County Banks Hit All Time High With Deposits Over 8 1/2 Million

According to financial statements of the two local banks here and one at Hedley, deposits hit an all-time high for the second year in a row with over 8 1/2 million dollars on deposit. December 1960 was the first time the county banks had exceeded the 8 million mark and now on December 30, 1961, the total figure has reached \$8,653,352.26 as compared with the total in December 1960 of \$8,009,172.92. This is an increase of \$644,179.34. The figure would possibly have been even higher if farmers had been able to gather their crop sooner as much of the cotton is still to be ginned.

The loan figure for all three banks shows an increase for the same period of time with a total of \$3,868,729.06 at the close of business December 30, 1961. This is an increase of only \$74,454.39 over the 1960 total of \$3,794,274.67. This is the largest increase in deposits with the smallest increase in total loans to be recorded in recent years.

Donley County residents are fortunate in having three progressive banks in our community that are offering comparative services with banks in larger cities. The financial status shown by these banks indicates a substantial increase in farm production along with better business all the way around. A more prosperous 1962 is in prospect.

New School Building Occupied This Week

The long-awaited Clarendon Elementary and Junior High School buildings are finally ready for occupancy and the big move took place this week.

The resuming of school following the Christmas Holidays was delayed one day because of the move. The cafeteria was ready and the meal was served on Dec. 21, but the rest of the building was not ready until Tuesday of this week. A few odds and ends are still to be completed by the contractor, but otherwise everything is in order.

The gymnasium is also ready and the first game was played in the new gym on Tuesday night of this week. Other games are scheduled for Friday and Saturday night of this week when the College Bulldogs play Lubbock Christian College and Frank Phillips College.

A dedication day will be announced later, but in the meantime any patrons of the school who would like to come up and make a tour of the new buildings are welcome to do so.

Dr. O. L. Jenkins Dies In Dallas

Dr. Oscar Leonard Jenkins, 66, of Dallas, retired former Clarendon physician and resident of Dallas since 1938 died at his home Wednesday.

A native of Gordon, Palo Pinto County, Dr. Jenkins attended schools in Gordon and Weatherford before entering Clarendon College. After his graduation he entered the University of Texas and was graduated from its Galveston Medical School in 1919.

He served one year of internship at City Hospital in New York City, then returned to Clarendon to enter joint practice with his father, the late Dr. B. L. Jenkins.

He was married to Miss Edith Bourland of Clarendon in 1920. In 1938 he retired from active practice and moved with his family to Dallas.

He was a member of Psi Chi, medical fraternity, and the American Medical Association and the Panhandle Medical Society. He was a Navy volunteer in World War I.

Survivors are his wife; a daughter, Mrs. Jere Bob Hinckley of Dallas; a brother, B. L. Jenkins of Amarillo, and two sons, Dr. O. L. Jenkins, Jr. of Dallas and Dr. O. L. Jenkins, III of Dallas.

Funeral services were held Friday in Sparkman's Funeral Chapel in Dallas with the Rev. T. Herbert Mingo officiating. Burial was in Hillcrest Memorial Park.

Pallbearers were James E. Bourland, L. J. Avery, Fred Bourland, Raymond Ross, Joe C. Hinckley and Jack Bourland.

Jaycee Basketball Team To Meet Pampa Jaycee Amateurs

The Clarendon Jaycee "professional" basketball club will meet the Pampa Jaycee amateurs tonight at 7:30 p.m. The Clarendon Panhandle-trotters are favored to win by 30 points or more! Fans are expected to view brilliant and sensational (if unorthodox) display of fumbling, near misses, and personal fouls. The Panhandle-trotters will wear their new famous uniform, the tuxedo and long johns.

If you don't have your tickets yet, they will be available at the door. Admission is 50c for adults and 25c for children. Have fun tonight! Help the Jaycees. Attend the basketball game at the new school gym.

Services Held Tuesday For Grady Fowler

Funeral services were held Tuesday afternoon in Murphy Memorial Chapel for Grady Dwight Fowler, 7, son of Mrs. Annie Fowler of this city. Rev. Carroll Harmon, pastor of the Assembly of God Church officiated.

Grady Dwight died Monday in Adair hospital here.

Survivors include his mother; a sister, Pamela Dian Fowler of the home; and the grandparents, Mr. and Mrs. C. E. Flowers of Clarendon.

Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

NEPHEW DIES IN FORT WORTH

George Thompson of Clarendon and Billy Thompson of Memphis attended funeral services for their nephew and cousin, George M. Carter of Fort Worth. Mr. Carter died in Fort Worth Thursday night. Funeral services were held in Fort Worth with burial in the family plot at Whiteright.

Mr. Carter was the son of the late Mrs. Bertha Wilborn who made her home in Clarendon with her brother L. E. Thompson until her death.

FORMER RESIDENT DIES IN DALLAS

Word was received here Monday of the death of Mrs. J. N. (Nat) Woods in Dallas Sunday night from a heart attack. Funeral services were held in Dallas Tuesday afternoon.

Mrs. Woods was a long time resident of Clarendon prior to moving to East Texas several years ago. She had been making her home at Euless, Texas.

Survivors include two sons, Ray and Boyd Woods of Dallas.

FARM NEWS

from County ASCS Committee

THE 1961 FEED GRAIN PROGRAM

According to Mr. Cooke, chairman of the County ASCS Committee, the 1961 Feed Grain Program did what it was intended to do. Some of the accomplishments are:

- 1. Farm income is up 1 billion dollars.
2. It brought about the first cut in over-supplies in 9 years. A drop in the carryover is certain—maybe about 5 1/2 million tons.
3. A 500-million dollar savings, over several years, in storage and handling costs, compared with what those costs would have been without the program. Largest costs to the government are the storing, shipping, handling, etc. of grain the Government takes over. So the grain not taken over this year will result in a saving.
4. At the same time, the feed grain program held down a build-up of supplies.

FEED GAIN AND WHEAT PROGRAMS ON C. R. FARMS

If you have just a part of your farm in the Soil Bank, C. R. Program and you are or may be planning to participate in the Wheat Stabilization and/or Feed Grain Programs for barley, corn-grain sorghum, we wish to call your attention to the acreage devoted to soil bank base crops on your farm below the permitted acres for your farm by the number of acres you have diverted or will divert from wheat and feed grains under such programs. In case you do not fully understand this situation as it applies to your farm, we urge you to contact your County ASCS office for further explanation.

OUR THANKS

Our sincere thanks to all of you who remembered this office and helped to make this Christmas time a GOOD one. For the boxes of candy, for the packages of nuts and for the many lovely cards that came our way all help.

CITY OFFICIALS ISSUE WARNING IN REGARD TO PARKING

We wish to remind local residents that there is a \$25 fine for blocking alleys or parking cars or vehicles on sidewalks in front of or near business places. This also applies to the residential area as well as downtown.

We wish to remind also there is a \$25 fine for dumping trash in City Limits. Our City trucks must go thru alleys to pick up garbage and trash making it absolutely necessary that alleys are not blocked. We don't want to fine anyone but it looks like we may have to do so unless we receive full cooperation immediately.

FOXWORTH-GALBRAITH LEADS BOWLING LEAGUE

The standing of the Clarendon Men's handicap bowling tournament thru Tuesday night, January 2nd shows the No. 5 team, Foxworth-Galbraith in the lead with 24 games won and 8 lost. Other teams trail as follows with the won figure first and the lost figure last: Kidd Bros. 66 20-12; Mutt's Cafe 18-14; Wallace Monument Co. 16-16; Clarendon Electric and Plumbing 14-18; Knorpp Insurance 14-18; Don's Chevron Service 14-18; Emmett Simmons Insurance 8-24. There are four players on each team. The locals bowl at the Memphis Bowl on Tuesday nights. The results above are for the first four weeks of play.

School Robberies Admitted by Ring

The robberies of the Hedley and Clarendon schools a few weeks ago have been solved with a South Plains looting ring admitting the theft along with a long string of robberies over a 17-county area in Texas and New Mexico.

More than half of the burglaries involved school break-ins.

Two Friona men were arrested by Farmer County Sheriff last week which brings the total arrested in the ring to five. They are Bobby Rogers, 22, and Morris Deaton, 17. Arrested Dec. 19 in Hereford and charged with burglary were Jackie Dickerson 24, L. D. Locke 21, and a youth 16, brother of one of the men who is being held in Farwell.

At last count Friday night, members of the ring had admitted, according to various Texas sheriffs, 51 burglaries, including 27 school break-ins. Between \$4,000 and \$10,000 in cash and merchandise is believed involved.

1961 Moisture Total Goes Over 20 Inches

Our official weather observer Tommie Saye wrung out his records the first of the week and came out with a total of 20.58 inches of moisture for the entire year of 1961.

Since Saye has been keeping the records, he shows a total of 16.01 inches for 1954; 23.22 for 1955; 13.28 for 1956; 29.42 for 1957; 29.26 for 1958; 30.67 for 1959. Six of the eight years has been above 20 inches.

The moisture by months for 1961 are as follows: .17 for January; .75 for February; 3.40 for March; .08 for April; 1.27 for May; 3.53 for June; 4.51 for July; 1.75 for August; .40 for September; 1.98 for October; 2.43 for November and .31 for December.

High School Teams Enter Wellington Tournament

Clarendon's High School Basketball teams will play in the Wellington Tournament this week end. The girls will play Quail at 2:45 Thursday afternoon and the boys will play the Wellington "B" team at 4:00 on the same afternoon.

Only four girls' teams are entered in the tournament so each team will play a round-robin; playing each of the other three teams. The Clarendon girls will play Groom on Friday night and Wellington on Saturday night. The boys are playing a regular tournament with six teams entered.

Dwight McAnear, starting guard, will not play this week due to illness. It is not known just when he will be back in the lineup, but he is definitely out for this tournament. Herman Vinson will replace McAnear in the starting line-up along with James Allen, Bill Spier, John Cearley and Jerry Elmore.

Both teams are currently enjoying a successful season as the girls are sporting a 9-1 record and the boys are 8-2.

Bulldogs Have Busy Schedule

The Clarendon Junior College Bulldogs, under the direction of Coach C. R. Brown, have a busy schedule ahead of them beginning on Friday night of this week. The Bulldogs play three straight home games, all of which are conference games.

On Friday night of this week the Lubbock Christian College team invades the local gymnasium for the opening game of the Western Junior College Athletic Conference. This game, as will the remaining home games of the season, will be played in the new gymnasium. Then on Saturday night Frank Phillips comes to town to battle the Bulldogs and next Tuesday night the conference favorite, the Howard County College Jayhawks will play the Bulldogs here.

The Bulldogs are presently sporting a 2-5 record for the season. They have defeated Draughn's Business College of Amarillo and Sayre, Oklahoma, Junior College and have lost to Howard County, Frank Phillips, Lubbock Christian College, Lamar, Colorado, College and Garden City.

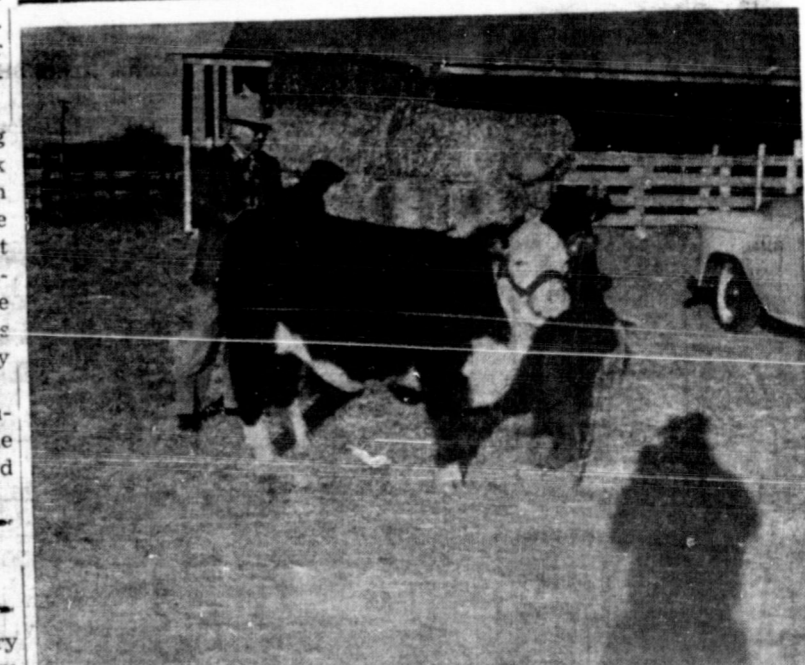

Doubtful starters this week include Billy Wiggins and Buddy Jones. Wiggins is ill with the flu and Jones suffered a broken thumb. Ray DeBord is also limping on what is possibly a fractured toe but will probably play.

In a pre-season survey of the conference coaches, the Bulldogs were picked to finish last in the nine team conference. The coaches picked the teams to finish as follows: Howard County, San Angelo, New Mexico Military Institute, Frank Phillips, Odessa, Lubbock Christian College, Amarillo, South Plains and Clarendon.

So far, the Howard County team, coached by former Bulldog coach, Buddy Travis, is making the predictions look good as they are undefeated for the season, winning both the Odessa and the Howard County Tournaments.

SISTER OF LOCAL RESIDENT BURIED MONDAY

Funeral services were held in Wellington Monday afternoon for Mrs. Ruby Hudspeth, sister of Mrs. C. W. Tolleson of Clarendon. Mrs. Hudspeth died Saturday after a long illness. Burial was in the Wellington cemetery.

CLARENDON, TEXAS

During all of our life we have loved little children, at least with the possible exception of the time we were growing up. Lots of times we have wondered if there could be anything in the world as wonderful and cute as children. The other night right out of the blue we thought of something just as cute if not

more so. It is Grandchildren . . . Talked to one parent who remembered his growing up days, "My father was a great hand to paddle us right on the spot; the right spot, the most handy spot, and the usual spot."

If we want to be heard we have to speak up. If we want to be seen we must stand up. If we want to be appreciated we need to shut up.

If you can remember when the children were supposed to be seen and not heard, then you have plenty to worry about besides the draft.

If you happen to be traveling with a group of men, all mem-

bers of a pulpit committee, don't ever invite folks to guess who you are by what you look like. I do believe some people will embarrass you on purpose.

Another unusual experience along this line can come about when you are caught away from home at night and sleep several in a room. Even when you are sleepy it is almost worth it to listen to the different noises they can make snoring. Please note, we said "they."

Few people admit that they snore. We wonder if most people snore at about the same rate of speed. If not it would be interesting to make a game out of it, and listen for one to catch up with and pass another. A bit like race horses on the track. Guess we had better get off this subject while we are ahead. Someone will accuse us of snoring if we don't stop.

Mrs. D. G. Peden sends us some fine thoughts on the subject of success. "The price of success is hard work, patience, and a few sacrifices." "Then for the keys to success in one's religious life: a firm unwavering faith in God and in prayer, and

in our daily life consistent with the above, a belief in one's self and in his fellowman."

We kept talking about it until we were forced to put up or shut up. We are speaking of the little book of things from this column over the fifteen years that we have written it. It is in the hands of the printers and should be finished by February 1st. It will be larger than the Red River book which was our first venture in the book printing field. This one will have 64 pages and will also be paperback. The name as you supposed will be Plowin' Out The Corners. Each page will be filled with the best little thoughts from over all the years.

If you would like more than one copy at a pre-publication price send us \$2.25 which will cover the cost of 3 books plus tax and postage. The regular price on the news stands and bookstores will be \$1.00 each. Those ordering in advance please do not expect your book for 30 days. We will autograph if you request.

If we cannot be a lighthouse, we can strive to be a taller candle. Whatever we may lack in qualifications we can make up in part by our willingness to make the best of the talents we do possess.

Mr. Spurgeon once said, "Be good, and do good. Do all the good you can, in all the ways you can, as often as you can, and, as long as you can."

If we live each day as if it would be our last someday we will be right. We should work as if we needed no help, and pray as if we were helpless.

If we hide behind the shortcomings of another as our excuse for doing nothing, we are admitting that they are bigger than we are.

Someone has said, "We should behave like the duck. Keep calm and unruffled on the surface, but keep paddling like the mischief underneath."

We shouldn't complain about growing old. There are lots of folks who would give anything for the opportunity. If we are not getting older, we are gone.

It is said that you can judge a man by three standards. The things about which he laughs most, the things he blames his troubles upon, and the way his children act when he comes home.

Our experience is only a dead loss unless we can use it for more than it cost us.

RECENT DISCOVERY MAY AID IN FIGHT AGAINST SCREWORMS

A recent discovery may prove of great value in future efforts to control or eradicate a very expensive livestock parasite, the screwworm. The discovery was a black screwworm fly. Normally, the flies are blue-green.

The first black screwworm fly was found by Dr. Leo E. LaChance, insect geneticist of the USDA's Agricultural Research Service at Kerrville, in a laboratory colony obtained from Orlando, Florida. Since these flies

had not been irradiated, the black one is believed to be the result of a naturally occurring mutation. Several generations of the black screwworm fly have been produced by LaChance and his associates.

The black color is important as a genetic marker (a distinguishable physical characteristic that is heritable) and could prevent a problem which delayed the eradication in the Southeast, a quick, effective way to identify the released flies.

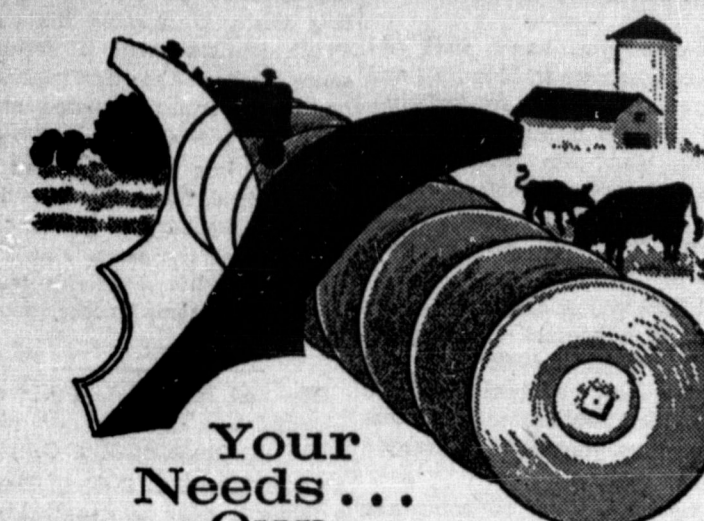

Irradiation does not alter the appearance of screwworm flies, and they are not radioactive when recovered in traps. Dye or other markings are not sufficiently permanent for accurate identification. An easily distinguishable marker, such as the black color, could eliminate this problem and speed progress in future eradication programs.

The ARS entomologists are now

conducting studies to determine how the genetically marked flies compare with wild flies in mating activity, longevity, and flight range. If the black screwworm flies prove biologically successful, they will provide a valuable new tool for use both in entomological research and in control and eradication efforts.

This discovery could mean much to the program now getting underway in Texas under the sponsorship of the Southwest Animal Health Research Foundation.

The winter season is a good time to clear fence rows of moisture robbing trees and brush. Garlyn Hoffman, extension range specialist, suggests chemicals for the job. He says 2,4,5-T and diesel oil or fenuron pellets may be used. Local county agents can supply information on how best to do the job.

the actual receipts will be, since these depend upon economic growth and many other factors.

It is not unusual for Presidents to present a budget which reflects that there will be a surplus. For instance, in 1958 the President's Budget Message made this statement: "The President's Budget proposes that the Federal government spend \$1.8 billion less than its estimated revenue in Fiscal Year 1958 . . . The Budget receipts from taxes and other sources are estimated to be \$73.6 billion in the next Fiscal Year. From this income, the 1958 Budget provides for expenditures totaling \$71.8 billion." When the smoke had all cleared away and actual figures could be found, there was a deficit in the year 1958 of \$2,819 million. This was so because the income of the government was not \$73.6 billion, as estimated, but was only \$69.1 billion.

In 1959, the Budget Message indicated that the budget receipts would be \$74.4 billion and that expenditures would be \$73.9 billion, leaving a surplus of \$500 million. However, in September of 1958 the President's office issued another Budget Message on the 1959 proposals, which was termed "The Mid-Year Review," in which it was stated: "A substantial deficit is now in prospect for Fiscal Year 1959." When the smoke had cleared and actual figures were available, the budget expenditures had amounted to \$80.7 billion as against the original estimate of \$73.9 billion. The income had amounted to \$68.3 billion as against the previous estimate of \$74.4 billion. Hence, instead of a surplus of \$500 million, the result was the largest deficit in peacetime history, to-wit: \$12.4 billion.

In the year 1953, the budget report indicated an estimate of \$71 billion in income. Actual income amounted to \$64.8 billion. In 1954, the estimated income was \$68.7 billion. The actual income was \$64.6 billion. In 1955, the estimated income was \$62.7 billion. The actual income was \$60.4 billion. In 1956 it was estimated that the income of the government would be \$70 billion and that the expenditures would be \$62.4 billion, leaving a deficit of \$2.4 billion. However, the guess was wrong again, both as to receipts and expenditures. The actual receipts were \$68.1 billion, while the expenditures were \$66.5 billion. The unexpected receipts should have resulted in a surplus of some \$6 billion, but the over-estimated income was only \$1.5 billion surplus instead of the \$5 billion.

But, as you will see in the first part of this newsletter, this surplus was completely obliterated in 1958 because of a \$2.8 billion deficit. So it goes; it seems that the Bureau of the Budget, which is part of the President's official office, is not very good at guessing.

The 1962 Budget Message, which came to the Congress on January 16, 1961, contained this statement: "Money which has been borrowed by the Treasury and not yet repaid is called the public debt. Most borrowing is from the public, but the Treasury also borrows from the larger trust funds which have authority to invest in Government securities . . . The principal factor which determines the amount by which the public debt increases or decreases from year to year is the budget surplus or deficit." Hence, from reading above, you will no doubt surmise that the public debt has been increased. In Fiscal Year 1953 the public debt was \$266 billion. The debt had a few ups and downs, but in 1960 it reached a figure of \$284.9 billion. The estimates were that it would be reduced in 1961 and 1962, but it would appear from present information that the bad guessers are still at work.

Here is where the tax dollar comes from: 55c Individual Income Taxes; 22c Corporation Income Taxes; 12c Excise Taxes; 8c All Other Receipts.

Here is where it goes: 57c Major National Security; 11c Interest; 6c Veterans; 6c Agriculture; 6c Labor and Welfare; 4c Commerce, Housing, Space Technology; 3c International; 3c Natural Resources; 2c General Government; 2c Debt Retirement.

Until the budget is balanced, there cannot be a decrease in the public debt or a decrease in taxes. This must be accomplished.

LIBRARY NOTES

EDITH BARNES

Mrs. Marguerite Goodner, of Amarillo, has sent her usual more-than-generous check for books in memory of her son, Tom. His shelves are still the most read in the library and she makes it possible for new books to be on them the year around.

Mr. and Mrs. Frank Meadows, of San Angelo, have sent a book to the library in memory of Miss Anna Moores.

Two books have been given for the section in memory of Mr. Frank Phelan Sr.

Most of you know that Al Dewlen grew up in Memphis and for years has lived in Amarillo. Also that his latest book besides having won the McGraw-Hill Fiction Award of \$10,000 has been chosen by "The Book of the Month Club" as their January selection.

Al Dewlen, as all good writers do, uses an actual case for his book "Twilight of Honor." Also he uses facts and real people to try to drive home some things that each of us should be concerned about.

Why should we be concerned about shady law practices, dishonest lawyers, judges who make no attempt to judge fairly and juries who know as much about law as the average man, which in most cases is absolutely nothing? If for no other reason than you never know when you might be hailed into court as the defendant.

Although this is not brought out in the book, many of you will remember this particular case was tried by the news gathering agencies twice before the trial. The first time was right after the

crime was discovered. The folk read and listened. Their verdict was death to the dirty murderers. Months passed before the criminals were caught. After reading and listening again these same Panhandle people were all turning the poor misguided soul loose.

When we let someone else do our thinking and are so easily swayed, we don't deserve honest lawyers, and judges, intelligent juries and the knowledge that come what may our courts are going to deal out unqualified justice, the same for everyone.

A quote about "Twilight of Honor." Owen Paulk, the court-appointed lawyer for the defense, has handled no trial work for five years. Organizing his case, Paulk realizes with a growing sense of shock that this trial will be a fair trial in name only. Loathing his impossible assignment no less than the man he must defend, he is determined to fight the mockery of justice contributed by the town and save his client's life. Dewlen's treatment is frenzied, sincere, devastating.

Mr. and Mrs. L. L. Edlin and Mr. and Mrs. Clyde Gilbert visited in the home of Mrs. Gilbert's mother, Mrs. A. L. Cobb in Claude a while Sunday evening; also in the home of their son, Mr. and Mrs. John Howard Gilbert.

"The Center of the Southwest faces Growth Unlimited"

We believe this to be a fact because the Southwest is growing 25% faster than the Nation, and our service area is the heart of the region.

What's more, we are convinced this growth will continue, because expansion of commercial, industrial and agricultural activities all point that way.

On our part we are backing up this belief in coming growth with a multi-million-dollar expansion program. Our service facilities are being increased today, to serve more people, more businesses, more industries tomorrow.

Yes, for all of us, there's GROWTH UNLIMITED ahead.

mean the loss of \$1,000,000 through the procedure of service charges on accounts that don't require service.

3. That the committee keep on working to see if there are any other considerations which should be brought to the attention of the 56th Legislature.

Loan Shark Legislation

Although the Governor hasn't said he'll introduce loan legislation at the special session, it's considered a safe bet that the uproar over "loan shark" practices of sky-high interest rates will prompt him to place this issue on the January agenda.

The Legislative Council had a heated debate, and voted 9-2 to commend a loan bill backed by Representative Criss Cole of Houston.

Cole's bill sets a 10 per cent ceiling on interest to be charged on loans.

A lender would be able to charge more than 10 per cent on loans under \$1,500 only if he got a state license, paying 200 for investigation and \$200 a year license fee. To get the license, he'd have to hold \$15,000 in liquid assets for each loan office, and post a \$20,000 surety bond, plus \$5,000 for each branch, plus the \$200 annual fee for each office.

Cole's bill calls for creation of a Consumer Finance Commission which would examine each lender's books annually, at the expense of the lender.

Interest charges would be limited to: 10 per cent per annum on the amount of cash advance; plus a "service and availability charge" of 3/4th of one per cent per month for each \$1 of the first \$400 of the loan on loans over \$100.

On loans under \$100, the charge would be \$1 for each \$5 borrowed, with at least 15 days to be allowed to repay each \$5 of the loan.

If excessive charges are made, the lender would have no right to collect principal or charges, and would be fined from \$100 to \$1,000, and confined to the county jail as long as six months.

The dissenting votes in the Legislative Council were from Senator Charles Herring of Austin, who calculates the minimum

rates on loans of 1,500 to be 45 per cent, and Rep. Don Kennard of Fort Worth, who figures a \$5 loan for 15 days would cost the borrower 464.4 per cent interest under the Cole bill.

Tourist Boosters Reach 1,000

The 600 who decided to organize a Texas Tourist Council at the November "Texans for Tourists" conference here, have swollen to an estimated 1,000. They will gather in Austin on January 10 for the first Council meeting.

After the group approves a constitution and elects officers for the "nonpartisan, nonprofit" tourist promotion organization, it will host a "dutch lunch" for all representatives and senators.

Luncheon will feature a presentation urging that money be made available from the General Fund to the Texas Highway Department for tourist advertising purposes.

W. Price Jr., chairman of the Tourist Council's executive committee, writes, "We have every reason to believe that the Governor will submit in his call appropriations for the tourist attraction program before our meeting on January 10."

Earlier, the committee estimated that \$3,000,000 would be needed from General Revenue to get the advertising program underway. The Council hopes to augment this amount with \$2,000,000 in private subscriptions.

Housing for the Aged

In an effort to stimulate housing for those men and women among Texas' 745,000 old folks who need either specially-built small homes, apartments priced within their limited incomes or institutions that offer nursing care, the Governor's Committee on Aged has prepared a guide to federal building programs.

Guidebook outlines procedures and requirements for obtaining building loans from seven federal agencies, some of which are virtually unknown to the average citizen or organization.

Mr. and Mrs. Ira Thornton, Mike Graham, and Mrs. Harold Graham spent Saturday in Amarillo visiting Mr. and Mrs. Alleen Graham.

The prevention of wildfires in the range areas of the state presents a real challenge to community leadership. A major cause of such fires comes from the simple act of burning trash around homes. The use of trash burners, he believes, would go a long way toward eliminating many wildfires. Plans for mortarless trash burner are available from county extension offices. Ask for plan

State CAPITOL

"Escheat" is a word you'll hear often during the next 30 days.

With the fourth session of the 56th Legislature under way the most important item on the agenda is "escheat." Governor Price Daniel called this third special session because he believes the more than 1,500 banks and savings and loan associations should be subject to escheat.

But just what is "escheat"?

It's a process as ancient as Roman history; written in Old England's feudal law; described by Webster as, "Reversion of land to the crown, or to the state in the United States, by failure of persons legally entitled to hold the same."

Escheat provisions were incorporated in the constitution of the Republic of Texas, and enacted as a state statute in 1885.

Texas law always has stated that when anybody dies without heirs, or disappears and can't be found, his property shall be turned over to the state, after seven years. But the law has lacked a provision by which persons or institutions holding property of missing persons were required to report it.

Governor Daniel started pushing for a provision three years ago, and last summer the Legislature finally passed a reporting provision. But the bankers have fought it long and successfully. They are still exempt from the reporting law, although all other businesses and public agencies must comply.

During the interim between legislative sessions, a special house committee has been investigating enforcement of escheat laws applicable to banking institutions. Committee discovered that much of the \$4,000,000 escheatable accounts lying dormant in Texas banks is being dissipated through service charges and recommended that:

1. The Legislature add banking institutions to the escheat enforcement law without delay, and require banks to advertise for lost owners after seven years.
2. That this matter receive prompt attention in the January session, because the committee estimates a year's delay would

Miss Jeanette Crutchfield Becomes Bride Of Mr. Dee Blevins

In a candlelight ceremony held Thursday evening, Dec. 28th in the home of the bride's parents, Miss Jeanette Crutchfield became the bride of Dee Blevins.

Mr. and Mrs. Roy Crutchfield are parents of the bride and the bridegroom is the son of Mr. and Mrs. W. C. Blevins of Spearman.

Robert C. Jones, minister of the Clarendon Church of Christ officiated at the double-ring ceremony.

Miss Connie Williams, pianist, presented traditional wedding music.

Mrs. Tommy Blasingame, sister of the bride was matron of honor and Bari Blevins was his brother's best man.

The bride given in marriage by her father, chose for her wedding a 2-piece suit dress of beige basket-weave wool with a matching pillbox fur hat. Her accessories were of winter white. Atop a white Bible she carried a bouquet of gardenias.

Following the ceremony a reception was held in the home. Miss Karen Knorpp served the bride's cake while Miss Jane Lowe poured punch. Miss Donna Estlack presided at the guest register.

Mrs. Blevins is a senior in Clarendon's High School and Mr. Blevins is a sophomore in Clarendon Jr. College. After a short wedding trip the couple is at home in Clarendon where they will continue their education.

Mr. and Mrs. J. F. James of Dumas will visit Mr. and Mrs. L. James through Friday.

Miss Loveta Houdashell, Sherwood Anderson Jr. Repeat Marriage Vows

Wedding vows were solemnized Dec. 16th at 8 p.m. for Miss Loveta Houdashell, daughter of Mr. and Mrs. Ernest Houdashell, Hedley, and Sherwood Anderson Jr., Amarillo Air Force Base, son of Mrs. Grace Anderson, Dayton, Ky., and Mr. Sherwood Anderson, Cincinnati, Ohio.

The Rev. V. D. Leeper performed the double-ring ceremony in the First Baptist Church, Hedley.

Traditional wedding selections were presented by Mrs. Don Springer, organist, and Mrs. Troy Hamblin, vocalist.

Matron of honor was Mrs. Jack Brown and bridesmaids were Mesdames Larry Henderson and Bobby Stephens.

Best man was Leroy Webb and groomsmen were Bobby Stephens and Larry Henderson. Serving as ushers were Ernie Houdashell, Bobby Wiggins and Richard Dickson.

Given in marriage by her father, the bride wore a floor-length gown of Chantilly lace over taffeta. The veil was bordered with Chantilly lace and she carried a bouquet of red roses atop a white Bible.

A reception was held in the fellowship hall of the church immediately following the ceremony.

After a wedding trip to Cincinnati, Ohio, the couple is at home at 1206 W. 9th in Amarillo. Mrs. Anderson was graduated from Hedley High School and attended Amarillo Junior College and West Texas State College.

She is employed at Northwest Texas Hospital.

BIRTHDAY PARTY HONORS MISS MARCY PATTERSON

Little Miss Marcy Patterson, daughter of Mr. and Mrs. David Patterson of Hereford was honored at a party held in the home of her grandparents, Mr. and Mrs. G. W. Estlack, Wednesday afternoon, December 27. The occasion was her fourth birthday. Hostesses were Mrs. Estlack and Mrs. Patterson.

Party favors were balloons, party blowouts, and miniature fans. Refreshments of ice cream, birthday cake, and pink lemonade were served. The table was laid with a "Happy Birthday" cloth featuring Huckleberry Hound cartoons, matching plates and cups. The centerpiece was a dancing doll mounted on a pedestal and holding two inflated balloons. Plate favors were mint cups in the shape of a swan and tied with pink ribbon.

Attending were Marcy Patterson, Regina Knorpp, Pam Cook of San Antonio, Tracy Davis, Elizabeth Ann Bromley, Debbie Day, and Camille Mann.

Alvin Miller of Claude and Otis Lemley and boys of Amarillo came for Mr. and Mrs. Clyde Gilbert Christmas day and took them to Claude to enjoy Christmas dinner with Mrs. A. L. Cobb and daughters.

Mr. and Mrs. Ronnie Martin left Tuesday for Washington, D.C. where he will be employed in government work.

I wish to extend my sincere thanks to my many friends and neighbors who were so kind and helpful to me during the loss of my loved one. Your prayers, sympathy, and kind deeds I will not forget. While my home is lonely and my heart is sad because of his absence, your friendship still lingers. Again thanking each and every one of you, may the hand of God always lead you on.

Victoria Walker

We want to say "thank you" and tell you how grateful we are for all the thoughtfulness and kindness shown us during our recent sorrow.

Miss Iva Dee Hinkle has returned to Dumas after spending the holidays with her sister, Mrs. Stella Goode.

People With Deep Personal Convictions Survive Brain-washing

Analyzing Events Pertaining to Our National Survival.

"If God Himself was sitting in that chair we would make Him say what we wanted Him to say," interrogator's boast at Budapest while questioning Robert A. Voegler, American Businessman, who later confessed and served seventeen months of the fifteen years sentence for alleged espionage. Quoted by Voegler, New York Herald Tribune, May 1, '51.

One of our newer books, rapidly rising to the "best seller" level is entitled YOUR THOUGHTS CAN CHANGE YOUR LIFE. A careful observer sees proof of this on every hand. It is demonstrated for us in nearly every facet of our living. Whole systems of religion are based upon the premise: As your thoughts are so shall your health be. Business ventures are sky-rocketing to success in terms of the dollar sign because an executive begins to practice THINK AND GROW RICH. Exclusive new apartment building advertise "You Shape Your Living and Afterward Your Living Shapes You."

Hitler capitalized upon the psychological principle exemplified in these slogans. We see it today, in the writings and practices of the Communist leaders. We have abundant evidence that this process of thoughts affecting lives is being prostituted by Communist methods for Communist objectives. They have changed the order of society by changing thoughts of the members of society. They have caused human brains to lose impressions gained through personal experiences and they have filled those brains with impressions originating totally outside the person's orbit of experience. They have robbed individuals not only of the privilege, but also of the power to exercise "free-will." They have manipulated persons exactly as their political-philosophy has dictated.

Brain-washing! Brain-washing! What is this experience that has changed the loyalties of captured servicemen as well as the victims made "them" - writing -

As one studies this eerie experience to which many of our troops in Korea were subjected and which the conquering Communist hordes imposed upon the Chinese people, there is danger that they will sound unrealistic and impossible. If such is the case, it is because they are so completely beyond the comfortable, decent framework of our comprehension and experience.

The word BRAIN-WASHING came out of the suffering of the Chinese people. These human beings were not re-educated. . . they were exposed to something more like witchcraft, incantations, trances, poisons and potions.

HSIO-HSI has been organized in the conquered areas. These two Chinese syllables mean: to receive teaching and to put it into practice. Small groups of approximately twelve members are organized in every facet of life: families, schools, government, shop-workers, prisons, etc. No one escapes Hsio-Hsi.

No sacrifice is considered too great to receive this indoctrination. Families are separated for weeks, months, or even years to undergo Hsio-Hsi. Groups meet early each morning, three times a week for at least four hours a day. Slogans are rehearsed and party songs are sung over and over and over. There is no part of the twenty four hours or any of life's activities exempt from the impregnation of Communist lingo and ideology. Soon one's friends accept. . . one becomes exhausted, physically and mentally; consequently all begin to act as if they are convinced. It is by the Hsio-Hsi that the government hopes to "change people's minds" and secure personal adherence to its philosophy, economy, directives, penalties, laws, and national plans. The bourgeois must be reformed and trained for service to their country. Hsio-Hsi reforms personalities for new responsibilities.

Little by little a slow transformation of minds takes place because of the psychological atmos-

phere of Hsio-Hsi. The leaders have studied and have become convinced of the validity of Pavlov's experimentation with conditioned reflexes. "A conditioned reflex can be brought about deliberately." This is what the Communist hierarchy now relies upon to make basic changes in human beings in order to create the "New Soviet Man." The police are pleasant; promises of marvelous provisions and liberties are made. There is extensive examination of conscience. Endless confessions are "encouraged" until disturbed personalities emerge. If some personalities are more resistant and maintain their sound structure, additional degrees of pressure are available: hunger, fatigue, tenseness, threats, violence, and in extreme cases, drugs and hypnosis.

At this point a man has delivered the keys of his soul to his enemy.

The Communists now have a docile instrument in their hands. These confessors have lost their independence. They are no longer "free beings." The next step is logical and accepted without resistance. Personal loyalties are denied; capitalism is blamed for personal errors and evil. Thought-correction camps are organized to help individuals "see" the defects of former beliefs. Self-destruction soon becomes group destruction. Children are heard to chant, "I don't love my father; I love Mao Tse-Tung." Disavowed of ones own beliefs he is ready now for the ultimate phase. . . scientific conversion to Communism. All. . . without force! All. . . with "willing" consent of the people. All with a deliberately planned application of a philosophy, objectives, content and methods building conditioned reflexes to the Communist mind. There has been constant and unrelenting indoctrination. Hsio-Hsi is the instrument for the injection of Marxism into minds - a crucible for refashioning ideas.

Many victims have said, "If I had known about the process, I don't believe it could have happened."

Dr. Freedman, Virginian psychiatrist, has said, "So long as reason (reasoning faculty, reasoned judgment, and reasoned free-will) can be kept healthy and free, man's future is safe. The men who survived the brain-washing experiences were those who possessed deep personal convictions; who had made personal commitments; and who believed what they believed."

"The challenge to us in the homes of the free-world focuses upon how to keep our reason healthy and free. We need mental-survival training. We need to learn about the tactics of our enemies. We need to understand the process of brain-washing. We must guard our well-being and integrity of mind. We need to teach ourselves and others that the world is full of double talk; that there is a difference between words and motives of many people. We must realize that all who call themselves friends are not always true friends. Individuals must learn to know WHY they believe WHAT they believe."

"Basic elements of survival are: personal faith, deep convictions, clarity of mind, adaptability, being ones self in a group whether the members are of like kind or not. No child is too young for parents to begin establishing the roots of these characteristics in his life. Parents and teachers, alike, must plan to exhibit ideals great enough to warrant the personal commitment of young people; must plan for helping each child assume personal responsibility for decisions; must help each young person to know that he is trusted, and that it is all right for him to be 'me.' No individual is too old to begin examining the reason for the hope that is within him. It is equally true in a Democratic as in a Communist country, 'As a man thinketh in his heart, so is he.'"

Mr. and Mrs. James McGregor and Don of Odessa visited Mr. and Mrs. Lloyd Risley and other relatives last week.

The children of Mrs. F. A. White have been visiting here. Mr. and Mrs. Rufus White and Harold White returned to Fort Worth Monday afternoon. Mr. and Mrs. Hall of Wichita Falls are visiting here this week. Mr. and Mrs. Glenn White of Shamrock have also been visiting here.

Mrs. Truett Behrens and Elaine, and Mrs. B. E. Jones attended the Olds-Youst wedding at Claude Friday night. Elaine was one of the wedding party.

Mr. and Mrs. L. N. Cox spent the Christmas holidays in the home of Mr. and Mrs. Joe Dilli and children at Farmington, N. Mex.

Dr. James Swift of Wichita Falls spent Christmas with his parents, Mr. and Mrs. J. D. Swift.

Mr. and Mrs. Denny Kotara of Groom visited in the George Thompson home thru the holidays.

Dr. A. B. Goldston and Dr. Ralph Carroll of Amarillo visited in the Joe Goldston home Sunday afternoon.

TEXAS—BEST IN NATION

There are more than 700 roadside parks along Texas highways. All offer complete picnicking facilities. Many have drinking water and firewood.

No other state is so well blessed with these wonderful facilities to make your traveling more enjoyable.

These parks are a mighty welcome sight when you need that restful nap, or that thirst quenching drink of water, or that delicious picnic lunch or dinner.

It's often said that there's more to see in Texas! Thanks to Texas highways and roadside parks you can also see it better.

Prehistoric Man Had His Pick Along our Rio Grande River, many relics and ruins have been uncovered proving that a prehistoric culture inhabited that part of Texas for centuries.

All of which goes to prove that Texas has been a preferred place to live for longer than most of us realized.

WHEAT AND BARLEY MEASUREMENTS

We are now measuring Wheat and Barley acreages and the diverted acreages for any producer who signed up to participate in the program. It will be necessary that producers go with the reporter to show him where the diverted acreages are located. In planning your diverted acreages,

it will be best to keep in mind the following information—quoted from the Performance Handbook:

1. Turn rows: Turn rows and end rows used as turn rows in the operation of mechanical harvesting equipment may not be designated as diverted acreage.

2. Shape of Areas: The initial designated area under the Wheat Stabilization and Feed Grain Programs shall be regular in shape with not more than four sides. These restrictions may be disregarded when a whole field or subdivision is designated as diverted acreage or when the field boundary, terrace, permanent field road, or ditch forms the perimeter of the designated acreage.

3. Fallow strips: Fallow strips of closely sown crops in strip plantings must be in excess of four normal rows to be eligible for diverted acreage.

If you have any questions regarding your diverted acreages, please come to the county office for information. The diverted acreage must be planted to some approved conserving crop — or with the permission of the county committee — summerfallowed. It must remain diverted throughout 1962, or until seeding time in the fall for crops to be harvested in 1963.

Handloading Of Shotgun Shells Is Becoming Popular Fad

By Vern Sanford

Although you don't see many cigarette smokers who roll their own anymore, the fad of "do it yourself" is just hitting the shotgun field in a big way. More and more hunters are loading their own shells.

There are many reasons for the boom in handloading. For one it is a fascinating hobby which can be enjoyed at home. For another, shotgunning no longer is just a fall hunting sport. There are many hunters who bang away at clay targets on skeet and trap ranges throughout the year.

But probably the primary reason for its phenomenal growth is the economy angle. Handload ammo is cheaper than that bought off the shelves of sporting goods stores.

A shooter who burns up much ammunition has found that he can pay for a handloading outfit in a couple of seasons or less. And since the equipment is durable and will last indefinitely, it isn't long before he's reaping the full benefit of the savings.

More than 50 per cent savings is effected by the hunter who loads his own ammo. The reloader can put out a box of ammo for something like \$1.30 to \$1.50, depending of course on what kind of load is preferred.

Good handloading tool will cost between \$30 and \$100. Cheaper tools handle only one size shell, but the more expensive ones take interchangeable dies which permit loading of all types of shells, from .410 to 10-gauge magnum.

With one of the better tools even a person just learning the operation can turn out two boxes of ammunition in an hour's time.

Some of the brand names of handloading tools are Texan, Lyman, C-H, Acme, Pacific, Herter's and Hollywood, among others.

Components necessary for shotgun shell reloading are primers, powder, shot and wadding. Used commercial hulls can be reloaded from one to three times. Nowadays hulls are hard to come by. Gun club members keep their ranges picked clean. However, the hulls alone can be purchased for about \$3 per hundred. These are new, primed cases.

Components come cheaper, naturally, when bought in bulk form. Primers list at \$14.95 for a box of 1,000. Shot comes in 25-pound bags at \$7.50 per bag. Powder is available in different sized lots. One-half pound sells for \$1.80; three-pound kegs cost \$9; and 12-pound kegs are \$28.

Over-shot wads are priced at about \$1.65 to \$2.15 per 1,000, while filler wads range from \$2.65 to 3.25 for 500. (All these are listed prices and may be slightly higher or lower, depending upon the retail sources.)

It takes almost four 25-pound bags of shot and about three pounds of powder, to reload 1000 shells.

Shotgun shells are easier to reload than rifle ammo because measurements don't have to be so exact.

In a rifle load excessive pressures can build up when even a fraction of a grain of excess powder is poured into the case. But since the shotgunner uses an altogether different kind of powder, such minute measurement isn't necessary. Nevertheless, anyone handloading shot-

gun shells should use common judgement.

Probably the best booklet on handloading is the Lyman "Reloader's Handbook." It costs \$2 and is available at most sporting goods stores.

This book gives the lowdown on all kinds of handloading — shotgun, rifle and pistol. It outlines the exact procedures for handloading and includes charts covering all kinds of different loads for every gauge of shotgun.

For safety's sake, as well as tidiness, most handloaders carefully pack their equipment away in a box, when not in use, and bring it out on the kitchen table only when they are ready to work.

An experienced handloader not only can turn out dependable ammo, but often his product exceeds in performance that which can be bought across the counter.

TO THE VOTERS OF DONLEY COUNTY, PREC. 4

In announcing as a candidate for Commissioner of Donley County, Precinct No. 4, I wish to thank the people for their past support and consideration. I will see each voter personally. Your vote and influence will be greatly appreciated. Jess Finley

REPORTS FOR NAVAL DUTY

Jimmie D. Beard, son of Mrs. Lola B. Beard of Clarendon reported November 28 for duty at the Naval Auxiliary Air Station, Kingsville, Texas. Jimmie is equipment operator second class, USN. He is a graduate of Clarendon High School and entered the Navy October 1950.

"When the white man discovered this country, the Indians were running it. There were no taxes. There was no debt. The women did all the work... And the white man thought he could improve on a system like that!"

WHO MUST FILE A FEDERAL INCOME TAX RETURN

All citizens or residents of the United States, including minor children, who had gross incomes of \$600 or more in 1961, must file a federal income tax return, Hubert B. Hamill, administrative officer, Internal Revenue Service, Amarillo, Texas, announced today.

If the taxpayer is 65 or over as of December 31, 1961, he or she is not required to file unless his or her gross income for 1961 was at least \$1,200.

The IRS representative added that even though a taxpayer is not required to file under these rules, he or she must file to obtain a refund, if any income tax was withheld from his or her pay.

He said there is one exception to the general rule. Self-employed persons such as sole proprietors, partners, and independent contractors, must file an income tax return and pay a self-employment tax, if net earnings from self-employment were \$400 or more.

Many questions about federal income tax returns can be answered by telephoning the IRS office.

Oh, yes, the filing deadline this year is Monday, April 16!

SPENDS HOLIDAYS IN COLORADO

Mrs. Homer Mulkey has returned home after spending the Christmas holidays in Colorado. She visited Mr. and Mrs. Hitt and Mrs. G. E. Allen in Denver and with friends in Boulder. She also took several nice trips in the area and enjoyed all of the many lovely holiday decorations everywhere.

Mrs. Frank Jones and Jeffrey Allen are visiting Mr. and Mrs. B. E. Jones for two weeks while Frank is attending a Seal Test sales meeting at Atlanta, Georgia.
