First Baptist Revival August 19th-26th

Dr. H. H. McBride, field representative of the Annuity Board of the Southern Baptist Convention, will do the preaching in a Revival at the First Baptist Church of Clarendon beginning Sunday, August 19, lasting for one week.

Services will be conducted both morning and evening. The morning service, lasting 45 minutes will begin at 7 a.m. The evening service will begin at 8 p.m. The Nursery will be open for all services.

Dr. McBride was born in Colorado and attended schools there and in Louisiana and Texas. He attended Southern Baptist Seminary in Fort Worth. He pastored churches in Colorado, La., and Texas. Texas churches were at Gainesville and Breckenridge. He has a wife, one daughter and two sons. One son, Dr. Jerrold McBride is now pastor of the First Baptist Church at Chickasha, Okla.

The singer for the Revival will be Royce Burrows, who is now music director of the North Dallas Baptist Church. He is a son of Missionary parents. His doctor father is deceased but his mother and brother, Dr. Gene Burrows are still in India serving as Missionaries. Royce attended school in India and Dahart, Texas. He attended Howard Payne College at Brownwood and is now doing his Seminary work in Fort Worth.

The public is invited to hear these two fine men.

Hunting Leases Must Be Licensed

Carl Carter, local Game Warden, is reminding all land-owners who lease their land for hunting privileges or accommodates hunters for pay, that they must obtain a shooting preserve license to be on the safe side of the law. This does not include fishing.

To receive a license, land-owner must make application to the Game and Fish Commission. Carter has the proper forms locally and can handle the entire transaction. The license fee is \$5. Anyone interested in receiving the shooting preserve license may call, write or contact Carl Carter at Box 134. Phone 874-3807 in Clarendon. Carter's jurisdiction includes Donley, Armstrong and Briscoe counties.

Land owners obtaining this license must keep a daily hunting record and no hunter may hunt on land legally licensed without a hunting license. Carter has the proper record books, etc., that he will issue locally and it will be his duty to check records and send in reports as required by the Game Commission.

Little League News

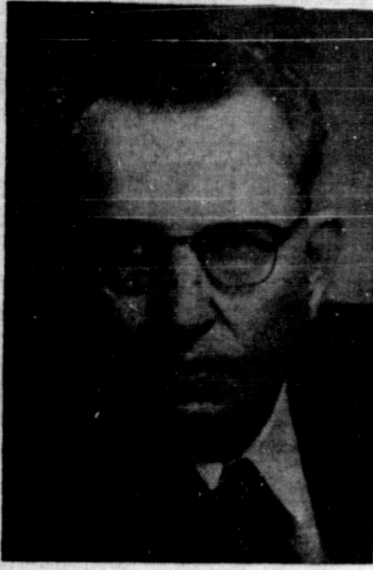

By JOHN PAYNE

Last week saw the Clarendon Little League participate in two games. In the game played in Clarendon the 1st place Yankees and last place Gold Sox defeated the 2nd place Cubs and 3rd place White Sox, 22-5. It was a night whereas the winners could do no wrong and the losers, nothing right.

Gardner of the Yanks had a perfect night at the plate going 4-4 with one walk. He also was the winning pitcher. Sloan absorbed the loss.

Then last Saturday at Claude the Clarendon Stars lost to the Armstrong and Carson County All Stars 10-5. However, Clarendon lead 1-0 going into the last of the fourth whereas the Carson and Armstrong All Stars sent 8 runs across the plate. Considering we were not at full strength as 4 men of our 14-player roster All Stars were not at the game. (See Little League on Last Page)

Petitions For Brucellosis Program In Donley Co. Go To State Office

Mr. Spencer Sitter, Chairman of the Donley County Animal Health Committee said that all petitions from Donley County for type II Brucellosis control program has gone into the state office. In checking the petitions of all the committees about ninety-eight percent of all persons contacted were very much in favor of the program. This also covered around ninety percent of all cattle. With counties in Texas going into the program each week, and already about two thirds of the counties in the program, Donley County's livestock producers wanted the program so they could move their cattle from one area to another without interference.

Mr. Garrett, Executive Director of the Texas Animal Health Commission also advised Mr. Sitter that the hearing for Donley County would be on the eighth of October. The committee was also advised that work in Donley County would start in late December or early January. It is estimated by the Animal Health Commission that they might complete Donley County in about a month or a little over.

With the signing of seventy-five percent of the livestock owners in the county representing fifty-one percent of the cattle, the livestock owners will put the brucellosis law into effect for Donley County and have a type two brucellosis free county. This will let livestock move in to all counties in the State of Texas and other states and also cattle can move from all other brucellosis free counties into Donley County without having to be tested. Cattle moving from untested counties must be tested. It is estimated that by this time next year most of the counties in Texas will be in the program.

The Animal Health Committee for Donley County is Spencer Sitter, Chairman; Joe McMurry, Vice-Chairman; Bob Head, Treasurer; H. M. Breedlove, Secretary; Board Members are: Lee Shaller, W. H. Cooke, III, Bob Baxter, Stan Westbrook, W. C. Thornberry, Joe Robinson, Johnny Rex McClellan, Jack Burr, T. C. D'Spain, Leroy McCracken, Mayburn Trout, Buck Glass, Earl Wheatley, Roy Jewell, Tommy Bain, Virginia Browder, Horace McClellan, Mark Allen, Don Robinson, Ed Sawyer, Bill Porter, Doug Shelton, H. A. Green and Earnest Lamb.

The livestock owners circulated seven petitions over the county to livestock owners to get the program into effect.

Mrs. A. G. Lane left Tuesday night for Battle Mountain, Nev., to visit with her daughter, Mr. and Mrs. Dalton Ford and her grandchildren.

Mercury Tops Century Mark For Seven Days

When the rains quit and the weather fared, the mercury began to climb. Our local weather observer recorded seven days straight with 100 degrees or over. The sizzlers came on Wednesday, Thursday and Friday with 104 degrees the first two days and a top of 105 on Friday. It dropped back to 100 on Saturday and a nice cool 90 degrees was recorded on Monday.

This lower temperature followed a frontal system that blew dirt in many homes during the early hours Monday morning and dropped a nice shower that measured out .45 here in town. From all reports, the shower was quite general in this area and was most welcome following the hottest days of the summer.

Crops in general are fairing quite well but were beginning to need this booster shot of moisture.

Requirements For 1st Grade Students Listed

With the beginning of school only 12 days away, Supt. K. D. Vaughan is reminding all parents of youngsters who will be entering the first grade or school here for the first time, that all must have birth certificates and the required immunization against various diseases.

Immunization is required for small pox, polio, whooping cough, diphtheria and tetanus. Enrollment for first grade students will be Tuesday, August 28, so if you have not taken care of the above requirements for entry, you still have a few days left so the youngster can recuperate some from the immunization shots or vaccinations.

FORMER RESIDENT DIES AT NOCONA SATURDAY

Funeral services were held Sunday afternoon at Nocona for W. B. Barbee, 82, former long-time Donley County resident, who passed away at his home there Saturday. Burial was in the Montague Cemetery.

Mr. Barbee was a resident of Donley County from 1905 to 1942 when he moved to Montague County. Mrs. Barbee preceded him in death in July, 1961.

Survivors include three daughters, Mrs. Lois Putman and Mrs. Frank Reid of Clarendon and Mrs. Ed Aduddell of Claude; four sons, Frank Barbee, Anton, Winfred Barbee, Nocona, Tick Barbee of Stephenville and True Barbee of Fort Worth; two sisters, one brother, 27 grandchildren and 37 great-grandchildren.

Farm Bureau Will Have Annual Barbecue

The Donley County Farm Bureau will hold its annual county-wide chicken barbecue on the night of the 24th of August says Lee Shaller, County President. The barbecue will be held at the Lelia Lake School House and the feed will start at six thirty p.m. Flip Breedlove, County Agent, will do the barbecuing with his crew.

Mr. Shaller said that the only requirement was that everyone furnish one-half chicken per person in their party. The chickens are to be left at the Homen Locker in Clarendon, Moreman Locker at Hedley or the Pointer Store at Lelia Lake. The deadline for leaving chickens at these places is six p.m. on the twenty-third. Breedlove and his crew will start barbecuing at noon on the twenty-fourth, the day of the barbecue. All chickens are to be cut in half and please do not bring frozen chickens. The Farm Bureau will furnish all the trimmings.

Mr. Shaller said that everyone is invited whether you are a Farm Bureau member or not. A good program has been planned for you.

Services Held Wed. For Bill Patman

Funeral services were held Wednesday afternoon in the First Methodist Church for William Marvin Patman with Rev. J. V. Patterson, pastor, officiating.

Mr. Patman, 76, died Saturday evening at his home here following a lengthy illness. He had been a resident of Clarendon 60 years. Before retirement two years ago, he operated Patman's Tailor Shop and was formerly engaged in the Insurance and Confectionery business.

He was a member of the Methodist Church and had served on the board of Stewards.

Survivors include his wife; one daughter, Mrs. Ruth Word of Vernon; three sons, Ardis Patman of Amarillo, Allen Patman of Borger and Billy Patman of New Orleans, La., and six grandchildren.

pallbearers were Dr. George W. Smith, Bill Ray, Ernest Kent, H. N. Price, Karl H. Adams, James Bain, Lloyd Reid and O. C. Watson.

Burial was in Citizens Cemetery with the Murphy Funeral Home in charge of arrangements.

Mr. and Mrs. L. L. Edlin of Irving, Texas, spent several days last week with their parents, Mr. and Mrs. H. Clyde Gilbert.

Bronchos Open Fall Training Monday, August 20, 8:00 A. M.

HEAD FOOTBALL COACH

JACK JAMES

ASST. FOOTBALL COACH

JACK MURPHY

Broncho Football Coach, Jack James, has announced that fall practice for Clarendon High School football hopefuls will get underway at eight o'clock on Monday morning, August 20. There will be a morning and an afternoon workout each day until school opens on August 29.

Coach James, taking over the reigns of the Bronchos from Tom Jinks, who resigned this spring after six years at the throttle, is eager to get the boys in action. He has six years coaching experience and comes to Clarendon from Gainesville where he was an assistant last year and helped guide the Gainesville team to the state AAA semi-finals. He also has three years of head coaching experience at Valley View and two years as an assistant at his home town, Kildare. He will also be head basketball coach here this year.

Another new face on the coaching staff this year will be that of Jack Murphy, who will assist James with football. Murphy is just one year out of Tulsa University where he played tackle for the Hurricanes. He also played two years at Tyler Junior College, his home town. He coached the freshmen at Tulsa University last year. James had his schooling at Stephen F. Austin State College at Nacogdoches, Texas.

The coaches are expecting 14 lettermen from last year's Broncho team to report on Monday along with 25 or 30 other boys from last year's "B" team and junior high team. Since both coaches are new to Clarendon, they do not know what to expect from the boys and say right now every position is open and that the boys who work the hardest will get the berths.

The Bronchos will sorely miss the services of several boys who graduated off last year's team. The hardest to replace will be the two rugged ends, Bill Hermesmeier and Leon Gibbs, tackle Charles Stout, guard Frank Hermesmeier, and halfback Jim Robinson. Stout, the stellar 220 pound tackle, did not graduate, but his parents moved to Altus, Okla., this summer. Others who will be missed will be tackles Ted Shaller and Rocky Carter and center Mike Heath. Heath, who will be a senior this year, has announced that he will not play football this fall.

The 14 lettermen who are expected to report Monday include seniors Gary Campbell, 140; John Cearly, 145; Jerry Elmore, 160; Robin Green, 130; Dwight McAnear, 150; Billy Hearn, 135; David Hudgins, 125; David McBrayer, 155; Danny Ray, 145; Steve Richerson, 150; and Charley Slavin, 125. Junior lettermen will be Ted Graham, 145; Larry Gray, 190 and Steve Shelton, 155. Six of these boys, Campbell, Elmore, McAnear, Hearn, Hudgins and Richerson started most of the games last year and all (See BRONCHOS on Page 8.)

Revival Services Begin Sunday At Martin Baptist Church

Revival services will begin Sunday, August 19th, at the Martin Baptist Church and will continue through August 26. Services will be held at 8 p.m. each night and 10:30 each morning except Saturday.

Rev. J. L. Williams, pastor of the Lelia Lake Baptist Church, will do the preaching. Rev. Williams was raised at Lelia Lake and later moved to Amarillo. After entering the ministry, he was called back to Lelia Lake as pastor.

Director of the music and leading the youngsters booster band each night at 7:40 p.m. will be Bro. Winford Milton, music director of the Bethel Baptist Church in Plainview. The pastor and members of the Martin Baptist Church invite everyone to come to each service and hear good gospel preaching and singing.

Country Club Chicken Barbecue August 23

George Thompson, president of the Clarendon Country Club is reminding everyone of the annual chicken barbecue at the club, Thursday, August 23rd. The deadline to order chickens is August 20. Each half chicken will be 85c and will be purchased by the club so all halves will be uniform.

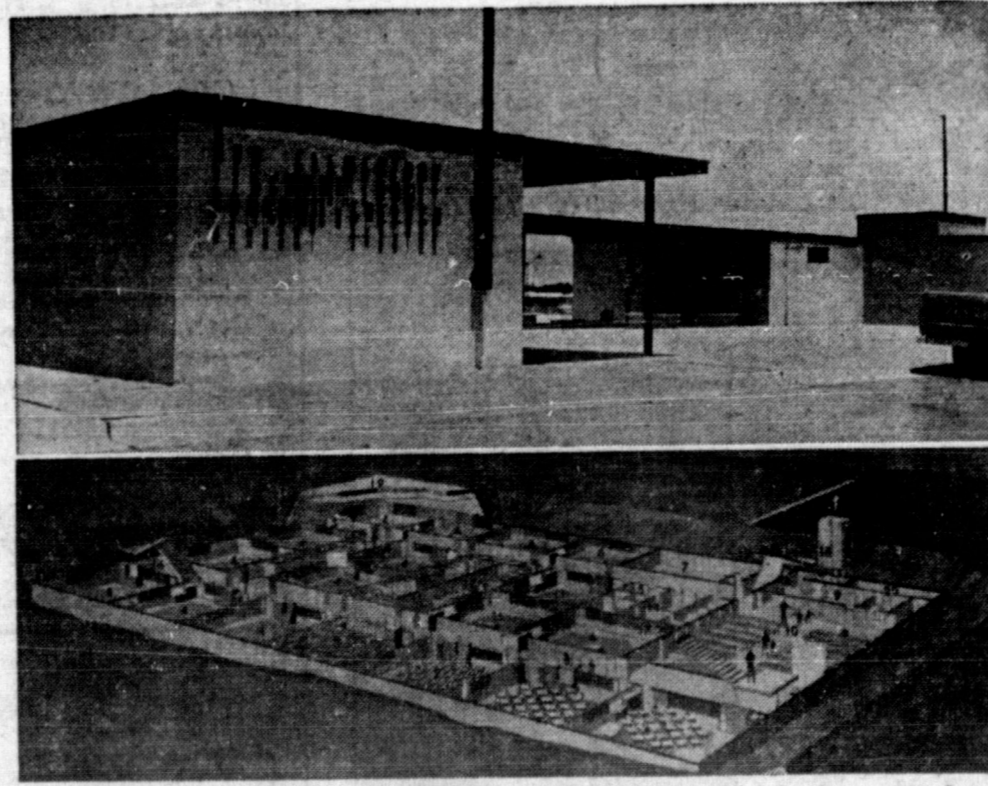

Club members may bring as many guests as they prefer and will furnish the trimmings for their own party.

Tickets for the barbecue can be obtained from the following business firms: Knorpp and Slavin Attorneys, Juniors Food Store, Tunnell Pharmacy and Thompson Bros. Hardware. The serving line will start at 7:30 p.m.

Arvis Davis Purchases Chevrolet Agency At Paducah

Arvis Davis, who has been associated with Alderson Chevrolet the past several years, announced this past week, the purchase of the Chevrolet agency at Paducah from Mat Eubanks of Quanah. Davis took over operation of the business August 1st. The business will be operated as Arvis Davis Chevrolet.

Davis has been associated with the Chevrolet Agency here the past 17 years. Mrs. Davis and daughter, Tracy, joined him at Paducah last week. Their home here was purchased by Mr. and Mrs. Jerry Lohoefer.

munity) but he will never be popular.

Sooner or later such an editor will tread on the toes of everyone who reads the newspaper, be he friend or foe, neighbor or stranger.

Prime sources of an editor's woes are weddings, obituaries and court news. The description of grandmother's dress must be included in the wedding write-up and uncle Joe's favorite poem must be appended to his obituary or the editor is an unfeeling barbarian, not fit to associate with genteel human beings.

Persons whose names appear in the court news usually fall into two classes — those who were badly mistreated by the law, and those who admit guilt but want to protect someone else by keeping their name out of the newspaper. This desire to protect dear old mother who has a bad heart, or the grandchildren in school, or the minister from embarrassment, has led people to offer us bribes, threaten us with mayhem and check the possibility of filing a libel suit. We have often pointed out that we don't make the news, we just print it. All anyone needs to do to keep his name out of the court news is to stay out of court.

Other ways to incur the wrath of readers are: Disagree with them on a school issue; misspell their name; give another church more space than you do their church; refuse to print an item

so old it has long since ceased to be news; decline to work at night on a rush printing job for someone who would have ordered it out of town to begin with had he not been in a hurry; suggest on the fourth or fifth statement that you would like to be paid; decline to print all the personal letters, magazine articles and other material people bring in; get poor reproduction of a poor picture, etc., etc., etc.

We sometimes think what really irritates readers is the crusty old editor's steadfast refusal to drop dead. That seems to be the only way to please a big majority at one time.

SOIL CONSERVATION DISTRICT NEWS

STOCK WATER PONDS
Farmers and ranchmen continue to show real interest in ponds for livestock water. Impounding dams have been built on many grassland pastures. There have been several pit type ponds constructed in lakebeds to furnish water for cattle, and other livestock where land is too flat to impound enough water.
Pit type ponds have been constructed by the following this season:
O. T. Hill, Roy Blackman, C. F. Hermesmyer, Walter Frazier, and T. L. Roach & Son.
Impounding dams have been built or are under construction by the following:
Thelma Clements, Ralph Britten, Joe Robinson, J. W. Espy & Son, Jack Thomas, Lloyd Risley, J. T. Trew, Joe McMurry, Elmer H. Sanders, Barney Cook, James Gould, Hagy Ranch, Harold White, Kathleen Griffin, and Rhode & Gould.
Dams or pits for water will protect your vegetative cover, benefit your cattle while protecting your range land. There should be many more farmers and ranchers who need ponds.

ATTENTION FARMERS

I have a party who owns one of the better farms in Donley County, whom due to poor health is going to stop farming and move to town. He wants to rent this farm out on the third and fourth basis.

The farm is one of the most productive in this County, and has modern home with all conveniences, as well as barns for all purposes. This is a wonderful opportunity for a farmer who would like to farm a proven place. He is going to remain on the place until the crops are gathered this year, you could move on the place during December, but not later than January 1st. If you are interested in this, kindly see:

HONORED WITH WEDDING SHOWER

Mrs. Billy Wiggins, recent bride of Billy Wiggins, was honored Thursday evening with a miscellaneous shower given in the home of Mrs. James Evans. Co-hostesses were Miss Myrtle Reeves, Mmes. Hobart Moffitt, Ray Moffitt, Ray Moreman, D. H. Cox, Kenneth Brinson, Harrison Hall, Oscar Moore and C. L. Johnson.

The table was laid with white and blue cut-work cloth centered with an arrangement of white gladiolas and dahlia in a crystal and silver epergne flanked with blue candles in crystal candle holders. Other appointments were silver and crystal. The punch bowl was encircled with white dahlia and blue grapes.

In other party rooms decorated with arrangements of summer flowers, gifts were displayed in a very beautiful array.

Guest were received at the door by Mrs. Evans, presented to honoree Tobatha, her mother, Mrs. Sam Sanders, and the groom's mother, Mrs. W. B. Wiggins.

Guests were registered by sister of the honoree, Mrs. Pete Rice, of Quitaque. Presiding at the punch table was another sister, Mrs. James Potts, assisted by Mrs. Kenneth Brinson. Other hostesses assisted with the showing of gifts.

WHAT'S A DRUG WORTH?

How much is a drug worth when someone is gravely ill?

Perhaps a little piece by Dr. Edward R. Annis which appeared in the Journal of the Indiana State Medical Association will cast some light on that question:

"This little girl of seven had a tummy ache, but her family didn't pay much attention. When we saw her she had a ruptured appendix and a temperature of 104 degrees. We put her in the hospital and took out her appendix, sucked out some of the peritonitis resulting from it, put some medicine in, gave her medicine in the veins for a couple of days. She had no abnormal temperature after three days, then was put on medicine by mouth and left the hospital on the seventh or eighth postoperative day. The drugs must have cost \$30-\$40, maybe more, maybe less. But I'd like anybody to ask the parents of that youngster how much they were worth. We don't say how much does it cost but how much is it worth."

True stories like this are repeated innumerable times these days, in homes and hospitals and doctors' offices everywhere. And they raise another and infinitely vital question: What would the cost be — in health, happiness, human life — if laws were passed, as proposed, which would discourage drug research, the source of pharmaceutical progress, by taking much of the profit out of the few drugs which are a commercial success, while

GOT A NOTION TO BARBECUE?—Outdoor cooking's a joy when you're equipped for it. You'll find all the trappings you need for a colorful picnic setting — including quilted cotton potholders and barbecue mitts, bright aprons, and picnic carry-alls — at your local notions counter. Fashion your own placemats from cotton denim trimmed with bias tape, and make napkins from gay checked gingham.

TENT ON WHEELS—The tent-trailer, combining the airy lightness of a tent with the high and dry comfort of a trailer, is one of the newest attractions for the growing clan of camping vacationers. The trailers are compact and ruggedly built, and it's easy to raise the roomy cotton canvas tent once the campsite is reached.

leaving the producers with the losses which go with the many costly efforts that fail? There would be fewer motorist patients in the hospitals if there were more patient motorists on the highways.

COTTON HARVESTING AND GINNING CHANGES BEING STUDIED

COLLEGE STATION — Shifts in the cotton producing areas of Texas and changes in harvesting methods have greatly affected investments in gins, according to Progress Report 2233 of the Texas Agricultural Experiment Station.

The report shows that the Blacklands and East Texas have shown the greatest decreases and the High Plains the largest increases in cotton production. The areas with great declines in production have had comparable declines in the number of gins and those areas with increased production have had opportunities for expanded investment in gins, the report explains.

Cotton harvesting has almost completely shifted from hand picking to hand snapping and mechanical harvesting and thus has created a greater need for cleaning devices in the gin to handle this cotton. This additional equipment has increased the investment that a gin owner must make, the report continues.

There are wide differences in the amount of cotton each gin handles and in the areas of falling production they are not handling enough cotton to be economical, the report points out. The gins in the Blacklands and East Texas are not being fully utilized as are the gins in the High Plains.

These preliminary studies show that model gin plants should be developed as a guide for installing and remodeling gins to get the most efficient operation under different conditions and in different areas of the state. For details on the effects of the changing cotton picture on the gin operations of Texas write the Agricultural Information Office, College Station, and request a copy of Progress Report 2233.

GRASS ROOTS OPINION SYLACAUGA, ALA., NEWS: "Secretary of Agriculture Orville Freeman has offered this advice to Soviet Premier Khrushchev: 'Let your farmers operate their own farms.' If the secretary would offer the same advice to American farmers it would be practicing what one preaches, whereas as it stands there is not too much difference today in the Soviet method of collective farming and the American federal subsidy."

NOTICE

To the small, yellow individual who must poison dogs in place of facing them with a gun. We want you to know the kind of dog you killed. His name was Chuck, a German Shepherd. He was trained to serve as a watch dog and attack only when told to do so. He was trained to open our buildings doors with his

teeth and come and go at will. He was tagged for rabies vaccination. None of the neighboring folk complained of his conduct. Several neighbors state that they never saw the dog further than three blocks from our shop. A person with any morals would notify the authorities or owner before destroying an animal; therefore, we will offer \$150.00

reward for information leading to the arrest and conviction of persons placing poison anywhere in our general area. The West-erner. (29-c)

Mrs. Jack McDonald, Brenda and Wesley, Mrs. M. B. Hatfield, Johnny and Lanell all of Amarillo spent Monday with their parents, Mr. and Mrs. J. A. Ivey. Johnny stayed for a longer visit.

Mrs. Mary Barker and sons of Amarillo spent the week end with her parents, Mr. and Mrs. C. L. Mann.

Mr. and Mrs. A. O. Hott called on Mr. and Mrs. H. H. Shields Sunday afternoon.

Mr. and Mrs. Glenn Arnold, Terry, Larry and Berry of Pampa visited his aunt, Mr. and Mrs. A. B. Ivey and Janie this week.

Mr. and Mrs. George Jones visited Wednesday night with Mr. and Mrs. C. L. Mann.

A. O. Hott called at the Adair Hospital Friday afternoon to see Mr. Smallwood who was a patient there.

Due to the high wind and nice rain we had Sunday night my phone went out and I could not contact anyone Monday morning.

Changes in the farm program, as proposed in companion bills in Senate and House, seek to expand opportunities for recreation and fish and wildlife on private lands, according to the Wildlife Management Institute. It is estimated that new techniques and greater efficiency will release about 51 million acres from crop production by 1980. The proposed Agriculture Act is designed to put these lands to constructive purposes.

upsurge since the close of World War II. Many new junior colleges have been established since that period.

In 1955, Dr. Leland Medsker of the University of California at Berkeley, began a study of the Junior College movement under the auspices of the Carnegie Foundation. This study continued until his report was published early in 1960. His findings which when coupled with earlier studies divulges these statistics regarding the growth of the junior college movement. In 1900 only 17 two year colleges existed with all but 4 or 5 of them being parochial or private institutions. Included in those parochial two year colleges were two in Texas, Clarendon College and Decatur Baptist College. The Clarendon College was sponsored and operated by the Methodists. In 1921 there were 207 two year colleges, 70 of them tax supported. In 1938 the number had risen to 575 with only 258 of them tax supported. In 1957 the total number of two year colleges in the United States had risen to 667, however, the number of public junior colleges having tax and state support had jumped to 391. These 391 local tax and state supported two year colleges had almost 90 per cent of the total enrollment of the 667 institutions.

The Typical Junior College
To understand the reason behind this new and rapid growth, one must examine the purposes, advantages and results of junior college education. The junior college is the latest addition to the educational system in the United States. It was begun largely because of the belief that higher learning should not be limited to a few institutions accessible only to small numbers, but instead that advanced education should be provided in small and accessible colleges that would bring higher education within the reach of all.

Ft. Eustis, Virginia
Operation "WHEELTRACK"-A Mobility Test

ARMY VEHICLES TRAVERSE rough terrain at Ft. Eustis, Va., during Operation "Wheeltrack." The Army Transportation Corps, Ordnance Corps and Corps of Engineers pooled technical knowledge, resources, manpower, equipment and facilities for "Wheeltrack." The Operation sought to determine the cross-country mobility characteristics and comparative soft soil performance of certain off-road commercial, standard military and modified vehicles.

The junior college, then, is a community college, economically attracted to both students and taxpayers and has as its aim the providing of the first two years of college education to the home town and trade area students plus the offering of a variety of educational services to the members of the community at large which supports the college.

Distinct advantages of the junior college include living at home, lower tuition rates, less fees, smaller enrollment of students having closer relationships with their instructors which leads to a type of instruction aimed more at the individual

needs of the student. The junior college teacher is better able to adjust his teaching to a group with a smaller spread in ages than the senior college or university. The student can derive more satisfying experiences during his adjustment to college life because he is free from the dominating influence of the upper classes, which the freshmen in a conventional college are subjected to.

Statistics prove that junior college transfers to senior colleges are successful, and in fact, grades of these two-year transfers students generally are higher during the last years of col-

lege, the junior and senior years, than those of the students who spent their first two years at the senior college.

In addition to the above advantages and lower general expenses, since the average junior college student lives at home, are that grades made in the junior college are transferred as the student earned them. If he made an A he transfers it as an A; a B transfers as a B, and so on except that most institutions of either junior or senior standing will not accept a grade of D as a transfer credit.

Also, if the student has followed the course plan/set for him

by the junior college official, then this student can carry his credits with him to the senior college of his choice without losing any of his credits.

LITTLE LEAGUE . . .
(Continued from Page 1.)

we played the opponents a very good game as this team advanced far in the state playoffs this year. They have boys from Claude, Skellytown, White Deer, Groom and Panhandle to pick from as we used strictly Clarendon boys on our team.

Gardner, Fields, McClellan, Reese, Adams and Perkins as well as Melton, Adkins, Sloan, and Land gave a good account for themselves. We will play a return game with them here next Monday at 7:30. If we're at full strength we can beat this "hot shot" team of Pitts Crudgington's, so all you baseball followers be sure and back your Clarendon team next Monday.

Also last week by secret ballot, Jim Moore, the son of Mrs. Ray Moore and the late Ray Moore, was voted as the most valuable Little Leaguer for the year of 1962. Jim led the league in hitting with a .492 mark. He also was one of the top glove men as well as a terrific base runner with speed to burn. Another thing that marks Jim's unusual ability is the fact that he is all of 10 years old. This gives him 2 more years of Little League play. Other boys who received several votes were Gardner and McClellan. I'm sure each boy that played this summer has been a valuable asset to his team and every manager would have liked to have had all their boys as most valuable and on the All Star team. However, each boy can be solely proud of themselves as it was they who have made our Little League season such a rousing success.

BRONCHOS . . .
(Continued from Page 1.)

the other boys played a lot of football. With this nucleus, along with the younger boys who are expected to report, the coaches hope to come up with a team that will give a good account of themselves in each game.

The Bronchos have been picked by various experts to finish all the way from first to last in the coming district race. The Pampa paper recently picked them to win the district; the coaches at the Coaching School at Lubbock last week picked them to finish third and the Texas Sports Magazine, just recently off the press, picked them to finish last. However, it is known that Memphis, Lefors and McLean will be "on" this year. Wellington is coming back into this district after playing several years in AA and they are usually tough and Canadian can never be counted out.

Coach James plans to install the winged-T offense and with the speed of Elmore, Campbell and Cearly and the passing of McAnear, it could be an interesting season.

Mrs. Hugh Brinson visited a while Monday in the home of Mr. and Mrs. H. Clyde Gilbert. Mrs. Brinson was enroute to her home in Allen, Okla.

Durango, Colorado

Right off the bat we can think
of at least two things that join
hands to make Durango, Colo-
rado, a popular scenic spot for
tourists. First, Mother Nature
gave them far more than an av-
erage share of beautiful scenery.
Second, the town has developed
a Chamber of Commerce that

never misses an opportunity to
tell people about what they have
to offer. After having driven over
500 miles the sun was fast
making its way toward the Alps
like mountains for hiding when
we reached town, but long before
sundown we were loaded down
with information and circulars
giving the low-down on every-
thing to be seen and enjoyed.
Many towns far larger could
take lessons from them on how
to tell the world about what you
have.

Even before night we had been
talked into buying tickets for
the narrow gauge train trip to
Silverton. This narrow gauge,
the last of its kind in the United
States just about, took us over

some 50 miles and return of the
roughest and most beautiful
mountain scenery one could ask
for. Rocking back and forth on
its narrow gauge one could get
dizzy looking into the narrow
gorge below and at the looming
mountain peaks. Built at a tre-
mendous cost to haul out the ore
from Silverton and to take pas-
sengers and mail back and forth
the railroad became doomed first
when we went off the silver
standard back in 1893. The panic
of 1907 dealt another crippling
blow, and then finally the high-
ways reached the town of Silver-
ton and the future of the train
seemed gone.

However, it has come to life
as a scenic ride, a days trip into
the past and as many as 40,000
people in one summer season
take the trip. It stretches for
three hours to make the 50 miles,
then a two hour stay in Silverton
followed by a three hour ride
back...

On the trip to Silverton we
were likely the most photog-
raphed train in America... Every-
one had a camera and a pocket
full of film. Before the tracks
left the vicinity of the paved
highway folks were lined up at
the crossings taking pictures.
The 50 mile track shows the re-
mains of many a film package.
People were craning their necks
out the windows to film the rest
of the train as it puffed around
the short curves.

Arriving in Silverton the
sleepy little mining town be-
comes a beehive of activity as
some 500 passengers unload hun-
gry for a meal and ready for
souvenirs and sight-seeing. Fenc-
ed in by tall snow covered peaks
the town from the past becomes
a beautiful picture. Charming
out to meet the train which is
the big moment of each day in
the summer came a horse brig-
ade... Leading the group was a
beautiful little lady not even
in her teens yet. She rode the
horse bareback as if she was
glued to him. As they came to
meet us they were waving their
arms and smiling. One of the
popular color postcards this sea-
son showed little Kathy Morales
on her beautiful horse. From the
sale of the card she hoped to
earn enough to keep the horse
in good physical shape. Her par-
ents lived in Berger some years
back...

We were told that there was
not one farm in the whole of
San Juan County. Few ranches,
if any on the tax roll. It is just
mining and mountains. The
weekly paper called The Silver-
ton Standard & The Miner still
possesses a semi-retired 1830

Before one can say Durango
the wide awake citizens have
told you not only about the train
ride, but one of the world's lead-
ing Indian Ruins at Mesa Verde
National Park. In one year 153,-
000 people visited this former
home of the cliff-dwellers. You
hear about the spot, the only
one like it in the country where
four states meet. You hear of
the Million Dollar Highway that
cost that much per mile in places
to build. The fish and the beau-
tiful waters.

All in all it was a wonderful
trip. And we came home with a
feeling of wanting to compliment
the more than 10,000 friendly
people in Durango and Silverton,
and especially the businessmen
boosters who try so hard to see
that the tourists see it all while
there... We left looking for-
ward to coming back again one
of these days...

Along the road we saw Burgers
advertised 5 for \$1.00. There
was no mention of Hamburgers.
This made one wonder why they
were ever called hamburgers in

the first place.
Judging from the recent fili-
buster in the Senate there must
be folks who honestly believe
that there are those who are even
to the left of left...
If you only recently have start-
ed reading this column in one
of the papers that have only car-

especially like to hear from you.
For instance, if you have been
reading this column in The Ama-
rillo Citizen drop a line to Uncle

us will appreciate it a lot. Too,
we still have copies of our new
book that Uncle Zeb would gladly
autograph and mail postpaid

 TEXAS PRESS ASSOCIATION

AUSTIN — Lt. Gov. Culp Krueger, democratic nominee John Connally and dozens of other state officials and prominent Texans turned out at the monthly meeting of the State Highway Commission to pay tribute to State Highway Engineer Dewitt C. Greer on his 35th anniversary with the highway department.

Commissioners Herb Petry Jr. of Carrizo Springs, Hal Woodward of Coleman and Charles F. Hawn of Athens were among those making complimentary speeches.

Hawn stated that he had known

Greer ever since the highway engineer began his career in Athens.

His and Greer's association was unique, said Hawn, since he was the groom and Greer the bride when the two took part in a "womanless wedding" in Athens about 40 years ago.

VETERANS' INSURANCE PLANNED — Land Commissioner Jerry Sadler announced that the Veterans' Land Board had concluded preliminary arrangements to provide group creditors life insurance for some 30,000 veterans who have purchased land under the state's \$200,000,000 program.

Great American Reserve Life Insurance Company of Dallas will be the insurer if the Texas Insurance Commission approves the plan.

Sadler said the plan is to guarantee full ownership of land to a veteran's widow or heirs at modest annual premiums.

Land board will send details to veterans included in the program when it is fully authorized.

BIG SCHOOLS "COOL" — Mass air conditioning programs at the University of Texas and

Texas A&M College will account for seven per cent of the \$28,787,006 of state funds earmarked for construction in the year starting September 1.

Money to air condition old classroom and lab buildings on the Austin and College Station campuses comes out of revenue from University Permanent Fund investments, as does all the \$15,588,683 to be used for new buildings, renovation and additions at the two schools next year.

Air conditioning projects at the University include the chemical engineering building; Garrison Hall; Sutton Hall; and T. U. Taylor Hall engineering building.

A&M plans to air condition its agricultural building; animal industries building; biological sciences building; chemical building; engineering building; Francis Hall; and physics buildings.

DANIEL NAMES APPOINTEES — Gov. Price Daniel named new board members for three of the state's 19 colleges and universities.

Ennis Favors of Stephenville, a former state representative,

was named to the Board of Regents of Texas Woman's University; and Jack Hughes of Abilene to the Board of Regents of Midwestern University. Charles D. Mathews of Dallas will succeed Jim Lindsey of Midland as a director of Texas Technological College.

Governor Daniel also appointed Rep. J. W. Moore of Ballinger and Claude K. Robinson of Vernon to the interim house committee to study salt water pollution to the soil and surface water of Texas.

STATE LAUNCHES RAMP PROJECT — Texas Highway Commission has approved a \$113,000 program to build 25 public boat ramps throughout the state. Money is surplus from boat registration fees collected under the Texas Water Safety Act.

Each boat ramp project also will include a parking area, access road, incinerator, landscaping, etc.

Sites were selected on the basis of the water area to be served and the number of registration fees paid in the area.

In the 1963 water sports season, ramps will be ready at: Lake Tawakoni, Lake Bridgeport; Possum Kingdom State Park; Oak Creek Reservoir; the San Jacinto River; Clear Lake; Dickinson Bayou; and the San Bernard River.

Also Tres Palacios Creek; Turtle Creek; Indianola Roadside Park; Medina Lake; Copano Bay; the Nueces River; Corpus Christi Bay; Garza-Little Elm Reservoir; Prewitt's Lake; Caddo Lake State Park; Murvaul Reservoir; Pine Island Bayou; the Neches River; Taylor's Bayou; Arroyo Colorado; Llano Grande Lake and Lake Leon.

WATER WORRIES — Joe Carter of Sherman, H. A. Beckwith of Eagle Pass and Otha Dent of Littlefield, have been worried about the future source of water for small communities.

"The big metropolitan areas

can see after themselves," said Judge Dent, "while many smaller cities find themselves with a decreasing source of ground water. We've come to the point where we wonder if we should shift from focus on larger com-

munities to smaller communities." Commissioners talked about a guidance plan with the State Water Development Board and the State Soil Conservation Board. They agreed that many (Continued on Next Page.)

A ticket sorter, as pictured, processes the necessary records when you make a long distance telephone call.

More than a million and a half tickets are sorted every month so that each is recorded and charged to the correct telephone number. The process involves more than 30 separate steps, and requires special aptitudes and training.

Ticket sorters are among the many behind-the-scenes people who work for you here at General Telephone. They are trained workers, dedicated to the mission of providing you with continuing good telephone service, around the clock, day after day.

'62 FORD PICKUPS
REWARD: Come in and claim your reward! Let our low Ford Pickup prices put savings into your pocket right off! And low price is only the start of Ford's full-time economy. You save on gas! Ford's modern Six and V-8 engines squeeze every mile from every gallon of gasoline. Short-stroke, low friction Ford engine design makes maintenance stops few and far between. You save on oil—go 4,000 miles between changes thanks to the efficiency of Ford's Full-Flow oil filter. You save on tires because Ford's truck front suspension keeps tires tracking true. Certified tests show that Ford's front tires last an average of 69.9% longer than tires on trucks equipped with independent front suspension. We'll gladly show you certified proof of how a Ford Pickup can save you money every day! Ford Pickups ride and handle easy, too! You get wide, soft-riding seats that smooth out the miles... long wheelbases, easy springing, extra sound and shock insulation to make hauls seem shorter, to make the chassis last longer. Ford's tough deep-channel frame is built for high-crowned western roads, built to stand up in off-road ranch work. Come in and compare. Try the smoothest pickup that ever beat high costs... and claim the rewards of owning a '62 Ford Pickup!

crossroads communities don't know what their water situation is, and some that know they're running low don't know where to turn for a new supply.

Reluctance to spend \$2,000 to \$5,000 for a hydrology (water resources) study prevents many smaller communities from taking steps to insure water supplies for their people.

Attorney Cooper K. Ragan of Houston is the new chairman of the Texas Civil War Centennial Commission. He took the chair from Walter Long of Austin, who will stay on the commission, as will newly-appointed Frank La-

Rue of Athens. Attendance is up at the state's 46 public parks. A State Parks Board survey showed 979,264 visited state parks in May, compared to 894,992 visitors in June of 1961.

LIBRARY NOTES

EDITH BARNES

A memorial gift has been given to the library in memory of Mr. O. R. Morgan.

Two memorial gifts have been given in memory of Mr. John W. Rhodes.

You might read Herman Wouk's "Youngblood Hawke" for no other reason than the feeling

of accomplishment that finishing a 783 page book gives you. No one reads a book for that reason though. The ones, who do not let the sheer size of the book scare them, are in for a treat.

In the first place Mr. Wouk knows the subject he is writing about as he is a writer of best sellers, has had them made into movies, stage plays, etc. He takes his readers into this fascinating world of the actors, writers, book publishers, critics, and press agents to name a few. You also travel to such places as Hollywood, New York City, Europe and South America.

Quoting: "It provides a sweeping panorama of the United States today, it builds to a thundering climax as two women struggle for the love and life of Youngblood Hawke."

With the strong narrative drive of "The Caine Mutiny" and the preceptive characterization of "Marjorie Morningstar," this new novel adds a deep concern about the way we live today.

Many have said they started or read it in one of the magazines, and did not like it. Of course not everyone likes the same kind of book, but from the

How familiar are you with the various languages?

Can you speak Spanish? German? French? Italian? These and some others are to be heard in Texas. Used infrequently, 'tis true. But used!

There's one language you'd

better get familiar with right away if ever you're going to become a real, down-to-earth honest-to-goodness outdoorsman. It's what we choose to call "Fishman" — for the lack of a better name, or sumpin'.

Anyway, once you learn about 20 or 30 words you've mastered the language.

For instance, when a fellow angler hails you from a passing boat, one word speaks his language. It's "Hiyamac." And it means what it says, "How are you, Mack?"

Or he may say, "Lobuddy." Meaning of course, "Hello, Buddy."

Anyway, if you stop to chat, the conversation goes like this:

- "Binearlong?"
"Cuplours."
"Ketchanenny?"
"Goddafew."
"Kindarthay?"
"Bassencarp."
"Enysizetoum?"
"Cuplapowns."
"Hittinard?"
"Sordalite."
"Wahchoozin?"
"Gobbawurms."
"Fishanonaboddum?"
"Rydonnaboddum."
"Igodjago."
"Tabad."
"Seeyaroun."

size of the book the magazine version must have been cut a lot. Unless the cutter is very very good a lot is going to be lost. Some cutters can butcher a book or article, if they are not really good. If you are one of those who tried the magazine and found it wanting give the book a trial. A book the size and price of "Youngblood Hawke" is not going to linger on the best seller's list for very long unless it has a little something to offer.

"Yehtakideezy."
"Guluk."
Now do you savvy — entiene — comprehend? Kinda confusin' wasn't it?
Anyway, that's the way it's said by the "Fishman" method — when "fishmen" meet.
At least that's what Bill Miller of Corpus tells me. And he

oughta know, 'cause he's the guy who runs the Del Mar Tackle Co. in that seacoast city — where they fish rivers, creeks, ponds, lakes and the Gulf.
Really don't think the language is limited to that area, however, for we've found traces of it everywhere.
Havenchu?

Something you should think about if you're about to buy a truck: If all trucks were built the same way, cost the same to keep up, were worth the same at trade-in . . . then probably the price tag would be your only concern. It can't be, of course, because some trucks have more quality than others. And marks of quality are the real keys to low cost. Chevrolet trucks, for example, have double-wall construction, which gives bodies and cabs more strength. Cabs are insulated against heat, cold and noise. A big part of road shock, which shortens truck life, is damped out by Chevrolet's suspension system; it also makes riding in the truck a pleasure. Pickup bodies and cabs are separated to eliminate stress between them. Value such as this has induced more people to invest in Chevrolet trucks every year since 1937. This can be a good time to buy a modern new Chevrolet truck. Late summer traditionally is the season for all-around savings on a new Chevrolet truck . . . selection is still good . . . deliveries are prompt . . . and Chevrolet dealers are doubly anxious to put you into a new vehicle in order to make way for next year's models. Coupled with the efficient performance a new Chevrolet truck will give you, it seems evident that you couldn't buy at a better time. Come in and take full advantage of it!
