More In Regard To Mail Service Here

Since the inception of our newly inaugurated method of mail distribution known in postal circles as Sectional Center Concept, there seems to be a great deal of misunderstanding by postal patrons.

Postal services are not being restricted or withdrawn, but quite the contrary. New services have been added and will continue to be added as they fit into the new picture. The only effect to be felt by the local patrons is the advancement of the afternoon mailing time. Out mail now departs at 5:20 P.M. which makes it necessary for us to begin preparing the mail for dispatch at 4:30 P.M. On Saturdays, Sundays and Holidays, the scheduled departure time is 4:45 P.M. After 12:00 Noon on Saturday, all OUT OF TOWN mail should be deposited in the street letter collection box. After 8:00 A.M. on Sundays and Holidays, all OUT OF TOWN mail should likewise be deposited in the street collection box. The lobby OUT OF TOWN collection box will be plugged during these hours. Please do not put OUT OF TOWN mail in any city collection box because that will delay it.

Our incoming mail will continue to arrive at 5:42 A.M. by rail. If the train is on time, all first class mail should be in the boxes by 8:00 A.M.

The most important thing to remember, especially at this time of year when mail gets extremely heavy, is mail as early in the day as possible.

THANKSGIVING AT CHS

Some of the places that some of the Clarendon High School students will be visiting are: Canyon, Amarillo, Bovina, Childress, Temple and McLean.

What most of the students like about a vacation is: To do as little as possible, try to get a job, working, staying at home, have a birthday party. Mrs. Grady said that she will be cleaning house, ironing and she is going to eat quite a bit.

Speaking of eating, students said they were going to: Eat, food, food, and more food, be eating turkey for quite a few days, eat, drink and be merry.

From all of us at Clarendon High School, we wish you a safe and enjoyable journey to where ever you will be going for Thanksgiving.

DRIVE CAREFUL!!!!

Sorry there is not much news in this week's column. But due to six weeks exams all the Broncho Staff has been quite busy.

LIBRARY NOTES

EDITH BARNES

Doctor Walter Barbe, professor of special education at Kent University, writes that children should be allowed to select their own books. He is writing about school books but the same is true of their "reading for fun" library books. Children will read and enjoy more the books they pick out for themselves.

Quoting: "Children who are taught to read material they select themselves develop skills at least equal to those of children who learn from a basic reader."

"But the former children love to read while the others are bored with the process. It's children who want to read who learn how."

In the library the children are very polite about refusing help with their selections. They want to be pointed toward the section most suited to their age or grade level, if it is their first trip to

the library, and then they want to be left alone. We grown ups should encourage this spirit of independence, rather than try to stifle it.

A good for instance is the Dr. Seuss books. Many parents and teachers think they are really for the birds yet the children love every one he has ever written. He just doesn't write enough. He is a perfectionist and only publishes one book every year or two. It has to be exactly right or he rewrites until it is. So who has ever proved that we older ones always but always know what is best or right.

Elizabeth Kyle has written a fictionalized biography of Charlotte Bronte for teen agers but one that will be enjoyed by older readers also.

Quoting: "Girl With A Pen Charlotte Bronte" One of the most romantic writers ever to inspire the imagination of young readers is the heroine of this fascinating novel. Focusing on the period between Charlotte Bronte's seventeenth and thirty-first years, it tells the moving story of the pale, shy girl who surmounted almost impossible obstacles to offer a large and lasting contribution to the literary world."

"How this young woman from a Yorkshire parsonage eventually came to astound a London Publisher with the news that she was the author of 'Jane Eyre' is skillfully related by Miss Klye. Among the many characters she portrays are the members of the Bronte family."

The Leader makes a good Christmas Gift.

Sixteen Texas counties are participating in a special pilot nutrition education program for young homemakers, according to Foods and Nutrition Specialists at Texas A&M University. The pilot project is part of a nationwide nutrition program aimed at reaching more young families with pre-school children, they explain.

News from CJC

HERE AND THERE

By Bill Trooper

The Clarendon Junior College Bulldogs travel to Lawton, Oklahoma on December 1 to take on the nationally ranked Cameron Junior College Aggies in the season opener. The Bulldogs face the West Texas State Freshmen on December 7 in their home opener. The 1964-65 Bulldog team boasts excellent potential and excels last year's team in both height and speed. Experience for the starting five will be furnished by sophomores forwards Bill Spier (6'4") of Clarendon and Bill Trooper (6'4") of Higgins. 6'8" Don Campbell from Amarillo Carver is expected to give the Bulldogs strength at the center position which was lacking in recent Bulldog teams. Expected to start at the hotly contested guard positions are two boys from McAdoo's

two-time Class B state championship team, Johnny Powers (6'1") and Ceaman Scott (5'10"). Both are excellent shooters and terrific ball handlers.

Reserve strength is far more than adequate. Three players who will be in the running for starting berths and most certainly will see action are Gary Varnell (6'2") of Wichita Falls; Jerry Johnson (5'10") from McAdoo, and Walter Robinson (6'4") from Lamesa. Coach Billy White has every reason to be optimistic concerning the prospects for his team this season.

Don't neglect to purchase your season tickets for home games. The Bulldogs need and deserve your support. Remember, season ticket sales end December 6.

THIS AND THAT

Definitions
by Funk Campbell
I have been wandering around the college campus for the last couple of weeks with open ears. It's very amusing to discover just what some students think about certain words.

Bill Spier, when asked to define the word "yawn", replied: "That's the only time a married man ever gets to open his mouth." Karen Clements' definition of the word "Courtship" was a period during which a girl decides whether or not she can do better.

Jane Denny thinks a girdle is the difference between fact and figure.

Steve Richerson, our college weight lifter, defines "bar belle" as something to be picked up.

Mr. Tucker defines "middle age" as the time in life when a man stops wondering if he can escape temptations and begins to wonder if he's missing any.

Larry Neece thinks "love" is a lot of dame foolishness.

T'Rose Stepp says a phony is a guy who tries to cut his throat with an electric razor.

CAMPUS CHATTER

Steve Richerson

Overheard in the hall the other day: Trooper—"I surely would like to have a suit the color of your eyes, but I don't know where I can find one with red streaks in it." Well, there have been a lot of red eyes around the campus this last week. When asked about the malady, most students mumble something like this—"studied late." But I have a feeling some tear ducts may have been working overtime. You see, grades were mailed last week.

Whoever took the bolt out of Mr. Ellerbrook's chair, please bring it back. It seems that the occupant finds himself in a reclining position when he leans back.

Notice to English Two students. Walk softly when entering English class; you might awaken Spier.

WHEN AND WHERE

Dogetta Plan Dance
Funk Campbell

The CJC Dogetta's met Tuesday for the purpose of planning a Christmas Dance. After some discussion, it was decided to make the dance a formal affair. Committees have been appointed to hire a band, and the date has been set for the 15th of December. The public is invited and we hope everyone will make plans to attend.

QUESTION:
Are you in style? Do you have in your possession a CJC sweat-shirt? If not, they may be purchased in the College library. If you own a sweat-shirt, buy another. Moral: Two are always warmer than one.

Local FBLA Members Attend Workshop At WTSU

Maudena Self

The FBLA met last Wednesday, November 11, to choose four representatives to go to the FBLA meeting at West Texas State University. Those chosen to go were Betty Sandefer, Carol McCollum, Maudena Self, and Johnnie Lacy. Mr. Williams, the sponsor, was to accompany the group.

Early Friday morning we set out for Canyon. We spent some

time looking at the different types of office business machines, and were allowed to type on some of the IBM machines. At 10:00 the meeting began in the Branding Iron Theatre. The program was brought by the Silverton High School FBLA chapter and the Tascosa High School chapter. Two speakers from McLean told us about the State and National conventions. After the general assembly, we went on a tour of the Business Building.

Those of us who were privileged to attend the meeting were much impressed with the possibilities open to an active FBLA organization, and we hope to see our own group become more active.

College Choir Presents Programs

This has been a busy week for the College Choir. The choir, under the direction of Mrs. Weaver, and accompanied by Mrs. Jessie Adams, presented a very enjoyable program at assembly on Wednesday. Then on Friday, they travelled to Hedley and Quail, where they performed again to very appreciative audiences. The entire choir sang several numbers, and selections were also given by two girls' trios composed of Lynn and Beth Bourland and Maudena Self; and Maudena Self, T'Rose Stepp and Beth Bourland. T'Rose Stepp and Maudena Self, was a feature of the programs, as was the saxophone prowess of Graham Bowen, who was accompanied by Mrs. Weaver on the piano.

plenty to say along this line in the past, and it was good to read this warning by Mr. Clark who was mostly quoting from Mr. T. J. Chapman of the Texas Life Underwriters Association It is a shame that people would rob our old folks of their small income by selling them worthless insurance and hospitalization. Please, Please, Dear Elderly Folks don't buy any kind of hospitalization from a fly by night salesman—one that you don't know.... By and large these slick talking crooks are taking advantage of the insecure feeling that follows our getting old Almost all of that sold door to door by non-local salesmen is worthless Our elderly are being robbed just as much so as if they used a gun.... Talk to your local insurance man who carries your property or to some well known advisor before letting go of any money.

Young Homemakers Charm Workshop Well Received

The Clarendon Chapter of Young Homemakers was hostess for a workshop, "Charm in a Capsule," Saturday, November 21st at the High School Cafeteria. Mrs. Peggy Maxcey and Mrs. Pat Reed registered approximately forty guests, both from Clarendon and out of town.

Mr. and Mrs. Bill Vance of the Vance Beauty Salon, Pampa, Texas entertained the group by allowing brunettes to become blonds or red heads for a day, then explained why European hair is usually used for more expensive wigs and features that insure your getting the most from your wig purchase.

Mrs. Billie Jean Moore, Clarendon College Student Personnel Director, stated in her discussion that "Conversation can make or mar one's future. Poor speech can ruin one's looks. Laughter is an important part of one's speech habits, but it can be either infectious or devastating. Above all learn the art of polite controversy; know when to listen and to guide conversation the way you want it to go."

A mock style show presented by the FHA girls brought chuckles as they modeled latest fashions which really were exactly the thing the narrator called the Garment, not just a new name for an old fashion.

Mary Lou Martin of the Martin School of Modeling and Charm started the group with her opening sentence, "Women have a habit of playing up their bad features and playing down their good ones." To avoid this she suggested one stay with only one

color line, have a basic wardrobe in the price range you can afford, ask your husband or a child how a style looks on you; were only a few of the tips she gave before narrating a style show featuring ready-to-wear from Greene's, Saye's, John's, and Parker-Perkins.

Punch and cookies were served and an informal visit with guests was enjoyed immediately following the program. Mrs. Sherry Semrad was workshop chairman. Bob and Dee's, florist, provided floral arrangements.

The Young Homemakers will be sponsoring other workshops throughout the year and the public is always invited to attend. This is a part of the Adult Home-making Education program of Clarendon High School.

SR. BRONCHOS HONORED

The thirteen Senior football boys were honored Monday night, November 23, in the home of Mr. and Mrs. Stina Cain. After a meal of roast, gravy, green beans, creamed potatoes, salad, a relish plate, rolls, pecan pie and iced tea they were shown films of each of their football banquets the past five years, beginning with the one in the 7th grade. There were also snapshots of each year from the time they began as "Colts" until the end of their "Broncho" football season.

The thirteen boys present were Bobby Cain, John Grady Douglas Bradshaw, Tommy Waldrop, Lloyd McCord, Freddie McAnear, Gene Branum, Kenneth Price, Jack Robinson, Gerald Welch, Richard Bell, Buddy Wooten and Bernie Green and the coaches Mr. Walker, Mr. Noonkester and Mr. Sullivan.

The mothers of the boys furnished and prepared the meal.

In a beautiful candle light ceremony, eight new members were initiated into the Iota Chapter of Phi Theta Kappa, National Honor Society of Junior Colleges. The ceremony was held Wednesday evening, November 18 at 7:00 p.m. in the Hospitality Room of the Farmer's State Bank. Bill Trostler, Higgins sophomore, acting President, and Doyle Morris, Boy's Ranch sophomore, acting Vice-President, presided as the candidates stood in a circle, holding unlighted candles. Each candidate knelt, placing his hand on the Bible and repeating the oath, before signing the membership book. Then his candle was lighted by the presiding officer. Refreshments were enjoyed by the group after the ceremony was concluded.

To be eligible for membership in Iota Phi, a candidate must already have completed at least 15 semester hours with a minimum B average and must maintain a 2.0 overall average, carrying a minimum of 15 hours per semester. The new members of Iota Phi include the following sophomores: James Boliver, Hedley; Perry Grulhkey, Adrian, Dean Johnson, Quail; Larry Hight, Jeannine Lowe, Steve Richerson, Marilyn Ridenour, Ann Weatherly, all of Clarendon. Other guests included Mrs. Joan Hamilton, sponsor of Iota Phi and Mrs. Eureda Mays, an alumni of the local chapter.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — International attention came to Austin as Pres. Lyndon B. Johnson carried on the nation's business while resting from his campaign.

President-elect Gustavo Diaz Ordaz of Mexico flew in for informal discussions at the LBJ Ranch. President and Mrs. Johnson arranged a barbecue in appreciation of the strong support given his candidacy by Americans of Mexican ancestry.

Latin-American leaders from Texas, New Mexico, California, Kansas, Oklahoma and Louisiana were invited to the affair. Heaviest representation came from the cities of South Texas where huge LBJ majorities were rolled up.

Top business leaders from Houston, Dallas, San Antonio and Los Angeles, also were on the select list of guests. All were entertained by Milton Berle, Eddie Fisher and Gene Autry. Also by Clint Harlow's sheep-dog troupe and a bevy of Mexican musicians and singers.

There was talk of a possible change in a cabinet post vital to Texas—that of secretary of Agriculture.

If Orville Freeman should be named senator from Minnesota to replace Vice President-elect Hubert Humphrey, Johnson may choose a secretary from Texas. Among those considered to be on the list are Dolph Briscoe Jr., Uvalde rancher, and Sterling C. Evans, Houston farmer and rancher who heads the Texas

A&M board of directors.

LATE INAUGURAL — Gov. John Connally may have a late inauguration.

Ceremonies likely will be postponed from January 19, when he normally would take oath of office, to January 26.

Postponement, ramrodded by the State Democratic Executive Committee, is aimed at helping Texans arrange their schedules so they can attend inauguration ceremonies of both President Johnson and Governor Connally. Presidential inauguration is fixed at January 20 and thousands of Texans plan to attend. Many prominent political figures would have to pass up Connally's swearing-in to reach Washington on time for Johnson's ceremonies.

Besides, the President wants Governor and Mrs. Connally there.

SDEC will call on members of the Legislature to co-sponsor a joint resolution to postpone the governor's inauguration.

If a majority of lawmakers sign, the Texas inaugural committee will go ahead with its plan to push back the Connally swearing-in date. A vote of the Legislature would make the change official after lawmakers convene here on January 12.

Texas constitution provides that the governor shall be installed on the first Tuesday after organization of the Legislature, "or as soon thereafter as practicable."

SLANT WELL SUITS — Filing of two civil penalty suits in the 53rd District Court in Austin, for alleged slant-well activity, were made by Atty. Gen. Waggoner Carr.

First to be filed against were J. C. Stroud and W. V. Stroud, both of Rusk County, and G. M. Jordan of Kilgore. Suit involves one well in Rusk County.

Named as defendants in the second suit were the Strouds and M. M. Harding of Kilgore. Second suit involves two wells in Rusk County.

AG OPINIONS — Attorney General Carr ruled that it would be legal for a commissioner's court to buy a helicopter for the county sheriff, if there is enough money in the right funds.

He held that a sheriff may buy any equipment he needs to do his work, but it is up to the commissioners court to decide whether a helicopter comes under "reasonable" expenses.

Carr also determined that, under a treaty clause, a Mexican consul stationed in Texas and bringing in liquor for use by consular officials, is not bound by the liquor import restrictions (quart per person) applying to Texas citizens.

He concluded that the State Parks and Wildlife Commission has the right to prohibit deer hunting on state owned dry river beds in Dimmit, Uvalde, and Zavala counties.

CONNALLY FIRST — Governor Connally was the first Texan to participate in the 1964 Census of Agriculture of the U. S. Department of Commerce. He filled out a census form concerning his ranch operation near Floresville.

Agricultural resources census has been taken every five years since 1840. Data is confidential and can be used only for statistical purposes.

VALLEY MENTAL FACILITY PLEDGED — State Hospital Board was informed that a new in-patient mental treatment facility, for the Lower Rio Grande Valley, will be provided in the near future.

Dr. C. J. Ruilmann, director of mental health and hospitals, said such a service is under consideration. It is to be patterned after the local-participation "contract care" recently made available in Beaumont, El Paso and Lubbock.

Board members accepted a \$225,000 grant by the Moody Foundation of Galveston to construct a regional diagnostic center for mentally retarded children at new Richmond State School. Center was acclaimed by Board Chairman Howard T. Tellespen as a "major breakthrough in cooperation between state and private agencies to combat mental retardation."

BANK HEARINGS SET — State Banking Board set hearings for November 24 on applications for charters by the proposed Northline State and Western State banks in Houston, the Jacinto City Bank at Jacinto City and the Conroe Bank and Trust Company in Conroe.

November 25 hearings were set for the proposed Merchantile Bank and the Stella Link State Bank in Houston.

VET LAND LIST LIMITED—Veterans' Land Board voted that no more names be accepted on its waiting list since funds will not be available to purchase land for veterans not already on the list.

Land Commissioner Jerry Sadler stated that more than 35,000 veteran purchasers will have bought land through the program when it ends in December, 1965. Those already on the list can expect to be reached before the program ends.

CARR TO WASHINGTON — Attorney General Carr made the latest in a series of appearances before the U. S. Supreme Court in Washington, D. C., this week when he argued for the State of Texas in the hearing on John William Stanford Jr. versus the State.

Stanford is the San Antonian who was ordered last December by the Subversive Activities Control Board in Washington to register as a Communist. He is appealing that order in another court.

Appeal Carr is working on involves Stanford's protest that State officials illegally searched his house and took some 2,000 items, including personal effects, without lawful cause.

Stanford is being defended by attorneys for the American Civil Liberties Union.

HUNTING SEASON HINTS—Parks and Wildlife Department has prepared a new hunting digest. It includes a Texas hunting map which shows where to hunt

what and when. The digest, available at most places where hunting licenses are issued, also is available free, by writing the department in Austin.

Parks and Wildlife Department is advising hunters to fill out their deer tags carefully and attach securely to the deer killed.

SHORT SNORTS

Highway Commission Chairman Herb C. Petry Jr. told the 800-plus delegates to the Texas Public Employees Association convention in Austin that they have 10 million bosses—namely all the citizens of Texas.

State Selective Service Director Col. Morris S. Schwartz announced that the state draft quota for December is only 280, compared to 307 in November.

State's General Revenue Fund still is \$22,400,000 in the black. State Board of Education voted 14-6 to place the protested biology textbooks on the list from which the local districts can choose texts.

State Savings and Loan Commissioner James O. Gerst turned down application for a new savings and loan association at DeSoto in Dallas County. District Judge Herman Jones of Austin upheld the State Banking Board in granting a charter to a new bank at Yorktown in Dewitt County.

Jack Cox, who has campaigned for congress, governor and U. S. Senator, now is Executive Vice President of the South Padre (Island) Investment Corporation with offices here.

MANGER SCENE TO BE ON COURT HOUSE LAWN

The manger scene that was placed last year, across from the Post office, will be located on the Southeast corner of the Court House Lawn this year.

The manger scene sponsored by the Jaycees, Jaycee-ettes, & Ministerial Alliance, is a part of the Christmas Decoration program for Clarendon and is one of the finest in the area. Many individuals within the community spent long hours in its planning and construction.

Daniel Nutter will be serving as Chairman in charge for the City Decorations on the part of the Jaycees this year.

SUCCESSFUL TESTING—The XV-8A FLEEP has completed flights under a two month research test program at Yuma, Arizona Proving Ground. Powered by a 210 horsepower Continental pusher type engine, the FLEEP can operate from almost any unimproved site that can accommodate normal helicopter operations. Ryan Aeronautical Company is the developer of the FLEEP.

the eve of the most ferocious military engagement ever fought in the Texas Panhandle—the so-called "First Battle of Adobe Walls."

It was on November 24, 1864 that scouts ranging ahead of Colonel Kit Carson's force of 400 U. S. soldiers and friendly Indians discovered 4,000 to 5,000 Hostile Kiowas and Comanches camped along the Canadian River in what is now Hutchinson County. This day was the second of the nationally established Thanksgiving Days as designated by President Lincoln's proclamation, but accounts of the battle indicate that no one in Carson's command was giving thought to the occasion.

The purpose of Carson's campaign was to punish the Kiowas and Comanches for a series of summer and fall attacks along the lightly guarded Santa Fe trail. Colonel Carson had led his force from Fort Union, N. M., whose remains are today preserved as a National Monument north of Las Vegas, into the Texas Panhandle to attack the Indians in their winter encampment. After scouts found the hostile villages late on November 24th, the soldiers attacked at dawn the next day, driving the enemy from one village and some 170 tepees and moving swiftly eastward down the north bank of the river toward other villages sighted by the soldiers.

soon his command was surrounded by more than 3,000 Indian warriors who repeatedly charged the ring of troopers. The battle raged through the day and finally Carson was forced to order a withdrawal back through the destroyed Kiowa village and to the safety of the hills beyond.

Military men who studied the battle believe the U. S. soldiers might have been annihilated, as Custer's command was to be wiped out 12 years later and 1,000 miles to the north, had not Colonel Carson bolstered his Cavalry and infantry with two mountain howitzers. The cannon kept the attacking Indians from concentrating their attacks and then provided the necessary support for the retreat Carson ordered late in the day.

It is believed that the battle in the Panhandle that day 100 years ago was the largest pitched battle from the standpoint of the number of men engaged, ever fought between soldiers and Indians west of the Mississippi. Now, visitors occasionally drive to the Turkey Track Ranch to visit the monuments commemorating the Adobe Walls battle fought in 1874, when Billy Dixon and a band of Buffalo hunters fought off another force of hostile Indians, not realizing that another stirring chapter of our Panhandle story was written ten years earlier, about a mile and a half away, at Thanksgiving time.

TO THE PEOPLE OF THE 18th DISTRICT

By Congressman Walter Rogers

Most of us will celebrate Thanksgiving Day as the traditional American family holiday, giving thanks for the blessings that have come to us and our loved ones. President Johnson, in his Thanksgiving proclamation, asked that all Americans gather in homes and places of worship to "give thanks to God for His graciousness and His generosity to us, and to pray to Him that the forces of evil, violence, indifference, intolerance and inhumanity may vanish from the face of the earth and that peace, reason, understanding and goodwill may reign supreme throughout the world."

Thanksgiving is a day of peace, of rest. Because of that, it is interesting to note that Thanksgiving Day 100 years ago marked

ENUMERATORS NAMED FOR CENSUS OF AGRICULTURE IN DONLEY COUNTY

Enumerators have been named in Donley County for the 1964 Census of Agriculture, Crew Leader Louise Henard said today.

Enumerators in Donley county belong to a force of 23,000 throughout the nation employed temporarily by the U. S. Bureau of the Census for the year's Census of Agriculture.

Enumerators are key workers in an agricultural census. It is the enumerator's responsibility to locate every farm within an enumeration district assigned to him (or her), determine if the operator of the farm has answered all questions on a questionnaire that will be mailed to the farmer by the Census Bureau, help the farmer complete any unanswered questions on the form, check answers for accuracy, and deliver the form to the Census Bureau.

A Census of Agriculture is taken every five years in the years ending in "4" and "9" to gather needed, up-to-date information on the nation's agricultural resources and production. Such information is vital in making decisions affecting many segments of the U. S. Economy. Data gathered include the number and size of farms, acreage and harvest of crops, livestock inventory, information on farm equipment and improvements, farm products sold, and on some production expenditures. Information also will be collected on use of fertilizers, insecticides and herbicides.

The enumerators will be trained in a special 4-day home study course designed to prepare them for the farm census, their crew leader said.

The following persons have been appointed: Mrs. Marie Bell, Mrs. Sharon Wheatley, and Mrs. Claudia Cooke.

FARM NEWS

from County ASCS Committee

COTTON REFERENDUM

The Secretary of Agriculture has proclaimed Marketing Quotas on the 1965 crop of Upland Cotton. A cotton referendum will be held on Dec. 15, 1964, to determine whether or not marketing quotas will be in effect for the 1965 crop. The 1965 national allotment has been set at the minimum of 16 million acres, the same as for 1964. The basic program choices are: (A) It at least two-thirds of the growers who vote in the referendum approve quotas, the quotas will be in effect for the 1965 crop. Marketing penalties will apply to any excess cotton produced on the farm. Price support loans at a level within range of 65 to 90% of parity will be available to farmers who do not exceed their acreage allotment, and in addition, price support payments can be earned by the farmer for keeping their acreage within the farm's "Domestic Allotment." (B) If more than one-third of the growers who vote, oppose the quotas, then there will be no quotas and no penalties applicable to the 1965 Upland Cotton crop, no "domestic allotment" program providing price support payments, and price support to farmers who comply with their acreage allotments will be available at 50% parity, as directed by law.

Notice of allotments and other program details for individual farms will be made available to growers prior to the December 15 referendum.

CITY FIRE MARSHALL SAYS FIRE HAZARDS SHOULD BE REMOVED

City Fire Marshall, George L. Green, is reminding everyone that this is the time of year when all fire hazards around your home or business should be removed. Since the frost has come and grass and leaves will be quite an added hazard, he is asking that you rake them up and haul them to the dump ground. If you burn trash in your alley or barrel, please stay with it until all is burned up, then take and wet it down.

Check your gas plumbing for leaks and use only safe materials for connections. Also, do not overload your electric wiring and have it checked for safety.

He said "only recently an insurance co. paid out \$26.50 on a garage that was set on fire by a trash barrel. It also cost the city and you taxpayers money to put the fire out."
