FARM NEWS

from County ASCS Committee

Signup Nears For 1964 Feed Grain Program

Formers will have an opportunity to sign up in the 1964 feed grain program early in February. The sign-up period will be for seven weeks, from February 10 through March 27.

As in previous years the feed grain program will be voluntary and each individual producer growing one of the three feed grains covered by the program will make his own decision about whether to take part.

To take part in the program, the farmer will agree to take out of production and devote to an approved conservation use at least 20% of the total feed grain base. He will then be eligible for diversion and price support payments and for price support loans.

Two major improvements have been made for the '64 program: (a) As much as 50% of the base may be diverted on any farm & (b) the average payment rate per acre for diverting 40% or more of the base will be substantially higher than last year.

Farmers are encouraged to look into the advantages of taking part in the 1964 feed grain program, so that their production plans for this year may be clear cut by the time the program sign-up opens.

Notices of Base Acreages, Yields, and Payment Rates were mailed to producers last week. Anyone wishing to appeal either the yield or the base has only until Feb. 4 to do so.

Hedley Lions Plan Third Annual Auction

Members of the Hedley Lions Club are planning their third annual auction sale to be held on Friday, March 6. They will sell anything of value, livestock, furniture, farm implements, or anything else, and there will be no passout charge.

Free coffee will be served all day, and dinner will be served in the Lions Den.

Listings for the sale are wanted at once. Items received by Feb. 15 can be listed in the handbills, so they should be turned in by that date. Anyone having listings for the sale may write Herlie Moreman, Chairman, Box 52, Hedley, Texas; C. R. Hunsucker, President; Earl Wheatly, Secretary; or any other member of the Lions Club.

Bulldogs To Host South Plains Tuesday

The Bulldogs are still looking for their first conference win after dropping three straight this past week. These games are not to be taken in vain for the boys still prove to be fast workers. They proved this last Friday before a large crowd of hometown fans when they kept the giants from New Mexico Military on their toes.

Tomorrow night they journey to Odessa on the far southwest end of the conference.

Tuesday night they host South Plains from Levelland who are enjoying their best season since joining the conference. Game time is 8 p.m. in the college gym.

Will 1964 Be Screwworm-Free?

Vigorous participation in the screwworm eradication program by Texas farmers and ranchers will be necessary if the Southwest is to become screwworm-free in 1964.

Flip Breedlove, County Agent, said detection of screwworm-infested animals and collection of larvae samples will be even more important this year than it has been in the past.

Breedlove stated that several weeks have elapsed with no screwworm cases being reported in the five-state eradication area. He cautioned, however, that during cold weather, screwworm flies in the pupae stage can remain embedded in the soil for extended periods; when they emerge during brief warm spells, new rounds of infestations could result.

A single undetected, unreported case could set the eradication program back for several months, Breedlove said.

"We must always keep our guard when dealing with this insect. The screwworm fly has shown a remarkable ability of taking advantage of any lapses in vigilance by livestockmen."

He urged livestock producers to watch their animals closely and treat cuts or scratches that could become infested. After several larvae have been collected from infested wounds and mailed to the Mission laboratory for positive identification, wounds should be treated with insecticide.

Little League Helpers Are Needed

Coaches and workers for the Clarendon Little League are needed. Anyone interested in helping with this worthwhile summer youth project may contact Billy Jack Land or Horace McClellan. This information is needed as soon as feasible, so plans for the coming season can be completed.

VICTORY FOR CJC - 535-319

Behold the joyous bells are tolled And ring out the glorious word; Can a sweeter sound ever hold The raptures of the songs now heard?

—Claire Matlock

Truly, the joyous bells of victory now ring in the halls of CJC and all our fond hopes and dreams held within our hearts are not dreamt in vain. The students of CJC as well as the faculty wish to thank you, Mr. and Mrs. Citizen for saving our college we love so dearly.

HOSPITAL THANKS LOCAL PEOPLE

Mrs. C. A. Wright has received a letter from the Abilene State Hospital expressing their thanks for the articles of clothing, stuffed toys, and other items sent to the hospital by local people.

Jaycees and Jaycee-ettes sent a number of stuffed toys left from their Toys for Tots project at Christmas time and these were placed in young miss Susan Wright's dormitory. Mrs. Wright also expressed her personal appreciation for this thoughtfulness.

The hospital can always use used clothing of any kind for all ages and clean rags. Mrs. Wright makes regular trips to the hospital and is kind enough to take as many items as she can carry each visit.

Majority Of (Old District) Residents Vote For Higher Tax Rate Tuesday

Monday, February 3, Deadline For Filing For Political Office

Next Monday, February 3rd, is the deadline for filing for political office with the County Democratic Chairman requesting a candidate's name be placed on the first primary ballot.

Politics have been warming up and especially in some of our county races. The commissioners race for Precinct No. 3 has drawn the largest number of candidates with four in the race at the present time.

The only other contested race in the county so far is the County Attorney office with Clyde Slavin opposing incumbent Bill Lowe.

W. S. (Bill) Heatly has announced his candidacy for State Representative of the 82nd District. Allen Harp and Charles L. Reynolds, both of Childress, are seeking the District Judge, 100th Judicial District office which was vacated by the death of Judge Luther Gribble.

In other county races Ruth M. Richerson is seeking re-election as County Supt. of Schools; Clarence Reynolds is seeking re-election as Commissioner of Precinct No. 1 and R. C. Hill is seeking re-election as Constable of Precinct No. 2.

It has been rumored that there will be other announcements for various offices before the deadline Monday. Look the list over and be sure to go pay your poll tax so you will be able to vote for your choice of candidates.

Mr. and Mrs. Oscar Thomas of Lubbock were week end visitors in Clarendon.

Another record-breaking vote was cast in the College tax rate election Tuesday at which time residents of the old Clarendon Junior College District voted for the 85 cent tax rate which will save the college and give it new life.

A total of 854 voters cast their ballots in the election Tuesday which is another record-breaking vote for the area comprising the Old College District. The outcome was a clear indication that a majority of residents want to keep the college at any cost within reason.

A total of 535 votes were cast for the tax rate increase and 319 against. This was almost a two to one victory for the College.

The new tax rate will mean a heavier tax burden on the residents of the old district but will assure efficient operation of the college. It is still a lower rate than that of many other college districts and this figure may be lowered through possible action of higher courts in regard to the previous elections which were contested. A higher court reversal would set the rate back to 60 cents as voted by a majority in one of these previous elections. School officials will continue to make every effort to get their appeal before the Supreme Court of Texas.

Local Store Observing 50th Anniversary

Fifty years is a long time to serve any type of business but W. E. Clifford is still quite active and still enjoying serving the people of this area after fifty years in the Grocery business in Clarendon. At present he is ably assisted by his son, Jack Clifford, who seems to have unexpended energy in the operation of the business.

A remodeling program has just been completed enlarging the W. E. Clifford Grocery to 2500 square feet of floor space. The store has been modernized throughout with customer shopping convenience and comfort stressed throughout the business.

SOIL CONSERVATION DISTRICT NEWS

Waterways

There is a need for establishment of permanent sod waterways to dispose of excess water without causing erosion to cropland. These waterways carry runoff water to safe points of release with a minimum of erosion and they may furnish needed grazing or hay. These waterways are used in connection with terrace systems or field diversions, for safe disposal or storm runoff, for irrigation tail water,

or for protection of natural floodways through farmland.

Generally, a cover of perennial vegetation is the most satisfactory cover for waterways and should be used to protect them against erosion. Perennial grasses are seeded in dead litter established by drilling fibrous rooted annual sorghums. On very gentle slopes, usually less than one percent, and a velocity of two feet per second or less, waterways may be planted to drilled annual crops. Usually, the channel and inside berms should be seeded to perennial grasses or turf forming varieties.

"NEVER QUIT"

When things go wrong as they sometimes will
 And the road you're trudging seems all up-hill,
 When the funds are low and the debts are high
 And you want to smile but you heave a sigh,
 When care is pressing you a bit,
 Rest, if you must but don't you quit!
 Success is failure turned inside out.
 The silver lining of the clouds of doubt,
 And you never can tell, how

close you are;
 It may be near when it seems afar;
 So stick to the fight when you're hardest hit,
 It's when things seem worst that you mustn't quit!

LIBRARY REPORT

Pupils seeking knowledge have kept the circulation of books going in the high school library. There is an average of two-hundred books a week in high school and an average of about 500 in the junior high school.

Just yesterday a student wandered in from the junior high section to check out a book. The Librarian was quite surprised to see that he was checking out **EINSTEIN'S THEORY OF RELATIVITY**. She asked him if it wasn't just a little advanced. The boy replied, "Yes, I guess so." She then asked him why he wanted to check it out, and his reply was: "I guess I feel sorry for it. Nobody's checked it out for ten years."

F.F.A. YOUTH LEADERS

The Donley County Barrow and Lamb Show brought several proud winners from Clarendon. Dale Robinson showed both the grand champion and reserve champion lambs. Among the breed champion exhibitors were Ronnie McAnear showing Berkshire and Yorkshire, Ronnie also won the Showmanship Award given by E. S. Ballew, a registered Hampshire hog breeder from Clarendon. Also Douglas Bradshaw exhibited the champion Poland China and Chester White. David McAnear showed the top Spotted Poland China.

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

The Issue Of Presidential Succession

A proposal that would, in effect, create a "crown prince" for the United States of America has been advanced by a group of members of my own profession, the law. Meeting at the request of the American Bar Association, the group recommended that a new Vice President be nominated by the President and confirmed by the Congress any time a vacancy occurs in the Vice Presidential office.

In other words, the process would be circumvented by which American voters themselves could have a direct voice in choosing the man closest in direct line of succession to the Presidency. The system proposed for adoption would fill the office of Vice President (at least until the next general election) by appointment — not voters' choice — in much the same way that top officials of the Executive Branch, men of cabinet rank and below, now are named and their appointments confirmed.

In 1947, Congress enacted the law which now provides for the order of succession to the office of President. The succession, thus, is now first to the Speaker of the House and next to the President Pro Tempore of the Senate and then to cabinet officers in the following sequence: Secretary of State, Secretary of the Treasury, Secretary of Defense, Attorney General, Postmaster General, Secretary of the Interior, Secretary of Agriculture, Secretary of Commerce, and Secretary of Labor. You'll note that the most recently established cabinet position, that of Secretary of Health, Education, and Welfare, has not been included in the order of succession.

This week the Constitutional Amendments Subcommittee of the Senate Judiciary Committee held two days of hearings into the welter of suggestions proposed as solutions to the problems of presidential succession and disability. I'm certainly not opposed to this study or any other being made. Certainly it is proper for any group to propose any solution deemed appropriate. And, at the same time, it is appropriate for those of us who oppose proposed solutions to speak out.

It is my earnest hope, however, that no proposal ever advances beyond the talking stage if it would permit the appointment of a Vice President of the United States. Into that office carrying that Constitutionally endowed title must go a person elected by the People if our democratic processes are to be served properly.

Presidential succession has always been a knotty issue. Views change from one period in our history to another. It was only natural that the question of presidential disability would become an issue following President Eisenhower's heart attack during his first term. And it was natural that the issue of presidential succession would again be raised following the tragic assassination of President Kennedy and the ascent to the nation's highest office of the then Vice President, Lyndon B. Johnson.

During George Washington's first term, Congress provided that in the case of removal, death, resignation, or disability of both President and Vice President, the president pro tempore of the Senate, and if there was no president of the Senate, then the Speaker of the House, was to succeed to the Presidency and hold the office only until a special election had chosen a President for a four-year term. In 1886, there was neither a president pro tempore of the Senate, nor a Speaker of the House. Congress, assuming that there never would be a time when all the cabinet positions would be vacant, changed the line of succession to members of the cabinet, beginning with the Secretary of State. In June, 1946, President Truman, having recently succeeded President Franklin D. Roosevelt, recommended abandoning the cabinet succession on the principle that no President that had succeeded from the Vice Presidency ought to be able to designate his own possible successor. In the Act of July, 1947, the Congress followed President Truman's recommendation by

providing that the succession be first to the Speaker of the House, a man not only elected from his own constituency but also chosen by the majority of the members of the House of the majority party, and then to the president pro tempore of the Senate, a Senator elected from his state and then, to provide a presiding officer in the absence of the Vice President, by the members of the Senate. Congress also provided that following these office-holders should be ranked members of the cabinet in case of vacancies in the first two offices in the line.

Certainly problems can arise. No system we could devise would be perfect in insuring against any eventuality. But let us be careful before tampering with the present line of succession or the method by which Vice Presidents are chosen. The system has served us well. I would urge Americans to remember that many governments would topple like a house of cards were the head of state to be assassinated. Ours, thanks to the Lord and the wisdom with which our system was conceived, did not.

Sibley-Root Wedding Held In Amarillo

Miss Wanda Sibley of Amarillo became the bride of Harold E. Root in a double ring ceremony read in the parlor of the First Baptist Church of Amarillo Monday evening.

The bride is the daughter of Mr. and Mrs. Guy Sibley of Clarendon and her husband is the son of Mr. and Mrs. Gene Root of Canyon.

Rev. W. S. Sibley, uncle of the bride, performed the marriage ceremony before an altar decorated with a large basket filled with white mums and gladioli.

Jo Anne Benton served as the matron of honor for her sister's wedding. She wore a raspberry suit with gray accessories.

Best man for the ceremony was Joe Abbott of Canyon.

Presented in marriage by her father, the bride wore a white wool suit with candy apple toned accessories. She carried a bridal bouquet of red carnations, accented with red ribbons, atop a white Bible. The bridal ensemble was accented with a pillbox hat and short veil. A single strand of pearls and pearl drop earrings complemented the attire.

Mrs. Sibley wore a beige dress with beige accessories for her daughter's wedding. The bridegroom's mother, Mrs. Root, was attired in a blue dress with black accessories.

The bride graduated from Clarendon High School and attended Clarendon Junior College. At the time of her marriage, she was employed with the First State Bank of Amarillo.

A graduate of Canyon High School, Root is an associate with RAR Homes of Canyon.

Following a short wedding trip, the couple is making their home at 4208 Wolflin in Amarillo.

KIL KARE KLUB MEETS IN HARNED HOME

The Kil Kare Klub met Thursday afternoon, January 23, in the home of Etta Harned. Potted plants and bouquets adorned the entertaining rooms. Interesting conversation comprised the entertainment.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — With less formality than he would display in warning his wife he was inviting guests to dinner at the Mansion, Gov. John Connally "announced" he is running for a second term.

Actually the announcement was no great surprise, although rumors continued that he was going to go to Washington, retire, or run for the Senate. But the informality of it did leave some reporters wondering if they heard him right.

"When are you going to announce?" a newsman asked at the start of Connally's first press conference since he was wounded by the same assassin who killed President Kennedy.

"What's wrong with right now?" the Governor shot back. "Well, are you announcing now?" stammered another re-

porter. "Good a time as any," shrugged the Governor nonchalantly. "I have no prepared statement, but I announce right now for reelection as Governor."

And that's the way it happened! Before the conference was over, a half-hour later, Connally also:

Predicted the Democratic national ticket, which he expects will be headed by his old friend President Lyndon Johnson, will beat the Republicans in Texas by a 60-40 margin.

Said he still sees no need for a special legislative session on congressional redistricting unless the Supreme Court unexpectedly acts early to uphold a lower court decision on "at-large" (state-wide) elections for congressmen.

Declined to be drawn into U.S. Senate race controversy and efforts to find an opponent for Sen. Ralph Yarborough, but indicated waves of harmony engulfing President Johnson and Yarborough do not necessarily include him. Said Connally: "My thoughts are my own."

He is recovering his strength, has regained lost weight, has given up smoking, and has a collection of tailored slings for his shattered right arm — including a grey herringbone sling, a blue serge, a red velveteen for sport, and a black formal with a silk "lapel" and covered buckle in the back, all from a lady in Kentucky.

APPOINTMENTS MADE — Sherman Birdwell, Jr., Austin funeral home operator, was Governor Connally's choice as employer representative on the Texas Employment Commission. Birdwell succeeds Jake Pickle who was elected to Congress from the 10th District last month. Birdwell topped a long list of new appointments.

Connally renamed Paul Fulk of Wolfe City and A. G. Thompson of Hamilton to the Texas Aeronautics Commission. Fulk is a past president of the Texas Press Association and owner of the Texas City Sun. Thompson is a businessman-rancher.

To the Nueces River Conservation and Reclamation District he named: Ramiro R. Ramirez, Alice banker; Ben M. Silva, Carrizo Springs rancher; J. Bernard Vine, Dilley businessman; Ferd Meyer, Devine farmer; Melvin Rowland, Uvalde businessman; Harry Schulz, Three Rivers attorney; and LeRoy Smith, San Antonio Insurance man.

Appointed to the Historical Survey Committee were Will Davis, Austin attorney; Mrs. Dan Lester, Jefferson civic leader; and Charles R. Woodburn, Amarillo businessman.

Connally appointed Judge Wendell Odom to the Harris County Criminal District Court No. 2; William M. Hatten to Harris County Court of Domestic Relations No. 2; and George E. Cire to the new 165th District Court of Harris County. Appointment dates are effective April 15 for Odom and Hatten and June 1 for Cire.

THE COURTS SPEAK — The Supreme Court has held that Judge J. H. Starley is fully eligible to preside over trial of an eight-year-old suit to determine Rio Grande Water rights over a vast area in Starr, Hidalgo, Cameron and Willacy counties.

Property ownership in the area by Mrs. Starley's uncle and aunt do not disqualify the judge, the

high court concluded in directing that the trial proceed.

A suit to halt shell dredging near live oyster reefs in Galveston to Trinity Bays has been transferred from Houston to Austin and is slated to be heard in 126th District Court here January 28.

Attorneys for small-tract oilmen urged the Supreme Court to alter its 1961 Normanna decision bearing on oilfield allocation formulas. The landmark decision of a couple of years ago threw out favorable oil and gas production formulas for the small producers. Small tract men claim the decision will overturn formulas in 300 Texas gas fields and 2,000 oil fields... and definitely will hurt their interests.

CURB TEENAGE SMOKING — The State Health Department has a word of advice to teenage smokers: "Be smart — Don't start."

Dr. J. E. Peavy, Texas health commissioner who recently gave up cigarettes himself, says the department will put up anti-smoking exhibits at junior and senior high schools in the 10 largest cities of the State.

The plan preceded release of a national fact-finding committee report on dangers of smoking.

COOPERATIVE COLLEGES URGED — The Governor's Committee on Education Beyond the High School may recommend a plan of coordinating college facilities in big cities.

Under the proposal, both private and state colleges in such areas as Houston, Dallas-Fort Worth, and San Antonio-Austin would develop closely-coordinated "megapolitan" educational programs to make it possible for strength of each institution to be best used in giving students a finished education. Such an education, said sub-committee spokesman John Gray of Beaumont, would be too costly for a single institution to produce.

JUNIOR COLLEGE STUDY AIRED — Texas Research League told Texas Education Agency its junior colleges and vocational rehabilitation program are doing fine. But more legislation is needed to help both.

The agency gave its approval

EASY DOES IT — Setting up a firing device he invented, Sgt. James Cason (left) equips at the armament mechanism of the M-79 grenade launcher. Assisting him is Sgt. Orville Stancliffe. Sergeant Cason improvised a base plate and elevation stick which increases accuracy in firing the M-79. Both men are assigned to Company B, Weapons Squad, 1st Battalion, 7th Infantry, 3d Infantry Division, Germany. Their hometowns are Alexandria, Va., and Chicago, Ill. respectively.

to a pilot program in six local areas to determine how to prevent school dropouts.

A Research League representative said the vocational rehab program last year got 3,566 disabled Texans to work at a cost of \$3,500,000. He recommended more money for the program and better public acceptance.

League Research Director James W. McGrew said State support should be equal for junior colleges regardless of their size. He recommended also that State aid be available for technical and vocational courses, that dormitories be banned at junior colleges without State Board of Education consent, and that the colleges be allowed more freedom in setting tuition rates.

GAS RATE APPEAL HEARING SET — The Railroad Commission has set a hearing January 21 to hear the appeal of Arkansas Louisiana Gas Company over refusal of several Northeast Texas towns to grant it a rate raise. Towns include: Atlanta, Bloomberg, Gilmer, Naples, New Boston, Omaha, Ore City, and Queen City.

JUNIOR COLLEGES — Many people interested in state government and education are saying we need more junior colleges in Texas.

The National Education Association has said the country should add the first two college years to the present system of free public education.

Texas Research League has advised the State Board of Education that there are at least 17 counties in Texas which could qualify for new junior colleges: Angelina, Brazos, Dallas, Denton, El Paso, Hale, Hidalgo (when Pan American becomes a four-year State college), Jefferson, Jim Wells, Lubbock, McLennan, Tarrant, Taylor, Wichita, Tom Green (when San Angelo College joins the State system), Orange and Midland.

In Travis, Grayson, Liberty and other counties, junior colleges already have been authorized but local taxpayers haven't yet supplied the financing.

Other counties might join together and qualify for a junior college, if suggestions of the Research League are passed into law.

TEXAS AGRICULTURE — Lt. Governor Preston Smith, speaking to the State Association of Young Farmers in Austin, said that agriculture in Texas will continue to progress despite population shifts and changes in land use. Smith said there are 224,000

farms in Texas today, with total value exceeding \$14,500,000,000; that \$2,500,000,000 worth of farm products were marketed in Texas last year; and that another \$2,000,000,000 in farm machinery, seed, fertilizer, and other farming necessities were sold in Texas.

SCREWORM COUNT ZERO — Texas stockmen did not report a single case of screwworms from Dec. 20 through the first week in January, according to Dr. R. G. Garrett of the Texas Animal Health Commission.

Dr. Garrett said the 17-day stretch without a case reported was a record breaker, and recalled that 157 cases were reported in Texas last January.

At the same time, he urged stockmen to inspect their animals carefully to make sure the screwworm doesn't get a new start.

SHORT SNORTS — State's general revenue fund showed a \$23,800,000 deficit at the end of December. Total cash in all State funds was \$235,300,000. House Speaker Byron Tunnell of Tyler announced for re-election to his House seat.

George W. Bushy, chief of the inspection and planning division of the Department of Public Safety, is the State's Vehicle Equipment Safety Commissioner, under a new law designed to exercise control over vehicle safety equipment and expedite approval.

Agriculture Commissioner John C. White, who has held office since 1951, has announced for a seventh term. Republic State Executive Committee will meet in Houston on January 18 to approve budget plans, survey its 1964 candidates and beef up its poll tax drive.

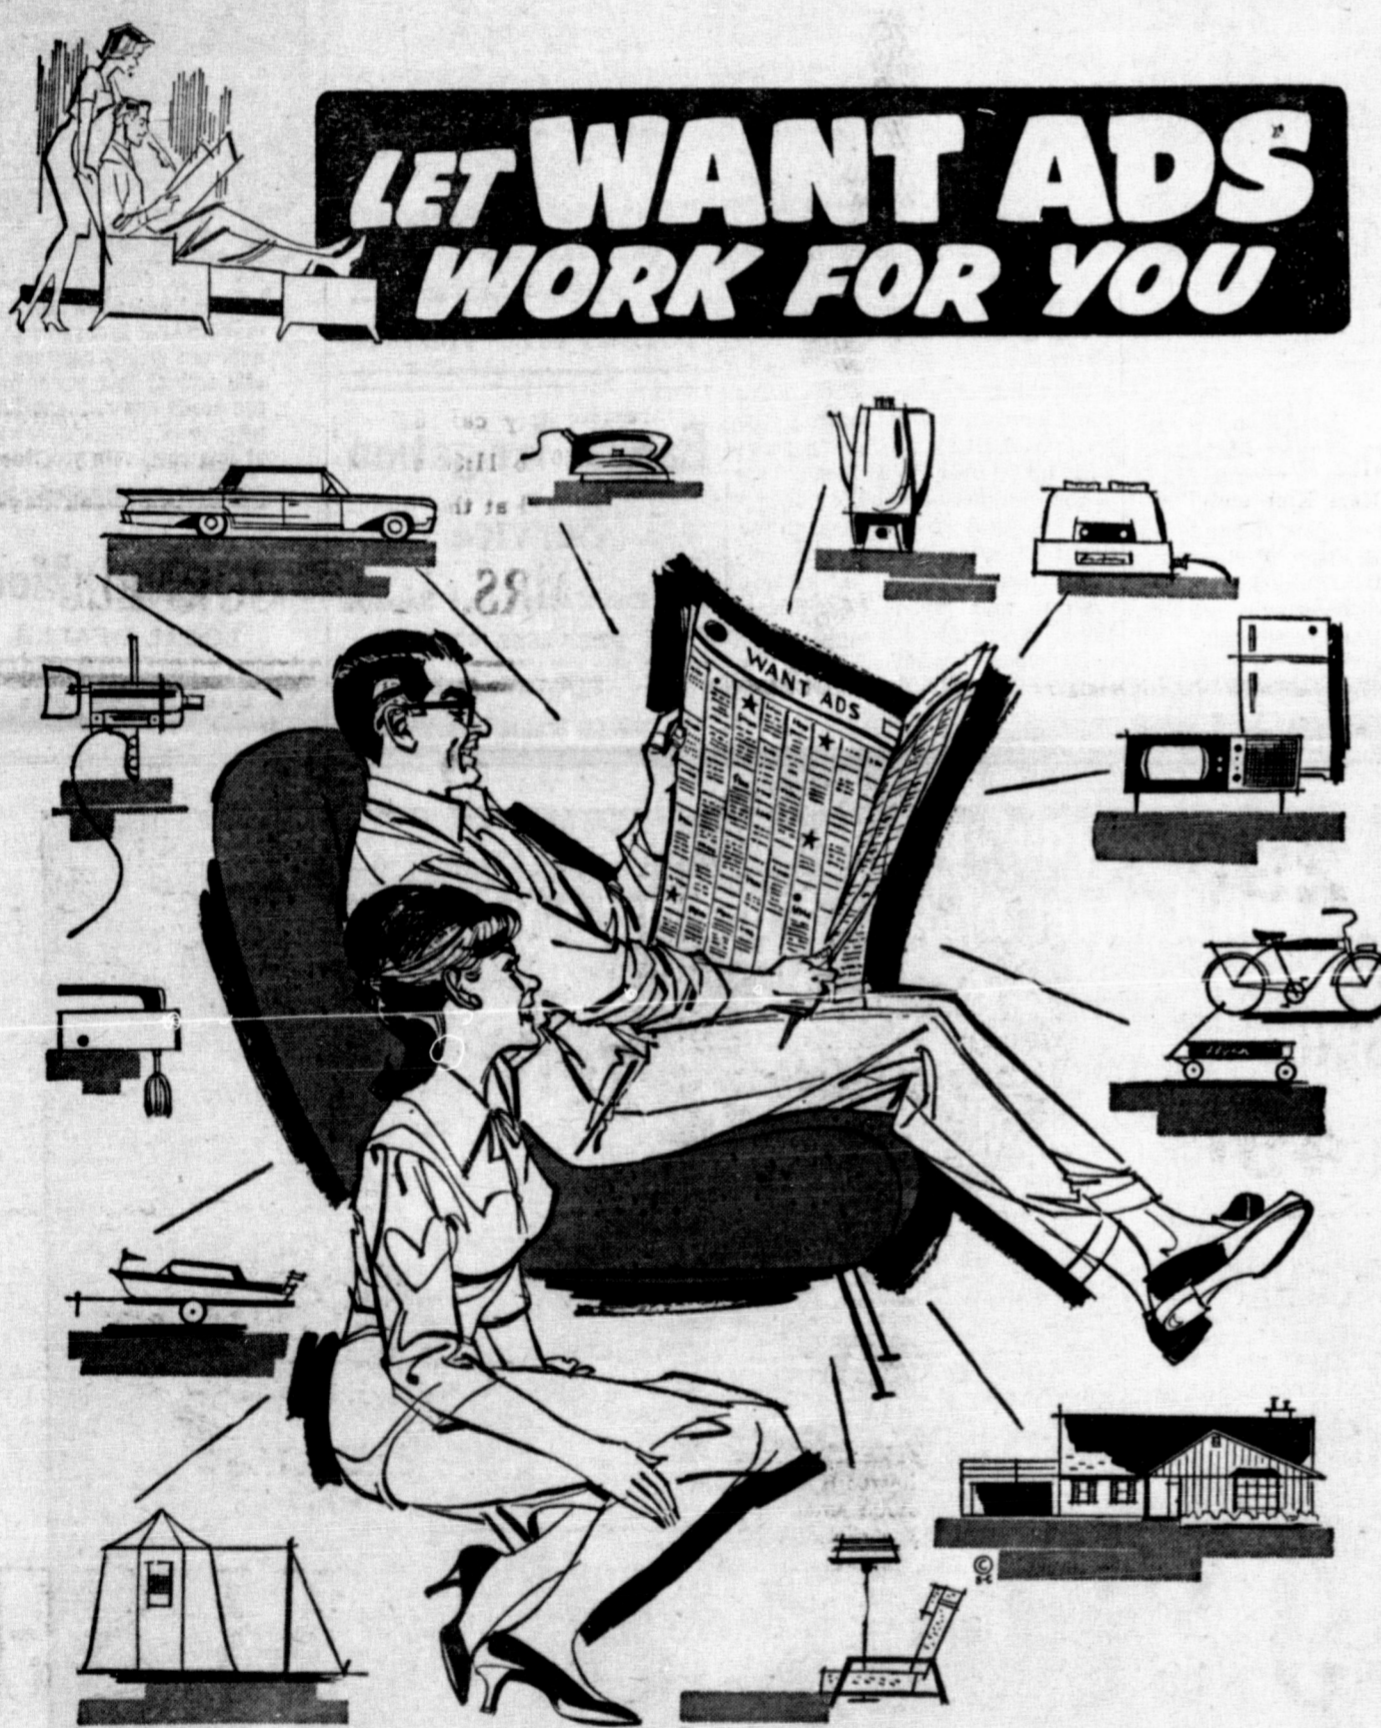

Texas public school cafeterias will serve 2,400,000 pounds of chicken in months ahead. This is Texas' share of 50,000,000 pounds bought by the U.S. Department of Agriculture with school lunch funds.

O. J. McCullough, Houston tool manufacturer, has applied for a charter for the National Association for the Advancement of White People.

Water storage in Texas reservoirs increased 26,100-acre feet in November. This brings the total to 7,200,000-acre feet or 61 percent of capacity.

Mr. and Mrs. C. A. Wright and son visited relatives in Memphis Sunday.

Mrs. Lugene Stephenson of Houston is visiting her mother, Mrs. Crockett Taylor.

Right away now Uncle Zeb will be having a birthday. I mean the old fellow who grins down at you from the top of this column and has done so for what has added up to a long, long time. Actually, in just a short time he will pass his eighteenth birthday. Looking backward it just doesn't seem possible. Anyhow, drop Uncle Zeb a card, and tell us how many of those years that you have been a reader. Good or bad please tell us what is right or wrong with the column in your opinion. Uncle Zeb and myself both ask this because we have been talking over some changes.

Speaking of changes, we have considered quitting writing the column at all for awhile. 18 years adds up to over 3600 weeks. Two pages per week makes for an over-all total of over 7000 typed pages. Mostly, writing the column has brought a certain warmth and joy to life. Sometimes it creates a problem. We even wonder what most of the readers would think of this change.

Another considered change

has been in the heading. Around a dozen newspapers run the column all the time or occasionally. Many more quote from it. Several editors have turned it down because they thought Uncle Zeb was too much of a country boy—this happened mostly in the larger city newspapers. They suggested a more dignified and up to date heading, claiming that non-farm folks were not familiar with plowing or corners. One editor in a large city ran the column but not the picture in his farm edition fearing that farm folks would resent the picture. Could this be true?

Please send us your frank and honest opinions on the above. Sign your letter for sure, but if you request we will not use your name.

The trouble with opportunity is that it usually comes all wrapped up in a lot of hard work.

To call a bit of gossip an idle rumor would be the under statement of the year. To get around so fast nothing could be running at idle speed.

It seems such a surprise that ever the government would be suddenly spurred to action by the tobacco report. I believe most anyone who smoked would have known in his heart that it was hurting him to do so. Most of our parents begged us not to take

up the habit because of our health. A large percent of us just had to have our fling with it, and most of us stayed hooked until we could feel the hurt. The tragic thing about it is that all angles were turned toward hooking our youngsters and the women. The promoters even boasted of their accomplishments. Cigarettes were passed out for free on our college campuses. It is a little embarrassing to have to tell those now grown-up youngsters they were driving nails in their coffin. Even more shocking is the fact that liquor remains a more dangerous enemy to health and happiness and nothing is being done to protect our children from the appeals of money mad promoters. The danger free filters and the pure spring water slogans continue to deceive our innocent young.

It is said that women get out of the dumps by buying a new hat. Men can get out by taking off their coat, rolling up their sleeves and going to work.

Texas A. and M. College furnished more officers to the Army in World War II than did West Point.

 5 repeat actions	 Fastest typing	 No pounding	 Even typing	 10 clear carbons
----------------------	--------------------	-----------------	-----------------	----------------------

Electricity lets you underline a full row of words just by holding down the key, rat-tat-tat, just like that. The same is true for dashes, spaces, dots and the letter "X" for crossing out.

Electricity lets you type as fast as you want even if you're a speed champ. And there's no jumbled letters, no jumpy lines, no uneven spacing.

Electricity does the work for you. There's no pounding the keys. And you can adjust the touch from featherlight to the same as a manual's.

Electricity gives you an expert's even touch on the keys. All letters are typed with the same even blackness... your typing looks perfect.

You adjust a dial and can make up to ten carbon copies. More important, the tenth is just about as clear and readable as the first.

SMITH-CORONA CORONET—Crisp, modern styling. Four decorator colors. Full office keyboard. Choice of many type styles. Lightweight all-steel carrying case. ONLY \$10 DOWN.

ALLEN HARP

ALLEN HARP CANDIDATE FOR DISTRICT JUDGE

In connection with his recent announcement that he is a candidate for District Judge, Allen Harp made the following statement:

"My service in and to our Court system includes the following: District Attorney of this District, County Attorney of Childress, City Attorney of Childress, Official Court Reporter of this District and State Representative of the District which included some counties in this Judicial District. I am now serving, and have served since January 1, 1957, as City Attorney of Childress. I am 53 years of age and have been engaged in the practice of law since April, 1947. Prior to being elected State Representative, I taught school in the rural schools of this area, and during World War II, I served in both the Army and the Navy. My wife, Muriel, and I are graduates of Abilene Christian College and were married in 1935. Educational wise, I have also attended several law schools and a business school. We have

a son, Robert, and a daughter, Marilyn. Marilyn is enrolled in Abilene Christian College. Robert and his wife, Dorothy, have been attending Texas Tech and now have a son. In common with all grandparents, Muriel and I tend to spoil the little fellow.

Some of the organizations of which I am a member and the position held therein are as follows: Past Chancellor Commander of the Knights of Pythias, Past President of Childress County Old Settlers Association, Past Post Commander of the American Legion, Past Chef de Gare of the 40 and 8, Past Post Commander of the Veterans of Foreign Wars, and Past Director of the Childress Chamber of Commerce.

If I am elected, all who come before me in the Court will be given equal and fair consideration, and I will make a conscientious effort to apply the law to all legal questions presented.

In the event I am unable to see each of you individually, please consider this my personal request for your vote."

Mr. and Mrs. Jim Douglas of Dallas were week end guests in the home of Mrs. C. G. Stricklin.

W. S. (BILL) HEATLY ANNOUNCES FOR RE-ELECTION

W. S. (Bill) Heatly has announced that he will be a candidate for re-election to a 2nd term representing this county as State Representative of the 82nd District. He stated that his formal statement would be forthcoming within the near future.

He also sent along the following note of appreciation.

"Thank You

"For fear that we would overlook someone in a personal letter, permit Mrs. Heatly and me to take this means of saying to each and all of you how deeply honored we were for your large delegation from Donley County to be at the Appreciation Dinner in Vernon, January 24th. By your presence, we were indeed honored and humbled. Thank you.

W. W. and Jonnie Green Heatly State Representatives, 82nd District"

Our heartfelt thanks to all who extended their sympathy and help in our recent sorrow. We are deeply grateful for all of your kindnesses.

The Family of J. L. Christopher

May we express our deep appreciation for those who extended their sympathy and help in our recent sorrow. We are indeed grateful.

Soil Test Suggested For Soil Bank Land

Donley County farmers with land coming out of the Soil Bank will want to test soil fertility, says Flip Breedlove, County Agricultural Agent. Land out of production for some time may be less fertile than regularly cultivated land, depending on what had been growing on it, Breedlove points out.

"Don't guess — soil test," is Breedlove's advice to farmers in this situation. If the land coming out of soil bank contracts is to be returned to agricultural production, a soil test should be made even if it is to be used for pasture or hay.

Soil tests are the best way, the agent says, to help decide proper fertilizer applications. Test results help farmers decide the treatment to bring land up to most efficient levels of production.

If fields with abundant grass cover are returned to cultivated crops, they may need heavy nitrogen applications to help decompose plowed-under organic matter, according to Breedlove. This is especially true if non-legume crops are planned. Land planted to soybeans or other legumes on the other hand, may not need this treatment.

Church Youth Program To Be Outlined

A new program for the young people of the Presbyterian Church in Clarendon will be outlined, discussed and demonstrated at the Winter Regional Training Event for youth and interested adults in Pampa February 23.

The program, under the direction of Mrs. Pete Cowart of Canyon, is sponsored by the Presbytery of Plains Youth Subcommittee of Christian Education.

The new program, using the title of the "Texas Plan," was developed in El Paso in response to national concern for the young people of the church. It is designed to make a dynamic program of organizations which have become static.

Copies of the new Texas Plan will be sent to each church participating for study by delegates before the meeting.

Meeting with the delegates from Clarendon and Pampa will be others from Perryton, Canadian, Borger, Spearman, McLean, Memphis, Childress, and White Deer.

Mr. and Mrs. Van Knox spent the week end in Oklahoma City where they visited their daughter, Mrs. Frank Baugh, and her family. They also visited their two grandsons, Ron and Lon, who are attending OBU in Shawnee, Okla., and Mr. Knox's aunt, Mrs. Bessie Clark, at Shawnee.

Earl Porter of Tulia visited Friday afternoon in the home of his daughter and family, Mr. and Mrs. Bill Weatherly.

Mr. and Mrs. George Benson attended funeral services for Hugh Bookout at Hereford last week.
