HOME GROWN CRIMINALS.

Criminals are home grown. So are law-abiding, honorable citizens. Character, good or bad, gets its original "set" at the dinner table, in front of the living-room fire, in the basement workshop or playroom, even perhaps the woodshed.

JACK STRICKLIN'S COMMENT.

Gov. Wilbert Lee O'Daniel broadcasts over one of the Greater stations down on the border, that he has so little confidence in the press of the state that he is establishing his own paper.

PAY THE PIPER.

When we're young we call the tune and when we are older we pay the piper, says Kathleen Norris. It's an inescapable "fact of life."

the bill and start paying. If it's money trouble, according to this writer, you have much for which to thank God. For many other troubles are worse.—Harry Koch in Quannah Chief.

WHERE DIAMONDS TWINKLE.

Douglas Meador, editor of the Matador Tribune, is now an author. He has had published his first collection of "Trail Dust" and has the volume on the market now.

WORTH TELLING.

The man who doesn't advertise likes to point to the time honored saying, "the world will beat a path to the doorway of the man who makes a better mousetrap." He overlooks the fact that before the world can do anything toward beating a path it has to know about the mousetrap and also the name and address of its maker.

IT HOLDS FIRST PLACE in Pep, Power and Pick-up among all low-priced cars!

1st in Value, just as it's 1st in Sales!

You drive the leader when you drive a Chevrolet for '40—the leader in pep, power and pick-up—and the leader in style, stamina and sales!

It holds first place in acceleration—first place in hill-climbing—first place in all-round performance with all-round economy—among all cars in its price range.

That's why Chevrolet for '40 is first in sales... why more people buy Chevrolets than buy any other make of car... and why your Chevrolet dealer strongly recommends that you eye it—try it—buy it—today!

SUGGESTION.

Subject for school debate: Resolved that it is safer to have a woman on the back seat driving, than to have her on the front seat hugging the driver.

NOCTURNAL.

A local doctor says the reason more babies are born at night is that they want to be sure to find the mother is at home.

OUR WEAKLY POME.

Mary had a Paris frock, Which made the people stare; For tho she was a little dear She looked a little bare. The above pome is dedicated to spring. It was worked up while the writer was hot riding a hoe handle in the garden. Just that you wanted to know, etc.

TWAS EVER THUS.

Oola Yurt says to a woman of a large family that her whole life is just one darned stocking after another.

INSTRUCTION.

If Confucius really wants to know what they think of him, he should park himself under the bridge table.

MODERN AGE STUFF.

The perfume manufacturer's son who was cut off without a scent had nothing on the optician's daughter who had two glasses and then made a spectacle of herself.

PROGNOSTICATION.

With one or more political papers in the field, mud slinging and bull slinging, it looks like we are in for a hot campaign this summer. The "stinky brink" will be reached July 27th.

THAT MYSTERY MAN.

If Jim Farley stays boss of the P. O. department long enough, the Unknown Man will be the guy whose face is not seen on a postage stamp.

INQUISITIVE.

When the Panhandle census taker happens around, a number of personal questions will likely be asked. Remember that the folks in our section are most obliging and courteous. Maybe Uncle Sam wants to prove that fact to the rest of the Nation. Some of the questions asked: "Do you share bath tub with others?" And "do you have a flush toilet and do you share it with others?" These questions may sound silly to you, but it all brings out the "homey" atmosphere of the dear old Panhandle. Questions likely overlooked might include: "Do you sing in the bath tub, and do you lock the bath room door?"

clothing becomes transparent, and finally disappears. Now some of the "gentlemen" are hoping for swimming suits that will become invisible when wet.

That's all for this week except to say that GW is leaving soon for the summer in a lower altitude. There will be great doin's on the ridge what with the old Apostle batching—maybe. (P. S. Pies will be most acceptable, especially fried pies. Who makes the old-time fried pies of home dried peaches?)

ETERNAL TRIANGLE.

Don't argue with a man about his car or his mate, and above all, don't kick his dog. He selected his car after deliberation; when it came to getting married, he was hooked; he keeps his dog because he craves sympathy such as no other living animal can give at all times under all circumstances.

SIMPLE HUMAN NATURE.

When some people say they "had a grand time," it merely means that the speaker had a free opportunity to talk. The wisdom of their own words, the eloquence of their one-sided conversation, impressed them as being so wonderful as to make the affair highly successful. Wasn't it old Ben Franklin who said that if most of the people would "keep the bowels open and the mouth closed, a lot of trouble would be avoided?"

Outlook Much Better

The Outlook is much better for those who diversify where possible. They have found out that a "One Crop" idea does not pay. The farm "sidelines" of cream, eggs, poultry often provide a weekly pay check. It counts in paying the bills of the family. Observation has taught all of us that the ground silo, cow, sow and hen must have a place on the well regulated farm. It forms the money crop when field crops fail to come up to the standard.

HOME OWNERS FORUM

By ABNER GORDON

CONCRETE failures can be avoided

by following a few basic rules in mixing and laying which eliminate the causes for dusting, flaking and cracking.

Concrete mixed with clay, loam or other so-called impurities, or prepared with sand in excess proportion to the cement will inevitably fail to give lasting, satisfactory service.

The ingredients must be stirred thoroughly and the mixture poured before setting begins.

Pour concrete only during periods when moderate to warm temperatures may be expected. Freezing of soft mixture will result in imperfect setting.

Do not allow concrete to dry out before chemical action of setting has occurred.

When dusting or chipping results, treat surface with a hardening fluid prepared by dissolving three pounds of zinc sulfate crystals in one gallon of water. Saturate entire area with the solution and allow to dry thoroughly. Under all but exceptional conditions, this treatment will check dusting making further correction unnecessary.

Liquid wax is also useful in checking surface failures. Work the wax in well, allow to dry, then rub firmly.

If dusting or chipping continues, ascertain by hand brushing or picking if failure is more than surface deep. If so, no hardener will suffice. Entire wall or floor must be replaced to correct trouble.

QUES. Can paint mixed on the job from paste pigment and linseed oil be used effectively in a spraying machine?

ANS. Red and white lead paints mixed on the job from the paste pigments are widely used for spray application.

Prepare the paint according to standard volume formulas for the surface in question, then add additional turpentine until paint sprays freely. Generally one extra quart of turpentine per gallon will suffice.

JUNIOR H. D. CLUB

The Junior H. D. Club met Thursday afternoon at the Club Room with Viola Bones and Mattie Ballew as hostesses.

The meeting opened with the Club prayer; roll call answered with current events.

Lucille Chessler presided in absence of the president. In the business meeting it was voted to meet at 3:30 instead of 2:30.

Refreshments were served to Hatie Palmer, Marie Patterson, Hazel Lusk, Dale Holland, Jennie Burch, Dollie Wilson, Gracie Ayers, Alyne Bain, Mary K. Todd, Mozelle Wright, Virginia Schull, Lucille Chessler, and the hostesses.

SEVEN MEN FROM TEXAS

Seven men from Texas, says a writer in Collier's Weekly, are in Rumania for the purpose of seeing to it that Rumania's oil wells do not fall into German hands in the event of an invasion. Their job will be to use nitroglycerin where it will do the

most good; that is, to sabotage the wells and make them unproductive. In two days, the article says, the Texans can perform tasks which would make it impossible for the Rumanian field to produce any oil for two years.

According to the Collier's article, Germany must have Rumanian oil in large quantities in order to carry on. It can use synthetic fuel for trucks and it can draw upon the fields in Poland and Russia for normal needs; but only in Rumania can it find the high octane fuel that airplanes must have. It will be the Texans' job to see to it that if Germany attempts to capture the Rumanian field, the wells are ruined. It will be seven Texans against Germany, if and when Rumania is invaded. We may see presently that the seven unnamed men from this state's oil fields are more important in world affairs than generals or diplomats.

MURDERER TO BE HANGED

But is the right man taking the "13 Steps" to the gallows? Was it the condemned man who killed Agnes Herrick, wife of his friend?

You will be held breathless by this startling, fast-moving story of metropolitan newspaper life—with a brain-twisting plot, a violent love story, a breathless murder trial, all set against the realistic background of the press room.

Because we want you to know Mercury Books, we'll send you this one—"Thirteen Steps" by Whitman Chambers—practically free. We'll supply the book if you'll pay 10c for postage and handling.

Out of more than 100,000 copies printed we have less than 5,000 left—and they're going fast. Hurry and send a dime for a complete copy of this intensely interesting book of more than 90,000 words. (Sorry—only one to a customer.)

Wildlife Increases in Southern Great Plains

During the long period of drought in the Southern Great Plains which brought the black blizzards and dust storms, food and shelter for wildlife was reduced to such an extent that some species almost disappeared from the Plains. Within recent years the ever-increasing use of soil conservation practices has been of great benefit in increasing valuable wildlife. Lack of vegetation around stock watering ponds (upper left) prevents use by wildlife, while development to encourage wildlife (upper right) results in production of ducks and other valuable species. Plants along the banks also reduce wave-cutting and catch silt. Control of gullies by use of trees, shrubs and grasses (lower left) provides homes for quail and song birds. Field border plantings for wind erosion control (lower right) supply food and shelter for wildlife on the Plains. Such birds compensate farmers for this help by aiding in insect control, Soil Conservation Service technicians declare.

Mr. and Mrs. Alton Jacobs and baby visited the Roy's Sunday.

Laura Ann, the small daughter of Mr. and Mrs. John Fowlkes, is seriously ill in the Odum Sanitarium at Memphis.

Owing to the teacher and bus driver, our school had a wonderful picnic Monday. First they rode the bus to Clarendon and inspected the Coca Cola bottling company and several places of interest, then the train to Hedley and Mr. Miller of Ashtola drove our bus and bus driver and they came back to Luttrell park and ate lunch. On to Clarendon, then to Chamberlain and played ball with Mr. Todd's school. Although we got heat in the ball game the children didn't mind it as they were so thrilled over the rest of the day.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

Spring - - with all its miracles—grass turning green, flowers budding, and to top it all the new spring "wonders", we've found while gadding thru the yards.

The outstanding blooming shrub is the Forsythia. It is truly the gardener's pot of gold. The largest of these graceful shrubs are in front of the Harry Brumley home—combined with the white of the Bridal Wreath, the effect is most striking.

The red buds are beginning their colorful parade, the large one in the Hayter back yard is trimmed tree fashion. The one at the W. B. Sims home reminds one of feathery plumes.

No more lovely sight can be imagined than a flowering crab in bloom. The one in the Joe Goldston yard has completely covered itself with myriads of pink blossoms, making a rare and delightful sight.

Few shrubs can rival the delicate coloring of the flowering almond. Those near the Benson porch have been adorning the early spring landscape.

Gardening is an adventure for all ages. Won't you help make our town a garden spot?

Miss Helen Risley will spend the week end with friends in Lubbock.

Mr. and Mrs. Elmer Palmér visited friends in Borger Friday.

Mrs. Dewey Heath of Amarillo visited in Clarendon Sunday.

Mr. Phinn McMahan is leaving Friday to visit relatives and friends in Sherman.

"When a woman's toes stick out, she is in style, but when a man's toes stick out he's a bum."

Mr. and Mrs. Verna Lusk and son Bobby Gene and Mr. and Mrs. Ray Hefner and daughter, Patsy Sue spent the week end in Odessa, visiting relatives.

Milling Sanatorium
MINERAL WELLS, TEXAS

AN INSTITUTION WITH A NATIONAL REPUTATION FOR THE TREATMENT OF CHRONIC DISEASES

This is to let you know that I, Ed Hammond, of Granfield, Oklahoma, was down and could not walk on account of siatric rheumatism. I was an invalid for three years. I went to Rochester, Minn., and they did not do me any good. I tried doctors everywhere I could hear of, but did not get any relief. I finally heard of the Milling Sanatorium. I went there, staying three weeks and went home sound and well. It has been over six years since Milling treated me and I am still well, and working every day.

Johnny Leathers Will Receive Calf Free For Persistence Last 2 Years

DALHART.—For his persistence, Johnny Leathers of Donley County won't have to buy the calf he will show at next year's Amarillo Fat Stock Show—W. O. "Bill" Culbertson of Dalhart and Bueyeros, N. M., is going to give him one this time.

For the past two years, Leathers has taken runner-up honors in the calf division at the Amarillo exposition with calves he purchased from Coon and Culbertson registered Hereford calves and this week he wrote about buying his third.

Culbertson told the boy he was going to give him a calf this year instead of selling him one. "Any boy with the stick-to-it-tiveness you've shown," Culbertson said, "is entitled

to every encouragement."

Culbertson said he is going to take young Leathers to his W. O. Culbertson & Sons ranch at Bueyeros, show him the 35 herd sires, which include the \$2,500 Jayhawker Domino, and tell him he can pick the sire for his calf and then the calf.

When Leathers, in the next few days, picks the calf he will, in effect, be picking his third straight Coon & Culbertson Prince Domino Beau Astor registered Hereford.

This famous ranch firm which for many years annually registered more Herefords than any other ranch in the world, dissolved on a friendly basis a few months ago because R. S. (Uncle Dick) Coon of Dalhart and

Houston, the senior partner, wanted to devote all his time to his oil and property interests.

Culbertson, the junior partner, took the top 1,400 cows and the top 35 herd sires, including Jayhawker Domino, from the Coon & Culbertson cattle and established his ranch at Bueyeros though he and Mr. Coon still maintain their old Coon & Culbertson headquarters offices in Dalhart.

When Leathers, two years ago won the reserve grand championship of the Amarillo show with his Coon & Culbertson calf, he immediately contacted Culbertson and said he had to have another calf from his firm's herd. This year he was even more insistent.

"I've just got one more year to feed a calf before I go to college," he said, "and I've just got to have another calf from the same herd." Leathers expects to enter Texas A&M College after high school, Culbertson said.

Mason County 4-H Club calves have beaten Leathers both times.

Don't Transplant Rio Grande Perch

One of the reasons why the State Game Department makes no effort to stock the waters of Texas with the huge Rio Grande perch was demonstrated during the severe cold spell which hit the Valley. The perch died by the thousands. They cannot stand a water temperature lower than 50 degrees. They are a tropical fish belonging to the cichlidae family.

Another reason the Game Department does not encourage the spread of Rio Grande perch are that they are so prolific and such voracious feeders that they compete with bass and few lakes or streams can support many bass after the Rio Grande perch move in.

Among the hardy trees which may be used for windbreak plantings in the plains region of Texas are green ash, parvifolia Chinese elm, Chinese elm, Chinese jujube, desert willow, vitex, and salt cedar. This list, compiled by Sadie Hatfield, Extension Service specialist in landscape gardening, also includes these evergreens which do well in the western part of the state: western yellow pine, red cedar and Chinese arbovitae.

Approximately 4,042,000 bales of cotton were consumed in United States mills from August, 1939, through January, 1940, as compared with 3,307,000 bales for the same period a year earlier.

While the average cost of drilling a 1,000 foot oil well in parts of Texas is \$6,000, a 11,000 foot test costs nearly 24 times as much, or \$143,000.

Thirty-six percent of the students of home economics and agriculture at state agricultural colleges are former 4-H Club members, statistics in a national club magazine reveal. Of 1,000 former 4H Club boys studied, 65 percent are in agriculture and in teaching.

Make yourself an honest man and then you may be sure that there is one rascal less in the world.—Carlyle.

Texas' forty carbon black plants produce 425,000,000 pounds a year, or 82 per cent of the nation's total output.

Texas homes and industries are the largest consumers of Texas natural gas, using three-fourths of the total annual output.

Harry Hines Faces Issues

SAN ANTONIO, April 1.—Asserting he would not build up "straw men" to knock down, but would talk about realities, Harry Hines, candidate for Governor, said in an address broadcast from here tonight he would make his pledges to the people as the campaign progresses and that "as Governor you will not find me throwing them overboard afterwards."

Hines, who is completing a six year appointive term as State Highway Commissioner, said he would discuss the issue facing Texas in a series of broadcasts every Monday night in a frank, plain manner and that he would not try to create false or manufactured issues, nor hedge, or camouflage.

Declaring that "the recognized press and radio stations of Texas are good enough for me," Hines said "I want it clearly understood now that I will not use any radio stations in a foreign country to bring these messages to Texas people, nor will I publish a house organ, or political newspaper."

"Also, if I find it necessary to talk about so-called 'professional politicians,' I will have the honesty and the courage to call them by name, and tell you what I mean by a professional politician," Hines said. "If I think any newspaper, or any newspapers, are subsidized or controlled by harmful special interests, and are being used against the public good, then I will have the honesty and the courage to tell you which one, or ones I am talking about, and why."

Mr. Hines said he was grateful and overwhelmed by "the fine reception the people throughout every part of the State have given my candidacy, and for the thousands of pledges of support received since I announced on February 20th that Harry Hines would be a candidate for Governor." Prior to his talk excerpts from messages from widely scattered parts of Texas commending Hines for Governor were read.

"From the first," said Mr. Hines, "it has been my intention to put over an intensive and courageous fight in this race to be your next Governor—Governor for all the people—but with this flood of thousands of pledges and expressions of sup-

port that have been pouring in, I have received even added strength to accomplish this end. With the people of Texas so strongly behind me I am more certain than ever that it is the will of the voters of Texas that I be their next Governor.

"During the months of April and May, I will talk to you from these stations to which you are listening each Monday night at 9:30 p. m. It shall be my purpose in these broadcasts to carefully and frankly discuss with the people of Texas the affairs of their Government. I will take up each important problem and give you my ideas of its solution, as the campaign progresses.

"I will make a covenant with the citizens of Texas embracing a program of definite objectives so that no voter in Texas may have the slightest doubt about what Harry Hines believes in, or stands for, now—yes, and what he will work for as your Governor after the election—so that everyone may know these facts.

"The pledges I make to the people during these Monday night talks will form the basis of my covenant with the citizens of Texas. As your Governor you will not find me abandoning them, or throwing them overboard at the first opportunity. Instead you will find me exerting every effort to put them into effect through the tried and true and good methods of co-operating with the Legislature and the administrative departments of our State government.

"Harry Hines does not intend to use hokum in his campaign, and, as I have stated, I shall not outpromise

the promisor, but as your next Governor I shall endeavor to be a doer—not merely a promiser.

"In these messages I will discuss the issues facing Texas and intend to talk to you about them in a straight forward and clear cut manner. Harry Hines is not going to talk about false issues, or manufactured issues, either. I will talk frankly and plainly and I do not intend to hedge or camouflage.

"In other words, I do not intend to build up straw men and then knock them down. I will deal in realities and will call a spade a spade, and let the chips fall where they may."

QUICK WORK BY WARDEN

Texas game wardens have to do considerable detective work in ferreting out the more flagrant game law violators. Recently a West Texas warden got word of the illegal killing of a deer three days after the shooting occurred. Despite the fact the trail was cold, he was able to solve the case, obtain a warrant for the man's arrest, take him into court and obtain a conviction in exactly twenty-six hours.

Humor Kept In Film of Joad Trek, Beginning Friday

To develop completely the human, every-day warmth and power of the most widely discussed novel of modern literature was the primary concern of all those connected with Darryl F. Zanuck's production of "The Grapes of Wrath," John Steinbeck's sensational best-seller which was wildly acclaimed at its world premiere run at New York's Rivoli Theatre and which 20th Century-Fox will present at the Pastime Theatre beginning Friday.

screen play of the Steinbeck story, all the resources of the studios were put at the disposal of Academy Winner John Ford, who directed the picture.

From the outset Director Ford impressed all his players, from Henry Fonda, who plays the part of Tom Joad, down to the lowliest extra, with the essential simplicity and power of Steinbeck's widely acclaimed novel. Ford forbid the use of make-up on the set. He also used the candid camera technique in shooting scenes. Thus, for the first time in the history of Hollywood, players were filmed without benefit of glamorizing lights.

Wherever possible, Director Ford used real "Okies" as extras. More than one of these "Okie" families made more in the few days they were on the 20th Century-Fox lot than the Joad family was able to

gather together after selling all their earthly possessions to finance their now historic journey from the dust bowl.

In addition to using the "Okies" themselves, Ford also used their

jalopies. Before the picture began, 150 battered, broken-down cars which had survived the grueling trek across mountain and desert, were purchased.

Among the other players who are

prominently featured in "The Grapes of Wrath" are Jane Darwell as Ma Joad, John Carradine as Casey, the preacher, Charley Grapewin as Grampa, Dorris Bowdon as Rosasharn, Russell Simpson as Pa Joad, O. Z. Whitehead as Al, John Qualen as Muley, Eddie Quillan as Connie and Zeffie Tilbury as Granma.

RUN-PROOF COTTON STOCKING LOOKS LIKE SILK

In an effort to reduce the nation's huge cotton surplus, Uncle Sam has developed a new cotton mesh stocking for women that from a distance looks almost like silk.

The new hose, the result of two years of experimentation that cost \$60,000, will go on sale in Manhattan stores in about two weeks.

The United States department of agriculture has chosen a pretty girl to be "maid of cotton" and make a 12,000 mile tour to introduce the new invention to American women.

The new stocking, known as "Gov-

ernment Style No. 196," is a sheer, all-over mesh.

A price of 99 cents has been fixed for the new cotton hose, but women can get them for about a half of that by using cotton stamps to be distributed soon under the new cotton stamp plan of the Surplus Commodities corporation. Uncle Sam says the new cotton stockings will wear much longer than silk, are runproof and

100 per cent cotton from top to toe.

Mr. and Mrs. Lawrence Bourland and children of Happy were visiting relatives in Clarendon Monday.

Mr. and Mrs. Dyer returned home from a pleasant trip in Florida and other southern points.

Swell "Youth Treatment:" Change oil for Spring

Better yet: Change to OIL-PLATING

What's worse than a late Winter? That's easy... the late Winter's oil still slopping around in your engine. Changing it now is true economy, and you'll see why you're a regular economy "shark" to change to OIL-PLATING at Your Mileage Merchant's Conoco station today.

All he does to give you an OIL-PLATED engine is to drain and then re-fill with Conoco Germ Processed oil—at a perfectly usual price. But here's what's extremely unusual: you simply start up and the costly man-made extra substance in this patented oil promptly begins bonding lubricant to engine

parts—thoroughly—closely—like fine PLATING. That's your OIL-PLATING, which can't fly off, or drain down to the crankcase. This holds true through long stretches of time and distance... all-day runs... all-night stands. That's why OIL-PLATED bearings, and OIL-PLATED piston rings in OIL-PLATED cylinders can't even start a stroke unlubricated. The less of that harmful oil-starved starting, the less risk of a worn engine that over-eats oil. Change to OIL-PLATING today at Your Mileage Merchant's Conoco station. Takes no extra time. But it's an extra long time till you need your next quart of Germ Processed oil. Continental Oil Company

Butcher Given Life Term In Murder Trial

YET TO BE TRIED FOR KILLING WOMAN

W. T. "Dub" Simmons, Tulsa butcher, must spend his remaining days in prison for the murder of the aged Louis B. Hand, a farmer whose body with that of his aged sister was found in the burned ruins of his home near Tulsa on January 17th.

Twenty-seven witnesses were used in the trial at Tulsa ending Tuesday. The jury required less than thirty minutes to reach a decision. Simmons thanked the jury and the court officials for their courtesies.

A second murder charge is pending against Simmons for the murder of Mrs. Lila Widgren.

The gruesome murder shocked the entire Panhandle because of the brutal manner in which the lives and home were destroyed. Officers quickly traced the murder to Simmons. This was another shock because the accused, a man of family, had led a blameless life, apparently, in the community up to the time of the murders.

DRUNK DRIVING CHARGES BRING HEAVY FINES

Guilty pleas were entered in the drunk driving cases in the district court the past week. Kit Carson was given five days and a fine of \$50 on a charge of operating a motor vehicle while intoxicated. Ed Aduddell and Clyde Messer were given the same form of reminder in jail sentence and fine. Each expressed a regret, as do their many friends, neither of whom rate anything but that of a good citizen except for this slip into the clutches of the law.

DEMOS-

at heart." Concluding his remarks, Mr. Worley complimented the Young Democrats on their recent organization, and vowed that they would accomplish much good in carrying out the sound fundamentals of good government.

As one of the principal speakers of the evening, Byron Singleton, president of the West Texas Young Democrats, gave an interesting and instructive talk on the meaning and aims of the Young Democrats. "Good government must be kept in line," he said "and it is in the hands of these young men that the right principles of democracy must be carried on where the older men left off. They must be youthful enough and have the energy and sound thought of seeing governmental problems and do something about them. They must be keen enough in mind to grasp the needs of the people and execute them to the best advantage of the masses. Furthermore, they need to grasp the real meaning of democracy and keep it alive. It is not the views and principles of one individual, but that of all the people. Activity of self thought must be weighed with united effort, and when that principle is carried out the ideal of democracy yet lives."

Judge Singleton was very enthusiastic over the prospects of the local organization, and expressed himself as believing "that with such an array of clear minded young men, the ideals of democracy will be much in evidence."

Mayor Tom Connally gave the welcome address, and outlined in brief, the history of the democratic party, which was very much in trend with the evening's program.

Lonnie Smith of Ft. Worth, and one time legislator of that district, gave the response. Although he was not slated to be on the program, Mr. Smith delivered one of the most interesting talks of the evening. Mixing humor with good sound logic, he expounded the true ideals of good government. "It is truly great," he said "to know that we can assemble together in a friendly meeting without having to obtain permission to do so from our own government as such is the case in many nations of Europe. We have freedom of speech and press without having to pay special allegiance to no dictator. We can express our thoughts without fear of bodily harm."

Mr. Smith went on to cite instances where one man was carrying out his own individual thoughts without regard of human suffering or the rights of others. "Back there in the beginning," he said "the ideals of

democracy were laid down for us by a freedom loving people when our nation was born. It is to the Young Democrats that this torch be kept aloft and burning for the generations to come."

Interesting and expressive talks were made by senatorial candidates Max Boyer and Curtis Douglass; Judge A. S. Moss; Dist. Attorney Clifford Braly of Pampa; and the two local Dist. Attorney candidates, John Deaver of Memphis and Elgar Robertson of Childress.

John Gillham, president of the local Young Democrats, in turn, introduced local candidates and to what office they aspired.

Kitty Ruth Baley gave a vocal solo, accompanied by Nelda Sue Burton at the piano. Miss Burton also rendered a piano number. The audience gave expression as enjoying very much the efforts of these talented young ladies.

Mrs. Frank Hommel is suffering from a bad strep throat and very ill.

Mrs. Adran Burkhalter and Mrs. J. T. Godfrey of Memphis visited Miss Willie Margaret Lakey here Sun.

Mr. and Mrs. Homer Mulkey visited relatives and friends in Amarillo today.

Miss Louise Smith and James Weir of Pampa were guests of her sister, Mrs. J. Marvin Warren and Mr. Warren Sunday.

Mrs. Grady Holbert and son Bill of Crowell are visiting her parents, Mr. and Mrs. Dave Johnson.
