Boys Ranch Rodeo Set For September 4-5

The 346 boys now at Cal Farley's Boys Ranch will put on their 22nd annual Labor Day rodeo, Sunday, Sept. 4th and Monday, Sept. 5th.

Nearly 100 Ranchers will ride for awards and honors. The Brahmas and horses used in the bull-riding and bareback bronc events are professional rodeo stock. A special event will be the "stick-horse" race for the four to six-year-olds.

The boys who are learning meat-cutting and cooking as their future vocations will barbecue giant-size beef sandwiches for spectators and visitors who arrive early to picnic. Ranchers who do not ride will be working as ushers, in the parking area, at concession stands, or helping around the chutes. All of the boys will have a part in the rodeo.

The climax of the rodeo will be the naming of the Junior and Senior All-Round Cowboys, two of the highest honors that can be earned by the boys.

Performances will take place at 2:00 p.m. in the Ranch's arena.

Tickets for either performance are available in advance from the Boys Ranch office, Box 1890, Amarillo. Reserved box seats are \$2.50, general admission is \$1.50, and children's and servicemen's tickets are 75c. All proceeds will be used for future expansion of the Ranch.

CC ANNOUNCES PRE-REGISTRATION DATES

The Registrar's Office of Clarendon College has announced that pre-registration of freshman students only will be held during the period of August 22-31. Office hours will be from 9:00 to 5:00, Monday through Friday, and 9:00 to 12:00 on Saturday. The purpose of pre-registration is to allow students to complete their class schedules prior to the time of regular registration. Such an arrangement is an advantageous one, particularly for the student who often feels bewildered and frustrated with his first experience in enrolling in college. It allows him ample time for consultation and insures his admittance to classes which might otherwise already be filled and consequently closed. Mrs. Jean Moore, Registrar, advises all freshmen students to take advantage of this convenience offered by Clarendon College and complete their pre-registration before the August 31 deadline.

Walter Rogers of Pampa, who withdrew from the race last week.

Miller received 17 votes from the 30 county chairmen on the fourth call but the choice became unanimous on a motion by J. R. Brown, Hartley County chairman when he withdrew as a candidate.

Those campaigning for the nomination included Jack Young of Littlefield, State Rep. Ralph Wayne of Plainview, State Sen. Andy Rogers of Childress, James P. Linn of Stratford, Dist. Judge Max Boyer, Perryton, Former State Rep. J. W. Buchanan of Dumas, Dee Miller of Amarillo, A. W. Lair of Canyon and Dick Brown of Hartley.

A FW&D spokesman in Fort Worth said Tuesday that hearing dates and places have not been set. He said the order for the additional four-months operation was routine for the ICC.

The railroad filed its application to discontinue the two trains in June, and had no objections been raised, the trains would have been dropped August 15.

The following article was sent to us by Mr. M. T. Rucker, surveyor for Lubbock County and thereabouts along with a warm, friendly letter. As space permits we would like to use as much of it as possible because it does speak the way most of us have felt many times: It is called:

I WANT TO GO BACK

By E. E. Patton, Former State Senator of Tennessee

I have lived in the heat and dirt and smoke of this man-made town until I am ready to scream. I have heard the braying of horns and jackass politicians until I want to get back on the farm and hear the bray of a real simon

pure jackass. The change would be sweet music to my ears. Here the country is all kivered with bricks and concrete and the hearts of many of the people are as hard and flinty as the sidewalks.

Yes, I want to go back where the air is soft and pure; where the neighbors will come and set-up with the sick, and help dig the grave of a departed friend, dropping a genuine tear of regret at their passing. Where they set the pitch of a tune with a tuning fork and sing through their noses with the fervor and spirit of the faithful.

I want to trim the wicks again and fill the lamps with oil carried from the country store with a tater stuck on the spout. I want to eat the sweet taters baked in an oven on the hearth over hickory and oak coals.

I want to go back where the common every day towels are made from salt sacks, and the only one store bought towel is saved for the day the preacher comes. I want to see the man whet his knife a few times across his fork and carve the sow-belly that

Football Heat Deaths Preventable, Says AMA

CHICAGO—Heat deaths among high school and college football players could be a thing of the past if coaches and players follow recommendations made at a meeting here recently.

When football practice opens in a few weeks, the first hot days could be dangerous for players unless precautions to avoid heat illness are taken now, a panel of medical and sports authorities agreed.

Heat illness last year caused the deaths of one college football player and four, possibly five, high school players. It contributed to "close calls" and injuries of many more.

The five-man panel, appearing at a meeting sponsored by the American Medical Association's Committee on the Medical Aspects of Sports, agreed that:

1. Prospective football players should get out of air-conditioned surroundings now and start getting accustomed to vigorous exercise in hot weather.
2. Coaches should abandon the old practice of withholding water from athletes during practice. Failure to replenish water and salt lost through perspiration increases the chances for heat exhaustion or heat stroke.
3. Athletes should be acclimated to hot weather by carefully graduated practice schedules. At least the first five days of practice should be devoted to non-contact workouts.
4. Both coaches and players should be alert for signs of heat illness, such as lethargy, stupor, awkwardness, or unusual fatigue.

University of Kentucky football coach Charles Bradshaw said his squad's practice sessions were improved by regular breaks for water and rest. Overworking players in hot weather only decreases their efficiency, he said.

Said Purdue University's team physician, L. W. Combs, M.D.: "Coaches used to think that if a player lost a lot of weight on the first day or so of practice, it was a good workout. Actually, all the player lost was body liquid—which is dangerous."

Allan J. Ryan, M.D., team physician at the University of Wisconsin, agreed with Dr. Combs. "Any player who loses more than three per cent of his body weight in a practice session is not getting enough salt and water," he said.

Excessive salt and water loss can result in heat stroke, an extremely dangerous condition, Dr. Ryan pointed out. Anyone who suffers heat stroke if he is active in hot weather and neglects to replace salt and water lost by perspiration. The result is a breakdown in the sweating mechanism and collapse.

If prompt measures aren't taken to get the heat stroke victim cooled immediately, the result can be death—sometimes within 15 minutes.

Approximately 850,000 boys in 14,500 U.S. high schools now play football, said Clifford B. Fagan, executive secretary of the National Federation of State High School Athletic Associations.

"The few deaths that occur in football can probably never be completely eliminated," Fagan said,

"but we can eliminate deaths due to heat illness—they are preventable."

Coaches can avoid trouble by keeping a close watch on their players for the first signs of heat illness, said William E. Newell, athletic trainer at Purdue University and executive secretary of the National Athletic Trainers Association.

Parents can help protect their athlete-sons by watching for signs of fatigue and emotional strain, such as loss of appetite and poor sleep habits, Newell said.

Fred Hein, Ph.D., director of the AMA Department of Health Education and secretary of the AMA's Committee on the Medical Aspects of Sports, was panel moderator. Dr. Ryan is a member of the AMA Committee on Exercise and Physical Fitness, and is a past president of the American College of Sports Medicine.

has been cooked in the beans. Did you ever eat lye hominy or "Shuck Beans"? If not, you have never really lived; you have merely existed.

I want to go back where there is nothing like daylight saving time; where you get up at three o'clock in the morning and go to bed at seven except special occasions where you stay up till eight.

Where the parlor was a sacred place—this was the place where the sparkin' was done. This was where the important company slept, like when the preacher stayed all night, and slept on the big bed with the two straw mattresses and the feather one on top.

Yes, I want to go back where they drink sassafras tea to thin their blood in the spring-time, and churn in the old up and down churn. Where they fill the straw ticks at threshing time and cord the beds every month. Where the men wear long red flannel drawers and the children wear bibs.

I want to go back to the country and get my fill of crackin' bread and where folks eat three meals a day—breakfast, dinner and supper, and where the word "Lunch" will never be heard again. I want to be in a spelling match from the old blue back speller, and read from McGuffey's Reader. I want to see the children raise their hands and say: "Teacher, may I go outdoors?"

Yes, I want to go back and strip some cane and top it for the sorghum mill, and dip the skimmins off the bilen molasses. I want to go to the neighbors for a bushel of seed corn, and pull out the old trundle bed and sleep the sleep of the just once more; I'd like to call a few doodle-bugs out of their holes, but I want to avoid the Spanish needles, the beggar lice and the chiggers, the grass burrs, cockle burrs and the seed ticks that can make life so unbearable.

I would like to see the old side-saddle hanging on the peg on the front porch. I would like to prime the ash-hopper and stir the lye soap.

"Backward, turn backward. O Time in thy flight; Make me a child again just for tonight."

"O Lord, let me go back to the land of the simple things." Thank you Mr. Rucker, for helping us visit again in the past. Please help me explain all this to our grandchildren.

Are there really any sound reasons for buying a Chevrolet in August?

During August, it's as easy to own a Bel Air 4-Door Sedan as getting in the car.

Wait till you see how sporty you look sitting in your Impala Super Sport.

In a word: Six

1. Have you ever known the instant delight of selecting a new Impala Super Sport in the color you want, slipping into its Strato-bucket seats, and driving it home from the showroom the same day? Now's your chance. Your Chevrolet dealer has a big choice of models on hand with small August price tags.
2. More than likely, your present car will never be worth as much in trade as it is right now. Money—another good reason to buy a Chevrolet this month.
3. Read those articles about when to buy a new car and they'll tell you that August is one of the best months. And your Chevrolet dealer is ready to show you why... with buys that are better than ever.
4. If you think winter's tough on an old car, believe us, so is summer. There's added strain on the engine because of vacation drivin' Greater tire wear. The cooling system has to work extra hard. A new Chevrolet can save you a lot of trouble.
5. You do a lot of driving for pleasure so why not ride on Chevrolet's Full Coil suspension. Let your feet feel that deep-twist Chevrolet carpeting. August is to enjoy.
6. Make your summer driving safer driving by taking advantage of the eight standard safety features built into every new Chevrolet. If your present car doesn't have seat belts, back-up lights, outside rearview mirror, padded instrument panel, look into a new Chevrolet.

TO THE PEOPLE OF THE 18TH DISTRICT

By Congressman Walter Rogers

D. C. HOME-RULE SEEMS A DEAD ISSUE FOR THE YEAR

The controversy over so-called "home-rule" for the District of Columbia continues to simmer in Washington but at this stage in the Second Session of the 89th Congress the issue appears to be dead until, at least, 1967. Tactics followed by advocates of home-rule have offended many Members of the House and Senate and turned many citizens elsewhere in the country against any plan to

remove the Federal status from the District of Columbia and turn governmental authority in the District from Congress to District residents. Since last year those supporting home-rule in the District have pushed their campaign on several fronts. For one thing, Washington retail firms were boycotted—and picketed—in an effort to obtain the backing of store managements for home-rule. For another, homes of Members of the House of Representatives—Members who serve on the House District Committee—were picketed in an effort to force them to agree to compromises over House and Senate-passed home-rule legislation.

Rather than to win support for home-rule, actions of this type have alienated many persons who, while holding the conviction that Washington should remain the Federal City (as George Washington intended), were willing to support at least limited home-rule

for the District of Columbia. Proposals for District of Columbia home-rule are many and varied. One Senate bill provides for an elected Mayor, a nine-member City Council, and a non-voting Delegate in Congress. One House bill calls for a Legislative Assembly and a Governor appointed by the President. Another provides for an elected Mayor, Council, and Delegate to Congress. In the House and Senate are bills supported by the Administration calling for a 15-member Council, a Mayor, and non-voting Delegate to the House of Representatives—all elected by the people on a partisan basis.

One of the more controversial proposals contained in the latter bills calls for the Federal payment supporting the District to be calculated each year according to a formula set forth in the legislation. Annual appropriations by Congress would not be required to assure this payment—and those of us who firmly believe that Congress should make annual reviews under the Constitutional appropriating process are firmly opposed to any such arrangement.

A bill containing this provision and other features removing Congressional control from the Federal City was passed by the Senate last year, in July. Late in September supporters of home-rule in the House of Representatives, through use of the so-called discharge petition (by which legislation can be forced out of the Com-

mittee of jurisdiction and brought before the full House), the matter was debated on the House floor. However, the House passed a substitute version of the legislation providing that Washington voters would be asked in a referendum if they want some form of local government. An affirmative vote would result in the election of a charter board which would have 210 days to draft a charter giving a home-rule government legislative power over

District legislative matters now handled by Congress, but reserving to Congress complete authority to amend the charter at any time and reserving to the President the veto power over any acts of the city government.

Every citizen of the United States has a direct stake in the manner in which the District of Columbia is governed. This is indeed the Federal City, created by the United States which make up the Union, and to remove gov-

ernmental control from the people's elected representatives in Congress would create a situation of "dual sovereignty," doing violence to the Constitution by establishing, in effect, a separate State. The phrase "home-rule" has a compelling sound, but the meth-

od of effecting home-rule, and the effect, are vitally important—and at this writing it appears that Congress is not in a mood to act this year.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

How you drive that automobile during the next 12 months will determine what you pay for car insurance a year from now.

Traffic violations, as well as accidents, will appear on your experience record and will count against you.

New plan designated by the State Board of Insurance will hit where it hurts the most—the purse.

Or conversely, if you care to look at it that way, it will lighten the load on those who are penalized by higher rates because of the carelessness of others. And that's the way it really is, since some kind of increase is necessary.

Penalty points now are being assessed motorists for accidents and major violations including speeding.

● One penalty point will mean a 15 per cent hike, two points 35 per cent, three points 60 per cent and four or more points 90 per cent.

● Major violations — like driving while intoxicated, negligent homicide, hit and run or felony offenses — will cost three points.

● Two points will be assessed for driving while a license is suspended or for violations resulting in suspension.

● One point will be charged for accidents where there is injury or death—or property damage over \$50—and for speeding. Speeding points are not counted until after one or two "free convictions" in the preceding year or three years.

After 1969, penalties will be based on driving records over a 36-month period.

Twelve exceptions to the "point" rule are listed, however, and one of them includes accidents in which the driver is not at fault.

Unlike the old retroactive, statewide plan of 1960-62 which created so much controversy, the current plan is based on experience in 26 separate rating territories and considers no offences prior to August 1.

ATTORNEY GENERAL RULES—Texas must go on daylight savings time next April unless the Legislature specifically moves to exempt the state from the new federal law, Atty. Gen Waggoner Carr ruled.

In other opinions, Carr held that:

● Corporations providing radio-telephone service are subject to gross receipts tax.

● A county may employ a justice of the peace to interview landowners in connection with acquisition of road right-of-way.

● Land used by Radio Church of God for religious worship and that properly used in the interest of Ambassador College and the Imperial School, both of Upshur County, are exempt from property taxes.

● Harrison County's game law setting November 15-30 as hunting season for buck deer is in effect.

WATER RIGHTS COMMISSION DECIDES—Texas Water Rights Commission held feasible the 11.5 mile, \$10,900,000 extension of the Texas City - Lamarque seawall in the Jones Bay area.

Commission gave Texarkana exclusive authority to contract for 120,000-acre-feet of water from Lake Texarkana. Water Development Board was given authority to participate in negotiations between city and U. S. Corps of Engineers. Water becomes available by raising lake gates.

SHORT SNORTS
Forty-four cities have filed ap-

plications for aid with Texas Aeronautics Commission on airport projects which would cost a total of \$3,300,000.

Texas 65 Health Insurance Association paid claims in excess of \$10,000,000 during its 31 months of operation before being replaced by Medicare on July 1.

Hearing on a proposal to discontinue passenger train service between El Paso and Fort Worth have been rescheduled for September 12 in Fort Worth, September 14 in Big Spring and September 16 in El Paso.

First official Texas trade mission will go to Australia and New

Zealand in August of 1967, Governor Connally announced.

Texas building for June and May were 17 per cent and 13 per cent respectively, below the same months in 1965. First half of '66 building was 12 per cent higher than the first half of '65, but lower than the record levels of the last half of 1965.

Mr. and Mrs. Herman Cross and Annette and Sue Castleberry visited in Amarillo Sunday afternoon with Mrs. Cross' father, E. F. Lemons. They also visited a brother, Mr. and Mrs. M. H. Lemons and son.

Mr. and Mrs. G. W. Estlack visited Sunday with her sister and husband, Mr and Mrs. L. T. Whitlock in Amarillo.

HOW LONG DID IT TAKE YOU TO COURT YOUR WIFE?

Did you happen to see her... walk up to her... ask her to marry you... call in the minister... right on the spot?

Certainly Not

It probably took a lot of calls and trips, movies, flowers, candies, and a lot of putting your-best-foot-forward tactics. You had to sell yourself. She had to know all about you.

It's the Same with Advertising

You can't "woo" customers with one ad... you've got to "call on them" over a period of time... you've got to win their confidence and be convincing.

Constant Advertising

... wins the customer if it's truthful... if it gives helpful information... if it saves shopping steps... if it is backed with intelligent, courteous and honest values.

Woo your customers steadily, consistently through the columns of The

Capp's new novel, "A Woman of the People", battles an even stronger stereotype — the Wild Indian." For those who have ever wondered how the Plains Indian went from savagery to civilization in three generations or less, Capps' novel supplies one answer:

LIBRARY NOTES

EDITH BARNES

Two memorial gifts have been given to the library to be dedicated to the memory of Tommie Carl Saye, Jr.

Two library friends brought in forty-two, between them, western paper backs. All of them just like new. Over the years the western novel is our most popular one with young, old, male and female. The western fan who likes fiction has plenty to choose from but the one who likes non-fiction has slim pickings as there are just so many books that can be written about a certain period and locale in history. Too, we must remember that our cowboy and Indian period was a very short one.

Benjamin Capps of Grand Prairie, Texas has written another book on the early West. This is his third hard cover novel. This is a western that will be enjoyed by all readers of good fiction. Quoting: "Capps' birthplace was Dundee, about 25 miles southwest of Wichita Falls. Both of his grandfathers were pioneers, and Capps knew that the Wild West he read about was not the West that existed. As a writer, Capps took on a Herculean task: To present the West as it really was."

His "Ogallala" was the story of a cattle drive. There were no heroics, no shootouts, and only one fistfight (the hero got whipped). All the conflicts were natural. The novel demonstrated that the physical feat of moving 3,000 cattle from Texas to Nebraska was, in itself, a stirring accomplishment.

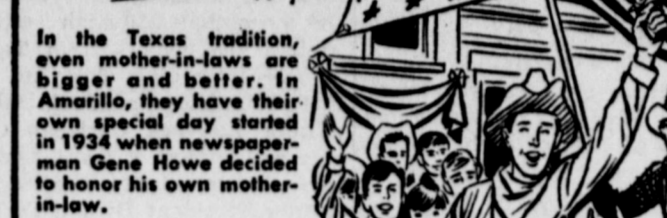

Capps' next novel, "Sam Chance", published in 1965, was the story of a Western cattle baron in the Charles Goodnight mold—stand for law and order and education — instead of the Wild West stereotype. It has been nominated for this year's Spur Award.

"Ogallala" won not only the 1964 Spur Award but was cited as an outstanding book by the National Association for Independent Schools and is in its fourth printing. More than one printing of a book is not to be

TALL TEXAS TALES

Spinach fans of Crystal City, Texas really have something to look up to. In March, 1937, during the Second Annual Spinach Festival, a six-foot tall, colored concrete statue of Popeye was unveiled—the first monument ever erected to a comic character.

In the Texas tradition, even mother-in-laws are bigger and better. In Amarillo, they have their own special day started in 1934 when newspaperman Gene Howe decided to honor his own mother-in-law.

Watching the clothes go round and round in the washing machine became a popular pastime in Fort Worth when the first public "washateria" was started in 1934.

The Indian had a highly developed civilization of his own. It was a rigid society with firm, unbendable rules necessary for survival in a harsh land.

FARM NEWS

from County ASCS Committee

FARMER CERTIFICATION

Reports of Feed grain, cotton and diverted acres are being accepted in the county office. We urge you to measure these acreages on your farm and turn them in as soon as possible to avoid a last minute rush. We cannot compute any payments until all measurements are turned in and the spot checks are at least 90% complete. The sooner these measurements are in the sooner work can begin on computations of payments.

MAINTENANCE OF DIVERTED ACRES

Producers must control weeds on designated diverted acres and prevent grazing of such without approval of the county committee. Failure to do these things will cause the farm to be out of compliance and ineligible for program payments.

1966 COTTON MARKETING CARDS

There will be no marketing cards issued for the 1966 crop cotton. Instead, gins, cotton buyers, and cotton loan clerks will have a list of producers who are ineligible to place cotton in the loan.

COMMUNITY COMMITTEE ELECTIONS

At the present time, the incumbent community committees are preparing a slate of nominees for each community. If you are contacted by one of these men and asked to accept their nomination, please think about it before saying "no."

Each year, more and more responsibility is being placed on these men who are elected. The community committees assist the county committee in administering the price support, acreage diversion, ACP, and other farm programs in the county; they are particularly responsible for keeping their neighbors informed about the programs. The best men available should be elected to do this job.

TWO DONLEY STUDENTS ATTEND FARM BUREAU CITIZENSHIP SEMINAR

Two high school students from Donley County are attending the fourth annual Texas Farm Bureau Citizenship Seminar August 9th to 13th on the Baylor University Campus in Waco, according to Jay Gould, president of the Donley County Farm Bureau. Attending the school are David Hardin from Clarendon High School and Richard Shaw from Hedley High School. Donley County Farm Bureau is sponsoring the attendance of these two students.

Four nationally-known educators and lecturers will address the more than 350 high school juniors and seniors from Texas who are attending. They are Dr. C. L. Kay, Vice President, Public Affairs, Lubbock Christian College and winner of many awards including a special citation by former President Dwight D. Eisenhower; Dr. Clifton L. Ganus, Jr., President and head of the Department of History and Social Sciences at Harding College at Searcy, Ark.; Herbert A. Philbrick, noted author, lecturer and former counterspy for the FBI; and W. Cleon Skousen, author of "The Naked Communist" and former FBI agent and chief of police of Salt Lake City.

Purpose of the seminar is to convey to students a better understanding of the American system and way of life. Emphasis will be placed on the economic, moral and social aspects of the society in which we live—aspects that were envisioned by our forefathers in our Constitution and Bill of Rights.

MEANS TO INCREASE BEEF PRODUCTION

Most producers of beef cattle can make a greater profit by increasing production rather than by reducing annual cost, says County Agent Ronald Gooch.

The real problem that limits profit usually can be identified in calf crop percentage, weaning weight, selling price or production of ranges and pastures.

Calf crop percentage that is average or below for the area may be caused by one or more of the following:

1. Cows may be physically unable to conceive because of poor feed conditions.
2. The cows may have some genetic weakness that affects regular production.
3. The bulls may be too few in number.
4. The nutritional level of the bulls may be too low for them to settle cows.
5. A large percentage of the bulls may be sterile or have low fertility.
6. Particular nutrients, such as protein, minerals or vitamins, may not be available in sufficient amounts.
7. External and internal parasites may be the cause.
8. Diseases that affect reproduction may exist in the herd.

Calf crop percentage is based on number of calves born alive. If the death loss before weaning is more than 1 or 2 percent a study should be made to determine the causes of these deaths, concludes Gooch.

NAMES AND ADDRESSES NEEDED ON VIET NAM PROJECT

Patsy Robertson, president of the local Jaycee-Ettes, reports that names and addresses are still needed for that organization to begin their Viet Nam project. Anyone in this area having boys serving in Viet Nam are asked to turn addresses in to her.

The Jaycee-Ettes are planning to send packages to these boys. Included will be small magazines as the Readers Digest, paper back books, Kool-Aid, Popcorn, Pototo Chips, Fritos, and possibly cookies along with the local paper.

Addresses have been slow in coming in and the project can not get underway until such addresses are received. Anyone wishing to contribute items to be

sent or make contributions toward postage for mailing should contact Mrs. Delbert Robertson. All such packages will be sent air mail to assure delivery.

FORMER RESIDENT DIES AT CASTROVILLE

Word was received here this week of the death July 28th of James Levi (Jim) Mabery in a Castroville, Texas hospital. Funeral services were held at Devine July 30th.

Mr. Mabery, 68, was a long-time resident of Donley County prior to moving to Medina County in 1938. He was a retired farmer and commercial flower grower.

Survivors include his wife, Hazel, a daughter, Mrs. Marie Odum, a son John Mabery, all of Devine, Texas and four grandchildren.

GOOCH RECOMMENDS SOIL TESTING NOW

Inventory soils now for fertilizer needs, and plan for fall fertilization programs, says County Agent Ronald Gooch.

A soil sample, properly taken, should be sent in for testing. Mid-summer is a good time to take that sample and learn the nutrients the land will need.

Fertilizers recommended will be no better than the soil sample taken, Gooch adds. That is, a poorly taken sample can cause an inaccurate test. Consequently, fertilizer recommendations may be off.

For information on obtaining good soil samples, see your county agent, concludes Gooch.

LAND PRICES AND SALES INCREASE IN TEXAS

A recently released study by Agricultural economists at Texas A&M University dealing with land sales and prices shows that both have increased during the past three years. Since 1949 land prices have increased each year but volume of sales consistently declined. This trend in sales has done an about-face during the past three years, says Economists A. B. Wooten and F. B. Andrews. They cite urban influence as the reason for the steadily increasing prices. Urban demands for land for hobby farming, rural homesites, speculation and recreation push prices higher each year, they say.
