and 5.0-5.4, 2 percent.

Considerable cotton moved into trade channels the past two weeks Cotton having a micronaire reading in the 3.5 to 5.0 range brought the farmers the following prices: Middling, 15/16-30.90; Strict Low Middling, 15/16-29.60; Middling Light Spotted, 15/16-29.80; Strict Low Middling Light Spotted, 15/16-29.25; Middling Spotted, 15/16-28.65; and Strict Low Middling Spotted, 15/16-27.65. These were average prices based on uncompressed, mixed lots in warehouses.

The prices for cottonseed was generally \$53.00 per ton at gin points.

FARMERS FILING REQUIREMENTS

Farmers earning at least two-thirds of their 1963 gross income from agriculture should file their estimated 1963 Federal income tax returns, Forms 1040-ES, on or before Wednesday, January 15, 1964, according to Ellis Campbell, Jr., District Director of Internal Revenue in Dallas. However, such estimated need not be filed if the farmer files his final return on Form 1040 and pays in full any tax due by February 17, 1964.

"Farmer's Tax Guide," which furnishes more detailed information on this subject, is available upon request from the Internal Revenue Service.

Visitors in the M. W. Hatley home the past week included Mr. and Mrs. N. F. Nickell, Sr., of Claude, Mr. and Mrs. Tom Roberts and Mr. and Mrs. J. C. Ashcraft and Fern.

Bill Meador of Houston spent the week end visiting homefolks here and at Hedley.

F. M. MURRAY ANNOUNCES CANDIDACY FOR CO. COMMISSIONER

I have authorized the Leader to announce my candidacy for reelection to the office of County Commissioner from Precinct 3, Donley County, subject to the action of the Democratic primaries in May.

I appreciate very much the fine cooperation I have always received from the people of this precinct. Since I have had the privilege of serving you as Commissioner, I feel that I am much better qualified to serve you through gaining experience in the office, and promise, if again elected, to continue to devote my full time and best efforts to serving the best interest of the precinct and county.

I will try to see each voter in the precinct before election time, and will sincerely appreciate your influence and support.

Respectfully submitted, F. M. Murray

FARMERS ARE LOSING SOCIAL SECURITY CREDIT

Many farmers lose valuable social security credit, according to Hal Geldon, district manager for social security in Amarillo. Geldon said these are farmers who do not file income tax and self-employment reports on their farm earnings.

Geldon pointed out that Federal law requires farmers who clear at least \$400 a year to file tax returns and pay social security taxes. Farmers who do not clear \$400, but whose total farm sales are at least \$600, may report this income and pay social security tax on it under special provisions for farmers only, and thus earn credit for low or no profit years.

In order to make proper reports, farmers should keep accurate records of their income and expenses. Reports for 1963 will be

due soon and must be filed not later than February 15, 1964, to avoid penalty.

Geldon explained that all social security benefits are based on earnings credited to the worker's social security record. If the self-employed farmer does not report his earnings, there is no way the Social Security Administration can pay benefits when he reaches retirement age, becomes disabled, or dies. And he may also be breaking the law.

Both social security and Internal Revenue offices have free booklets that tell more about social security coverage for farmers. The social security office in Amarillo is at 1006 Adams Street.

COTTON PRODUCERS FIND NEW PRODUCTS

LUBBOCK, Tex. (Special) — Cotton farmers are making progress in research to find new or improved products for consumers, a report from the Cotton Producers Institute indicates.

Renewal of three research projects with this aim was announced today by Roy B. Davis, Lubbock; Leroy Durham, Plainview; Roy Forkner, Lubbock; and Jack Funk, Harlingen, Texas, trustees for the voluntary plan to increase cotton markets and profits. The projects were initiated last year.

Support of a project on warm cotton fabrics at Harris Research Laboratories was increased from \$35,000 to \$60,000. Using chemicals and laboratory scale equipment, scientists now are producing cotton fabrics with improved loft, drape and resiliency.

Adding these traits to cotton fabrics is a big step toward producing warm fabrics and enabling the fiber to hold and/or expand its position in markets totaling 2.7 million bales.

Research at this same location has produced an experimental, all-cotton men's suit which now is being wear-tested. A \$45,000

grant is being used for support of work to make further improvements. Success will allow cotton to hold and expand its share of the men's suit and trouser market. It now uses the equivalent of 1.07 million bales yearly.

Stanford Research Institute scientists have demonstrated the soundness of the "reversible crosslinks" principle. Goal of this \$35,000 project is to develop a chemical treatment for cotton apparel and household fabrics that will maintain an unwrinkled appearance, require no ironing, can be given creases where desired, and can be altered for individual customers.

Funds to support such research are made possible by producers who participate in the Institute.

Mrs. Ruby Hutton and Gayla attended funeral services for her brother-in-law, Howard Huffman, of Salt Lake City, Utah, at Borger last Friday. Mr. Huffman died last Wednesday at the home of Mrs. Bob McCoy in Borger after suffering a heart attack while visiting there.

Mr. and Mrs. Will Canady of Los Angeles, Calif., spent the past week as house guests of Mr. and Mrs. Will Pickering and visited their many friends in and around Clarendon. Mrs. Canady will be remembered here as Mrs. A. O. Hefner.

Mrs. Emma Gregory returned home Thursday after spending the holidays in Pasadena, Texas, with her daughter and family.

Harold White, who has been visiting his mother for the past two weeks, returned to his home at Fort Worth this past week end.

"Enchanted Rock" between Fredericksburg and Llano, Texas, is a piece of granite some 500 feet high, and covering about a square mile.

MOTORISTS WARNED — Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, issued a special warning to car owners that tough NEW amendments to the Texas safety responsibility law became effective on January 1.

Amendments require that drivers prove their ability to pay for damage to others in traffic accidents. All accidents resulting in \$100 or more damage, injury or death must be reported in writing to the DPS within 10 days. Accidents not involving death or injury and resulting in as much as \$25 in damages also must be reported. But these do not come under the safety responsibility law.

Licenses will be suspended unless both operators and owners of cars in accidents coming under the law can prove adequate liability insurance coverage.

Minimum requirements are \$10,000 covering liability for one person; \$20,000 for two or more persons; and \$5,000 property damage. Otherwise they must establish financial responsibility, if they are at fault.

Suspensions of licenses and registration will be for a period of two years unless requirements of the safety responsibility act are fully met.

SCHOOL DROP-OUTS — During the holidays Governor Connally has been Texas' second biggest newsmaker (second only to

President Johnson). He stirred a lot of interest when he turned attention to what is considered by many to be the state's first problem: school drop-outs.

Connally asked the Texas Education Agency to develop a plan for pilot programs to help local school districts find solutions to the drop-out situation. He described it as "one of our most severe educational and economic problems."

According to the Governor, "Last June, Texas high schools graduated only 87,640 of the 196-032 first-graders who entered school in 1951. Nearly 59,000 dropped out before reaching the 9th grade and 50,000 left between the 9th grade and graduation."

Connally quoted a Texas Employment Commission prediction that by 1965, the nation will have three young people without high school diplomas chasing every two jobs available to them, while there will be only five high school graduates available for every seven jobs requiring that much education.

SLANT-HOLE SUMS RECOVERED — Atty. Gen. Waggoner Carr announced the recovery of \$110,000 from two defendants accused of slant-hole oil well operations.

Of this, \$10,000 was recovered from G. M. Jordan of Kilgore, following a judgment entered by 53rd District Judge Herman Jones, and \$100,000 from J. G. Walker of Tyler, charged with operating wells illegally.

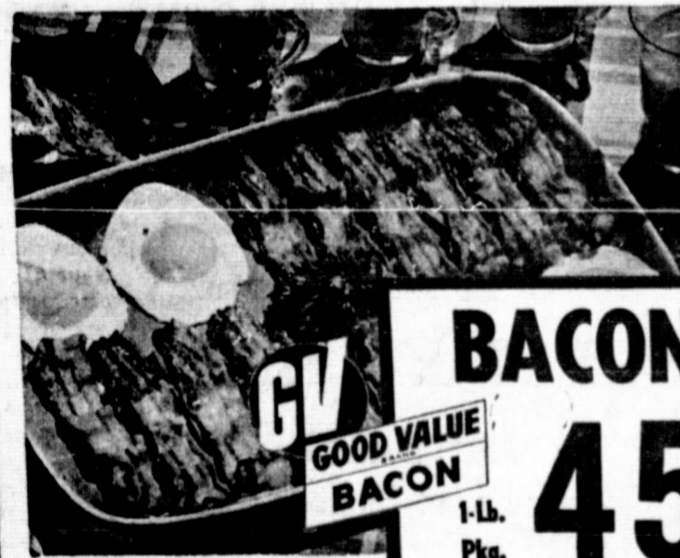

Carr said the money will be placed in the State Treasury.

CONSTRUCTION RISES — The seasonally-adjusted index of total construction authorized in Texas in November amounted to a three percent increase over October.

UT Bureau of Business Research predicted that the November gain probably will cause the construction industry to top its 1962 total.
