FIRST OF A KIND — The Clarendon Jaycees became the first in Donley and among the first in Texas to receive one of the new license plates. An estimated \$5 million will be added to the state tills as the result of a bill that will become law on August 30. The Jaycees purchased the license plate "JAYCEE" for their president, Roland Hill, right. Looking on are immediate past state vice president Chauncey Hommel and Mrs. Eddie Floyd, of the county tax collectors office.

State Ready To Issue Money For GB Dam Construction & Rest of Projects

Bill Lowe, attorney for the Greenbelt Municipal and Industrial Water Authority, was in Austin the first of the week working out details with state departments regarding the issuance of money to complete the Greenbelt Dam project.

Lowe stated that final approval of bond resolutions was made and the state was ready to issue the money as soon as contracts were let. The Authority was granted their request for \$300,000 more of State participation which will now give the state a total of \$900,000 worth of water storage capacity.

Lowe stated that Greenbelt directors would meet September 9th at which time the board will probably authorize the publication for bids on the dam construction along with other associated projects to complete the entire complex.

Bronchos To Scrimmage Lefors Here Friday Nite

The wraps will be off the 1965 edition of the Clarendon Bronchos at 7:30 p.m. Friday when they meet Lefors in a practice scrimmage contest in Broncho Stadium. It will mark the end of the second week of workouts for the Bronchos and the only time the Clarendon coaching staff will have to see the team under game-like conditions before the season opener against the Gruver Greyhounds on September 3. The team has been undergoing twice-a-day workouts since the first day on August 16.

Head coach, Jeff Walker, has not announced a "Starting lineup" for the scrimmage. "We feel players should get this scrimmage behind them before we make any definite decisions about a starting eleven," he said. Plans call for the use of all players of the Varsity and B teams during the scrimmage. "We will probably be making so many substitutions during the scrimmage that it would be almost impossible to pick any eleven players as 'starters,'" he added.

The public is invited to attend the scrimmage. One team will be in control of the ball for a certain number of plays and then the other team will be in control. Because the meeting of the teams is a scrimmage, coaches for both teams will be allowed on the field.

FARMERS UNION CHARTER MEETING TO BE HELD TUESDAY NIGHT

A drive has been made in Donley County to organize a Farmers Union organization for this county. A meeting has been set for Tuesday, August 31st, to present the charter.

The state president will be on hand for the presentation of the charter. An organization of this type concerns every farmer in the county as it is only through these means that we make our voice heard in Washington.

All members and interested persons are urged to be present to hear the president speak. He is well informed on the affairs concerning the farm programs in Washington and possible ways to put our views before the lawmakers.

The meeting will be held Tuesday, August 31st, at 8 p.m. in the Hospitality Room of the Farmers State Bank.

Please send him some magazines or books about the United States... He started a collection of National Geographic Magazine while here. We have a list of the missing numbers if you should want to part with some of your copies... Drop me a note and we will send the numbers he is short... His

SELF-HELP CLOTHING BUILDS CHILD'S CONFIDENCE
Self-help clothing for nursery-schoolers can do much to build a

child's confidence, says Lynn Parks, Texas A&M University Extension consumer education specialist.

Proper clothes for tiny pupils need not be expensive or even "fashionable." They are clothes that a child can handle himself without having to ask the teacher for help.

Easy-care, washable fabrics are important for the small fry. When little garments can be put thru the washer and dryer quickly, mother needs to buy fewer of them, points out the specialist.

Self-help features that mothers might look for when clothes shopping or buying patterns to make

garments for a child are elastic banding instead of buttons or buckles wherever logical, a few larger buttons and buttonholes instead of a dozen very tiny ones, and no complicated sashes on little girls' dresses which teacher has to tie.

The self-help features will encourage the tiny pupils to take care of themselves, and will save considerable effort on the part of teachers and busy parents.

PATTERNS FOR PROGRESS IN COMMUNITY DEVELOPMENT

The Industrial Team selling a community to industry

WTU area development representatives are available to assist growth-conscious communities in planning economic development programs

When a community prepares itself to attract new industry, a strong industrial team is essential. Industry representatives want all the facts. And only informed team members can sell a community's story accurately plus solving the industry's problems on a new location.

Team members must be thoroughly and completely informed on labor . . . taxes . . . utilities . . . transportation . . . sites . . . insurance . . . city commitments . . . and financing . . . thus indicating a minimum of seven members on the team.

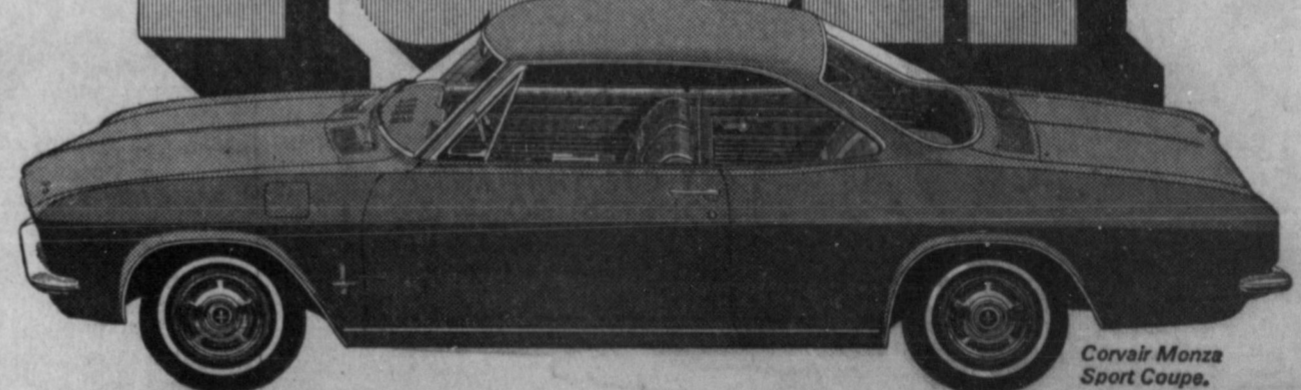

As a PATTERN FOR PROGRESS a permanent Industrial Team is a definite requirement in a community's economic development program.

WTU's area development representatives have information about the organization and operation of an industrial team. This service is available to growth-conscious communities on request through your local WTU manager.

Pickering-Heath Nuptials Solemnized In Church Ceremony

In a double ring ceremony read Friday evening, August 6th, in the Bristol Street Baptist Church at Santa Ana, California, Miss Judy Carol Pickering became the bride of Michael Alan Heath.

The bride is the daughter of Mr. and Mrs. Kenneth P. Pickering of Santa Ana, Calif. The groom, who is based at the Marine Corp Air Station at El Toro, Calif., is the son of Mr. and Mrs. Hershel E. Heath of Clarendon, Texas.

The Rev. J. Blake Woolbright officiated at the ceremony. Rev. Harry E. Owing, who officiated at the wedding of the bride's parents twenty years ago, offered the benedictory prayer. Vows were exchanged before an altar decorated with two large bouquets of white gladioli, white mums, light blue and light green carnations on pedestals. Accenting the floral arrangement were two gold candelabra with eight white tapers. A gold and white kneeling bench centered the decor. The bridal aisle leading to the altar was lined with white carpeting. Marshall Pickering, brother of the bride, and Kent Heath, brother of the groom, lighter the tapers.

Miss Lois Millstead, organist, played a prelude of nuptial selections and accompanied Miss Kay Butler who sang as a solo "One Hand, One Heart." She also accompanied Miss Butler and Mrs. Betty Pratt as they sang "The Lord's Prayer."

The bride, given in marriage by her father, wore a floor-length gown of white peau de soie and Chantilly lace styled with a fitted

bodice, scalloped neckline, and long tapered sleeves. The full skirt with insets of Chantilly lace extended into a chapel train. Her bouffant elbow length veil was attached to a pearl encrusted tiara. She wore a single strand of pearls given her by the bridegroom, and she carried a bouquet centered with a white orchid and showered with satin streamers.

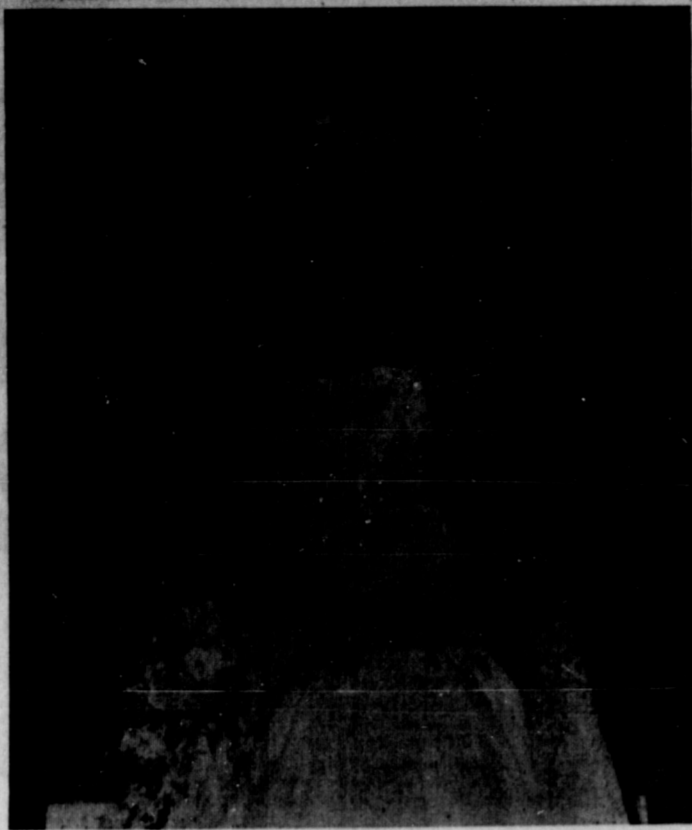

Attending the bride as maid of honor was Miss Linda Pickering. Bridesmaids were Miss Gwen Strachan and Miss Dorothy Hardcastle. They wore floor-length empire dresses of blue whipcream and headpieces with short veils in matching color. Miss Pickering carried a crescent bouquet of light green carnations while bridesmaids carried cascade bouquets of light green carnations. Little Miss Judy Byrd, flower girl, carried a basket of light green and light blue carnation petals.

John W. Greene attended the groom as best man. Groomsmen were Peter N. Harder and David J. Small. Ushers were James Isbell and Bob Segrest.

Following the ceremony a reception was held in Fellowship Hall at the church. The table was laid with an embossed white satin cloth which the bride's grandparents used at their Golden wedding reception. The four-tiered wedding cake was topped with a miniature bride and groom. Appointments were crystal and silver.

Gifts were displayed on a table laid with a hand embroidered green and white cloth of handkerchief linen. The cloth belonged to the bride's aunt, a gift from a foreign student of Milan, Italy.

As a traveling costume, Mrs. Heath chose a beige and green check suit complimented by white accessories and the orchid from

her wedding bouquet. The bride attended Santa Ana Valley High School and Santa Ana Junior College. The groom attended Clarendon High School and Clarendon Junior College.

The couple will be at home at El Toro, Calif. where they will live at the Marine Corp Base.

Out-of-town guests for the wedding included Mr. and Mrs. Hershel E. Heath and Kent of Clarendon, Texas, Mr. and Mrs. Jack Bixby and Nancy of San Diego, Mr. and Mrs. Joe Bosch of Lawndale, Calif., Mr. and Mrs. George Richling and Steve of Oxnard, Calif., and Mr. and Mrs. John Ward of Corona, Calif.

JAYCEES TO SPONSOR MISS CLARENDON PAGEANT

The Clarendon Jaycees are planning a Miss Clarendon Pageant for next year. The winner will be the official entry in the Miss Texas Pageant with a chance to be Miss Texas and earn the right to enter the Miss America Pageant.

The Clarendon Pageant will be for Donley County girls between the ages of 18-28 who are single. Entries will be judged on the basis of personality, talent, charm and beauty. Judging will be done in five divisions: formal wear, street wear, swim suits, talent, and an interview with the judges.

At the present, the pageant is scheduled for late March, 1966. It will be held on a Saturday night and a program with several professional acts is being planned by the Jaycee Pageant committee.

LOCAL YOUTHS ATTEND CRIME CONFERENCE

The two 1965 graduates of Clarendon High School who attended the Attorney General's Conference on Crime in Austin last week returned to Clarendon Sunday. The two, Kenneth Price and Ronnie McAnear, gave a report to the Clarendon Jaycees, their sponsoring organization, at their regular meeting Wednesday night.

Both young men felt the conference was of benefit to them. "Much of the conference dealt with problems of the larger cities like Houston, Dallas, and El Paso, but a great deal concerned the rising crime rate among teenagers in the smaller towns and cities in the state," said Price. "The conference helped us to understand many problems that are now facing hundreds of those in our age group," said McAnear.

Mr. and Mrs. M. C. Rampy enjoyed having three of their granddaughters with them last week. Mr. and Mrs. Ray Rampy of Lubbock came for the two girls, Delisa and Donna Rhea, and Kim, daughter of Mr. and Mrs. Max Rampy, and visited the week end.

Attend the church of your choice.

Federal authorities have brought suit here to abolish the poll tax as a requirement for voting in Texas elections. Suit was filed under the new voting rights act.

If they are successful in getting an early Hearing, a special session of the Legislature may be necessary to enact a valid voter registration statute.

Texas' poll tax is the only existing form of registration for state and local elections. However, there is a procedure for obtaining "free" poll taxes to vote in federal elections.

Observers feel near chaos would result at the polls next year if a final ruling is handed down in favor of the federal suit, without prior enactment of registration procedures.

Although the U. S. Attorney General maintains the tax is not used to raise revenue for the state, Comptroller Robert S. Calvert estimates over \$5,000,000 income for the next biennium from that source. That's \$5,000,000 the state treasury won't get if the poll tax is repealed. Reliable estimates so far see the biennium ending with government in the black by only \$1,300,000 to \$4,200,000 including income from all existing levies.

Atty. Gen. Waggoner Carr has announced he will oppose the

federal suit to invalidate the poll tax and to enjoin state and local officials from enforcing its requirements for any general, special or primary elections.

Suit seeks to direct Travis County Tax Collector Fritz Robinson and his employees to compile and certify local voter lists "without regard to payment of the poll tax or any other tax."

APPOINTMENTS ANNOUNCED—Gov. John Connally named five public members to the new Legislative Study Committee on Multiple Use and Pollution of All Waters of Texas.

They are Dr. Carl Lind Jr., Stone Wells and Charles Sowell, all of Houston, John Clegg of Port Lavaca and Bill Senter of Abilene. Legislative members selected earlier are Sens. Culp Krueger of El Campo, Criss Cole of Houston and Charles Herring of Austin and Reps. Gus Mutscher of Brenham, John Mobley of Kilgore and Dean Neugent of Texas City.

Charles W. Lindsey was the Governor's choice for judge of the new Criminal District No. 3 of Tarrant County.

Connally picked Lester Prokop, Houston builder and lumber executive, to succeed Judge Robert L. Lowry of Houston as a member of Texas State Historical Survey Committee.

Lt. Gov. Preston Smith appointed Sens. Martin Dies Jr. of Lufkin, D. Roy Harrington of Port Arthur and A. R. Schwartz of Galveston to a committee to study possible development of a state park on Pleasure Island near Port Arthur.

Smith names Sens. Jim Bates of Edinburg and Herring to a panel to negotiate for the return of a flag captured by Mexican forces at the Alamo. Governor Connally has stated he prefers to leave the negotiations in the hands of the U. S. State Department and will name no members of the state committee himself.

BOUNDARY DISPUTE AIRED—First meeting of negotiating committees from Texas and Louisiana reached no firm conclusions in their efforts to settle a long-standing boundary dispute between the states.

Room was seen for arbitration of the dividing line in the Sabine

River ship channel at the Gulf jetties. But the river boundary question seems likely to end up in federal courts.

At stake in the dispute are valuable mineral rights along the river, as well as control of fishing and future barge traffic.

Texas contends the middle of the Sabine should be the boundary between the states. Louisiana claims the line was extended to the west bank of the river by the 1803 Louisiana Purchase.

Negotiators agreed to keep trying—perhaps to study possible extension of a federal boundary running between jetties bordering the channel—and to exchange briefs in future meetings.

Land Commissioner Jerry Sadler presided at the initial conference. High State officials and legislators from both states were present.

ENROLLMENT TO SOAR — Texas Commission on Higher Education forecasts that college and university enrollments in Texas will zoom from 280,106 to nearly 400,000 by 1971.

Nearly all Texas schools report they are short on space for their present students. Predicted increases will affect every one of the existing state-supported institutions, Commission believes.

ATTORNEY GENERAL RULES — In recent official opinions, Atty. Gen. Waggoner Carr has held that:

- valid surface lease on land being purchased under the state veterans' land program cannot be given in excess of 10 years.

- First assistants and chief deputies in state departments are entitled to reimbursements for actual meals, lodging and incidental expenses while traveling on official business inside or outside the state.

- Employees of the State Highway Department who drill or supervise drilling of an occasional water well on land owned by the state do not have to be registered as drillers under new act.

- Unclaimed wages and personal property held in Texas by foreign corporations for persons whose last known address is unknown or outside Texas must be reported to the State Treasurer under escheat statutes.

- Vouchers issued to colleges and universities providing teacher training under a plan approved by Central Education Agency and U. S. Government are valid.

- No refunds may be made by the State Comptroller for unused cigarette tax stamps purchased prior to September 1, 1959.

DRAFT IN TEXAS — State Selective Service officials say Texas men born in 1946 and after are safe from the draft—with occasional exceptions—through October. But some of them may be

called up for military service in November.

Married men who are not fathers are 1-A, but are in the fourth rank of selection. Most draftees come from the third rank.

Col. M. S. Schwartz, head of the state office, says the state policy toward college students is "No college students."

However, the plight of persons deferred as students or because of their occupations is in the hands of local draft boards.

SHORT SNORTS — State Insurance Board reaffirmed its July 1 order boosting auto insurance rates an average of 13.4 percent. Dates went into effect on August 1.

Attorney General Carr defended constitutionality of the Texas Legislature's version of House of Representatives redistricting and asked federal court to set immediate deadline for further petitions in intervention on the suit.

Texas Employment Commission has set up a new special programs department, headed by Harrell Townsend of San Angelo, to handle growing number of federal-state cooperative manpower projects.

Texas National guard and Reserve forces will be ready for merger if and when delayed amalgamation plans are revived, says Maj. Thomas S. Bishop, adjutant general.

Dollar volume of securities registered for sale in Texas during current fiscal year may equal, if not exceed, 1961 record, according to University of Texas Bureau of Business Research.

Texas Parks and Wildlife Department is setting up special accommodations in Rio Grande Valley for white-winged dove hunters next month.

LIBRARY NOTES

EDITH BARNES
 A memorial gift has been given to the library to be dedicated to the memory of Mrs. R. L. Stewart, mother of Mr. Sid Stewart.

Those of you who read either or both of Evan Hunter's two novels, "The Blackboard Jungle" and/or "A Matter of Conviction," know that he is one of our better modern writers. He like many of our present day writers was in the service, went back to school after getting out to finish his education, then become a successful writher.

Quoting: "His 'Mothers and Daughters' is a deep moving insight into the lives of the men who love them. But more than this, it is a work of massive and enormous scope, a panorama of American life in our times. Beginning in a college of the 1940s, with the young women coming off age and the young men going off to war. Evan Hunter's... most ambitious novel encompasses a whole range of American experiences."

"This is a major novel by one of America's best-known writers." Author Hunter probably isn't

too popular with those who think a book has to be deep, obscure and a real chore to read to be any good.

Several years back we had an English teacher who suggested his "A Matter of Conviction" for outside reading. Students made it the most read book in the library for a time. Not only did they read it but they liked it and a lot of them had never read any fiction deeper than teen age fluff.

You would think that a book published in October of 1966 and then come out with the two hundred and seventeenth edition August 1960 had something special to offer its readers, yet that is exactly what A. A. Milne's "Winnie the Pooh" has done. Very few of our young readers ever check it out nor have they in the past. If this book and his others do have something for the children, it is hoped that unless they are in your child's home library you will start checking them out and reading them to youngsters. As you know long after a child learns to read they love to be read to and will listen to stories much too hard for them to read to themselves.

of the public for fish and wildlife use of the reservoir. The \$1.1 million total provided by my bill enacted last year will provide supplemental facilities.

The National Park Service report presents in detail its plan for developing the eight designated shoreline recreation sites—Sanford-Yake, Blue West, Fritch Fort, Alibates, McBride, Plum Creek, Bugbee, and Blue East. Work under the fish and wildlife authorization has begun at the first six of these areas; the new plan provides for completing these developments as well as providing initial developments at Bugbee and Blue East, both of which are located on the north shore of the reservoir not far from Sanford Dam.

Meanwhile, in Washington and Santa Fe offices of the Park Service a prospectus is being prepared for mailing to prospective concessioners who would make private enterprise investments in facilities at the reservoir. The bid invitations, I understand, will be ready to go out sometime this fall. The suggested concessioner program at Lake Meredith includes overnight accommodations; meal services; grocery or general store operations to provide camping, picnicking, fishing, boating, and sporting goods; souvenir or curios shops, transportation, boat rentals and sales; operation of mechanical boat-launching facilities; marina or dock operations; marine fueling stations; automobile and boat repair services; trailer park facilities—and, perhaps, a helicopter and small plane landing strip.

Park service policy is not to suggest concessioner developments inside recreation areas when similar accommodations or services exist or can be developed by private enterprise outside the area but in the vicinity.

As an example of proposed development, the Park Service proposal affecting Sanford-Yake would be of special interest because this area is now perhaps most familiar of all to the general public. Thousands of persons have viewed the dam in stages of construction from the Sanford-Yake vista point above the river bed. In this area, \$173,000 is being spent from the fish and wildlife allocation and \$155,000 is the pro-

posed expenditure from the \$1.1 million authorization for roads, launching ramp, parking areas, water supply, sanitary facilities, picnic area and other projects. An interpretive shelter (presumably containing a map of the project area and explanatory information) and extensive picnicking facilities are planned for the former overlook. The concession plan, when completed, may call for a concessioner-operated marina there. Another of the recreation sites already familiar to thousands of Panhandle residents is Fritch Fort, also on the reservoir's south shore, a high peninsula providing a spectacular view of the lake and surrounding land. In addition to roads, launch facilities, picnic areas and so forth mentioned in the report, the Park Service expresses the view that Fritch Fort would be as well suited for "a concessioner lodge or similar development which will attract visitors who want comforts and conveniences of luxurious facilities and who expect to pay for extra services." The report notes also that a marina, a golf course, and landing strip would be other likely concessioner projects.

As many of you know, Congressional action was completed in recent days on my bills to name the reservoir "Lake Meredith," in memory of that great conservationist and Borger citizen, A. A. Meredith, and to establish the Alibates Flint Quarries National Monument in conjunction with the Alibates recreation area.

Recent Visitors: Mr. and Mrs. Carroll Boyd and sons, Preston and Phillip, Dumas; Mrs. W. D. Waters, Pampa; Mr. and Mrs. Glen H. Bates and daughters, Paducah.

LAKE MEREDITH RECREATION PLAN

I have received from the National Park Service its proposed recreation facilities development plan for Lake Meredith. The report presents Park Service recommendations for spending \$1.1 million authorized by the Rogers Bill passed in 1963 to insure proper recreation development at the reservoir. The plan will be reviewed by the House Committee on Interior and Insular Affairs, with special attention to be given by my Subcommittee on Irrigation and Reclamation, which has initial legislative jurisdiction over Federal reclamation projects such as that on the Canadian River. Construction will begin after changes, if any, are made following committee review and contracts are let.

Now, construction is completed or underway on projects costing \$790,000. This was the amount authorized several years ago for access roads, boat ramps, and other projects to insure adequate access and accommodation

from County ASCS Committee

PUBLIC NOTICE OF MAIL ELECTION

A mail election will be held for the purpose of electing the 1966 community committeemen. The ballots will be mailed to each eligible voter on August 27th and the marked ballots must be returned to the Donley ASCS County Office no later than September 8. Any eligible voter who fails to receive a ballot in the mail can pick one up at the office.

It is important that each voter read carefully the letter of instruction which will accompany the ballots. The method of voting has been changed and unless you are aware of the new method and cast your ballot accordingly your vote could be disqualified.

The County Committee will count the ballots publicly on Friday, September 10th at 10:00 A.M. at the County ASCS office. The public is invited and urged to witness the vote counting.

The county committee is responsible for settling any question on election procedure or eligibility to vote or hold office. Such determination may be appealed to the State Committee.

PUBLIC NOTICE OF COUNTY CONVENTION

The County Convention will be held on Wednesday, September 22, 1965 at 10:00 A.M. at the Donley County ASCS office. The three elected committeemen for each community will serve as delegates to the convention. Purpose of this convention is to elect the new county committee and alternates. It is open to the public and anyone interested is urged to attend.

NEWS FROM CITY HALL

by R. L. Gilkey, Mayor

In the city council meeting Tuesday, the 17th, the Aldermen voted to borrow \$4,000 so that the city could pay current debts. The sum was borrowed on a short term note to be repaid by the end of the year or before. With our good rains the past month the water bills won't be as high as usual for the summer. Although this may cause a temporary decrease in revenue to the city it will be of benefit in the months to come. Anything that helps our farmers and ranchers, helps our city.

Have you noticed? The Beauti-

fication Committee has started construction on the public rest rooms east of the Little League fields. The upkeep of this new facility will be assumed by the sanitation department of the city. Also you may have noticed activity around the red brick schoolhouse. The city is planning to repair or replace the roof of this building to prevent damage to the gym floor inside. This building will then be turned over to the Planning & Beautification Committee for development as a Community Center.

The cost of construction of a city dog pound is being investigated. It would be constructed on the city property near the sewage plant.

Please be cautious what you place in the garbage cans. A few persons have been placing heavy rocks in the barrels, making

them too heavy for the city employees to lift into the truck. Our garbage and trash collection has been good. Let's not make this job any harder than it needs to be.

City Administrator? We still haven't found one.

DISTRICT 2-A ATHLETIC MEETING HERE SEPT. 1

Supt. K. D. Vaughan, chairman, announced that the District 2-A Athletic meeting would be held here in the school cafeteria next Wednesday, September 1.

Superintendents, Principals and coaches from district 2-A schools will be present for the meeting at which time plans for the football season, and other athletic and interscholastic events will be discussed.
