DONLEY COUNTY MAY GET ANOTHER OIL TEST SOON

BROKERS LEASING THOUSANDS OF ACRES PAYING UP TO \$2

With the advent of outside parties, old Donley woke up Monday to a rejuvenation of wildcatting possibilities after waiting ten years since the Marne test was shut down near the highway on Salt Fork just 10 years ago.

During the winter, the Stanlind oil company had a seismograph crew here making tests. Some leasing was done at the time by local parties for outside interests. In fact the leasing impetus began to take form over a year ago to some extent southeast of town. The Hedley wildcat was not completed to a satisfactory depth to make a test, and quit with the bit in a good showing, for what is said to have been a lack of funds.

Now the Phillips petroleum company has a seismograph crew here making tests similar to that of the Stanlind company.

Arriving at practically the same time is R. C. Kay and others, alleged lease brokers, who are paying from fifty cents to two dollars an acre for leases for oil exploration. Possibly more has been paid in some instances. There appears to be quite a demand for lease territory right now.

While the leases are said to run for as much as ten years with annual payments of fifty cents to two dollars an acre, there are rumors, supposed to be from a reliable source, that a test will be put down soon, jointly by a number of companies in an effort to find out what is at the bottom of a real deep test. No deep tests have ever been made in this section. The Marne test quit at 4,066 feet. That at Hedley is said to have been slightly deeper than four thousand feet.

As one party stated today who has made and lost in the oil game, "it is not worth while for any one to get excited until a hole is punched and tested production proven possible." All of which may be good advice.

All politics must be removed from the Railroad Commission to insure efficient administration of the utility and common carrier trucking regulations as the basic step for the proper conservation of this states vast natural resources Senator Olan R. Van Zandt, candidate for Railroad Commission, charged in opening his campaign. The Senator's statement reads in part as follows: "Should the great powers vested in the commissioners be diverted from commercial channels into political channels, then the danger must be fully realized by the people. By all means, in so far as possible, the commission should be eliminated from politics. As a business institution, its beneficial work must be keenly felt by every material interest in the state. As a political machine, every revolution of it would menace the happiness of the people."

The hearings of the Railroad Commission should be openly had. Its decisions openly arrived at and publicly pronounced. The rule of equal handed justice and fair play to all, irrespective of political power should be its motto. If elected to this important office I shall strive to maintain this motto. The Railroad Commission is largely a judicial body and should be removed from politics and to this end I shall not seek any other office during my incumbency."

SERVICE STATION CHANGES OWNERSHIP TUESDAY

Some two years ago, Dick Bain sold out to the partnership. Then a few months ago the partnership was dissolved by mutual assent and Mr. Brumley remodeled the front of the building and went after the business for all it was worth. Panhandle products jumped in demand. The business grew right along.

The first of the week, Chas. M. Ballew, operator of the 66 Station on West Second street, concluded he wanted a business on the highway. He made a deal for the building and stock. Mr. Brumley will continue the wholesale distribution for Panhandle products with headquarters in Lon Rundles' machinery agency headquarters on the main street, two doors south of the Antro hotel.

TEMPLE OF TRUTH

By the Apostle

THE ENEMY WITHIN.

The fact that our youth is taking up with organizations of high-sounding names is no accident. We read of the extensive growth of such bodies as American Youth Congress, American Student Union, Young Pioneers. Then one of them makes no bones about the matter, the literature being sent out is from headquarters of the Communist League. This is no accident. There is a well defined plan beneath the surface of it all.

Prof. Harold Rugg of Columbia University's Teachers College is an author specializing in "Social Science." The communist movement in America is putting at least one of his texts in each American school. The last shipment going into public libraries and schools totaled 4,200 books. That's one of many.

Does our public library or the school libraries contain books written by Harold Rugg? Maybe you don't think so. Take a look. The School Board and local patriotic organizations like the Legion and Auxiliary should have an inspection made. Some of the Rugg texts may be included in the regular course of the study in our public schools. Local teachers have no choice in selecting text books. That is done by a board down state.

This fact is being mentioned here because schools over the nation are being flooded with Communistic literature and books at this time more than ever.

PLOVER APPARENTLY INCREASING

Plover, a bird which has been protected by law for many years, may be making a comeback. Reports to the Game Department from wardens in Southeast Texas, especially Chambers County, indicate more plovers have been sighted this spring than in several years. Hunters are warned it is illegal to shoot plover at any time. The birds are protected by both state and federal laws.

GRIBBLE ANNOUNCES FOR STATE LEGISLATURE

The FIRST duty of the next Legislature is to provide enough money to meet our old age pension and other social security obligations. The constitutional amendments voted by the people of this State placed this responsibility squarely upon the shoulders of the Legislature. I will favor and support any reasonable tax measure that will raise enough money to pay the full amounts provided for by these constitutional amendments.

I favor such legislation as will invite and encourage the establishment and development of industries in Texas to the end that our farm and ranch products may be processed within the borders of Texas, and thereby save transportation costs and provide more jobs for Texas citizens.

The truck load limit of 7000 pounds net is too low to meet the transportation needs and demands of our territory. I favor raising this limit to meet our needs.

I will support a strict budget law for the State government. The \$22,000,000 overdraft in the State's General Revenue Fund is the result of overspending in the general operation of our State government. This is a responsibility of the Legislature and can be remedied only when the Legislature compels a balance to be maintained between income and necessary expenses.

Home ownership is the very cornerstone of a stable democracy. I favor full cooperation between the State and Federal governments in aiding tenant occupants to become home owners.

GARDEN GLANCES

"America beautiful lies in the hands of the gardeners."

Nature tipped over her watering pot and generously aided the gardeners this week. The transplanting of annuals is very much in vogue at present. However, the self-seeding annuals, as cornflowers, red verbenas, phlox and larkspur are either in bud, or blooming in several yards. The perennials, as columbine, pinks, Sweet William, and others are blooming too.

The most noticeable shrub in blossom is the snowball. You will exclaim over those at the Tom Goldston, Ben Andis, Walter Taylor, Henry Williams, and J. D. Swift homes. Probably you have never stopped to consider the fact that Clarendon has had blooming shrubs ever since the first two weeks in January. So you see with persistent petting, pampering, treating, and doctoring the floral inhabitants of our lawns are showing results, practically, throughout the year.

When the garden tourists view the incomparable loveliness of the trees throughout the town this week, they will pause in profound awe, and say as Joyce Kilmer, "But only God can make a tree."

Every citizen should be justly appreciative of the unrivaled beauty of the Courthouse lawn. The rain did for this spot what hours of watering

could not produce, so you can reverently say, "The firmament showeth His handiwork."

MIDWAY

Mrs. John Goldston

The high line people are setting the poles for the rural high line. Looks like our rural electrification will soon be a fact.

This the first day of May, and the fishing season opens. Our fisherman John has a far off look in his eyes, and we imagine fishing is in his mind. However, you can never tell—it may be the flowers. The night before the last freeze John took his fishing-camping quilts and wrapped the lillie bushes up to protect the blooms. They were lovely, and when he goes fishing, he always brings home some shrub, cactus, and rocks, even if no fish.

Mr. and Mrs. W. K. Davis and Mr. and Mrs. Arthur Davis visited Mr. and Mrs. Ernest Davis near Silverton Monday. Little Jo Ann returned home with them after a visit with her aunt.

Mrs. Kay and Betty Walker of Amarillo brought Kennedy Davis down Sunday eve for a short visit. Betty Walker is working for Mr. Kay the man who is taking up the oil leases here.

Our community looks more pros-

perous than ever with the new oil company putting down test wells.

Mr. and Mrs. Edwin Eanes, Mr. and Mrs. John Naylor and Mr. and Mrs. Floyd Naylor picnicked at Pilefield Camp on Sunday.

W. D. Higgins has a sister and family, a brother and family visiting him from Tennessee. They arrived Monday.

Mrs. Leslie Pickering visited the Seniors at school Monday.

Mrs. Everett Stevenson visited with Mrs. Dishman Monday.

Mr. and Mrs. Leslie Pickering shopped in Amarillo Saturday.

Mr. and Mrs. Gene Chamberlain and Mr. Chamberlain went to Amarillo Sunday to see Ben Chamberlain who is in the N. W. hospital. Mrs. Chamberlain returned home with them.

Mr. and Mrs. John Potter was called to Amarillo Tuesday. Mrs. Potter's sister had had a light stroke. They are still with her.

Mr. and Mrs. Potter visited with Mrs. McGowan and Mrs. Rowland in Clarendon Sunday.

Mr. and Mrs. Farris Seaton visited his parents Sunday.

Mrs. Milt Mosley visited her daughter Mrs. Bill Bromley the past week.

The John Goldstons enjoyed all their children and the three grandchildren in their home Sunday.

Mrs. Chamberlain returned to Amarillo Wednesday to be with her son Ben.

This work has been very satisfactory among the farmers, and they have proved to themselves by actually carrying out such practices as, farming on the contour and terracing, that moisture and soil can both be conserved, and that according to reports from farmers, that have been carrying out these practices, yields have been increased to almost a third of that in previous years before this type of work was practiced on the farm.

Mayo's Uncle Dies At McLean

BAPTIST MINISTER OVER THIRTY-SEVEN YEARS

Funeral services were conducted in McLean Friday afternoon for Rev. J. P. Gay, 86, resident there since 1928. Rev. Troy Sumrall was assisted in the service by Revs. Bond and Hunt.

The deceased was an uncle of J. T. Mayo of Clarendon. Before moving to McLean in 1928, Rev. Gay had been a resident of Clay county for fifty years, much of that time serving as postmaster at Prospect. He began his ministerial work for the Baptist church in 1890 and continued until ill health prevented his filling a regular pastorate, though his intense interest in his Master's cause never wavered.

Attending the last rites from here were Mr. and Mrs. J. T. Mayo and son Alvin and Mr. and Mrs. Bob Watkins and daughter Marie of Ashtola.

Grandmother Rogers, a very noted woman of near McLean, is visiting friends in Clarendon this week.
