PROBLEMS & OPPORTUNITY

The international air routes are busy in this, the jet age. Last year international air transport became a major industry when 25 million passengers paid \$3 billion in hard currencies to the lines.

But a big gross income does not necessarily mean a good profit - as the 1961 experience of Pan American World Airways, the line which carries more passengers, mail and cargo than any other international airline, abundantly demonstrates.

Pan Am's operating revenues hit the huge sum, of \$460,400,000. But after all the bills were paid. it had a net income of only \$8,-900,000 - which amounts to a practically invisible percentage of its gross. Its rate of return was way below that which the Civil Aeronautics Board holds Otis Koontz, Mrs. Eddie Reyn- Sunday in Tulia with the Frank reasonable for international ser-

Proposed CONSTITUTIONAL AMENDMENT NUMBER NINE ON THE BALLOT

PROPOSED CONSTITUTIONAL AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

AMENDMENT TO BE VOTED ON AT AN ELECTION TO BE HELD ON NOVEMBER 6, 1962.

HOUSE JOINT RESOLUTION NO. 70 proposing an Amendment to Article IX of the Constitution of the State of Texas by adding thereto a new Section authorizing the creation of two (2) hospital districts in Brazoria County, one to include all or part of the West Columbia, Brazoria and Damon Independent School Districts, and the other coterminous with the Sweeny Independent School District, providing for a possible consolidation of the two, providing a mode of funding and also authorizing construction, equipping, maintaining, and financing of a home for the aged in Titus County.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article IX of the Constitution of the State of Texas is amended by adding thereto a new Section to read as follows:

"Section 10(a). The Legislature may authorize the creation of two (2) hospital districts in Brazoria County, one of which shall include all or part of the West Columbia. Brazoria, and Damon Independent School Districts and the other coterminous with the Sweeny Independent School Districts and the other coterminous with the Sweeny Independent School District at any time subsequent to the organization of the Sweeny Hospital District into the Damon, West Columbia, and Brazoria Hospital District at any time subsequent to the organization of the separate hospital districts.

"Such districts, if created, may be authorized to levy a tax not to exceed twenty-five cents (25c) on the one hundred dollar valuation of taxable property within the districts, provided no tax may be levied until approved by a majority vote of the participating resident, qualified, property taxpaying voters who may have duly rendered their property for taxation. The maximum rate of tax may be changed at subsequent elections, provided existing obligations are not impaired, but in no event shall any change of rate exceed twenty-five cents (25c) per one hundred dollar valuation.

"The maximum tax rate submitted shalles to the f

valuation.

"The maximum tax rate submitted shall be sufficient to discharge such obligations, liabilities, and responsibilities, and to acquire, construct. maintain and operate the hospital system, and the Legislature may authorize the district to issue tax bonds for the purpose of the acquisition, construction, purchase, repair or renovation of improvements and initially equipping the same and such bonds shall be payable from said twenty-five cent tax.

"(b) In addition to all other advalorem taxes authorized under this Constitution and the laws of the State of Texas, Titus County is hereby [assert the county, one of which is to insuch a state of the West Columbia, Brazoria and Damon Columbia, Brazoria and Damon the other coterminous with the other coterminous with

authorized and empowered to levy, assess and collect a tax not exceeding twenty-five cents (25c) on the one hundred dollar valuation of taxable property in said County in any one year for the purpose of paying the principal and interest on any bonds issued by said County for the purpose of constructing and equipping a home or homes for the aged persons in said County and to pay the maintenance and operation expenses thereof, provided said bonds and tax shall have been authorized at an election or elections held for that purpose by a majority of the qualified electors of Titus County, who own taxable property in said County and who have duly rendered the same for taxation, voting at said election. This provision shall be self-enacting and no enabling legislation hereunder shall be required. Any bond issued hereunder shall be issued in accordance with the General Laws except as herein otherwise provided."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified voters of this State at the General Election to be held the first Tuesday after the first Morday in November, 1962; at which election all ballots shall have printed thereon:

"FOR the Constitutional Amendment authorizing the construction, equipping, maintenance and financing of a home for the aged in Titus County and for permitting the Legislature to authorize the creation of two (2) hospital districts in Brazoria County, one of which is to include all or part of the West Columbia, Brazoria and Damon Independent School Districts, also providing for a possible consolidation of the two by qualified voters of such districts, and providing for all necessary construction, equipping, maintenance and financing if authorized."

"AGAINST the Constitutional Amendment authorizing the construction, equipping, maintenance and financing of a home for the aged in Titus County and for permitting the Legislature to authorize the creation of two (2) hospital districts in Brazoria County, one of which is to include all or part of the West

Dr. Salk Coins A Word: Bionauts

"Super stars" of science will make up the research team of the Salk Institute

for Biological Studies. Dr. Jonas Salk, who will direct the Institute at San Diego, Calif., quite often draws analogies between sports and science.

He once said, modestly referring to his historic role in developing the polio vaccine, that "I just happened to be in the right place to catch a long forward pass."

Today he might select another sport and say that the Institute faculty members are the Mickey Mantles of science—they can hit home runs from either side of the plate, Dr. Salk

in higher mathematics and physics, or history and literature.

This unique combination of professional skills, versatility, imagination and intellectual curiosity has been described by many as the magic formula needed today to achieve the conquest of disease—from the common cold to cancer. They believe firmly that an assault on disease of the kind and magnitude planned by Dr. Salk and his colleagues could pave the way to revolutionary breakthroughs.

faculty.

The conditions under which the Salk Institute Resident Fellow, is only 38.

A-Bomb Architect

Dr. Leo Szilard, long-time professor of biophysics at the University of Chicago and celebrated worldwide as one of the "architects of the atomic bomb," a Nonresident Fellow, is 63. But Dr. Edwin Lennox, an American microbiologist now also on leave at the Pasteur Institute of Paris, and a Salk Institute Resident Fellow, is only 38.

A-Bomb Architect

Dr. Leo Szilard, long-time professor of biophysics at the University of Chicago and celebrated worldwide as one of the "architects of the atomic bomb," a Nonresident Fellow, is 63. But Dr. Edwin Lennox, an American microbiologist now also on leave at the Pasteur Institute of Paris, and a Salk Institute Resident Fellow, is 63.

But Dr. Edwin Lennox, an American microbiologist now also on leave at the Pasteur Institute of Paris, and a Salk Institute "bionauts" will pursue their studies are probably unique. The physical institute Resident Fellow, is 63. But Dr. Edwin Lennox, an American microbiologist now also on leave at the Pasteur Institute of Paris, and a Salk Institute of Paris

who pay their way through the ing on how to reach the goal turnstiles, construction of the he is seeking—faster. Salk Institute will depend on contributions from the general

\$15 Million Goal

This summer all across the

points out that in recruiting his Institute Fellows he searched for and found versatile scientists "who have all been trained in a field other than that in which they are working today."

Varied Abilities

They possess more than one skill or field of knowledge. They are not limited to biology. Some of the 10 Fellows already appointed are equally at home in higher mathematics and physics, or history and literature.

Dr. Salk has lected thus far are entering the stage of their most productive period. Their average age is stage of their most productive period. Their average age is asks, "why can't we think of bionauts" — scientists who are capable of doing in biology what has now been done in the fields of space and of atomic physics?" He envisages the Salk Institute as a sort of launching pad for the gifted "bionauts" of the scientific world who will comprise his faculty.

The conditions under which the Salk Institute of Paris, and a Salk Institute

Dr. Salk

Just as the Mickey Mantles depend on the baseball fans who pay their way through the ling on how to reach the turnstiles constructed and a Resident Fellow, is only and uninhibited original thinkdon, a Resident Fellow who is well known in the United States for his books and lec-tures, is 54. His versatility is In most great universities and philosophy and history.

other research centers scientists are obliged to invest a great deal of their time in interests of the Fellows hap-This summer all across the nation a campaign is in full swing to raise \$15,000,000 to build and equip the Institute. The drive is sponsored by The National Foundation through the March of Dimes. It is a renewal of the partnership between all Americans and Dr. Salk—the man who did so much for them in developing the polio vaccine, and will do so much more as director of the Institute.

As another way of describing the scientists who will work at signer than the scientists who will work at signer to find their time in teaching and in administrative in the polio of the Fellows happily overlap. At a recent meetting of several of these scientists in New York City, they chatted with vivacity of organizing competing string quartets at the Salk Institute next year, of sailing and swimming in the Pacific, even of shooting a round of golf now and then. These "super stars" of science who may be expected soon to revolutionize biology and thus "help man make the most of his gift of life" are human beings, too.

JET-SMOOTH CHEVROLET

Even the most persnickety luxury-lover couldn't ask for very much more than a Jet-smooth Chevrolet (like that Impala Sport Coupe at the top). Yet it's all yours for a Chevrolet price. (And you know how low that is.)

Here's the best thing that's happened to make money go further since budgets—the lively low-cost Chevy II. It's got all kinds of room. And comes in 11 models, too—like the Nova 2-Door Sedan (second from top).

Want a roomy family car and a sporty driver's car for one low price? The rear-engine Corvair Monza (e.g., that Club Coupe, third from top) plays both roles to the hilt. Care to join the club—and get a buy, to boot?

CORVAIR MONZA
