Cable TV Of Clarendon Installed At Cost Of Near \$50,000

For the exception of some outlying areas, Cable TV of Clarendon will have their cable system complete by this week end according to a report from Jim Barrett, local manager of the new business.

Some fifty customers have already tied on to the cable as the cable passed their locality but we will be ready to start servicing any customer desiring to be connected with the cable this week end, Barrett added. Questions and answers pertaining to the cable may be found on the front page of the second section of the Leader in the Cable TV of Clarendon advertisement this week.

Owners of the Cable TV system here are Sebort Worley of Shamrock, J. R. Willis and H. C. Ford, Jr., of Granite, Okla. They have several other similar systems in other towns in New Mexico, Texas and Oklahoma.

The local Cable TV system is being completed here at a cost of approximately \$50,000. The giant antenna at the west edge of Clarendon is 287 feet. Several miles of cable have been strung over town with amplifiers being placed at regular intervals along the line whereby the customer at the end of a line will have as strong a signal as the first party nearest the giant antenna. The construction has been under the direction of Jim Barrett, local manager, who stated that all local labor has been used in the construction for the exception of factory trained technicians. Two crews of men constructed the system in a 12 week period of time.

Customers who are already using the cable service report that the cable cuts out all interference and the reception is just as good as that received in Amarillo. At the present time, the Cable accommodates 3 channels of TV and one of F. M. music. The firm plans to add three more channels within the near future.

The office for Cable TV of Clarendon will be maintained at Barrett's Portrait Salon and anyone desiring to see Cable TV may do so by visiting the office where a set is in operation any time you wish to see it.

Communities Preparing Exhibits For Fair

The big Donley County Fair and Quarter Horse Show will be held in Clarendon at the fair grounds on the 14th and 15th of September says County Agent Flip Breedlove. The Quarter Horse Show will be on the 14th. The catalog has gone to press and will be ready for distribution next week. All committees will be given a copy of the catalog as soon as it comes off the press. Breedlove says that all exhibits will be set up on the 13th and be ready for the judging on the 14th. All communities are now working on their fair booths and getting things ready to set them up. Breedlove says the first prize this year on the community agriculture exhibits will be fifty dollars and second will be thirty-five and third will be twenty-two fifty and twelve and a half for all booths whether they place or not. All premiums will be ready for printing in the Leader next week.

NOTICE TO ALL BOWLERS

There will be a meeting at the Dixie Cafe Tuesday night, August 28, at 7:30 p.m. to make plans and organize for the coming season.

The local club hopes to begin bowling by the last week in September. Everyone who bowled in the club last year, is urged to be present for this meeting.

Miss Grain Sorghum Contestant To Be Chosen Tues. Night

While away they also visited Mrs. Pinkerton's mother, Mrs. W. O. Griffin, and other relatives around Westminister.

FARM NEWS

from County ASCS Committee

WHEAT REFERENDUM

Wheat farmers will vote in a referendum August 30 this year to decide whether marketing quotas will apply for the 1963 crop.

The law directs that acreage allotments are to be used each year, but at least two-thirds of the votes in the referendum must favor quotas if they are to be in effect.

If quotas are approved:

1. All farmers with more than 15 acres of wheat who exceed their acreage allotments will be subject to quota penalties on the "excess" except those who comply with the feed wheat program.
2. Growers who comply with their allotments will be eligible for price support based on a National average of not less than \$1.82 per bushel.
3. If quotas are not approved:

1. Marketing quotas and penalties will not be in effect for the 1963 wheat crop.
2. Acreage allotments will be used to determine eligibility for price support.
3. The price support rate will be at 50 percent of parity based on a National average of about \$1.21 per bushel.

None of the wheat from a farm with wheat acreage in excess of the farm allotment will be eligible for price support.

A farmer who complies with his acreage allotment may market without penalty all the wheat he produces.

The polling places are as follows:

- "A" Community — Wheeler Evans Elevator — Jericho.
- "B", "C", "D", and "E" Communities — Donley ASCS Office
- "F" and "G" Communities — Wilson Drug Store — Hedley
- "H" Community — Al Cooke's home — Alfreed and Bernard McClellan's home — McLean

You and your wife are eligible to vote if you have an interest (See FARM NEWS on Page 8.)

JAYCEES SPONSORING BRONCHO BOOSTER CLUB

The Broncho Booster Club, sponsored by the Clarendon Jaycees, has started its membership drive and are looking forward to a good membership by the time the football season gets underway. Membership cards are \$2 and the member will receive a Clarendon Broncho decal sticker.

The first meeting of the club will be Tuesday, September 11, at 8 p.m. in the Field House. The club will meet each week at which time Coach James will show film and discuss plays of the previous football game.

The club is being organized to help promote community spirit and assist coaches James and Murphy and the team in any manner for the betterment of the athletic program here.

Registration For Fall Term Of School To Begin Monday

One Club Golf Tourney This Week End

The tournament committee of the Donley County Golf Club has scheduled a one-club tournament for this week end consisting of 18 hole medalist play. Entrants can begin play today, Thursday, but must finish the 18 holes by Sunday evening when the tourney will be concluded. All score cards must be turned in by Monday morning. Prizes will be given for the lowest two scores and to the one with the highest score. Players may pick the club of their choice but must use the same club the entire 18 holes. Player must also be accompanied by another tourney entrant and all score cards must be signed and attested to qualify.

The entrance fee for the tournament is \$1 and all persons interested in entering the tournament can pay their entrance fee to Billy Mac Hicks or Jerry Allen.

Patients as of Wed., Aug. 22: Mrs. M. G. Whitfield, Jimmy Wayne Ashcraft, Gilbert Bellah, Otto Beach, Mrs. A. L. Formway, and Cordia Thompson. Dismissals: John Bass, J. T. Roberts and D. T. Smallwood.

Coaches Pleased Over Workouts

Clarendon High School's two new football coaches, Head Coach Jack James and Assistant Coach Jack Murphy, have been running the Bronchos through two workouts daily since Monday morning and, so far, are fairly well pleased with the results.

A total of 45 hopefuls have reported to the coaches this week. They will workout twice daily until classes begin next Wednesday. Fourteen lettermen from last year's team are on hand to form the nucleus of the 1962 edition of the Broncho team. The new coaches are installing the winged-T offense this year and it is a little early to tell just who will be in what positions. However, the first unit backfield seems to be shaping up with a quartet of lettermen seniors including Dwight McAnear at quarterback, Jerry Elmore at fullback, John Cearly at halfback and Gary Campbell at wingback. The line positions are uncertain, but it is figured that such boys as Billy Hearn, Steve Richardson, Larry Gray and David McBrayer will make their presence felt. A lot of the other boys are doing well, but the coaches are reluctant to single out any certain ones this early in the practice periods.

The complete roster at the present time is as follows: seniors, Gary Campbell, John Cearly, Jerry Elmore, Robin Green, Billy Hearn, David Hugins, Glenn Judd, Dwight McAnear, David McBrayer, Danny Ray, Steve Richardson and Charles Slavin; juniors are Teddy Graham, Larry Gray, Ronnie McAnear, Timmy Ray, Steve Shelton, Dennis Stewart and Lester Welch; sophomores are Richard Bell, Douglas Bradshaw, Bobby Cain, John Grady, Bernie Green, Barry Hudson, Freddy McAnear, Lloyd McCord, Jack Price, Jack Robinson, Jackie Sims, Wendell Sursa, Tommy Waldrop, Gerald Welch and Buddy Wooten; freshmen include Martin Hendrix, Henry Hermesmyer, Dwayne Lamberson, Mike Mears, Bill Monk, David Mooring, Ray Pinkerton, John Spivey, Steve Stewart, Richard Thornberry and Johnny Wozencraft.

Superintendent Vaughan Announces School Faculty For Year

Kenneth D. Vaughan, beginning his first year as Superintendent of Schools and President of Clarendon Junior College, has announced that the school faculty is all set for the opening of the school with the exception of two teachers. A vocational agriculture teacher for the high school and a chemistry and physics teacher for the college are still needed to complete the faculty.

Vaughan, formerly high school principal here, took over as head of the school system on August 1 following the resignation of Mr. James R. Cox, who held the position the past two years.

Five new teachers have been employed for the coming year to replace teachers who resigned earlier. Mr. Jack James will be head football coach, boys basketball coach and track coach, and will teach social studies. Mr. Jack Murphy will be assistant football coach and will teach physical science and biology. Mrs. Lorean Hart of Borger will teach freshman and sophomore English. Mrs. Dema Justice of Wellington will teach high school

Revival Continues At First Baptist Church

Good attendance is reported at the services at the First Baptist Church this week.

The Revival started last Sunday with Dr. H. H. McBride of Dallas, Texas, doing the preaching and Royce Burrows, also of Dallas, leading in the singing. It is reported by the pastor, W. R. Lawrence, that these are both top-notch men. He invites you to hear them.

The week-day services begin at 7:00 a.m. and 8:00 p.m. The nursery is open at all services. The Revival will close Sunday, Aug. 26th, with the evening service.

New Regulation For College Entrance

Oliver J. Abel, Dean of Clarendon Junior College, has announced a new regulation which Clarendon Junior College, along with 67 other colleges and universities in Texas, will follow beginning with the fall term which opens on Sept. 10.

The regulation is as follows: "Any student enrolling in college for the first time must have a copy of his high school transcript AND a report of the results of his ACT (American College Test) in the office of the Dean or Registrar prior to the registration date."

Students who have not had an opportunity to take this ACT test may be admitted tentatively until such time as they may have an opportunity to take the test. The tests are given by the college four times each year, the first being in November of the fall semester.

Dean Abel would also like to clear up some thinking and possible misunderstandings concerning the regulation. The test is for guidance purposes only. Some of the larger and more crowded institutions are using the test as a yard stick toward admitting students. Some are not admitting students who make a low grade on the test, however, that is not a part of the regulation. Even if a student makes a score of zero on the test, the institution can still admit the student if it chooses to do so. The test itself is the only regulation.

Since Clarendon Junior College is not overcrowded, it is possible to admit students making a low grade on the test. This may be done by supplementing the test results by a personal interview with the Dean or a letter of recommendation from their high school principal.

mathematics and Mr. Bill Dunn of McLean will teach high school science. Also, Mr. Don Dorman, who started the year last year as college basketball coach but was called into the service on Dec. 1, has returned and will coach the Bulldogs and teach social studies in high school.

Stina Cain will be beginning his eighth year as elementary and junior high school principal and will have as his elementary faculty the following: Mrs. Nova Mears, Mrs. Hazel Brandon, Mrs. C. R. Brown, Mrs. Virgie Johnson, Mrs. Mildred Hendrix, Mrs. Margaret Jean Williams, Mrs. Wilma Batson, Mrs. Naomi Gilbreath, Mrs. Faye Pinkerton, Miss Edgar Mae Mongole, Mrs. Rachael Butler, Mrs. Zola Donald and Mrs. Floy Barrow. Mrs. Velma Weaver will teach music in the elementary school in addition to teaching the college music.

The junior high school faculty includes Sam Lowry, mathematics; Miss Diane Fowler, language arts; Mrs. Allan Estlack (formerly Miss Helen Hartzog), language arts; Mrs. Anne Kennedy, social studies; Miss Inez Blankenship, language arts; Johnny Leathers, science, and Jack Hall, physical education and coach.

In the high school, Morris Ledger will be starting his third year as principal and will have as his faculty the following: Mrs. Velma Bourland, vocational homemaking; Don Dorman, driver education and social studies; Willard Edgett, band and choir; Roy Lewis, business; Mrs. Claudine Todd, junior and senior English; J. R. Williams, Spanish and girls basketball coach; Bob Baxter, vocational agriculture. These will be in addition to the five new teachers mentioned above.

Oliver J. Abel will be starting his 5th year as Dean of the Junior College and will have the following off his faculty: Weldon Day, mathematics; Mrs. Annie Ruth Thomas, English; Mrs. Lucile Naylor, history and government; Jack Moreman, agriculture and biology; W. W. Pinkerton, business; Mrs. Gladys Seago, education and geography; Daniel Nutter, librarian, and C. R. Brown, physical education. There will be some part time and night school instructors in the college who will be announced later.

In the colored school, Mr. Will H. Phillips and Mrs. Velma Chavers will be the teachers.

In the Business Office, Mrs. Naomi Phelan will continue as Tax Assessor and Collector and will be assisted by Mrs. Joyce Goudy. Mrs. Goudy was employed recently to replace Mrs. Jo Ann Davis who had been with the local school system for a number of years. Mrs. Allene Estlack will be secretary to the superintendent.

The school cafeteria will again be managed by Mrs. Oliver Abel and she will have as her helpers Mrs. Rowena Allen, Mrs. Altha Floyd, Mrs. Opal Spurgeon, Mrs. L. S. Luttrell, Mrs. Dorothy Sullivan and Mrs. Bertha Emmons.

The building maintenance crew will again be headed by Millard Windom along with Tullis Davis, M. C. Rampy and C. I. Castele. Eddie Floyd will be the school bus maintenance supervisor.

School bus drivers will be as follows: Bus No. 1 (Lelia Lake) Keith Barbee; No. 2 (Lelia Lake) Glendell Cain; No. 3 (Antelope-Heckman) Mrs. Ethelyn Grady; No. 4 (Hudgins) Wayne Mann; No. 5 (Sunnyview) Gary Longan; No. 6 (Goldston) Danny Shields; No. 15 (Ashtola) Johnny Rattan; No. 16 (Martin) Johnny Mayes; No. 17 (Chamberlain) Bill Dunn; No. 20 (Goodnight) Bobby Lewis, and No. 18 (colored bus to Memphis) Hosie Lewis.

Texas Gets 84% of March of Dimes Funds

THE FIGHT AGAINST CRIPPLING goes forward on many fronts with funds raised through the March of Dimes. The scientist in the laboratory seeks answers on the slides under a powerful microscope. The doctor in his office brings to bear all of medicine's present knowledge to relieve pain and crippling for the individual patient.

NEW YORK, N. Y.—The state of Texas has been the principal beneficiary in the allocation of March of Dimes funds raised in the state over the past 23 years, it was disclosed today in a financial summary prepared by The National Foundation.

More than 84 cents of every dollar from Texas' March of Dimes has been put to use in aiding the state's disease victims and in research and education projects conducted by Texas institutions. Of the remaining 16 per cent accruing to the national headquarters, a large portion also has come back to Texas in shipments of polio vaccine and gamma globulin and in other nationwide services conducted by The National Foundation.

The summary covers the period since the first March of Dimes was held in January,

1938, and compares the net total of funds raised in the state with amounts made available to Texas through September 30, 1960.

In this period, Texas chapters of the March of Dimes organization raised a net total of \$25,255,310.30 at an average fund-raising cost of less than 7 per cent. Of this amount, \$20,878,742.57 has been available to the county chapters in carrying out their extensive patient aid programs, including advances of \$8,592,351.71 from the national office to meet local emergency situations.

In addition, 65 grants totaling \$2,946,584.11 have been made in support of research and professional education projects at Texas institutions. Principal beneficiaries of these grants have been: Baylor University, \$1,748,928.28; Jefferson Davis Hospital, \$654,797.54; University of Texas, \$332,781.57 and the Texas Institute for Rehabilitation and Research, \$162,179.85. The latter institution also has benefited to the extent of \$1,514,672.42 from

those grants made to Baylor University and Jefferson Davis Hospital.

Over and above the 84 per cent used by institutions and county chapters in the state, The National Foundation has financed within the state projects such as the historic field trials which proved the effectiveness of the Salk vaccine, epidemiological studies and scholarship and fellowship grants to Texas residents. National headquarters' expenditures for the vaccine trials in Texas amounted to \$359,726.07. In addition, the national office has sent into Texas \$291,718.84 worth of Salk vaccine and 654,924 cc's of gamma globulin in support of its polio prevention programs.

Two years ago, the National Foundation for Infantile Paralysis changed its name to The National Foundation in expanding its areas of interest beyond polio to include birth defects and arthritis, using the scientific knowledge and experience gained in the fight against polio.

Adams-Housden Vows Exchanged In Church Ceremony

Miss Paula Jon Adams became the bride of Melvin R. Housden in a double-ring ceremony at the First Baptist Church, Clarendon, Texas, Friday evening, August 17. The Rev. W. R. Lawrence, pastor, officiated.

Mr. and Mrs. Raleigh Adams of Clarendon, Texas, are the parents of the bride. Parents of the groom are Mr. and Mrs. Orville Housden, also of Clarendon.

Vows were exchanged before an altar decorated with baskets of white gladioli and wrought iron candelabra entwined with garlands of plumous fern and bearing white tapers interspersed with schefflera plants and emerald palms. A satin covered kneeling bench centered the altar. Pewes along the bridal aisle were marked with white satin streamers. Tapers were lighted by Bill King Bussard and Joe Frank King of Amarillo, both cousins of the bride. Mrs. Barbara Cosper registered the guests.

Mrs. Dennis Bradshaw, organist, played a prelude of wedding selections and the traditional wedding marches and accompanied Miss Carolyn Wallin, soloist, as she sang "Because," and as a benediction, "The Lord's Prayer."

The bride, given in marriage by her father, wore a formal gown of silk organza and Chantilly lace. The fitted bodice was fashioned with a scalloped Sabrina neckline and long tapered sleeves. Appliques of Chantilly lace encrusted with sequins decorated the bouffant skirt which extended into a chapel train. Her fingertip veil of illusion was attached to a crown of seed pearls

studded with rhinestones. She carried a bouquet of gardenias, carnations, and stephanotis showered with streamers with stephanotis tied in the love-knots, atop a white Bible.

Flower girl was Janis Harp of Amarillo, cousin of the bride. Her dress was of aqua taffeta styled with a bateau neckline, puffed sleeves and a bouffant skirt. She wore a headband of orange blossoms and carried a white lace basket of flower petals.

Steve Adams, brother of the bride, was ring-bearer.

Miss Sharon Wright of Alamogordo, New Mexico, was maid of honor. Bridesmaids were Miss Donna Eddins of Estelline, Miss Judy Harp and Miss Debbie King of Amarillo, cousins of the bride. Their dresses were identically styled of turquoise taffeta and featured a fitted bodice with scalloped Sabrina neckline, cap sleeves, and bouffant skirt. Each wore a matching halo hat with short veil, white gloves and matching shoes. They carried colonial bouquets of frenched white carnations.

Best man was Kenneth Housden, brother of the groom. Groomsmen were John Tom Morrow, Jimmie Adams and Gary Adams, brothers of the bride. Ushers were Eddie Tipton and James Semrad.

For her daughter's wedding Mrs. Adams wore a dress of Dior blue lace with matching accessories and complimented by a corsage of white frenched carnations and agapanthus. Mrs. Housden, mother of the groom, wore a dress of beige dacron with mint green accessories. Her corsage was of mint green frenched carnations.

A reception was held in the Church parlor immediately following the ceremony. Background

Exchange Vows At Plainview

Miss Vivian Lee Thomason and Thomas Eugene Phelps were married in a double ring ceremony at the home of Hubert Setliff, minister of the Church of Christ, officiating, Saturday, August 18, at 5 p.m. in Plainview, Texas.

The bride is the daughter of Mr. and Mrs. Frank Thomason of Clarendon, and a graduate of Wellington High School. She attended Abilene Christian College one year, and has been employed at the Texas Highway Department in Lubbock for the past six months.

The groom is the son of Mr. and Mrs. Delbert Phelps of Quitaque and a graduate of Quitaque High School and Clarendon Junior College. He will attend Howard-Payne College in Brownwood this fall, where the couple will make their home. He has been employed with United Grain Elevators in Plainview this summer.

Attendants at the wedding were Miss Anna Mae Thomason of Lubbock, cousin of the bride, and Robert Phelps of Quitaque, brother of the groom.

GADGET SHOWER HONORS MISS ADAMS

Miss Paula Adams, bride-elect of Melvin Housden, was honored with a "Gadget Shower" in the home of Mrs. Bobby Cole. Hostesses were Sharon Williams, Gay Cole, Alice Davis, Donna Allen, Sherry Semrad, and Andra Bradshaw.

Cakes and cookies were served to about fifteen guests.

SURPRISE PARTY HONORS MISS ADAMS

Locals Will Participate In Boys Ranch Rodeo

A new rodeo arena and a record number of contestants is expected to attract the largest number of people ever to visit Cal Farley's Boys Ranch when the 300 boys now living there put on their 18th annual Boys Ranch Rodeo, September 2nd and 3rd, the Labor Day weekend.

A total of 265 boys have registered as contestants in the nationally-famous event that has become a Boys Ranch tradition. Although all of the boys who make their home at the Ranch will participate in some phase of the rodeo, only the best riders will be riding the professional rodeo animals that have been taken to the Ranch for the occasion. Boys, from 5 to 17, will be competing for honors and prizes by riding calves, steers, Brahma bulls, and bucking broncs. James Raymond and Robert Watson from Clarendon will be riding the calves this year.

To prepare for the crowds, the boys have been helping with the construction of the new and larger rodeo arena, located in the midst of shady cottonwood trees, south of the Ranch picnic grounds. New chutes and corrals have been constructed to assure a fast-moving rodeo and bleachers have been elevated to provide an excellent view of the action for all of the spectators.

The boys will be competing in two divisions, according to ages, and will ride under R. C. A. rules. Clowns and trick riders will provide the color and excitement along with other special feature attractions.

The Boys Ranch rodeo is the biggest Labor Day week end event of the Golden Spread area. Performances will be held at 2:30 on Sunday and Monday afternoons. Admission is 75c for children and \$1.50 for adults. Proceeds will go to help the Boys Ranch expansion program.

Two Rural Accidents Investigated In Donley During Month Of July

The Highway Patrol investigated 2 rural accidents in Donley County during the month of July according to Sergeant J. W. Wilson Patrol Supervisor of this area. These wrecks accounted for three persons injured and an estimated property damage of \$1,380.00.

The rural traffic accident summary for Donley County from January through July of 1962 shows a total of 26 crashes. As a result of these crashes there were 2 persons killed and 20 persons injured. The estimated property damage amounted to \$17,940.00.

The familiar yellow school buses will soon be back on our highways. The Sergeant reminds all motorists of the State Law regulating school buses. "The driver of a vehicle upon a highway outside the limits of any incorporated city or town upon meeting or overtaking from either direction any school bus which has stopped on the highway for the purpose of receiving or discharging any school children shall stop the vehicle immediately before passing the school bus, but may then proceed past such school bus at a speed which is prudent, not exceeding (10) miles per hour, and with due caution for the safety of such children."

The veteran patrol supervisor said, "Remember, these children are our most precious heritage, who hold the future of our nation."

CHILDREN VISIT THROUGH WEEK END

Garrison Issues Holiday Warning To Motorists

AUSTIN — Colonel Homer Garrison Jr., Director of the Texas Department of Public Safety, today announced the official estimate that 30 persons will be killed in some 3,000 traffic crashes during the upcoming 72-hour Labor Day week end.

Commenting on Labor Day travel, Garrison said: "Many Texas families will take advantage of this last long summer week end to take trips prior to the opening of school. As a result, traffic will be heavy and the possibilities of traffic crashes will be increased."

"Because this holiday is so much a family affair, more people will be occupying cars. Thus any traffic accident might result in several casualties. This has been evidenced several times on Texas highways in recent weeks. During one seven-day period in August, three crashes claimed the lives of 20 persons."

Garrison noted that during the past eight weeks traffic deaths have increased from four per cent below to two per cent above the toll for the corresponding period of last year.

"But the most alarming thing is that the number of fatal traffic accidents is now running four per cent above last year's figure," he said. "Experience has shown that in nearly every fatal accident a violation of traffic law has been a major causative factor."

In an effort to focus public attention on the hazards of holiday travel and to compile additional data which will be helpful in improving the State's traffic management program, the Department of Public Safety will conduct "Operation Motorcade" from 12:01 A. M. Saturday, September 1 through 11:59 P. M. Monday, September 3.

During this period, the Department will tabulate all traffic deaths in the State and will issue daily bulletins at 10:00 A. M., 3:00 P. M., and 8:30 P. M.

In an all-out effort to insure driver compliance with traffic regulations and to hold traffic crashes to a minimum, the DPS has made plans to augment its regular Highway Patrol force with some 150 uniformed officers from its other services during this three-day period.

"But the solution to the traffic problem in Texas is in the hands that hold the steering wheels," Garrison said. "Drivers should remind themselves during the Labor Day week end, and every time they drive, that the operation of a motor vehicle is a full-time job. At no other time are your loved ones more dependent upon you."

Visitors in the C. B. Harp home Sunday included Lucky Thompson and other cowboys from the Pitch Fork Ranch at Guthrie.

Mr. and Mrs. Dean Bier and girls spent the week end with Mrs. J. S. Dale enroute to their home at College Station from Washington.

Mr. and Mrs. Tommie Saye and family and Mrs. Carl J. Saye attended the Fall and Winter clothing market in Dallas Sunday through Wednesday of this week.

Mr. and Mrs. L. P. Moore and children attended the Shriner's Circus in Amarillo Friday.

Mrs. Tom Kyger and granddaughter, Paula Peters, of Kaufman visited Mr. and Mrs. Ralph Keys last week.

Rep. Walter Rogers Introduces Tax Bill

Rep. Walter Rogers (D-Texas) this week introduced a bill providing that income which is derived by a dependent in any calendar year as community income under State law shall not be included for income tax purposes as gross income if not actually received.

The present law has plagued legally separated but not legally divorced persons for years, Rogers explained. As an example, the Congressman cited the plight of a young man who was supporting his mother and eight brothers and sisters. Although separated from the father and not receiving support from him, under the community property laws, the mother is considered to have a vested right in the father's community income which exceeded \$600.00 and is liable for the tax on her one-half of the community income. The son, the actual breadwinner, is not now entitled to claim proper dependency.

"Even though taxes are a necessary evil," Rogers said, "why not encourage children to take a fiscal responsibility toward their parents instead of defeating them with insurmountable roadblocks."

Rogers noted that it is probable that some taxpayers in community property states like Texas are already claiming exemptions thinking they are within the law.

"Technically they are in violation of the law," Rogers said, "and could be subjected to severe penalties. Hence, immediate action should be had to correct such an unconscionable situation."

Despite the approaching adjournment of Congress, Rogers hopes that his bill will put the Congress on notice that such a correction should be included in the over-all tax revision planned for early next year.

Miss Camilla Lemons of Memphis came Friday and spent a few days with her cousin, Annette Cross.

GRASSROOTS OPINION

PRENTISS, MISS., HEADLIGHT: "We see where a Muskege County, Oklahoma, judge has decided to retire because of welfare abuses. Judge J. F. Beavers, 'sick and tired of welfare abuses I have seen reflected in my court' was especially critical of aid-to-dependent-children cases in which he said mothers of illegitimate children are 'rewarded for their promiscuity.' Said Judge Beavers, 'these mothers were not interested in anything but getting on the relief roll... once someone gets on the relief roll, he or she never gets off. My philosophy of life doesn't go along with this 'give-away' trend of the times, so I felt it was time for me to leave public life.'"

"Wouldn't it be a big help in this day of socialism and give-away if more people shared Judge Beaver's views?"

SOIL CONSERVATION DISTRICT NEWS

DEFERRED GRAZING

Deferred grazing consists of postponement of grazing in order to allow newly planted grasses to become established or to allow old stands to recuperate from overuse.

The physiology of a plant requires a maximum of green material to develop a deep, durable root system. The first year after seeding there should be absolutely no grazing, even if the top growth appears to be robust enough to graze. Grazing the first growing season before the roots have adequately developed will almost always insure winter-killing.

Most of the smaller grasses will be more tolerant to grazing than the larger one, but it seems apparent that more actual forage can be obtained from larger species under most conditions when handled properly.

Our S.C.S. standards require deferral one growing season following reseeding. This should, under normal conditions, allow the needed time for root establishment. Deferral following brush spraying should be practiced to allow the rangeland to regain its potential production. You can usually determine nat-

ural seeding potential by observing adjacent fields that have been sprayed and determining the percent and species of plants present after one or two years deferralment.

Also, in areas of sparse brush large clumps of bluestems or other native species may be seen. This would indicate that a natural seed source would be present and spraying the brush would release the grass and in one or two growing seasons the grass would be thick and well established.

Deferment may also be practiced through a rotation system. Rotation may be arranged so that each pasture will be deferred completely one out of every three or four years. This will help insure more production from your cattle and a more stable grass cover.

Your Donley County S.C.D. advocates the use of deferred grazing as a part of your overall cattle operation. Your local S.C.S. office may be helpful in any information concerning deferralment and its application.

"Our industrial plants may flourish, our universities may thrive, our commerce may crowd the markets of the globe; but all this will be sterile and finally lost unless love of country transforms material success into spiritual greatness." —Dwight D. Eisenhower

Who Should Go To Junior College?

By JANE GRIFFIN & THOMAS B. MORGAN
Educational Counselor
for LOOK Magazine

As our college-age population explodes, the junior college becomes more and more the best hope for higher education of many high-school graduates in the 1960's.

The two-year-college movement is growing faster than any other branch of U. S. education. Right now, 677 two-year colleges — both private, independent institutions like Christian College and the so-called "community colleges" — are educating more than 750,000 young men and women and adults in the liberal arts and technology. More than \$650 million in public and private funds has been invested in them, and their number is likely to continue growing.

Dr. James B. Conant has called for a "very considerable number of two-year community colleges so that advanced education may be widely available throughout the nation." All this should encourage parents and high-school students to consider the junior college as an alternative to the senior-college admissions rat race, and inspire young people who might not otherwise go to college to look into the junior college in or near their local community. (If there isn't one, they might well ask their elders why.)

Still, the notion that junior-college education is second-best, if not second-rate, persists in many parts of the country. The following questions and answers clarify some misconceptions:

WHAT IS A JUNIOR COLLEGE? It is an institution of higher learning, usually covering two years, whose tuition can be as high (Christian College is \$1,900) or as low (many communi-

ty colleges are free) as tuition at a four-year college. Faculty, facilities and student bodies can, and often do, compare favorably with many senior colleges at the freshman-sophomore level. The size of junior colleges is in general often thought to be "small" but some of them are incredibly big — Long Beach City (junior) college in California has about 40,000 students. Thus, junior colleges can only be defined in terms of the services offered to students. And these services are what parents and student should consider in deciding whether or not a junior college meets their needs.

WHAT SERVICES DO JUNIOR COLLEGES PROVIDE? First, junior colleges provide general education for high-school graduates who want two additional years and no more.

Second, junior colleges provide the equivalent of freshman and sophomore liberal-arts education for high-school graduates who intend to transfer into the third year of senior college and work for bachelor's degrees.

WHAT ARE THE ADVANTAGES FOR THE U. S. SYSTEM OF HIGHER EDUCATION? In educating transfer students, the junior colleges assume some of the burdens of the four-year-colleges. They help to relieve pressures that afflict university faculties by sending on students with a strong foundation for doing good work in their third and fourth years, while weeding out those who would drop out by the third year anyway.

Many two-year graduates develop leadership qualities and a sense of responsibility that make them more valuable citizens of the senior college campus. Many, during their junior-college life, go through the agonizing appraisal of their lifetime goals and are ready, when they arrive at the four-year institution, to move ahead more decisively.

HOW "GOOD" ARE THE JUN-

IOR COLLEGES? In many two-year institutions, the student has a real advantage over his peers in some of the smaller colleges and state universities. Small four-year colleges often have less funds than junior colleges to maintain adequate faculties for freshmen and sophomores. (Of course, there is a shortage of well-trained teachers everywhere.) State universities, on the other hand, often use inexperienced instructors to teach the lower classes. Many junior colleges, however, hire only teachers with master's degrees, which results in their students having better teachers sooner than their counterparts in four-year schools.

WHO SHOULD GO TO JUNIOR COLLEGE? Anyone whose needs can be fulfilled by at least two years of education beyond high school. The junior college is a place where young people can make intelligent decisions about the future. More and more students are seeking its advantages. Perhaps it is an omen that last year Christian College had 1,500 applicants for its Freshman class of 250. Community colleges are crowded too. Unless Dr. Conant's plea for more two-year colleges is answered, the question may soon be not who should go, but, once again, how to get in.

ATTEND FAMILY REUNION SUNDAY
Mr. and Mrs. William Payne and Mr. and Mrs. Lynn Payne went to the Elmer Summerhour ranch east of Dalhart Sunday where they attended a Summer-hour family reunion. There were about fifty present. Some came from as far away as Atlanta, Ga.

Mr. and Mrs. Jim McKee and boys of Dallas visited the week end with his parents, Mr. and Mrs. George McKee. The boys remained here while their parents are making a trip to Colorado.

LOCAL PEOPLE ATTEND WORLD FAIR

Mr. and Mrs. Otis Naylor were joined by his son, Robert of Denver, and a nephew, Ben Naylor of Panhandle for a trip to the World Fair in Seattle. Robert, who teaches in the Borger school system has been employed in summer work at Denver.

Stops were made at Denver, Colo., Salt Lake City, Utah, Boise, Idaho, and the scenic drive down the Columbia River was most enjoyable. After visiting the fair at Seattle the trip was made to Vancouver, and then by ferry the group traveled to Victoria taking a boat back through the islands to Anacortes.

The return trip home was made eastward through Helena, Montana, and stops were made at Grand Coulee Dam, Frontier Town, the Yellowstone earthquake area, and Yellowstone National Park. All reported a delightful trip and a most enjoyable two weeks.

Attendance at the fair was at its peak with a record 80,000 the day the Naylor's attended. A 78,000 gate was recorded the previous day.

McGEEHEE REUNION HELD AT ELWOOD PARK

The McGeehee family reunion was held at Elwood Park in Amarillo Sunday last with 75 present. People came from as far away as Denver, Colo. Mr. and Mrs. William Payne and Mr. and Mrs. Lynn Payne attended.

Senior Master Sgt. Wilson D. Jones visited friends here Monday. He retired from the Air Corps June 30th with 22 years service and is making his permanent home at Amarillo.

Dr. Howard Weatherly of Hollywood, Calif., is visiting his mother and husband, Mr. and Mrs. Will Pickering. Dr. Weatherly is a psychiatrist.

New Hunting Law Passed By Legislature

Representative Hearty stated that in view of the fact the hunting season is fast approaching, he wanted to advise the hunters of the new law that he caused to be enacted and passed during the last session of the Legislature.

It has to do with people who are unable to walk great distances and permits them to hunt from motor driven vehicles, so long as it is not from a public road. The law in part states as follows: H. B. No. 733

"Article 901. Any person so incapacitated as to render self-locomotion in pursuit of game hazardous to his health may, with a written authentication by a licensed physician of such an incapacity, hunt from an automobile, provided no attempt will be made by one so incapacitated to hunt upon any part of the road system of this State."

Hearty stated that this new law will enable many people who are fine sportsmen to again go back to their love of hunting. Hearty stated that his entire family are hunters and fishermen, and he carries on quiet a bird refuge himself. He has many feeders on his grass land and feeds birds some two tons of maize during the winter months.

He further stated that he hoped that all persons in his district that desire to hunt on the Game Preserve will be able to get a permit from Mr. Howard Dodger, Fish and Game Department Austin, Texas.

The game preserve in Cottle County is one of the finest quail and wild turkey hunting territories in the world.

GOOD LUCK TO ALL HUNTERS.

Mr. and Mrs. Leland Pierce of Hedley visited Sunday with their daughter and family, Mr. and Mrs. Truett Behrens.

in the wheat produced on a farm with an allotment of 15 acres or more.

We urge every eligible voter to vote in this important referendum.

COUNTY AND COMMUNITY COMMITTEE ELECTION

A slate of nominees will be established by a nominating committee consisting of the present community committee, containing not less than ten nominees.

Petitions signed by ten or more eligible voters nominating persons for membership on the community committee will be received at the county office anytime prior to August 24th. The names of persons nominated by proper petition will be included in the slate of nominees if found willing to serve and are eligible.

Ballots will be mailed to all eligible voters as in the past and we hope that everyone will vote.

WHEAT STABILIZATION AND FEED GRAIN PAYMENTS

We are in the process of preparing applications for payment for wheat stabilization and feed grain and will begin making payments soon.

.... With a Few Answers about
CABLE TV
 As Brought to You by
CABLE TV of CLARENDON

Q. What is CABLE TV?

A. CABLE TV is simply a giant TV Antenna system shared by many people which provides the best possible picture quality with the largest selection of channels and programs.

Q. How will CABLE TV benefit me?

A. Cable TV as provided by Cable TV of Clarendon will greatly increase the value of your television entertainment. It will bring you and your family as wide a selection of shows as ANYONE enjoys -- ANYWHERE in the country.

Q. Will I need a costly antenna or converter with the cable?

A. No! With Cable TV you can get rid of those ugly, expensive, and unsafe rooftop antennas. Converters and other assorted equipment will no longer be necessary. Cable TV will bring you the finest in television pictures and sound without any additional equipment.

Q. How much will the cable cost me?

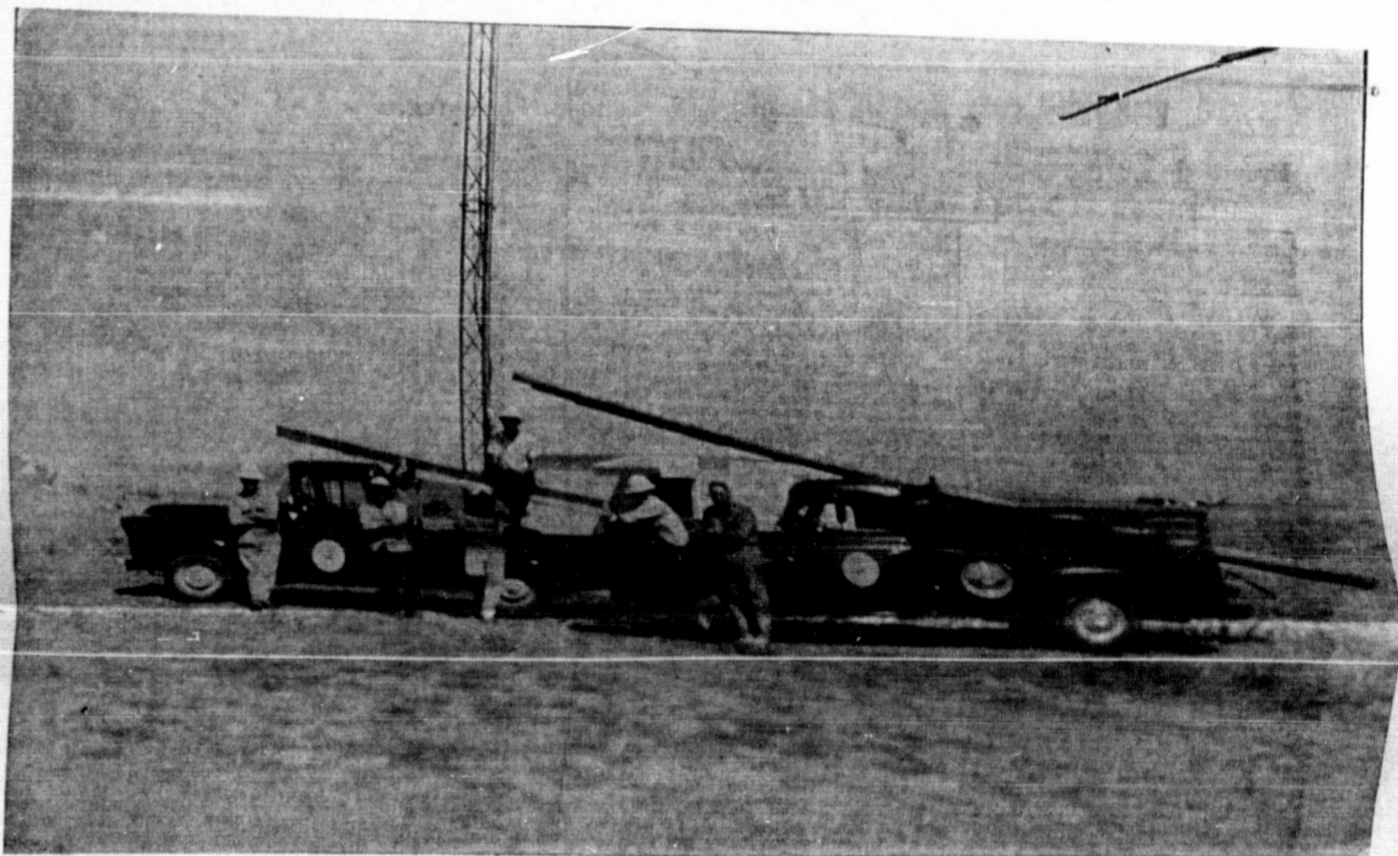

A. A maximum installation charge of \$100 and monthly payment of \$4.95; or an installation charge of \$50 and monthly payment of \$5.95; or a minimum installation charge of \$10 and monthly payment of \$6.95 will be the only costs for cabled television. This works out to be less than the cost of maintaining an antenna, buying an expensive set and the cost of other equipment necessary to bring you television that is not as good.

Q. Will the picture be good with Cable TV?

A. Yes! You will receive crystal clear, steady pictures without ghosts, flicker, snow or interference. The finest picture available anywhere.

Q. How many channels will the Cable bring me?

A. At present the Cable will bring you three channels - all three networks - from their Amarillo affiliates. You will receive the same shows as the people in New York, Chicago or Los Angeles. The Cable has the capacity to handle 7 channels, which will be brought to you in the near future.

Shown here are the two work crews at the giant TV antenna located at the west edge of Clarendon. These men have been working long hours for several weeks in order to bring you the best in television reception at the earliest date. Outside of special factory trained technicians, local labor has been used in this installation as we believe in promoting Clarendon to the fullest extent -- and it will be our policy in the future to help Clarendon grow and progress.

parade down Congress Avenue, then dismissed for their homes and civilian jobs. Governor Daniel told a crowd of about 500 spectators: "When the President moved to augment the active army in the face of the Berlin crisis last year, the Texas National Guard was ready for this obligation, just as it always has faced up to its responsibilities since the first conflicts by Texas civilian-soldiers at Anahuac and Gonzales in 1835."

All have reported back to their civilian boss, Col. Homer Garrison Jr., DPS director. But the department still is 100 men short. MORE MONEY FOR WELL STUDY — Governor Daniel has

okayed the release of \$105,000 from Texas Railroad Commission funds to finance additional equipment, personnel and other expenses connected with the investigation of slant-well drilling and oil producing operations and pollution of public waters. He also authorized Atty. Gen. Will Wilson to adjust his present appropriations to cover slant-well and anti-trust investigation expenses. Meanwhile, the Railroad Commission called a temporary halt to oil well testing in East Texas and Hawkins fields, in order to rearrange personnel. TWO TERM LIMIT? — Another effort may be made to limit the term of office of the governor. Similar resolution was unsuccessfully sponsored in the 57th Legislature. New proposal would set the governor's term at four years. It provides that he could not succeed himself in office. Many legislators feel that such a system actually stretches a political life rather than limiting it. PRESSURE POSSIBLE HAZ-

ARD — When Brad Smith, the governor's traffic safety assistant, learned that a fatal automobile crash occurred every hour and a car wreck every hour, for three consecutive days, he decided it might be due to the weather. Study revealed that the barometric pressure had dropped to a low point the day previous and stayed low through the three day period. Smith, a former newsman, said that reporters always look for unusual happenings when the barometer falls and remains low for a few days. "I am now convinced that oppressive weather has a decided effect on some personalities," he said. Scientists call the effect of weather on people "bio-climatology."

DIVORCE STUDY STARTS — House Interim Committee on Divorce held its first meeting. Committee, headed by Rep. Renal Rosson of Snyder, was created by the 57th Legislature to study divorce laws, with special attention to: Rights of children; methods of promoting and protecting family life; and possible ways to encourage reconciliations. Texas now has the fifth highest divorce rate in the nation. More than 28,000 divorces were granted here in 1961. Members of the study group include Rep. David Crews of Conroe, Paul B. Haring of Goliad, Henry Fletcher of Luling and Charles Whitfield of Houston. MENTAL HOSPITALS CROWDED — State mental hospitals are crowded with elderly persons physically but not mentally ill. Dr. C. J. Rullman so reported to the House Committee on Saving Taxes. Dr. Rullman, director of mental health for the State Hospital Board, said about 25 percent of the 16,000 patients in state hospitals are more than 65 years old. "Our problem (in cutting state hospital costs) rests with patients who are physically sick," he said. "Of 3,500 elderly patients in state hospitals, only about 1,400 have serious psychiatric disorders."

HELP FOR RURAL HOSPITALS — Although federal funds have financed construction of more than one-third the hospital and medical facilities in the state, under the Hill-Burton Act, most of the aid has been given to big-city institutions. Officials of the State Health Department, who make recommendations for the aid, feel that smaller communities have been penalized under the former measuring standards. When new building allotments are authorized for Hill-Burton assistance in (See HIGHLIGHTS on Page 11.)
