Green Belt Final Water Hearings In Austin February 12th And 19th

The culmination of a 20-year effort will be reached on February 12th when the Green Belt Municipal and Industrial Water Authority will have its hearing before the Texas Water Commission in Austin, Texas, for the final location of the reservoir and dam site north of Lelia Lake on the Salt Fork of Red River.

On the same day a public hearing will also be held by the Texas Water Commission on the question of giving approval for the Texas Water Development Board to acquire and develop approximately one-half of the storage facilities in the reservoir to be created by the Green Belt dam. At another public hearing to be held in Austin on February 19th, it is anticipated that the Texas Water Development Board will approve the financing of the Green Belt project, and agree to acquire and develop their proposed one-half of the storage facilities.

Collingsworth County Water Control & Improvement District, headed by Dan Henard as its President, and represented by attorneys Paul Spillman of Wellington and former Senator Clint Small of Austin, have opposed the Green Belt hearings in the past and have indicated that law suits would be filed in Austin against the Green Belt Authority, the Texas Water Commission and the Water Development Board if favorable action is granted to the Green Belt Authority. If such law suits are filed, it is expected that it will delay the actual starting of the construction of the dam and pipe line for at least a year.

The basis on which the Collingsworth County Water District would file their suit is based on the premise that the member cities of the Green Belt project will require only about 23,500 acre feet of water per year projected to the year 1998, and that the Green Belt reservoir will impound about 77,500 acre feet of water. The Collingsworth County Water District wants all water over 23,500 acre feet of water for purported irrigation purposes. Chemical analysis of the water below the Green Belt reservoir shows that the water is too high in gypsum content for domestic and municipal purposes.

An explanation also needs to be made to correct an erroneous

impression pertaining to the legal fees of the Green Belt Authority as originally reported in a Childress newspaper and which later appeared in this paper. The article correctly mentioned that Bill Lowe of Clarendon was named the general attorney and legal coordinator for the Green Belt project, but left the impression that he, personally, would net a fee of 0.65 of 1% of the cost of the project. Upon investigation it appears that this is not correct.

The 0.65 of 1% budgeted for general legal fees cover all legal work through the completion of the entire project of some four to five years, and was set at one-tenth of the engineering fee of 6.5%. The legal fee of 0.65 of 1% is budgeted for the payment of all general legal expenses, including fees of lawyers in Austin, Texas; the acquisition and title work of over 107 miles of right-of-way for pipelines; lawyers fees in other member cities performing legal work in the present five counties of the authority; the acquisition and title work of the reservoir site and recreation areas; and attorneys' travel, telephone expenses, and general miscellaneous legal expenditures.

The total cost of the dam and reservoir, water filtration plant, treated water storage, and the 107 miles of pipeline to the member cities, including the estimated contingencies, is approximately \$9,800,000. Out of this sum the State of Texas will pay about \$2,100,000 by purchasing one-half of the storage facilities in the reservoir.

Engineering fees for the Green Belt project of a Fort Worth engineering firm will be 6.5% of the cost of the project. The fiscal agent's fee of a Dallas bond firm, necessary for financing the project, will be 0.60 of 1% and the fees of a bond attorney firm in Dallas will be 0.75 of 1%. The general legal fees for a project of this type generally run about 1%, but in the Green Belt project the general legal work is budgeted at 0.65 of 1%. It appears that it was necessary to arrive at some figure for the general legal work so that the State of Texas would be paying their prorata portion of their storage

1963 Cotton Crop Exceeds 12,000 Bales

What started out to be a dismal looking crop year turned out to be a much better cotton year than usual with 556 bales of cotton being ginned above the total at this time last year and a few bales yet to go.

The total bales ginned at this time last year by the Paymaster Gins here and at Martin and Lelia Lake and the West Texas Gin at Hedley was 11,592 as compared with a total of 12,148 so far this year. This figure would be quite a bit higher if all the bales of cotton grown in Donley County and ginned outside the county were counted. This overall figure will be forthcoming from the government agency in charge at a later date.

Figured in dollars and cents, the crop this year was much better for area farmers, especially the dry land farmer as less expense was recorded in making the crop. Those who had irrigated cotton realized less profit for wells were kept pumping throughout the dry period. The late rains and a late fall were a big factor in favor of the dry land farmer.

Billy Jack Land Heads Little League This Year

At a recent meeting, Billy Jack Land was elected president of the Clarendon Little League and Horace McClellan was elected vice-president.

At the present time, we are greatly in need of manager, coaches and helpers in general, so we can get started with our overall plans for the coming season which is not too far off, Land stated.

For the benefit of those who have faithfully supported the Little League financially and otherwise, Mr. Land is presenting the following financial statement of the Little League for the past year which shows it is quite an organization from the standpoint of finances as well as the great benefit to the boys who participate.

Ashtola Benefit Bingo Party Postponed

The Leader was informed Wednesday morning that the Bingo Party scheduled for Friday night at the Ashtola Community Center for the benefit of the Clarendon Fire Department had been postponed due to the heavy snow.

Just as soon as the weather situation clears up a new date will be announced. At the present time snow is deep at the Community Center and there is very little possibility that the situation would be improved much by Friday night. Watch for the new date and plan to enjoy this occasion.

Boy Scout Court Of Honor Held Thursday

A Court of Honor was held by Scout Troop No. 33 at the First Christian Church last Thursday night. Twelve boys received awards of rank.

Opening of the ceremony was the pledge to the flag led by Jay Lamberth; Scout Oath by Frankie Ellis and Scout Law by Tommy Saye, Jr. Curley Monroe, Scoutmaster, presented the awards to the boys. Cookies and Cokes were served the boys and their guests in the church basement.

Boys receiving the awards were Steve Allen, Randy Choate, Danny Hill, Jay Lamberth, Danny Mills, Charles Phelan, Ted Tyler, Terry Ashcraft, Mike Jones, Ike O'Neal, Tommy Saye, and Pat Chilton.

JAYCEES TO HOLD ELECTION OF DIRECTORS

The Jaycees will be holding their annual elections the next few meetings beginning February 5th and continuing through the 26th. On February 5th nominations will be made for seven vacancies of directors. Approximately 14 Jaycees will be nominated and these 14 will be on the campaign trail for one week, when seven will be elected.

Elections will take place on February 12th for directors and on February 19th nominations for Officers will take place, and politics will really get hot until the 26th when officers are elected.

Funeral Services Today For Mrs. W. E. Hardin

Funeral services have been set for 2 p.m. this afternoon at the First Baptist Church for Mrs. Ella Spear Hardin, pioneer resident of Donley County, who died at her home here Tuesday afternoon following a lengthy illness. Rev. W. R. Lawrence, pastor, will officiate. Burial will be in Citizens Cemetery with arrangements under the direction of Murphy Funeral Home.

Mrs. Hardin, 91, was born in Hardin County, Tenn., Oct. 8, 1872, the daughter of Mr. and Mrs. O. Spear. She was married to William Eugene Hardin December 25, 1897, in Waxahachie, Texas. The family moved to Donley County from Collins County in 1907. Mr. Hardin preceded his wife in death April 12, 1946. Mrs. Hardin was a member of the First Baptist Church of Clarendon.

Surviving are three daughters, Mrs. Edie Simmons, Clarendon; Mrs. Ed Speed, Colorado City, Texas; and Mrs. C. L. Cannon, Buda, Texas; one son, Frank Hardin, Clarendon; two sisters, Mrs. Earl Pippins, Temple, Texas; one brother, Burl Spear, Maypearl, Texas; nine grandchildren, eight great-grandchildren and one great-great-grandchild.

Grandsons of Mrs. Hardin will serve as pallbearers.

Poll Tax Sales Hit High Figure

People of Donley County are apparently more concerned with conditions in general in the way of politics, bond and tax elections, etc., for they really turned out to pay their poll tax for the current year. A total of 1505 receipts were issued for Donley County which is considerably higher than in recent years.

There will be more hotly contested political races on the local level as well as national and the announcement that all could vote in the national without a poll tax didn't slow the poll tax sales any, in fact it seemed to put more emphasis on the importance of local and state elections.

The county tax office barely finished with the big rush on poll tax sales when the new car tags went on sale. Sales were brisk to begin with but have been slowed down by the weather. The new auto tags for Donley County begin with No. AS 8900 and will tail-up with an AT prefix. Car owners are reminded to bring along their title and last year's registration slip to purchase their new tags.

Poll Tax For Federal Elections Available

For those of you between the ages of 21 and 60 who did not pay your poll tax and desire to vote in elections involving Federal candidates, may now get this special poll tax at the County Tax Office. These will be issued from now through March 6th. It is understood that a fee of 25 cents will be charged for the special poll tax.

ERVIN WILLARD NAMED JAYCEE OF MONTH

The executive board of the Jaycees has selected Ervin Willard as Jaycee of the Month for January. Ervin has been serving as Chairman of the Jaycee Basketball Region Participation for the local club and has done a fine job in keeping the team organized and keeping schedules. Ervin has also been one of the most regular in his attendance at regular and special meetings of the Jaycees. He is employed by the Soil Conservation Service here in Clarendon. The basketball team which Ervin has been chairman has a 3 win and 2 loss record in regional play.

COMMISSION ANNOUNCES REACCREDITATION

Dr. R. G. Garrett, Executive Director of the Texas Animal Health Commission, announces the reaccréditation of Donley County as a Modified Accredited Tuberculosis Area.

County Agent H. M. Breedlove has received the certificate which is good for six years.

The Commission expressed its appreciation to the people of Donley County for the splendid cooperation extended to its representatives while work was being conducted in Donley County; and requested further cooperation of the citizens of the area to maintain the tuberculosis status of the county.

Leader local rate \$3.50

Snow which began falling here Monday morning and continued through Tuesday night has netted a total of 2.34 inches of moisture bringing our yearly total to 2.61 inches. The snow measured 1 1/2 inches in depth Wednesday morning but the overall depth would have been around 23 inches if the weather had been cold enough to prevent melting.

The snow turned to rain Monday night which packed the snow and brought about more melting underneath. The temperature has stood near the freezing mark throughout the spell in the local area.

The depth of the snow and blowing snow in the rural areas brought about the closing of schools over practically all of the Panhandle including the public schools and junior college here. Supt. K. D. Vaughan stated yesterday that an attempt to have school today, Thursday, would be made and that buses would attempt their usual runs but might be limited to the paved roads.

Highways in the area became quite hazardous Monday night and remained that way through Tuesday night with highway crews putting in extra long hours in an attempt to keep them open. Hundreds of cars and trucks were reported stuck along all routes to the north and west.

The snow is regarded as being much more beneficial due to the fact that such a wide area has been covered. The area included embraces most of all Colorado, New Mexico, Oklahoma Panhandle and the Panhandle of Texas. Most of the moisture fell as rain from Memphis on to the east but moisture totals have been good throughout the entire area.

Some cattlemen have found the going quite rough getting to their cattle to feed but are happy that the temperature was no colder than it was. With this amount of snow, cattle losses would have been heavy if it had been of the blizzard variety.

The moisture from the snow is valued in millions of dollars as a greater portion will soak into the soil giving us the sub-soil season which has been absent for quite some time. It brightens the wheat outlook as well as ample moisture for early grass and planting.

The moisture total for the first three months last year was only 1.16, so we have more than doubled that amount with almost two full months to go. The snow creates quite a mess but is valued far greater than the trouble and inconvenience it causes.

TEXANS AT THE WHITE HOUSE

Senator Yarborough of Texas and President Johnson exchange congratulations on enactment of the vocational education bill by the 88th Congress, in a White House signing ceremony. Others in the photograph immediately behind Senator Yarborough and the President are, left to right, Senators Javits, Randolph and Morse. This bill expanded vocational education; extended the National Defense Education Act three years; increasing funds for student loans in colleges and universities; and extended the law for aid to school districts in impacted areas. Senator Yarborough, a member of the Labor and Public Welfare Committee, was invited to the White House ceremony as one who had a key role in enactment of this bill.

This group were recipients of awards at a Boy Scout Court of Honor held at the First Christian Church last Thursday night. They are Steve Allen, Randy Choate, Danny Hill, Jay Lamberth, Danny Mills, Charles Phelan, Ted Tyler, Terry Ashcraft, Mike Jones, Ike O'Neal, Tommy Saye, and Pat Chilton.

IN TRIBUTE TO AUFORD JAY

He was a friend along life's way Who has done a work that's hard each day, A friend, who through the days of time Had character and soul as he did upward climb— He had a patience rare, a sense of duty keen, He made a mettle fair in people's hearts That burnished a golden sheen. He was a neighbor and a

companion, too. He ever lent his hand in friendliness anew. No task too great, no work too small, He cherished this in help to all. He had a loyalty to purpose and to ideals true, Unswerving in its aim of service In lofty work each day anew— Never asking any favors or returns A life of serving others was the goal he earned— May these few lines give token

For a life so richly lived, Not measured by this world's goods In God's great plan on High, He made him thus to give. For Christ has said, "My yoke is easy And my burden is light—" And thus in words so few, He made them manifold, Through Auford's life and you. So may he travel onward, To great reward beyond the stars, Eternity, his bounty, with a soul sincere. A love like his ascends to finer And diviner ends, without one fault That ever mars, nor man's Mere thoughts could ever comprehend. Our dearest love, Dolly and Sim Castleberry

A HARD HAND ON THE REINS

Early in December, President Johnson, having then very recently succeeded to office, told an assemblage of business leaders: "Men in the Government are going to be recognized by not how much they spend but by how much they save."

It now remains to be seen to what extent, and in what ways, this policy will be implemented. The President has supported his words with directives both to government agencies and to the thousands of private enterprises which do business with the government on a substantial scale. But, so big and sprawling is the government, and so complex the chain of command, that a hard and constant hand on the reins will be necessary if more than lip service is to be paid to the cause of economy. And only the President can apply that hand.

In this, one can respectfully say, "More power to you, Mr. President."

SO YOU MAY KNOW

A number of residents have been wondering WHY I left the office of Sheriff, Tax Assessor-Collector before the end of my term.

In answer to this question, I would like to say that I was offered a position that had to be filled in a short time and it was to my benefit in the Peace Officer line of business to accept the offer while it was open.

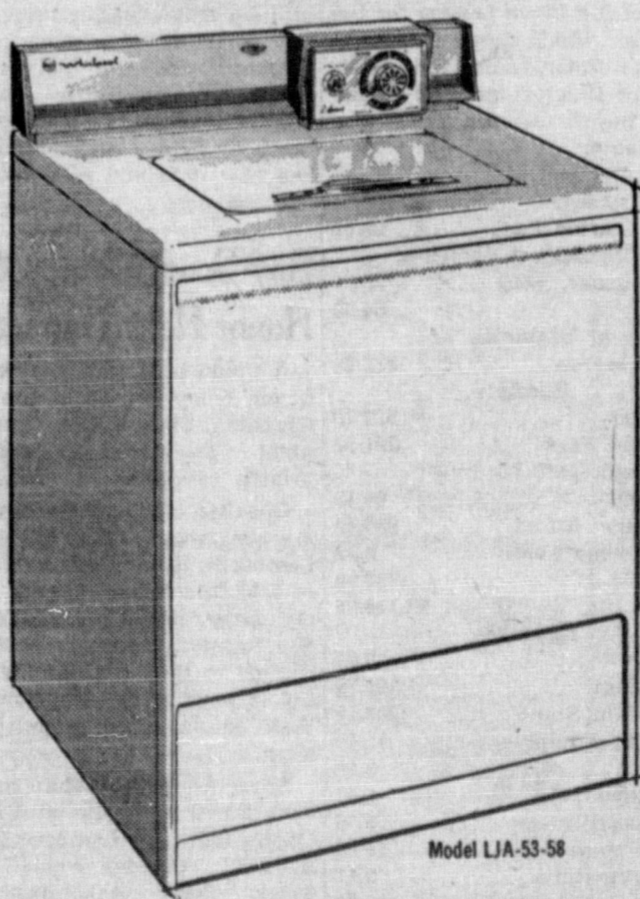

I feel that the experience I gained while at Perryton will aid me in doing a much better job in the future.

From our mail box. All this week our mail box has been full of mail for Uncle Zeb. Sometimes I almost get jealous. A newsy letter from John C. Hagan of Box 9, Flint Hill, Vir-

ginia, is very interesting. For forty-seven years he was a roll turner in a steel plant or mill. He retired only recently at the age of sixty-five. Moved from Pittsburgh to Virginia and bought a little hill in the Blue Ridge Mountains. They grow apples for farming. He and his wife are "doodlers." By explanation he bought his wife an organ, and she bought him a typewriter. One doodles with notes and the other with words.

Then Mrs. Lillian Punsti, the wife of the Norwegian fisherman in Juneau, Alaska, sends us almost a week of copies of the Alaska Empire. In one editorial the editor was worrying somewhat about the number of postmen and children being bitten by dogs. But, he reminded his readers that they had lots to be thankful for. It seems that in Afghanistan a local postmaster reminds his customers along the mail route that if their mail has not been coming through that it may be due to the fact that the

After regular classes in General Chemistry are over for the day Dr. Harvey has been carrying on some research work in the field of Castor Oil. We were somewhat relieved to learn that a company known as Castach Castor Oil Co. has developed their product to the point that it doesn't smell. My most horrible childhood memory had to do with having Castor Oil injected beneath my nose, through the mouth into the aching regions below. Too, we never dreamed that castor beans were a four million dollar crop last year just in that area, and that one of the most properous by-products is paint. We live and learn.

in part to the nice things he had to say about his other copy. It all goes to show that in some cases one can't lose for winning.

Speaking of sending the book without charge reminded me of a story told about a daughter of someone we know back in the watermelon country. The folks left town leaving the young lady in charge and telling her that if any neighbors or close friends came by for a watermelon she was not to make any charge. Sure enough they did. She delivered the melons and when asked about the price remarked; "We don't charge for watermelons." All the time she was holding out her hand. Seriously Bob, we didn't have our hand out.

ernment tries to institute economies and efficiency the people complain bitterly, and all the politicians raise continual howls of anguish. As a result the government is damned if it tries to economize, and damned if it does not. So many of the government's financial problems are caused by pork barrel projects, such as unnecessary water projects, dams, roads and the like, which are purely political favors and done for campaign purposes, until these are stopped there can be no true economy."

DOES GETTING UP NIGHTS MAKE YOU FEEL OLD

After 35, common kidney or bladder irritations often occur and may make you tense and nervous from too frequent passages both day and night. The New Budget Proposal

The attention of Congress is turned now to the historic debates on civil rights and tax cut legislation, but soon decisions will be made in these matters and work will begin on shaping the financial activities of the Government to be conducted in the 1965 fiscal year beginning July 1. President Johnson's budget proposals have been submitted to the Congress and the country. Those of us who have studied

strong for bringing substantial reductions in the level of Government expenditures are encouraged by his efforts to trim the spending sails.

Under President Johnson's budget proposal, the gap between Federal receipts and Federal expenditures would be \$2.9 billion in the next fiscal year, bringing well within range the possibility that the Fiscal 1965 budget can be balanced. By comparison, the Federal budget proposed for the current fiscal year showed a deficit between anticipated receipts and proposed expenditures of \$10.3 billion.

President Johnson's budget proposal for Fiscal year 1965 (and it is important to remember that the budget remains only a proposal until Congress has acted on separate appropriations) anticipates receipts of \$119.7 billion. Of this total, \$93 billion would be obtained primarily from tax receipts and \$30.9 billion from "trust fund" receipts—money obtained in taxes and

contributions earmarked for spending in specific programs such as social security, veterans life insurance, and highway construction. President Johnson's budget proposes expenditures totaling \$122.7 billion, including \$97.9 in the "administrative" budget, that proposed for the general activities of the Government, and \$29.4 billion in the various trust fund financed activities, the largest of which is social security.

Here is a summary of specific spending proposals advanced for

the current fiscal year (proposals which were altered by the appropriations actions of the Congress) and the newly proposed totals for Fiscal Year 1965 spending. In order are Program, Fiscal Year 1964 Proposal, and Fiscal Year 1965 Proposal:

National Defense, \$56 billion, \$55.2 billion; International Affairs and Finance, \$2.8 billion, \$2.3 billion; Space Research and Technology, \$4.2 billion, \$5 billion; Agriculture and Agricultural Resources, \$6.1 billion, \$5.3 billion; Natural Resources, \$2.5

billion, \$2.7 billion; Commerce and Transportation, \$6.6 billion, \$6.6 billion; Housing and Community Development, \$1.3 billion, .8 billion; Health, Labor, and Welfare, \$28.4 billion (including \$22.8 billion in expenditures from trust funds), \$29.3 billion (including \$23.5 billion in expenditures from trust funds); Education, \$1.5 billion, \$1.7 billion; Veterans Benefits and Services, \$6.1 billion, \$5.6 billion; General Government, \$2.2 billion, \$2.2 billion; Interest, \$10.1 billion, \$11.1 billion.

As every American is aware, the primary source of the Government's money is the Federal tax on income. The Government dollar is split up, according to President Johnson's budget proposal, into these slices: 40 cents from individual income taxes; 21 cents from corporation income taxes; 14 cents from employment taxes; 12 cents from excise taxes; 11 cents from miscellaneous sources; 2 cents from borrowings.

Submission of the budget to the Congress is the first phase of the process. The second phase is Congressional review and enactment, the phase about to begin. Twelve subcommittees of the House Appropriations Committee give detailed consideration to the parts of the budget referred to them. The Subcommittees make recommendations to the whole Appropriations Committee, which, in turn, makes its recommendations to the House of Representatives. When passed by the House, the appropriations measure is forwarded to the Senate. There the process is similar to that followed by the House. If the two Houses of Congress disagree, a conference committee meets to resolve the differences. The conference report is referred back to the House and Senate for approval and then forwarded to the President for his final action to make the measure law.

CONGRESSIONAL RACES UNDISTURBED — Governor Connally anticipates no disruption in congressional district races this year, since the U.S. Supreme Court recessed until February 17 without taking action on pending redistricting cases.

Filing deadline for Texas primaries is February 3. Connally and other state officials do not think the high court will interfere with election machinery already in progress.

APPOINTMENTS ANNOUNCED — Former Secretary of State Tom Reavley of Austin was named by Governor Connally as judge of the newly-created 167th district court of Travis County which goes into operation on June 1.

Among other recent appointments by the governor are:

Dr. John J. McKetta, Jr., dean of the University of Texas College of Engineering, to serve on the Southern Interstate Nuclear Board.

Judge Victor H. Lindsey, 72nd District Court, Lubbock, is presiding judge for the Ninth Administrative District, to succeed the late Judge Luther Gribble of Childress.

C. E. Knolle, Jim Wells County dairyman, as chairman of the Texas Animal Health Commission, succeeding Clayton Puckett of Fort Stockton who remains on the commission.

John M. Stemmons of Dallas, re-appointed as a director of the Dallas County Flood Control District.

INVESTIGATION CONTINUING — A half dozen state investigators are looking into activities of Corpus Christi promoter Paul Amos Sandblom, who is charged with dealing in unregistered securities.

Additional charges may be filed against the South Texas financier, according to State Securities Commissioner William King. He has four agents combing the tangled financial affairs

of Sandblom, 39. And the state auditor has assigned two more investigators.

A court-appointed receiver of the bankrupt promoter's estate estimates he took in over \$25,000,000 but now has assets of only \$27,000.

TEXAS COURTS — Court of Criminal Appeals has ordered new trials for two men who had served a total of 43 years in Texas prisons.

Decision was in line with a recent Supreme Court ruling that all indigent persons accused of crimes are entitled to court-appointed counsel. Texas law has required designation of such counsel only in capital cases. Several similar appeals already are before the court here.

State Supreme Court heard arguments as to whether the Texas Parks and Wildlife Commission can prevent use of nets and seines in Galveston, Trinity, East and West Bays, in view of a 1957 law apparently permitting use of trammel nets there.

Lower courts have held for fishermen opposing a 1949 commission order against netting.

Supreme Court also agreed to permit a coastal hospital district to request clarification of a state constitutional amendment authorizing such districts to be created by statute. Sweeney Hospital District wants to determine if citizens voting on district bonds have to render personal property for taxation.

Three contempt of legislature cases growing out of investigation of Southwest Conference basketball point-fixing allegations and another arising from slant hole oil probes were postponed by an Austin district court until March.

Texas Civil Judicial Council reported that about two-thirds of the nearly 200 State district judges in Texas receive salary supplements from County governments in addition to their \$12,000 annual pay from the state.

Supplements range from \$600 a year in some rural areas to \$8,000 in Harris County, where district judges make \$20,000 a year.

WATER HEARINGS PUT OFF — Hearings on four Brazos River watershed reservoir proposals have been delayed by Texas Water Commission until March 23 to await additional engineering studies.

Projects are: Proctor Reservoir on the Leon River near Comanche; Belton Reservoir on the Leon River in Bell County; Stillhouse Hollow Reservoir on the Lampasas River in Bell County; and Somerville Reservoir on Yegua Creek in Washington County.

Commission agreed to permit diversion of 600 acre feet of water a year for the city of Hamilton from the Proctor Reservoir.

SHORT SNORTS — Benton Musslewhite of Lufkin announced his candidacy for congress, opposing Congressman John Dowdy of Athens in the Democratic primary. Thomas Rote of San Antonio will run for the Republican congressional nomination against John O'Connell both to take on Congressman Henry B. Gonzales in November.

State Reps. Malcolm McGregor of El Paso and George Cook of Odessa will contest for the Democratic nomination against GOP Congressman Ed Foreman, Odessa. A new Laredo school, United High School, is being praised by civil defense officials — It is one of the first underground schools in the nation constructed solely with local funds — and was constructed at lower cost than standard structures.

Governor Connally may visit Washington after making a speech to North American paper industry representatives in New York on February 25. State Board of Education set a February 8 hearing on the American Civil Liberties Union's appeal from a Houston school board loyalty oath requirement for users of school buildings after Education Commissioner Dr. J. W. Edgar held the board had authority to exact the oath.

Atty. Gen. Waggoner Carr reports his office handled a record number of cases in 1963 — disposed of 3,389 law suits (won 2,638) and filed 3,288 more.

Bruised beef carcasses represent costly losses to the packer as well as the producer. On the beef carcass the loin has about 31 percent of the bruises that occur on the animal, the shoulder about 36 percent, the rounds 12 percent, the rump 8 percent and the ribs 13 percent.

Blackburn-Risley Nuptials Solemnized In Home Ceremony Sun.

Miss Marie Blackburn, daughter of Mr. and Mrs. Charles Blackburn, and Lloyd Virgil Risley exchanged wedding vows Sunday afternoon, January 26, in a ceremony read in the home of the bride's parents. Mr. and Mrs. Lloyd Risley are parents of the groom.

The Rev. Baldwin Stribling, pastor of the First Presbyterian Church, officiated at the double-ring ceremony. The home was decorated with a wedding arch entwined with huckleberry and white carnations, topped with wedding bells, and flanked with white wrought iron candelabra bearing white candles. White carnations were used for the house decor.

Miss Connie Williams played traditional wedding music as guests were seated and the traditional wedding march was played as the bride entered.

For her wedding, the bride wore a dress fashioned of French imported Chantilly lace. The scalloped neckline was embroidered with seed pearls, and the fitted bodice came to a low point in the front. Long sleeves formed petal points over the hands. The voluminous skirt fell into a chapel sweep and was highlighted with front and back panels of shirred and crystal tulle-pleated ruffles. Her finger-tip veil of imported French illusion fell from a tiara scrolled with seed pearls and iridescent sequins.

She carried a white Bible topped with a bouquet of white frenched carnations and tulle showered with satin streamers tied in love knots.

MRS. LLOYD VIRGIL RISLEY—nee Marie Blackburn

Miss Judy Pittman was maid of honor. She wore a pink velvet sheath dress with matching hat and carried a crescent bouquet of white carnations.

Tammy Blackburn, sister of the bride, served as flower girl. She wore a delicate pink dress of silk organza accented by a headband of white frenched carnations and carried a matching basket.

Ring bearer was Charles Blackburn, Jr., brother of the bride.

Attending the groom as best man was Gregory Ventura of Weatherford, Okla. Joe Sykes of Amarillo seated the guests.

For her daughter's wedding, Mrs. Blackburn chose an aqua

silk dress and beige accessories. She wore a corsage of white carnations. Mrs. Risley, mother of the groom, wore a dress of blue with red accessories. Her corsage was of red carnations.

A reception followed the ceremony. The bride's table was covered with a white linen cloth with the tiered wedding cake forming the centerpiece. Miss Carol Spencer served at the punch service; Leane Risley served at the coffee service; and Mrs. W. C. Russel served the wedding cake. Miss Sue McCord registered the guests.

After a brief wedding trip the couple will be at home at 318 East Commerce, Altus, Okla.

The bride is a graduate of

Clarendon High School, attended Clarendon Junior College, and North Texas State University, and will attend Altus Junior College.

The groom, also a graduate of Clarendon High School, has attended the University of Texas, the University of Syracuse, and West Texas State University. He is currently enrolled at the University of Oklahoma. He is stationed at Altus Air Force Base, Okla.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Capitol talk is centering around Texas' new double-standard for voter qualification.

There's a lot of speculation and some concern in political circles.

Ratification by South Dakota will place into effect a Federal constitutional amendment abolishing the poll tax as a requirement for voting in future federal elections:

1. Texans who want to vote for state and local, as well as federal officials, still must have poll tax receipts or appropriate exemptions.

2. Those who are content to vote for president, vice president, U. S. senator and congressman only, won't have to pay. But still they must get a free poll tax receipt from their tax collector.

The new "registration" re-

quirement for federal elections takes effect after the U.S. General Services Administrator certifies that the amendment is officially part of the federal constitution.

Thirty days will be allowed voters, after the amendment goes into effect to obtain the special receipts stamped "poll tax not paid." These "tickets" admit one to vote in federal elections. After this year, they must be obtained during the regular poll tax period of October 1-January 31.

For tax collectors and election officials these additional headaches will be presented:

Separate poll lists must be compiled for those who have paid the poll tax and those who have not; non-paying voters must get a ballot containing only

the offices and propositions which they are eligible to vote on; all propositions except federal offices must be "locked out" on voting machines; and election returns must show separately those voting on free receipts.

Legal experts think the state law passed in anticipation of the federal amendment's ratification takes care of most emergencies and will prevent chaos, if not confusion. Detailed instructions soon will be sent to county tax collectors by Secretary of State Crawford Martin.

Gov. John Connally, meanwhile, warned Texans that failure to pay the poll tax commits them to "only half a vote in the 1964 elections." Connally joined groups on all sides of the political fences in the final week's campaign to pump up lagging payments.

CANDIDATES FILING — With the filing deadline closing in, most statewide incumbents (and some of their opponents) have announced their election plans.

Cleanup is one phase of corral maintenance too often neglected. Litter and debris such as discarded machinery, fallen timber, rolls of fencing, and broken feeding equipment present the threat of injury or death to animals.

Cub Scout News

The monthly pack meeting was held January 28th in the First Baptist Church. Several announcements were made at this time.

Mrs. Roxie Barbee's den participated in a western pantomime, and a film "Wintertime Fun" was shown to the Scouts and their families.

Mrs. Mike West and her new den of Cub Scouts won the attendance banner.

February 8th, Scouting celebrates its 54th birthday. In honor of this occasion, this week has been set aside for observance of National Scouting.

On Friday, February 7th, each Cub Scout is asked to wear his complete Scout uniform to school, and then on Sunday, February 9th, all Cub Scouts are to meet at the First Baptist Church at 10:50 a.m. to worship together. They will enter as a group and be seated as such. Their families are invited to attend service, also.

LEGAL

NOTICE TO CONTRACTORS

Sealed proposals for improvement and extension to Water System in Clarendon, Texas, will be received by the City of Clarendon at the office of the City Clerk until 2:00 p.m. February 21, 1964, at which time the proposals will be opened and considered by the Board of Commissioners of the City of Clarendon.

The proposal is divided into three sections which may be bid separately as follows:

I. Main Extensions and Booster Pump

II. Tank Foundations

III. Water Tank Relocation

Bids filed with the City Clerk must be accompanied by a Cashier's Check or Certified Check on a solvent bank doing business in the State of Texas, or a Bidder's Bond by a Surety Company doing business in the State of Texas, in a sum not less than five percent (5%) of the total amount bid. Check or Bond shall be payable without recourse to C. J. Lohoefer, Mayor, which check or guaranty shall be forfeited to the City in the event the successful Bidder fails or refuses to enter into the contract within ten (10) days after notification of acceptance of his bid proposal.

All materials and workmanship shall be in accordance with plans and specifications on file in the office of the City Clerk, where same may be examined.

The successful bidder will be required to furnish evidence of Public Liability and Property Damage Insurance coverage in amount of not less than \$50,000.00.

The Board of Commissioners reserves the right to reject any and/or all bids and to waive all formalities.

Plans, specifications and contract documents are on file at the office of the City Clerk, Clarendon, Texas, and may be obtained upon request at the office of Hatfield Engineering Company, Consulting Engineers, 509 West Tenth Avenue, Amarillo, Texas.

acquisition. The unanimous decision of the Board of Directors is that the fee for general legal work is reasonable and considered somewhat modest by the majority of the Board. It was originally hoped several years ago that expenses could be somewhat less by hiring a business manager of the Authority, but because of the urgency in obtaining the right-of-way for the pipeline from a site on Lake Creek to Childress and Quannah before the reservoir is built, the numerous condemnation suits arising, and the unforeseen necessity of defending suits against the Authority such as is contemplated at Austin, required a new look at the situation and eliminated the need of a business manager.

L. E. (DOCK) YANKIE ANNOUNCES CANDIDACY FOR SHERIFF, TAX ASSESSOR

L. E. (Dock) Yankie has authorized the Leader to announce his candidacy for the office of Sheriff, Tax Assessor-Collector of Donley County. In making his announcement Mr. Yankie stated that he was 48 years old and a native of Donley County. He is the father of two children and served in World War II. "This is my first time to seek a public office of any kind, but I feel I can render a much needed service to the people of this county and if elected, I will serve to the best of my ability and in the best interests of the residents of this county. Due to my present job, my time to campaign will be short, but I will make every effort to see everyone before the first primary election. Your consideration in my behalf will be appreciated," Mr. Yankie stated.

INCORRECT PICTURE OF SOCIAL SECURITY

"After more than a quarter century of social security, many people still think of it as something strictly for the older person and it is this incorrect picture of social security that we try to dispel through every means that we can," Hal Geldon, social security district manager, said today. Geldon brought out that the social security program protects persons of all ages — not only the 62 or 65 year old. In addition to the regular retirement benefits for elderly people, disability payments may also be made to a totally and permanently disabled worker who is under 65. Benefits to widows, surviving children under 18 years of age, and disabled children past 18 years of age are also an important part of "social security."

"Social security is no longer protection for the older person alone," Geldon said. "It is lifetime protection for nine out of ten working Americans."

Benefits cannot be paid unless an application is made; a person who is nearing retirement should inquire at the social security office about benefits, as should survivors of a deceased worker, or a worker who has become disabled. "These three times for action," Geldon said, "are a must if a person is to be fully informed on his social security rights and obligations."

REBEKAH LODGE TO HAVE POT LUCK DINNER

The Rebekah Lodge will have a Pot Luck Dinner at the Lodge Hall Wednesday, February 12, at 12 o'clock noon. The public is invited to attend. Charge per plate will be \$1 for adults and 50c for children.

Mrs. Ethel Robinson of Pampa is visiting this week with Mrs. Edith Longan.
